HOUSE OF REPRESENTATIVES

REPORT OF COMMITTEE

The Committee on Election Law to which was referred HB 1473-FN,

AN ACT authorizing a forensic audit of the November 3, 2020 election results in Merrimack county for president, governor, and United States senate races. Having considered the same, report the same with the recommendation that the bill be REFERRED FOR INTERIM STUDY.

Rep. Wayne MacDonald

FOR THE COMMITTEE

Original: House Clerk
Cc: Committee Bill File

COMMITTEE REPORT

Committee:	**Election Law**
Bill Number:	**HB 1473-FN**
Title:	**authorizing a forensic audit of the November 3, 2020 election results in Merrimack county for president, governor, and United States senate races.**
Date:	**March 9, 2022**
Consent Calendar:	**CONSENT**
Recommendation:	**REFER FOR INTERIM STUDY**

STATEMENT OF INTENT

This bill provides for a feasible audit of selected races in one of the larger New Hampshire counties. There are many questions after the 2020 election and bipartisan support exists for election audits. This legislation needs to select, and better define, an area for the purposes of the towns and the races to be examined, however. The scope of this audit, as proposed, is unwieldy. The Committee on Election Law unanimously recommends this bill for Interim Study, so that these concerns can be addressed.

Vote 20-0.

Rep. Wayne MacDonald

TESTIMONY

* Use asterisk if written testimony and/or amendments are submitted.

***Rep. Patrick Abrami**

- Authorize - forensic audit 11/20 of town of Merrimack Imtd. to Pres. Gov. and US Senate races
- See Testimony
- Question: Rep. Torosian - Section 150,000 that would be down payment?
- Answer: Yes
- Question: Cost?
- Answer: Don't know, perhaps Mrs. Towne knows.

***Rep. Susan Homola**

- Supports
- Diebold machines showed differences
- Sent a letter (to) Ballot Commissioner. Copy of this letter is part of email.

***Brenda Towne** - Stratham

- Supports
- See Testimony
- 243 Right to know requests supports the test case in Merrimack in a specific way we have never conducted an audit.
- Knocked on almost 1,000 doors, 13-15% votes cast were not cast by person
- Has signed letter from Harry Herski part of testimony
- Question: What towns canvassing?
- Answer: Waterville and Rye, also other towns going on.

***Marilyn Todd**

- Supports
- Won't go back to work, until has Audit - Documentaries being made, get rid of machines and give us an Audit.

***Elaine Plante -** Dover

- Supports to restore election process.
- Denied voters lists from Town Clerk
- See Testimony

Russan Chester

- Supports bill
- Believes we have integrity problems.
- AB were a problem especially in Bedford, many Nursing Homes request AB through Executive Director, fills it out.
- Executive Director allowed to bring ballots and signs their legitimate**????**

Kelley Potenza

- Supports
- In regard to SOS Scanlan said elections were fair, yet prior SOS Gardner sent an 11-page letter stating errors of election not executed by the law.
- That letter alone should qualify for audit of Merrimack. Read that letter.
- She was a Voter Challenger, reported, nothing has been done.
- All reports to AF & SOS fell on deaf ears. E L needs to allow audit

***Melodie Fitts** - Laconia

- Retired Registered Nurse
- Supports 1473
- Son was a Challenger - saw Belmont errors, nothing was done
- Found some town Clerks didn't know how to do some forms
- Laconia voting tabulator barely visible, due to ink
- Theres total lack of voting integrity. Need forensic audit in Merrimack

Karen Thorman - Nashua

- Supports
- Problem with same day Registration as thousands register that day.
- People weren't checking**??** properly.
- One registered from a Dentist office - they let this guy vote from Dentist office.
- Ward 2 pages pre processed AB, highlighted, returned AB not to vote in person
- 5 pages - never checked off or crossed off
- How do I verify?

David Costanbader - Greenland - Volunteer

- Supports
- Knocked on door wanted to verify Houses voted - 10% errors that either didn't vote but showed voted AB. LHS technology has not oversight.

Tricia Jorgensen - Northfield

- Independent voter - talked about daughter who ran for office and won as State Rep. Tricia is part of town Republican committee who talked about - was registered as Independent and problem converting to a Republican.

Jill Shaw - Rochester

- Supports
- Gave stats on how people moved, but still on NH voting lists.People don't even live in NH
- Please support this bill.

***Lynn Briggs** - Amherst

- Supports
- Mentioned machines: 1. Was dated 10/23 not 11/3, There were double Democratic AB Ballots, doesn't know what happened.

Alvin See

- Opposes
- Concerned this election has already happened
- It may be hard, but is possible to do hand count for 3 office bill requested.
- Feels AB voters where they reside, worthy of **???**

Al Brandino - Kensington

- Supports bill
- Independent voter, working with SOS
- Finds town clerks don't have to do training not required.

Respectfully submitted,

Rep. Natalie Wells

AFFIDAVIT OF HARRI HURSTI

I declare under penalty of false swearing under the law of Wisconsin that the foregoing is true and correct, and that I am physically located outside the geographic boundaries of the United States, Puerto Rico, the United States Virgin Islands, and any territory or insular possession subject to the jurisdiction of the United States.

1. In 2005, I developed the Hursti Hack(s), a series of four tests in which I demonstrated how voting results produced by the Diebold Election Systems voting machines could be altered. I submit this Affidavit in support of a hand recount of all ballots in Wisconsin.

2. I have been a consultant and a co-author of several studies commissioned or funded by various U.S. states and the federal government on computer security. In the area of election security, I am the co-author of several peer-reviewed and state-sponsored studies of election system vulnerabilities. Most notably, I was a co-author of the EVEREST comissioned by the Secretary of State of Ohio (http://hursti.net/docs/everest.pdf), a study of vulnerabilities in Sequoia AVC voting machines (http://hursti.net/docs/princeton-sequoia.pdf), and a study of the Estonian Internet voting system (http://hursti.net/docs/ivoting-ccs14.pdf). I have served as an expert on electronic voting issues in consultations to officials, legislators, and policy makers in five countries. I received the EFFI Winston Smith Award 2008, and the EFF Pioneer Award 2009 for my research and work on election security, data security and data privacy. I recently founded Nordic Innovation Labs to advise governments around the world on election

vulnerabilities. My qualifications and experience are further detailed at the following website: https://nordicinnovationlabs.com/team/harri-hursti/.

Opinion

3. Many of the models of voting machines and other election infrastructure used in Wisconsin were previously analyzed by state-sponsored security reviews, including the EVEREST report (http://hursti.net/docs/everest.pdf) commissioned by the Secretary of State Ohio, and were shown to be vulnerable to demonstrated attacks. Due to the shortness of time, I have not been able verify which of these attacks are feasible on the systems used in one or many of the Wisconsin jurisdictions. It is possible that critical parts of the election infrastructure are processed with equipment which has never been submitted for certification.

4. Optical scan machines can be hacked in a manner that changes election results, and such an attack would likely go undetected during normal pre- and post-election testing. If the scanners are hacked, using them as part of the recount process is likely to result in the same fraudulent election outcome The only reliable way to detect attacks on the scanners is to recount the paper ballots by hand and compare the results to the electronic tallies.

5. The following attack vectors expose optical scan election results to potential hacking

Attacks on Precinct Scanners

6. Optical scan voting machines can be manipulated by attackers who are able to modify the election-specific settings on the memory card (sometimes called the "mobile ballot box"). Manipulation of the memory card can either be persistent or "one-time", meaning that if the card is reset but not reprogrammed, the card will be "clean" and the hack will not work until the card is reprogrammed again.

19. When the scanner is directly connected to the central tabulator, at least one vendor uses special bar codes on the ballots which are commands to the tabulator. Typical commands are "begin batch", "end batch", and "override precinct code". These commands can be transmitted to the machine by ballots that appear under casual human inspection to be normal votes. If an attacker injects them into the set of ballots to be scanned, this can cause real ballots to not be counted, or to be reported in an incorrect jurisdiction.

Attacks on Central Tabulators

20. Central tabulators are normal PCs and and subject to a wide array of attacks, including vote-stealing malware.

21. Tabulator software typically has many features to adjust the vote totals, and these software interfaces can be manipulated by malicious software to alter the reported results.

22. For all these reasons, optical scan votes face a serious threat of being hacked in ways that can alter the outcome of an election. Ballots that are recounted using optical scanners face most of the same threats. The only way to reliably detect such attacks on the election results is to recount the ballots manually, without reliance on potentially hacked election equipment.

Executed on the 28th day of November, 2016 in Helsinki, Finland.

HARRI HURSTI

Bradford E. Cook, Chairman
Ballot Law Commission

December 3, 2020

Dear Chairman Cook,

The recent election has put electronic voting machines in the spotlight, particularly due to their widespread usage in many states. This also includes states who are not dealing with the fallout of the Dominion hardware/software issues. New Hampshire is one of these states. We are fortunate because one of the primary safeguards we have is the paper ballot, which can be verified even if there were any issues with our Diebold AccuVote Optical Scanner system, version 1.96.13.

Over the past couple of weeks I have received data analysis of the vote count across New Hampshire. This data was collected and evaluated by a citizen in my district who had questions regarding vote results across our state from Secretary of State and town sources. I currently have vote total graphs from each town, with a composite total for each county. Interestingly, this dataset was the first to identify an anomaly in the Windham count before any official state recounts even began. I have included a limited number of graphs at the end of this letter. However, a zip file containing the complete dataset is available upon request.

From this analysis, vote anomalies have been identified in a couple of counties, to include Hillsborough and Rockingham. This is significant when you consider the vote trend differences between the state and national ticket. In Hillsborough County, Amherst, Bedford, Brookline, Hudson, Litchfield, and Lyndeborough the vote totals show big shifts away from the national Republican ticket, when compared with what one would expect from the state house ticket results. In Nashua, the national Republican ticket fared worse than even the Republican state house races, which itself is a red flag. In Rockingham County, (and even considering the attention Windham has received), results in towns such as North Hampton show an even bigger deviation in vote share.

This is not a complete list of anomalies, but a few highlights from a voluminous amount of data. The data shows that in towns and wards where the Democratic party candidate(s) won in state house races, the Presidential results have the Republican Presidential candidate with more or less of a vote share as the Republican state house candidates, which is expected in an election, However, in towns and wards where Republican party candidate(s) won in state house races, and the Republican Presidential candidate lost, the Presidential vote shares *always* trended toward the Democratic Presidential candidate. That result is statistically anomalous by any standard, and should be cause for additional scrutiny. This point is made even more sharply in light of the fact that New Hampshire was the only state in the nation in which legislative control switched parties during this election.

In addition, I have compiled a comparison of vote totals from the 2016 and 2020 general elections, along with documented vote totals from the 2020 New Hampshire Presidential primary. This comparison is included below. The 2016 data shows a statistically-expected vote pattern with regard to national and gubernatorial elections results. The data from 2020 show a much different picture. When combined with the presidential primary vote totals that show a clear lack of enthusiasm for the eventual Democratic Presidential candidate, the results of the 2020 general election vote do not make sense on a statistical, or even logical, level. Although a comparison between primary and general election results are anecdotal at best, the statistical comparison between the 2016 and 2020 general elections cannot be ignored.

Given our established voting protocols here in New Hampshire, there are two places where we should perform further evaluation; 1) confirming if the voting machines we use were accurate, (and particularly focus on towns and wards where machine-only counts were performed), and 2) same day voting registrations.

Given the national discussion regarding electronic voting machines over the past few weeks, I have advocated for the verification of the accuracy of our electronic voting machines to the Secretary of State and NH GOP party leadership, either through written documentation and/or verbal conversations. To date, I have not received any confirmation of letter receipt from the Sectary of State's office. In more than a few instances, I have been told that questioning the validity of the New Hampshire voting system will only serve to undermine our First-in-the-Nation status, and it will embolden states like Texas who might use an investigation of our voting system to claim this mantle for themselves. Let's be honest about one thing: the *only* thing that will undermine our First-in-the-Nation status is our collective apathy towards ensuring a legitimate, verifiable, and transparent election.

Given the anomalous vote results across our state, and our desire to truly safeguard our First-in-the-Nation status by being exemplary stewards of free and fair elections, I am requesting the following three actions be initiated by the Ballot Law Commission:

1. A closer investigation of the Hillsborough and Rockingham County results, and an evaluation of other counties deemed anomalous by accepted statistical protocols.

2. A livestreamed sample audit, using November 3, 2020 ballots, of a grouping of towns and wards that rely on machine-only ballot counts. Although this was recently accomplished to satisfy SB 283 requirements, the use of 2018 ballots does very little to address concerns about 2020 election results. The results of this audit should also be made public on the Secretary of State website.

3. A verification of the same-day registration applicants in each town, to be accomplished after the 90-day grace period has expired for each individual to take action to claim New Hampshire as their legal residency. The May 2020 Supreme Court decision on HB1264 clearly states that anyone who votes in the state must take action to become a resident of New Hampshire. The only way we ensure this is happening is if we verify this data, and

hold those accountable that do not abide by this ruling. The results of this verification, (the numbers of same day registrants and the number of verified residency actions), should also be made public on the Secretary of State website.

It is widely accepted that New Hampshire values democracy and individual freedom, and there is little doubt that state and town leadership did exemplary work to ensure the New Hampshire vote was executed professionally. Having said that, the data shows there are concerns that must be addressed if we are to maintain complete public confidence in our elections.

As a final point, I would like to emphasize that we are in one of the most hotly contested elections in our nation's history, and our next president has yet to be decided officially or constitutionally. The words we say and the actions we take as state-level leaders that indicate this election is already resolved constitutionally, whether it be the as Governor, Committee member, state senator, or state representative, is how we will be individually measured against the yardsticks of impartiality and competent governance.

I respectfully request confirmation this letter has been received, and I request a response regarding the proposed recommendations. Thank you.

Respectfully,

Susan E. Homola
State Representative
Hillsborough County, District 27

Dear House Election Law Committee,

We want the new Paper Ballot System. No Machines in New Hampshire.

Also, approve the 2 Audit Bills:

HB1484
HB1473

Thank you for your cooperation in making sure we live in the great state of NH. Live Free Or Die.
Sincerely,
Lissa McLellan

Dear Committee Members,

I live in Concord. Please approve bills HB1473 & HB1484.
There is much proof that the machines steal our votes. I want everyone's one legal vote to count not the fraudulent votes!
Please also vote for a real audit of the 2020 election.

Sincerely,
Tara Greenwood

Importance: Normal

Dear Committee Members,

Please support and vote “YES” on HB1064, HB1484, HB1473 to bring back election Integrity.

There is overwhelming evidence that 2020 elections were the most corrupt fraudulent and major eradication of Election Integrity.
I am a retired US Marine and I know the price and sacrifices that many of my brother and sister and millions before have paid to give us freedom. BUT that freedom only works with election Integrity.

Please do not let “US”, Our children and grandchildren down: vote “YES” on HB1064, HB1484, HB1473 to bring back election Integrity.

Testimony for HB1473
Rep Sue Homola, District 27, Hillsborough Co
2 Feb 22

The purpose of this testimony is to provide support for HB1473, authorizing a forensic audit of the November 3, 2020 election results for Merrimack County.

Following the election, a constituent with a background in data analysis contacted me regarding preliminary vote analysis he did for select towns across New Hampshire. He detected anomalies in the data and brought those to the attention of Mr. Bud Fitch, legal counsel for the Secretary of State's office. Mr. Fitch informed him that the analysis method he performed was not rigorous enough to rate further action on the matter. The constituent then re-did the analysis with a more thorough method, utilizing publically-available vote totals from 2020, and compared those with the 2016 general election results. He performed an analysis of every town across NH. Interestingly, this data revealed an issue with the Windham State Rep race before it was publically discussed.

This data highlighted statistical anomalies in multiple towns, which showed shifts in the federal ticket results when compared with the historically-expected results of the state house race results. For example, statistical anomalies occurred in some select towns in Hillsborough County (such as Litchfield, Lyndeborough, Nashua, and Hudson), and Rockingham County, (such as North Hampton, which showed an even bigger deviation from the historically-typical vote share). In Merrimack County, statistical anomalies presented themselves in some locations such as Concord Ward 8 and Newbury. Please note, this is not a complete listing; just some examples of where anomalies were noted.

In addition to this data, another analysis was done which compared vote totals of towns that did and did not utilize Diebold/Dominion machine counting devices. In towns/districts that did not use our Diebold machines, the Republican presidential candidate's overall vote share was 2.8% less than the local NH State House Republican candidates. In locations that did use Diebold machines, the Republican presidential candidate's overall vote share was 6.4% less than local NH State House Republican candidates. This results in an overall difference of 3.6%, and means that in places where Diebold machines were used, there is a more than double percentage of under-voting.

Please note, the vote count data analysis in each town in no way suggested malfeasance occurred. However, given the historically-expected vote deviation, it did suggest that a closer examination was warranted.

On Dec 3rd I sent a letter to Chairman Cook of the Ballot Law Commission regarding this vote analysis. I sent this letter to the Ballot Law Commission because that is where I was advised to send the letter after I spoke to Mr. Fitch at length about the matter. A copy of this letter was also sent to the offices of the Secretary of State and Governor. A copy of this letter has been emailed to House Election Law Committee members.

After receiving no response from the Ballot Law Commission, the Secretary of State, or the Governor's office, I sent a follow-up email on December 23, 2020. I received a reply from Ballot Law Chairman Mr. Cook the following day, December 24th, 2020, with his assurances that he would speak to the Secretary of State's office. On January 14, 2021 I received his reply, which stated the Ballot Law Commission did not have the jurisdiction to review the matter further. A copy of the emails between myself and the Ballot Law Commission have been emailed to House Election Law Committee members.

Throughout my request for an audit of some NH towns, I have regularly emphasized that I make no assertion of election malfeasance. It is quite possible that in one of the most hotly contested elections in recent memory, the voters of NH did choose to be the only state in the country to completely flip its state's legislative majority while simultaneously vote for the opposing political party candidates in all federal races. With the craziness of 2020, we know anything is possible.

Having said that, it is clear that over this past year voter confidence has been strained. And given the amount of energy and pride we infuse into our state's election process, this lack of confidence represents something quite disheartening, especially if left unchecked.

I've heard some elected officials state that it is time to move forward, and not backward, as we close the chapter on the November 3, 2020 election. Well, it does not take much effort to discover that the uneasiness many New Hampshire voters have felt about this past election is still a relevant and important issue, and voter confidence has been further shaken by our collective apathy over this past year. Until we properly examine a sampling of the anomalous vote data we know exists, lack of public confidence in vote integrity will continue to cast a doubt over all future elections.

I support HB1473 because it casts a wide-enough net by which to properly audit the November 3, 2020 election results, and it will enable us to restore public confidence in our election process going forward.

Respectfully,

//signed//
Susan Homola
State Representative
District 27, Hillsborough County

Subject: Support for Important Bills
Importance: Normal

Hello,

I am writing you today to ask for your support for the following 3 bills;

HB1064 - Mandate Statewide Hand Count
HB1473 - Mandate a REAL audit of the 2020 Election
HB1522 - Mandate Ballot Security measures and that Ballots become Public Information within 8 hours of Election

There is nothing more important to your voters than trusting that their votes are properly counted. These bills will add transparency and veracity to elections in NH that are sorely lacking.

I would appreciate your support and would love to engage in a discussion if you find yourself unable to support these.

Thank you for your time.

I am just a regular citizen of NH, who has been discouraged with all of the inaction and covering up of the evidence of the stolen 2020 election. It is absolutely unacceptable that my legitimate vote gets cancelled out by any variety of phony votes. I ask that you not miss the opportunity to support bills like HB1064, which gets rid of the crooked voting computers. Hopefully, in favor of a secure paper based system. I understand that there are also a couple of bills HB1484 and HB1473, that would perform an honest and truthful audit of the 2020 election. All people need to know the truth of what happened! We absolutely must return to honest and fair elections! in our state, and in our country! Please support these important bills!

Chairperson Griffin & Distinguished Election Committee Members,

Attached, please find my testimony regarding HB-1467, HB-1473I & HB-1484. Unfortunately, I am unable to deliver this testimony in person on February 2nd.

For your convenience I have also copied that testimony below.

Thank you for your consideration of my thoughts on these bills.

Respectfully,

Gregory Davis
Salem, NH 03079

Testimony submitted to the House Election Law Committee
Re: February 2, 2022 Public Hearing

Re. HB-1467, HB-1473, HB-1484

Chairperson Griffin and Distinguished Committee Members,

Thank you for this opportunity to convey my thoughts regarding:

HB 1467 requiring partial audits of additional offices on ballots involved in recounts

HB 1473 authorizing a forensic audit of the November 3, 2020 election results in
Merrimack county for president, governor, and United States senate races

HB 1484 requiring a forensic audit of the 2020 election results.

These three pieces of proposed legislation are a colossal waste of your time and tax payer dollars. They are an attempt by a segment of the NH legislature to cast doubt on the integrity of our 2020 elections - both in process and results. Beyond that, they are intended to reinforce the “Big Lie” that Joe Biden is not the duly elected and legitimate President of the United States. They imply voter fraud, when by all credible accounts the 2020 election was the cleanest and most scrutinized in US history. The real crime and danger is the former president’s on-going attempts to perpetuate this lie.

Please protect our democracy and vigorously oppose these ill-conceived bills. They are
a distraction from what truly is required to protect the integrity of
our electoral system.

Respectfully,

Gregory Davis

To: <houseelectionlawcommittee@leg.state.nh.us>

Good morning,

I am writing to urge the Committee to do all they can to remove these voting machines that are currently being used in NH and throughout the country, which I believe are vulnerable to manipulation. I was shocked to see the video that was produced to show how easy it was to change the vote with cards inputted in the machines. I do not feel confident that these machines are serving the American people well. We must get back to basics and use some kind of special paper and a better protected system to minimize the fraud (without big tech having a hand in it). I also want to urge you to pass the audit bills submitted on 2/2/22 (HB1484 and HB1473). If we do not fix what happened in the last election, we no longer will have a free state or country as our leaders will continue to be "selected" instead of "elected" by WE THE PEOPLE! Please do the right thing and protect the people's right to vote for the candidate they choose instead of who the "establishment" wants.

Thank you.

A concerned Patriot

Sam

Cc:'William Gardner' <William.Gardner@SOS.NH.GOV>
Subject: Re: Ballot Law Commission

Chairman Cook,

Thank you for your reply and your additional information. I have never assumed the authority for doing a vote validation falls within the purview of your agency. However, I have repeatedly brought the issue of vote discrepancies in the Nov 3 election to the attention of the SoS office. I was told by Mr. Fitch, SoS legal counsel, that the Ballot Law Committee is the actual home for my concerns. That is why I reached out to you.

To be clear - I just want this issue to be looked at. Do I know if there is something that warrants a deeper investigation and an AG referral: No. None of us know the answer to that question unless a vote validation is done in some towns. However, I can't get a vote validation if the SoS's office, or anyone else they refer me to, decides they are just going to keep telling me it is not their job.

Please note, I have absolutely no issue with the Ballot Law Commission if a vote validation is not within your authority. I would have expected the Secretary of State's office to care more about this matter and not refer me to another agency, but I can only follow the leads I am given. What is within your authority, however, is for you to discuss this matter with the SoS office and encourage *someone* to take action.

Respectfully,

Sue Homola

Subject:RE: Ballot Law Commission

Rep. Homola—thank you for your e-mail. I get the impression that you think I am trying to avoid doing something, which certainly is not the case. The Ballot Law Commission, as a creation of the legislature, can do only what the legislature has given it jurisdiction, funds and staff to do. It has not given the BLC jurisdiction to conduct investigations, has provided the commission no budget or staff, and all the members are volunteers. Since we do not have jurisdiction, we are not empowered to conduct such an investigation, even if we had a budget or staff. I would cite you to the Windham (St. Laurent) case which the Commission decided last fall after the election, in which we referred an analogous case to the Attorney General for investigation, an investigation which is underway now. A copy of the decision is attached. I assure you that the BLC pursues those things within its jurisdiction diligently and promptly. I hope you are enjoying the experience of being in the legislature and look forward to meeting you in person at some point. Brad Cook

Subject: Re: Ballot Law Commission

Chairman Cook,

Thank you for your reply, and your kind words about Hollis. It is full of lovely people.

With regard to my request for a Nov 3rd vote verification audit of some select towns:

1 I have presented data that shows vote discrepancies in some districts across NH, and offered to provide vote total analysis for every town in NH for further investigation.
2 I have alerted the Secretary of State's Office and the Ballot Law Commission to these irregularities in timely manner.
3 I have repeatedly sought to have either agency investigate these issues further.

Chairman Cook, I am a new legislator and I am still learning the ropes. I'll freely admit that I am not savvy with regard to all of the legalities of whose job it is to investigate vote discrepancies. However, one of the lessons I learned from my years in the military, and particularly from being around fighter pilots, is how to spot a slow-roll.

As a legislator, my job is to craft legislation that addresses vote security issues going forward. The issues I have repeatedly raised with you and Secretary Gardner focused on time-sensitive, voter confidence issues that occurred during our nation's most hotly contested election in history. In addition to alerting both agencies of these issues, I have also CC'd Governor Sununu on all emails sent to the Ballot Law Commission.

This election is over and the NH vote is certified, but the issue of voter confidence across NH has not been addressed. We owed it to voters to expediently look into any vote discrepancy issues that can be backed up by data, which I provided to you on Dec 3, 2020. Trust me, I want to be able to prove that NH had a successful, fair election. We cannot do this unless a vote total validation is done for some select towns, to include a 90-day follow-up residency verification on those who exercised the same-day voter registration option.

Should a future vote validation of the Nov 3, 2020 election results reveal any unusual activity, please let this email serve as documentation to the Ballot Law Commission, Secretary Gardner, and Governor Sununu that I alerted all agencies to potential Nov 3, 2020 vote discrepancy issues, but all agencies chose not to investigated these discrepancies before the NH vote was certified.

Thank you for your time.

Rep. Homola, I have had the opportunity to discuss your letter to the Ballot Law Commission with the Secretary of State and his counsel. I am not sure that it was intended to suggest the Ballot Law Commission had jurisdiction, when the letter was referred to us. Unless there is some remedy you are seeking which is within the jurisdiction of the Ballot Law Commission as granted to it by the legislature, we do not think the Commission has jurisdiction or authority to order the audit or review you are seeking, as there is no vote audit procedure in New Hampshire law. If you can define your request for relief to something which falls under our jurisdiction, I shall be glad to review it again. Thank you for your interest and concern. You certainly represent a lovely town, where I have many friends and clients, a couple of whom teach in the Hollis Elementary School.

Subject: Re: 13 Dec Letter to Secretary of State

Chairman Cook,

Thank you for your reply. I sent this request to the Ballot Law Commission after multiple conversations with the Secretary of State's office, to include Mr. Fitch. In those conversations, I was told that the Ballot Law Commission was the more appropriate home for my Nov 3rd vote validation request, and not the Secretary of State's office. Primarily because there have been no federal candidate requests for a recount.

I appreciate the patience of the Ballot Law Commission and the Secretary of State's office with regard to my vote validation request. To be honest, my request seems to be getting bounced around from agency to agency, in a most unhelpful manner. I just want a validation of the Nov 3rd election in some towns/districts that warrant a closer look. Surely, between the SoS office and the Ballot Law Commission, we can come to an agreement on which agency could do this.

Respectfully,

Sue Homola
State Representative
Hillsborough Co., District 27

From: Susan Homola [mailto:Susan.Homola@leg.state.nh.us] **Sent:** Wednesday, December 23, 2020 12:51 PM **To:** William Gardner; Elections **Cc:** governorsununu@nh.gov **Subject:** 13 Dec Letter to Secretary of State

Secretary Gardner and Ballot Law Commission Chairman Cook,

I reviewed Chris Ager's 13 December letter to the Secretary of State's office requesting a limited verification hand count of the Nov 3rd Presidential election. I support this request because it will help allay any concerns regarding the integrity of the NH vote and our electronic voting systems.

I also wanted to document that I have received no acknowledgement of my 3 December letter to the Ballot Law Commission, to which the Secretary of State's office was CC'd as well. This letter provided statistical vote discrepancy data in some towns and districts that warrant a closer look.

Since the writing of that letter, further analysis shows that in towns/districts that did not use our Diebold machines, President Trump's overall vote share was 2.8% less than NH State House Republican candidates. In locations that did use Diebold machines, President Trump's overall vote share was 6.4% less than NH State House Republican candidates. This results in an overall difference of 3.6%, and means that in places where Diebold machines were used, there is a more than double percentage of under-voting. This alone does not suggest any malfeasance, but it should warrant a closer look. I am attaching the Excel spreadsheet of this data for your review.

Secretary Gardner, our entire nation is witnessing one of the most contested elections in our Nation's history, and legitimate vote integrity issues have been raised in many other states. Given the national attention on this topic, it is prudent and reasonable that New Hampshire would take a closer look at any identified vote discrepancies. Voter confidence needs to be earned now, and not after January 20th. Granite Staters are paying attention to this, and counting on us to ensure voter confidence.

I respectfully request that any vote discrepancies are given a closer look as soon as possible. Thank you.

Respectfully,

Sue Homola

Hello,
As a 60 year resident of NH, I am writing to show my support for the bills HB1064,HB1473,HB1255.

Before I begin, you should realize that this request has absolutely nothing to do with political party affiliations, it has to do with making sure that my vote as well as everyone else's vote is properly counted and not diluted with votes that are not properly accounted for and backed by a registered voter and counted only once.

I have seen evidence from other states showing large voter fraud and I am not nieve enough to think that NH's elections were perfectly handled.

I live in Salem. I asked the town clerk a question "when someone moves or passes away are they removed from the voter roles" she stated that the town is supposed to be notified by vital records IF someone dies in NH, however if they die out of state (think snow birds in Florida) then it's not notified unless the family tells them. This system seems rather loose and ripe for errors in the voter checklist.

My support is firm for these three bills, whether NH did it right or not, it is essential that those of us (and there are alot of folks) who are questioning things be satisfied with what these bills offer.

Please support these three bills, thank you.

Committee members please pass these House bills on election integrity. I've seen the professionally prepared evidence of election irregularities in all NH Counties. It is undeniable computers can and did create voter results. Many Counties had more votes than the population, let alone more than voters eligible to vote.

At a point in our Country where our voters have grave doubts about the accuracy of any election from President down to local offices we need to restore confidence. This can only be gained by removing any computerized tabulation system and go back to hand voting.

It can be done, all of France has hand voting. The professionals @ Frank Speech have figured out a solid system to implement a paper voting process which is very inexpensive to implement and manage.

Vote yes on HB1064 as well as the two election audit bills proposed today HB1473 and HB1484.

It's time to lead and make our State one of the first to place voter integrity at the top of the accomplishments for 2022

Thanks

Support HB1473

Thank you Committee & Madam Chair.

I am Brenda Towne, from Stratham. I am a daughter of a US marine, a mother of 4 including 3 military sons, grandmother of 8 and a business woman. I am part of a large team who is working on a citizen's audit of the 2020 election.

We have over 8000 people participating in various forms across 3 social media platforms. We have executed 243 FOIA requests & counting.

In 2020, New Hampshire experienced our most unusual voting trends which sets the stage for a forensic election audit now more than ever. I am going to touch on 2 things- the need for the audit and why HB1473 is important.

- In 2020, absentee ballots grew at 255% in ballots cast representing a third of our total votes compared to 2016 where less than 10% were absentee.

Across the state, we experienced anomalies in total votes cast. For example:

- Rockingham county ballots cast grew 1% in 2012, 1% 2016 but had a miraculous growth of 13% in 2020 – one party grew 25% - while the population grew 2.2%.
- Hillsborough County ballots cast was flat in 2012, declined by 1% in 2016 but grew 12% overall - with a single party growing 23% in 2020 all while the population growth was 1.7%.
- We had 21 towns have more than 100% of eligible voter turnout compared to the US Census. We had 124 towns greater than 80% eligible voter turnout!

These numbers make the majority of people want to know what happened.

MACHINES

As state, the majority of our ballots are run through voting machines managed by a single source: LHS.

LHS programs all our voting machines. Not one town clerk we asked has any specifics around what is programmed on the memory cards and chips in the machines. LHS is allowed to perform "maintenance" by the towns who in most cases will send their cards out to be programmed with no visibility into what was done. We have custody logs without the signature of who made the updates and why. The machines used across NH have been featured on numerous documentaries as hackable (Hacking Democracy & the Big Rig). It has even been acknowledged by our own Secretary of State that NH machines can be hacked.

CANVASS

Conducting our citizens audit, there are hundreds of examples where the process has broken down, numbers don't tie between towns and Sops leaving the results are in question. Desk analysis found 2 people who voted from a memory care center that died within months of the election. We have just under 8000 voters who cast ballots from nursing homes. In one town we canvassed, in a single nursing home, we had 35 who voted. 10 died within a year- 1 died the day after the election. Who validates that no one is taking advantage of these vulnerable people?

Our biggest finding was our canvassing efforts. **We knocked on 904 doors and found 444 voters at home. We confirmed that more than 13% of votes cast were made by people who should not have cast ballots, or whose ballot did not represent the method in which they voted**. These included people who did not live at addresses they voted from, addresses that did not exit, votes cast from people who did not vote , same day voters who resisted from homes they did not live at, and commercial addresses to name a few. These have resulted in affidavits that now have been submitted to the Attorney General .This is the validation that what we as a state have recorded as votes is not the voice of the people. We will continue to bring these forward.

WINDHAM

We experienced the national spotlight in Windham where ballots in barely taped boxes were flashed across the evening news. Let's not confuse what was conducted in Windham with an audit. This exercise was a recount. This is why HB 1473 was drafted.

In Windham, the initial recounts found we had ballot flipping issues. As part of the audit over 10, 0000 ballots were run through 4 voting machines and no 2 races across the machines generated the same results. We have concerning video and machine tape documents that show the machines in Windham were set back to pre-election settings and no back up cards were made at the instruction of our "expert" – the same person who demonstrated the hack in the documentaries. We have the same expert providing a signed affidavit for a court appearance confirming that once the memory cards on the voting machines are reset, they would wipe out any coded manipulation.

The conclusion of this recount was that the folds on the ballots created this issue. How can we be sure? We have 200 machines in 137 towns with some towns having as high as 57% absentee ballots that were all folded. After pulling machine tapes as part of the audit on nearly every town in NH, it is clear there are machines performing out of statistical bounds based on voter party registration. This needs further inquiry and corrective action.

We had individuals who were stakeholders in the New Hampshire election process involved in the audit which presents a conflict of interest and erodes any confidence there is no bias or manipulation.

There is no doubt we need a forensic audit. No public company that has third party stake holders would ever be allowed to trade without an impartial third party audit. We have allowed NH to conduct elections for decades without this- which is shame on us.

We are asking in HB 1473 to do a deep dive of the entire election process using a third party. We would use a single county – Merrimack - with targeted races (president, senate & governor) as a test case and audit it with an impartial, never before used third party who can provide an evaluation of the New Hampshire election process and tools. Should there be a large enough gap in the audit results found in the Merrimack results, the balance of the state will be audited.

We believe the votes of all legal NH citizens are more valuable than money as they signify freedom- which hundreds of thousands of men and women have died to preserve. We ask this committee to support HB1473 for this very reason- to insure every legal vote is counted: no more- no less.

Thankyou

Carrie Morris

Chairperson Griffin & Distinguished Election Committee Members,

Attached, please find my testimony regarding HB-1467, HB-1473I & HB-1484. Unfortunately, I am unable to deliver this testimony in person on February 2nd.

For your convenience I have also copied that testimony below.

Thank you for your consideration of my thoughts on these bills.

Respectfully,

Gregory Davis
Salem, NH 03079

Testimony submitted to the House Election Law Committee
Re: February 2, 2022 Public Hearing

Re. HB-1467, HB-1473, HB-1484

Chairperson Griffin and Distinguished Committee Members,

Thank you for this opportunity to convey my thoughts regarding:

HB 1467 requiring partial audits of additional offices on ballots involved in recounts

HB 1473 authorizing a forensic audit of the November 3, 2020 election results in Merrimack county for president, governor, and United States senate races

HB 1484 requiring a forensic audit of the 2020 election results.

These three pieces of proposed legislation are a colossal waste of your time and tax payer dollars. They are an attempt by a segment of the NH legislature to cast doubt on the integrity of our 2020 elections - both in process and results. Beyond that, they are
intended to reinforce the "Big Lie" that Joe Biden is not the duly elected and legitimate President of the United States. They imply voter fraud, when by all credible accounts the 2020 election was the cleanest and most scrutinized in US history.
The real crime
and danger is the former president's on-going attempts to perpetuate this lie.

Please protect our democracy and vigorously oppose these ill-conceived bills. They are a distraction from what truly is required to protect the integrity of our electoral system.

Hello,

I am writing to express my support for HB 1484 and 1473 and for eliminating the voting machines used in the 2020 elections. While I do not live in New Hampshire (Virginia), election integrity in every one of the states is essential for free and fair elections.

The only way to get to the truth of the 2020 election is to conduct a full forensic audit. This needs to be done in every state of the union as each state's election results determine the result of a national election.

The United States of America will not survive another stolen election. Please, conduct the full forensic audit, get rid of the machines and replace them with paper ballots in all future elections.

Thank you,

Sunny O'Malley
Alexandria, Virginia

Dear Committee,
HB1064, HB1484, and HB1473 all three need to be passed. The 2020 Election was a fraud. There is so much DOCUMENTED PROOF of massive fraud in NH as well as all over the country, much of it CRIMINAL! We need to pass these three Bills and work to build back election integrity for the American voters. These corrupt machines need to be eliminated! Paper ballots need to be reinstated! This needs to be done in every state!
Thank you,
Susan Riley

STATE OF NEW HAMPSHIRE

In the Year of Our Lord Two Thousand Twenty Two

AN ACT authorizing a forensic audit of the November 3, 2020 election results in Merrimack county for president, governor, and United States senate races.

Be it Enacted by the Senate and House of Representatives in General Court convened:

1 Purpose and Scope. Notwithstanding any provisions of law to the contrary, this act authorizes and directs a full forensic audit of the November 3, 2020 election for United States President, governor and United States senate races of Merrimack county by a third party audit company. The purpose of the audit is to increase voter confidence in the election process by identifying any areas of exposure that may require stronger business controls, practices, and tools. As such, the hands-on audit activity shall exclude the participation of current personnel or prior experts that participated in the election process or previous audits in New Hampshire.

The audit shall include ballot counting, ballot machines, their memory cards and software, the hand tabulations of ballots, the authenticity of ballots including the inspection of the ballots themselves, all ballot content, ballot paper, delivery tools and vehicles such as envelopes, boxes, folding machines, as necessary, same day registrant residency confirmation, statistical sampling and validation of voters who cast ballots and any steps the audit company may deem necessary to validate the audit results. Should the results of the forensic audit yield a deviation in the official election results for any candidate of 500 votes, the audit shall expand immediately to a full statewide audit to determine the breath and scope of the election issues across the state of New Hampshire.

2 Forensic Election Audit Team. A forensic election audit team shall be formed to manage the third party audit described in section 3. It shall be comprised of one person designated by each town to be audited, one person designated by the New Hampshire house of representatives, one person designated by the New Hampshire senate, and a third party who shall act as technical lead. The technical lead shall be hired by the forensic election audit team. This individual shall possess the skills to challenge any area of finding by the third party audit company. This technical lead may access technical consultants to augment areas of specialty. The technical lead shall provide consulting to the forensic election audit team as needed and assure the third party company stays within expected boundaries. The forensic election audit team shall hold the technical expert accountable for the execution of their function. The forensic election audit team with all its members shall be responsible for bringing recommended third party audit companies to the executive committee for selection.

3 Audit Process.

I. The audit process shall be determined by a professional third party audit company recommended by the forensic election audit team. The forensic election audit team shall make its

recommendations the executive committee, who shall select the third party company on a majority vote. The audit shall be executed by the selected third party who shall manage the audit in its full scope of work consistent with the recent Arizona Maricopa county audit. This audit action shall not be infringed by any other law.

II. The audit shall occur at a location designated by the forensic election audit team and provide the public complete transparency of the audit activity. The public shall be able to observe the audit including the movement of ballots and machines with 24 hour live video streaming of the audit in process. Volunteers used by the third party to count ballots shall allow for bipartisan participation and review. The facility shall be staffed with guards, strong security measures and keep logs of all entry and exit.

III. The towns and cities located within Merrimack county shall be responsible for transport of the ballot counting devices used in the general election on November 3, 2020 to the audit location and for the return of the devices to their point of origin upon completion of the audit. The secretary of state and towns in possession of the ballots shall be responsible for the transport of the ballots to the audit location and for the return of the ballots to their storage site. LHS Associates, or any other party in possession of the ballot machine memory cards, shall be responsible for the transport of ballot machine memory cards containing the data from the November 3, 2020 election to and from the audit location. In all cases, chain of custody shall be documented and be the responsibility of the party currently in possession of the audit item. The secretary of state and attorney general shall also be responsible for arranging the security at the location where the audit occurs.

IV. The secretary of state, attorney general, LHS Associates, and the towns and cities located within Merrimack county shall provide the election audit team whatever information or documentation the auditors require to perform the audit.

4 Third Party Forensic Election Audit Report Required. Within 45 days of the conclusion of the audit, the third party forensic election audit team shall produce a report with the results provided by the third party audit company which shall include, but not be limited to, a finding as to whether the ballot counting machines, software and memory cards accurately counted the ballots across the presidential, governor and senate races. They shall identify if nonresident and/or non-citizen votes were counted. The third party auditor shall make recommendations as to what improvements to the machine processing and tabulation processes might be considered in the future as well as all other facets covered in the full scope of work. The report as well as the third party audit results shall be provided to the secretary of state, the towns and cities located within Merrimack county and the ballot law commission. The reports shall be made available to the public within 3 days of completion.

5 Report Required; Secretary of State and Attorney General. Within 45 days of receipt of the forensic election audit team's report required pursuant to section 4, the attorney general and secretary of state shall issue a report to the speaker of the house of representatives, president of the

senate, and the select boards of the towns of Merrimack county as to results of the audit and any resulting recommendations.

6 Report Required; Ballot Law Commission. Within 45 days after receipt of the forensic election audit team's report the ballot law commission shall, in accordance with RSA 656:41, issue a report as to the performance of any surrounding processes that impact an accurate count.

7 Authority to Unseal Ballot Boxes. The third party audit company shall have the authority to unseal the ballot boxes to commence the audit work. The ballots shall be boxed and sealed after the audit in accordance with the procedures of RSA 659:95 and returned to the secretary of state.

8 Affirmation of Ballot Law Commission Ruling. The results of the audit shall not alter the official results of the Merrimack county races as determined by the ruling of the ballot law commission on November 25, 2020.

9 Deadline. The forensic election audit shall be completed within 3 months of the effective date of this act.

10 Election Audit Fund; Appropriation.

I. There is established in the state treasury an election audit fund which shall be administered by the secretary of state. Any gifts, grants, and donations, including monetary contributions from non-governmental sources, shall be credited to the fund to defray the costs of the election audit required in this and any other election audits.

II. The secretary of state shall accept any gifts, grants, or donations to be credited to the fund and shall approve all requests for disbursement from the fund.

III. The sum of $150,000 for the fiscal year ending June 30, 2023 is hereby appropriated to the fund for the purposes of sections 1-9 of this act. The governor is authorized to draw a warrant for said sums out of any money in the treasury not otherwise appropriated.

11 Repeal. Sections 1-10 of this act are hereby repealed.

12 Effective Date.

I. Section 11 of this act shall take effect June 30, 2023.

II. The remainder of this act shall take effect July 1, 2022.

HB 1473-FN- FISCAL NOTE
AS INTRODUCED

AN ACT authorizing a forensic audit of the November 3, 2020 election results in Merrimack county for president, governor, and United States senate races.

FISCAL IMPACT: [X] State [ ] County [ ] Local [ ] None

	Estimated Increase / (Decrease)			
STATE:	**FY 2022**	**FY 2023**	**FY 2024**	**FY 2025**
Appropriation	$0	$150,000	$0	$0
Revenue	$0	$0	$0	$0
Expenditures	$0	Indeterminable Increase	Indeterminable Increase	Indeterminable Increase
Funding Source:	[X] General	[ ] Education	[ ] Highway	[ ] Other

LOCAL:

Revenue	$0	$0	$0	$0
Expenditures	$0	Indeterminable Increase	Indeterminable Increase	Indeterminable Increase

METHODOLOGY:

This bill requires a forensic audit of the 2020 election in Merrimack County for Untied States president, NH governor, and US state senators. It also establishes an election audit fund, which shall be administered by the Secretary of State, to cover the cost of the audit. The election audit fund shall be funded with any gifts, grants and donation including monetary contributions from non-governmental sources as well as an appropriation of $150,000 for the fiscal year ending June 30, 2023.

The Department of State indicates there would be a substantial indeterminable increase in general fund expenditures. The increase will be offset by any funds accepted from outside of state government. However, the Department of State is unable to determine how much revenue will be collected through voluntary, non-governmental contributions.

The New Hampshire Municipal Association states there will be an indeterminable increase in expenditures to cover costs of fuel and any other transportation costs. The NH Municipal Association assumes the funds from the election audit fund would be used to pay any costs incurred by municipalities.

The Department of Justice states the Attorney General would be obligated to issue a joint report with the Secretary of State on the audit results and recommendations. The fiscal impact is indeterminable, though there would be a significant demand on Attorney General staff. Also, staff would be participating in the collection or opening of ballot boxes and associated material from each town in Merrimack County. The more readily determinable obligations would probably result in 150-200 staff hours, not including being present for audit proceedings. However, the amount of time that staff would spend gathering materials as requested by auditors is unknown resulting in an indeterminable increase in state expenditures.
