SENATE BILL *174*

AN ACT relative to veterans access to health care.

SPONSORS: Sen. Carson, Dist 14; Sen. D'Allesandro, Dist 20; Rep. Massimilla, Graf. 1; Rep. Edwards, Rock. 31; Rep. Moffett, Merr. 4

COMMITTEE: Health and Human Services

ANALYSIS

This bill repeals 2 unfunded statutes related to health care and mental health services for veterans. The bill also instructs the department of health and human services and the department of military affairs and veterans services to report to the oversight committee on health and human services regarding veterans' access to health care and mental health services.

The bill is a request of the department of health and human services and the department of military affairs and veterans services.

Explanation: Matter added to current law appears in ***bold italics.***
Matter removed from current law appears [~~in brackets and struckthrough.~~]
Matter which is either (a) all new or (b) repealed and reenacted appears in regular type.

STATE OF NEW HAMPSHIRE

In the Year of Our Lord Two Thousand Twenty Three

AN ACT relative to veterans access to health care.

Be it Enacted by the Senate and House of Representatives in General Court convened:

1 Legislative Findings and Purpose.

I. The general court finds that New Hampshire's veterans deserve effective and meaningful access to health care including behavioral health services. With the establishment of the department of military affairs and veterans services pursuant to 2019, 273:1 et seq., the adjutant general and the commissioner of the department of health and human services continued to collaborate in leveraging available resources and coordinating interagency efforts to promote greater access by veterans to health care and behavioral health programs available through the United States Department of Veterans Affairs (VA) and through New Hampshire's network of health care providers and behavioral health services.

II. The general court also finds that the isolated provisions of 2020, 34:4, codified at RSA 126-A:81 and RSA 126-A:82, lack sufficient funds for implementation and do not align with current and evolving effective procedures and best practices that focus on optimizing veterans access to health care including behavioral health services.

III. Therefore, the general court finds that these obsolete provisions of law should be repealed.

2 Department of Health and Human Services; Department of Military Affairs and Veterans Services; Report on Veterans' Access to Health Care and Mental Health Services. On or before November 1, 2023, the department of health and human services, in collaboration with the department of military affairs and veterans services, shall report to the joint legislative oversight committee on health and human services, established in RSA 126-A:13, on veterans' access to health care and mental health services. The report shall include, but is not limited to, a review and overview of existing programs enabling veterans to access health care and mental health services; a description of coordination of efforts for the access and delivery of these programs and services between federal and state agencies and providers; and making findings and recommendations for future legislation as appropriate.

3 End Veteran's Homelessness Program; References Removed. Amend RSA 110-B:73-c, II(e) to read as follows:

(e) Connecting veterans experiencing homelessness to health, mental health, employment, entrepreneurship, and training resources through the services described under [~~RSA 126-A:81, RSA 126-A:82,~~] RSA 162-A:9-b, RSA 282-A:117-b, RSA 282-A:117-c, RSA 110-B:73-a, RSA

110-B:73-b, RSA 153-A:20, XXV, RSA 187-A:20-d, RSA 188-F:16-b, RSA 326-B:9, XIII, and RSA 328-D:10, I(j).

4 Repeal. The following are repealed:

I. RSA 126-A:81, relative to access to health care for veterans and the navigator training program.

II. RSA 126-A:82, relative to access to mental health services for veterans.

5 Effective Date. This act shall take effect upon its passage.

STATE OF NEW HAMPSHIRE

In the Year of Our Lord Two Thousand Twenty Three

AN ACT relative to veterans access to health care.

Be it Enacted by the Senate and House of Representatives in General Court convened:

1 Legislative Findings and Purpose.

I. The general court finds that New Hampshire's veterans deserve effective and meaningful access to health care including behavioral health services. With the establishment of the department of military affairs and veterans services pursuant to 2019, 273:1 et seq., the adjutant general and the commissioner of the department of health and human services continued to collaborate in leveraging available resources and coordinating interagency efforts to promote greater access by veterans to health care and behavioral health programs available through the United States Department of Veterans Affairs (VA) and through New Hampshire's network of health care providers and behavioral health services.

II. The general court also finds that the isolated provisions of 2020, 34:4, codified at RSA 126-A:81 and RSA 126-A:82, lack sufficient funds for implementation and do not align with current and evolving effective procedures and best practices that focus on optimizing veterans access to health care including behavioral health services.

III. Therefore, the general court finds that these obsolete provisions of law should be repealed.

2 Department of Health and Human Services; Department of Military Affairs and Veterans Services; Report on Veterans' Access to Health Care and Mental Health Services. On or before November 1, 2023, the department of health and human services, in collaboration with the department of military affairs and veterans services, shall report to the joint legislative oversight committee on health and human services, established in RSA 126-A:13, on veterans' access to health care and mental health services. The report shall include, but is not limited to, a review and overview of existing programs enabling veterans to access health care and mental health services; a description of coordination of efforts for the access and delivery of these programs and services between federal and state agencies and providers; and making findings and recommendations for future legislation as appropriate.

3 End Veteran's Homelessness Program; References Removed. Amend RSA 110-B:73-c, II(e) to read as follows:

(e) Connecting veterans experiencing homelessness to health, mental health, employment, entrepreneurship, and training resources through the services described under [~~RSA 126-A:81, RSA 126-A:82,~~] RSA 162-A:9-b, RSA 282-A:117-b, RSA 282-A:117-c, RSA 110-B:73-a, RSA

110-B:73-b, RSA 153-A:20, XXV, RSA 187-A:20-d, RSA 188-F:16-b, RSA 326-B:9, XIII, and RSA 328-D:10, I(j).

4 Repeal. The following are repealed:

I. RSA 126-A:81, relative to access to health care for veterans and the navigator training program.

II. RSA 126-A:82, relative to access to mental health services for veterans.

5 Effective Date. This act shall take effect upon its passage.

SB 174 - FINAL VERSION

23-0861
06/05

STATE OF NEW HAMPSHIRE

In the Year of Our Lord Two Thousand Twenty Three

AN ACT relative to veterans access to health care.

Be it Enacted by the Senate and House of Representatives in General Court convened:

74:1 Legislative Findings and Purpose.

I. The general court finds that New Hampshire's veterans deserve effective and meaningful access to health care including behavioral health services. With the establishment of the department of military affairs and veterans services pursuant to 2019, 273:1 et seq., the adjutant general and the commissioner of the department of health and human services continued to collaborate in leveraging available resources and coordinating interagency efforts to promote greater access by veterans to health care and behavioral health programs available through the United States Department of Veterans Affairs (VA) and through New Hampshire's network of health care providers and behavioral health services.

II. The general court also finds that the isolated provisions of 2020, 34:4, codified at RSA 126-A:81 and RSA 126-A:82, lack sufficient funds for implementation and do not align with current and evolving effective procedures and best practices that focus on optimizing veterans access to health care including behavioral health services.

III. Therefore, the general court finds that these obsolete provisions of law should be repealed.

74:2 Department of Health and Human Services; Department of Military Affairs and Veterans Services; Report on Veterans' Access to Health Care and Mental Health Services. On or before November 1, 2023, the department of health and human services, in collaboration with the department of military affairs and veterans services, shall report to the joint legislative oversight committee on health and human services, established in RSA 126-A:13, on veterans' access to health care and mental health services. The report shall include, but is not limited to, a review and overview of existing programs enabling veterans to access health care and mental health services; a description of coordination of efforts for the access and delivery of these programs and services between federal and state agencies and providers; and making findings and recommendations for future legislation as appropriate.

74:3 End Veteran's Homelessness Program; References Removed. Amend RSA 110-B:73-c, II(e) to read as follows:

(e) Connecting veterans experiencing homelessness to health, mental health, employment, entrepreneurship, and training resources through the services described under [~~RSA 126-A:81, RSA 126-A:82,~~] RSA 162-A:9-b, RSA 282-A:117-b, RSA 282-A:117-c, RSA 110-B:73-a, RSA

110-B:73-b, RSA 153-A:20, XXV, RSA 187-A:20-d, RSA 188-F:16-b, RSA 326-B:9, XIII, and RSA 328-D:10, I(j).

74:4 Repeal. The following are repealed:

I. RSA 126-A:81, relative to access to health care for veterans and the navigator training program.

II. RSA 126-A:82, relative to access to mental health services for veterans.

74:5 Effective Date. This act shall take effect upon its passage.

Members of the Committee Present: Senators Birdsell, Avard, Bradley and Prentiss

Members of the Committee Absent: Senator Whitley

Bill Analysis: This bill repeals 2 unfunded statutes related to health care and mental health services for veterans. The bill also instructs the department of health and human services and the department of military affairs and veterans services to report to the oversight committee on health and human services regarding veterans' access to health care and mental health services.

The bill is a request of the department of health and human services and the department of military affairs and veterans services.

Sponsors:

Sen. Carson	Sen. D'Allesandro	Rep. Massimilla
Rep. Edwards	Rep. Moffett	

Who supports the bill: Senator Sharon Carson (Senate District 14), Warren Perry (Deputy Adjutant General, DMAVS), Wendi Aultman (DHHS), Paula Minnehan (NH Hospital Association), and Kevin Grady (State Veterans Advisory Committee).

Who opposes the bill: None.

Who is neutral on the bill: None.

Summary of testimony presented in support:

Senator Sharon Carson

Senate District 14

- Senator Carson said SB 174 was a request of the Department of Health and Human Services (DHHS) and the Department of Military Affairs and Veterans Services (DMAVS).

- Sen. Carson said the two departments are already working in collaboration to leverage resources for servicemembers and their families, rendering the need for navigators moot.
- Sen. Carson said RSA 126-A:81 and RSA 126-A:82 do not improve current practices by either department. She said RSA 126-A:81 requires DHHS to train and use veterans service officers employed by DMAVS, impacting their ability to connect veterans with federal Department of Veterans Affairs services and other state resources.
- Sen. Carson said the intent of RSA 126-A:82 is already being met through existing resources within DMAVS.
- Sen. Carson said neither RSA 126-A:81 nor RSA 126-A:82 have been implemented due to a lack of sufficient funding and adding funding to force their implementation would be redundant and wasteful.
- Sen. Carson said the statutes would be throwing funds at a problem that was solved by the creation of DMAVS in 2019.

Warren Perry and Wendi Aultman

Deputy Adjutant General, DMAVS; Bureau Chief, Bureau of Elderly and Adult Services, DHHS

- Mr. Perry said the establishment of DMAVS has been a success and the Department has a robust relationship with DHHS. He said SB 174 will continue the departments down the same path, not create a new direction.
- Mr. Perry said DMAVS received $1.25 million in appropriations in the previous biennium and has requested the same funding. He said the Department is working to continue to provide access to care, reduce social isolation, and support the mental health of veterans. He said DMAVS has two contracts – a $400,000 contract with Easter Seals and a $350,000 contract with the Partnership for Public Health – to improve access to services.
- Mr. Perry said DMAVS has a toolkit for providers across the state, including a YouTube video series to help providers identify veterans in need of services and cultural competencies for providing care to veterans.
- Mr. Perry said DMAVS is looking at a marketing contract to increase awareness and help teach veterans and their families without the need for navigators.
- Mr. Perry said the concepts of RSA 126-A:81 and RSA 126-A:82 were good but implementing them would take away the capacity of veterans service officers to attend to their primary directive. He said these statutes try to make veterans service officers into insurance experts, while their purpose is to connect veterans with services.
- Mr. Perry said there are seven veterans service officers in New Hampshire, serving about 300 veterans per month. He said the average case time with the federal Department of Veterans Affairs is six months and the veterans service officers do not need the additional distraction of becoming insurance experts.
- Mr. Perry said that healthcare navigators are a solution in search of a problem.
- Ms. Aultman said DHHS and DMAVS work in tandem to address the needs of the individuals they are serving. She said they have close collaboration with, and support from, the federal Department of Veterans Affairs.

- Ms. Aultman said DHHS has a full-time staff member who focuses on working with DMAVS to meet the needs of veterans experiencing homelessness.
- Ms. Aultman said the DHHS and DMAVS systems are integrated through NH Care Path and ServiceLink to ensure that veterans in need can be connected with the appropriate services. She said they even offer joint appointments when appropriate to make the most of a veterans time.
- Ms. Aultman said that the community mental health centers have identified military liaisons to support servicemembers and veterans.
- Ms. Aultman said that DHHS agrees with DMAVS that funding RSA 126-A:81 and RSA 126-A:82 in order to force implementation would be redundant.

Summary of testimony presented in opposition: None.

Neutral Information Presented: None.

Testimony

Cameron Lapine

om: Jonathan Esposito <jespo2006@gmail.com>
ent: Sunday, February 5, 2023 10:09 AM
To: Cameron Lapine
Subject: Repeal of unfunded bills per SB 174

Caution! This message was sent from outside your organization.

Cameron, when I try to email the entire Committee from the official link, my email won't recognize it.

Please forward to entire HHS committee as testimony concerning and request for response RE SB 174

I am a veteran of Iraq and Afghanistan who has resided in New Hampshire for approximately 7 years. Prior to moving to New Hampshire I had begun to plan for a transition here and I began receiving my healthcare at the Manchester New Hampshire Department of Veterans affairs veterans Health Administration medical center around the time I started employment there in the summer of 2014.

I served my fellow veterans honorably, being a passionate advocate for expansion of access to care, rising steadily through the ranks at a rapid rate and impacting change across service lines of the organization, until I became a whistleblower of my own in the wake of the 2017 scandal that broke, and the follow on cronyism that was investigated by the Office of Special Counsel.

watched the VA administration hold town halls and publicly lie to Veterans about closing the urgent Care 24 hours and shunting veterans to the community, stating that the patient census was going down and that less veterans were utilizing off hours services. The problem with that report was, I was the duty administrator on nights and weekends as the directors representative, and I personally prepared the reports being sent to leadership- the patient census numbers were going up. More veterans were using the urgent Care services after hours rather than less, at the time that they closed access to those services back in 2019.

You will note at this time despite having a brand new Urgent Care facility that the Department of Veterans affairs medical center in Manchester still does not have 24-hour access to care. In fact, among other statistics that New Hampshire as a state should not be proud of, we are

-the only-

State in the continuous 48 states of the nation that does not have 24-hour access to VA care. Care that is critical specifically for meeting the unique Health needs of the disabled veterans who carried the burden of what we have come to refer to as the "20 years war".

May I ask why we are repealing State provisions relative to access to care and services for New Hampshire veterans rather than funding them? The bill text is not very clear.

It states repeal is necessary because current provisions under law "do not align with current and evolving effective procedures and best practices that focus on optimizing veterans access to health care including behavioral health services."

could you kindly advise specifically what respective portions of RSA 126 A:81 and A:82 do not align with current and evolving effective procedures that focus on optimizing veterans access to healthcare?

Could you also kindly advise specifically what respective portions of these RSAs being focused on for repeal are not in accordance with current best practices that focus on optimizing veterans access to healthcare?

I would love it if members of this committee could clearly define what they feel is an optimal level of veterans access to healthcare, once again noting the above that as a veteran I can't get check in for VA care in this state after 4:30 p.m.

We haven't had a VA emergency room in this state in over a decade. If New Hampshire is the best place to work play and live, why do we tell our veterans, too bad, drive to White River Junction or Boston or Augusta? Oh sorry Mr veteran, you need a mental health and patient bed? Better hope we can get you a ride down to Providence or out to Central Massachusetts. That is what I used to routinely tell veterans who came for after hours care and were failed by the va.

Trust me, those services are NOT being made up for at cmc, the elliot, dartmouth-hitchcock, Portsmouth regional, lakes region, Southern New Hampshire, concord, or any of the new solution health systems that have subsumed these hospitals.

Do you know what happens when you're a veteran with a condition that is chronic that is not outwardly apparent? Such as many conditions that have become presumptive under the pact act, nervous system disorders, migraines, post-traumatic stress, traumatic brain injuries, respiratory diseases from burn pit and medical waste exposure, IBS and gerd and cancers and bad water exposures.

When you show up to an emergency room in New hampshire, and present your VA ID card, even if you have private insurance to back it, you can virtually guarantee that you will be treated like those on state human Service programs who are frequently marginalized and looked down upon. They know they are going to get paid at the Medicare rate for services and no more and their attitudes reflect as such.

Do you know how many veterans in New Hampshire will not go to the community for services or resources because of being accused of med seeking or doctor shopping? If you were to take a poll or survey of New Hampshire veterans and ask respondents to identify if they felt they had been wrongly accused or "side-eyed" by clinical staff in the civilian Health setting, especially in the emergent care setting, I think the percentage of respondents that would identify as having been marginalized as such would shock you.

In replace of the bills that are being repealed, and without waiting for the marginally useful reports from the respective veterans committees to report back to you as Health and human services committee, may I also ask what this committee is doing currently to focus on optimizing access to healthcare services for veterans, including mental Health services?

Because I resigned with my honor and dignity from the VA in 2019, no longer willing to be an apologist for a broken system that underserved veterans, and even taking COVID 19 and the disruption on the entire healthcare community into consideration, I can personally assure you that access to health services in new hampshire, including mental health services, for Veterans is still absolutely suboptimal.

If you are going to make repeals for bills that have been allowed to be unfunded (who is responsible for that?) I certainly hope this committee will also be recommending and reviewing where else funds can be utilized to actually make improvements to access to Veterans care. I have not seen any improvements in access to veterans care in the last several years. Period.

Respectfully submitted

STATE OF NEW HAMPSHIRE

SENATE

REPORT OF THE COMMITTEE
FOR THE CONSENT CALENDAR

Thursday, February 16, 2023

THE COMMITTEE ON Health and Human Services

to which was referred **SB 174**

AN ACT relative to veterans access to health care.

Having considered the same, the committee recommends that the Bill

OUGHT TO PASS

BY A VOTE OF: 5-0

Senator Regina Birdsell
For the Committee

SB 174-FN repeals two unfunded statutes related to health care and mental health services for Veterans and instructs the Department of Health and Human Services and the Department of Military Affairs and Veterans Services to report to the Oversight Committee on Health and Human Services. This bill is a request of both departments and is supported by the State Veterans Advisory Council. The work intended by these two statutes is being done and retaining the statutes, even unimplemented, would inhibit this important work from being done.

Cameron Lapine 271-2104
