COMMITTEE REPORT

Committee:	**Election Law**
Bill Number:	**HB 356**
Title:	**enabling school districts to adopt partisan school district elections.**
Date:	**March 11, 2025**
Consent Calendar:	**REGULAR**
Recommendation:	**OUGHT TO PASS WITH AMENDMENT 2025-0619h**

STATEMENT OF INTENT

This bill enables the establishment of a partisan ballot system for school district elections as a means of increasing voter engagement. This enabling legislation does not mandate partisan elections. Instead, the bill allows school districts to adopt a partisan ballot system if the voters choose to do so. If the voters choose this approach, the partisan ballot system will provide additional information on the school district elections to the voters, which should increase voter awareness and voter turnout. The bill also provides appropriate methods for adopting and rescinding the partisan ballot system. The amendment amends the 91-A provisions to allow for caucus meetings between the school district elected members of the same political party.

Vote 10-7.

Title:	**enabling school districts to adopt partisan school district elections.**

STATEMENT OF INTENT

Many bills have been said to be a solution in search of a problem and this is another one. It seeks to enable school district elections to become partisan elections. The committee heard zero testimony in support of it. We heard no constituents asking for this change. Towns and cities already have this partisan option for local elections, and we heard testimony that only 1 city has gone this way. Arguments in favor include that this bill acknowledges the reality that these elections are already partisan, or that it will be easier for a voter to decide who to vote for based on party affiliation rather than the person behind the name. These arguments ignore the importance of community unity and the need for less vitriol at local levels. As for the potential argument that voter turnout will increase, that is pure speculation with no actual proof other than absolute conjecture. With no known constituent interest in this bill, and a whopping 2% support in online testimony, the minority suggests the representatives give the people of NH what they are not asking for and achieve this with a vote of Inexpedient to Legislate on this bill.

TESTIMONY

- Rep. Toner – Introduction
- Eric Paur* – Support, Self. Motivation is to increase voter turnout which is 2 to 4 times higher. Amendment filed by Rep. Wherry providing sect. 7.
- Q: Lane- Regarding a non-partisan bill which is strongly supported, this bill states that partisan elections will increase voting participation. Where do you get these statistics to support it?
- A: Across other states, is where we are seeing an increase in turnout. The town committees can choose to use this or resend it if it doesn't work for them. Many voters are not interested in voting for someone they do not know. Having a party affiliation provides more information that they may vote.
- Q: Gilmore – Seeing a partisan school election, is concerned with how that will work if the town is or isn't a partisan election?
- A: It's a choice on each town or school or both. Whichever makes better sense.
- Q: Wood – Could you submit data in writing on partisan vs non-partisan elections?
- A: Does not have date but does look at the difference between federal elections. Portsmouth currently has partisan elections.

F/up: What is the increase and purpose of having a partisan election?
A: School elections does not provide a lot of information on candidates; this provides voters more information.
Q: Newson- Is Portsmouth the only city that has this?
A: Not sure how many but does know that Portsmouth has this for the city.

- Rep. Mark Vallone-Oppose, Self.
    - Q: Gilmore – Municpal City Charter, would this change the charter?
    - A: Not sure.
    - Q: Unaffiliated voters make up more than democrat voters?
    - A: ?
    - Q: Burnham- Are you aware that the Voters Check-list is public information?
    - A: not sure
    - F/up: It is, so anyone can review how a candidate voted in the previous election.
    - A: If that is available, yes.
    - Q: Qualey – Do you know of any data how an undeclared vote in an election.
    - A: No not aware of that.
    - Q: Wood – This is only if towns want to enable voters.
    - A: This would only create mischief
    - Q: Lane – Do you think an unaffiliated candidate from running?
    - A: Everyone runs as independent.
    - F/up: An independent would have to change to a party affiliation?
    - A: Not sure they don't for the state.

HB356 "Enabling school districts to adopt partisan school district elections"

Sponsors: (Prime) Wherry (R), Aylward (R), Boehm (R), Harvey-Bolia (R), Pauer (R), Creighton (R)

Committee Hearing: House Election Law, 25 Feb 2025 @ 10:00 am

Purpose of bill: allow legislative body of a school district to choose to use the partisan official ballot system

HB356 is "Enabling Legislation" – school districts may choose to adopt partisan elections. If partisan elections are adopted, school district may later rescind in the future.

Top Reasons for Partisan School District Elections

- Increased Voter Engagement and Turnout
  - Non-Partisan Municipal & School District Election turnouts top out ~25%, 10-15% or less common
    - Towns and School Districts with SB2 voting have the higher turnouts
  - Partisan State-wide elections have 2X to 3X higher turnout (especially Presidential years)
  - Partisan ballots have more information for voters, creating more interest and turnout
    - Most voters have a general idea what "Republican" and "Democrat" represents and find this information useful
- Enables opportunity for Town Republican and Democrat Committees to hold caucuses to identify, select, nominate candidates
  - Not mandatory - each year, each town party can decide if they want to caucus to nominate candidates (or not)
  - Candidates not nominated via a caucus can self-nominate as a Republican or Democrat candidate, with 50 voter signatures from their party (nomination papers)
- Candidates not interested in a partisan nomination can file for office as "Unaffiliated"
- Partisan School District Ballot will have three columns: Republican, Democrat, Unaffiliated
  - Random ordering of party columns per Secretary of State
- School boards while officially non-partisan, are truly partisan. Many local education policy and budgeting choices are often driven by partisan beliefs.
- School board elected under the partisan system can hold non-public caucuses (exempt from RSA 91-A)
  - Same as party caucuses used by House Committee Members or House Members
  - Helps to organize and negotiate with the "other" side to find common ground

Recommended HB356 amendment:

7 Caucus. Meetings Open to Public. Amend RSA 91-A:2 I (c) as follows:

(c) A caucus consisting of elected members of a public body of the same political party who were elected on a partisan basis at a state general election or elected on a partisan basis by a town***, school district,*** or city which has adopted a partisan ballot system pursuant to RSA 669:12***, RSA 671:30-b,*** or RSA 44:2; or

Please vote OTP/A on HB356 to provide school districts the option for partisan elections to help increase voter engagement and turnout.

Testimony by Eric Pauer, Brookline eric@pauerhome.com

Technical Summary of Partisan School District Elections

Existing statute in RSA Chapter 669 "Town Elections" provides for option to use partisan official ballot system (RSA 669:12). "School District Elections" are covered in RSA Chapter 671.

Like other school district statutes that refer to town or municipal statutes, HB356 amends RSA 671 with references to RSA 669. The method to adopt the partisan official ballot system for school districts is in RSA 671:30-b.

At each school district election, partisan nominations are available to a political party which at the state election next preceding polled at least 3 percent of the entire vote cast in the state for the office of governor. Currently, that is two parties: Democrat and Republican. (Note: Libertarian candidate got 1.99% in 2024)

Partisan nominations for school district offices under the partisan official ballot system are done by a party caucus via secret ballot. Party caucuses may be held by the Republican Town Committee and the Democrat Town Committee.

Under the partisan official ballot system, persons seeking nominations for school district offices have three options:

1. A person files name with clerk of the town political party for the school district office of interest. The caucus meets selects their nominee or nominees (if multiple vacancies) via caucus ballot, and notifies the school district clerk of the nominees. The person(s) is/are the partisan nominee(s) for that office.
2. A person collects 50 nomination papers from school district voters of their political party and presents the papers to the school district clerk. This person is also a partisan nominee for that office.
3. Person who does not seek any partisan affiliation simply files for the school district office with their school district clerk, same process at today. This person is an unaffiliated nominee for office.

If held, caucuses for selecting school district officer nominees must be held before the sixth Friday before the school district election. The caucus selection process is outlined in RSA 669:18 and RSA 669:37-53 involving notice, location, checklists, ballots, hours, and filing certificates of nomination. Each party can nominate one candidate for each open office in the school district.

For cooperative school districts, the caucuses of the towns of the pre-existing school districts combine votes for nominees for at-large positions like moderator, clerk, and treasurer.

Like the state general elections that are partisan, partisan ballots will have three columns: Republicans, Democrats, Other. The order of columns is determined annually by a random draw by the Secretary of State.

Many town and school district elections while officially non-partisan, are truly partisan. This enabling legislation provides a formal avenue for the major parties to optionally identify and select candidates, and for the ballot to clearly identify the political party of candidate who go through the caucus or nomination papers process.

A school board elected under a partisan system can hold caucuses during school board meetings with members of the same party, similar to what as happens in the General Court at the committee level, House level, or Senate level.

HB 356

Max Kolesar

I'm so sick and tired of opposing these horrible bills. Get a grip.

I Oppose HB356

Honorable Representatives:

I am glad that this bill is not facing the rigors of House Rule 44.

New Hampshire towns and cities are known for their ability to approach education, locally, as an issue oriented and federated manner.

This bill is not about school elections.

This bill is a partisan attempt to create division in the town and make the elections more volatile and the education process more contentious.

It has no place in New Hampshire law.

Please oppose this bill for the respect for the NH Constitution. "all government of right originates from the people, is founded in consent, and instituted for the general good."

Leonard Campbell

Meredith, NH

Ken Steinberg

As citizens of the US, our government has no right to restrict our voting to only the parties THEY choose. We have the constitutional right to vote for any partisan or non-partisan candidate of our choosing. This is an obvious attempt to rig the outcome of elections for one group or the other and we will challenge it in court if it is approved.

Faith Eherts

The more we label one another as D or R or I, the less likely we are to truly engage in conversation and find common ground. When voting for something as local as a school board, knowing the national political affiliation of a candidate adds undue prejudice to the decision-making process. I might disagree with someone on federal tax programs but be on the same page when it comes to our children's education - the only topic that matters in this case - and the fewer barriers in place, the better.

DOUGLAS MCILROY

Partisan politics has jerked schools around on side issues that have nothing to do with pedagogy, to the detriment of real educational concerns, such as the US's poor showing in the international PISA rankings.

Devon Rains

A totally unnecessary bill. We should be above partisan politics on a local level. It's ridiculous.

AnneMarie Winkler

All votes on todays bills remanding elections will be counted, printed and mailed to constituents with narrative of implications to them.

Laura Abbene

I oppose HB 356, as allowing partisan school board elections will inject unnecessary political division into our education system, distracting from the focus on student achievement and well-being. School boards should prioritize the needs of students over party politics, and this bill undermines that objective.

Natalie Buelvas

Decisions about education should be about the best interest of children and our future, not about politics.

Sarah Thorne

Please do not allow partisanship in local elections. We must maintain civility at the local level. Our country is being torn asunder. Please maintain nonpartisanship in our schools and town affairs. Thank you.

Joanne Davis

I support using criteria for redistricting that allows fair representation for all voters in NH, not one group or party in particular.

Roshan Swope

We are divided enough in this country. School boards should not be partisan!!

Susan Raymond

Dear Representatives I urge you to oppose this bill. This bill makes changes to our election laws that are absolutely unnecessary. What matters when voting for a local school board are the issues in our local children's education, not whether someone is a registered Democrat or Republican. Let us not change our non-partisan system for school district elections and so SUPPORT TRUE CONVERSATIONS. You must encourage citizens to find common ground without prejudice.

Carolyn Leite

It doesn't matter if a school board member is a republican, a democrat or an independent. They are running to support their local school district and public education. We do not need more politics in public education! I urge you to vote this bill down.

Michael Whitman

NH school district and town elections should be non-partisan.

Peter Miller

It's hard to imagine a worse idea than partisan school board elections. Please recommend to kill this bill.

Louise Taylor

We must not let any party gerrymander districts and counties. Fair elections demand this. We need to establish rules.

Christine Hodsdon

We do not need more partisan politics in education so please oppose this bill. Thank you for your time.

Mary Burdett

This could be influenced by political polarization....not healthy in a democratic society.

Elizabeth Iacovelli

I oppose HB 356, as allowing partisan school board elections will inject unnecessary political division into our education system, distracting from the focus on student achievement and well-being. School boards should prioritize the needs of students over party politics, and this bill undermines that objective.

Nicolas Iacovelli

I oppose HB 356, as allowing partisan school board elections will inject unnecessary political division into our education system, distracting from the focus on student achievement and well-being. School boards should prioritize the needs of students over party politics, and this bill undermines that objective.

Alexander Templeton

As an educator, all we care about is ensuring the children of our state are given the proper knowledge and passion to pursue their dreams when they grow up. Anyone trying to make the education of children a political battleground at the level of individual schools has clearly never had to go through the struggles of teaching and taking care of a class within a system that already makes our jobs hard enough. It is fine and necessary to discuss education within political bodies dedicated to these discussions, but that is not the job we educators have signed up for and not one that should take up even more time out of the already stressful schedules teachers deal with.

Mary Nichols

School board members should be non-partisan. Partisan Politics has no place at this level of local governance.

Paul Nichols

School Board membership should remain non-partisan.

Blossom Dodge

This bill is an important step in empowering our school districts by providing them with the choice to adopt a partisan ballot system if they believe it will better serve their community's needs.

Enhancing Local Choice and Transparency
HB 356 offers local school districts the flexibility to choose between a partisan and a non-partisan election system. This decision empowers communities to select the method that aligns best with their unique political and educational contexts. By mirroring established procedures used in town elections—while tailoring them to the needs of school districts—the bill promotes consistency and clarity in our local governance. With clear filing requirements, standardized ballot preparation, and transparent nomination processes, voters are better equipped to understand the candidates and make informed decisions.

Strengthening Accountability in Local Elections
The bill's structure ensures that if a school district adopts a partisan system, it follows strict procedural guidelines to prevent any undue influence or confusion. The requirement that political party clerks share candidate declarations across districts, along with clear rules for adopting and rescinding the partisan system, bolsters accountability and transparency. This framework helps maintain integrity in local elections, ensuring that the focus remains on effective governance rather than partisan maneuvering.

Caveats and Considerations
While I strongly support HB 356, I acknowledge that the introduction of a partisan ballot system does carry certain risks. There is potential for increased politicization of school district elections, which could divert attention from critical educational issues. Additionally, the transition to a partisan system may cause some voter confusion, particularly among those who are accustomed to the traditional non-partisan approach. There is also the possibility of an increased administrative burden for smaller districts with limited resources. However, these risks can be effectively managed through careful implementation, voter education, and ongoing oversight to ensure that the system serves its intended purpose.

Conclusion
In conclusion, HB 356 represents a thoughtful approach to enhancing local electoral choice while maintaining the integrity and transparency of our school district elections. By allowing districts to select the system that best reflects their community's needs—and by putting safeguards in place to address potential challenges—we can foster a more engaged, informed, and accountable local governance structure. I urge you to support HB 356, recognizing both its significant benefits and the importance of mitigating the associated risks.

Thank you for your time and consideration.

Joseph Wood

Why do you need to know what political party a school board official is running for? there is no need for this.

Jacquelyn Benson

Right now, our school district candidates are chosen based on their experience, merits, and ties to the community. Voters are encouraged to get to know the candidates as individuals and think about how they will serve the school and the district. Introducing partisanship into these elections will discourage independent candidates from serving and promote people voting by party and not person. It would also end a long-standing, valuable NH tradition that is working very well exactly as it is.

Ellen Phillips

It seems to me that we should have non partisan elections in our NH House and Senate. It would be much more Democratic and people would actually need to pay attention to the candidate's views, rather than just filling in an oval for a party. Changing school district elections to become partisan is less democratic and requires less voter interaction with the candidates. It would be a terrible mistake.

Wendy Lapham

This is a disastrous idea that will undermine the professionalism of school administrators and harm public education, and I oppose this bill wholeheartedly.

Steven Borne

We should completely remove Partisan Voting systems because it only helps the Party, not the people. How does a Partisan Election improve the return on all of our investment in education. Partisanship does not belong in education. We should all focus on making sure the products of our schools understand civic responsibility and are prepared to succeed for where ever they are every September.

Judy Brophy

The only qualification needed for school board is to want to do right by the children. Adding party affiliation will sew divisions.

Alexis Eynon

We don't need more partisan politics in education! I oppose this bill.

Gabriele Lieberg

I strongly oppose this bill.

Sarah Leland

School Boards need to non-partisan. Politics need to stay out of schools and school boards.

Jim Miller

Why mess with what has worked for decades? Why promote partisanship, instead of trying to get citizens to run for volunteer office who can put their political feelings and information (or misinformation) sources aside to work for the best interests of all people in the district?

Jeffrey Smith

I respectfully urge the committee to OPPOSE HB356 because it would transform school district elections from collaborative processes focused on very local issues, and into partisan cafeteria food fights. There's enough of that going on these days.

Gregory Davis

Partisanship has no place in school district elections

Allison Snyder

I am opposed to HB 356.

Michelle Roberge

I am writing to express my strong opposition to HB356, the bill that would enable school districts to adopt partisan school district elections. While I understand the intent behind offering local flexibility in election processes, I am deeply concerned that introducing partisanship into school board elections will further exacerbate the already polarized political environment in our state.

Our current non-partisan system has, by and large, served our communities well. It has kept the focus on local issues—such as educational quality and the efficient management of school resources—rather than on party politics. At a time when our political discourse is highly charged and divisive, adding another layer of partisanship in our schools risks shifting attention away from the core mission of providing quality education. Instead of fostering collaboration among educators, parents, and community leaders, partisan contests are likely to intensify political divisions, detract from important educational debates, and ultimately undermine the effectiveness of our school governance.

Moreover, the introduction of partisan elections could lead to a scenario where political allegiances overshadow the real needs of our children and communities. Our schools should remain a space where local issues are discussed without the filter of national political battles—a space where decisions are made based on the merits of educational programs and community needs rather than party platforms.

In light of these concerns, I respectfully urge you to reject HB356. Our political process is already too polarized, and introducing partisan elections in our school districts is a step in the wrong direction. The existing non-partisan framework, which has worked satisfactorily, should be preserved to maintain a focus on the issues that truly matter—educational excellence and the well-being of our children.

Thank you for considering my views. I trust that you will act in the best interests of our schools and communities by keeping our election process focused on local issues rather than partisan divisions.

I strongly oppose this bill. We SHOULD NOT enable schools to adopt partisan school district elections.

Melanie Levesque

Local governments works best when people of all strips deal with issues to find solutions. Making these roles partisan only ensures that more walls will be built rather than bridges.

Deborah Lievens

we sould keep partisan politics out of town/city business.

Vanessa Gravell

I oppose this bill and feel it will lead to voter suppression.

Marie Straiton

No party politics on our school board. Period!

Kathleen Bean

Although many have chosen a particular party when voting in statewide and national elections, this should not be part of local elections.

bonnie bruno

I only wish I could be in person in the hearing room to provide the testimony written below: Heck ya! I support cacr2 - full stop. Mic drop. (Though I would not drop the mic used in the hearing room =)

Christine Bane

Unnecessary.

Jamie Carreau

We do NOT need to drag politics into our schools!

Kristine Trow

I oppose this bill

Martha Jane Rich

Adopting partisan school district elections would cause significant and unnecessary harm to the process of recruiting and electing the best school board members. We appreciate and honor the service these people provide apart from their party affiliations. In our district, we often have no idea what party our candidates might favor. This works well. It's a system that "ain't broke," so there's no need to "fix" it.

Maura Willing

Injecting politics in education is not wise.

Kevin Blanchette

Keep partisan politics out of our schools

Julie Laracy

Let's keep partisan politics out of our school. This pits neighbor against neighbor. A solid public education system, regardless of partisan disagreements is a foundation of a strong democracy.

Bob Perry

Michael Silva

politics have no place in the school district elections

Benjamin Stinson

There is absolutely no good reason to make school board elections explicitly part of the party political process.

Jennifer Smith

A truly dumb idea that should get an ITL on consent.

James Argeriou

I oppose this bill.

Linda Bundy

School board members work to make the best decisions for their own schools. The goal is to provide the best possible public education. Partisan politics has no place in these elections. Please vote ITL on this bill.

Kevin Fleming

This is a bold attempt to make school elections PARTISAN!
Shame on you for picking school elections.
Why not make all elections partisan?
You're showing your true colors in making schools partisan.
Shame, shame, shame…

Michelle Conner

The only benefit I see to making school board positions partisan is to support lazy and biased voters to remain lazy and biased. I prefer the state encourage voters to be discerning, to learn about the values and positions of each candidate for office, regardless of that candidate's political leaning. I am submitting comment this knowing full well that I would almost necessarily vote "D" should my district adopt partisan voting for school board members (I am sometimes quite lazy and biased), and I prefer being forced to do the work of getting to know the folx in my community who I elect to represent me and my family.

Sharon Racusin

This bill would seek to make local elections partisan and create political polarization in local elections (School District and Town Meeting elections). Even thought some cities currently have partisan school elections, this bill would open it up to all towns and school districts. I OPPOSE PARTISAN elections in all towns & cities.

James Hiltz

This bill would allow school districts to make school board elections and candidates partisan. Allowing party politics into school boards and their elections could greatly affect communities and public education in our state. Members of a school board should be focused on managing their district's budget and ensuring their school's curriculum is working to better all students, not transform it into yet another battleground in the pointless culture war and potentially directly attack the students in the district that simply want to attend school.

Aline Flores

Partisan politics are not in the best interest of our students. We should be voting for the best candidate to represent our students , not a political platform

Sarah Hoffman

School boards, long locally focused and nonpartisan, will get dragged into the national political culture wars taking the focus away from political free, arcuate and balanced educational curriculum.

Courtney Wason

Hello, citizen of of Derry here, and I firmly OPPOSE further politicizing school boards and all manner of school leadership. Public schools are a space for ALL of our children, regardless of their parents' political affiliation, and to affect those kids by pushing political agendas through would hurt everyone.

Patricia Anastasia

School boards should prioritize the needs of all students over party politics.

Leigh Hutchinson

Focuses the election to two parties and attempts to consolidate power by party vs. others, more independent candidates.

Gary Hamer

If you're not sure who you're voting for - simply do your homework on the candidates. Manchester has non-partisan elections. We research our candidates being either R or D and learn what they support and not support.
Do your homework before you go into the voting booth.

Jonathan Doherty

School board positions should NEVER be partisan. Kill this bill!!

Peggy Sheets

Party politics don't belong in our school board elections. The local focus and non-partisan nature of school board elections has served NH public schools well for many years. Introducing partisanship would be detrimental to our schools and communities.

Andrea Seddon

Non partisan all the way!

Ellen Moore

School elections should be non-partisan. Keep it that way.

raphael zack

It is much easier for elected board members to work together in non-partisan role.

janet ward

This is an ill-advised and dangerous bill. Please vote against HB356. This bill would bring partisanship and national political considerations into what has long been local and non-partisan school board affairs and elections. There is no logical or defensible reason to upend local school board business and elections.

PLEASE VOTE AGAINSTS HB 356. Thank you for your consideration.

Sue Nastasi

HB356 isn't necessary especially when schools must be organized in a nonpartisan manner. New Hampshire's Education Commissioner Edelbutt will be or at should be ending his term this Spring. Partisanship doesn't have any place or need in New Hampshire schools. Please kill this bill or it should not move any further from the House Election Law Committee. The sponsors for this are all Republicans which is sad to read and I would want to believe Republicans support fairness.

Julie Levesque

I do not support partisan school district elections. Partisan politics are already so divisive at a national and state level, and we do not need this cancer to further infiltrate our communities and hurt our schools.

Amy Burt

Do not let this pass. We do not need politics to be significant determiners of our school boards. We need people chosen based on their knowledge of schools, their interest in the position, and the things they bring to the tables. Political affiliation should not ever be on the table in this situation.

Jana Sellarole

Get rid of gerrymandering! It's un-American, and anti-democratic!

Claudia Damon

With all due respect, it is a terrible idea to make school district elections partisan. Regardless of which side of the so-called "culture wars" you are on, the tables may turn at some point and you will be faced with a partisan political solution that you do not like. Let's keep the elections non-partisan.

Sally Patton

School districts MUST remain non-partisan!!!!

Mary Wilke

We need less partisanship and divisiveness in our communities, not more. School boards should be elected to do what's best for their communities, not to represent a political party's platform.

Debra Putnam

I have been a Ballot Clerk since COVID hit in 2020. All representatives should be working to make voting to make voting easier for residents not harder. In Hudson we have a very low turnout for the March elections where important decisions are made about the future of our town. Many only vote at Primaries so making it harder to vote will effectively silence people's voices. Going against the basic principles upon which the US Constitution was created.

Patricia Bass

School boards should remain nonpartisan and locally focused.

Ashley Desrochers

Partisan politics have no place in our communities - especially in our schools. Communities and schools deserve to live free and be non-partisan.

OPPOSE this bill.

Ashley Desrochers

Patricia Martin

This would negatively impact consumers and small businesses. I strongly oppose this bill.

mollie allen

I oppose HB 356. I don't agree to having partisan school district elections. Keep things as they are.

Elven Ealy

It seems obvious that we would want something that is fair, impartial and will cut down on the ill will and chaos. We are living in a time where there is a fight or violence for almost everything. This is actually caused by people taking unfair advantage and those that are cheated wanting payback. I hope that we will start to move in a more fair impartial and peaceful direction.

Rina Petit

Please vote HB356 Inexpedient to Legislate. School boards have enough to do without dealing with party politics. The focus of school board members should strictly be to make the best decisions for their own schools with the goal being providing the best possible public education for their students. And why would party caucuses be involved in screening cooperative school board candidates? What happens to all the Undeclared registered voters ability to run for school board? There are 70,000 plus more Undeclared voters in New Hampshire than Republicans or Democrats. Keep all school board elections nonpartisan.

John Petit

Please vote no for HB356. Party politics should stay at the national and state levels not local elections...especially not school board elections. School board members need to make the best decisions for their own schools without any consideration for party politics. New Hampshire needs to keep the goal to provide the best possible public education. It's alarming to see the convoluted partisan process HB356 would create for cooperative school districts. Please just vote HB356 Inexpedient to Legislate. Thank you.

Leane Garland

This is not a bipartisan bill. We do not need partisan politics in our School Boards or Superintendents' offices. Party loyalty gets in the way of negotiation, compromise, and open communication. Vote Inexpedient to Legislate.

4 Official Ballot System; Conduct of Election; Elections at School District Meeting. Amend RSA 671:30 to read as follows:

A plurality shall elect in school districts using the partisan ballot system.

671:30-b Partisan Official Ballot System; Method of Adoption. Any school district may vote to adopt the partisan official ballot system for election of school district officers under an article in the warrant for any school district meeting. In any school district in which the non-partisan ballot system is in effect, adoption of the partisan ballot system shall be by ballot.
