STATE OF NEW HAMPSHIRE

*In the Year of Our Lord Two Thousand Three*

AN ACT relative to emergency access to Interstate 95 in the towns of Hampton and Hampton Falls and making an appropriation therefor.

*Be it Enacted by the Senate and House of Representatives in General Court convened:*

1 Emergency Median Crossover; Interstate 95; East Road. The department of transportation shall build a median crossover across the median of Interstate 95 in Hampton Falls to the north of the East Road emergency access but in proximity to it, to provide passage between the northbound and southbound lanes for emergency vehicles.

2 Emergency Median Crossover; Interstate 95; Taylor River. The department of transportation shall build a median crossover across the median of Interstate 95 in the vicinity of the Hampton Falls and Hampton town line, to the south of the Taylor River, to provide passage between the northbound and southbound lanes for emergency vehicles.

3 Appropriation. The sum of $100,000 is hereby appropriated to the department of transportation for the fiscal year ending June 30, 2004 for the purposes of this act. This sum shall be a charge against the turnpike fund.

4 Effective Date. This act shall take effect July 1, 2003.

Revised 2/27/03

# HB 631 FISCAL NOTE

AN ACT relative to emergency access to Interstate 95 in the towns of Hampton and Hampton Falls and making an appropriation therefor.

## FISCAL IMPACT:

The Department of Transportation indicates this bill will increase state turnpike fund restricted expenditures by $300,000 in FY 2004. There will be no fiscal impact on state, county and local revenue or county and local expenditures.

This bill appropriates $100,000 in turnpike funds for the fiscal year ending June 30, 2004 to the Department of Transportation for the purposes of this bill.

## METHODOLOGY:

The Department estimates that to build the two median crossovers specified in this bill it will cost $300,000. The cost per location is $150,000, which includes the design, permit and the cost to construct each crossover. The Department assumed that construction would be by contract, not turnpike forces, and removal of one or more existing crossovers which for safety reasons could be needed, are not included in the estimated cost.

TESTIMONY

* Use asterisk if written testimony and/or amendments are submitted.

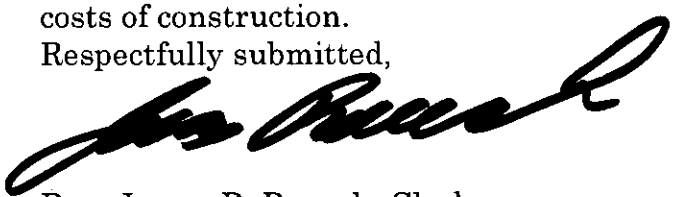

**Prime sponsor, Rep. Weare**, the purpose of the bill is to create two crossovers to allow for emergency access to Rt.95. in the towns of Hampton and Hampton Falls. This request is on behalf of the fire departments from these communities.

**Chief Hank Lipe, represents the town of Hampton**, he is speaking in **support** of this legislation. His presentation utilized a map that delineated the routes of emergency traffic. The crossovers would improve public safety.

**Lyle Knowlton, Department of Transportation, Director of Operations**, They have not taken a position but have submitted maps showing the proposals.

**Harvey Goodwin also from DOT** testified on this legislation. He described the existing and proposed crossovers. The DOT is in support of safety and is willing to work with the parties involved. Additionally there is a Fiscal Note that reflects the costs of construction.

Respectfully submitted,

Rep. James B. Rausch, Clerk

the inundation that can be expected to result from a worst case combination of hurricane landfall location, forward speed, and direction for each hurricane category.

3. The FEMA 100-year flood zones are shown for reference to depict those areas beyond the hurricane surge inundation areas where coastal or inland flooding may be expected.

4. FEMA 100-year flood zones are not shown for Durham and Dover. The FEMA data was not available in electronic format for those communities. Please refer to the Flood Insurance Rate Maps for those communities.

5. Ground elevation data was developed from 1:4800 scale aerial photography. The vertical accuracy is approximately +/- 5 feet, and the horizontal accuracy is approximately +/- 10 feet.

6. The locations of shelters were obtained from local Emergency Management Directors and State and Regional Red Cross Officials.

7. The locations of Hospitals and Medical Facilities were obtained from local Emergency Management Directors and existing mapping sources.

8. Basemap features such as roads and streams were obtained from NHGranit, and most have a source scale of 1:24,000.

It became apparent during testimony that the New Hampshire Department of Transportation is working on a series of improvements to the turnpike in this area. Also, there have been preliminary talks with the Hampton Fire and Rescue Service. It is the committee's expectation that the cooperation between the two parties can solve the access problems more quickly than through legislation.

Vote 16-0.
