October 30, 2025

The Honorable Ken Weyler, Chairman
Fiscal Committee of the General Court
State House
Concord, NH 03301

INFORMATIONAL ITEM

The Department of Health and Human Services hereby submits caseload information through September 30, 2025, except for data for NH Unemployment Rate, Mental Health and SUD Caseload, which is available through August 31, 2025. In addition to the caseload data provided in the attached, the Department wants to provide the following key updates:

Budget Reductions: Chapter 140, Section 12, Laws of 2025, requires the Department to reduce general fund expenditures by $25,500,000 million in State Fiscal Year (SFY) 2026 and by $25,500,000 in SFY 2027. To effectuate the required and anticipated reductions, beginning in July, the Department conducted a comprehensive review of all existing programs, contracts, assistance, and other budget lines to identify potential reductions. The Department operated under the guiding principle to minimize harm to vulnerable populations and considered the following:

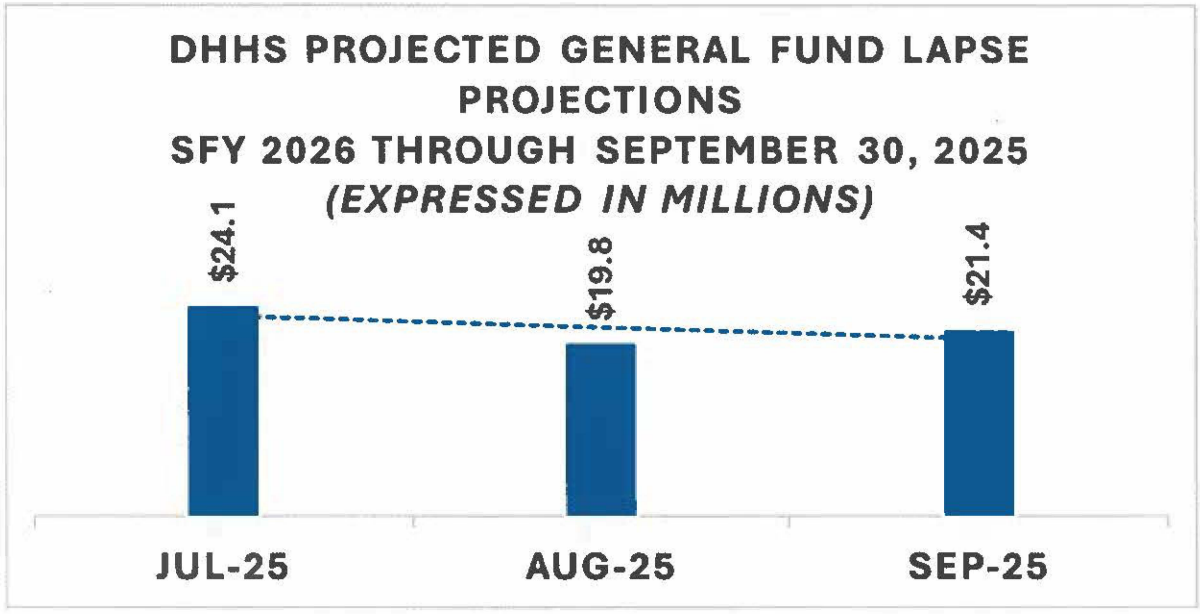
- Prior year spend and current spending trends to identify areas where spending could be held at prior year expenditure levels.
- Reduction of contract scope that would result in minimal direct impact on direct services.
- Identification and consideration of any legal risk.
- Review of prior year contract encumbrances where work was substantially complete to liquidate funds.

The Department has initiated conversations with providers and contractors whose contracts will either be terminated or amended. Further, the Department has already realized one-time only reductions of approximately $15 million in SFY 2026 by writing down individual class lines where funds have been determined to be available. These reductions will not be available in SFY 2027 which means the Department anticipates the SFY Year 2027 reductions to be more significant.

General Fund Lapse: The Department actively monitors spending trends and general fund lapse on a monthly basis. Under existing state law, only approximately 33% of all available General Funds in the Department's budget is available to lapse in SFY 2026. For example, services provided under the Medicaid Waivers for developmental disability, nursing facility, and the choices for independence program, represents roughly $345 million or 32% of all budgeted general funds in SFY 2026. While the Department does track and project spending, anticipated commitments, encumbrances, and other factors at the detailed class line level, there are a number of factors outside of the Department's control that will drive spending which includes, but is not limited to:

- **Utilization by NH Clients:** A multiplicity of factors, influenced by NH clients and providers, drive spending which includes: Childcare scholarship, cash assistance, foster care, youth treatment, and other similar services.
- **Contract Spending:** Payment is only made for actual costs incurred/deliverables.
- **Personnel:** Personnel represent approximately 11% of DHHS's budget and General Funds represent about half of all personnel funds.

It is too early in SFY 2026 to definitively estimate the Department's General Fund lapse. However, the following table provides initial month-by-month estimates. These estimates will be subject to change, but do show initial projections based on current trends, assumptions, and known factors.



Childcare Scholarship: The Department is actively monitoring spending in support of the Child Care Scholarship program to identify the potential of any shortfall in budgeted funds that could result in a waitlist. Pursuant to Chapter 141:71, Laws of 2025, the Department may request, with prior approval of the Fiscal Committee and Governor and Executive Council, additional general funds to support the program if a waitlist is projected. While the Department has limited trend data available for SFY 2026, the Department has identified the potential need for additional funds within the biennium ending June 30, 2027. The Department is monitoring weekly spending and developing various projection models. The Department will provide updated reports as spending trends continue to develop in SFY 2026.

Respectfully Submitted,

Lori Weaver

Lori A. Weaver
Commissioner

DEPARTMENT OF HEALTH AND HUMAN SERVICES
