HOUSE OF REPRESENTATIVES

REPORT OF COMMITTEE

The Committee on Labor, Industrial and Rehabilitative Services to which was referred HB 1358,

AN ACT requiring public and private employers to establish procedures and exceptions for the use of mandatory intrusive testing as a condition of new or continued employment. Having considered the same, report the same with the following resolution:

RESOLVED, that it is INEXPEDIENT TO LEGISLATE.

Rep. Andrew Prout

FOR THE COMMITTEE

Original: House Clerk
Cc: Committee Bill File

COMMITTEE REPORT

Committee:	**Labor, Industrial and Rehabilitative Services**
Bill Number:	**HB 1358**
Title:	**requiring public and private employers to establish procedures and exceptions for the use of mandatory intrusive testing as a condition of new or continued employment.**
Date:	**March 1, 2022**
Consent Calendar:	**CONSENT**
Recommendation:	**INEXPEDIENT TO LEGISLATE**

STATEMENT OF INTENT

This well-intentioned bill sought to protect employees from excessive medical testing requirements. However, several issues were raised about how to draw a clear line between excessive and reasonable testing requirements, such as for an annual physical or post-accident drug testing as required in some industries. For those reasons and a few more, we recommend this bill be found Inexpedient to Legislate.

Vote 21-0.

Rep. Andrew Prout

Rep. Greeson		

TESTIMONY

* Use asterisk if written testimony and/or amendments are submitted.

Rep. William Foster Introduced the bill. This bill requires that any intrusive testing required by an employer must be accompanied by an opportunity to seek an exemption. Employers must also ensure that there is no discrimination or harassment of employees who seek such an exemption.

Rep. Prout: Would you see this bill prohibiting the use of a breathalyzer

Rep. Foster: No.

Rep. Prout: If a straw was inserted into the mouth wouldn't that be an insertion into an orifice?

Rep. Foster: If that is considered so I would welcome an amendment

Rep. Maneval: Would a thermometer in the mouth or a swab in the nose be an intrusion

Rep. Foster: Yes.

Rep. Avellan: Blood test an intrusion?

Rep. Foster: Yes

Rep. Infantine: Many times, blood tests are used after accidents. Would they be included in this.

Rep. Foster: Yes, but there are other tests that can be used.

Paula Minnehan of the NH Hospital Association testified against the bill. He said that employees who get an exemption to vaccines often agree to testing as an alternative.

Respectfully submitted,

Rep. Jonathan Mackie, Clerk

NEW HAMPSHIRE NURSES' ASSOCIATION

25 Hall St. Unit 1E, Concord, NH 03301
PHONE: (603) 225 -3783
EMAIL: office@nhnurses.org
WEBSITE: www.NHNurses.org

Dear Chairperson Infantine and Members of the House Labor, Industrial and Rehabilitative Services Committee,

I am providing this written testimony today on behalf of the NH Nurses Association in opposition to HB 1358 requiring public and private employers to establish procedures and exceptions for the use of mandatory intrusive testing as a condition of new or continued employment.

.

Historically, public and private employers have had the right to establish requirements for their employees to protect the health and safety of those same individuals and all who utilize their services. These requirements have long included requirements for testing, including pre-employment TB skin tests and others.

While there may be rare circumstances in which an individual has a real and sincere medical or religious exemption, this bill would add the option of a simple declared "conscientious objector" exemption.

If all healthcare employers and other businesses were prevented from establishing reliable, science-based requirements for testing, employees and patients or clients would not be able to reliably know that they were protected from exposure to certain infectious diseases.

Employers should not be prohibited from requiring testing that is necessary to ensure the health and safety of their employees and those they serve. Restricting evidence-based testing requirements and/or allowing conscientious objector exemptions may significantly inhibit employers' ability to maintain a safe work environment, while putting vulnerable and immune compromised individuals at risk.

The New Hampshire Nurses Association urges you to oppose HB 1358 and continue to allow employers the right to establish requirements for their own employees to protect the health and safety of those same individuals and all who utilize their services.

Thank you in advance.

Polly K. Campion

Polly Campion MS, RN
Member, NH Nurses Association

Dear Chairperson Infantine and Members of the House Labor, Industrial and Rehabilitation Services;

I am providing written testimony today in opposition to HB1358

This bill requires any public or private employer in the state to allow an employee an exemption from intrusive testing requirements. Any public or private employer in this state that mandates *intrusive* testing as a condition of new or continued employment shall, upon the employee's request for a religious or *conscientious objector* exemption, grant such exception. Any *public* or *private* employer in this state that mandates intrusive testing as a condition of new or continued employment, using an emergency use or experimental product shall, upon an employee's request, grant an exemption.

Historically there has never been a restriction for employers to test their employees for *their* safety and the safety of others.

- OSHA Act of 1970

  "To assure safe and healthful working conditions for working men and women; by authorizing enforcement of the standards developed under the Act; by assisting and encouraging the States in their efforts to assure safe and healthful working conditions; by providing for research, information, education, and training in the field of occupational safety and health; and for other purposes." https://www.osha.gov/laws-regs/oshact/completeoshact

  "(6) by exploring ways to discover latent diseases, establishing causal connections between diseases and work in environmental conditions, and conducting other research relating to health problems, in recognition of the fact that occupational health standards present problems often different from those involved in occupational safety;"

  https://www.osha.gov/sites/default/files/publications/osha3162.pdf

- **01/13/2022:** US Supreme Court OSHA decision- page 1 & 2 provide summary

  21A244 National Federation of Independent Business v. OSHA (01/13/2022)

- **01/13/2022:** US Supreme Court healthcare decision-Jan13, 2022-page 1 provides summary

  21A240 Biden v. Missouri (01/13/2022)

The bill would put all workers at risk if exposed to coworkers who are unvaccinated and who refuse to be tested on a regular basis.

The bill would affect healthcare organizations and is in conflict with recent Supreme Court decision.

The bill does not explicitly mention Covid and therefore may apply to other infectious diseases (TB testing).

The bill dictates what private employers can and cannot do to protect their workers.

The bill requires an exemption for anyone who seeks an exemption to include religious or *conscientious objector exemption.*

The bill would affect all businesses regardless of size.

I do not support this bill.

Thank you. Please feel free to contact me with any questions.

Carol Townsend MSN, RN, CNML

Today is a critical day. The most important virtue of all the virtues is Courage. Without courage the rest of the virtues are meaningless. Without courage then when the other virtues are at risk you cannot do what is right. Employers are now forcing unvaccinated workers to get tested and face financial penalties to do so. There was a new that clearly shows that with Omicron the vaccinated are getting effected at the same rate as the unvaccinated. We also have data out of Canada, Denmark, Scotland, UK, and Israel that show that the vaccinated are getting infected at higher rates per 100k then the unvaccinated. There is therefore no risk difference between the populations and no reason to penalize one over the other. Its very costly to test, and then a false positive could cause them to lose time at work as well. This is a light form of coercion and violates informed consent.

RE: HB 1358 requiring public and private employers to establish procedures and exceptions for the use of mandatory intrusive testing as a condition of new or continued employment

Dear Chairman Infantine and Members of the House Labor, Industrial and Rehabilitative Services Committee:

Bi-State Primary Care Association and our members respectfully request HB 1358, requiring public and private employers to establish procedures and exceptions for the use of mandatory intrusive testing as a condition of new or continued employment, be recommended inexpedient to legislate. Bi-State staff and our members will not attend legislative hearings due to the risk of COVID-19, and we thank you for the opportunity to submit written testimony to your committee electronically. Bi-State and our members write to you in strong opposition of HB 1358 because it interferes with the operations of private businesses, including health care organizations, in a way that endangers the health and welfare of Granite Staters by creating a conscientious objection to the testing of communicable diseases.

Bi-State Primary Care Association (Bi-State) is a 501(c)(3) nonprofit organization, formed by two health and social service leaders in 1986 to advance access to comprehensive primary care and preventive services for all, with special emphasis on those most in need in New Hampshire and Vermont. Today, Bi-State represents 28 member organizations across both states that provide comprehensive primary care services to over 300,000 patients at 146 locations. Our members include community health centers (CHCs), federally qualified health centers (FQHCs), rural health clinics (RHCs), area health education center programs, and Planned Parenthood of Northern New England. New Hampshire's 13 health centers serve approximately 112,000 patients at locations across the state, including in those districts represented by the members of the Labor, Industrial and Rehabilitative Services Committee.

Bi-State and our members oppose HB 1358 because it interferes with Granite State employers', including health care organizations', ability to maintain safe workplaces, and HB 1358 will needlessly endanger the health and welfare of patients.

On November 4, 2021, the Centers for Medicare & Medicaid Services (CMS) issued an Interim Final Rule with Comment Period (IFC) requiring that health care workers at Medicare and Medicaid-certified facilities – which include community health centers, federally qualified health

centers, and rural health clinics – be vaccinated against COVID-19.[1] As of January 19, 2022, the CMS vaccine requirement is in effect in all 50 states, Washington D.C., and the territories; and its legal status is not expected to change. The IFC also requires health centers to have a detailed set of policies and procedures relating to the CMS vaccine rules. These policies and procedures must apply to students in training who are working at health care organizations. Students training to be health care professionals receive hands-on training that includes contact with high-risk patients, including children too young to be vaccinated. Both the Medicare and Medicaid statutes contain several provisions that authorize the U.S. Department of Health and Human Services (HHS) to impose requirements necessary "in the interest of the health and safety of beneficiaries." CMS contends correctly that, under the Supremacy Clause of the U.S. Constitution, this IFC "preempts inconsistent State and local laws as applied to Medicare- and Medicaid-certified providers and suppliers." While the CMS rules do not allow health care workers to test in lieu of vaccination, health care organizations use testing to determine whether a worker is infected with COVID-19 to prevent the spread of the disease.

HB 1358 effectively eliminates one of the only methods health care organizations currently have to test for disease. Without the ability to test to prevent disease spread, health care organizations are putting the health of their staff and their patients at grave risk, including children, who account for ~53% of COVID-19 cases in New Hampshire on January 26, 2022.[2] The integrated services that health centers offer "all under one roof" include a wide range of pediatric services, family support programs, children's oral health care, and childcare to the community. Pediatric patients make up ~25% of health centers' patient population, and many of these young patients are immunocompromised or too young to be vaccinated. Moreover, overall, a high proportion of health center patients are at high risk of severe illness and hospitalization if they were to get infected with the virus, including pregnant mothers, patients who are experiencing homelessness, individuals with complex chronic illnesses such as diabetes and heart disease, and cancer patients.

In addition to the danger it poses for patients, Bi-State and our members oppose HB 1358 because they must comply with the federal law to operate and serve Granite Staters through Medicare, Medicaid, and state contracts.

Like vaccination requirements, testing for communicable diseases for health care workers before employment or continued employment is not new. For example, FQHCs are governed by patient-majority boards, meaning members of the communities served by the FQHCs approve the policies and procedures the FQHC must utilize. Their regulating body, the Health Resources and Services Administration, conducts site visits at least every three years, to ensure the FQHCs comply with the federal rules and regulations governing FQHCs. Health centers are required to "provide services….so that such services are available and accessible promptly, as appropriate, and in a manner that will assure continuity of services to the residents of the center's catchment area."[2] In order to demonstrate compliance with the clinical staffing requirements of FQHCs, an FQHC must have procedures in place to grant and renew privileges for clinical staff members who are "health center employees, individual contractors, or volunteers."[3] The procedures for privileging clinicians include verifying immunization and communicable disease status. As of

[1] "Guidance for the Interim Final Rule - Medicare and Medicaid Programs; Omnibus Covid-19 Health Care Staff Vaccination." *CMS*, https://www.cms.gov/medicareprovider-enrollment-and-certificationsurveycertificationgeninfopolicy-and-memos-states-and/guidance-interim-final-rule-medicare-and-medicaid-programs-omnibus-covid-19-health-care-staff-0#:~:text=On%20November%2005%2C%202021%2C%20CMS,Medicaid%2Dcertified%20providers%20and%20suppliers.

[2] NH DHHS COVID-19 Update (January 26, 2022), https://www.covid19.nh.gov/sites/g/files/ehbemt481/files/documents/2022-01/covid-19-update-01262022.pdf

January 13, 2022, all health care organizations that are Medicare- and Medicaid-certified provider organizations must ensure applicable staff are vaccinated against COVID-19. This is only one of several health care related requirement health care workers have, nor is it one that Bi-State or our members object to. Federal rules require health care organizations have testing procedures and policies in place to prevent the spread of disease. Health care organizations should not be prohibited from testing their employees for deadly diseases by the State because it puts people at risk for serious illness and death.

New Hampshire is suffering from not only our highest numbers of COVID-19 infections, hospitalizations, and deaths, but also extraordinary staffing shortages that are impacting all residents and their ability to access primary and emergency care. Staffing shortages at CHCs are *not* due to vaccine requirements; ~5% of their workforce is currently out sick due solely to illness from COVID-19. This does not include their health care staff who are unable to go to work because they are at home caring for a sick child, nor does it illustrate the incredible strain that working at reduced workforce capacity puts on the rest of their staff.

For these reasons and more, Bi-State Primary Care Association and our members respectfully request the Committee recommend HB 1358 be inexpedient to legislate.

Sincerely,

Kristine E. Stoddard, Esq.

Subject: Please support HB 1358

Dear Committee Members,

Please support HB 1358, allowing exemptions from intrusive testing requirements. I've been forced to take about 30 COVID-19 tests over the last year, all negative and all taken when I was clearly not sick. There is no scientific, ethical, or moral bases for the endless testing of healthy people (the vast majority), on the very slight chance they may have an asymptomatic case, on the very slight chance (less than 1%) they may asymptomatically expose someone else, on the very slight chance that someone else might then contract COVID-19 in spite of getting a safe and effective vaccine, on the very slight chance they might then get hospitalized and die of COVID-19.

It is just utterly irrational. It makes sense to help those who are sick get well, not constantly harass healthy people and interfere with their daily lives. When did we all become sick until proven healthy? People must be allowed exemptions from this lunacy.

Respectfully,
Rebecca Schwab

It is important to limit employers' ability to require intrusive COVID-19 testing for unvaccinated employees.

Invasive testing may be objected to on medical grounds. In fact, those who have received the jab carry higher viral loads in their nose and throat, than the unvaccinated who have innate immunity from having recovered from the virus. Either everyone gets tested, or no one gets tested.

It's hard to find good information because the medical authorities and agencies are hiding information and promoting so much propaganda. If you haven't yet seen Se. Ron Johnson's panel discussion today: https://rumble.com/vt62y6-covid-19-a-second-opinion.html
Discussion begins around 40 min mark.

If everyone gets tested, then unwanted, **invasive** testing that may be dangerous, may be objected to on religious grounds. My employer in Massachusetts let me go because I refused invasive testing due to my religion. Invasive testing was not an option for me, and they would not engage in interactive dialogue regarding non-invasive testing. I could agree to saliva testing, if deemed it necessary. I have been advised that the economic burden for those tests is to be borne by the company, NOT THE EMPLOYEE. (I did file formal complaint with the Massachusetts Commission Against Discrimination.)

Please support HB 1358.

Dear Members of House Labor, Industrial & Rehabilitative Services:

Limiting employers ability from requiring the Wuhan China Virus potential lethal jab as a condition of employment would be giving power to government to discriminate. Discrimination at the individual level is a terrible mindset, but surrendering this power to the state surrenders individual liberty. Employers and employee's should be left free: qualification for the job should not require personal health information . Vote OTP on HB1358.

Subject: Support HB 1351, HB 1352, and HB 1358

Dear Honorable Representatives,

I urge you to support HB 1351, HB 1352, and HB 1358. These are essential bills that protect the bodily autonomy and medical freedom of the People of NH. The People should not be forced to take a vaccine from any entity – government or private – and HB 1351 is critical to pass. Nor should they be "sick until proven healthy" with onerous, discriminatory testing practices (HB 1358).

Finally, currently, the People have no recourse should they be injured from a COVID-19 vaccine – including vaccines that people received under duress or coercion. The federal government has totally removed liability from vaccine manufacturers, so those many who have been injured (according to VAERS ,over 20,000 dead and nearly 40,000 permanently disabled) have no recourse should they be disabled or have ongoing, lifelong medical bills as some do. This is an absolutely unjust situation. While NH lawmakers may not be able to hold Big Pharma liable for their damaging product, they can correct one small part of the injustice – should an employee be coerced into a shot to keep their job, the employer must be responsible for the consequences.

Thank you,
Carolyn McKinney

Subject: OTP HB1088, 1143, 1358, 1377 & 1410

Dear House Labor Committee members,

My name is Amanda Mastroianni and I live in Merrimack , NH.

There are many reasons why someone would opt out of taking a medical treatment. I don't believe firing someone because they opt out should be allowed in the first place because it is discrimination. But at the very least, if someone is fired for opting out, they should definitely be offered unemployment or severance.

If an employer is making you take a medical treatment (especially one where the makers of the medical treatment have no liability), than that employer should definitely assume liability if the treatment harms that employee in anyway.

Everyone should be allowed exemptions from medical treatments, medical testing and/or medical interventions.

Please pass HB 1089, 1143, 1358, 1377 & 1410 as these bills properly protect those wishing to practice bodily autonomy.

Thank you!
Sincerely,
Amanda Mastroianni

Heather Goley

HB1210, HB1351, HB1352, HB1358, HB1377.

When it was found the vaccines did nothing to prevent infection, the societal benefit ended at that point, Why didn't we drop the mandates then?
Is it ethical to mandate a vaccine that is more likely to kill people than to save them?
Is it ethical to mandate a vaccine where most all of the vaccine injured cannot be cured?
Is it ethical to ever mandate any vaccine ever?
If the mandates are to protect society, why isn't there a risk benefit analysis anywhere?
If you want to mandate something, why not mandate that everyone with COVID get early treatment ? Or be healthy and do healthy things and live a healthy lifestyle?
Why won't anyone with a mandate accept liability?If you die from the vaccine, many insurance companies won't pay for it since you opted for an experimental treatment forced by your employer. Is it right for the burden to be on you?
If the vaccines are as safe and effective as claimed, why do we need mandates?

HB 1358, requiring public and private employers to establish procedures and exceptions for the use of mandatory intrusive testing as a condition of new or continued employment.

Testimony of Tom Cronin, Director of Government Relations, UNH/USNH

Early in the pandemic the University System of New Hampshire implemented an aggressive testing program that has helped us to monitor the prevalence and interrupt the spread of the virus on our campuses. Today, more than 18 months later, UNH's in-house lab has conducted over one million COVID-19 tests. These include a unique self-swab tests for students, faculty, and staff as well as processing samples to support testing efforts for more than 125 other groups, including secondary schools, long term-care facilities, and other colleges in the state.

Required, regular testing for all member of our college and university communities, provided at no cost, has been critical to our ability to control the spread of the virus, keep case counts below state and regional averages, and generally avoid significant interruptions to the in-person collegiate experience. We believe testing provided to our faculty and staff has also helped to control case counts in communities around the state by providing timely awareness of infection.

A "no questions asked" exemption to testing requirements as proposed by HB 1358 would undermine the effectiveness of a communitywide testing program. Further, the bill's "nondiscrimination" language would likely prevent us from enacting measures that in anyway benefit those that do test regularly over those who choose not to.

For these reasons we urge the committee to recommend HB 1358 be inexpedient to legislate in order to ensure the state's public colleges and universities continue to have access to proven, simple to use, public health strategies intended to keep our students, employees and host communities healthy.

January 13, 2022, all health care organizations that are Medicare- and Medicaid-certified provider organizations must ensure applicable staff are vaccinated against COVID-19. This is only one of several health care related requirement health care workers have, nor is it one that Bi-State or our members object to. Federal rules require health care organizations have testing procedures and policies in place to prevent the spread of disease. Health care organizations should not be prohibited from testing their employees for deadly diseases by the State because it puts people at risk for serious illness and death.

New Hampshire is suffering from not only our highest numbers of COVID-19 infections, hospitalizations, and deaths, but also extraordinary staffing shortages that are impacting all residents and their ability to access primary and emergency care. Staffing shortages at CHCs are *not* due to vaccine requirements; ~5% of their workforce is currently out sick due solely to illness from COVID-19. This does not include their health care staff who are unable to go to work because they are at home caring for a sick child, nor does it illustrate the incredible strain that working at reduced workforce capacity puts on the rest of their staff.

For these reasons and more, Bi-State Primary Care Association and our members respectfully request the Committee recommend HB 1358 be inexpedient to legislate.

Sincerely,

Kristine E. Stoddard, Esq.

centers, and rural health clinics – be vaccinated against COVID-19.[1] As of January 19, 2022, the CMS vaccine requirement is in effect in all 50 states, Washington D.C., and the territories; and its legal status is not expected to change. The IFC also requires health centers to have a detailed set of policies and procedures relating to the CMS vaccine rules. These policies and procedures must apply to students in training who are working at health care organizations. Students training to be health care professionals receive hands-on training that includes contact with high-risk patients, including children too young to be vaccinated. Both the Medicare and Medicaid statutes contain several provisions that authorize the U.S. Department of Health and Human Services (HHS) to impose requirements necessary "in the interest of the health and safety of beneficiaries." CMS contends correctly that, under the Supremacy Clause of the U.S. Constitution, this IFC "preempts inconsistent State and local laws as applied to Medicare- and Medicaid-certified providers and suppliers." While the CMS rules do not allow health care workers to test in lieu of vaccination, health care organizations use testing to determine whether a worker is infected with COVID-19 to prevent the spread of the disease.

HB 1358 effectively eliminates one of the only methods health care organizations currently have to test for disease. Without the ability to test to prevent disease spread, health care organizations are putting the health of their staff and their patients at grave risk, including children, who account for ~53% of COVID-19 cases in New Hampshire on January 26, 2022.[2] The integrated services that health centers offer "all under one roof" include a wide range of pediatric services, family support programs, children's oral health care, and childcare to the community. Pediatric patients make up ~25% of health centers' patient population, and many of these young patients are immunocompromised or too young to be vaccinated. Moreover, overall, a high proportion of health center patients are at high risk of severe illness and hospitalization if they were to get infected with the virus, including pregnant mothers, patients who are experiencing homelessness, individuals with complex chronic illnesses such as diabetes and heart disease, and cancer patients.

In addition to the danger it poses for patients, Bi-State and our members oppose HB 1358 because they must comply with the federal law to operate and serve Granite Staters through Medicare, Medicaid, and state contracts.

Like vaccination requirements, testing for communicable diseases for health care workers before employment or continued employment is not new. For example, FQHCs are governed by patient-majority boards, meaning members of the communities served by the FQHCs approve the policies and procedures the FQHC must utilize. Their regulating body, the Health Resources and Services Administration, conducts site visits at least every three years, to ensure the FQHCs comply with the federal rules and regulations governing FQHCs. Health centers are required to "provide services....so that such services are available and accessible promptly, as appropriate, and in a manner that will assure continuity of services to the residents of the center's catchment area."[2] In order to demonstrate compliance with the clinical staffing requirements of FQHCs, an FQHC must have procedures in place to grant and renew privileges for clinical staff members who are "health center employees, individual contractors, or volunteers."[3] The procedures for privileging clinicians include verifying immunization and communicable disease status. As of

RE: HB 1358 requiring public and private employers to establish procedures and exceptions for the use of mandatory intrusive testing as a condition of new or continued employment

Dear Chairman Infantine and Members of the House Labor, Industrial and Rehabilitative Services Committee:

Bi-State Primary Care Association and our members respectfully request HB 1358, requiring public and private employers to establish procedures and exceptions for the use of mandatory intrusive testing as a condition of new or continued employment, be recommended inexpedient to legislate. Bi-State staff and our members will not attend legislative hearings due to the risk of COVID-19, and we thank you for the opportunity to submit written testimony to your committee electronically. Bi-State and our members write to you in strong opposition of HB 1358 because it interferes with the operations of private businesses, including health care organizations, in a way that endangers the health and welfare of Granite Staters by creating a conscientious objection to the testing of communicable diseases.

Bi-State Primary Care Association (Bi-State) is a 501(c)(3) nonprofit organization, formed by two health and social service leaders in 1986 to advance access to comprehensive primary care and preventive services for all, with special emphasis on those most in need in New Hampshire and Vermont. Today, Bi-State represents 28 member organizations across both states that provide comprehensive primary care services to over 300,000 patients at 146 locations. Our members include community health centers (CHCs), federally qualified health centers (FQHCs), rural health clinics (RHCs), area health education center programs, and Planned Parenthood of Northern New England. New Hampshire's 13 health centers serve approximately 112,000 patients at locations across the state, including in those districts represented by the members of the Labor, Industrial and Rehabilitative Services Committee.

Bi-State and our members oppose HB 1358 because it interferes with Granite State employers', including health care organizations', ability to maintain safe workplaces, and HB 1358 will needlessly endanger the health and welfare of patients.

On November 4, 2021, the Centers for Medicare & Medicaid Services (CMS) issued an Interim Final Rule with Comment Period (IFC) requiring that health care workers at Medicare and Medicaid-certified facilities – which include community health centers, federally qualified health

HB 1358 – requiring public and private employers to establish procedures and exceptions for the use of mandatory intrusive testing as a condition of new or continued employment

Testimony

Good afternoon, Mr. Chairman and members of the committee. My name is Paula Minnehan, Senior Vice President, State Government Relations with the New Hampshire Hospital Association (NHHA), representing all 26 of the state's community hospitals as well as all specialty hospitals.

The NHHA is opposed to HB 1358. The bill before you would require any public or private employer in the state to allow an employee an exemption from "intrusive testing" requirements.

NHHA supports an employer's right to require vaccinations and/or periodic testing as a condition of employment. Hospitals (and other employers) that require vaccinations as a condition of employment allow for exemptions for medical and religious reasons. There is a process employers require employees to follow if they choose to apply for such an exemption. If they are granted an exemption, the employee may be required to get tested periodically among other precautions required by the employer. This is a decision an employee agrees to make as a condition of continued employment.

The bill, as drafted, includes the term "conscientious objector" as well as a definition of "intrusive testing". Compelling organizations that choose to require COVID-19 vaccinations or testing for their employees to permit anyone who objects to the vaccine or testing on the grounds of personal conscience or prior recovery from COVID-19 would render any vaccine or testing requirement moot, putting patients and staff at greater risk of illness or death.

We are opposed to HB 1358, and we urge the committee to find this bill Inexpedient to Legislate. Thank you for the opportunity to provide our comments on HB 1358.

HB 1358 - AS INTRODUCED

2022 SESSION

22-2789
04/11

HOUSE BILL ***1358***

AN ACT requiring public and private employers to establish procedures and exceptions for the use of mandatory intrusive testing as a condition of new or continued employment.

SPONSORS: Rep. Foster, Hills. 5; Rep. Rollins, Sull. 6; Rep. Comtois, Belk. 7; Rep. Sylvia, Belk. 6; Rep. Johnson, Belk. 3; Rep. Silber, Belk. 2; Rep. Ulery, Hills. 37; Rep. Alliegro, Graf. 7; Rep. Notter, Hills. 21; Rep. Greeson, Graf. 16

COMMITTEE: Labor, Industrial and Rehabilitative Services

ANALYSIS

This bill requires any public or private employer in the state to allow an employee an exemption from intrusive testing requirements.

Explanation: Matter added to current law appears in ***bold italics.***
Matter removed from current law appears [~~in brackets and struckthrough.~~]
Matter which is either (a) all new or (b) repealed and reenacted appears in regular type.

HB 1358 - AS INTRODUCED

22-2789
04/11

STATE OF NEW HAMPSHIRE

In the Year of Our Lord Two Thousand Twenty Two

AN ACT requiring public and private employers to establish procedures and exceptions for the use of mandatory intrusive testing as a condition of new or continued employment.

Be it Enacted by the Senate and House of Representatives in General Court convened:

1 Legislative Intent. The general court finds that:

I. The state of New Hampshire has affirmed in statute the natural, essential, and inherent right to individual bodily integrity. Decisions in regard to each individual's physical body shall be, whenever possible, the free choice of the individual in a manner most agreeable to the dictates of their own conscience and reason.

II. Our state constitution proclaims that "no subject shall be hurt, molested, or restrained, in his person, liberty, or estate, for worshiping God in the manner and season most agreeable to the dictates of his own conscience."

2 New Section; Labor; Protective Legislation; Discrimination in the Workplace. Amend RSA 275 by inserting after section 41-d the following new section:

275:41-e Discrimination Based on Testing Exemption Status Prohibited.

I. Any public or private employer in this state that mandates intrusive testing as a condition of new or continued employment shall, upon the employee's request for a religious or conscientious objector exemption, grant such exception. Any public or private employer in this state that mandates intrusive testing as a condition of new or continued employment, using an emergency use or experimental product shall, upon an employee's request, grant an exemption.

II. Any public or private employer in this state that mandates intrusive testing as a condition of new or continued employment shall establish policies and procedures to ensure that no employee is harassed or discriminated against due to such employee's testing exemption status. The policy shall include zero-tolerance treatment of bullying, harassment, or discrimination of an employee based on the employee's testing exemption status.

III. In this section, "intrusive testing" means any medical testing that requires the penetration or invasion of an individual's body through their skin or penetration of any bodily orifice.

3 Effective Date. This act shall take effect 60 days after its passage.
