SENATE CONCURRENT RESOLUTION 4

A RESOLUTION urging the federal government to establish a ~~post office in~~ zip code for the town of Madbury.

SPONSORS: Sen. Wheeler, Dist 21; Rep. Wall, Straf 9; Rep. N. Kaen, Straf 7

COMMITTEE: Internal Affairs

ANALYSIS

This concurrent resolution urges the New Hampshire congressional delegation and the federal government to expedite the establishment of a post office in the town of Madbury.

SCR 4 - AS INTRODUCED

00-2649
08/09

STATE OF NEW HAMPSHIRE

In the Year of Our Lord Two Thousand

A RESOLUTION urging the federal government to establish a post office in the town of Madbury.

Whereas, the town of Madbury has a population in excess of 1,500; and

Whereas, a number of towns in the state of New Hampshire have populations smaller than the population of the town of Madbury and yet have one or more post offices; and

Whereas, the town of Madbury is presently served by a post office outside of the town; and

Whereas, the post office serving the town of Madbury located in the city of Dover is overburdened, often requiring patrons to stand in line for several minutes to obtain counter service; and

Whereas, this post office also experiences severe traffic congestion and parking problems which are a burden to the residents of Madbury and Dover; and

Whereas, because the town of Madbury has no ~~in-town post office it has no~~ designated zip code, causing mail to be delayed, misdirected and lost, and causing confusion and annoyance on the parts of persons outside the town and the state of New Hampshire trying to reach the town of Madbury and residents of the town of Madbury; and

Whereas, the town of Madbury has a fast growing population; and

Whereas, no known opposition exists within the town of Madbury to establishing a ~~post office~~ zip code for ~~within~~ the town; and

Whereas, it appears that the residents of the town of Madbury support this resolution; now, therefore, be it

Resolved by the Senate, the House of Representatives concurring:

That New Hampshire's congressional delegation and the federal government are strongly urged to take all possible steps necessary to expedite the establishment of a ~~post office in~~ zip code for the town of Madbury; and

That copies of this resolution be forwarded by the senate clerk to the New Hampshire congressional delegation and to the United States Postmaster General in Washington, D.C.

MEMORANDUM

Date: **January 27, 2000**
Time: **3:15 PM**
Room: **103-LOB**

The Senate Committee on ***Internal Affair*** held a hearing on the following:

SCR 4 [***New Title***] ***urging the federal government*** to establish a new zip code for the town of Madbury.

Members of Committee present: *Senator D'Allesandro*
Senator Klemm
Senator Francoeur
Senator Pignatelli
Senator Trombly

The Chair, Senator Lou D'Allesandro, opened the hearing.

Senator Lou D'Allesandro. D. 20: We will open the hearing on Senate Concurrent Resolution 4 urging the federal government to establish a new zip code for the town of Madbury. I call upon the prime sponsor Senator Katherine Wheeler. Thank You Senator.

Senator Katherine Wheeler, D. 21: Thank you Mr. Chairman and member of the committee. I am Senator Katie Wheeler and I represent Dover, Durham, Lee, Rollinsford and Madbury. When Doug and I first moved to New Hampshire in 1965. We moved to Madbury so it was the first place I lived in New Hampshire. I have a lasting affection for the town of Madbury and I remember from those years the frustration of how to have letters address to us. That represented where we lived and would actually still be delivered to us. So we wound up often having to write Dover on our return address. Which I did not like to do because we know how much we cherish the little towns in New Hampshire and each on has it's own special identity. Which I think we all want to preserve as part of our New Hampshire legacy.
So the two woman behind me are amazing activist in Madbury, and when I saw Lorraine Morong at another event. She mentioned this strong desire which I know has existed for some time. And when Representative Leo Spencer was in the House he was successful in straightening up what was going on in the town of Lee. We didn't get a post office for Lee but we got a unified zip code. Lee did not get it's own zip code it wound up using Durham's zip code but it says Lee and then Durham's zip code before it had been two separate zip codes one New Market and one Durham it was very confusing. At the moment Madbury has to use Dover's zip code and they can say Madbury. But it isn't the same as having your own zip code. I had the resolution drafted to mimic the language that we had used some years ago for the town of Lee.

Since then Lorraine Morong will testify that probably we can't expect to get a post office in the town of Madbury. It would be a lot to ask for. But we don't think it is to much to ask for a special zip code. We are not running out of zip codes we can figure out numbers that would be a good zip code for Madbury. So I will suggest that we will amend this resolution to ask for a zip code rather than a post office and I will cease my testimony to allow the woman from Madbury to testify and I will say the Joann Schrieber was a representative from the town of Madbury and one of the first woman we elected to office from our area. So I am excited that she is here. Thank you very much.

Senator Lou D'Allesandro. D. 20: Thank you Senator .
Senator will you submit an amendment that asks just for the zip code?

Senator Katherine Wheeler, D. 21: Yes. I will check with the Madbury woman and find out how we should have it worded and I will get it ready for you.

Senator Lou D'Allesandro. D. 20: Any questions. Senator Francoeur

Senator Gary Francoeur D. 14: Is there any criteria for the Federal Government to issue a zip code. That you know of.

Senator Katherine Wheeler, D. 21: Well I would say it is fairly loose. And I won't take Lorraine Morong thunder away by giving you some examples. But if you hear her testimony you will begin to wonder what the criteria might be.

Senator Gary Francoeur D. 14: Is their a different criteria a written that you know of.

Senator Katherine Wheeler, D. 21: I don't know. We'll find out. But that is a very good question.

Senator Lou D'Allesandro. D. 20: Further questions. Thank you ver much Senator Wheeler.
Will Lorraine Morong. For the record just state your name Lorraine.

Lorraine Morong: I am Lorraine Morong and I live on the Piscataqua Bridge Rd. in Madbury. And the selectmen said that I was representing him today. **(see attached testimony)**

Senator Lou D'Allesandro. D. 20: Thank you, Lorraine. Any questions for Lorraine. Lorraine you were terrific.

Joann Schrieber: Joann Schrieber from Madbury. Former member of the opposite House. But I guess I was going to appear here as a member of the late sewing circle and terrorist society two person society but I was impressed into by Lorraine Morong. However she said this might not be fashionable today. To make that identity so I am a resident of Madbury and have be involved in the planing process the master plane is going on. We have a civic district planing effort. And we are very much interested in trying. We are away shaped community squeezed between Dover urban and Dur-

ham suburb and it is our part of our effort to try to establish this sense of uniqueness which we feel we have. We do have a regional role a important one as the curator of water resources for the surrounding area Portsmouth water supply, Dover water supply, and adjoining towns. We form a buffer between the expanding large communities but we don't want to be absorb. And so that is the point of view we have. However when I heard of this yesterday I tried to do a little research and I made a couple of phone calls to postal office personal in the offices in Manchester. To find out how this business of zip code worked. I did not know that the language for this was for a post office. Which has been the .....reestablish Madbury post office has not been good because of it's size. So I did investigate only what I could about the zip code ..... And the policies and criteria which I believe you were interested in and I too. That would determine such a thing. I found volume is one and I doubt if we would classify for that. Locally in Dover Liberty Mutual a big Insurance Company has it's own. It's done on a case by case basis. The officers of the management of address systems is the determining group in Manchester . I do have some address for that, if you want them. It appears that where as this bill was addressed to the government which would be determining in the matter in of a post office establishment. What we would be dealing with zip code is a private enterprise. which is under contract I guess with the government and they have a very different attitude the couldn't careless about our sense of identity as a community. Their dealing with matters of ease with distribution and of..... in general. That's all they care about. I would say I understand that there are 75 communities in the state of NH which are in a similar position being absorb in the zip code into a larger community. How we would make the case I think would be a matter of individual effort. The legislature could very well be of help on some basis. But I think it is going to be difficult and I think it is going to take some effort to establish some reasons of what we are interested in which is identity. One thing I did turn up was that insurance companies determine their rates according to zip code. And that could make a big different in a rural community verses be a urban. And I think that would be a talking point for separation from the city of Dover. In this fact of course it isn't something that is under control of the postal service but it is a factor that is a talking point for us I think. Other than that I think if it is approved here in the state it goes on to the nation head quarters and they have a different they are cherry about handing out a complex about handing out a number of zip codes. But we are making the case and hope that you can be helpful in this matter. Thank you.

Senator Lou D'Allesandro. D. 20: Thank you very much for you testimony. Any questions. Senator Francoeur.

Senator Gary Francoeur D. 14: I am all set thank you.

Joann Schrieber: I would be glad to see that Katie, Senator Wheeler gets what information I have about the offices I contacted.

Senator Lou D'Allesandro. D. 20: Thank you very much. Is their anyone who wishes to speaks for or against this resolution. If not I close the hearing. Thank you very much for attending.

HEARING CLOSED AT 3:30 p.m. [*Transcribed by Ann Daniels*]

Date: January 27, 2000

Time: 3:15 PM

Room: 103-LOB

The Senate Committee on Internal Affairs held a hearing on the following:

SCR 4 [New Title] urging the federal government to establish a new zip code for the town of Madbury.

STATE OF NEW HAMPSHIRE

In the Year of Our Lord Two Thousand

A RESOLUTION urging the federal government to establish a post office in the town of Madbury.

Whereas, the town of Madbury has a population in excess of 1,500; and

Whereas, a number of towns in the state of New Hampshire have populations smaller than the population of the town of Madbury and yet have one or more post offices; and

Whereas, the town of Madbury is presently served by a post office outside of the town; and

Whereas, the post office serving the town of Madbury located in the city of Dover is overburdened, often requiring patrons to stand in line for several minutes to obtain counter service; and

Whereas, this post office also experiences severe traffic congestion and parking problems which are a burden to the residents of Madbury and Dover; and

Whereas, because the town of Madbury has no in-town post office it has no designated zip code, causing mail to be delayed, misdirected and lost, and causing confusion and annoyance on the parts of persons outside the town and the state of New Hampshire trying to reach the town of Madbury and residents of the town of Madbury; and

Whereas, the town of Madbury has a fast growing population; and

Whereas, no known opposition exists within the town of Madbury to establishing a post office within the town; and

Whereas, it appears that the residents of the town of Madbury support this resolution; now, therefore, be it

Resolved by the Senate, the House of Representatives concurring:

That New Hampshire's congressional delegation and the federal government are strongly urged to take all possible steps necessary to expedite the establishment of a post office in the town of Madbury; and

That copies of this resolution be forwarded by the senate clerk to the New Hampshire congressional delegation and to the United States Postmaster General in Washington, D.C.

Testimony

Lorraine Morong
117 Piscataqua Bridge Rd
Madbury, NH 03820-6805

SUPPORTING TESTIMONY relative to a ZIP CODE NUMBER for MADBURY

Madbury is a small town situated between Dover and Durham. I dare say few people knew it existed until Jeanne Shaheen put it on the map.

Madbury has about 1500 people. It has no village green, no general store, indeed, not even a "convenience" store -- only a Town Hall with a small church diagonally across from it and an elementary school off through the trees.

But Madbury used to have a general store, down near the railroad station. There was a post office with a postmaster, John Rowe, in the store. All that is left of that, the old wall section of post office boxes, is one of the historical treasures the town cherishes.

Now to tell you why Madbury needs its own zip code. We have been assigned the same zip that Dover uses for <u>delivered</u> mail. However, complications arise because there are street names used by both Dover and Madbury, such as Mast Road and Garrison Lane.

We are allowed to use the name "Madbury" in our address, with the Dover zip. However, on most magazines, mail order labels, and material sent by large organizations, when the zip is punched in, the name "Madbury" is obliterated and we are displaced to "Dover."

This really is not fair to us since, for instance, our town is not credited with donations we make to charitable organizations, when our address reverts to Dover.

But mainly we need our own zip code in order to try to maintain our own identity as a town. We are not an annex of Dover.

During a series of forums held during 1997 which sought public input on how Madbury should be and look in the future, the need for us to have a post office was foremost on the residents' "wish list."

People who have post office boxes in Dover have a different zip than those whose mail is delivered. Cruise ships are given their own zip codes -- so why shouldn't a town with a Town Hall, a church, a school, and 1500 people have its own zip code? Granted, we'd like a post office, but we'd settle for a zip number of our own.
