HOUSE OF REPRESENTATIVES

REPORT OF COMMITTEE

The Majority of the Committee on Health, Human Services and Elderly Affairs to which was referred HB 575-FN,

AN ACT relative to vaccine and pharmaceutical products purchased, promoted, or distributed by the state and its political subdivisions. Having considered the same, report the same with the following resolution: RESOLVED, that it is INEXPEDIENT TO LEGISLATE.

Rep. James Murphy

FOR THE MAJORITY OF THE COMMITTEE

Original: House Clerk
Cc: Committee Bill File

MAJORITY
COMMITTEE REPORT

Committee:	**Health, Human Services and Elderly Affairs**
Bill Number:	**HB 575-FN**
Title:	**relative to vaccine and pharmaceutical products purchased, promoted, or distributed by the state and its political subdivisions.**
Date:	**March 13, 2023**
Consent Calendar:	**REGULAR**
Recommendation:	**INEXPEDIENT TO LEGISLATE**

STATEMENT OF INTENT

This bill prohibits the state and its political subdivisions from purchasing, promoting, or distributing any vaccine or pharmaceutical product that has not been tested with voluntary, human, clinical trials. This bill will have potentially wide-ranging negative and unintended consequences. Mandating a new clinical trial for the periodically updated flu and pneumococcal vaccines would delay their timely availability for children and adults resulting in increased morbidity. This bill would likely lead to higher patient costs for some childhood vaccines purchased through the Vaccines for Children (VFC) program if NH DHHS were unable to purchase, promote or distribute certain vaccines. Another unintended consequence would be the effect on the FDA provision known as expanded access, or "compassionate care". Patients with serious or immediately life-threatening diseases would not have access to medical products, including drugs, vaccines and biologics. These are products involved in clinical trials but, in certain desperate situations, can be used under "compassionate use". Situations involving compassionate care include ALS, muscular dystrophy and certain cancers. Any human clinical trial would be anything but 'voluntary' and would be prohibited under Federal law and considered unethical, thus including 'voluntary' in the bill's text is unnecessary. This bill would also compromise the ability for those living in congregate settings like correctional facilities, nursing homes and mental health institutions to have timely access to these products. The wording in this bill is vague and its intent is unclear. The unintended consequences would lead to decreased access to vaccines and other therapeutics and likely increase health care costs.

Vote 11-9.

Rep. James Murphy

Cc: Committee Bill File

MINORITY
COMMITTEE REPORT

Committee:	**Health, Human Services and Elderly Affairs**
Bill Number:	**HB 575-FN**
Title:	**relative to vaccine and pharmaceutical products purchased, promoted, or distributed by the state and its political subdivisions.**
Date:	**March 13, 2023**
Consent Calendar:	**REGULAR**
Recommendation:	**OUGHT TO PASS**

STATEMENT OF INTENT

Advertisements promoting vaccines and other pharmaceutical products should be paid for by the companies that sell them, not by taxpayers. Furthermore, the public should not be left to rely on unproven assertions that a particular vaccine is "safe and effective." The bill limits its focus to vaccines and other pharmaceutical products that have not been subjected to voluntary, human, clinical trials; such as new COVID boosters that target the BA.5 omicron subvariant. This bill would prohibit the state from purchasing, promoting, or distributing such vaccines or other pharmaceuticals.

Rep. Jim Kofalt

PUBLIC HEARING ON HB 575-FN

BILL TITLE: **relative to vaccine and pharmaceutical products purchased, promoted, or distributed by the state and its political subdivisions.**

DATE: **February 16, 2023**

LOB ROOM: **201-203** **Time Public Hearing Called to Order:** **10:35 AM**

Time Adjourned: **12:29 PM**

Committee Members: Reps. W. MacDonald, Layon, B. King, Cushman, Kofalt, McLean, S. King, Mazur, Nagel, Polozov, Weber, MacKay, Freitas, Cannon, Nutter-Upham, Schapiro, Merchant and Palmer

Bill Sponsors:

Rep. Phillips	**Rep. Wheeler**	**Rep. Potucek**
Rep. Seidel	**Rep. Harley**	**Sen. Gannon**
Sen. Murphy		

TESTIMONY

* Use asterisk if written testimony and/or amendments are submitted.

***Rep. Emily Phillips – Rockingham #7 – Prime sponsor**

Q: Rep. Cushman – What are the consequences of skipping clinical trials?
A: Studies show this can be detrimental
Q: Rep. Weber – Would this bill interfere with decision making?
A: No, still provided by pharmacies
Q: Rep. Schapiro – When does it make sense to use unapproved vaccine?
A: There are situations, but some were mandated in order to keep their jobs – informed consent is necessary
Q: Rep. Merchant – Are rights being taken away?
A: I don't believe so – I'll look into this
Q: Rep. Boosters did not have clinical
A: Yes
Q: Rep. McClean – Would you be open to an amendment? – Take out banning of promoting
A: Yes
Q: Rep. What do you think about an optional registry
A: Yeah
Q: Rep. S. King – Didn't big pharm make a lot of money and create more issues?
A: Yes
Q: Rep. Polozov – Do you need legislation to control?
A: There may be experts here to discuss this further

Ryan Tannian & Dr. Benjamin Chan – DHHS – Opposed

- Language is unclear on clinical studies
- Use of the word "voluntary" on line 6 of the bill
- May impacted how vaccines are distributed
- Force consumers to purchase commercially
- Could force impacts to compassionate care
- Dr Chan – Wording is broad – trouble with promoting and distribution

Q: Rep. Schapiro – How can NH have a more robust informed consent?
A: Rare cases of state becoming the healthcare provider
Q: Rep. Layon – Can we get a list of vaccines?

A: We don't have a complete list
Q: Rep. Layon – Provider or patient based?
A: Not best dept to answer this question
Q: Rep. Merchant – How does this impact "off label" use
A:
Q: Rep. Weber – Are we neglecting rights of those who can be infected by an unvaccinated person?
A: agreed
Q: Rep. S. King – Who currently decides to chose for promotion and distribution
A: Federal process/national organizations
Q: Rep. Nagel – Risk and benefit trials in progress
A: Not true – Concern defining "clinical" trial
Q: Rep. Mazur – When do we pause vaccines that are not effective and did not receive proper testing?
A: If new strains come out, does not mean the vaccines are not effective
A: Dr Chan – There is a link between vaccine and myocarditis
Q: Rep. McClean – Can you talk about the role of the state and promotion?
A: How is promotion defined – we don't have answers because the language is vague

*Dr. Meryl Nas – Supports

Q: Rep. McClean – Will we be depriving people if we wait 10 years for a roll out
A: Yes, if informed consent
Q: Rep. Cushman – Where do you see medical ethics going– precautionary principle
A: Precautionary principle has been thrown out the window
Q: Rep. Nagel – What is your position?
A: Internal medicine

***Kate Horgan – NH Association of Counties – Opposed**

Dr. Jeff Fetter – NH Hospital – Opposed
Concern with promotion language
Informed consent – we take it seriously

Q: Rep. Schapiro – Flu and COVID vaccines would not be available to older people in homes and hospitals
A: That is out interpretation

***Kate Frey – New Futures – Opposed**

***Debra Johnson – Supports**

Andrew Hosmer - NH Public Health Association – Opposed

Terese Grinnell – Supports

Q: Rep. Polozov – Are COVID injuries/deaths documented?
A: Yes, it is documented
Q: Rep. Cushman – Are people begin mandated to vaccinate if in nursing home?
A: They need to be completely vaccinated

***Joseph Midzoff -Supports**

Steven Robinson – Supports

Respectfully submitted,

Rep. Bill King, Clerk

The Honorable Wayne MacDonald
Chairman
House Health, Human Services and Elderly Affairs Committee
NH State House
Concord, NH 03301

Chairman MacDonald and Members of the House Health, Human Services & Elderly Affairs Committee,

The NH Association of Counties would like to express opposition to HB 575, relative to vaccine and pharmaceutical products purchased, promoted, or distributed by the state and its political subdivisions.

The New Hampshire Association of Counties believes that each county has the right to set their own vaccine policies that align to the needs of their county. NH counties are subject to both federal and state regulations and when the two entities set conflicting policies, it requires NH Counties to make a choice regarding which set of rules to follow. Therefore, the NHAC does not support any statute that would set state and federal policy against one another and believe NH counties should be able to set their own vaccine policies for their own counties facilities.

The Association would ask that you vote HB 575 inexpedient to legislate. If you have any questions, please contact Kate Horgan at KHorgan@dupontgorup.com.

Sincerely,

Wendy Piper

Wendy Piper
President
NH Association of Counties

Carol Huber

I support this bill, and it must be passed. We cannot inject our citizens with so-called vaccines that have not been proven safe.

Susan Goodhue

I fully support banning our state of NH from purchasing, promoting, or distributing products without human clinical trials!

Sue Allen

I continue to be upset over the irresponsibility of promoting vaccines and boosters without revealing testing that shows the human consequences. Our New Hampshire government must not purchase, promote, or distribute untested, unreliable medicines.

karen keane

The state and its political subdivisions have NO BUSINESS purchasing, promoting, or distributing vaccines or any pharmaceutical product without human, clinical trials, as we did with the Covid booster.

Period. It's morally wrong.

thank you!

Representative John M Potucek

I SUPPORT this Bill because I believe it is a VERY GOOD Bill for the residents/citizens of New Hampshire who NEED it.

Robert Early

Please consider my support of HB575.

Please consider strengthening this Bill to add “successful” human trials “that include a placebo group studied for the full length of trial”

Roy Sims

Please support this bill.

Julie Sims

Please support this bill.

Richard Brooks

The state should not participate in purchasing, promoting, advertising, or distributing any product that has not been properly and fully tested for the safety of the general public especially when related to medical products. Further more it is unconstitutional for the state to mandate or encourage any decisions regarding personal medical choices.

Loriann Safford

As a mom of two young adults with Duchenne Muscular Dystrophy, I know all about the harm that pharmaceuticals and gene-editing or gene-skipping drugs can do in clinical trials. I strongly support Never again purchasing, promoting or distributing any pharmaceutical product without human, clinical trials. Thank you.

Louise Harrigan

I ask you to please support Bill HB575

Anne Paine

I support and ask you to support Bill HB575

JoAnn McClellan

It is IRRESPONSIBLE to distribute a vaccine or medication that has not completed Clinical Trials. Even in granting Emergency Use Authorization, there should enough information to state with certainty, that the RISK DOES DOES NOT EXCEED THE BENEFIT.

Previous vaccines, with the number of Adverse Effects & deaths attributed to the Covid 19 vaccine during trials, would have seen the trials halted and ,if distribution had started, would have been pulled from the market.

We can never let this happen again - trials must be completed before exposing millions to a vaccine or drug.

Claudia Damon

Vaccines protect my children and the public. If you want to destroy public schools, go ahead and pass this bill. Soon no one will send their kids to public schools because it won't be safe without vaccinated children. Just look at the rise of measles with the increased number of people not vaccinating their children--an eradicated childhood disease makes a comeback. Will polio be next? If you don't want to kill living beings, children, then voting to oppose this bill is a good place to start. Please follow the proven record of fighting awful diseases and deaths with vaccines. Please oppose this bill!

Judith Wherett

Please keep our state out of the pharmaceutical business especially when human safety trials have not been properly conducted. Thank you.

Bryan Peter

The Covid pandemic has shown us that we must do everything to prevent medical dictates be unilaterally imposed on the people of NH by government overreach, not matter how well intended. The purpose of government is to make information on options available not be party to imposing experimental medical practices on the people of NH.

Darlene Cartier

This bill prohibits the state and its political subdivisions from purchasing, promoting, or distributing vaccines or any pharmaceutical product without human, clinical trials, as we did with the Covid booster. THIS IS A MUST!!! We are NOT experimental guinea pigs for the government to experiment with. Please SUPPORT this bill!!

Kimberly White

It seems like a no-brainer to me that the state and/or its political subdivisions should not purchase, promote or distribute any vaccines or pharmaceutical products that have not been tested by voluntary, human clinical trials!

Please register my support for HB 575

Alec Cedrone

I don't support the state spending my money on drugs, I don't care if Vanguard/BlackRock and State Street own this country, they do not own me and certainly do not own my children and their ability to rush out new drugs or alter existing ones without responsible scientific review is not only irresponsible but it is criminal.

Patricia Cook

The state and its political subdivisions shall not purchase, promote, or distribute vaccines or any pharmaceutical product without human or clinical trials.

Bryan Richardson

Please Support HB 575

Claire Ketteler

Voluntary human clinical trials must be performed, with the results made public, on every new vaccine or pharmaceutical product that will be purchased, promoted or distributed by the state of NH or any of its political subdivisions. This is the only way to maintain accountability for both NH and US government taxpayer money being spent appropriately and the resultant product being safe.

tom luther

Greetings from Sullivan County:

Given the revealed FAILURE of various federal agencies to uphold medical standards:

It falls to the state, NH, to protect its citizens. I accept that.

This bill will prohibit NH citizens from being federal crash test dummies for bad policy.

NOTE: I would prefer to completely replace federal with NH medical standards. Lacking that, this is a stopgap measure that is unfortunately necessary... OTP.

tom luther
claremont

Meagan Vanhoogen

I support DHHS rule making authority

Russ Payne

Get the Federal Govt. grubby hands filled with lust for power out of our state! We don’t need their money. Liberty is more important than money that the government continues to inflate until it is worthless. Vaccines and pharmaceuticals should not be purchased or distributed by state organizations. People of NH are not helpless! Stop advocating these inflationary programs that steal out of the taxpayers pocket and then graciously gives some of the money back with control. I urge you support HB 575.

Russ Payne tel # 365-4966

schools and businesses that promoted the Covid vaccine should be fined for promoting something without much expert opinion on it available to the public. This practice needs to be stopped going forward.
school is no place to promote anything but education.

Jennifer Tuthill

I do not support the state recommending or forcing any medical decisions or mandates on the public at all, especially if they are recommending treatments that have not gone through proper testing. That includes animal testing as-well-as the 5-10 years of studies required to be fully FDA approved . I vehemently oppose the state advocating for treatments that are emergency use only as the short and long term side effects, positive or negative, are unknown, and if there are negative side effects, under emergency use only and the pact agreement, if one falls victim to injury, there is no legal recourse or liability. Medical autonomy and informed consent should not be up for debate and if the state does mandate treatments and injury results, I believe the injuried party should be justly compensated by the state.

Elaine Plante

The public should not be subject to any medical treatment without human clinical trials. We should not be the subjects of experiment. Protect the citizen. Support this bill.

Laura Condon

This bill is certainly well-intentioned to protect the health and safety of the public from vaccines and other pharmaceuticals that are insufficiently tested. However, in order for it to achieve that goal, it would have to provide more expansive qualifiers. As the bill is written, any clinical trial would qualify, no matter how small, for how short a period, without any control group, and even with significant adverse outcomes as the only requirement is that there be human clinical trials. We know that the bivalent COVID-19 boosters —made by manufactures Moderna and by Pfizer, along with its partner BioNTech— were approved by the Food and Drug Administration (FDA) on an expedited basis without human clinical trials. The population is a mass science experiment and we are seeing devastating effects. The flu shot is another vaccine that lacks any human clinical trials. Did you know you were part of an experiment, or did you think that "experts" had actually thoroughly tested these vaccines before selling them to the public? Certainly demanding sufficient clinical trials with positive outcomes would be a great step in protecting the public from snake oil vaccine sales. This bill has merit for further work and consideration.

James Gardner

EVERYTHING should be tested with voluntary, human, clinical trials before purchasing, promoting, or distributing any vaccines or pharmaceutical products,

walter kirsch

Shall not be infringed !

Mary Cozzens

I support parents rights to their children’s medical records.

Carolyn Hawkins

I do NOT wish to be part of human trials for any vaccine without my consent. It is a crime what has happened to NH residents due to the pushing of an untested vaccine during COVID.

Martha Jaquith

This bill prohibits the state and its political subdivisions from purchasing, promoting, or distributing vaccines or any pharmaceutical product without human, clinical trials, as we did with the Covid booster. I support this!
Thank you for supporting.
-Mrs Martha Jaquith

Alexander Granok

I oppose this bill as unnecessary and deceptive. There are no vaccines or pharmaceuticals used by the general public, which have not been approved by the FDA. Human studies are an integral part of this approval process.

Linda McGrath

We must get back to the actual scientific method of RIGOROUS TESTING. What happened to first do no harm

Victoria Gulla

8 Mice

The bivalent COVId booster that has proven to ruin immune systems, causing recipients to not only have heinous adverse events such as myocarditis, strokes, VITT, pregnancy loss and difficulty, but also death. For those who live, they are more likely to get COVId over and over again. Research IgG4 and immune tolerance. And it was tested on 8 mice. That's it. When the federal government is completely captured by Big Pharma or some death merchant, the state of NH must step in and protect the citizens.

8 mice.

Please pass this bill to protect the health of NH residents.

Testimony of Meryl Nass, M.D. before the Health, Human Services and Elderly Affairs Committee. February 16, 20223

Honorable Chairpersons, Members and Senators,

My name is Dr. Meryl Nass. I am testifying in favor of HB575: Should New Hampshire promote, purchase or distribute vaccines **that have not undergone human trials?**

I am a Maine physician and expert on anthrax, bioterrorism and vaccine safety. I have given 6 Congressional testimonies on these subjects. I was the first person in the world to show that an epidemic was the result of biological warfare.

A vaccine that has not completed human trials is an unlicensed, experimental vaccine--with one exception, seasonal flu vaccines.[1] **I would ask that you amend the language of this bill so that influenza vaccines are the single listed exception.**

First, it is important to know that neither safety nor effectiveness of vaccines (as well as drugs) can be determined from animal studies. Animal responses are unpredictable, variable, and do not parallel human responses. This is why the FDA requires that 3 successive clinical trials in humans must be performed, **after** animal studies are completed, before a vaccine or drug can be licensed.

According to authors at GlaxoSmithKline:[2]

> *Before a vaccine is administered to humans, vaccine manufacturers undertake extensive safety evaluation of individual vaccine components and of the final formulation to be administered. Raw materials must be of the highest possible purity and quality... [5]. The vaccine components and the final product are tested in the laboratory for purity, sterility, potency, consistency, activity and stability (described in more detail by [46]). Many of these tests are conducted in the laboratory, and many, such as tests for efficacy, toxicity, safety and effects on reproductive health, are conducted in animal models.*
>
> *After licensure, all vaccine lots must pass a rigorous array of quality control tests that are agreed on by regulatory agencies (both the authority responsible for the jurisdiction where the manufacturer is based, and the authority [or authorised delegate] on the receiving country), before they can be released. During manufacturing an individual vaccine will undergo multiple non-clinical, toxicology and safety tests (sometimes numbering in the hundreds) before being released for use in humans. New production sites need to be inspected and approved before starting their activities, after which they*

---

[1] https://www.ncbi.nlm.nih.gov/pmc/articles/PMC4947948/ An overview of the regulation of influenza vaccines in the United States

[2] https://www.sciencedirect.com/science/article/pii/S0264410X16309744/ Vaccine safety evaluation: Practical aspects in assessing benefits and risks

are regularly inspected and audited by regulatory agencies. Production sites can undergo many inspections in a year, since each individual country's authorities may decide to inspect the facilities at any time.

The safety of an individual vaccine is continuously monitored in humans throughout its clinical development, culminating in large Phase III studies *which may be designed to assess specific safety outcomes (Garçon et al. in this issue). Although smaller pre-licensure safety packages may be submitted in settings of public emergency, such as pandemic influenza, or with new vaccine formulations of existing vaccines, most new vaccines are submitted for license approval with an extensive safety data package containing detailed safety information from pre-clinical studies and from the thousands or even tens of thousands of individuals that received the vaccine in clinical trials....*

According to the American College of Physicians,[3]

"Vaccine development is a long, complex process, often lasting 10-15 years and involving a combination of public and private involvement...Vaccines are developed, tested, and regulated in a very similar manner to other drugs. In general, vaccines are even more thoroughly tested than non-vaccine drugs..."

According to the CDC,[4]

"Vaccine licensing is a lengthy process that can take 10 years or longer. The FDA requires that vaccines undergo three phases of clinical trials with human subjects before they can be licensed for use in the general public."

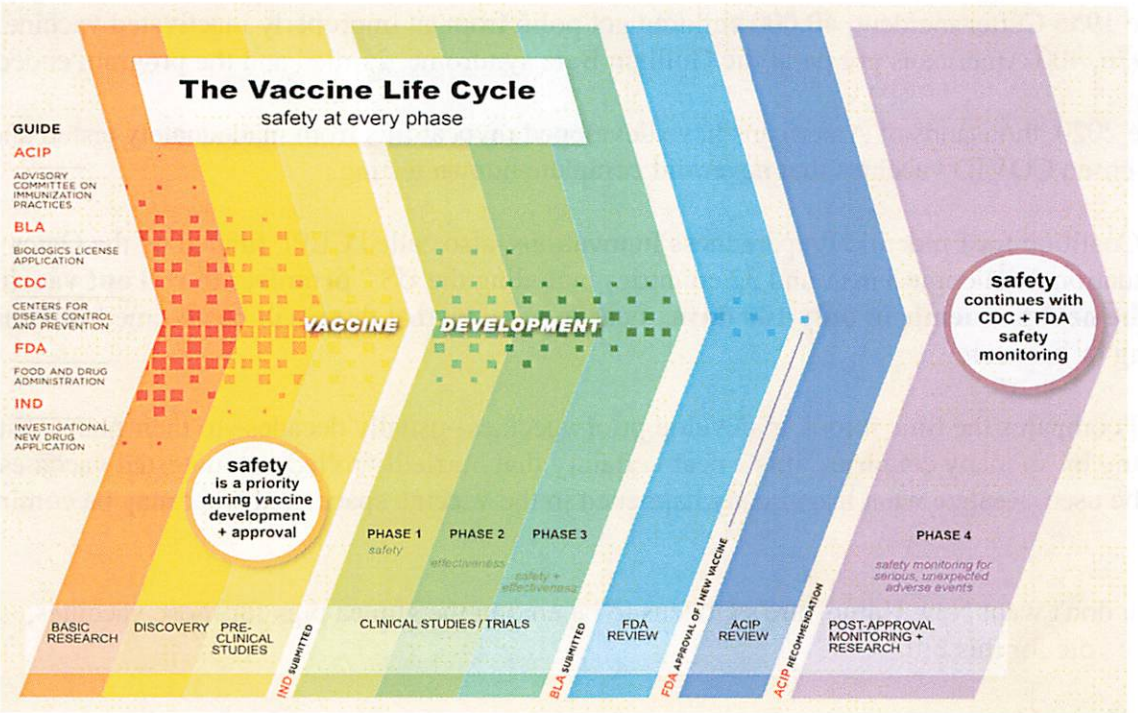

"Only after the FDA is satisfied that the vaccine is safe is it licensed for use in the general population.

I have provided you a CDC graphic (footnote 4) to show the many stages that must be completed to get a vaccine approved. When regulators tried to skip these stages, usually serious trouble arose.

---

[3] https://historyofvaccines.org/vaccines-101/how-are-vaccines-made/vaccine-development-testing-and-regulation

[4] *https://www.cdc.gov/vaccinesafety/ensuringsafety/history/index.html*

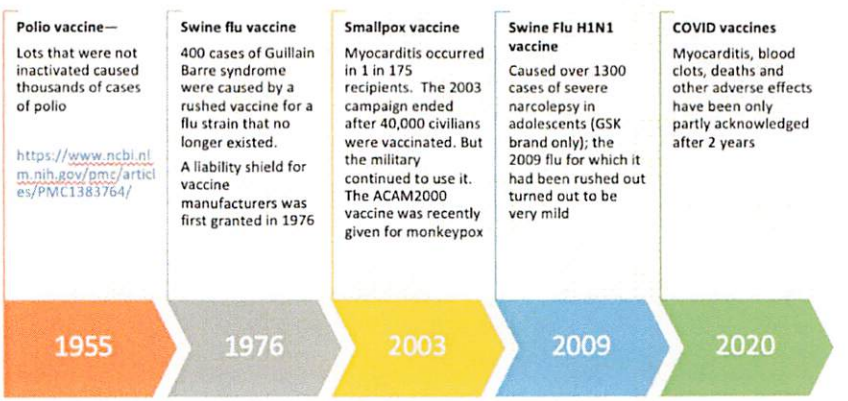

Why would any state government provide its citizens with a drug or vaccine that had not been fully tested and found to be safe and effective? The **only reason** would be a serious medical emergency where no licensed therapy is available.

So let's see how that has worked out each time it has been tried.

I've given you a graphic with 5 historic examples of the unanticipated problems that occurred when inadequately trialed vaccines were rolled out for general use.

Rushed development of vaccines has never been safe

In the 1955 Cutter incident, 40,000 children got polio from an improperly inactivated vaccine.[5] In 1976, 400 Americans got paralytic Guillain Bare syndrome, 25 died and the program ended.

Since 2020, thousands of Americans have developed myocarditis from inadequately tested and unlicensed COVID vaccines that never did complete human testing.

The Coalition for Epidemic Preparedness Innovations, also called CEPI, funded by the Gates Foundation, Wellcome Trust, and 32 countries including the US,[6] **promises to roll out vaccines for the next pandemic in only 100 days.** I can assure you that there will be no time for human testing or licensure.

CEPI compares the time it took to develop prior vaccines--usually decades--to their plan. With funding by so many countries, it is a near certainty that hurriedly rolled out, untested vaccines will be used. Realize what has already happened in the vaccine space, and what may be coming next.

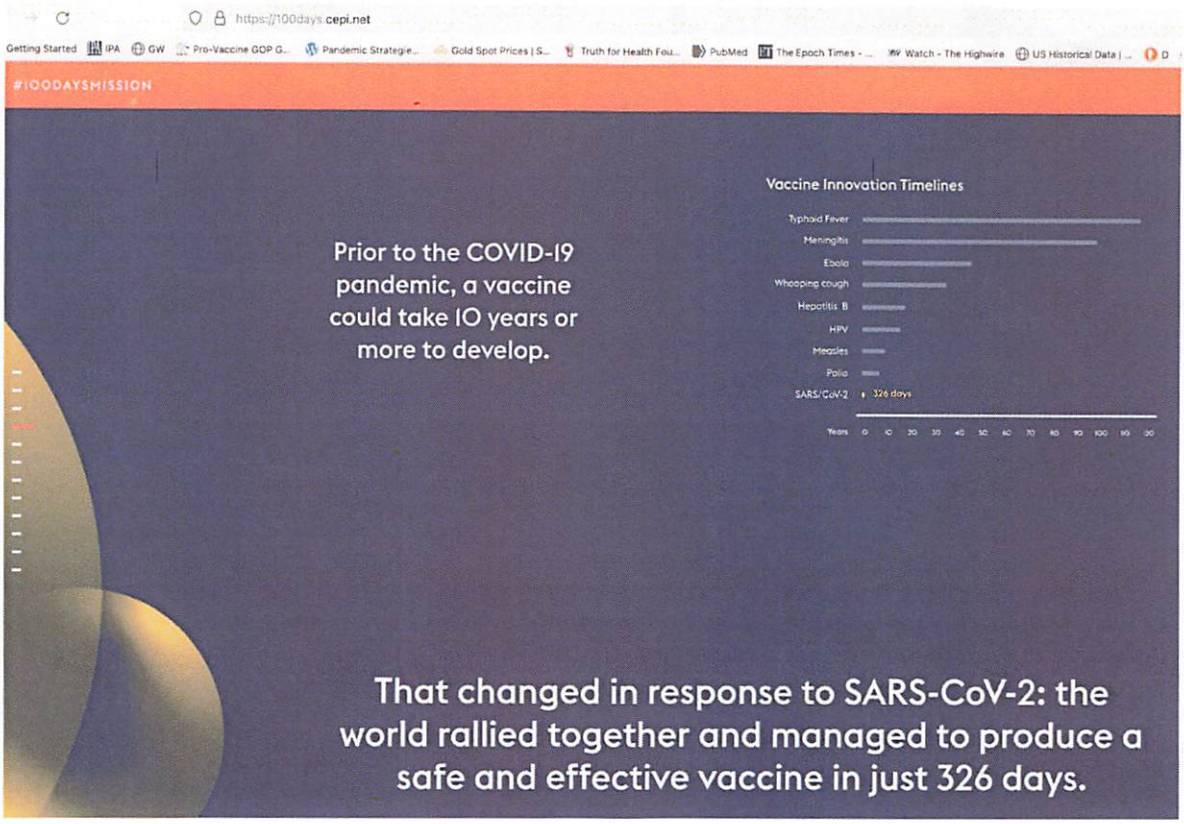

If you don't want New Hampshire's citizens to be among the guinea pigs for those vaccines, please vote for this bill.

New Hampshire can protect its citizens from precipitous and frankly reckless medical experiments by simply requiring that all vaccines, apart from seasonal flu vaccines, go through human clinical trials before being rolled out for mass use. Which is only what the law requires to give vaccines a license and call them "safe and effective." Citizens of the Granite State deserve no less.

The times are perilous. We, the people and the professionals, need your protection. Please pass HB575.

newfutures

advocate • educate • collaborate
to improve the health and wellness of all Granite Staters

(6)

February 16, 2023

The Honorable Wayne McDonald, Chair
House Health and Human Services and Elderly Affairs Committee
Legislative Office Building Room 205
Concord, NH 03301

Re: New Futures' testimony in opposition to HB 575, relative to vaccine and pharmaceutical products purchased, promoted, or distributed by the state and its political subdivisions.

Dear Chair McDonald and Members of the Committee:

New Futures appreciates the opportunity to provide testimony in opposition to HB 575, relative to vaccine and pharmaceutical products purchased, promoted, or distributed by the state and its political subdivisions. New Futures is a nonpartisan, nonprofit organization that advocates, educates, and collaborates to improve the health and wellness of all New Hampshire residents. In this role, we work extensively with policy makers, health care providers and communities to improve overall public health and improve health equity across the Granite State.

New Futures supports public health policy measures that decrease illness and disease, including immunizations and programs that ensure equitable and broad distribution of vaccines-especially for children. New Hampshire's Vaccine for Children program does just that. In New Hampshire, all children through the age of 18 years can receive vaccines at no cost through an innovative program that has been replicated by several other states. By combining general funds, federal funds and contributions from health insurance companies that do business in the state, the NH Department of Health and Human Services can purchase, at a reduced cost, enough vaccines to provide every child in the state with all the vaccines recommended in the childhood immunization schedule.

HB 575 would prohibit the state and its political subdivisions, including but not limited to counties, cities, towns, precincts, water districts, school districts, school administrative units, or quasi-public entities from **purchasing, promoting, or distributing vaccines** or pharmaceutical products, not tested with voluntary human clinical trials. If the Department and other partners are unable to purchase, promote, or distribute certain vaccines then cost to individuals, families, communities, and the overall healthcare system will increase. New Hampshire has very high childhood vaccination rates and is often ranked in the top three states with the highest rates in the country. [1] One of the unintended consequences of HB 575 could be a decrease in childhood vaccination rates, opening the door for increased disease rates.

Public health achievements such as vaccines are often a victim of its own success. Because of vaccines, many of us have never seen a child with polio, tetanus, whooping cough, bacterial meningitis, or even chickenpox, or known a friend or family member whose child died of one of these diseases. Childhood vaccines also protect the broader population because they build the protective "firewalls" around us by increasing herd immunity and protecting those who can't get vaccinated, including infants, and children and adults with weakened immune systems.[2]

[1] https://www.americashealthrankings.org/explore/annual/measure/Immunize_b/state/NH
[2] https://apic.org/monthly_alerts/herd-immunity/

Lastly, New Futures questions the intent of this legislation and if it is in response to the COVID vaccine, it is important to note, the Department has said it has no plans at this time to mandate the COVID vaccine.

For these reasons. New Futures strongly urges the committee members to vote Inexpedient to Legislate on HB 575.

Sincerely,

Kathryn Frey

February 13, 2023

The Honorable Wayne MacDonald
Chairman
House Health, Human Services and Elderly Affairs Committee
NH State House
Concord, NH 03301

Chairman MacDonald and Members of the House Health, Human Services & Elderly Affairs Committee,

The NH Association of Counties would like to express opposition to HB 575, relative to vaccine and pharmaceutical products purchased, promoted, or distributed by the state and its political subdivisions.

The New Hampshire Association of Counties believes that each county has the right to set their own vaccine policies that align to the needs of their county. NH counties are subject to both federal and state regulations and when the two entities set conflicting policies, it requires NH Counties to make a choice regarding which set of rules to follow. Therefore, the NHAC does not support any statute that would set state and federal policy against one another and believe NH counties should be able to set their own vaccine policies for their own counties facilities.

The Association would ask that you vote HB 575 inexpedient to legislate. If you have any questions, please contact Kate Horgan at KHorgan@dupontgorup.com.

Sincerely,

Wendy Piper

Wendy Piper
President
NH Association of Counties

KIM THATCHER
STATE SENATOR
District - 13

DENNIS LINTHICUM
STATE SENATOR
District - 28

OREGON STATE SENATE
900 COURT STREET NE
SALEM, OR 97301

Formal Grand Jury Petition Overview[1-8]

This formal petition is presented by Oregon State Senator Kim Thatcher, District 13 and Oregon State Senator Dennis Linthicum, District 28 having been informed by American citizens with subject matter expertise in statistical analysis, death certificate reporting, federal law, medicine, virology and epidemiology.

This formal petition is based upon significant irregularities in COVID-19 data published by the CDC. Irregularities that have played a critical role in justifying emergency executive orders by the executive branch. Irregularities that have been used to establish public health policies that have infringed upon the Constitutionally protected civil liberties of the citizens we represent. Irregularities that have led to major collateral damages including but not limited to: (1) historic small business loss and community economic collapse, (2) unacceptable rises in mental illness, drug abuse, and suicide rates, and (3) unnecessary loss of life due to the withholding of evidence-based treatments from citizens in need.

Several exhibits (Exhibits B thru G) are provided as substantive evidence with this formal petition for a grand jury investigation into the alleged violations of Federal Law and subsequent acts of Willful Misconduct by the Centers for Disease Control and Prevention (CDC) and Food and Drug Administration (FDA). This formal petition acts as both an official complaint and preliminary exhibit to assist grand jury members in orienting themselves to the scope of alleged crimes committed. This formal petition is also a synopsis of the federal agencies involved, key findings, allegations, and relevant laws violated that led to the quality of COVID-19 data for cases, hospitalizations, and deaths being irreparably compromised.

Immediately upon request or subpoena, we are prepared to provide an extensive witness list of subject matter experts poised to testify under oath to the serious allegations being brought forth.

On behalf of the citizens of Oregon we represent and all Americans seeking answers, we humbly ask you to exercise your power as a U.S. Attorney. Your duty to notify the grand jury of this petition for their consideration is codified in **18 U.S. Code § 3332 - Powers and duties**. We request the U.S. Attorney reviewing this formal petition to immediately inform the grand jury of this petition and all preliminary exhibits submitted within 7 days of receipt. We request grand jury members thoroughly

investigate the alleged acts of Federal Law Violations and alleged acts of Willful Misconduct by the CDC and FDA found within this official formal petition. [1-8]

In Service to Our Constituents, Our County & Our Oath of Office,

The Honorable Senator Kim Thatcher
Oregon Senate District 13

The Honorable Senator Dennis Linthicum
Oregon Senate District 28

Expert witness list available upon request or subpoena via
Sen.KimThatcher@oregonlegislature.gov
Sen.DennisLinthicum@oregonlegislature.gov

Relevant Case Law Supporting Our Right To Petition

1. The right to petition a grand jury is codified in the first amendment to the United States Constitution and in ***18 USC §3332 Powers and Duties***; "It shall be the duty of each such grand jury impaneled within any judicial district to inquire into offenses against the criminal laws of the United States alleged to have been committed within that district. Such alleged offenses may be brought to the attention of the grand jury by the court or by any attorney appearing on behalf of the United States for the presentation of evidence. Any such attorney receiving information concerning such an alleged offense from any other person shall, if requested by such other person, inform the grand jury of such alleged offense, the identity of such other person, and such attorney's action or recommendation."
2. This right is also affirmed again by ***In Re Grand Jury Application*** (No. 85 Civ. 2235 (VLB), 617 F. Supp 199 | 1985); "Since the United States Attorney has been requested to present certain information to the grand jury he must do so. I will not relieve him of a duty which Congress has seen fit to impose. 18 U.S.C. § 3332(a) imposes a "plainly defined and peremptory duty" on the part of the United States Attorney to present the plaintiffs' information concerning the alleged wrongdoing of the other defendants to the grand jury."
3. The right to petition a grand jury pre-exists codification, and we stand on this right. See ***McDonald v Smith***, (472 U. S. 479, 482–484 | 1985) and ***District of Columbia v. Heller***, (554 U.S. 570, 579, 592 | 2008).
4. Yet, when we examine English common law, we see this right pre-exists both the Constitution and the United States Code when, in 1689, the Bill of Rights exacted of William and Mary stated: "[I]t is the Right of the Subjects to petition the King."
5. The ***US Attorney Manual*** confirms the independence of the grand jury; "The prosecutor must recognize that the grand jury is an independent body." (USAM Chapter 9-11.010 – Introduction).
6. The Fifth Amendment "presupposes an investigative body acting independently of either prosecuting attorney or judge." ***United States v. Dionisio***, (410 U.S. 1, 16 | 1973)
7. In ***Frisbie v. United States*** (157 U. S. 160), it is said by Justice Brewer, "But, in this country, it...is for the grand jury to investigate any alleged crime, no matter how or by whom suggested to them, and, after determining that the evidence is sufficient to justify putting the party suspected on trial, to direct the preparation of the formal charge or indictment."
8. "They [grand juries] are not appointed for the prosecutor or for the court; they are appointed for the government and for the people..." ***Hale v. Henkel, 201 US 62***.

Summary of Primary Allegations

All federal agencies are required to comply with all federal laws. For convenience, relevant federal agencies and excerpts of relevant laws are included later in this petition.

The CDC and National Vital Statistics System (NVSS), a federal agency within the CDC, are required to comply with the Administrative Procedures Act (APA), the Paperwork Reduction Act (PRA), and the Information Quality Act (IQA). As you are aware, these three laws ensure essential oversight of our federal agencies in order to ensure accuracy in data collection, analysis, and publication.

Key Findings & Allegations:

(1) The CDC and NVSS violated the APA, PRA, and IQA by issuing COVID-19 Alert No. 2 on March 24th, 2020. This alert significantly modified how death certificates were recorded and did so exclusively for COVID-19. This alert ensured COVID-19 was emphasized as the cause of death. This modification was made exclusively for COVID-19 fatalities which makes COVID-19 exclusively a cause of death and rarely a contributing factor to death. The 2003 CDC *Medical Examiner's and Coroner's Handbook on Death Registration and Fetal Death Reporting* states that in the presence of pre-existing conditions infectious disease is recorded as the contributing factor to death, not the cause. This modification was medically unnecessary, as existing rules for data collection and recording had been in successful use nationwide for the previous 17 years. Most egregiously, this material modification does not apply to any other infectious disease creating a double-standard exclusively for COVID-19 data collection. **Allegation: COVID-19 fatality data used to shape public health policy is significantly and fraudulently inflated.**

(2) The CDC violated the APA, PRA, and IQA by adopting the Council of State and Territorial Epidemiologists (CSTE) Interim-20-ID-01 COVID-19 Standard Surveillance position paper on April 14th, 2020. This position paper significantly increased COVID-19 case counts. As seen in Section VII.B on page 6, the CSTE paper acknowledged the need to define a methodology for ensuring multiple tests on the same person were not erroneously counted multiple times as new cases. However, the position paper and the CDC declined to define a methodology to ensure the same person was not counted multiple times.

Additionally, Section 5 of the CSTE paper creates the option of "probable" COVID-19 cases with an extraordinarily low standard of proof for diagnosis. For example, the standard of medical diagnosis in this section allows a single cough of undetermined origin to be sufficient to diagnose a patient as COVID-19 positive. Even without confirmatory symptoms or lab testing, a patient with a single cough can now be included in data collection such as total cases, hospitalizations, and also as a COVID caused death. The adoption of the CSTE position paper creates material modifications exclusively for COVID-19 data collection that does not apply to any other infectious disease. **Allegation: COVID-19 case, hospitalization**

and fatality data used to shape public health policy is significantly and fraudulently inflated.

(3) The Office of Management and Budget (OMB) is appointed to oversee data collection for all federal agencies. Should a federal agency, even in an emergency situation, desire to modify any aspect of their data collection, analysis, or publication, they must first notify the Federal Register. Notification of intent to modify any aspect of data collection, analysis, or publication in the Federal Register alerts the Office of Information and Regulatory Affairs (OIRA) within the OMB. Notification in the Federal Register also opens the mandatory 60-day period for public comment on proposed modifications to data collection, analysis, or publication. The CDC and NVSS failed to notify the Federal Register and therefore failed to comply with federal law. **Allegation: The CDC has made unilateral changes, with far-reaching consequences, to data collection and recording exclusively for COVID-19, without federal oversight, independent of peer-review, and without public comment in violation of federal law.**

(4) The US Food & Drug Administration (FDA) has participated in withholding safe and effective evidence-based treatments for COVID from Americans in need. Both vitamin D and ivermectin have extensive clinical histories of safety following the administration of billions of doses. Per the results of the Belmont Report following the Congressional investigation into the CDC's role in the Tuskegee Experiment, it was determined that the withholding of safe and effective, evidence-based treatments from people in need was an act of Willful Misconduct on the part of the CDC and all coconspirator organizations, namely the American Medical Association. **Allegation: The FDA has prevented medical professionals from prescribing and administering ivermectin, vitamin D, et al. to people in need under threat of revocation of medical licenses, fines, and even imprisonment. This petition alleges that these actions are a blatant act of Willful Misconduct to withhold evidence-based treatments from Americans in need during a national health crisis.**

(5) The FDA has additionally been instrumental in preventing improvements to COVID PCR testing that would enable improved accuracy and could have helped prevent the spread of the infection and ensured accuracy of data. World renowned PCR expert Dr. Sin Hang Lee first made the FDA aware of significant problems with PCR design and calibration in March 2020 and again with legal assistance on November 25, 2020. The FDA rejected his formal petition as lacking scientific merit without any justifiable argument or empirical evidence to prove that Dr. Lee's assertions did indeed lack scientific merit. **Allegation: The FDA has refused to collaborate with independent subject matter experts regarding PCR to address the severe flaws surrounding PCR testing, stating without evidence that current PCR testing is 'sufficiently sensitive and accurate' even though the scientific literature confirms the inaccuracy of the current tests. This is yet another example of alleged acts of Willful Misconduct that have cost American lives and placed undue burden upon Americans who were never proven to be infectious based upon scientific method and internationally accepted ethical medical practice.**

(6) Due to the historical levels of collateral damage created, the actions of the CDC and NVSS may have violated additional laws such as 18 USC §1035 (False Statements Related to Healthcare Matters), 18 USC §1001 (False Statements), 18 USC §1040 (Fraud in Connection with Major Disaster or Emergency Benefits), 18 USC §1038 (False Information & Hoaxes), 18 USC §371 (Conspiracy to Defraud the United States), 18 USC §242 (Deprivation of Rights Under Color of Law), 18 USC §241 (Conspiracy Against Rights), 18 USC §2331 - Chapter 113B (Domestic Terrorism), 18 USC §1031 (Major Fraud Against the United States), 18 USC §3333 (Malfeasance), 18 USC §1622 (Subornation of Perjury), 18 USC §4 (Misprison of Felony). **Allegation: Considering the extraordinary ramifications of the actions taken by the CDC and FDA to compromise data quality and integrity, support inaccurate testing, and withhold evidence-based treatments from Americans in need, we exercise our right to petition the grand jury to use the broad subpoena power and exercise their authority to investigate our allegations of significant criminal activity.**

Relevant Federal Agencies

Research conducted points to, but is not limited to, the following federal agencies being immediately worthy of grand jury investigation regarding the potential illegal composition and collection of COVID-19 data:

Office of Management and Budget (OMB)

The Office of Management and Budget (OMB) is a federal agency within the Executive Branch that serves the President of the United States by assisting the President with management and regulatory objectives, among other things, and to fulfill the agency's statutory responsibilities.

Office of Information and Regulatory Affairs (OIRA)

Within the OMB, the Office of Information and Regulatory Affairs (OIRA) is tasked with ensuring that all federal agencies are in legal compliance with the APA, PRA, and IQA.

Department of Health and Human Services (HHS)

The Department of Health and Human Services (HHS) is a cabinet level department. The HHS is a federal agency within the Executive Branch.

Centers for Disease Control (CDC)

The Centers for Disease Control and Prevention (CDC) is a federal agency within the HHS. The CDC is responsible for developing evidence-based public health strategies, monitoring disease statistics, and providing effective guidance for citizens and public officials in times of public health crises.

National Center for Health Statistics (NCHS)

The National Center for Health Statistics (NCHS) is a federal agency within the CDC. The NCHS is the nation's principal health statistics agency, compiling statistical information to guide actions and policies to ensure the health of the population.

National Vital Statics Service (NVSS)

The National Vital Statistics System (NVSS) is a federal agency within the NCHS. The NVSS is responsible for the accurate collection of data for all births, deaths, and disease processes attributed to citizens of the United States of America.

Relevant Law

All federal agencies are required to comply with the Administrative Procedures Act, the Paperwork Reduction Act, and the Information Quality Act. Below is a brief summary of relevant law.

Administrative Procedures Act (APA)

One of the primary objectives of the Administrative Procedures Act (APA) 5 USC §551 et seq. (1946) is to govern the process by which federal agencies develop and issue regulations. This includes requirements for publishing in the Federal Register notices of both proposed and final rulemaking, and it provides opportunities for public comment on proposed rules. Most rules have a 30-day delayed effective date. The APA also addresses other agency actions including the issuance of policy statements. (See Additional Considerations Regarding the APA on Pages 15 & 16)

Paperwork Reduction Act (PRA) and
Creation of the Office of Information of Regulatory Affairs (OIRA)

The Paperwork Reduction Act (PRA) (44 U.S.C. §§ 3501–3521, Public Law 96-511, 94 Stat. 2812) passed on December 11, 1980 and later amended on May 22, 1995 (44 U.S.C. §§ 3501–3521, Public Law 104-13, 109 Stat. 182) gives authority over collection of certain information by Federal agencies to the Office of Management and Budget (OMB).

To facilitate this, the PRA created within the OMB a new Office of Information and Regulatory Affairs (OIRA). The OIRA is the "central authority for the review of Executive Branch regulations, approval of Government information collections, establishment of Government statistical practices, and coordination of Federal privacy policy."

https://www.whitehouse.gov/omb/information-regulatory-affairs/

Information Quality Act (IQA)

Congress passed the Information Quality Act (IQA i.e., the Data Quality Act) in 2000, which amended the PRA and added two additional requirements. (Section 515 of the Congressional Consolidated Appropriations Act, 2001 Public Law 106-554)

The first provision directs the OMB to issue information quality guidelines for Federal agencies to follow to ensure and maximize the quality, objectivity, utility, and integrity of information, including statistical information, disseminated by federal agencies.

The second provision sets out the requirements for those guidelines, including the requirement that affected federal agencies must establish a process for people to submit correction requests when they believe that the information quality guidelines have not been followed.

18 USC §1035 – False Statements Related to Healthcare Matters

"Whoever, in any matter involving a health care benefit program, knowingly and willfully (1) falsifies, conceals, or covers up by any trick, scheme, or device a material fact; or (2) makes any materially false, fictitious, or fraudulent statements or representations, or makes or uses any materially false writing or document knowing the same to contain any materially false, fictitious, or fraudulent statement or entry, in connection with the delivery of or payment for health care benefits, items, or services, shall be fined under this title or imprisoned not more than 5 years, or both."

https://www.law.cornell.edu/uscode/text/18/1035

18 USC §1001 (a) – False Statements

"Except as otherwise provided in this section, whoever, in any matter within the jurisdiction of the executive, legislative, or judicial branch of the Government of the United States, knowingly and willfully (1) falsifies, conceals, or covers up by any trick, scheme, or device a material fact; (2) makes any materially false, fictitious, or fraudulent statement or representation; or (3) makes or uses any false writing or document knowing the same to contain any materially false, fictitious, or fraudulent statement or entry; shall be fined under this title, imprisoned not more than 5 years or, if the offense involves international or domestic terrorism (as defined in section 2331), imprisoned not more than 8 years, or both. If the matter relates to an offense under chapter 109A, 109B, 110, or 117, or section 1591, then the term of imprisonment imposed under this section shall be not more than 8 years."

https://www.law.cornell.edu/uscode/text/18/1001

18 USC §1040 – Fraud in Connection with Major Disaster or Emergency Benefits

"Whoever, in a circumstance described in subsection (b) of this section, knowingly (1) falsifies, conceals, or covers up by any trick, scheme, or device any material fact; or (2) makes any materially false, fictitious, or fraudulent statement or representation, or makes or uses any false writing or document knowing the same to contain any materially false, fictitious, or fraudulent statement or representation, in any matter involving any benefit authorized, transported, transmitted, transferred, disbursed, or paid in connection with a major disaster declaration under section 401 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5170) or an emergency declaration under section 501 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5191), or in connection with any procurement of property or services related to any emergency or major disaster declaration as a prime contractor with the United States or as a subcontractor or supplier on a contract in which there is a prime contract with the United States, shall be fined under this title, imprisoned not more than 30 years, or both."

https://www.law.cornell.edu/uscode/text/18/1040

18 USC §1038 – False Information and Hoaxes

"Whoever engages in any conduct with intent to convey false or misleading information under circumstances where such information may reasonably be believed and where such information indicates that an activity has taken, is taking, or will take place that would constitute a violation of chapter 2, 10, 11B, 39, 40, 44, 111, or 113B of this title, section 236 of the Atomic Energy Act of 1954 (42 U.S.C. 2284), or section 46502, the second sentence of section 46504, section 46505(b)(3) or (c), section 46506 if homicide or attempted homicide is involved, or section 60123(b) of title 49, shall (A) be fined under this title or imprisoned not more than 5 years, or both; (B) if serious bodily injury results, be fined under this title or imprisoned not more than 20 years, or both; and (C) if death results, be fined under this title or imprisoned for any number of years up to life, or both."

https://www.law.cornell.edu/uscode/text/18/1038

18 USC §371 – Conspiracy to Defraud the United States

"If two or more persons conspire either to commit any offense against the United States, or to defraud the United States, or any agency thereof in any manner or for any purpose, and one or more of such persons do any act to effect the object of the conspiracy, each shall be fined under this title or imprisoned not more than five years, or both."

https://www.law.cornell.edu/uscode/text/18/371

18 USC §242 – Deprivation of Rights Under Color of Law

"Whoever, under color of any law, statute, ordinance, regulation, or custom, willfully subjects any person in any State, Territory, Commonwealth, Possession, or District to the deprivation of any rights, privileges, or immunities secured or protected by the Constitution or laws of the United States, or to different punishments, pains, or penalties, on account of such person being an alien, or by reason of his color, or race, than are prescribed for the punishment of citizens, shall be fined under this title or imprisoned not more than one year, or both; and if bodily injury results from the acts committed in violation of this section or if such acts include the use, attempted use, or threatened use of a dangerous weapon, explosives, or fire, shall be fined under this title or imprisoned not more than ten years, or both; and if death results from the acts committed in violation of this section or if such acts include kidnapping or an attempt to kidnap, aggravated sexual abuse, or an attempt to commit aggravated sexual abuse, or an attempt to kill, shall be fined under this title, or imprisoned for any term of years or for life, or both, or may be sentenced to death."

https://www.law.cornell.edu/uscode/text/18/242

18 USC §241 – Conspiracy Against Rights

"If two or more persons conspire to injure, oppress, threaten, or intimidate any person in any State, Territory, Commonwealth, Possession, or District in the free exercise or enjoyment of any right or privilege secured to him by the Constitution or laws of the United States, or because of his having so exercised the same; or If two or more persons go in disguise on the highway, or on the premises of another, with intent to prevent or hinder his free exercise or enjoyment of any right or privilege so secured. They shall be fined under this title or imprisoned not more than ten years, or both; and if death results from the acts committed in violation of this section or if such acts include kidnapping or an attempt to kidnap, aggravated sexual abuse or an attempt to commit aggravated sexual abuse, or an attempt to kill, they shall be fined under this title or imprisoned for any term of years or for life, or both, or may be sentenced to death."

https://www.law.cornell.edu/uscode/text/18/241

18 USC §2331 (Chapter 113B) – Domestic Terrorism

"Definitions: As used in this chapter (5) the term "domestic terrorism" means activities that (A) involve acts dangerous to human life that are a violation of the criminal laws of the United States or of any State; (B) appear to be intended (i) to intimidate or coerce a civilian population; (ii) to influence the policy of a government by intimidation or coercion; or (iii) to affect the conduct of a government by mass destruction, assassination, or kidnapping;..."

https://www.law.cornell.edu/uscode/text/18/2331

18 USC §1031 – Major Fraud Against the United States

"Whoever knowingly executes, or attempts to execute, any scheme or artifice with the intent (1) to defraud the United States; or (2) to obtain money or property by means of false or fraudulent pretenses, representations, or promises, in any grant, contract, subcontract, subsidy, loan, guarantee, insurance, or other form of Federal assistance, including through the Troubled Asset Relief Program, an economic stimulus, recovery or rescue plan provided by the Government, or the Government's purchase of any troubled asset as defined in the Emergency Economic Stabilization Act of 2008, or in any procurement of property or services as a prime contractor with the United States or as a subcontractor or supplier on a contract in which there is a prime contract with the United States, if the value of such grant, contract, subcontract, subsidy, loan, guarantee, insurance, or other form of Federal assistance, or any constituent part thereof, is $1,000,000 or more shall, subject to the applicability of subsection (c) of this section, be fined not more than $1,000,000, or imprisoned not more than 10 years, or both."

https://www.law.cornell.edu/uscode/text/18/1031

18 USC §3333 – Malfeasance

"A special grand jury impaneled by any district court, with the concurrence of a majority of its members, may, upon completion of its original term, or each extension thereof, submit to the court a report: (1) concerning noncriminal misconduct, malfeasance, or misfeasance in office involving organized criminal activity by an appointed public officer or employee as the basis for a recommendation of removal or disciplinary action; or (2) regarding organized crime conditions in the district. (etc.)"

https://www.law.cornell.edu/uscode/text/18/3333

18 USC §1622 – Subornation of Perjury

"Whoever procures another to commit any perjury is guilty of subornation of perjury and shall be fined under this title or imprisoned not more than five years, or both."

https://www.law.cornell.edu/uscode/text/18/1622

18 USC §4 – Misprision of Felony

"Whoever, having knowledge of the actual commission of a felony cognizable by a court of the United States, conceals and does not as soon as possible make known the same to some judge or other person in civil or military authority under the United States, shall be fined under this title or imprisoned not more than three years, or both."

https://www.law.cornell.edu/uscode/text/18/4

18 USC §3332 – Powers and Duties

"It shall be the duty of each such grand jury impaneled within any judicial district to inquire into offenses against the criminal laws of the United States alleged to have been committed within that district. **Such alleged offenses may be brought to the attention of the grand jury by the court or by any attorney appearing on behalf of the United States for the presentation of evidence. Any such attorney receiving information concerning such an alleged offense from any other person shall, if requested by such other person, inform the grand jury of such alleged offense**, the identity of such other person, and such attorney's action or recommendation."

https://www.law.cornell.edu/uscode/text/18/3332

Additional Exhibits

The following exhibits provide evidence corroborating what appears to be violations of relevant law.

Exhibit B - COVID-19 Data Collection, Comorbidity & Federal Law: A Historical Retrospective

This is a detailed, peer-reviewed look into the historical timeline describing how the CDC appears to have violated federal law and how these violations have adversely impacted COVID-19 data leading to public health policies that compromised the Constitutionally protected rights of all Americans. (Attached, and link provided)

https://cf5e727d-d02d-4d71-89ff-9fe2d3ad957f.filesusr.com/ugd/adf864_c39029cd980642e48797cdb2ef965972.pdf

Exhibit C - COVID-19: Restoring Public Trust During A Global Health Crisis

This is a detailed, peer-reviewed look into alleged acts of Willful Misconduct carried out by elected and appointed officials within federal, state, and county governments. In this manuscript the authors review the scientific literature regarding the alleged fraud of asymptomatic transmission, PCR testing, withholding of evidence-based treatments from people in need, violations of federal law, projection models used to manipulate public perception of the emergency, and the significant problems with the COVID vaccine clinical trials that should have prevented them from advancing through phasic testing. (Attached, and link provided)

https://www.greenmedinfo.com/blog/covid-19-restoring-public-trust-during-global-health-crisis

Exhibit D - March 24th, 2020 NVSS COVID-19 Alert No. 2 Published By the CDC

This document significantly modified how certificates of death were recorded exclusively for COVID-19. (See Executive Summary at The Beginning For Visual Examples)

https://www.cdc.gov/nchs/data/nvss/coronavirus/Alert-2-New-ICD-code-introduced-for-COVID-19-deaths.pdf

Exhibit E - April 5th CSTE Interim-20-ID-01 Position Paper Adopted by the CDC April 14th, 2020

This document significantly lowered the medical standards for what constitutes a COVID-19 case and has had far-reaching consequences by inaccurately increasing case counts, hospitalizations, and fatalities. This document also neglected to define a methodology for ensuring that the same individual was not counted multiple times in data collection. The CSTE is not a federal agency. They are a non-profit organization. This paper includes authors from state health departments (page 8) and subject matter experts from the CDC (page 7). (Attached, and link provided)

https://cdn.ymaws.com/www.cste.org/resource/resmgr/2020ps/Interim-20-ID-01_COVID-19.pdf

Exhibit F - Medical Examiner's & Coroner's Handbook on Death Registration

This handbook, published by the CDC, has been in use nationwide in every state since 2003 without incident. This is the proven handbook that the CDC and NVSS elected to abandon in favor of new and untested guidelines for certificate of death recording that did not have proper legal oversight, opportunity for independent peer-review, or public comment. (Attached and link provided.)

https://www.cdc.gov/nchs/data/misc/hb_me.pdf

Exhibit G - NVSS April 2020 Guidance for Certifying Death Certificates

This guidance, published by the CDC in April 2020, was used to exemplify the changes to death certificate reporting exclusively for COVID. The CDC and NVSS did not notify the Federal Register to initiate federal oversight or public comment as required by federal laws mentioned previously. (Attached and link provided.)

Supplement - U.S. District Judge William Stickman IV Ruling in Pennsylvania

"The congregate gathering limits imposed by defendants' mitigation orders violate the right of assembly enshrined in the First Amendment; (2) that the stay-at-home and business closure components of defendants' orders violate the due process clause of the Fourteenth Amendment; and (3) that the business closure components of defendants' orders violate the Equal Protection Clause of the Fourteenth Amendment..." Supplement - Physician's Handbook on Medical Certification of Death

This handbook was published by the CDC and has been in use nationwide in every state since 2003 without incident. Another proven handbook that the CDC and NVSS elected to abandon in favor of new and untested guidelines for certificate of death recording that did not have proper legal oversight, opportunity for independent peer-review, or public comment. (Attached and link provided.)

Supplement – Data Analysis

Data analysis compiled from every state health department concerning comorbidity, global research supporting the safety of children attending in person school, as well as participating in athletics, performance arts, and extracurricular activities. (Attached and link provided. Not Printed.)

https://childrenshealthdefense.org/news/if-covid-fatalities-were-90-2-lower-how-would-you-feel-about-schools-reopening/

Supplement – Data Analysis

Data analysis compiled from every state health department supporting many new cases and hospitalizations were the result of the CDC's test-based diagnosis strategy from June 13, 2020 to July 17, 2020. (Attached and link provided.)

https://childrenshealthdefense.org/news/covid-19have-you-heard-there-is-good-news/

Supplement – Data Analysis

Data analysis compiled from every state health department supports extremely high recovery rates without the use of FDA approved vaccines or treatments regardless of infection rates. (Attached and link provided.)

Additional Considerations Regarding the Administrative Procedures Act (APA)

Did *COVID-19 Alert No. 2* and the *Guidance for Certifying Deaths Due to Coronavirus Disease 2019 (COVID-19)* create a new rule that required APA informal rulemaking procedure?

APA §551(4) defines a rule as "...any agency statement of general or particular applicability and future effect designed to implement, interpret, or prescribe law or policy..."

COVID-19 Alert No. 2 adopted a new ICD-10 code for COVID-19 as well as the *Guidance for Certifying Deaths Due to Coronavirus Disease 2019 (COVID-19)* which changed the death certificate recording such that, **"COVID-19 should be reported on the death certificate for all decedents where the disease caused or is assumed to have caused or contributed to death... If the decedent had other chronic conditions such as COPD or asthma that may have also contributed, these conditions can be reported in Part II."**

This is a fundamental change in policy in the way deaths are recorded on certificates. Under the guidance of the 2003 death registration handbooks, the chronic conditions mentioned in the example in the paragraph above would be reported in Part I of the death certificate and not Part II.

This change in policy should have required the APA §553 rulemaking steps to be followed.

Was APA §553 properly followed?

Under APA §553, three steps must be followed. The first step involves publishing notice of the proposed rulemaking in the Federal Register except if "the agency for good cause finds (and incorporates the finding and a brief statement of reasons therefore in the rules issued) that notice and public procedure thereon are impracticable, unnecessary, or contrary to the public interest."

APA §553 does not specifically mention emergency rules, instead mentioning "good cause." A pandemic does not necessarily qualify as "good cause" for immediate policy change relating to data collection for infectious disease when data collection rules for other infectious diseases already exist and are used nationwide. By declaring "good cause," the CDC would be exempt from providing notice for public opportunity to comment but not from federal oversight for data accuracy. The CDC would be able to unilaterally make changes they determined to be necessary, even if they understood proposed changes may compromise the integrity and accuracy of COVID-19 data.

The CDC is required to provide a brief statement of notice, prior to enacting the changes that elucidate the medical and statistical rationale for "good cause." This notice should state the rationale for the enactment of changes and why notifying the Federal Register to initiate federal oversight, independent

peer-review, and public comment is impracticable, unnecessary, or contrary to the public interest. The CDC is also required to publish their rule changes in final form within the Federal Register. The CDC appears to have failed to provide this brief statement of notice or report their changes in final form to the Federal Register.

NEW HAMPSHIRE PUBLIC HEALTH ASSOCIATION
Improving Health. Preventing Disease. Reducing Costs for All

2. DID NOT SIGN UP TO SPEAK

Health, Human Services & Elderly Affairs Committee
Testimony Opposing House Bill 575
New Hampshire Public Health Association
February 16, 2023

Dear Chairman MacDonald and Members of the Committee:

The New Hampshire Public Health Association (NHPHA) is a statewide non-profit public health membership association founded in 1990. NHPHA represents over 300 public health organizations and individuals in New Hampshire. We are the leading, trusted New Hampshire public health voice that empowers our members and communities to achieve a healthier New Hampshire.

We are writing to you in opposition to House Bill 575, relative to vaccine and pharmaceutical products purchased, promoted, or distributed by the state and its political subdivisions.

This bill has potentially wide-ranging negative and unintended consequences for the New Hampshire Department of Health and Human Services (NH DHHS), other state agencies, counties, cities, towns, schools, and many other partners. The most significant consequence of this proposed legislation is that NH DHHS and various other governmental and quasi-public partners would not be able to purchase, promote, or distribute potentially many different routinely recommended and life-saving vaccines or other medical therapies.

HB 575 will also likely lead to higher patient costs for some childhood vaccinations. If NH DHHS and other partners cannot purchase, promote, or distribute certain vaccines (like the COVID-19 or influenza vaccines which the Department does not intend to make a requirement for school attendance), then the cost to individuals, communities and the overall healthcare system will increase.

HB 575 furthers no valid public health policy, and we would urge the committee to oppose the bill.

If you have any questions, I can be reached at hbedri@nhpha.org. Thank you.

Sincerely,

Hanan Bedri
Executive Director
New Hampshire Public Health Association

HB 575-FN - AS INTRODUCED

2023 SESSION

23-0351
05/10

HOUSE BILL ***575-FN***

AN ACT relative to vaccine and pharmaceutical products purchased, promoted, or distributed by the state and its political subdivisions.

SPONSORS: Rep. Phillips, Rock. 7; Rep. Wheeler, Hills. 33; Rep. Potucek, Rock. 13; Rep. Seidel, Hills. 29; Rep. Harley, Rock. 30; Sen. Gannon, Dist 23; Sen. Murphy, Dist 16

COMMITTEE: Health, Human Services and Elderly Affairs

ANALYSIS

This bill prohibits the state and its political subdivisions from purchasing, promoting, or distributing any vaccine or pharmaceutical product that has not been tested with voluntary, human, clinical trials.

Explanation: Matter added to current law appears in ***bold italics.***
Matter removed from current law appears [~~in brackets and struckthrough.~~]
Matter which is either (a) all new or (b) repealed and reenacted appears in regular type.

HB 575-FN - AS INTRODUCED

23-0351
05/10

STATE OF NEW HAMPSHIRE

In the Year of Our Lord Two Thousand Twenty Three

AN ACT relative to vaccine and pharmaceutical products purchased, promoted, or distributed by the state and its political subdivisions.

Be it Enacted by the Senate and House of Representatives in General Court convened:

1 New Section; Vaccine and Pharmaceutical Products. Amend RSA 125 by inserting after section 10 the following new section:

125:10-a Vaccine and Pharmaceutical Products. The state of New Hampshire and its political subdivisions, including but not limited to counties, cities, towns, precincts, water districts, school districts, school administrative units, or quasi-public entities, shall not purchase, promote, or distribute any vaccine or pharmaceutical product that has not been tested with voluntary, human, clinical trials.

2 Department of Health and Human Services; Duties; Reference Added. Amend RSA 125:9, VI to read as follows:

VI. Recognize the public health aspects relating to drugs and food under RSA 125:10 ***and RSA 125:10-a***.

3 Effective Date. This act shall take effect 60 days after its passage.

HB 575-FN- FISCAL NOTE
AS INTRODUCED

AN ACT relative to vaccine and pharmaceutical products purchased, promoted, or distributed by the state and its political subdivisions.

FISCAL IMPACT: [X] State [ ] County [ ] Local [ ] None

	Estimated Increase / (Decrease)			
STATE:	**FY 2023**	**FY 2024**	**FY 2025**	**FY 2026**
Appropriation	$0	$0	$0	$0
Revenue	$0	$0	$0	$0
Expenditures	$0	Indeterminable	Indeterminable	Indeterminable
Funding Source:	[ ] General [ ] Education [ ] Highway [X] Other - Federal funds			

METHODOLOGY:

This bill prevents the state or its political subdivisions from purchasing, promoting, or distributing any vaccine or pharmaceutical product that has not been tested with voluntary, human, clinical trials. The Department of Health and Human Services states that, with respect to COVID-19 vaccines specifically, all vaccines are currently purchased by the federal government and distributed to states, although the Department does expect COVID-19 vaccines to become available commercially at some point in 2023. The Department does not anticipate any immediate fiscal impact as a result of vaccines purchased or not purchased because of this bill.
