HOUSE OF REPRESENTATIVES

REPORT OF COMMITTEE

The Majority of the Committee on Health, Human Services and Elderly Affairs to which was referred HCR 7,

AN ACT recognizing abortion as a critical component of comprehensive reproductive health care. Having considered the same, report the same with the following resolution: RESOLVED, that it is INEXPEDIENT TO LEGISLATE.

Rep. Lisa Mazur

FOR THE MAJORITY OF THE COMMITTEE

Original: House Clerk
Cc: Committee Bill File

MAJORITY
COMMITTEE REPORT

Committee:	**Health, Human Services and Elderly Affairs**
Bill Number:	**HCR 7**
Title:	**recognizing abortion as a critical component of comprehensive reproductive health care.**
Date:	**March 5, 2025**
Consent Calendar:	**REGULAR**
Recommendation:	**INEXPEDIENT TO LEGISLATE**

STATEMENT OF INTENT

The majority of the committee thinks that we should be prioritizing policies and resolutions that address adoption, prenatal and postpartum care and overall support for women and children rather than specifically highlighting abortion. Focusing solely on abortion in a non-binding House Resolution overlooks other critical aspects such as support for infertility, high-risk pregnancies, preventive care (such as cancer screenings) and more. Singling out abortion as a critical component of reproductive health care while ignoring other pressing medical issues affecting women creates a narrow and politicized approach to women's health. A truly comprehensive resolution should address the full spectrum of medical needs rather than elevating one issue above all others.

Vote 10-8.

MINORITY
COMMITTEE REPORT

Committee:	**Health, Human Services and Elderly Affairs**
Bill Number:	**HCR 7**
Title:	**recognizing abortion as a critical component of comprehensive reproductive health care.**
Date:	**March 5, 2025**
Consent Calendar:	**REGULAR**
Recommendation:	**OUGHT TO PASS**

STATEMENT OF INTENT

The minority recognizes that abortion is a critical component of reproductive health care and that this fact should be affirmed by resolution. Women and their care-givers are choosing where to live, work, and study based upon their perceptions of a state's respect for bodily autonomy and unimpeded access to abortion without infringement. States with abortion bans or restrictions have adverse outcomes including elevated death rates for women of reproductive age, maternity care deserts, departure of specialists to practice in less restrictive states, and declining enrollment in OB-GYN residency programs. It is the opinion of the minority that this issue is of sufficient importance to deserve its own resolution. For these reasons, the minority voted against Inexpedient to Legislate and instead recommends Ought to Pass.

TESTIMONY

* Use asterisk if written testimony and/or amendments are submitted.

- **Rep. Alexis Simpson -- Prime Sponsor**
    - Many constituents do not want further restrictions on abortion.
    - Our constituents would like us to vote proactively to support abortion.

Question from Rep. Jessica LaMontagne – Do you know of other states outside of New England that have passed such resolutions?
Answer: I don't, I've mostly looked at New England where the right of abortion up to 24 weeks is codified in law.

Question from Rep. Yury Polozov – How do you define comprehensive reproductive health care, sometimes abortion is done due to threat to woman's health, and others it is more of a choice, would you define?
Answer: From my perspective, it's very important that these decisions are made between the doctor and their patient, I would leave the decision to them.

Question from Rep. Mark McLean – The Fetal Life Protection Act references 24 weeks, and our Fetal Homicide Law which sets it at 20 weeks. Criminal action last year, the woman was 37 and the fetus more than 20 weeks, so the person was charged with two murders. You're coming in with a hard number, 24 weeks, what was your thinking on that?
Answer: The law that's one the books is up until 24 weeks, so that's why we used that value.

Follow-up: So that's our status quo, hold the line on that.
Answer: Right now, in the law, I'm trying to make a statement that we affirmatively support reproductive rights and health care up to 24 weeks.

Question from Rep. Lisa Mazur – Would you be supportive of a resolution like that for abortion up until birth?

Answer: I think that's an inflammatory statement, that's not something that happens in reproductive health care, so I'm not going to talk about that.

Follow-up: Up until birth?
Answer: That's not something I'm going to talk about.

- **Rep Mary Hakken-Phillips - Co-Sponsor**

    - Most of the state Ob-Gyns practice in or near my district.
    - JAMA has a study from Feb 2024 reports a statistically significant decline in residency applications in states with abortion bans. Fewer abortions means fewer Ob-Gyn procedures.
    - JAMA study from Jan 2024, Ob-Gyns practicing in abortion ban states fear legal ramifications and mental health challenges, become more likely to leave for states without abortion bans.
    - We're damaging the sustainability of our existing and future Ob-Gyn care. Dartmouth professor is moving practice to Vermont because of abortion restrictions. This resolution would provide reassurance.

Question from Rep. Polozov – You mentioned significant decline in Ob-Gyn enrollment numbers, can you quantify that?
Answer: I'd be happy to forward you the study.

Question from Rep. McLean – Obviously abortion is a very divisive issue. You mentioned that since our existing law we've seen a loss of service. In light of that, you could revisit the statute, instead you're choosing the path of this resolution. What are you seeing that the gain is going to be from this?
Answer: As I finished my remarks, I talked about the important signal this sends to doctors and people. This subset procedure is required to keep our Granite State reproductive folks in good condition. Just because we can't do anything after 24 works doesn't mean we can't affirm their work before 24 weeks.

Follow-up: In your conversation with the physicians you are representing, if this was to pass, it would be enough for us to consider moving back?
Answer: No, I can't put words in the physician's mouth, but I've heard that this resolution would be critical. Shows professional support.

Question from Rep. Jay Markell – Earlier we heard it discussed that there's no protections for abortion in New Hampshire, could you comment on the RSA that specifically defines the abortion laws in New Hampshire?
Answer: I would decline to comment based on the fact that this isn't relevant to this discussion.

Question from Rep. Polozov – How do you define a critical component? Is it equal or more important than other components of health care?
Answer: No, abortion care is one subset of tools in the Ob-Gyn practice area. Each subset is part of the comprehensive care that all Granite Staters deserve.

Question from Rep. Linda McGrath – I'm still confused by the doctor moving to Vermont, is it because of abortion banned after 24 works, what is the status of Vermont law?
Answer: My understanding is that they have a constitutional amendment that protects abortion. The doctor realizes that his practice is not under criminal threat in Vermont – lower risk.

Question from Rep. Steven Kesselring – In your study, is there anything that shows the pregnancy rate decreasing in New Hampshire?
Answer: I'll forward both studies, it just measured the 11 states that reversed abortion rights.

- ***Rep Janet Lucas - Supports the bill**
    - See written testimony 1

Question from Rep. LaMontagne – You're working mainly for a Catholic health service, they probably had policies that did not allow for elective abortions, but in the case of medical emergency it was allowed?
Answer: That's correct.

Question from Rep. McLean – Already in statute in New Hampshire is the statutory guarantee of access to abortion through 24 weeks. This resolution preserves that. The statutory protections far outweigh any protections that may be gained from a resolution. The provider leaving for Vermont's constitutional protection, I'm still trying to understand what it is you are trying to achieve with this resolution?
Answer: I think I'm looking at this more as a statement of reassurance for future physicians who would practice here. Many of my students have left states that have enacted abortion restrictions. They are also leaving states that don't have a firm commitment to protecting women's reproductive rights.

Follow-up: Understanding that the law is already there, have you had discussions with them, does this resolution move the needle for them?
Answer: For the former residents, they are not looking at New Hampshire for that reason.

Question from Rep. Lucy Weber – To clarify, am I correct that the intent here, the criminal statute is a prohibition that starts at 24 weeks and goes forward. Any concerns about after 24 works, this legislation does speak affirmatively about practice before 24 weeks?
Answer: Correct.

Question from Rep. Polozov – I wonder about what effects this bill will have on New Hampshire. If it attracts more practitioners, will there be more abortions in New Hampshire? Will this affect New Hampshire having fewer kids?
Answer: I don't accept your premise. I think it would to ensure that we have accessible reproductive health care for all women.

- **Hon. Kurt Wuelper, Strafford, NH -- Opposes the bill**
    - Chairman of New Hampshire Right to Life, here in radical opposition to this resolution.
    - All our foundational documents talk about preserving and protecting life. Abortion is a cancer in our society and it affects everything it touches.
    - Before abortion the Hippocratic Oath prevented anything that even assisted with taking the life of the pre-born. It was only after abortion was introduced that the oath was changed.
    - Today's Ob-Gyns don't view life as worth preserving, because medicine now includes killing – no it doesn't, medicine is about healing. Would you define reproductive health care? Nobody will.
    - We should absolutely be opposed to any support for abortion. If the target of abortion would already be unconstitutional. This is intolerable.

Question from Rep. McLean – We have existing law that codifies that abortion is accessible prior to 24 weeks. From your position, tangibly, what impact will this resolution have? Where do you see this having impact?
Answer: The journey of a thousand miles begins with the first step. This is not about reproductive health care, it's about killing babies. If you get the House on record with this without a definition, and we know that over 60 million health babies have been taken by abortion for no other reason than … it has corrupted the medical industry, now abortion is the first answer to precursor indications of fetal anomalies. Legions of women have been pressured to abort, but did not.

Question from Rep. Polozov – You made a good point about the medical profession changing their philosophy. Without this resolution we are going to scare some Ob-Gyn professionals away, and pregnant women will be left without support in New Hampshire. Do you share those concerns?
Answer: Yes and no. Pregnant women and their babies should have good health care, but that doesn't include killing the babies – that's not protecting the baby's health.

Question from Rep. Gary Woods – Is there any circumstances where you can envision where it would be of benefit for a patient to undergo an abortion?
Answer: Yes and no, depending you what you mean. All the laws allow for the good medical treatment of the mother, and for the treatment of that mother to be the cause of death for the baby. But the legal definition of abortion is the intentional killing of the child. If you terminate the pregnancy simply to get rid of the child, that's a crime. But if the mother has an illness or emergency that is threatening her life, then trying to protect her life is an ethical choice. Even states with abortion bans still allow that treatment.

- **Lacey Fehrenbach, Auburn, NH -- Supports the bill**
    - I'm here in support. We have a lot of people who don't understand women's reproductive health.
    - People like me and my friends who are trying to have children have stopped, because we are afraid of getting pregnant.
    - New Hampshire residents are terrified right now to get pregnant and have kids.
    - We need more protections to ensure that you aren't going to rip away those protections.

- **Dr. Oge Young, New Hampshire Medical Society, Concord, NH -- Supports the bill**
    - I practiced in Concord for almost 40 years. Had a patient in Minneapolis with a botched illegal abortion, pregnant by her father – she died a few days after admittance.
    - I explain to my students that they will never see a septic abortion because they have access to legal, safe abortions. They would never have to watch women die from illegal, unsafe abortions.
    - 22 million unsafe abortions annually. Abortion is not about politics, it's about safe health care for women, a matter that should only be decided between a provider and a woman.

- **Danielle Jahnke, Concord, NH -- Supports the bill**
    - First year law student. From Michigan, where legislature and governor codified abortion in their constitution.
    - It's important for me to have access to abortion. 2/3rds of Americans and women believe in access to abortion.

- **Gregg Kunkel**, **Abolish Abortion New Hampshire, Manchester, NH -- Opposes the bill**
    - Committed to the total abolition of abortion in New Hampshire.
    - I'm a little confused, we're talking about abortion and health care like there is one person involved, but there are two. We're totally ignoring that person's standpoint.
    - I think it's immoral to purposely lose sight of that. Health care and abortion are not the same thing.
    - Health care is about saving lives, and making them well. Abortion kills a human being.
    - Give an abortion pill to a mother who wants that child, and find out how quick you'll get charged with homicide. Apply existing murder laws to life, which begins at conception.

- ***Nancy Brennan, Weare, NH -- Supports the bill**
    - See written testimony 2
    - Reading testimony from friend, Rob Blakeney. He is in support.
    - New Hampshire upholds the principle of individual rights. Granite Staters must stand up for the rights of all.
    - Self – I knew of people who went through things, there were people my age who could never have children from unsafe abortions.
    - It should be enshrined in the constitution. The people who will suffer will be the people who can handle in the least.

- **Beth Scaer, Nashua, NH -- Opposes the bill**
    - Quote from Frederica Matthews-Green. The problem is that "it's a baby" conflicts with "it's a woman's right".

- **Claire Teylouni, Reproductive Equity Now -- Supports the bill**
    - New Hampshire does not have affirmative protection for abortion in either statute or constitution, results in chaos.
    - This bill will communicate that abortion is health care, and that an individual's right to terminate their pregnancy is preserved.
    - More than half of American women are unsure about the legal status of abortion in their state. Abortion is a critical component of health care.
    - HCR7 is New Hampshire's opportunity to take affirmative action.

- **Liz Canada, Planned Parenthood, NH Action Fund, Concord, NH -- Supports the bill**
    - When the Supreme Court overturned Roe v. Wade, 19 states have banned or restricted abortion.
    - New Hampshire is the only state that doesn't have any state law or state constitution protections explicitly listed.
    - The statute, part of that same law, there is no right to abortion. We don't have any protections or statutory guarantees.
    - 64% of Granite Staters want their state lawmakers to take positive, pro-active actions on abortion rights.
    - Voting against harmful bills is one step, the other is taking a positive action, and that's what this resolution does.

- **Stephen Scaer, Nashua, NH -- Opposes the bill**
    - I urge you to vote against this resolution. I believe in protecting human life, since birth.
    - This resolution gives only one side, and teaches that human life has no inherent value, and it's only the woman who is making the decision on abortion.
    - At the Sununu center, an adult impregnated a young girl, and took her for an abortion to cover it up. I wonder if there are any pro-life medical providers who avoid areas where they might be required to perform an abortion.
    - The statistics saying there's more abortions where abortions are restricted are skewed by including things that are not abortions.
    - This bill is a statement that I really don't want New Hampshire to make.

- **Courtney Reed, ACLU NH, Concord,NH -- Supports the bill**
    - HCR7 would send a strong messages that in the Live Free or Die state, there is no room for attacks on bodily autonomy.

- Abortion is a critical component of reproductive health care. In the wake of bans and restrictions, now is the time to take a stand to protect this right.
- In 2022, 25 million women lost access to abortion. Research finds that when abortion is restricted, there is higher pregnancy mortality and people are more likely to stay in abusive relationships.

Question from Rep. Markell – I noticed in the bill that you're asking the House Clerk and Senate Clerk to transmit a copy of this resolution to the President and other federal officials. What do you think the anticipated responses would be?
Answer: I would defer to the sponsors. This is a policy statement that we want to affirm, it is meant to be transmitted broadly.

Question from Rep. Polozov – This bill is written to refer to specific policy from President Trump, does New Hampshire have any other law like that?
Answer: I've seen other bills that reference the uncertain landscape at the federal level.

Question from Rep. DeLemus – Does the ACLU believe that abortion should or could be used as birth control, and do you consider that health care?
Answer: I think that question is not rooted in the facts of what reproductive health care is like, I would refer you to the medical community.

- **Cathy Stratton, NH Medical Society – Supports the bill**

  - Speaking in support of this resolution for the organization. The society envisions a state in which personal and public health are high priorities.
  - Elective abortion is a safe procedure and a life-saving medical procedure.
  - Access to a full spectrum of reproductive and life-saving care.

Question from Rep. McLean – Our existing abortion law was passed in 2021, a year before the Dobbs decision. If Roe was re-instated, nothing would happen to our law because it's complaint. With you, the Medical Society, if this resolution was to pass, how would it benefit you?
Answer: It's my understanding that this resolution is an important form of communication that says to patients and physicians that they have the support of the state.

Follow-up: How are you going to tangibly use this? Are you going to send it out to your members? The Fetal Life Protection law was a compromise. How is this resolution going to be used?
Answer: I can't speak to other groups. I think that this is again, support for the physician-patient relationship and the autonomy of a woman.

- **Maria Wilkinson, Concord, NH -- Supports the bill**

  - I support Article 6, the right to life and I support HCR7. I have a deep understanding about what international law says about the right to life.
  - Abortion has never been included, it would be more recognizing the women attached to that pregnancy.
  - We forget that beyond us, there is greater opinion. Why do we care about the international covenant, U.S. has signed that covenant.

Respectfully submitted,

Rep. Matt Drew
Clerk

Abortion OpEd May 26, 2019

Many people seem to think a woman's pregnancy is an open invitation to decide what is best for her. It is clear that some value the life of an unborn child over that of the woman and the lives she is already supporting. Lawmakers who know nothing of a woman's complex life circumstances, should have no voice in her decision-making, particularly when it comes to pregnancy.

Recent passed or proposed abortion laws have outraged many of us. There have been fifteen restrictive abortion bills passed in our country this year. Alabama Gov. Kay Ivey signed a bill which bans all abortions in her state- with no exceptions for rape or incest- and imposes prison sentences on doctors who perform them. Criminalizing physicians is an attempt to prohibit safe abortions.

Many states that have passed or proposed new laws, including Georgia, Alabama and Missouri, have the worst public health outcomes in the nation. It is no coincidence that states with the most restrictive abortion laws have the highest maternal mortality rates. Unsafe abortion is a leading cause of maternal mortality in many developing countries.

We know from the past, banning the termination of an early pregnancy does not stop abortions. Prior to Roe v. Wade thousands of women died from illegal procedures. Most major hospitals had sepsis wards for women who developed overwhelming infections after an illegal abortion. We do not want to go back to that world.

Some opposed to abortion focus on the termination of "late" pregnancies. Ninety-eight percent of abortions are performed in the first 3 months of pregnancy. Those performed later result from a diagnosis of severe fetal abnormalities incompatible with life. Some terminations of a late pregnancy are required to save a woman's life.

Many patients come to mind- the 13 year-old Girl Scout who was pregnant because her older brother's friend raped her while she was playing in a treehouse. The 35 year-old insulin-dependent diabetic who presented in early pregnancy with unstable angina, secondary to severe coronary artery disease. She underwent a life saving termination of pregnancy and a 5-vessel coronary artery bypass surgery on the same day.

A woman hemorrhaging in her 2nd trimester requiring multiple blood transfusions and transfer to our hospital for a simple life saving surgical procedure. Remarkably, no physician had been trained to perform this surgery at her hospital.

The barrage of legislation attempting to regulate abortion represents a distrust of both women and their physicians. The bills show a disregard for the years care providers have devoted to clinical judgement, medical/surgical skills and developing relationships with our patients.

We are grateful to the other doctors, activists, legislators and organizations who are fighting to protect access to a safe, legal abortion in NH and across our country. Women and their care providers should be making personal medical decisions, not lawmakers.

Oge Young MD
Retired Concord Ob/Gyn. Adjunct Professor of Ob/Gyn Geisel School of Medicine at Dartmouth

Ellen Joyce MD
Ob/Gyn DHMC. President of the NH Chapter of ACOG.

Dear Chair MacDonald, Vice Chair Mazur, and Members of the Committee,

I write today in strong support of bill HCR7, which recognizes abortion as a critical component of comprehensive reproductive health care. This legislation is essential to ensuring that individuals in New Hampshire have the fundamental right to make personal decisions about their bodies, health, and futures without unnecessary government interference.

At its core, the fight for abortion rights is about **personal autonomy, bodily integrity, and freedom of choice**. A government that can force someone to remain pregnant against their will is a government that denies its citizens full control over their own bodies. Pregnancy is an immense physical, emotional, and medical undertaking, and no one should be compelled to endure it against their wishes. The right to abortion is fundamental to maintaining equality, dignity, and personal liberty.

The Failure of Abortion Ban Exceptions

Abortion bans, even when framed with exceptions, fail to protect pregnant individuals in practice. Every state enforcing a total abortion ban claims to have exceptions when the pregnancy threatens the life of the pregnant person—yet real-world cases prove that these exceptions are often meaningless. Testimonies from lawsuits filed by individuals denied or delayed in receiving abortion care in Idaho, Oklahoma, Tennessee, and Texas highlight the harrowing consequences of these bans. Despite meeting their states' criteria for life-threatening conditions, these individuals were still denied critical medical care, forced to endure severe suffering, and placed at unnecessary risk. The preventable deaths of women seeking healthcare for miscarriage or nonviable pregnancies further underscore the inhumanity of these restrictions. Jessica Barnica, a 28 year-old Texas woman, died in 2021 from complications of a planned pregnancy, just days after a 6-week abortion ban was enacted. For fear of losing their medical licenses, doctors refused to provide her emergency medical care as she was dying of sepsis from a miscarriage that was already fatal to the fetus.

Furthermore, exceptions for rape and incest—when they exist—fail to protect survivors. Patients are forced to navigate additional, often insurmountable, bureaucratic hurdles, such as reporting their assault to law enforcement within a limited time frame. These requirements ignore the reality that many survivors, especially minors and those in unsafe situations, may not be able to meet these demands. In effect, these exceptions are a thinly veiled attempt to make draconian laws appear more compassionate, while in reality, they provide no real protection or access to care.

Personhood is a Religious and Legal Slippery Slope

Opponents of abortion often frame their arguments around **fetal personhood**, but this is a **philosophical and religious belief, not a medical or legal fact**. The belief that personhood begins at conception is deeply rooted in religious ideology, and enshrining this perspective into law violates the separation of church and state. The government should not impose one

religious doctrine onto an entire population, especially at the expense of the health, safety, and rights of those who are already born.

Furthermore, **legally recognizing fetal personhood creates a dangerous precedent**. It provides a foundation for restricting not only abortion but also birth control, fertility treatments, and miscarriage management. We have already seen attempts to **ban emergency contraception, IUDs, and even routine in-vitro fertilization (IVF) procedures** under the guise of protecting so-called "unborn life." When the law prioritizes a fertilized egg over the rights of the pregnant person, it opens the door to **further government control over reproductive health care**, violating constitutional protections of personal liberty and religious freedom.

The Reality of Abortion: A Necessary Medical and Personal Decision

The **reasons people seek abortion care are complex and deeply personal**. Research from the Guttmacher Institute shows that the most common reasons include:

- **74%** cite concern for the impact on their life, such as education, work, or ability to care for dependents.
- **73%** say they cannot afford to have a child.
- **48%** do not want to be a single parent or have relationship problems.
- **38%** say they have completed childbearing or already have children and cannot support another.
- **12%** cite health concerns for themselves.
- **1%** seek abortion due to rape, and less than **0.5%** due to incest.

These statistics demonstrate that abortion is not taken lightly but is instead a **necessary medical and social decision made for a wide range of valid reasons**. The ability to access abortion care directly impacts financial stability, physical health, and overall well-being.

Protecting Freedom, Not Enforcing Religious Beliefs

Abortion is health care, and restricting it places lives at risk. Leading medical organizations, including the American College of Obstetricians and Gynecologists, affirm that abortion is a safe and essential part of reproductive health care. When individuals can make reproductive choices freely, they are better able to pursue education, careers, and financial stability—strengthening families and communities.

New Hampshire has a long history of valuing **personal freedoms and individual rights**. Passing this bill is consistent with our state's commitment to **autonomy and medical privacy**. I urge the Legislature to affirm that reproductive health decisions belong to patients and their health care providers—not politicians, and certainly not religious doctrine imposed through law.

I respectfully urge you to vote in favor of [Bill Number] and stand with the overwhelming majority of New Hampshire residents who support access to safe and legal abortion.

Thank you for your time and consideration.

Sincerely,
Julie M. Ghizzoni

Protecting abortion access is essential to health, freedom, and morality in our state and across the country. I am in a relationship with someone with a uterus. If she was pregnant and wanted an abortion, even given how close we are, I would find it unthinkable to deny her that. Denying abortion to folks I have never met and have no relationship to would be the height of arrogance.

The wellbeing of mothers cannot be maintained if necessary medical procedures often labeled as abortion are barred. Abortion is a termination of a pregnancy. That pregnancy may be viable or it may not be. In many cases it is not viable and would only bring harm if carried to term or allowed to reach its damaging conclusion. In some cases there is no chance of there being a child as a result. Those who would argue that this resolution is immoral on the grounds of killing babies lack knowledge of how humans reproduce. Those who do understand how pregnancies work and how they can go wrong, such as medical professionals, will agree with this resolution that abortion is an essential part of reproductive health care.

The most possible freedom is to let the individual decide what is best for themselves when presented with all necessary information regarding their possible choices. For this reason abortion must be protected because it allows the pregnant person to decide what is best for them to do with their body. No legal body, group of people, or other person should make the decision for the pregnant person. Any law that could be passed to restrict abortion access would be the state or country making a decision for the pregnant person and would be tyranny, not freedom. Obviously any person who wishes not to have any abortion procedure for religious reasons or otherwise regardless of the risks that may result should be allowed to do so. This freedom does not require the same action from others.

After birth there is a child to be cared for. Times are difficult and children need to be as well cared for as possible. Taking on the responsibility of raising a child is not something to be taken lightly and not something that should happen accidentally. Raising a child before the parents are ready will severely hamper the development of the child as their parents sacrifice their work lives for their parenting roles. This reduces the economic stability of the parents and stresses the parents which in turn stresses the child and reduces their opportunities as they grow. With this in mind it is best for a child to be born into a family who is economically stable and sure they want that child. This is what freedom and bodily autonomy brings and what restrictions on bodily autonomy take away.

“Live free or Die” is our state motto and I am proud of it. It is a forceful statement that carries with it the sentiment of those who fought and died so that others may have and possess the freedom to live and believe as we see fit. The full statement uttered by John Stark in 1809 was “*Live free or die: Death is not the worst of evils.”.* A life without freedom is a life lived in bondage and fear and that is what would be given to all citizens of New Hampshire if anything were passed to infringe upon their bodily autonomy such as a restriction on abortion access.

I, as well as many voters and lawmakers, do not have a uterus. It would be easy to say “This does not affect me so I do not care”. For the rest of the population infringement upon abortion access would directly affect them. This is a matter of oppression or freedom. As such taking a neutral stance is to allow evils greater than death to potentially gain a foothold in our state. Neutrality is to side with the oppressors.

I am proud of my state, I am proud of this resolution, and I am proud of all who support it as I do.

Humbly, Alex Williams
In support of New Hampshire House Concurrent Resolution 7

To: Chair Wayne MacDonald, Vice Chair Lisa Mazur, and the House Health, Human Services, and Elderly Affairs Committee
Re: Testimony in Support of HCR7, recognizing abortion as a critical component of comprehensive reproductive health care
Date: February 19, 2025
Position: OUGHT TO PASS

Background

Reproductive Equity Now works across New England to make equitable access to the full spectrum of reproductive health care a reality for all people regardless of their gender, age, race, ethnicity, zip code, income, immigration status, disability, or sexual orientation. Advancing reproductive justice and eliminating barriers to abortion care are central to our mission. In the nearly three years since the United States Supreme Court issued a decision in *Dobbs v. Jackson Women's Health Organization*, a case that eliminated the longstanding constitutional right to abortion guaranteed under *Roe v. Wade*, 19 states have taken action to severely restrict or entirely ban abortion.[1] As of 2023, more than 25 million women of reproductive age live in a state where abortion is severely restricted or completely banned.[2]

With a long record of reproductive freedom leadership and a longstanding legacy of affirming personal rights and freedoms, New Hampshire has an obligation to affirm access to critical and essential reproductive health care for Granite Staters. **We urge you to act favorably on HCR7, *recognizing abortion as a critical component of comprehensive reproductive health care*, to instill confidence and trust in New Hampshire patients, providers, and everyone involved in our state's family planning and reproductive health care ecosystem.**

Abortion *is* a safe, effective, and critical component of reproductive health care

While long siloed, abortion is a critical component of the full spectrum of sexual and reproductive health care, which also includes contraceptive counseling and family planning services, STI testing and treatment, HIV counseling, annual gynecological exams, fertility and infertility care, maternal and perinatal health services, miscarriage management, and more.[3] Research shows that abortion care, both medical and procedural, is safe and effective and complications are rare.[4] In fact, complications in abortion care are so rare that they occur far less frequently than during

childbirth.[5] Research further concludes that the safety of abortion care is enhanced when abortion is made more widely available and accessible to patients—waiting periods, ultrasound requirements, and gestational limits impeding access to care and delaying abortion access are more likely to be what impacts the safety of accessing abortion care than the clinical care itself.[6] Mifepristone, the first of two drugs used in the typical medication abortion regimen, is a safe and effective medication that has been used more than five million times across the country to end pregnancy before 11 weeks.[7] Medication abortion has a 99% safety rate and more than a 95% efficacy rate.[8] More than 50% of abortions nationally are medication abortions.[9]

Conversely, the negative impacts of denying a wanted abortion are well-documented. Abortion restrictions and bans do not just impact a person's ability to access timely health care; economic security is directly tied to a pregnant person's ability to make their own reproductive decisions and access the health care they need.[10] People who wish to choose abortion care and are denied access to it are at increased risk of experiencing poverty and unemployment.[11] Research further indicates that abortion restrictions lower the likelihood a woman will graduate from school (both high school and college), lower her overall lifetime earnings, and ultimately lead to poorer outcomes for her children.[12] Restrictions on abortion care also have a broader public health and economic impact: research indicates that states with more abortion restrictions are more likely to perform poorly on indicators of women's health, children's health, and social determinants of health,[13] and a 2024 analysis suggests that restrictions on abortion cost the United States an average of 173 billion per year.[14]

[14] Elakbawy & Rogers, *supra* note 12.

The national patchwork of access creates chaos and confusion; Granite Staters need clarity

After the *Dobbs* decision left the regulation of abortion up to the states, 19 states have since acted to restrict or completely ban abortion access and as a result, chaos and confusion abounds across the United States with regard to understanding the legality and accessibility of abortion care. Recent polling suggests that over half of American women are unsure about the legality of medication abortion in their state, and as many as 1 in 8 adults living in states where abortion is currently banned incorrectly believe that medication abortion is legal in their state.[15] Furthermore, misleading narratives and misinformation from a variety of online sources also shape a broad misunderstanding of the availability of contraception options. A third of adults say they are unsure if emergency contraceptive pills are legal in their state, and 43% of women living in states where abortion is banned incorrectly believe emergency contraceptive pills are illegal where they live.[16]

Abortion restrictions across the country have also resulted in uncertainty on behalf of providers. A recent study found that only 45% of OBGYNs in states with gestational abortion bans feel they truly understand the circumstances in which abortion is legal in the state where they practice.[17] Over 40% of OBGYNs nationally report that they are concerned about their own legal risk when making decisions about patient care; this number rises to more than half of OBGYNs expressing concern about legal risk in states with gestational abortion restrictions or total bans.[18]

To combat this misinformation and significant confusion, HCR7 offers New Hampshire lawmakers the critical opportunity to provide clarity and affirmation to their residents that abortion is essential health care, and that an individual's right to terminate their own pregnancy—ultimately their right to determine their own reproductive future—will not be denied.

Conclusion

While abortion is legal in New Hampshire, it is an outlier amongst New England states as the only state without affirmative legal protections for abortion, despite significant support for reproductive freedom amongst Granite Staters.[19] With no federal protections to abortion after the fall of *Roe v. Wade*, New Hampshire residents are left vulnerable to losing the right to abortion care. **It is imperative that New Hampshire affirm to its residents that abortion is a critical component of reproductive health care, in order to instill confidence in people who need and**

New Hampshire State Director
Reproductive Equity Now
cwarriner@reproequitynow.org

AllPaths
Family Building

February 19, 2025

House Health, Human Services and Elderly Affairs Committee
State House
107 North Main Street
Concord, NH 03301

Dear Chair MacDonald, Vice Chair Mazur, and esteemed committee members,

AllPaths Family Building (formerly named Resolve New England) is a non-profit organization that provides emotional support, education and advocacy for all those in New England who need fertility health care and other paths to grow the family of their dreams. I am writing to express our strong support for HCR7.

Our organization is guided by core values, including that access to comprehensive reproductive health care, including abortion care, is a fundamental right. Abortion care is health care. Individuals should have the autonomy and privacy to make health care decisions like these, with their loved ones and their medical providers, not with government interference.

We respectfully urge the House Health, Human Services and Elderly Affairs committee to report HCR7 favorably. Thank you for your consideration of our written testimony.

Sincerely,

Kate Weldon LeBlanc

Kate Weldon LeBlanc
Executive Director

HCR 7: **recognizing abortion as a critical component of comprehensive reproductive health care.**

Committee: **House Health, Human Services and Elderly Affairs**

Date: **February 19, 2025**

Position: **SUPPORT**

New Hampshire is the only state in New England where abortion is not explicitly a right in state law or the state constitution. Because the U.S. Supreme Court overturned *Roe v Wade* in its *Dobbs* decision in June 2022, there are also no federal laws or protections for abortion rights. **To be clear: in New Hampshire, abortion is legal but not protected.**

Granite Staters have made it clear they want their lawmakers to take proactive steps on abortion rights, both at the state level and nationally. In October, a survey showed 66% of Granite Staters support a law establishing a nationwide right to abortion, and 78% of Granite Staters believe there should be a right to get an abortion in every state in the United States.

A survey from March 2023 showed that **64% of Granite Staters expect state elected officials to protect or expand abortion access in New Hampshire**.

Leading up to the November 2024 elections, many candidates campaigned on a promise to not further restrict abortion in New Hampshire; now, state representatives have the opportunity to put those promises into action by passing HCR 7.

Granite Staters value our freedoms, including the freedom to make decisions about our health, our families, and our pregnancies without government interference. With increasing attacks on reproductive freedom at the state and federal level, the New Hampshire legislature must take this opportunity to affirm abortion is a critical component of reproductive health care and the government will not infringe or deny reproductive freedom.

By voting in favor of HCR 7, lawmakers affirm that Granite Staters have the freedom to have a safe, legal abortion prior to 24 weeks gestation and that this right shall not be denied or infringed upon by the government.

We urge a vote of Ought to Pass on HCR 7.

For more information contact: Liz Canada, Advocacy Director, Elizabeth.canada@ppnne.org, 603.686.3353

Planned Parenthood New Hampshire Action Fund (PPNHAF) *is an independent, nonpartisan, not-for-profit organization formed as the advocacy and political arm of Planned Parenthood of Northern New England in New Hampshire. The Action Fund engages in educational and electoral activity, including voter education, grassroots organizing, and legislative advocacy.*

Planned Parenthood of Northern New England (PPNNE) *is the largest provider of reproductive and sexual health care across the State of New Hampshire. We serve New Hampshire residents through 5 health centers in Derry, Exeter, Keene, Manchester and White River Junction, VT. Last fiscal year we saw more than 11,000 patients at these sites. PPNNE was named a 2021 and 2022 Guardian of Excellence Award® winner by Press Ganey, the national leader in health care consumer and workforce engagement. Press Ganey recognizes PPNNE as a top-performing health care organization, achieving the 95th percentile or above for performance in patient experience.*

DIOCESE OF MANCHESTER

February 19, 2025

Hon. Wayne MacDonald, Chair
And Members of the House HHS Committee
Legislative Office Building
Concord, NH 03301

Re: **HCR 7 (Seeking to State That Abortion is a "Critical Component of Comprehensive Reproductive Health Care")**

Dear Mr. Chair and Members of the Committee:

As the Director of the Office of Public Policy of the Roman Catholic Diocese of Manchester, and on behalf of Bishop Peter Libasci, I write to respectfully register our opposition to HCR 7, which would make the claim that abortion is a "critical component of comprehensive reproductive health care."

I want to briefly discuss just three of the reasons why we object to HCR 7.

HCR 7 wrongly equates abortion with health care.

HCR 7 seeks to equate abortion with health care. This is manifestly untrue. Health care is life-affirming and life-giving. Abortion indisputably involves the intentional ending of a human life. Killing is not health care.

Even eugenics-based abortions are among the abortions that HCR 7 would declare to be "a critical component of comprehensive reproductive health care."

We need to remember just what New Hampshire law currently permits. Because the law as it stands contains no restrictions on when or why abortions can be performed in the first 24 weeks of pregnancy, the reality is that the abortions which HCR 7 would bless include abortions done (for example) for purposes of sex selection, or because of a finding of Down syndrome, or any genetic abnormalities. Abortions done for purely eugenics-based reasons would be among the abortions considered by HCR 7 as "critical components of health care."

The promotion of abortion is harmful to the defense of human rights and human dignity.

I suspect that most people in New Hampshire, regardless of political or religious persuasion, share a concern that the fundamental principles of human dignity and solidarity are beset by many challenges today. How exactly would the work of building dignity and solidarity be advanced by the passage of a resolution that declares in effect that certain human beings are disposable? I ask the Committee to carefully consider these important insights from Pope Francis:

> [The] defense of unborn life is closely linked to the defense of each and every other human right. It involves the conviction that a human being is always sacred and inviolable, in any situation and at every stage of development. Human beings are ends in themselves and never a means of resolving other problems. Once this conviction disappears, so do solid and lasting foundations for the defense of human rights, which would always be subject to the passing whims of the powers that be.

Pope Francis, Encyclical Letter *The Joy of the Gospel*, 213 (2013).

We need to face up to the fact that what happens with abortion resonates across the whole spectrum of public policy. Human dignity is an indivisible principle. If we want our society to respect and value the child who is a refugee, or the child who is homeless, or the child who does not have access to health care, then we need to ensure that society respects and values the child in the womb as well. Once we ask society to designate certain ones of us as expendable, we should not be surprised if society begins to treat certain ones of us as expendable.

Therefore, I urge the Committee to vote ITL on HCR 7.

Thank you as always for your kind consideration of our views.

Very truly yours,

Robert E. Dunn, Jr., Esq.
Director, Office of Public Policy

Sarah Dempsey

Abortion is absolutely a critical part of reproductive healthcare. Why do legislators feel they have any right to say what a woman can do with her body?

Samantha Immele

Privacy and healthcare are personal rights. Abortion is healthcare, therefore it stands that abortion should not be infringed upon. The government should not be in the bussiness of getting between the healthcare decisions of a person.
That we need a bill to protect this is sad but neccessary. Pass this bill, protect healthcare!

Ashley Shaw

Abortion is killing a human. There is no logical or scientific explanation that can be said to change that simple fact. I oppose Abortion as health care, I oppose Abortion as a form of birth control. I oppose killing an inosent human.

Hon Kurt Wuelper

HCR 7 :That an individual's right to terminate their own pregnancy, prior to 24 weeks gestation, shall not be denied or infringed upon in this state;

Remember, the object of every abortion is to kill a totally helpless human being.
Our country was founded on the Declaration of Independence, which says [paraphrased] “We find this truth to be self-evident that all men are created equal and have the inalienable right to life”. That principle is encoded into our Constitution in the Fifth amendment, declaring, “Nor shall any person be [deprived] of life without due process of law”. The NH Constitution Article 2 says, “All men have certain natural, essential, and inherent rights, among which are, [enjoying] and defending life.

The very idea that one could have a right to terminate their own pregnancy, contravenes this foundational principle by giving mothers the right to take the life of their own child. The Supreme court in Roe v. Wade recognized that if we knew the object of an abortion was a human being, abortion would already be prohibited by the 4th amendment of the US Constitution that echoes the Firth amendment’s requirement of due process of law.

When those words were penned, there was no way to know just when a biological person was created and the court reasoned that since we didn’t know, abortion could be legal. Today, we know from within hours of fertilization a new, unique human being is created.

That person, at its very creation, deserves the full protection of the State and cannot be denied the right to life, which is inseparable from its very existence, without undermining this most important foundation of our state, country, and even Western civilization.

I urge you defend the right to life of every pre-born child by voting HCR 7 Inexpedient to Legislate.
Respectfully,

The Honorable Kurt Wuelper
1336 Parker Mountain Road
Strafford, NH 03884

Julia Di Stefano

Abortion is a critical component of healthcare.

janet ward

This is a sensible bill based on science and common sense.

Cindy Franciosa

Abortion is a critical component in recognizing reproductive health care for women. There are many facets to a woman's reproductive health with a lot of gray areas. No one should be deciding a women's health choices unless it's the woman herself and her doctor. Women's uteruses and fallopian tubes have no business in legislation period.

Gregory Ives

One must include options for abortion as part of Healthcare.
Imagine you, or your daughter, or your daughter-in-law, in a life-threatening situation and not having a life-saving procedure available.

Felice Burstein

As a retired Physician Assistant, I feel strongly that abortion is a part of comprehensive reproductive health care.

Amy Evans

Women should always have control over what happens to their bodies.

Sandy Blanchard

Good health care includes allowing a woman to make all decisions about her body!

Monica Ciolfi

Dear Committee Members; we have heard lots of stories of the past nearly 3 years about how women's lives have been saved by access to abortion when their pregnancies have become medically complicated. We've also heard of lives lost when that care has not been accessible. Pregnant women should not have to risk serious harm, or worse, as a result of untimely or unavailable abortion care. It is outrageous that this situation exists in large, and ever-increasing, parts of our country. But in addition to these types of circumstances, abortion care is always part of comprehensive sexual and reproductive healthcare because it is a fact of life that girls and women (and some trans people) often face unplanned pregnancies. Abortion must always be an available and accessible option. No one should be forced to carry an unwanted pregnancy. Pregnancy and childbirth are too risky and bringing a human being into this world far too consequential, for pregnancy ever to be forced upon an individual. Please vote to support HCR 7. Thank you.

Catriona Beck

I strongly support this bill.

Susan Saffian

Human life is precious and given to us by God.
Abortion IS NOT MEDICAL CARE.

Kathleen West

As a public health professional with a focus in reproductive epidemiology and maternal and child health, it is critical to recognize a woman's sole right and responsibility to determine the timing and size of her family. It's therefore central to this right that a woman must be able to choose to terminate a pregnancy prior to 24 weeks gestation and that this right shall not be denied or infringed upon by the government or any other entity.

During the 2024 election cycle, numerous candidates and legislators promised not to further restrict abortion access in many states including NH. With HCR 7, lawmakers have an opportunity to vote according to their campaign promises. By voting in favor of HCR 7, lawmakers affirm that Granite Staters have the freedom to end a pregnancy. Please vote in favor of HCR7.

Susan Haley

Women’s reproductive health needs to include “abortion” esp in the case of a miscarriage and a mother is bleeding out or going septic. Not one woman should die waiting for needed healthcare and not one doctor should not have to question if they should intervene to save a life.

Norman Thibault

Please stop trying to call killing health care!

Donna Lannan

Please support this bill for comprehensive medical care for all women

Lyn Lindpaintner

As a retired physician in primary care, and as a woman with 3 pregnancies and two beautiful daughters, I am very well aware of how inseparable abortion services are to all other aspects of women's health. HCR7 would provide affirmation of this truth in the laws of the Granite State. I urge you to support HCR7,

The idea of third parties making decisions about what I do with my own body is repugnant to me, particularly in a realm so very personal as if, when, and how I become a parent. I expect to make such decisions in the privacy of my home or in consultation with a trusted medical professional. When my body miscarried my first pregnancy at 16 weeks gestation, and I was bleeding heavily, a procedure (D&C) was used to stop my bleeding and evacuate the retained placental tissue - the same procedure as is used in some therapeutic abortions to terminate a pregnancy. Today, in some states with abortion bans, women are being denied treatment when they miscarry because of the confusion and doctors' fear of prosecution for abortion, even when the miscarriage occurs spontaneously. Fear of prosecution is a powerful disincentive to providing even normal and needed medical care. This is an example of how deeply entwined abortion is in womens' reproductive health.

Further, I am offended that one religious perspective about when life begins is imposed on all citizens in an attempt to prevent abortion.. This is expressly unconstitutional. In the Judaic tradition, for example, life begins when the fetus leaves its mother's body and lives on its own. That strikes me as an equally reasonable definition as that life begins at conception, and women should be able to follow their own conscience on this matter.

I ask you to recognize that it is up to each woman to decide what her moral and ethical principles direct her reproductive behavior, just as men are allowed to use their own moral and ethical standards in deciding whether or not to impregnate a woman. Men at times certainly make decisions about their sexual behavior that could be condemned as immoral, but their private behavior is not regulated by law, nor is this even a controversial matter. It is time that the same autonomy be extended to women, without fear of punishment if her personal choices are not the same as yours would be in the same situation. Please acknowledge this by supporting HCR7. Thank you, Lyn Lindpaintner

Emily Hacker

Choice is health and life chances.

Abigail Charbeneau

I support this bill as a viable Health option.

Jennifer Siegrist

Please support maternal healthcare. Stop the unnecessary deaths of innocent women. Trust the expertise of doctors bound by the Hippocratic Oath to do no harm and save as many lives as possible.

Please support HCR7.

Thank you,
Jennifer Siegrist

Carol Wallace

I support this bill as abortion is a critical component of comprehensive reproductive healthcare.

Kavita Finn

Legal and safe abortion is a vital component of comprehensive health care for everyone, not just people with uteruses.

Margaret Landsman

Abortion is an essential part of healthcare.. This should be enshrined in our laws. Furthermore, it is for medical experts and their patients to make this this decision. The government should not be involved in.

EDWARD HENNESSY

Dear Committee Members; we have heard lots of stories of the past nearly 3 years about how women's lives have been saved by access to abortion when their pregnancies have become medically complicated. We've also heard of lives lost when that care has not been accessible. Pregnant women should not have to risk serious harm, or worse, as a result of untimely or unavailable abortion care. It is outrageous that this situation exists in large, and ever-increasing, parts of our country. But in addition to these types of circumstances, abortion care is always part of comprehensive sexual and reproductive healthcare because it is a fact of life that girls and women often face unplanned pregnancies. Abortion must always be an available and accessible option. No one should be forced to carry an unwanted pregnancy. Pregnancy and childbirth are too risky and bringing a human being into this world far too consequential, for pregnancy ever to be forced upon an individual.

Please vote to SUPPORT HCR 7. Thank you.

Edward J Hennessy, Resident and Voter in Freedom NH

Alison Wilder

Abortion is a critical component of health care for women. I strongly support New Hampshire recognizing this basic fact, which is supported by global medical experts.

Michelle Schatvet

Health care should be between a person and doctor REGARDLESS of the patients gender. We are a state prided on our motto “live free or die” let people live free with autonomy over themselves and their healthcare!

Remove the politics, and this is pure health care good sense. The politics come in only because reproductive rights are being systematically assailed in the U.S. right now.

Sandy Hamm

As a measure that strengthens reproductive health care, this is vital and has my total support.

Joanne Knight

This bill will support discrimination towards a vulnerable segment of our population. I am opposed to discrimination as it leads to “otherizing” which gives permission to acts of cruelty. .

Kathleen HANLON O’Connell

Please support HCR7
Thank you

Darrelle Lang

Choice access to abortion is a critical component to comprehensive reproductive health care. My body my choice. Amen!

Jane Shapiro

I absolutely believe that abortion is a critical part of health care. Please support this resolution.

Jane Shapiro

Geoffrey Jones

I support HCR7, a resolution recognizing abortion as a critical component of a woman's comprehensive reproductive health care.
Furthermore, in my humble opinion: ALL reproductive health care issues are the sole responsibility of patients and their medical providers. The government (county, state, federal) has ABSOLUTELY no right to interfere or intervene in this process. It is a violation of constitutional rights when they do so.

As a Vietnam Veteran, who fought to protect and preserve the US Constitution (taking an oath to uphold it), I implore that ALL politicians join me in upholding their sworn oath as well.,

Thank you for your time, attention, and consideration.

Christine Hodge

Abortion is not compatible with reproduction and, as it results in human death, is not healthy or caring. Funds that would be used for abortion should be used for pregnancy centers and programs to support babies and parents in need.

Sadie Stehlik

Please support this bill for the health and safety of women and girls in New Hampshire!

Diana Damato

I believe abortion is a critical component of comprehensive reproductive care for women. I request that you support this bill.

Ellen Joyce

Abortion is healthcare and healthcare is a human right. So says the American Medical Association, the New Hampshire Medical Society and the American College of Obstetricians and Gynecologists. This is a chance to fulfill the campaign promise of not restricting abortion under 24 weeks. Granite staters value freedom. Freedom to make our own decisions about our health and that includes pregnancy

Ellen M Joyce MD, FACOG
Asst professor of Dartmouth's Geisel School of Medicine

Elizabeth Black

Healthcare decisions are private decisions, not the business of government. Thank you for maintaining personal rights in this area.

Brenda Tirrell

I strongly support House Bill HCR7and urge your support for this important legislation. I believe it is essential to protect women's health care and women's ability to make their own decisions about their reproductive health. It is necessary to ensure that every child born is a wanted child. Thank you for your consideration.

Respectfully,

Brenda P. Tirrell

Tara Mahady

I urge you to support this resolution recognizing abortion as a critical component of comprehensive reproductive health care. Every person deserves the right to make decisions about their own body, their future, and their family without political interference.

New Hampshire has long upheld personal freedom and privacy—this resolution affirms that tradition. Protecting access to abortion is about respecting autonomy, ensuring dignity, and safeguarding essential health care.

Please stand with the people of New Hampshire and support this resolution.

April Weed

I support this bill

Blossom Dodge

My name is Blossom Dodge, and I am both a parent and an educator who believes that health care decisions should be made by individuals in consultation with their doctors, not by politicians. HCR 7 affirms that abortion is a critical component of comprehensive reproductive health care and ensures that New Hampshire continues to protect the reproductive rights of its residents.

Why HCR 7 is Essential for New Hampshire

1. Abortion is Essential Health Care

Abortion is a necessary part of reproductive health care, allowing people to make personal medical decisions about their bodies and futures.

The American College of Obstetricians and Gynecologists, the American Medical Association, and the World Health Organization all recognize abortion as essential, evidence-based health care.

Restrictions on abortion disproportionately harm people with low incomes, people of color, and those in rural areas who already face barriers to accessing health care.

2. Protecting Abortion Access Respects Individual Freedoms

Every person deserves the right to make their own reproductive decisions without government interference.

The majority of Granite Staters support abortion rights, and New Hampshire has historically stood for individual freedom and limited government intrusion in personal medical choices.

Ensuring that abortion remains accessible up to 24 weeks allows people to make informed choices based on their own health, their family's needs, and their circumstances.

3. New Hampshire Has a History of Bipartisan Support for Reproductive Rights

In 1997, a bipartisan legislature repealed a 1955 abortion ban, affirming New Hampshire's commitment to reproductive freedom.

HCR 7 is a continuation of that commitment, ensuring that New Hampshire remains a state where personal health decisions are protected from political overreach.

4. Abortion Access is a Matter of Public Health and Safety

Legal and accessible abortion reduces maternal mortality rates and protects public health.

Countries and states that restrict abortion have worse health outcomes—forcing people to carry pregnancies against their will leads to higher rates of complications, financial hardship, and poor mental health outcomes.

Restricting abortion does not stop abortions from happening—it only makes them less safe.

5. The Majority of Americans Support Safe and Legal Abortion

Polls consistently show that a majority of Americans support the right to abortion, particularly in the early stages of pregnancy.

Abortion bans and extreme restrictions are out of step with public opinion and do not reflect the will of most voters.

Conclusion

HCR 7 is a crucial resolution that affirms New Hampshire’s commitment to reproductive rights and recognizes abortion as an essential component of comprehensive health care. It protects individual freedom, promotes public health, and upholds our state’s long-standing bipartisan values of privacy and personal autonomy.

I urge this committee to support HCR 7 and ensure that the right to safe, legal abortion remains protected in New Hampshire.

Thank you for your time and consideration.

Rob Blakeney

Our state has arguably the strongest tradition of respect for personal individual privacy of any state. When I served in the General Court many years ago, with only a small handful of exceptions, every member of this body upheld that principle as it applied to reproductive rights in general and the right to choose abortion in particular.

I urge all members of this committee to recognize that any failure to strongly support ALL rights to personal individual privacy will lead to an erosion of New Hampshire's privacy rights more broadly. Granite Staters must proudly stand up for the rights of all, even those with whom we may strongly disagree. If we fail at that, ultimately every citizen's freedom will be at risk.

Don House

Everyone in NH should be free to make their own decisions about their healthcare. This bill reflects that philosophy and should be passed.

Claudia BURDETT-LERNER

Abortion is a critical component of comprehensive health care.

wendy byrn

Abortion is a critical component of comprehensive reproductive health care for every woman. The particulars should be private and decided between a woman with the opportunity to consult with her doctor.

Liam Hodge

Abortion is murder.

Naomi Connelly

I support this bill because I believe that the government does not belong in my medical decisions. We live in a state that has historically prided itself on staying out of the lives of its citizens. "Live Free or Die" is plastered on everything we produce. Why then are we allowing legislation to move into the privacy of individual doctor/patient interactions?

I have a personal history to this topic. I have not had an abortion myself, but in so many instances I might have needed to consult a doctor on this difficult topic. I do not regularly have a period; I found out I was pregnant with my daughter when I was nearly three months along, and only on account of a 'flu' that wouldn't subside. Later in my life, I became a rape survivor. I also come from a long family medical history of complicated women's health issues and dangerous pregnancies. I may at any time needed to be able to have a free and open discussion with my doctor about a situation forced upon me by a crime, or a situation that may permanently injure or kill me. Taking that discussion away from me and placing it in the halls of the legislature is against everything this state stands for. Comprehensive reproductive health is just that--it is a health care decision, and must be available and protected for all women.

Karen Kilkenny

I approve this HCR to protect women's health care decisions will be left up to the individual and her doctor.

Risa Keene

Access to abortion is an important component of a comprehensive women’s health plan!

Darryl Hall

Abortion is murder, and murder is not health care. Murder is a crime.

Theodore Capron

As a family physician I have seen too many cases whereby poverty, child abuse and congenital disorders resulted in far worse outcomes for unwanted children than the consequences of an aborted embryo.

Liz Ober

I support HCR 7 - Comprehensive reproductive health care includes abortion as a critical component.

Steven Devine

I believe that abortion should be rare and safe, not used as a form of birth control. Abortion should only be legal in instances of rape, incest or to save the life of the mother.

Sabine Duran

I strongly support this bill, we need to keep women's health in their own hands and support reproductive freedom!

Susan Arnold

Ensuring access to abortion in the Granite State is consistent with our "Life Free or Die" ethos enshrining personal liberty as the highest priority. If a person cannot control their own reproductive destiny, they cannot control any other aspect of their personal life, from education to employment to family. Who, other than the person(s) most directly involved, can and should make these judgements? Please support HCR 7 and show your support for the New Hampshire's most fundamental values.

Cynthia Garland

I strongly feel that abortion is an integral part of comprehensive health care for women.

Cody Simonton

Healthcare, and reproductive Healthcare specifically, is a critical component of a healthy and prosperous life. Abortions are, by definition, the termination of a pregnancy. This occurs for SEVERAL reasons. Failing to recognize this risks the health and lifes of individuals who may find themselves in situations requiring this component of reproductive Healthcare.

CATHERINE KONING

This is common sense. All aspects of reproductive care should be included in healthcare, including abortion.

Kristen Petricola

I support this bill!

Taylor Barry

Abortion is a critical procedure. It acts to not only preserve the life of the mother, but to preserve their right to choice when it comes to their futures. This freedom to build ones' own path is a critical component of the American lifestyle. Hence, abortion acts to preserve both the physical and mental health of mothers.

Brett Thelen

It is no coincidence that the states with the most restrictive abortion laws have the highest maternal mortality rates, as abortion is a critical component of reproductive health care. I strongly support this resolution.

Martha Jane Rich

It's vital to the health of our families that we recognize abortion care as a critical element of comprehensive health care. I know this from personal experience--both my own and other family members'. Access to this care saves lives and strengthens families and communities. This bill does not say anyone must have an abortion; it supports people's right to choose whether or not they want this health care option. It's a deeply personal decision. The legislature's only role should be to protect it.

Cindy Kudlik

"This resolution recognizes abortion as a critical component of comprehensive reproductive health care." Do you even know what the word "reproductive" means? Your interpretation allows for the killing of unborn babies. That you could twist that in your own minds to be "health care" or supportive of reproduction is ludicrous & evil.

Russell Cobb

Abortion IS a critical component of comprehensive reproductive health care. I will not live or pay taxes in a state whose government is attempting to reduce women to baby-making machines.

Michele Chalice

This bill protects the lives of my daughter, mother, niece and sister.
Please support the lives of humans already here.
??

Susan Meehan

I support this hill and I hope you do too.

Rachel Greene-Lowell

Women and their health care providers should be the only ones in control of their health care and reproductive choices including abortion.

Sandrs Cobb

Abortion is a critical component of comprehensive reproductive healthcare.

Sandra Cobb

Abortion is a critical component of comprehensive reproductive healthcare.

Darlene Pawlik

Any brutal procedure that takes a human life has no integral part in legitimate healthcare.

Ann Rettew

Abortion is healthcare, something to be considered in consultation with a health provider, not determined by law.

Chris Kilmer

I believe there are many life-threatening complications of pregnancy that, if allowed to continue, could result in death, severe disability or the irreversible destruction of the expectant mother’s future fertility. These include placental and fetal abnormalities, pre-existing maternal conditions such as certain congenital heart diseases, kidney disorders, pulmonary hypertension, cancer, ectopic pregnancies, history of postpartum psychosis, and current substance abuse. The decision to terminate a pregnancy prior to 24 weeks must be available without prevention or infringement and protected in the state of New Hampshire.

Stephanie Osborne

I cannot fathom not allowing a woman, backed by her support system and her qualified medical provider, the right to make these very difficult decisions for her own wellbeing and that of her family. That said, this bill allows her the space to make informed decisions. I strongly encourage you to support this bill.

Cecilia Disney

I am a primary care physician. Reproductive rights are human rights. Access to abortions saves lives. Medical decisions should be left to the patient and their medical team/doctor.

Amy McGregor-Radin

This bill is a positive thing for all of NH citizens. Please pass this!

Anne Grossi

Whether you are pro-life or pro-choice, abortion does occur in medically necessary situations, and it would be barbaric and cruel to not recognize abortion as a critical component of women's reproductive health care. NH should not become a state where women die because they cannot get the necessary medical care that is part of women's reproductive care. Please SUPPORT this bill.

Laurel Miller

My daughter had an abortion due to a failed pregnancy. She had PTSD from it but it was necessary. Fortunately for her she lives in a state where it could happen quickly and she had medical and emotional support. Why do we want to make it harder and scarier for women to be pregnant? The anti people take a very narrow view when there are a wide variety of reasons people need abortions.

Rachel Deandrea

Access to abortion care needs to be protected. This bill is in alignment with the majority of NH residents and should be passed.

Jamie Carreau

Abortion IS healthcare! I fully support this bill! We should all have control over OUR OWN BODIES!!!!

Katherine Hartnett

Comprehensive reproductive health care for all includes the option for abortion among other actions. Pls support this resolution to allow doctors & patients to decide all are options.

Thank you.

Clarise Ochoa

Without abortion, women who go through miscarriages and ectopic pregnancies can and will die. Abortion is healthcare.

Kirsten Scobie

I believe that comprehensive reproductive health care for all includes the option for abortion among other actions. Please support this resolution to allow doctors and their patients to decide all healthcare options.

Maria Boylan

My name is Dr. Maria Boylan. I am a family medicine physician in New Hampshire and I am in strong support of HCR 7, recognizing abortion as a critical component of comprehensive reproductive health care.

Since the implementation of the fetal protection act in 2021, state law has lacked affirmative language that tells the residents of this state, physician and patients, that they have a right to abortion-care in New Hampshire up until the limits set in place three years ago. This fact, coupled with the fall of Roe in 2022, our patients have not only been left with feelings of confusion and uncertainty about their right to make reproductive health care decisions, they have been fearful that their rights will be further restricted as a result of lacking state and federal protections. The patients of this state deserve better.

One of the greatest honors of my life has been caring for my patients. Being a family practice doctor, I have the privilege of caring for people from birth until death. Caring for entire families and multiple generations, watching them grow as well as helping them through their most difficult times. And for some women and families that includes making one of the most personal and complex health care decisions of their life - terminating a pregnancy. And though there are numerous reasons why patients choose to have an abortion or medically need to have an abortion, that decision is one that should rest solely between the patient and their healthcare provider. A decision that I know first-hand is never taken lightly, a decision that surely should not be influenced by actions taken by our elected officials.

It is certain that restricting women's access to safe and legal abortion services has irreparable health implications. Laws that restrict access to abortion do not result in fewer abortions, they instead compel women to risk their lives by seeking out delayed or unsafe abortion care. According to the world health organization, 23,000 women die from unsafe abortions each year and tens of thousands of women experience significant health complications from delayed or denied abortion care. More recent studies estimate that banning abortion in the US would lead to a 21% increase in the number of pregnancy-related deaths overall. We can't allow "back alley" abortions to become the only way for women to terminate a pregnancy, or further limit access to reproductive care by forcing our patients to seek care out of state.

Being a good physician means protecting my patients in a variety of ways, and that includes keeping the government out of our hospitals and exam rooms. Health care should not be dictated or influenced by politics. Abortion care is healthcare and every patient has the right to quality, safe, and comprehensive reproductive care.

For these reasons, I urge you to support CACR-23 to ensure that our patients, your constituents, have a right to access abortion-care in New Hampshire. Thank you for your time and consideration of my testimony.

Sincerely,

Maria Boylan, DO
Board Certified Family Physician

Jennifer Legier

About 13 years ago I suffered a ruptured ectopic pregnancy and had to undergo emergency surgery to save my life (including a DNC). If I had been in Texas (or any other extreme abortion ban state) I would have been offered “thoughts and prayers” and sent home to die. My 2 children would have lost their mother and my husband would have become a widower. We absolutely MUST protect reproductive rights in this state. Choices involving reproduction have no place in the hands of politicians. These decisions must be between doctor and patient. Not only would this trajectory (that extreme abortion ban states have taken) mean people will die, but it will absolutely cause female reproductive care deserts in this state.

Jennifer Delisle

The fact that we have to even take a vote on supporting women’s health care—and saving a women’s life if needed by providing health care that exists is insanity. If you could provide care to help or save your sister, friend, daughter, you would do it.

Heather Fetters

There is no question this is a part of healthcare. Please keep women safe in our state.

Elizabeth Disney

I am a women’s health physician in rural NH, and abortion access is critical for women and families.

Joanna Andros

The decision to terminate a pregnancy is never an easy one. However, I did make that choice when I became pregnant at age 41. I had just learned that my 3 year old child had been born with insufficient kidneys, and would require a kidney transplant as he grew. I knew that he would need more medical care and I was concerned about having another child at my age. Fortunately, at the time, it was not a crime to terminate a pregnancy. My doctor listened to my concerns, and agreed to end the pregnancy by D and C. I did not have to travel a long distance for the procedure. There was no picket line, no shame or public intrusion into the decision. It was not an easy decision, but it was the best decision for my family and me at the time. I would like all women to be supported in making such a decision when needed.

Sandy Swinburne

In this state of "Live Free or Die" , women must be able to make decisions that shape our lives and families. For these decisions, we know best. It is arrogant and intrusive for others to make such personal decisions for us.

Sarah Bay, aprn

Women deserve health care that meets their needs. Being in charge of their pregnancy is a health care right.

Kristyn Anderson

Abortion is healthcare and should be available to all that need it. Please remember we must separate church from state. We can be practicing Christian’s and opt not to have an abortion while also respecting and loving those that choose one. Both things can be true.

Meg Cowan

Of course abortion is healthcare and NH is right to stand up and say so loudly to Trump's rising coup. I am strongly in favor of this bill!

Edward Goodwin

Abortion is always tragic, however, it is often necessary. If we truly believe and live free or die, then we ought to support the right for a woman to make that decision on our own. Ultimately that decision is never easy, and the most qualified individual to make such decisions would be the woman herself. I support this bill to protect the rights of my wife, my nieces, and all New Hampshire women.

Lorna Carlisle

Abortion is part of healthcare. If a woman has a complication during pregnancy, a state legislature or political operative should not have the decision of what is to be done. It is between a doctor and a woman and her family. Stay out of our healthcare decisions and stay out of our bedrooms.

Gordon Springate

This is not about health care, this is about a lifestyle choice. I have no issue with anyone making their own lifestyle choices as long as this does not result in any government (tax) funding these lifestyle choices). Not sure why so many people in support of this sound so angry. I oppose this CR because the words "lifestyle choice" are missing, and the CR must include the words "nothing in this CR provides a means for the government, at any level, to support this lifestyle choice with financial resources."

Tracy Pierce

Simply put, abortion is necessary health care. Without it women will needlessly die.

eileen mccue

abortion is an important part of healthcare for women. women chose abortion only when necessary and it needs to be available to all women when needed.

Eric Pauer

I support the non-germane amendment 2025-0357h making the bill "An Act repealing certain committees and commissions."

Jane Pellegrini

Abortion should always be legal and a woman’s right to choose! I absolutely support this bill as abortion IS a critical component of comprehensive reproductive health care!

Brenna Stapp

As an OBGYN physician in NH for 13 years, I support the provision of. complete, accurate and timely counseling for my patients in all aspects of their health. Abortion is a safe and essential portion of the counseling provided and allows a woman autonomy over her body and health decisions.

Suzanne McBournie

Having access to reproductive healthcare saved my life.

Kacie Petrin Ellis

I am writing to express my strong support for the recognition of abortion as healthcare and to urge you to take a stance that supports a woman's right to choose and access safe, legal abortion services.

Abortion is fundamentally a healthcare issue. Like any other medical procedure, it is essential to a woman's physical, emotional, and mental well-being. A decision regarding pregnancy is deeply personal, and women must have the autonomy to make choices about their own bodies with the guidance of healthcare professionals, free from government interference.

To deny women access to abortion care is to deny them control over their reproductive health, which is an essential component of overall healthcare. The ability to make decisions about one's reproductive life is critical to a person's broader health and economic stability. Reproductive healthcare, including abortion, should be recognized as a fundamental right that ensures all individuals can make informed decisions about their futures.

Furthermore, the denial of abortion services disproportionately impacts low-income communities, particularly women of color, who often have less access to healthcare and face greater barriers to reproductive choice. Making abortion less accessible not only undermines equality but also harms public health, as restrictions on abortion lead to unsafe, illegal procedures that endanger lives.

I urge you to support policies and legislation that protect access to safe, legal abortion services. This is not just a matter of personal belief; it is a matter of public health, individual rights, and gender equality.

Thank you for your time and consideration. I trust that you will make decisions that prioritize the health and well-being of all your constituents, and I look forward to seeing your continued leadership on this critical issue.

Sincerely,

Kacie Petrin Ellis

Mary Budro

I oppose this bill!

Jennell Colon

I support

Martha Hennessey

Abortion is a critical component of comprehensive reproductive healthcare. Period.

Delaney Procaccini

Abortive care IS healthcare. It is between a patient and healthcare provider what is necessary procedure and care. Government should protect reproductive health rights.

Kali Sullivan

A person's ability to terminate a pregnancy is a necessary component of comprehensive reproductive health care and should be protected by law.

Martha A Hunt

I feel it is important to recognize that abortion is a critical element of reproductive health care. It recognizes the value placed on the freedom to make health care decisions without governmental interference. I want to. see legislators voting yes on a resolution that supports my integrity as a woman.

Lisabeth Maloney

Abortion is healthcare. Healthcare is a human right.

Wendy Muello

Comprehensive reproductive health care for all includes the option for abortion among other actions. As a primary care physician in NH for over 30 years I know that this is crucial to allow doctors & patients to decide what is best for that patient's health and well-being without outside interference.

Moira Casey

Abortion is healthcare.

Mary Lou Paquette

We recognize that abortion is a critical component of comprehensive reproductive health care.

Hannah Smith

This is a critical right and medical procedure.

Holly Welcome

It is a human right to choose, my body my choice. Not allowing access to care could be detrimental to the person seeking the care. It may open a door to seek abortions either by their doing or by someone else in a non-sterile environment. This could lead to permeant injury or death.

Jeanie Holt

When abortion is legal a woman's right to privacy and individual freedom in a safe environment is protected.

Anna OHara

As a lifelong resident of New Hampshire and a woman who deeply values personal freedom and access to essential health care, I am writing to express my strong support for House Concurrent Resolution 7. Recognizing abortion as a fundamental component of reproductive health care is vital to ensuring the autonomy, dignity, and well-being of individuals across our state.

HCR7 reinforces New Hampshire's long-standing commitment to reproductive rights. The ability to make personal medical decisions without government interference is essential, and this resolution affirms that individuals have the right to terminate a pregnancy prior to 24 weeks gestation without unnecessary barriers. It also honors the bipartisan efforts that repealed outdated abortion restrictions in 1997, ensuring that reproductive health care remains accessible and safe.

Restricting abortion access disproportionately impacts women, especially those from marginalized communities, rural areas, and those facing economic hardships. Protecting the right to choose means safeguarding gender equality, economic security, and overall public health.

Karen Blanchette

Please protect women’s right to choose. I have never had to make a hard decision about an unwanted pregnancy, or a pregnancy gone wrong. Most people haven’t either. We can’t imagine how difficult those decisions are. We seem to be in a place where people want to call it pro-life to legislate the choices women can make about their bodies , but don’t seem to feel it’s pro-life to provide adequate food, housing and health care for children and their parents. Disgraceful.

We have already seen across this country the devastating results of women being denied access to reproductive medical care. One death is too many for something preventable. We need to continue to protect the health and rights of women.

Marie Straiton

Abortion is health care.

Natalie Belleau

This will help all women and families in NH. I strongly support this resolution.

Kristen Goodrich

“78% of Granite Staters believe there should be a right to get an abortion in every state in the United States”, based on a poll from 2024 (see link to source below).

Please support this bill and show the overwhelming majority of granite staters that you’re listening to your constituents.

Abortions, aka dilation and curettage (D&C’s), are required to help remove fetal tissue from half of the women who have miscarriages (aka spontaneous abortion). If abortions are outlawed per legislation proposed by radicals in our state and the federal government, all of these terms melt together and become very vague, and then we enter territory of prosecuting a woman for having a miscarriage or having fetal tissue removed following a miscarriage. This is medical care.

We have the least religiosity of any state in the entire country, which is the main drive behind opposition to abortion.

Polling Source: https://www.uml.edu/docs/2024-October-NH-Topline_tcm18-391824.pdf

Angela Barson

We know enough at this time about right to bodily autonomy, historical mistakes (tragedies), and irrefutable science that this needs to be law. Opposing it would be an insult to women and doctors everywhere.

Susan Richman

Abortion denial make women UNequal under the law. There are no bills denying men access to medical care their physicians recommend.

Shaelagh Thurston

Abortion is a critical part of reproductive health care. (period, full stop)

Deborah Kaufman

I agree that abortion is a critical component of health care, and the choice to have an abortion or not should be the woman's choice.

Ann Kanamine

I support this Bill.

Sandra Beaulieu

Abortion is a critical piece to Women’s reproductive care

DANIEL BEAULIEU

Healthcare is for everyone, do the right thing don’t fuck it up.

Sue Ducharme

No New Hampshire woman should die because a simple procedure like abortion is illegal, like they are in too many states in the US at present. Not all pregnancies result in birth. Obstetrics is a complex field and politicians have no medical training. Keep politicians out of medical decisions. Thank you for voting accordingly.

Linda Allen

Access to the choice of whether or not to terminate a pregnancy is part of comprehensive reproductive health care for all women. NH does not have protection for this choice in its laws, and it’s critical that we do. You may not agree, listen or even care, but I do vote in every election.

Donna Cusick

NH needs to have abortion at 24 weeks in our constitution. It is important for women and their doctors to be making these decisions about their pregnancy without having to consult with their local politician.

Aimee Valeras

Abortion is health care. Without safe access to abortion, girls and women will die. It needs to be protected by state law.

Barbara Salvatore

I support this essential addition to protect all women and their families.

Pamela McKittrick

My body. My choice. No one else’s choice! Period.

Donald Munson

Please pass this essential addition to protect all women and their families.

Michelle Moge

Abortion is health care, we need to stop the bans and let people make their own decisions.

Brandy Hill

New Hampshire needs to take decisive action to affirm that abortion is a critical part of reproductive health care and a human right for all Granite Staters. Passage of this HCR confirms that an individual's right to terminate their own pregnancy, prior to 24 weeks gestation, shall not be denied or infringed upon in this state. Gov. Ayotte promised to veto any legislation that will tighten the access to abortion and HCR7 affirms this in keeping with New Hampshire’s commitment to limited government as the New Hampshire Legislature should let the people decide their own future.

Lisa Willis

As a constituent of the ‘Live Free or Die’ state of NH, I strongly support not placing any additional restrictions on a women’s right to health care including abortion. Women should not be afraid to receive the necessary medical services when pregnant.

Robert Bilek

Abortion access should not be further restricted in the State of New Hampshire, especially if those in power don’t have the courage to formally protect a woman’s right to make her own healthcare decisions.

Danielle Haggerty

I wish to express my strong support for HCR 7, which recognizes abortion as a critical component of comprehensive reproductive health care. This resolution affirms the fundamental right of individuals to make their own medical decisions, stating clearly:

"That an individual's right to terminate their own pregnancy, prior to 24 weeks gestation, shall not be denied or infringed upon in this state."

Reproductive freedom is essential to personal autonomy, health, and equality. Every individual should have the right to make private medical decisions without government interference. Abortion care constitutes health care, and ensuring access safeguards the well-being, dignity, and futures of those who require it.

Diana Gaudet

Abortion is healthcare.

lynn Thibodeau

There are several reasons why an abortion might be necessary and those in need should have a choice.

Abby Galloway

I strongly support this

Megan Frost

Access to abortion is critical to keep the women, people, and the families of the state healthy. Without it we risk unnecessary health complications, and death. The impacts affect not only our physical health but also our mental health. Lack of abortion care impacts not just women, but the men and children of those women. Miscarriages are a biological function that women cannot control. Ectopic pregnancy is a biological function we cannot control. If women have to risk death every time we have sex, birth rates will decline. No one should have to risk death or dismemberment every time they wish to have sex or start a family. If my daughter's lives are at risk in NH, I will encourage them to live and work elsewhere.

Susan Powers

Abortion is a critical component of comprehensive reproductive health care, and access to abortion allows people to make decisions about their families, their lives, and their futures.
President Trump has stated that the regulation of abortion should be left to the states. New Hampshire is the only state in New England without any explicit protections for abortion access in our state law or Constitution. New Hampshire needs to take decisive action to affirm that abortion is a critical part of reproductive health care and a human right for all Granite Staters. Passage of this HCR confirms that an individual's right to terminate their own pregnancy, prior to 24 weeks gestation, shall not be denied or infringed upon in this state.That includes being able to get the care we need without worrying about threats to our health, freedom, or well-being. HCR7 affirms the position that New Hampshire will not further restrict abortion - what many current lawmakers promised on the campaign trail. HCR7 puts their words into action. Republican Governor Kelly Ayotte promised to veto any legislation seeking to tighten the state’s abortion limits, which were put in place in 2021. “If you send me legislation that further restricts access to abortion beyond our current law, I will veto it,” she said during her inaugural address in January. Additionally, House and Senate Republican leaders also promised not to pass further abortion restrictions on the campaign trail.

Dianne Biischoff

Access to abortion is healthcare for WOMEN

Mary Brunette

Abortion is a critical component of comprehensive health care. Physicians and people need to be able to choose abortion when needed for a person's health. Government should get out of telling people and their health care providers how to make health care decisions.

Kathleen Thomas

It is obvious - no government is more qualified to make decisions about reproductive health care than a doctor and their patient. This resolution recognizes that we must trust doctors and patients—not politicians—to make informed health care decisions. Thank you for helping us protect abortion access in New Hampshire.

Sylvia Olson

Restricting abortion access by law has a chilling effect on all OBGYN practitioners and emergency care providers. This has a negative effect on all women who are now pregnant, planning on becoming pregnant, or visiting NH while pregnant. Should a woman begin to miscarry and hemorrhage at any time during her pregnancy, if she is carrying a dead fetus, she needs medical treatment, and that treatment is coded as an abortion. There can't be any legal impediments to such a decision. If a woman is carrying a severely deformed fetus--one that has no brain, for example--she should be able to choose abortion. A baby that won't live more than a few minutes or days outside her body is not a whole person. We worry about waste in government spending--what will a woman do with a severely disabled child? There will be no way she will be able to care for such a baby with all the federal and state cuts to Medicaid and social services. And when a woman decides to terminate an otherwise healthy pregnancy, no doubt it is due to lack of finances, family support, housing, health care, child care. If our government can't or won't help a woman care for her baby, the government should not restrict her right to an abortion. This is why I support HCR7.

Lindsey Kazanovicz

Abortion is a critical healthcare decision made between a woman and her doctor, NOT a woman and her body. As the live free or die state we hold true to the ideals of government staying out of our personal decisions. Every woman in NH deserve the right to make her own decisions about her reproductive healthcare. NH is the only state in New England without explicit written abortion protections. NH women deserve better.

MICHAEL RAMSEY

I am submitting this testimony in strong support of House Concurrent Resolution 7. This resolution is an important statement affirming that abortion is an essential part of reproductive healthcare and that individuals should have the right to make their own medical decisions without government interference.

New Hampshire has a proud tradition of protecting personal freedoms, and HCR 7 aligns with those values by ensuring that reproductive choices remain in the hands of individuals, not politicians. The decision to seek an abortion is deeply personal and often complex, involving factors that only the person experiencing pregnancy can fully understand.

Restricting abortion does not reduce the need for it—it only creates unnecessary barriers that disproportionately harm those with limited resources, rural residents, and marginalized communities. Ensuring access to safe, legal abortion is critical for public health and for upholding the dignity and autonomy of all Granite Staters.

By passing HCR 7, New Hampshire can reaffirm its commitment to protecting the rights and freedoms of its residents. I urge the legislature to support this resolution and send a clear message that reproductive healthcare decisions belong to individuals and their doctors, not the government.

Thank you for your time and consideration.

Brittany Borgal

Abortion is and always will be health care. NH has an opportunity to resolve abortion as basic health care and I strongly support this bill.

Beverly Pietlicki

New Hampshire has provided a protection for women to obtain an abortion before 15 weeks for many years and during that time there has never been a case of misusing that protection to obtain an abortion after the date of viability with the exception of a demised fetus. One that dies in the womb at any given time during pregnancy that is beyond the control of the mother. I myself lost a baby at 16 weeks due to a blood clot that developed in my placenta. Afterward I need healthcare in order to discharge the fetus from my body. If I did not have that healthcare I would have developed sepsis or an infection and it could have threatened my life, the mother of a two year old son- later due to proper healthcare precautions I was able to carry a third pregnancy to term successfully. If I had not had the proper care during my second pregnancy with the demised fetus, I may not have been able to have my third pregnancy reach full term. Proper healthcare is needed in order for women to regulate their own bodies and make decisions on what is the best course of action for themselves and their families. That protection is under attack and should be guaranteed to us. This state, like many other states across the country is experiencing a health care crisis because doctors don't even know what to do to take care of their patients anymore. That is inexcusable. Having guidelines and laws in place help to better guide everyone in knowing what their options are and how they should proceed with their healthcare. Anything else treats women like they are less than human. Like they don't matter, like what they do as mothers, as wives, as community members, teachers, nurses, none of that will they feel confident about doing if the right to their own healthcare is not respected. It is a tenet of our humanity to see that women get the best healthcare possible so that they can be good mothers and contributing members of society. Do the only moral choice and pass this legislation.

Wendy & Wetherbee

All women need access to reproductive healthcare without interference from politicians who think they know better than a woman and her healthcare provider. SUPPORT THIS BILL. Abortion is healthcare and needs to be safe and legal. In the "live free or die" state of New Hampshire, staying out of people's private lives - especially medical private lives should be a no brainer.

Sally Hovis

It is critical to recognize abortion as a critical component of New Hampshire residents' reproductive healthcare. The women in our state need to be able to get the care they need without continuous threats to their health or well-being. Passage of this resolution would reinforce governor Ayotte's promise to veto legislation seeking to reduce New Hampshire women's abortion access within the first 24 weeks of pregnancy. Finally, allowing a representative body to make personal health decisions seems highly counter to a state that prides itself on "living free."

Amy Harl

Our state's motto is "live free or die" and this proposed legislation aligns with our philosophy. The only person who should have any say or right over what I do with my body is me. PERIOD. I do not have rights or say over people's guns, religions, etc and there is no way the government should make, limit, control or influence healthcare decisions for me. Kelly Ayotte needs to honor her very explicit campaign promise and veto any legislation that further restricts abortion in NH.

Kathleen H Totten

As a 71 year-old woman voter, we CANNOT go back to the days when we did not have control over our own bodies and other aspects of our lives! I will be watching to see if you vote to support to protect health care rights for women!

marilyn brock

Families should be allowed to make their own choices. Please support the House Concurrent Resolution HCR7.

melanie Levesque

Abortion care is critical healthcare for women. This is not the 1800's or 1900's.
We know we can save women's lives in so many instances.
I support this important bill.

Racheal Stuart

It is important that any abortion, if necessary, be performed by a qualified health care professional, not some quack. So it should be included as an essential component of reproductive health care service.

Riddhi Gangolli

Dear Representatives,

Reproductive care is a key factor in supporting reproductive freedom for women in our state. Families and women need to have safe access to centers, and practitioners need to be confident that providing these life saving services will not jeopardize their licenses.

Safe access to reproductive care will enable many young women to be confident in having children if they so wish and ensure their safety regardless of outcomes. Pro choice doesn't mean not having children, it means supporting women's choice to have children safely.

Access to reproductive care will in effect :
1. save the life of both mother and child
2. Ensure non viable pregnancies are not forced upon women. These usually cause extreme physical and emotional distress to the mother.
3. Ectopic pregnancies are treated effectively to save the mother and save her fertility for the future.
4. Reduced burden on the state for non viable pregnancies and maternal mortality.
5. Ensure older women can have D&C procedures that often are required as safety mechanisms for post menopausal bleeding.

Considering the superb belief we have for freedom in our state, i urge you to support this bill and ensure reproductive rights for women all across the granite state.

Thank you
Riddhi Gangolli

Audrey Knapp

HCR7 is crucial to maintain the rights of women for bodily autonomy.

Micah Thompson

Abortion is healthcare and is NOT a whimsical decision a woman makes 5 months into her pregnancy. It is HER right to protect her life and fertility. It is HER right to choose what to do with information if her fetus' life is not viable outside of the woman. It is HER right to have her deceased fetus removed in after a miscarriage, which is technically an abortion. The doctor- patient relationship is sacred. Bringing life into this world is sacred. If you do not possess the organs or medical degree to be a part of this sacred miracle, your uneducated, male opinion does not matter. At almost 40 years old, I fear what few options my 3 year old daughter will have as a young woman. Protect HER rights. Protect the young women and future generations of Granite staters. This is one of many bills that will determine whether or not my daughter will continue to be raised in the state of her birth.

Kathy Thatcher

A solid, medically based reproductive health care position is essential to the general health of our citizens. There are instances where an abortion is necessary but most can be prevented when quality health care is provided.

Monica Marshall

I support this Bill. Abortion rights are an important part of women’s right to personal health care.

Jenna Rich

We want bodily autonomy and access to (at times, LIFE-SAVING HEALTH CARE) abortions to all those who seek one. Grant women the right to make decisions about their own bodies with the help and guidance of their doctors. Let them do what is right for themselves and their families.

If every single baby was born, there wouldn’t be enough space, resources, housing, teachers, money, or food to allow them to thrive anyway!! To think they could is lunacy.

Mitchell Granoff

I believe in New Hampshire we celebrate freedom and autonomy as core values. Many people choose not to have abortions, but many do. I support any legislation which guarantees people of New Hampshire the basic right to make this difficult decision in private and to protect those who offer this practice in a safe way in NH from persecution in this or any other state. I respectfully ask for protection for all New Hampshirites to practice autonomy in seeking abortion or providing abortion care.

Julie Wolf

Standing up for reproductive freedom in New Hampshire!

Diane Monico

Abortion or the deliberate attempt to end any life is NOT health care. It is murder. Please think about what you are doing. Life is precious and worth fighting for at any stage of life from conception to natural death. Have we become a group of people who value death more than life? Search your hearts but most of all your conscience. You are all our representatives who voted you into office live up to the values of the people you represent not your own self interests. Our state motto says it all: Live Free or Die.!

Penny Eggleston

Support women's rights!!!

SHAYNA FEELY

This is a medical necessity that should be offered as a human right.

Tara Higgins

It is an individuals right to terminate their own pregnancy and this right should not be denied or infringed upon by the government

Suzanne Denu

I am in full support of this bill recognizing abortion as a gynecological treatment and/or healthcare option for all women. I believe this is a medical decision that should be weighed only by the patient, family, and medical professionals involved in a woman’s care.

Helen Brewster

Do the right thing: support HCR7

Erika Eivers

I am an OBGYN resident physician and I strongly support this bill. Access to abortion care is a safe and necessary part of reproductive healthcare. This is a safe procedure when done under the guidance of a healthcare professional. We know from our own country's history that putting legal limitations on abortions does not decrease the number of abortions that occur. Instead these same abortions are obtained, but in unsafe settings without the oversight by medical professionals.

Meghan McGinley Crowe

After my 2nd child, I got an IUD. For over a decade, I've known that if I were to get pregnant, I would have an etopic pregnancy which if not aborted, would kill me. Removing a cluster of cells to save a life is the definition of health care.

E Ann Poole

Abortion is a critical part of reproductive health care. When there are no public health threats, the legislature has no business making decisions regarding an individual's health care choices; consequently, it should let people decide for themselves what's in their best interests. I urge you to support HCR7.

Anne Marino

Testimony in Support of HCR 7

Dear Members of the House Health, Human Services, and Elderly Affairs Committee,

I am writing in strong support of HCR 7, a resolution that recognizes abortion as a critical component of comprehensive reproductive health care and affirms an individual's right to make personal medical decisions without government interference.

Access to safe, legal abortion is essential to protecting personal freedom, bodily autonomy, and public health. Every individual should have the right to make decisions about their own pregnancy in consultation with medical professionals, free from political barriers. HCR 7 reinforces this fundamental right by ensuring that abortion care remains accessible in New Hampshire prior to 24 weeks of gestation.

This resolution is not only about protecting reproductive rights—it is also about safeguarding the health and well-being of individuals across our state. Restrictions on abortion care disproportionately harm those who already face barriers to health care, including low-income individuals, rural residents, and people of color. By supporting HCR 7, New Hampshire affirms its commitment to evidence-based health policy and the principle that personal medical decisions should be made by patients and their doctors, not politicians.

I urge you to support HCR 7 and uphold the rights of individuals to make private, informed decisions about their reproductive health.

Nicole Little

I support this bill.

Lauren Treitman

ABORTION IS HEALTHCARE. Though it is controversial for some reason, abortion is a decision to be made between a woman, her partner (if they're in the picture) and the doctor. There have been so many instances where the expectant mother knows that she is neither in a space mentally or financially to raise a child, or that it may harm her health or well being. There are times where a woman cannot come off of medications and it would ultimately cause her to miscarry. Understand this: by banning abortion, you are only forcing women over state lines into our neighboring states or forcing women into risky, likely unsterile abortions, and they end up costing the medical system more than they would have if they were just permitted an abortion in the first place.

nancy burger

make abortion a protected right!!

Dina Berger

The ability ton access an abortion is a critical component of complete reproductive health care.

Michelle Manseau

I am a constituent. Please support access to what is critical health care for many women. New Hampshire has a long tradition of limited government. Our elected officials should keep their word that they would not further restrict the right to health care and should support this sensible bill. Thank you

Susan Fanburg

Abortion is a critical component of comprehensive reproductive health care, and access to abortion allows people to make decisions about their families, their lives, and their futures.

Robert Mayer

How can you think that abortion isn't critical healthcare? By the sounds of it if you oppose this bill you'd want your mother and sister and wife to not be able to get the preventative care that they need... oh but wait most of you have "government" secrecy... You can get an abortion if so needed because you're the government. We the American people deserve to have our medical accessible by anyone regardless of reason...Is what someone does with their life that important to you that you have to deny any sort of medical treatment for anyone other than the greedy government? What's good for the goose is good for the gander. LEAVE OUR HEALTHCARE RIGHTS ALONE!!!!

Catherine Lanigan

New Hampshire is the only state in New England where abortion is not a protected right. While abortion is not criminalized until after 24 weeks gestation in the Granite State, it also is not protected in state law – and I want that to change! HCR7 would do that. I firmly believe that women have the right to make their own healthcare choices, and abortion is a healthcare decision.

If we don't protect a woman's right to choose, there will be many unintended consequences. Here's one example.

Imagine this: your wife/daughter/sister/partner/friend is pregnant, and at 10 weeks she experiences a miscarriage. It's a heartbreaking experience, which actually happens in 1 out of 3 pregnancies. I'll repeat this: 1 out of 3 pregnancies ends in miscarriage. Often, in this situation, the need for a D&C arises to remove tissue from inside the uterus in order to ensure that the woman can recover from the miscarriage and go on to have a health pregnancy in the future. Now, imagine that your wife/daughter/sister/partner/friend is unable to get this procedure performed because it is the same procedure that would be done if she were having an abortion, and doctors are too worried about legal ramifications to provide this care to her. A woman could die of complications caused by NOT being able to have this procedure done in a timely manner. No woman should ever have to worry about the legality of getting the healthcare that they need, and no doctor should ever have to worry about being prosecuted for providing that care.

For me, this is personal. In 1990 I suffered a miscarriage at 10 weeks - it was the WORST EXPERIENCE OF MY LIFE. At that time, my doctor said that I might need a D&C procedure. I was lucky, because at that time I would have been able to have the procedure done - no questions asked - because abortion was legal. I worry that other women, already grieving the loss of a pregnancy and in rough shape medically, would be subject to the cruelty of not being able to get care that is needed in order to protect their health and ability to have children in the future. No woman should have to explain the healthcare choices that she and her doctor make regarding her health. Imagine your wife/daughter/sister/partner/friend needing this care, and not able to receive this care in a timely manner.

This legislation is important to women, and if NH does not pass this bill, we will be added to the list of states in the USA that are inhospitable for young women of child bearing age to live.

Ashley Guion

Thank you for this. This is a spark of hope for women in these unknown times

Kathy Grondine

Please vote for HCR7 which affirms the position that New Hampshire will not further restrict abortion - what many current lawmakers promised on the campaign trail. HCR7 puts their words into action. Republican Governor Kelly Ayotte promised to veto any legislation seeking to tighten the state’s abortion limits, which were put in place in 2021.

Stephanie Greenwood

Many elected NH lawmakers, including Governor Ayotte, ran their campaigns on the promise to not further restrict abortion access in NH. Signing this bill into law should be a no-brainer given the political campaigns of so many of you.

Jessica Deshaies

Governor Ayotte promised our state that she would not further restrict abortion access and so there should not be any problems passing a law to guarantee that.

Matt Bryant

I support this bill as a way to hold politicians in Concord accountable for their promises on the campaign trail, and to ensure that women's reproductive rights are protected. Thank you for your time.

Kaitlyn Gregory

NH should continue to protect a women’s right to her own body. Medical choices should be between an individual and their health care provider.

Ann Heffernon

"HCR 7 affirms the position that NH will not further restrict abortion - what many current lawmakers promised on the campaign trail.

Kathleen Lord

No lawmakers should be imposing their personal opinions on choices families make about their own bodies. This will help ensure that all healthcare decisions are made by patients and their doctors.

Susan Chadwick

As campaigned and promised by many representatives, I passionately admonish all representatives to uphold current NH abortion limits, and NOT TO FURTHER RESTRICT ABORTION in NH.

All life Is sacred

Don't kill babies

James Hiltz

In our current political climate, when a person's right to abortion is being threatened, I feel it is important for New Hampshire to pass this resolution, recognizing abortion as part of reproductive healthcare, and that such matters should not be denied or infringed upon by the state. Abortion is a medically necessary procedure, often necessary for the health and safety of the parent, and I do not feel it is up to the government, state or federal, to deny a person medical treatment. We should ensure this resolution passes as another way of protecting people's bodily autonomy and the ability to choose for themselves, or with the advice of their healthcare provider, if an abortion is necessary, as bills and laws that try to criminalize or outright ban abortion will only result in more harm coming to the women and infants that they claim to want to protect.

Fetuses are Babies

Life begins at conception

Abortion Is Murder

Online sign in doesn't matter.

Adoption Not abortion

Oppose Oppose Oppose Oppose

Save A life

Adoption not abortion

Health care is health care, even if you're a woman.

Rosemary D'Arcy

A woman must retain the right to make decisions about her body and her health without the interference of any government agency.

Penny Bennett

Please pass this Bill and help protect abortion rights in NH.

carel chapman

I support HCR7. Affirm that NH will not further restrict abortion.

Is sacred All life

This bill is wrong.

Shannon Main

I support a woman's right to choose whether to terminate a pregnancy. For most this is a difficult decision and to be forced to give birth can lead to so many issues, including but not limited to death of the mother. Unwanted pregnancy that is forced upon someone can lead to abandonment, abuse, neglect, but it doesn't lead to happiness, for anyone involved. Women should always have the right to choose and we're currently looking at so many losses for women if this administration has their way. Don't add to the problems we are facing.

Jane Pollard

Abortion is a critical element of reproductive health care. Full stop. I have no interest in having the government having a say in what should be between a woman and her doctor.
Please recognize abortion as both a woman's right and critical element of reproductive health care.
Thank you-
Jane Pollard

Grace Mattern

Dear Committee Members; we have heard lots of stories of the past nearly 3 years about how women's lives have been saved by access to abortion when their pregnancies have become medically complicated. We've also heard of lives lost when that care has not been accessible. Pregnant women should not have to risk serious harm, or worse, as a result of untimely or unavailable abortion care. It is outrageous that this situation exists in large, and ever-increasing, parts of our country. But in addition to these types of circumstances, abortion care is always part of comprehensive sexual and reproductive healthcare because it is a fact of life that girls and women (and some trans people) often face unplanned pregnancies. Abortion must always be an available and accessible option. No one should be forced to carry an unwanted pregnancy. Pregnancy and childbirth are too risky and bringing a human being into this world far too consequential, for pregnancy ever to be forced upon an individual. Please vote to support HCR 7. Thank you.

Cynthia Watts

All women deserve to make decisions about their health care without interference from any laws or government interference.

Alisa Brisson

Vote to not restrict abortion.

Nancy Braese

Please keep abortion legal. Viable life does not begin at conception.

Mike Travers

KEEP ABORTION LEGAL AND SAFE.

Colleen Hayes

The People do not want politicians meddling with our healthcare and family planning. Leave the medical decisions to the professionals and the people they effect!

Debora Hatcher

I want to thank the sponsors of this bill. I have personal concerns about abortion in certain situations, but feel very strongly that decisions about reproduction and healthcare are personal, private decisions for individuals to make without interference from the government or fellow citizens seeking to impose their religious beliefs on other Americans. I understand that another citizen's private life is none of my business. It is a shame that so many of our citizens and elected officials do not share this view. I believe the anti-abortion laws that exist in our country are unconstitutional and an extreme overreach by the state and federal governments. These laws are government oppression. These laws are the imposition of a minority's religious beliefs on other citizens. The impact these laws have had on Americans has been devastating, People are afraid. People are dying.

Here in NH many Republicans ran for office stating their support for abortion rights. But since this legislative session began they have submitted numerous bills seeking to restrict abortion rights. They lied. I think it is important to continue to propose legislation that limits government interference in the private decisions of citizens, and to force Republicans to go on the record showing their true colors so the electorate can see the truth and vote accordingly.

Thank you again,
Debora Hatcher

Karen Bemis

Good afternoon, my name is Karen and I live and vote in Bristol. I support this bill because I believe abortion is a critical part of healthcare for women.

Magdalene Tornick

I support this bill because women's health care should not be further restricted.

Breanna Beaudoin

I fully support recognizing abortion as a critical component of comprehensive reproductive health care. In the "Live Free or Die" state, freedom should include bodily autonomy for all. No woman should ever be forced to carry an unwanted or unintended pregnancy against their will.

Stephanie Mahar

I support that abortion rights are a critical component of health care.

Kristen Rysdam

I am a constituent from Milford, NH, and I support the recognition of abortion care (elective abortions as well as care for the miscarriages termed "abortions" by the medical community) as a crucial component of healthcare. I believe that people do not make such decisions lightly, and that such decisions should be made by the people and their doctors, not by politicians.

Barbara Arnold

As a retired registered nurse with a daughter and granddaughter, I feel the passage of this bill is of the utmost importance in the realm of women's health. I have worked in many aspects of healthcare in my 40+ years of active service. With the national controversy regarding the health and well being of women, it is imperative that NH live up to their motto to live free. Only a medical professional and the patient belong in the room when discussing any health issue, but especially one that will have long-term effects on a woman's health, both physical and emotional. Please vote for the passage of this bill in order to protect the right of a woman to make decisions over her health and body. thank you, Barbara Arnold

Laura Snelling

Restricting abortion bans further will be detrimental to women’s access to appropriate and safe medical care.

all forms of healthcare for women must be allowed by law!

Elsa Pinkerton

Please help protect this essential right for the citizens of NH.

Elizabeth Nelson

As a mother I feel strongly that decisions related to pregnancy are personal between a women and her partner and her doctor. Not every pregnancy goes as hoped for or when the woman is ready. It is presumptuous for anyone else to think they know the right answers to difficult questions without knowing the circumstances involved. Voters are not looking for politicians to help them make difficult choices for them or treat women as 2nd class citizens.

Stephen Barker

There should be no infringement on an individual's rights to terminate her pregnancy under the current 24 week provision. Please work to preserve individual rights and vote yes on HCR7.

Elizabeth Saich

As a physician trained in both family medicine and in public health, I strongly support this bill. Pregnancy is a complicated state of being. There are many medically and socially necessary reasons for easy access to abortion. Most importantly, this decision is one that should exist between a woman and her doctor. Please vote to protect abortion as an essential medical service.

Karen Danchik

Too many families are struggling today to support their families. An unexpected pregnancy could be catastrophic. Abortion is health care and a human right.

Linda Muri

Abortion is a critical component of comprehensive reproductive health care. Period.

Renee Robertie

I would have died if I had been unable to have an abortion when I got pregnant with an IUD. My healthcare is nobody’s business but mine and my dr.

Carol Petrusewicz

Unfortunately, murder is never "care." Abortion is murder.. I am disappointed that legislators would promote murder in legislation. I will pray for you and anyone that doesn't understand the value and dignity of each person. Prayers ascending. Secondly, why would legislators who are supposed to defend the inalienable right-to-life promote legislation to take away life?? More prayers coming your way.

Melinda Currier

I believe abortion is a vital healthcare need for women everywhere.

Cathy Eaton

Please honor women's reproductive freedom. Make abortion the choice of the individual.

Jane Blanchard

I strongly support women should have their right to make decisions about their body:

Janelle Fassi

Reproductive rights are HUMAN RIGHTS!

Tracy Schroeder

Please support this bill and in doing so support women's health

Kayleigh Greaney

Abortion is a critical and important component of reproductive care and must be protected.

Diana Kerr

Abortion care is healthcare and our new governor promised to veto any of this type of legislation. I support this bill.

Jeffrey Kerr

Abortion care is healthcare! I support this bill.

Devon Kerr

Abortion care is healthcare! I support this bill as a young female.

Forest Kerr

Abortion care is healthcare! I support this bill.

David Crowley

I am a full-time resident of NH and work full-time at a major academic medical center in NH. I ask you to PASS THIS BILL and enshrine this right for women of reproductive age. In a word, the reason is TIME. As a fetal cardiologist, I meet most of my pregnant patients between 21-22 weeks of gestation, a few weeks after they had their 18-20 week "morphology scan" or ultrasound of the fetus from head to toe. The earliest a birth defect can be reliably found is at that 18-20 week morphology scan. If an anomaly is found, they are referred to a subspecialist like myself, depending on the defect (heart defect to cardiologist, neurologic defect to a neurologist and neurosurgeon, GI defect to a surgeon, lung defect to a pulmonologist, etc). There is an inevitable delay between the visit with the OB at 18-20 weeks and when they see the subspecialist. Sometimes there are multiple defects found, and the women need to see several subspecialists. All of this takes TIME -- TIME for first discovery, TIME for confirmation, TIME for counseling. Many of these birth defects are treatable, but the TIME, stress, heartache, and expense of that treatment can be hard to quantify. Some kids with birth defects may have shorter life spans, lower quality of life, or both. In my field of pediatric cardiology, this may look like multiple surgeries, months in the hospital, daily medications from birth, arrhythmias, heart failure, need for heart transplant, and sudden cardiac death. There are clearly documented personal, emotional, social, financial, economic, and spiritual impacts of raising a child with medical conditions. In my experience, no two situations are the same, and women come to very different conclusions based on similar circumstances. Women need TIME to seek counsel from their doctors, family and confidantes, and spiritual leaders, and then they need TIME to make the best decision for their family. Any other bill that would take away the TIME necessary for this to happen from a woman is taking away her inalienable rights to life, liberty, and the pursuit of happiness. She deserves to become informed, which takes TIME. Pass this bill to enshrine a woman's right to adequate TIME to make the hardest decision she will ever face.

Sheila Quick

I support HCR7, as abortion is a critical component of comprehensive reproductive health care for women. Women should have access to safe health care and not have to worry about the threat of their government interfering with personal medical decisions.

Karen Smith

Women do not want or need any further restrictions on abortion. Please support this bill to prevent that from happening.

Ally scholtz

I am a mid 20s granite stater and I hope to start a family soon. To feel safe about going through with a pregnancy to start a family I am going to need abortion to stay safe and legal.
To restrict abortion for any reason at any point does not feel like freedom (or safety) to me.
Please affirm the position that NH will not keep trying to further restrict abortion.

Jane Lannon

I believe that abortion is an important part of reproductive healthcare and I support all efforts to protect a women's right to determine what happens with her body, along with her healthcare providers.

Kayla Langenheim

I support this bill!

Emily Perry

I needed an abortion to save my life.

Joanna Field

As a New Hampshire resident, I support HCR7 as it is written to ensure that the legislature will not further restrict abortion in New Hampshire. Abortion access is a critical resource for women and their healthcare in the state.

Caitlin Loving

Abortion is a human right and should be protected, especially in the state with the motto “Live free or die.” Making abortion harder to access makes women’s reproductive health care harder to access and endangers lives. You cannot separate women’s reproductive health from their health!

Rina Petit

It's very concerning that New Hampshire is the only state in New England without any explicit protections for abortion access in our state law or Constitution. HCR7 affirms that abortion is a critical part of reproductive health care and a human right for all Granite Staters. HCR7 confirms an individual's right to terminate her own pregnancy, prior to 24 weeks gestation shall not be denied or infringed upon in this state. Thank you.

John Petit

HCR7 confirms an individual's right to terminate her own pregnancy prior to 24 weeks gestation shall not be denied or infringed upon in this state. I strongly support HCR7 and urge committee members to vote to support HCR7. Thank you.

Brenda Cook Zutter

We need to support the reproductive rights of women in NH

Kerry Vautrot

Do not further restrict abortion in NH.

Byron Mason

I support a woman’s right to reproductive care, and this bill ensures women get the care they need.

Monica Derr

It is unconstitutional to ban any aspect of women's health care!

Penny Reynolds

For those legislators that wish to limit or eliminate access to abortion has forgotten the pressure young people are under to be sexually active before they are mature enough to make an informed decision. To restrict abortion is to continue the one-sided punishment of young women without taking into consideration that it still takes two to tango. Please keep access to abortion a part of women's reproductive health.

Judith Blachek

Kelly Ayotte and other elected officials promised to retain our existing abortion laws. This bill will codify their statements into law and is a positive way to affirm what most of the public want.

Marilyn Hoffman

Women's health care is essential. We don't want women dying in NH. My married daughter who wanted a baby had a terrible experience in Texas. She had a tragic miscarriage, and when it required a D&C, the doctor was required to tell her it was considered an abortion, although she had already sadly miscarried. It was a frightening situation. She eventually got a D&C, or she could have died from an infection. We don't want this here in NH. Thank you for listening and please consider passing this bill.

Rachel Eades

It's important that NH officially recognizes an individual's right to terminate their own pregnancy, prior to 24 weeks gestation. Abortion is health care!

Bridget Labrie

Please protect women’s rights and leave the current rules in place. We need people to hold to their campaign promises and not get pushed around. We don’t want more restrictions we want the choice to do what is best for us if ever in a situation that warrants such a difficult decision to be made.

Sarah Jones

Abortion is healthcare

Kennneth Cohen

As a physician, witnessing the sometimes-challenging crises facing patients, I appreciate the difficult and emotionally taxing choice to end a pregnancy. Women do not make this choice lightly or without wrestling through anguishing emotional contemplation.

As such, abortions should remain a critical component of comprehensive reproductive healthcare. Liberty requires respect for individual choices without imposition of the state's will.

Linda DiFrancesco

Abortion access is routine health care.

Deanna Eastman

Abortion is basic health care. Protect our freedom to make our own health care decisions with the assistance of trained professionals, not politicians.

Katelyn DiTullio

Abortion is a basic human right and continuing to put restrictions on it limits women in their ability to make medical decisions that are personal and relevant to their lived experiences. Women should not have to continue to fight for the basic right of healthcare access. Bans off our bodies NOW

Bill Kingston

The public clearly supports the unrestricted right to abortion. Every attempt to add restrictions have always failed. People see abortion as an unfortunate but sometimes necessary part of a woman's health care.
I urge you to vote for this bill that is long overdue. It is in the best interests of the people of New Hampshire and the public demands it.

Susan Denenberg

There are no restrictions put on men’s health care and so there should be no restrictions put on women’s health care. Abortion is health care that should be available to women in NH. Thank you.

Mary Jenkins

As you know, HCR7 acknowledges abortion as an important component of reproductive health and asserts a person's right to terminate a pregnancy. I hope that you will stand with the majority of NH residents in supporting this resolution and affirming a woman's right to make her own healthcare decisions as a private matter, Thank you.

Genevieve Deschenes

I support NH not further restricting abortion. It is healthcare and should not be restricted.

Gabriele Lieberg

Women's reproductive health care is so important and can come down to a life-threatening decision. Abortion at times has to be the right decision between a woman, her family and her medical care providers. NH needs to to affirm this right as the president has indicated, this is left up to the states. Also our governor has indicated she is in support of this reproductive care when needed. The legislature has no business restricting medical care for women.

Joanne Wolfe

Abortion is a critical component of comprehensive reproductive health care for women, and I never want up see my daughters or granddaughter have their access to such critical care limited or reduced.

Dean Wolfe

Abortion is a critical component of comprehensive reproductive health care for women, and I fully support that access to this care to be protected!

Alexandra Carter

I am writing to voice my strong support for this resolution, which affirms the fundamental right to abortion as a critical component of reproductive health care. This resolution is not just about policy—it is about personal freedom, medical autonomy, and human dignity.

New Hampshire has a long history of protecting individual liberties, and this resolution continues that legacy by ensuring that people can make deeply personal decisions about their health and futures without government interference. The ability to access abortion before 24 weeks is a critical safeguard that allows individuals to make informed choices in consultation with their doctors, not politicians.

Restricting abortion does not eliminate the need for it—it only makes access more dangerous and inequitable. Ensuring legal, safe abortion care means protecting the health, safety, and economic security of individuals and families across New Hampshire.

This resolution sends a clear message: We trust people to make their own choices. We respect their autonomy, their families, and their futures. I urge you to support this resolution and uphold New Hampshire’s tradition of protecting individual rights.

Molly Pickard

Abortion is health care. Plain and simple. Women and their doctors should be the only ones making decisions about our bodies. I’m a young woman, I grew up in Hampton and I now live in Portsmouth. I should have the right to control my body, the decisions I make about my body, and my future. Please protect abortion access for all Granite Staters.

Ashleigh Shenton

Dear Chairman MacDonald and members of the Committee on Health, Human Services and Elderly Affairs,

I am a resident physician in my third year of Internal Medicine training at Dartmouth-Hitchcock Medical Center, and I live in Lebanon. I am testifying in support of HCR7, recognizing abortion as a critical component of comprehensive reproductive health care.

This bill is a necessary step toward ensuring that all people in New Hampshire have access to life-saving healthcare. Growing up, I was taught in Sunday school that abortion was wrong or selfish. However, in medical school I saw firsthand that the matter is far more complex. In cases of ruptured ectopic pregnancy, terminating the already non-viable pregnancy is the only method of saving the mother's life. Other times, I saw parents who wanted nothing more than to have a child, but the child's life expectancy would be incredibly short or filled with unfathomable suffering. Abortion allowed the family an opportunity - though not an easy one - to someday have the family they dreamed of. Every Granite Stater should have access to this essential element of healthcare if they so choose.

Thank you for your time and attention on this important subject.

Robert Finch

I support that no further restrictions be made on the availability of abortion in NH.
Abortion is part of healthcare.

John DiFrancesco

Abortion is health care, and decisions should be made by a pregnant person and their doctor, not politicians.

Katie Hedberg

New Hampshire is a state that values individual freedoms. Women should have the freedom to make decisions about their own health care. I am a recently retired Family Nurse Practitioner and know from first hand experience that abortion is not an easy decision. Abortions after the first trimester are most often due to a fetal abnormality that is incompatible with life or a health condition of the mother that makes continuing a pregnancy dangerous to her. Support healthcare, support women, support families.

Erika Richardson

I support this bill

David Wolf

Perhaps more than any other state, New Hampshire values individual freedom. What freedom can be more important to an individual than the freedom to control what happens to their own body? I strongly urge the legislature to pass HCR7.

Marlise Bryant

YES - “That an individual's right to terminate their own pregnancy, prior to 24 weeks gestation, shall not be denied or infringed upon in this states”

Michael Bryant

I agree “That an individual's right to terminate their own pregnancy, prior to 24 weeks gestation, shall not be denied or infringed upon in this states”

Karen Roach

I want to make sure that New Hampshire will not further restrict abortion - what many current lawmakers promised on the campaign trail. Our elected representatives need to listen to the majority of their constituents and vote accordingly to not further restrict abortion. It is a woman and her doctor and her family's choice on her health care and these decisions should be left in her hands - not a politician's.

Riddy Quinney

Abortion care is necessary for the health and wellbeing of women in our state, and should be left to individual to decide prior to 24 weeks gestation.

Lee Janko

Very concerned for women's healthcare.

Nancy Roberts

A woman should be able to control her own body.

Emma Green

Abortions are a necessary component to healthcare rights to all women! Our bodies our choice! Medical issues arise on both children's and parents sides and this is an absolutely crucial part in saving lives! There are so many necessary reasons that this should be a continued right to all!

Liza Poinier

"Abortion is a critical component of comprehensive reproductive health care, and access to abortion allows people to make decisions about their families and their lives" - Yes it is, and yes it does!

"In 1997 the legislature of the state of New Hampshire, with bipartisan support, repealed an unenforced 1955 abortion ban to ensure access to essential abortion care in this state" - Good for them!

"President Trump has stated that the regulation of abortion should be left to the states" - This being the reality, NH leaders must listen to the people and resolve to protect reproductive freedom in the state we love.

"An individual's right to terminate their own pregnancy, prior to 24 weeks gestation, shall not be denied or infringed upon in this state" - Music to my freedom-loving ears.

Please pass HCR7. Freedom of choice is the New Hampshire way. Thank you.

Theresa Caulkins

This bill actually exemplifies our alleged state motto of "live free or die" as it empowers the autonomy of NH residents. Reproductive decisions should only be between the individual and their medical provider. The only role government should play is ensuring our autonomy to pursue our own healthcare is protected. As we have seen with Roe, we must enshrine our rights into law so that they cannot be overturned on a whim by bad actors; lock it in and leave it sorted.

Julia Ryan

Decisions regarding pregnancy should be left up to the person who is pregnant, those she trusts to provide counsel, and her medical providers. Undoubtedly, access to an abortion is a key component to comprehensive healthcare and needs to be treated as such. None of us can venture to understand all of the factors that weigh in on these kinds of decisions or the complex ways they come together for each individual. Let’s end the back and forth and agree to trust the system on which we have already agreed.

Craig Riotto

From the perspective of an independent voter, I feel like it’s a waste of resources to continue challenging the question of whether abortion is a critical component of comprehensive reproductive health care - it is. Put it to a referendum if you must, but my intuition tells me that 70-80% of NH Citizens would see it as such. If cementing this language helps make the government more efficient, the 20-30% should recognize it as a partial victory and success, while the 70-80% will too recognize it as a success.

Karen Dudra

I’m writing to urge you to support HCR7. How sadly and how well I know that abortion is health care.

In 1980 when I was pregnant for the first time, I began to experience extreme abdominal pain and bleeding. My husband was not home at the time, so my mother drove me, doubled over in pain, to the hospital emergency room. When the doctor examined me, he found that I was miscarrying but failing to expel what he called the “product of conception.” He performed a D & C, a routine, but in my case, emergency health care treatment to prevent sepsis and my own possible death by infection. That procedure—an abortion—quite possibly saved my life. But today, when routine reproductive health care is politicized and when doctors fear that they may be charged with a crime, the lives of women like me are put in peril. Reproductive health care is not something that can be parsed or legislated by state representatives who will never be in the room. . I urge you to support HCR7 and affirm that for the women of New Hampshire abortion is health care.

NICHOLAS LEGERE

I voice my support for HCR7.

Samantha McGarry

Committee members, thank you for allowing me to voice my vehement support for HCR7. Thank you for recognizing that there are many factors that coincide with pregnancy, its viability, and its safety. Reproductive health care should and ought to include abortion. Women deserve protections and the capacity to choose when so many factors within pregnancy lay outside of their control. Thank you for hearing my comments and I ask that you please support HCR7.

Rachel MacNeill

The UN and the developed world agree: abortion is a basic human right. It is fundamental to women's autonomy and self determination and must be maintained.

Marie Stansfield

The New Hampshire public supports the right to healthcare for women. Abortion is healthcare.

Faith Stillman

Abortion is healthcare, this bill protects that healthcare and will save lives.

Natalie is Sennett

I have experienced this life saving medical care. With three miscarriages. We wanted children badly and eventually had two wonderful children. Sometimes the road is bumpy and not perfect for a couple. Stay out of citizens personal lives and let them seek appropriate medical care, backed by science.

Michael LeNeave

Abortion is murder. Period. Life begins at conception. The only expected outcome of a pregnancy is a human life. If you believe in science and biology, abortion is killing a life. Murder is not “health care”.

Amy Rich Crane

In New Hampshire, protecting abortion access is about protecting personal freedom, medical autonomy, and the well-being of individuals and families. Every woman deserves the ability to make private medical decisions that impact her body, her future, and her family—without government interference or legal infringement.

The right to reproductive healthcare, including safe and legal abortion, is fundamental to a thriving community. No one should be forced into medical, financial, or emotional hardship due to political agendas that strip away autonomy. If we truly value families, we must trust women, trust medical professionals, and protect the right to choose. My body, my choice—because healthcare decisions should be made by individuals and their doctors, not politicians - politicians are here to protect our rights.

Nicole Bump

While abortion has been made out to be a cut and dry, black and white issue, there are actually many shades of gray. These gray situations should be navigated by a woman and her doctor—NOT government officials who have no medical training and no idea of the specific nuance. I lost a baby at 17 weeks gestation. His name was Oliver, and he was loved and wanted, but he had triploidy, three full sets of chromosomes, which was incompatible with life. Oliver died before I received these test results back, but had he still been living, the option to have an abortion would have been a critical part of my healthcare. Abortion care is healthcare, and it should be codified into law as such.

Danielle Alley

We need to clearly protect the rights of medical freedom for women in NH. Please support this bill.

Ruth Smith

What happens within a person's body impacts their health and well-being. Choices about how to care for ones own body should not be made by strangers (elected officials) but rather by the individual in consultation with their trusted health care provider and/or other knowledgeable professionals and if they choose, loving and supportive family members. The choice of whether or not to carry a baby to term should be included in that definition of health care. This is the live free or die state. Please support this bill creating a law that allows women to make that health care choice without interference from strangers who know nothing about her circumstances. Abortion is NEVER an easy choice but it should not be made or prohibited by strangers.

Suzanne Austin

Abortion is health care!

Judy Miller

Everyone, both male and female, deserves the right to make decisions about their own body

Emily Guzzo

Abortion should be a basic human right. A woman’s rights to her own body is part of “life, liberty, and the pursuit of happiness” our forefathers spoke of so long ago.

Russell Hodgkins

I have held a child born after 20 weeks gestation. It was a child!

We should not allow small children to be killed needlessly.

Stephanie Harlow

I am a practicing OB/GYN here in the state of New Hampshire. This is a beautifully elegant bill which allows New Hampshire patients to remain safe and to be given gold-standard medical care in the face of complex medical and social situations. No pregnancy is safe; even up until the very end, pregnant individuals can face tremendous morbidity and mortality. Additionally, the spectrum of fetal diagnoses is beyond what even those in medicine can often imagine, and, in the second trimester, when many of these fetal anomalies are diagnosed, families are regularly face with complex and heart-breaking decisions. Additional, pregnancy is a dangerous time for many women who face domestic abuse because of their pregnancy status. Women who are pregnant are more likely to die from intimate partner violence when they are pregnant than when they are not. For all of these reasons, individuals should have the right to choose whether or not they are pregnant.

simply put, this is a matter between the woman and her doctor. Government does not belong in that discussion.

That said, I am OK with the 24 week prohibition, unless there is some overriding medical condition that happens putting the life of the woman at risk if pregnancy is continued or the developing fetus shows an abnormality that would make independent life after birth impossible or showing that the born child would be in such distress or with such an abnormality that would cause imminent death after birth.

The pregnant individual, must at some point, come to terms with the pregnancy and make a decision as to whether to carry to term or abort, and I feel that 24 weeks is a reasonable time frame.

Lauren Kirkpatrick

Abortion is in fact a critical component of comprehensive reproductive health care.

Diane Betz

Abortion is healthcare

Mary Chamberlin

Abortion is an essential component of women’s health care.

Jayne Wellman

Women’s reproductive healthcare is critical to the health of our state, our nation, and our economy. The families of women deserve for their wives, mothers, daughters, girlfriends to maintain free and unfettered access to all forms of healthcare, including abortion. Women have the right to confer with their medical providers about their unique health needs. The government has no place legislating women’s reproductive rights, which we have seen under attack all across this country. In states where abortion has been outlawed, maternal and fetal outcomes are worse, healthcare is worse, and more. Responsible legislators know to care best for our women, which leads to a stronger, more productive and prosperous state.

Charles Herrington

I believe it is not the government's place to make a personal decision about a woman's health.

Shannon Gilson

I know first hand from my first complicated pregnancy that ended in a very painful miscarriage which led to a life saving surgery how important this Bill is. For all the women that need this necessary health care, I fully support abortion rights. Especially for my daughter who needs to grow up in a country that will do everything to protect her and save her life if she is ever in this position.

Regina Bowker

Abortion is a critical component of comprehensive healthcare

Amanda Townsend

I support this bill in hopes that the State of N.H. and the officials I elected will support women's health care. Stop restricting the right of women to make health care decisions for themselves. These decisions should be between a women and her healthcare provider, not the state of N.H.

Robert Levine

Abortion is a fundamental right. It should be protected from political attacks. A woman should not fear being demonized or worse having here action about the care of her body being made illegal. This is a basic violation of her equal rights under the law. We should be protecting this. This resolution is critical to show women where they stand in New Hampshire.

Rosemary Conroy

I find it sad to say the least that we still need to have these intrusive discussions on what a woman is « allowed » to do with her body. Of course all options should be on the table when it comes to a person’s health! No one wants to have an abortion but it should always be a legal and safe part.of anyone’s reproductive healthcare.

Please support this bill.

Rebecca Audet

Abortion is health care. Politicians have no right to interfere with a patient and doctor relationship.

Ryan Novo

Not only do I support this bill, I support removing restrictions on abortions altogether. Period. Full stop.

The restrictions that are current law are based on hypotheticals, not facts. Not sure what the obsession with women’s bodies is, but enough already. Keep the hands of government off their bodies and mind your damn business.

This approach to voting is the best means for reducing the polarization in our state.

Karen Whittemore

I fully support this bill

Lee Ann Kane

It is time for NH to make sure that women do not die here due to lack of essential health care, which includes abortion. We have already seen what the results of restrictions and bans on abortions have wrought in other states. We cannot let that happen here. Please make sure that all NH women have access to this essential component of healthcare.

Diane Schaefer

Allowing guns at polling stations will cause intimidation, including intimidation by armed civilians, has long been a tool that some have used to prevent full participation in US democracy. I strongly support t his bill.

Devon Skerritt

In a state that claims 'live free or die' as its motto, it is crucial that New Hampshire act to solidify abortion as a critical component of comprehensive reproductive health care. Setting aside arguments about how far is appropriate in the state for limiting abortion (based on a certain number of weeks or conditions of mother's health and wellness), affirming access to abortion in New Hampshire allows people the freedom to make decisions about their families and their lives with their doctor, not with the intrusion of legislators or government. Unfairly usurping control over women's bodies and family's decisions is unjust and flies in the face of this state's purported values.

Ryan Nugent

I am a constituent of Bedford, NH, a lifelong NH resident and father to two daughters. There are too many scenarios where the health and safety of my daughters and any woman in the Granite State could hinge on their access to a safely performed abortion (fertility complications, reproductive health issues, rape, etc). This access must be preserved as stated in HCR7 in order to protect life that already exists!

William Thomas

As a parent of a daughter, and as a retired NH Social Studies teacher, and native and resident of Manchester, I strongly support HCR 7. Many people have stated that "abortion is healthcare," That may sound strange but when one examines when some pregnant women are unable to obtain a safe and supervised procedure at a licensed health clinic, they may die. Please support HCR 7! Thank you.

Katherine Pawley

This resolution affirms what the governor already said on the campaign trail; that NH will not further restrict abortion access. Please support it!

Charis Loveland

Abortion is health care and needs protection.

Laura Fry

This is a vital bill to protect reproductive rights of pregnant women to access abortion. Without this option, women's mental and physical health could be at grave risk for deterioration, As a physician treating women of all ages, this bill could not be more important. Thank you

Denise Daniel

I do not wish to see any further restrictions to abortion in New Hampshire. I will not vote for any candidate who attempts to add further restrictions.

Bennett Daviss

Please protect women, families, and physicians seeking and providing abortion as a component of comprehensive health care based on personal and medical decisions, not political ideology.

Amanda Blanchard

Many lawmakers promised in their election campaigns to stop any further abortion restrictions. They now have the opportunity to put those campaign promises into action.

The only people making decisions about pregnancies should be the ones carrying a baby, and their doctors who have studied their whole adult lives to help women make these very personal, and often tragic and life-saving decisions.

Heather Gollnick

All people should be free to choose what they do with their own bodies. There are many reasons for abortion, and very few of them are for "convenience".

Douglas Gollnick

As a man, I cannot ever experience or totally relate to the decisions women need to make on a daily basis in terms of their own bodies. They should have autonomy over their physical presence and not have government involved in personal medical decisions.

Ellen Macneil

My body, my choice!

Joann Harrison

Abortion is HEALTH CARE!!!

Roslyn Ayers

We need to recognize abortion as a critical component of comprehensive reproductive health care

Chrisinda Lynch

Female

Kathleen Bean

Contrary to what too many may believe, not all abortions are for the purpose of birth control. Ask any woman whose fetus, died in utero and had a necessary 'abortion'. I have know too many.

Ashley Denning

People in nh need to have safe access to abortions and the government should protect and expand that right.

Hannah Besser

As a community member and new nurse in the field of women's health and reproduction, I recognize the contents of this bill as essential in upholding safe and effective health care.

Regina Flynn

Abortion is healthcare. Allowing women to have determination over their bodies is a basic human right. Getting women appropriate medical care when a pregnancy puts their health (and possible future fertility) at risk is threatened by this bill.

Carla Folkert

It really is my body

Thomas Flynn

Abortion is a medical decision to be left between patient and doctor. This bill affirms that right.

Nancy Brennan

Support the right to safe abortion, please. Women and their doctors make the best choices. Our State should support a woman's right to choose. Gov Ayotte agrees with the right to abortion as do the majority of Granite Staters who signed in against an earlier bill that would restrict access.

I

Carole Flynn

Let people make their own choices with regard to their health please.

Elizabeth Ropp

Dear House HHS committee,

I support this bill because abortion is healthcare. I never felt more cared for by medical professionals than I did when I was getting an abortion. It was my choice. I do not regret it.

Sincerely,
The Honorable Elizabeth Ropp

Denis Paiste

I support HCR7, recognizing abortion as a critical component of comprehensive reproductive health care.

Tammy Gluck

As with any other medical reproductive procedure, a woman’s right to choose is a critical component of comprehensive reproductive health care. Having access to an abortion allows people to make decisions about their families, their lives, and their futures in consultation with their physician and medical professionals. I am hopeful that The NH legislative body will allow this choice in Nh to continue .

Elaine Silverman

As a physician, I believe it is in the public interest for government to regulate certain aspects of various professions, including medicine. However, it is also in the public interest to assure access to appropriate health care for all citizens, on a humanitarian level, but also with the understanding that a healthier society benefits everyone, even if indirectly.

With that underlying motivation, I urge you to recognize that abortion is a medical procedure that is at times necessary and integral to women's reproductive health. Although as a physician I would hope we could strive to find ways to need to use this procedure as infrequently as possible, if we understand that it is a necessary tool in various circumstances, we can hopefully avoid the undiscriminating restrictions that have been imposed in many states, and continue to be attempted in New Hampshire. Such restrictions only serve to interfere with physicians' rights and duty to treat all of our patients with the most appropriate care possible.

Richard Friedman

I am writing in support of HCT7 because Abortion is a component of comprehensive reproductive health care just as any other procedure and should not be treated differently. Access to abortion in New Hampshire is legal and all decisions should be left to the individuals involved.

If the Legislature believes in personal rights then the New Hampshire Legislature should let the people decide their own future.
Richard Friedman

Kathryn Ess

Women’s healthcare should not be decided by politicians. Period.

Jennifer Suitter

Yes. One million times YES. Abortion is health care. If you don't like it, don't have one. As simple as that. I support this whole heartedly.

Dotty Doherty

Women's reproductive health is crucial and is complex, each woman's pregnancy different from another's, even her own. There are instances when abortion is a necessary part of a woman's life, for her health, and her family's. NO ONE in the government should play a role in her private decisions that belong to her and are between her and her doctor.

I support this bill.

Ella Orchard-Blowen

Do nit restrict abortion

Marsha Paiste

I truly believe that abortion, or use of d and c to end a pregnancy are a vital part of women's health care. I feel that a woman who experiences an unplanned and unwanted pregnancy should be able to terminate it medically or surgically.

There are many other reasons to terminate a pregnancy such as death of the fetus. It is cruel to force continuance of this sort of pregnancy. Abortion needs to be an option when there are fetal abnormalities which are inconsistent with life, or which detract from life such a way that the woman seeks to end the pregnancy. This decision belongs to the patient and physician and needs to remain an option.

I would hate to see NH become like Texas where a woman experiencing miscarriage is denied medical intervention in a hospital because doctors fear abortion laws. No woman should die of sepsis needlessly.

Josie Fisher

I believe we should maintain the right to abortion in the state of New Hampshire. As a physician, I have seen that there are many instances in which continuing a pregnancy can lead to significant adverse health effects to the mother or the unborn fetus. I thus strongly believe women should have the right to choose for themselves and their family whether they want to carry a pregnancy to term and thus New Hampshire should continue to allow abortions up to 24 weeks.

Jennifer Witkop

I believe abortion as a critical component of reproductive healthcare

Tiffany Cedeno

Please protect abortion access. A few years back I had an abortion due to the fact I was feeling suicidal during pregnancy. I honestly do not believe I would have survived pregnancy without doing something to harm myself. Without that abortion I probably wouldn't be here today.

Howard Herbert

Restricting abortion leads to higher rates of infant mortality. It is an essential right for all women to have access to this care.

Danielle Grau

Reproductive care is healthcare and a basic human right for every woman in the state of New Hampshire. The women of NH deserve the right to quality healthcare, and the trust and confidence that they are making very personal choices without the interference of ignorant, crusty pigs (aka Republican male lawmakers who are trying hard to take away these rights). The women of NH - including your wives, daughters, mothers, grandmothers, granddaughters, friends, coworkers and future generations - all deserve to have this basic right protected by the NH state constitution from the onslaught of insane and violating body autonomy grabs by the Project 2025 MAGA cult members.

Alyssa Juilfs

As a woman who lives in this state and a parent of a daughter, I believe that abortion is part of women's health. Too many women have died RECENTLY across the country because they were forced to carry a baby to term at the expense of the mother's life, just for both to die, when one could have been saved if it was addressed sooner. This is 2025, not the 1800's. We shouldn't be dying from childbirth in this day and age.

Gina Eason

This would protect the right of New Hampshire women for HEALTH CARE - often life saving. This is a medical decision that should be made between a doctor and patient.

Kathryn Matzelle

As a nurse in New Hampshire I believe it is imperative to keep abortion as a health care option. It is a part of health care and without it, could cause issues for women, children and families in this state.

Alex Biron

Live Free or Die.

Restricting the freedom to abortion and healthcare causes deaths.

It's on the license plates, it's not hard to understand.

Hailey LeRoy

New Hampshire is the only state in New England without explicit legal protections for abortion in its state law or constitution.

78% of Americans believe there should be a right to get an abortion in every state in the US (https://www.uml.edu/docs/2024-October-NH-Topline_tcm18-391824.pdf).

With abortion protected, families won't have to worry about whether they'll have to fight for the right to abortion if something goes wrong. I know people (including myself) who have given up on having a family out of fear that the laws will change, putting the lives of pregnant women at risk. People cannot bring new life into the world, if they fear their lives are disposable.

Amanda Ziemba

It is incredibly important that we cement into law the right to abortion care.

Keely Fillo

New Hampshire is the live free state, yet a certain side of the political aisle repeatedly seeks to take away freedoms here. I will not be birthing another NHite if I do not have the access to healthcare I need to make sure I can do so without risking the life of my existing child's mother. If you do not like abortion, then don't have one!!

Alaina Bailey

If a woman does not have the right to make decisions about her own body, then she would have less rights than a corpse. The majority of New Hampshire voters agree that abortion should be available.

Rebecca Tourville

I strongly believe that we should enshrine women's rights in our state constitution and strongly support this bill. I would love to see our representatives support half our population in a meaningful way to protect our rights that are unique to the experience of living as a female. It would mean a lot to all women living in the granite state, current and future.

tina ziemba

It’s incredibly important to make the access to to abortion care part of our laws.

Benjamin Braggins

This is absolutely required in our current climate.

Jesse Mast

This bill would enshrine protection for the right for every pregnant woman to choose. Despite the vast majority of Granite Staters believing in the right to choose, we are the only New England state without that right explicitly in our state constitution. This means that every single election, our rights to determine pregnancy outcomes with our doctors are potentially at risk. This bill is incredibly important, as it keeps those decision between patients and doctors.

Stacy Gauthier

This bill will do more to protect the women of this state regardless of who is in office.

Ben Sykes

Live Free or Die: This only works when ALL are free to do as they will with their own body.

Jared Sunnerberg

Abortion should be affirmed into law. Since so many see fit to want write legislation to dictate women’s bodily rights, then we must create and support legislation that protects their bodily rights. Their bodies, their choice.

Katerina Mereau

It very obvious that NH residents overwhelmingly support abortion choice freedom. We need to establish a woman's right to access to abortion and let a woman make her own choices with her body. We can continue this back and forth with ridiculous bills constantly attacking abortion rights, but we will fight each and every one. It's time to let women have the right to their own body, something that shouldn't even be an issue we need to fight for (because we sure as hell know men don't have these problems with bodily autonomy).

Matt Leyva

As the last New England state to have the rights encoded, we are letting the women of this state down. It’s time to be better and join the rest of New England in supporting women’s rights.

Ian Stowell

I often invoke the state's motto "live free or die" when it comes to how I view local legislation. This bill would enshrine the right of Granite Staters to make decisions about their own bodies and the medical care they receive. Not only do 78% percent of NH residents believe that everyone should have access to abortion, but if we're truly going to follow the path to living free then this bill MUST be passed.

Jeff Dyke

I'm a MA resident, but own a home in NH and wanted to give my support
I can't think of much more important right now and the movement that has only gained more traction.
We need to support women and their families, with access to ALL Health Care options.

Laurie MacKenzie

Access to abortion prior to 24 weeks is healthcare and should not be denied. Stop denying women the rights to make their own decisions.

Katanna Conley

The Live Free or Die state should absolutely enshrine the right of every woman to make decisions about her own health care, including whether to have an abortion. The NH can be a leader here in ensuring that science—not religion, misinformation, or fear—drives medical decisions and that those decisions are left to women and their doctors.

Alex Prodanas

If our state politicians do care about the will of the NH citizens, this should absolutely be signed into law!

Emily Doe

This should’ve been law already.

Ashley Brown

Abortion is health care and woman’s health care needs to be protected

Kyle Doe

This should’ve been law already.

Acacia Colby

As the "live free or die" state, it only makes sense for our right to live free and with our own bodily autonomy be enshrined in our state, and no longer contested at the opposition of the majority of granite staters. NH has spoken loud and clear, we support this.

Brendan Murray

This bill will enshrine the rights of every granite stater with the choice to make decisions regarding their own bodies. This is about healthcare and rights of bodily autonomy, and should not be something the government of New Hampshire or the United States, can take away. New Hampshire has been and should continue to be a place where the rights of its citizens are not infringed upon by the government or anybody else. Abortion is healthcare, and a necessity in many cases. Already women have died in states where abortions are illegal or limited, and that is not a position New Hampshire citizens should be put in. Keep government small and protect the rights of everyone. Live free or die.

Chelsea Artim

I've been pregnant seven times. You read that number right. Every single one was very much wanted and planned for. My husband and I both had fantastic jobs in biotech, insurance, owned our home, and were super healthy. My very first pregnancy ended in a missed miscarriage. Thats when the body doesn't realize the fetal heart has stopped beating. At 8 weeks, a faint heartbeat was detected, and my midwife encouraged me to terminate. I said, “abortion isn't for me.” It's still true even after what I'm about to tell you. I'd have to be in really dire straits to willfully terminate a pregnancy. I pressed on. At 10 weeks, the ultrasound showed the heart had stopped beating. The MFM sent me to an OBGYN so I could start misoprostol to induce a miscarriage. She sent me home and told me “it won't be pleasant, but you look like you can handle it.”

I took enough misoprostol that night to induce a cow. Nothing happened. I went to sleep and at 11PM, I was awakened to terrible cramping. I've since given birth to 3 babies at home without pain management and can tell you the cramps were on par with early active labor. These were a bit different in that they built upon one another without any rhyme or reason, and then they'd relax. Off and on all night. But there was still no bleeding. I did this for a few days, and finally sent my husband to work because he didn't have unlimited PTO.

My husband went to work. This particular week he was in a clean room, so he had no access to a phone. My parents are 14 hours away, and his step-mother assured him she'd be there if I needed anything. Spoiler: she wasn't.

The bleeding finally started. Except this wasn't a heavy period. The blood was coming so fast, it sounded like I was peeing. Every time I'd stand up, blood would sling across the bathroom. As the clots were forming, I would get very nauseas. When they'd pass, they were the size of two softballs. I started feeling lightheaded and called my husband. No answer. I called his step-mom. No answer. Finally, I called my own mom figuring if I passed out, she could at least call for an EMT and lessen any brain damage.

The bleeding and hemorrhaging went off and on for 56 days. 8 weeks. My midwife wouldn't send me for a scan because I didn't want a D&C and the OBGYN didn't like that I was referring to my usual CNM.

Finally, my husband was home one night during a hemorrhage and he took me to the ER. We discovered that the embryo never passed and was lodged in my cervix. They removed the calcified embryo with bullet forceps. I hemorrhaged again that night, clogging the hospital toilets with clots and filling two industrial-sized trash bags with wipes, toilet paper, and puppy papers within about two hours of being discharged.

Fast forward two more pregnancies, and I finally have a baby and had another missed miscarriage. The misoprostol wasn't working, and I couldn't imagine going through all that with a toddler to care for. On the verge of sepsis, I opted for a D&C. Wouldn't you know - those get coded as ABORTIONS. I was just as shocked when the bill arrived in our mailbox.

An “abortion” isn't really a thing you can ban because it's an umbrella term for any time a pregnancy ends before 20 weeks - an abortion doesn't imply anything other than the pregnancy ended and it didn't result in a baby. For example, if you have a miscarriage, it's technically a spontaneous abortion. A D&C and misoprostol are two types of procedures to *complete* an abortion, also known as emptying the uterus of the products of conception. It's the same procedures whether you've had a miscarriage, were raped, or have found out your baby is going to die a painful death within 3 hours of being born. It's' the same procedure if you've had a molar pregnancy - where no baby would've ever grown. There's no difference; however, when you restrict *abortion* in an effort to lessen "convenience" abortions, you're also looping in all these other people who might die.

It is unacceptable, in my view, that New Hampshire is the only New England state in which there are no protections for women's healthcare. If you restrict abortion, my children may grow up without a mother. If you restrict abortion, women will be forced to watch their newborn die painfully in their arms within moments of birth. That is the ultimate cruelty. Partial-birth abortions simply do not exist. We've got to stop fearmongering and accept when it's time to stay in our lanes. If you didn't know that missed miscarriages exist OR that the outcome could be as severe as I just described, maybe you shouldn't be making laws on how to treat them, either?

Katherine Henderson

New Hampshire needs to protect abortion rights.

Deborah Bruss

Being pregnant is part of healthcare, including a woman's choice to choose between having an abortion up to the gestational age of 24 weeks. Women who choose an abortion after 12 weeks do so with the knowledge that either their lives are at risk or that the fetus is not viable.

Colrain Balch

Abortion is essential to health care. Legs abortions save lives. Look at the states and countries where it has been effectively made illegal and see how it has not only affected those that bear the children, but their families. If you are really pro-family, help families keep all their members.

Tina Hood

Abortion is murder.

Elizabeth Polanco

Abortion needs to be a protected right in every state. If we don’t enact legislation to solidify that right, elected officials can and will do their best to restrict it. Don’t make the same mistake the federal government did when they didn’t codify roe v. Wade.

Brian Hood

I think abortion is murder.

Jeffrey Mclean

I implore you to support this resolution recognizing abortion as a critical component of comprehensive reproductive health care. This is not merely a political issue; it is a fundamental matter of human rights, bodily autonomy, and personal liberty. It concerns the very core of who we are as individuals and as a society that values freedom and justice.

Let us be clear: abortion is health care. Just as access to cancer treatment, heart surgery, or prenatal care is considered essential, so too is access to safe and legal abortion. Denying individuals this crucial medical procedure does not eliminate the need for it; it only eliminates safe access, forcing people into desperate and dangerous situations. We cannot, in good conscience, return to the dark days when back-alley procedures endangered lives and shattered families.

This resolution is not about promoting abortion; it's about protecting the right of individuals to make their own deeply personal medical decisions in consultation with their doctors. It's about trusting individuals to make the choices that are best for their own lives, their own bodies, and their own families. It's about recognizing that every pregnancy is unique, every circumstance is different, and every person deserves the right to determine their own future.

As this resolution acknowledges, New Hampshire has a history of protecting access to this essential care. In 1997, with bipartisan support, our state repealed an outdated and unenforced abortion ban. We acted then to safeguard the health and well-being of our citizens, and we must act again now to reaffirm that commitment.

The landscape of reproductive rights is shifting, and the need to protect access to abortion has never been more urgent. Other states are enacting draconian laws that severely restrict or outright ban this vital medical procedure. We cannot allow New Hampshire to follow suit. We must stand as a beacon of hope and reason, a place where individual liberties are respected and protected.

This resolution is not just about the present; it's about the future. It's about ensuring that future generations have the same fundamental rights that we hold dear. It's about protecting the ability of individuals to control their destinies and make informed choices about their reproductive health.

I urge you, from the bottom of my heart, to vote in favor of this resolution. Affirm that abortion is a critical component of comprehensive reproductive health care. Affirm that individuals have the right to make their own medical decisions. Affirm that New Hampshire will continue to protect access to this essential care. Let us stand on the side of compassion, on the side of freedom, and on the side of justice. Thank you.

Ingrid Travers

I support this bill because it offers crucial protection for women’s right to healthcare, privacy, and autonomy.

Richard Makris

Healthcare should not be legislated by untrained representatives.

LeighAnn Kurra

The only people who should be making health care choices for an individual are the individual and their health care provider.

Kristina Romano

Please support and pass this bill. As a 33 year old woman who was ready to have a child, the current administration and the destruction they are causing has put that on pause for me. Making childbearing a more dangerous endeavor by banning abortions is so terrifying to me that I can't fathom having a child if my rights are not protected. Please pass this bill!

Leigh Levandoski

New Hampshire is the only state in New England without explicit legal protections for abortion in its state law or constitution.
78% of the population believes that there should be a right to get an abortion in every state in the US.
Our right to access life-saving medical care, make decisions about our bodies, or simply not be pregnant shouldn’t be left up to the whim of whoever’s sitting in the state house. The solution is to affirm abortion in our state law to guarantee it can't be taken away.

Cynthia Munford

I have been an abortion supporter for over 50 years. I consider it one of the fundamental rights of women to be able to decide what happens to their own body. Abortion is one of those rights. Please support this bill for the women of NH.

Stephen Tyler

It is important for women to be able to safely get an abortion. Remember, there are abortions that are medically NECESSARY and not done on a whim.
Women deserve the right to proper healthcare

Kaitlin Quinn-Stearns

Abortion is healthcare. Hands and government off of our bodies!

Carolyn Garbati

I am a mother only because of IVF, and childbirth was still extremely traumatic for me. No one should be forced to carry to term who does not want to. Abortion is healthcare, and "live free or die" includes access to healthcare. I'm desperate to transfer another of my frozen embryos, but am terrified that I will lose access to a medically needed abortion. If this bill passes, I will finally feel comfortable planning for a 2nd child.

Amy Hooper

No one has the right to tell another person what Healthcare decisions they can and cannot make.

Codifying this into law guarantees NH women continue to be EQUAL with their male counterparts when it comes to bodily autonomy.

Patty Nicoll

Every woman in NH should be allowed to make their own choices with their own bodies.

Jonathan Pollinger

Get your government overreach away from women's bodies, you absolute weirdo losers.

Colin Becker

As an out of state student who lives part time in NH, I would love to be able to stay in the state post graduation. Enshrining abortion protections into state law would make NH a default for returning to, as guaranteed abortion access for my future family plays a large factor into my beliefs.

Sarah Hoffschwelle

Abortion should be an accessible option as part of a comprehensive reproductive healthcare plan decided upon through discussions between families and their physicians. It is never an easy choice, but it should be an option for each family and pregnant individual to make with the guidance of their medical professional. These options never present themselves in a vacuum with clear right or wrong choices and even when the individual and their family want the baby, there can be circumstances that complicate it, even putting the life of the mother and, in subtler ways, the rest of the family at risk if abortion is not an option. Recognizing abortion as a critical component of comprehensive reproductive health care protects individuals and families, allowing them to make this choice which can save lives.

Mark Cronier

This is immensely important. Politicians across the country have gone back on their word regarding attacking our personal liberties and body autonomy. They have shown that we can’t trust them on issues like this. When a political party tells you they are for freedom, but their entire platform is a list of things the citizens shouldn’t be allowed to do, they are not for freedom and good faith. Enshrine this in to law, and move on to the actual business of the people so we can stop being worried about losing decision-making power over our own bodies.

Ann Marie Hinz

We need to protect women’s lives and health.

Troy Robinson

I am a resident of Bedford, NH 03110 and a healthcare provider in the State of New Hampshire, and I STRONGLY support this bill. We need abortion rights to be protected in the State of New Hampshire. I am a Christian and pro-life in my own personal life, but as a health care provider, I am bound to the health and safety of my patients and I am capable of acknowledging that my personal and religious preferences hold no bearing on the rights of others. I understand how important abortion is as a medical practice and that abortion IS health-care. On a more personal note, while my wife and I would never seek an elective abortion, we are in the family planning stage of our lives. Without proper protections, anti-abortion legislation will limit patient access, not just to those seeking elective abortions but inadvertently affects those with pregnancy emergencies. Anti-abortion legislation is always passed irresponsibly by legislators that have no experience in healthcare and without prior consultation from the health care providers who see these patients. Vague abortion bans written with ill-defined criteria for “life of the mother,” forces health care providers to guess what the non-medical lawmakers would consider “at-risk enough” to proceed with abortive care. Health care providers that provide these services risk their license, fines, arrest and their patient’s life in the process. Hospitals in states with similar bills have documented cases of women undergoing pregnancy complications waiting in their cars bleeding until they either become septic with life-threatening infection or anemic enough to require a transfusion before they proceed with abortive care so that it cannot be debated that the mother’s life was at risk. At which point, further bleeding during the approved abortive procedure could still prove fatal for the mother. I understand the prospect of trying to dissuade irresponsible actions resulting in unnecessary abortions, but if abortion access is not protected, future bills will have more far-reaching negative impacts that are not taken into account and are rarely felt or seen by the legislators that institute them. Please vote to help protect abortion access in NH.

Thank you,
Troy Robinson, MS, PA-C.

Adam Karolian

We should not be limiting health care options for anyone in the state. The state has no business dictating health care decisions.

Catherine Tucker

Please pass this Resolution. It's so important for the women of New Hampshire to have access to safe reproductive care.

Anthony Doucet

I support this bill

Elisabeth McWilliams

My name is Elisabeth McWilliams, and I am writing to affirm that abortion is an essential part of comprehensive reproductive health care. It is not just a political issue—it is a matter of health, autonomy, and dignity for millions of individuals.

Reproductive health care must be based on medical expertise, personal choice, and the well-being of those it affects. Pregnancy, childbirth, and abortion are all deeply personal medical decisions that should be made between a patient and their health care provider—not dictated by politics or stigma. Denying access to abortion care does not eliminate the need for it; it only forces individuals into dangerous situations, disproportionately affecting marginalized communities, including those with low incomes, people of color, and those in rural areas with limited medical resources.

Abortion is not a standalone issue—it is part of a spectrum of reproductive health care that includes contraception, prenatal care, miscarriage management, and maternal health services. When we fail to protect access to abortion, we compromise the broader framework of reproductive health care, putting lives at risk and undermining the right to bodily autonomy.

Restricting abortion access has severe consequences: women and pregnant people may be forced to carry pregnancies that endanger their health, push them into poverty, or result from circumstances like sexual violence. The ability to decide if, when, and how to become a parent is fundamental to gender equality, economic stability, and overall well-being.

I urge policymakers, medical professionals, and communities to recognize that abortion care is health care. It is a necessary, life-saving service that ensures people can make decisions that are right for their bodies, their families, and their futures. Comprehensive reproductive health care is only truly comprehensive when it includes access to safe and legal abortion.

Thank you.

William Nickles

We need to enshire abortion protections into our state constitution so that the right for a women to choose what to do with her own body will never be taken away by the whims of men

Jacob Mandell

Access to abortion services is access to life-saving health care. No one group should use their religion to deny another group life-saving health care. We must enshrine our state's firm belief in freedom on this issue. This is not a close call, this is not a small matter. This is a vital issue that the vast majority of our state agrees on.

Caitlyn Blood

I am a labor and delivery nurse and I whole heartedly believe in one’s right to choose what is right for their body. It is 2025 and our state could stand to progress itself a bit when it comes to the health and well being of our community.

Mary Skuse

Women are entitled to the same autonomy men receive. Women's health care is just that - HEALTH care. Let us manage our own bodies while you worry about yours.

the majority of NH residents believe in a person’s right to choose. the state of Live Free Or Die has no right on infringing on decisions that should be between families and their doctors by changing the current state laws around abortion. NH should follow suit of other NE states by protecting this right permanently.

Tyler Hixson

NH is the only state in New England that does not have protections for abortion—which is health care. I overwhelmingly support this bill in order to enshrine abortion rights for this state and its citizens.

David Roberts

Live Free or Die. Most things should be up the personal and professional decisions, not they whims of the government.

Emily Benson

This bill is one of the most important you will support in your political careers. I personally know several woman who would have died if they did not have access to abortion services. Attempts to suppress women's rights to abortion services are direct, full-on attacks on women. We have the right to take care of our own bodies, make decisions. Any politician who votes against this bill is anti-women.

Ryan Nickerson

Abortion is healthcare. Keep mythology out of gynecology. Their body, their choice. Women deserve more rights than corpses, zygotes, and fetuses.
We do NOT want to have people bleeding out in parking lots because of draconian laws like the states on the Gulf Coast. NH is one of the most educated states in the country...USE THOSE BRAINS!!!

Kimberly Der

Abortion is healthcare.

Carol Schreck

Women's reproductive, pulmonary, or otherwise healthcare is critical to comprehensive healthcare. I am surprised that some people don't think it is - or should be.

Rose J

Abortion rights are a necessary part of healthcare. Judaism requires this to be practiced should it save the mother’s life and has no other restrictions. Not only does this impact myself but every other person who has capacity for pregnancy in this state and our lives matter and should be protected, whether we choose to continue a possible pregnancy or not.

Denise Recupero

Please vote to afirm abortion into NH state law.

Dylan Carey

NH citizens deserve these protections

Josephine Southwick

I support this bill.

Maria Rondeau

I know for a fact I never want to give birth. While I am safe when having sex, there are still instances where accidental pregnancies can occur despite contraceptive use. The right to abortion is imperative for people who do not want to be held hostage in their own body. Noone should be forced to carry a child they do not want. Pregnancy causes irreversible changes and damage to someone's body, and it should be a person's choice whether or not they experience that.

Lorraine Mixon-Catron

As a woman of childbearing age, I strongly support HCR7, as it will enshrine the right to abortion in New Hampshire state law, ensuring that all women have the autonomy to make personal and private decisions about their reproductive health. This bill is crucial for safeguarding the health and well-being of women, as it guarantees access to safe and legal abortions without fear of government interference. Every woman should have the power to make choices about her own body, her future, and her family, based on her unique circumstances, without being subjected to restrictive policies that can have long-lasting, harmful consequences. HCR7 upholds our fundamental right to privacy and bodily autonomy, and by passing it, New Hampshire can become a beacon of protection for women’s rights.

Veniamina Diky

As a live free or die state we should make it harder for those in the state legislature to continue to hold legal abortions over the heads of our free citizens. We have a right to choose and the legislature has a duty to enshrine these rights. Don’t let politics play into diminishing the freedoms of our great state.

Juliette Sallaway

Abortion is Healthcare and I strongly urge you to protect the women and children of this state by voting yes on this bill. We all deserve the freedom to choose how and when we have children, not just for ourselves but for the families we already have. Safe access to abortion is something we deserve and should have codified into our state laws.

Christopher Albanese

I believe that abortion is a critical component of comprehensive reproductive health care. We need to protect this right and the health of our fellow citizens. Criminalizing abortion doesn't stop abortions, it only makes them less safe.

Kristen Wilkinson

Abortion care is health care.

The women of New Hampshire need their access to potentially life-saving medical care to be protected by state law.

Emily Quirk

Please protect women's health

Ross Bickford

As a physician I KNOW that abortion is an essential tool in womens healthcare. It is a necessary procedure that saves lives. As the "Live Free or Die" state, we need to protect women's freedom to make their own decisions regarding healthcare.

Sarah Tabory

Women have a right to abortion, period. NH needs to make this a law so that the constant bills can stop. Put it to rest and work on something you can change, because this will not change. It just gets more dangerous and deadly when you make abortion access harder.

Alex Ryder

I will always support a woman’s right to control over their own body. With few exceptions, women do not get abortions for on a whim - these are life-altering, difficult decisions to make, regardless of whether the abortion is elective or medically-necessary.

At a time when women’s rights are under attack, we must protect the right to safe abortions. To do otherwise will not stop abortions, rather lead to an increase in danger to both mother and fetus, increase in mother and infant mortality rates, and increase the burden on social services.

Stefanie Hynds

We are the only state in New England without abortion enshrined as a right. We need to protect healthcare access for women.

Amanda Dalton

Abortion is healthcare and I support this bill. I am a 37 year old woman and I have suffered miscarriages. I have seen friends who needed abortions to stay alive. I have seen family who needed them to stay alive. I am so tired of people and politicians thinking they have control over MY body. That they can decide what to do with MY body. I AM A PERSON WHO DESERVES AUTONOMY OVER MY OWN BODY. EVERYONE DESERVES AUTONOMY OVER THEIR OWN BODY. If you don't pass this, you are not for women's health, you don't care about kids, you are not pro life. Pro life is supposed to be caring about every single life, not just the fetus. And not allowing women to get the care they need, that is not pro life at all.

Melanie Gunter

Affirming abortion rights at the State level is imperative for women's reproductive health and overall well being. Too many women have been lost due to lack of proper reproductive care. Ectopic pregnancies and partial miscarriages lead to sepsis and death when appropriate care is denied. Also, women deserve autonomy over their bodies and should never be forced to do something against their will. Their choices should be between themselves and their healthcare providers, and not decided by the government.

Danielle Zobel

New Hampshire's stance on personal freedom is integral to who we are as people. I want protection for my rights and my teen daughter's rights to choose when and why to have children. Without the protection this bill offers us, it will make the coming 4 years a time of even more extreme anxiety and fear for us. Please support this bill and keep New Hampshire free!

Mary Payne

Abortion is vital health care for so many women. I was hemorrhaging with an incomplete miscarriage, I needed an immediate D+C. I'm not sure what would have happened without this care.

Oliver Drew

Abortion is healthcare and MUST be protected

Catherine Tidd

Bodily autonomy is a human right. Full stop.

Additionally, the restricitive abortion policies in states like Texas, which forbid abortion even when the fetus is unviable, or even for life-threatening situations like ectopic pregnancies, are killing women. It's inhumane and against New Hampshire values. We must enshrine abortion rights into state law to prevent the ignorance afflicting other states from happening here.

Zach Breneman

It’s 2025 and New Hampshire is the only state in New England without explicit legal protections enshrining the freedom to abortion in its state law or constitution!

We are far behind our neighbors & lack so many liberties critical to our personal & collective wellbeing. We need to do better here, and in many other areas in which we, the people are being continuously ignored or dismissed.

People with uteruses are not second class citizens and they must be considered & cared for via comprehensive, progressive legislation that the majority of the state calls for.

LIVE “FREE” YET DIE due to the lack of protected access to abortion…
Unless you affirm this bill like we demand.

Thank You,
A Concerned NH Citizen & Human Being

Isabelle Strachan

Live free or die.

Robin Backus

We are the only state in New England without a legally enshrined right to abortion. Anyone in childbearing years, or who is a parent to someone who is, must live with the stress of knowing they could lose the ability to get appropriate medical care.

78% of New Hampshire voters approve of access to abortions in some form. Listen to your constituents or we will make sure you no longer have a job come the next election.

Louisa Page

Having an abortion saved my life. My abusive ex-boyfriend purposefully used a broken condom to force me to become pregnant. I had no idea he had done this until I was already 6 weeks pregnant. At the time, I was supposed to go to college in a month to study environmental science, to live up to my parent's hopes for me and my hopes for myself. That all seemed so impossible when I saw that positive pregnancy test. I was able to get an abortion, though, because it is and should remain a public right for females. I deserved a choice and I continue to deserve a choice. I would not have been able to pursue my dreams and live a normal life if it was not for access to abortion that relieved me from having to raise a fetus that was forced onto me by a man.

Matthew Talbot

New Hampshire is the only state in New England without explicit legal protections for abortion in its state law or constitution. 78% of us believing that there should be a right to get an abortion in every state in the US. Please support women's right to make their own healthcare decisions without the whims of lawmakers making healthcare decisions for them.

Julia DuBois

A women’s right to choose is essential. Government should not be making healthcare decisions, it should be between a woman and her medical team. Abortion is healthcare.

Joshua Custer

The slew of regressive bullshit people have been drafting and sponsoring so far shows how necessary this is.

Johanna Ames

We need to make sure that we do not go backwards in time. Women need safe alternatives to being forced to carry a child they do not want to term.

Paula Brensinger

It is essential that we leave the care decisions to women and their doctors. Whether it’s a chosen termination or post natural miscarriage care, it’s none of the government’s business. In other states, women WHO have miscarried are dying because the techniques required to remove products of conception in an active naturally occurring miscarriage are classed as prohibited abortion, and they have to become septic before they can be saved. It is often too late by then, or they bleed out. Barbaric!

Courtney Reid

Support

Hanna Lane

While New Hampshirites may not all agree on whether they personally would or should get an abortion, the fact remains that each woman should maintain the right to make her own healthcare decisions. I'm proud to live in a state where we champion a "Live Free or Die" lifestyle and expectation for governance, and we should be ashamed if we take an action that would contradict our very essence.

Dustin Vigneault

Abortion is healthcare, and women should have the ability to choose to save their lives without the interference of politicians.

Abby Pouliot

Please let women make the best decision for themselves and their family!

Christine Kelsall

I, as a female member of the public living in the state of New Hampshire STRONGLY SUPPORT this bill.

We are the only State in New England
that does not have explicit protections on abortion in either NH laws or New Hampshire's Constitution.

Meaning the outcome of each and every State election could decide
whether or not we loose our rights.
As we've seen in other states, this
has left tne door open for
lawmakers to take away or
restrict the right to abortion
care as they personally see fit
- despite 78% of us believing
that there should be a right to
get an abortion in every state in
the US. This has lead to huge increases in maternal fatalities - women are DYING.
.
Our right to access life-saving
medical care, our right to make decisions about our own bodies, or to choose to simply not be pregnant shouldn't be left up to the whim of whoever's sitting in the state house,
The solution is to affirm abortion rights in our state law to guarantee it can't be taken away.

Had I not had the right to an abortion in 1984, I would have been a mother at 15. Two years later, in 1986 when I became pregnant again, I did not have that choice - my parents made the choice based on THEIR beliefs for me.

Therefore I had to endure 9 months of pregnancy as a high school student, give birth as a 17 year old, then surrender my baby girl to adoption 2 days later at age 17. Never to see her again. This had such a detrimental effect on me and for the rest of my life, I can't begin to explain it.

In October of 2025 the baby girl I was forced to give up to adoption finally found me. We have a wonderful relationship, but she and I BOTH have suffered life altering trauma. We both agree, and she has implicitly told me, that if she were in the situation I was in at the same age... because of how it negatively affected both of our lives, she would have chosen to have had an abortion.

Our right to abortion absolutely NEEDS to be affirmed into our State laws & Constitution so that it cannot be taken away. We should have the right to make that choice.

Thank you,
Christine Kelsall - Bedford NH

Aidan King

The gutting of reproductive health care around the nation is one of the leading causes for why my wife and I are AFRAID of having children. It creates uncertainty, and depending on where we live, takes the choice out of our hands completely. We chose to plant our roots in New Hampshire precisely because the state espouses values of freedom, independence, and bodily autonomy -- whether it's abortion rights, gun rights, or more. A failure to codify reproductive rights into state law would give us serious pause about staying in this state. And I am certain, based on conversations I'm having with countless other young people throughout the state, that we are not alone.

It is your duty as elected representatives in the "free" state of New Hampshire to pass this bill. Failure to do so would, quite simply, be hypocrisy on the grandest of scales, and you better be prepared for a mass-exodus of the future workforce if you continue down the path of government overreach and the restriction of our freedom and autonomy.

Kristine LaSala

There is nothing more fundamental to living free than having control of your own medical decisions.

Alexandra Brandt

It is imperative that we enshrine abortion rights into NH state law. Abortion bans and restrictions can place people’s lives in danger and prevent doctors from performing life-saving care to their patients. Please keep NH residents safe.

Amy Spitzfaden

We need explicit protection of abortion.

Rebecca LeCain

Abortions are healthcare. Please pass this law so women can have access to appropriate medical care.

Nicoletta Gullace

This Bill is so important to protect the lives and health of women who could face pregnancy-related complications and be unable to terminate. With our declining birthrate, we want New Hampshire mothers to know that if a pregnancy-related medical emergency arises, there would be no legal wrangling, no need to wait in a parking lot until they bleed out, and no need for a white-knuckle drive to Massachusetts in order to protect their health. Pregnancy is a risk for many women, even without underlying medical issues, and for them to have the courage to conceive, carry, and give birth to a child, they must know that their own health would be guarded by their doctors, even in the tragic case where that means terminating their pregnancy. Don't turn pregnancy into a life and death choice, as Texas has. Take it off the table as a political issue and enshrine the Right to Abortion in the New Hampshire constitution.

Jonathan Verge

Let us secure the rights for women to have bodily autonomy in NH!

Sarah-Elizabeth Anderson

Women have a right to make decisions for their own bodies.

Kiera Crowley

Access to safe abortion and reproductive saved my life, and the lives of many other women that I know. To live in a state that’s truly free, choice in reproductive care, including access to abortion, is a necessity.

Monica Galbraith

Good abortion access means that mothers are safer throughout their pregnancies. We know the maternal deaths coming out of places like Texas (although we don't know the numbers, because, surprise surprise, they're concealing them) where pregnant women are being forced to carry non-viable fetuses and keep corpses in their bellies until they die of sepsis.

We don't force dead people to donate their organs. Why should we force living women to?

Enshrine abortion NOW!

Michael Newman

Abortion should become a protected right, not determined by federal statutes, but by the people of this state.

Rey Kara

Protecting healthcare in NH is a must, which is why I support this bill.

Emily Graves

I support this bill. Abortion is a health care issue that should be available to women and girls without question.

Leah Sheilds

I strongly support this bill. The right to abortion is the right to life saving medical care and the right to body autonomy for all women.

Leslie Parker

It is so important that abortion be included as an important part of healthcare for women. Right now I am familiar with a family that is anguishing because the joy of soon becoming parents and grandparents for the very first time has turned to great sadness because they have been told that the baby has several abnormalities and will not live past birth. Laws that prevent abortion in situations like this only make the pain greater for the parties involved. Politicians have NO BUSINESS involving themselves in difficult abortion decisions that should be made by families and medical personnel.

Anne Whitney

I am a proud Granite Stater and I support this bill because abortion is healthcare, and healthcare is a human right.

Peter Heyl

I am a retired maternal fetal medicine practitioner. Termination of pregnancy is always sad, but it can be life-saving for the pregnant woman, and is definitely a component of comprehensive reproductrive health care.

kim streitmater

I support HCR7 for multiple reasons. First is as a woman I support a womans right to choose what is done with her body. Second I support the right for Women and their doctors to make the best decisions for them. That decision may need to be abortion care and only the Doctor and their patient can make that informed decision.

Christopher Taylor

The state has no place in a woman's uterus.

Haley Flowers

I am writing today to express my strong support for HCR 7 that seeks to affirm the right to abortion in our state law. As a citizen who values individual rights and bodily autonomy, I believe it is crucial for New Hampshire to take this important step to protect reproductive freedoms for all.

Abortion is a deeply personal decision that should be made between a patient and their healthcare provider, never dictated by politicians. In light of recent challenges to reproductive rights across the country, we simply can't afford to take the right to choose for granted. By affirming abortion rights into state law, we are not only ensuring that individuals in New Hampshire continue to have access to the care they need regardless of the political affiliation of the Oval Office, but also sending a clear message that we will not stand by as our freedoms are unprotected or eroded. As it stands, New Hampshire is the only New England state that has failed to enact explicit legal protections for abortion in the state law or constitution.

As a New Hampshire resident, I am proud of our state's history of valuing personal freedoms and autonomy. It is imperative that we continue this tradition by passing this bill and ensuring that reproductive rights are safeguarded for generations to come.

I urge you to vote in favor of this important legislation. It is not only a matter of reproductive health, but of human rights and dignity.

Thank you for your time and consideration.

Sincerely,
Haley

Ian Dalton

The fact that this is even being discussed is disappointing. Access to medical care is already enough in question, let women make their own decisions and stop trying to hold laws over them. Sincerely, a husband with a wife and a fellow human, one who believes rights should be unalienable, rather than come into question with every new foolish administration.

Devin Singh

I know several women whose lives have been saved due to medically necessary abortions. These pregnancies were planned and babies were wanted, but nature had other plans. These women and families grieved and mourned the loss of their pregnancies. But their lives were spared, their existing children continued to have a mother, and these women were able to try again and later have successful pregnancies and births. Please keep abortion legal to save lives of women and children, and preserve families.

Hannah Altsher

As a woman, mother of a daughter, and RN, I do not think I can begin to explain how much I support this bill. Women need to be treated as human beings with control over their own bodies. You cannot legally force someone to donate an organ, yet people feel they can force the use of a womb. Forced pregnancy is considered a war crime by the Geneva Convention. I struggled to get pregnant with my daughter and my pregnancy was by no means easy. The discomfort, fear, risks, anxiety, and implications of pregnancy are not something a woman should have to face against her will. Also, as has been said many times, outlawing abortion wouldn't stop abortions, it would stop legal abortions. Women deserve the right to access safe care. Please protect a woman's right to choose.

Nancy Smith

I strongly support this bill.

Emily McKenney

Stop embarrassing us and protect our rights to abortion

Molly Lunn Owen

Thank you, legislators, for voting in support of HRC7 to protect abortion as a medical procecedure for New Hampshire women and families. As a woman of childbearing age, I hope I never need an abortion. However, I ask that you do everything in your power to keep abortion legal should a pregnancy complication put my life or another woman's life in danger. The hard decision to have an abortion should be made between a woman and her medical provider. Please do not make this hard decision worse or unavailable for the woman of the Granite State or the competetent medical professionals we are fortunate work here. Thank you.

amanda powers

We can't continue to be the only state in New England that has not given legal protections for abortions (that the vast majority of the public supports).

If my wife's life is in danger due to a complication from pregnancy, or if the pregnancy itself is atypical and has a high chance of being life threatening to her if carried to term, I do not want any doctor to have to wonder if they should treat her without violating the law. Doctors should be empowered to act in such a fashion that protects the well-being and life of their patient without fear of repercussion.

Wren McCann

This should have already been in place. No question. Make it the law of the land!

Debra Merrick

In the past 3 years too many women have died because their state no longer allows women their rights to comprehensive reproductive health care. Doctors are torn between saving the women's life and their job and in some cases their life in prison. HCR7 recognizes abortion as a critical component of comprehensive reproductive health care.

Mikayla Veilleux

Live free or die, right? Stand on it then. The government doesn’t deserve a say on my body and I want that enshrined in law to protect generations to come - no matter who is governor or president.

Kathryn Bobay

I strongly urge you to keep this private and often difficult decision between a woman and her healthcare provider. Contrary to a forced media and far right agenda this is a critical piece of a woman's healthcare and should be left up to the woman and not in political control.

Elizabeth Melanson

New Hampshire is the only state in New England without explicit legal protections for abortion in its state law or constitution.
Meaning the outcome of each and every state election could decide whether or not abortion stays legal.
Our right to access life-saving medical care, make decisions about our bodies, or simply not be pregnant shouldn’t be left up to the whim of whoever’s sitting in the state house.
The solution is to affirm abortion in our state law to guarantee it can't be taken away and that is why I support this legistation completely.

Elizabeth Ryan

The state's motto is Live Free or Die- let's protect the medical rights and privacy for residents of this state. The state shouldn't be involved with abortion, especially considering a majority of our state reps are not doctors.

Margaret Trainor

I strongly support this bill as abortion is indeed a critical component of women’s reproductive health care.

Michelle Eaton

Abortion is healthcare and it's about time that NH solidified this!

Cassandra Amarello

Abortion care saves women's lives. Most women who have an abortion have children later in life. Removing abortion access kills more people than it saves.

Sean Haney

24 weeks is the best compromise that can be had. If someone pushes to eliminate abortion, that 24 weeks should become 40 weeks. Any further effort by the governing body to establish a 15-week ban should be equally met with this response.

Meghan McClure

There are many reasons abortion is medical care- one of which is: If someone knows they are at-risk for literally dying from pregnancy or giving birth they should be able to get medical care to literally stay alive.

States that have abortion bans will have the blood on their hands for anyone who dies because they could not get an abortion.

Our state's motto is Live Free of Die, is it not? When did that not include people having the freedom to find the medical care they need for their own bodies?

Tim Franciscovich

Women should have the same body autonomy as men! It’s not our right or business to tell any woman what they can and cannot do with their body!

Mary Sigel

Please pass this bill. So many health care issues are at stake!

Marci Stone

Please support this bill and protect women's access to safe abortions here in NH.

Sara Powell

Testimony in Support of NH House Concurrent Resolution 7 (HCR 7)Presented to the New Hampshire House Health and Human Services Committee February 19, 2025

Good afternoon,

My name is Sara Powell, and I am a resident of Spofford NH, a Woman and a Mother of a daughter from. I am here today to voice my strong support for House Concurrent Resolution 7 (HCR 7), which recognizes abortion as a critical component of comprehensive reproductive health care.

Access to reproductive health care, including abortion, is essential to the well-being and autonomy of individuals and families across New Hampshire. By passing HCR 7, the legislature affirms its commitment to protecting personal freedom, promoting public health, and respecting the diverse needs and beliefs of our residents.

Why HCR 7 Matters:

Protecting Personal Autonomy: The ability to make decisions about one's body, health, and future is fundamental to individual liberty. Recognizing abortion as essential healthcare ensures that individuals can make these deeply personal decisions free from undue governmental interference.

Promoting Public Health: Safe, legal, and accessible abortion services are crucial for public health. Research consistently shows that when abortion access is restricted, health outcomes worsen, particularly for marginalized communities. HCR 7 supports policies that protect the health and safety of all New Hampshire residents.

Respecting Medical Expertise: Decisions about abortion care should be guided by medical professionals and the patients they serve, not by political mandates. This resolution acknowledges the importance of evidence-based healthcare and the critical role that reproductive health services play in comprehensive medical care.

Affirming New Hampshire Values: New Hampshire has a proud tradition of valuing individual freedom and privacy. HCR 7 aligns with these values by recognizing the importance of allowing individuals to make their own healthcare decisions in consultation with their trusted medical providers.

The Impact of Public Engagement: Recent legislative actions have demonstrated the power of public participation in protecting essential services. Thousands of New Hampshire residents have spoken out in favor of accessible menstrual products in schools and against restrictive abortion legislation.

Passing HCR 7 will continue this legacy of responsive, compassionate governance.

By supporting HCR 7, New Hampshire sends a clear message that reproductive healthcare, including abortion, is a vital part of medical care and a protected personal right. I respectfully urge the committee to recommend this resolution for adoption.

Thank you for your time and consideration. I am happy to answer any questions.

Sincerely,
Sara Powell

Michaeleen Cook

Abortion is NOT reproductive health. Abortion is murder and no taxpayer should be forced to pay for this heinous act that goes against everything moral and good. I strongly oppose this bill. This is politically motivated by Democrats who want to keep their seats and not based on what is best for the American people.

Kimberly Watson

FINALLY

Beatrix Raynes

The access to abortion should be a basic right to all humans. It can be life changing and life saving.

Margaret Barry

New Hampshire’s motto, Live Free or Die, is a declaration of personal liberty and self-determination. That freedom must include the right for women to make their own reproductive choices without government interference. To deny abortion rights is to strip women of the ability to control their futures, forcing them into life-altering situations in a state where the cost of living is high, wages do not always keep up, and support systems for parents—especially single mothers—are severely lacking.

With median home prices exceeding $400,000 and childcare costs surpassing $12,000 per year for an infant, the financial strain of raising a child is immense. Meanwhile, men are not legally required to stay and provide, leaving women to bear the full weight of pregnancy and parenthood. Even those with supportive partners face the reality of limited paid family leave, expensive healthcare, and an overburdened childcare system. The state’s refusal to protect abortion access does not create a culture of life—it creates a cycle of economic hardship, forcing many into poverty simply because they could not access care.

If New Hampshire truly believes in Live Free or Die, it must uphold the fundamental right of women to decide their own futures. Reproductive freedom is a cornerstone of personal liberty, and enshrining abortion rights in state law is the only way to ensure that women in New Hampshire can truly live free.

Nicole Decato

FINALLY

Valkyrie Alden

Every person should have the right to choose when and how to bring another person into the world.

Ellen Newman

I am a constituent residing in Salem NH and I implore you to pass this bill to affirm abortion rights into the constitution. Abortion is a matter of health. It is not the government's place to decide if a person can make decisions based on their personal health. Affirming abortion into the constitution is a measure I support and I would like to see my representatives pass it. Thank you.

Desiree Bernard

Abortion is healthcare.
Healthcare decisions are between the patient and their provider.
If abortion isn’t protected, then are we going to protect the kids that are born but not wanted? Will we help support the family that was forced to have a child? What about the 14 year old sexual assault survivor? And what about the patient who is pregnant with a child that will not survive outside the womb? Do we force the mother to carry this child to term and hope she doesn’t die of sepsis in the meantime or do we just not care?
Enshrining abortion rights will ensure that it remains a healthcare decision. I fully support this bill.

ronnie Werner

Abortion is an essential part of comprehensive health care. It would be shameful if New Hampshire stood out as the only New England state that did not care enough to protect the health and wellbeing of its female citizens. Please stand strong and safeguard the healthcare rights of women of all ages from across the Granite State who may face difficult and even traumatic circumstances.; healthcare providers in our state and N>H."s women deserve a positive vote on this bill.

Keith Tarquinio

I don’t support sanctioned abortion.

Nicholas Gostanian

This bill is good for abortion rights based on the polling data.

Jill Teeters

Bodily autonomy is a human right.

Jennifer Mclaughlin

I am for this bill. As a women who had a late term loss and needed life saving treatment to save my life due to the loss and my body not doing anything. I ended up also needing a D&C a week after induction of my stillborn. I was treated to save my life when my body didn't. I had carried her for 3 weeks not knowing she had passed and was sick when I had to be induced at 24 weeks.

Sally Bowkett

I am in support of abortion rights.

Julie Smiley

Live free or die. Abortion restrictions kill Women.

Melanie Larson

I believe abortions are healthcare for women. It’s not something taken lightly by any person, but should be accessible and safe for anyone in need.

Cassidy Curry

Abortion is healthcare.

I once told my parents that I should I ever come into circumstance of unwanted pregnancy and abortion was no longer an option, I would rather die than carry the pregnancy to term. My bodily autonomy and rights as an individual should be respected. A proposal to mandate vasectomies for men not in committed relationships would be unthinkable since it violates their bodily autonomy; stop trying to impose the premise on women in the form of restrictive healthcare. I support HCR7.

Jennifer Corbit

Please support this bill. Abortion is an important part of women's health care including life-saving treatment, not a form of birth control. Ectopic pregnancies, infections, miscarriage and other severe and life-threatening issues can occur during pregnancy, and medical intervention in the form of abortion can be necessary to save the life of the mother. Preventing and restricting abortion only results in an increase of suffering and death for women and minor children, many of whose stories have been made public by the media in the past year. Please support women and girls in having access to necessary and life-saving medical care as well as being allowed to be in charge of their own bodies.

Sheryl Huntley

I believe that abortion is a critical component of comprehensive reproductive health care. It is a decision that should be made solely by a woman and her health care professional. It also should be an individual's right to terminate their own pregnancy prior to 24 weeks gestation and should not be denied or infringed upon in this state; I support this bill HRC7.

Kate-lyn Gingerich

As someone who has to go though IVF treatment after IVF treatment in order to have children, there is always a risk that the embryos multiply to over one or two children later on in the development. My body can't really handle more then two children due to medical reasons. Please. This is my body, I know it best.

If I was ever raped, I would 100 percent not want to carry that child. I don't want nine months of reliving the rape over and over again each time. No one should be forced to carry if they were raped. Please pass this bill and think of your mother, your sister, your wife, you daughter, your aunt, even your grandmother. Rape can happen to anyone. Support them.

William Huntley

I believe that abortion is a critical component of comprehensive reproductive health care. It is a decision that should be made solely by a woman and her health care professional. It also should be an individual's right to terminate their own pregnancy prior to 24 weeks gestation and should not be denied or infringed upon in this state; I support this bill HRC7.

Rebecca Collins

Access to safe and legal abortion services protects physical and mental health, reduces the risks associated with unsafe procedures, and allows people to plan their families in ways that support their well-being. It is a fundamental aspect of medical care that upholds personal rights, dignity, and the ability to navigate life circumstances without government or external interference. Ensuring access to abortion is essential for gender equality, public health, and the protection of individual freedoms.

Common sense. Listen to the constituents.

Nicholas Apostolopoulos

The majority of the people in this live free or die state believe in the right for choice, and I believe the bill will support and protect the right to choose for all.

Beth Benham

I've been a women's health and public school nurse for 30 years. I can attest that abortion is part of women's essential healthcare. The medical term for what the general public calls "miscarriage" IS abortion, either a spontaneous or missed (SAB or MAB). Especially in the case of missed abortions where the fetus has stopped developing but the woman has no signs of that yet, some type of controlled and monitored abortion care is needed to help induce expulsion of the deteriorating fetus to prevent infection which could lead to sepsis, or uncontrolled bleeding which could lead to shock and death. Then we have ectopic pregnancy, which is never viable but untreated can lead to life-threatening symptoms in the woman. This also needs controlled and monitored abortion care. Same with women who discover their fetus has anomalies incompatible with life outside the womb. But even when a woman knows this is not the time for her to have a pregnancy at all, the government should not be interfering in her private medical decision making, whether that's with regard to contraception or termination of a pregnancy. Tragically, I have seen far too many children born to parents who were not prepared or wishing for a child. These children suffer all kinds of trauma and neglect in many of these situations. We have too few resources to help them and are loathe to remove them from their homes when we even know about dire circumstances. When a woman is not ready to bear a child, we need to trust her and she deserves the same privacy and dignity men receive in all their healthcare decisions.

Cecily Houston

Explanation: What is a HCR? HCR7 is a House Concurrent Resolution without the force of law like a bill. A House Concurrent Resolution must pass both the House and Senate and states an opinion of the entire Legislature.

Abortion is a critical component of comprehensive reproductive health care, and access to abortion allows people to make decisions about their families, their lives, and their futures.

President Trump has stated that the regulation of abortion should be left to the states. New Hampshire is the only state in New England without any explicit protections for abortion access in our state law or Constitution. New Hampshire needs to take decisive action to affirm that abortion is a critical part of reproductive health care and a human right for all Granite Staters. Passage of this HCR confirms that an individual's right to terminate their own pregnancy, prior to 24 weeks gestation, shall not be denied or infringed upon in this state.

That includes being able to get the care we need without worrying about threats to our health, freedom, or well-being.

HCR7 affirms the position that New Hampshire will not further restrict abortion - what many current lawmakers promised on the campaign trail. HCR7 puts their words into action. Republican Governor Kelly Ayotte promised to veto any legislation seeking to tighten the state’s abortion limits, which were put in place in 2021. “If you send me legislation that further restricts access to abortion beyond our current law, I will veto it,” she said during her inaugural address in January. Additionally, House and Senate Republican leaders also promised not to pass further abortion restrictions on the campaign trail.

Instead of relying on a representative body to make such personal decisions, in keeping with New Hampshire’s commitment to limited government, the New Hampshire Legislature should let the people decide their own future.

Theresa Stromberg

We need to join the rest of New England in codifying this into law!

Kristine Foss

Please protect a woman’s right to have her medical decision be between herself and her doctor. Please act to protect NH women’s right to choose what’s right for them, and to maintain our right to bodily autonomy.

Stephen Foss

Reproductive healthcare should be between a woman and her physician. There is no room for the state in health-care decisions. Maximum liberty is when the patient chooses, not the state.

Regina Byrnes

I strongly support an individual woman's right to choose to terminate a pregnancy within the first 24 weeks of gestation. The NH state legislature should not infringe upon this right.

Judith Kowalik

Women’s rights includes right to manage pregnancies which can lead to life-threatening conditions, non-viable pregnancies which I have experienced twice personally and manage family size especially with cost of living for raising a child most especially childcare and higher education. I strongly support this bill.

Patricia Pinski

Women deserve equal rights.

Sara Varanka

HCR7 affirms that abortion is part of comprehensive reproductive health care and that NH citizens should be allowed to make health care decisions for themselves.

Renee Carney

Politics should never stand between a woman and her healthcare provider. Basic healthcare is a necessity and NH should follow Massachusetts in supporting womens healthcare. I had an abortion (medical procedure) for a fetus that had already died and my body did not expel it, in order to not go septic I had to undergo a procedure. That child was very wanted.

Katherine Kiarsis

Health care of any kind should be a private decision made between an individual, their family, and their doctor. It should not rest in the hands of some government official and their whims. Bring NH up to speed with the rest of the New England states who believe women own their bodies and lives.

Patricia Colgan Duffy

Women should have the right for their own heath

Better yet, remove the 24-week clause and just straight-up don't infringe on our right to our own bodies and futures!

The state has no vested interest in the contents of my uterus. I do. Let me exercise my freedom to make personal and medical decisions for myself, as an autonomous human being with decision-making capabilities of my own.

Nora McBurnett

The religious beliefs of others should not supersede my right to autonomy over my own body.

Krista Camacho

Abortion is healthcare. Bodily autonomy is everything. Otherwise we give up the rights to our own bodies.

Tobey Partch-Davies

I agree with this bill.

Nancy Cherim

New Hampshire is the only state in New England without explicit legal protections for abortion in its state law or constitution, despite the fact that the majority of NH citizens believe in a woman’s right to make decisions about her body without state interference.

The outcome of each and every state election should not decide whether or not abortion stays legal. Abortion should stay legal without restrictions.

This leaves the door open for lawmakers to take away or restrict the right to abortion care as they personally see fit — despite 78% of us believing that there should be a right to get an abortion in every state in the US.

Mary Jensen

As a citizen of this country I believe that I am granted the same rights to life, liberty and the pursuit of happiness as any other citizen. That includes retaining the right to have no state interference in decisions about my bodily autonomy . I think there should be no state or federal limits, but I accept that this has become about politics and religion rather than biology and this law would be better than none at all.

Morton Cherim

New Hampshire is the only state in New England without explicit legal protections for abortion in its state law or constitution, despite the fact that the majority of NH citizens believe in a woman’s right to make decisions about her body without state interference.

The outcome of each and every state election should not decide whether or not abortion stays legal. Abortion should stay legal without restrictions.

This leaves the door open for lawmakers to take away or restrict the right to abortion care as they personally see fit — despite 78% of us believing that there should be a right to get an abortion in every state in the US.

Laura Thielker

Abortion care is health care

Winifred Krogman

Having had a pregnancy with a fatal fetal anomaly and having to have difficult decisions regarding my own welfare vs the fate of a still born baby - I believe these decisions need to stay in the hands of the people who will be most affected and not legislated. We should not infringe on a persons right to freedom of choice over their body.

Summer LaCrosse

We are the only New England state to not have the right to abortion codified. This is a medical decision to be made between a doctor and the person receiving care. The government’s job is to protect people’s freedom to choose what’s best for their health and life.

Ryan Lena

I am an OB/GYN and an abortion provider in New Hampshire. This bill will align New Hampshire with every other state in New England in guaranteeing the right for women to receive abortion care.

Betty Moody

Keep your laws off my body!

Haley Monkton

A person's right to abortion is a fundamental human right, allowing people to make autonomous decisions about their own bodies and reproductive health, including the choice to terminate a pregnancy, free from undue government interference.

Allison Rochette

Please pass this bill. We are supposed to be the live free or die state and we are the only state in New England who hasn't passed a bill like this.
This is a much needed bill. Please pass this bill.

Adva Waranyuwat

Many say they value freedom and this includes bodily autonomy. Supporting women’s health means supporting their right to bodily autonomy and choice.

Gwen Williams

Access to abortion is a human right. It saves lives, reduces children trapped in abusive homes, and ensures agency and added safety for women trying to leave unstable or unsafe situations. Eliminating access to abortion dehumanize women and puts us at risk for abuse, increased rates of maternal demise and so many other health impacts. Protect our autonomy. Vote in favor of preserving our right to choose.

Shannon Munroe

Abortion is healthcare. We all deserve access to healthcare.

Krista Cleary Arel

Abortion is a right that should be available to any woman. It is between a woman and her doctor. Those doctors have been licensed and should not have the government involved in their patient care.

Cynthia Peabody-Paulin

I strongly support the right of a woman to make decisions about her body.

Kayleigh Merritt

Reproductive freedom is non-negotiable. The freedom to make our own healthcare choices is a bedrock American value, and no politician has the right to interfere in decisions that should be between a patient and their doctor.

Nearly 80% of Granite Staters agree with this, and two-thirds believe abortion access should be protected at the national level.

New Hampshire voters were promised that our lawmakers would not impose any additional restrictions on reproductive rights. We are asking that you pass this bill and cement that promise made to us.

Stacy Holmes

I support this bill. Abortions are necessary and should be protected by law.

Ronald Merritt

Reproductive freedom is non-negotiable. The freedom to make our own healthcare choices is a bedrock American value, and no politician has the right to interfere in decisions that should be between a patient and their doctor.

Nearly 80% of Granite Staters agree with this, and two-thirds believe abortion access should be protected at the national level.

New Hampshire voters were promised that our lawmakers would not impose any additional restrictions on reproductive rights. We are asking that you pass this bill and cement that promise made to us.

Kristina Kiarsis

Although I am not a resident of NH, I believe it's critical that women are able to get the same care no matter where they go for it. What happens in NH impacts Vermonters, too. I support this bill.

It is especially important to codify this access to important life-saving healthcare now, when the federal government is being as draconian as it can.

Cynthia McInnis

I would like to see this bill supported and passed. Women, their family and their doctors are the only people who should be making such an intense, deeply personal decisions. Sometimes abortions must be done for medical reasons. I experienced that myself. I was pregnant for the first time. My husband and I had planned for this pregnancy. We had gone in for our first ultrasound at 6 weeks and saw the heartbeat. At 11 weeks I had some bleeding. I went back to my OBGYN, had another ultrasound, no heartbeat. Our doctor had me wait for 2 weeks to see if my fetus would spontaineously abort. It did not so they had to remove it. I do not know if my fetus was male or female which is why I am using "it". On my paperwork, the technical term for what was done to me was an abortion. If my fetus was not removed at that point sepsis would set in and it could have killed me. "Abortions" are done for many reasons and sometimes it is to save mother's lives. I want to see this bill passed. Women and their doctors should ALWAYS have the ability to chose what is in the best interest and health of the woman and her family.

Christian Sorgi

Dear Members of the Committee,

I am writing today in strong support of HCR 7, a crucial resolution that would affirm the right to abortion in New Hampshire state law. As the only state in New England without explicit legal protections for abortion, we are currently at risk of leaving this fundamental right vulnerable to shifting political tides. This uncertainty puts individuals' health and bodily autonomy in jeopardy.

The ability to access safe, legal abortion is a matter of personal freedom, public health, and medical necessity. Decisions about pregnancy should be made by individuals in consultation with their doctors—not dictated by the changing composition of the legislature. The lack of legal protections means that every election cycle brings the possibility of restrictions or outright bans, regardless of what the majority of Granite Staters believe. In fact, polls show that 78% of Americans believe abortion should be a right in every state.

Without this legal safeguard, we risk endangering lives by forcing people to seek unsafe alternatives or travel long distances for care. This disproportionately harms marginalized communities, including low-income individuals, people of color, and those in rural areas. Abortion is essential healthcare, and New Hampshire must take action to ensure it remains accessible and protected.

Passing HCR 7 would send a clear message: We trust individuals to make decisions about their own bodies, and we refuse to let their rights be up for debate every election cycle. I urge you to stand with the people of New Hampshire and support this resolution.

Thank you for your time and consideration.

Brenda Gaffney Larkin

I strongly believe that abortion is a critical part of comprehensive reproductive health care. In New Hampshire we have always stood by personal choice, believing families and individuals are best able to make the best decisions for themselves. I believe individuals and their healthcare providers should continue to have this right protected. Please vote in support of this bill.

Ryan Hueber

It is incredibly important that all women have easy and legal access to abortion. Push this bill through.

Shauna Turnbull

People made promises that they now must keep! Our Motto is Live Free or Die - let NH women LIVE FREE!!!

Carina Self

I strongly support this bill.

Benjamin Penkacik

The right to do what is best for oneself is already enshrined in the declaration of independence as fundamental rights that all have. We should affirm that a woman is able to exercise those rights without the state deciding what that means to her. NO forced pregnancy, NO forced birth, NO forced life alterations. If a fetus is a child, then it can live on it's own outside of the mother. If you feel otherwise, feel free to not have an abortion. That is your right to pursue your own happiness without infringing on that same right for others.

Kathleen Malsbenden

As a woman with 2 daughters and granddaughters we have the right to dictate our own health needs. Gov’t should stay out of our lives and let us make our own decisions. Gov. Ayotte even agrees.

Kathleen Veilleux

Just do the right thing.

Stephanie Barnes

ABORTIONS ARE HEALTHCARE!!!

Elizabeth Stowe

Medical decisions should be within the private domain of the patient & between her/him & their medical care provider.

Meghan Desrosiers

Please don’t let New Hampshire become a state with elevated maternal death rate statistics. Let’s be on the right side of history and support women and their access to comprehensive reproductive health care.

Emily Welsh

Abortion is healthcare

Jamie Deer

If abortion access is to be left up to the states, I would like the ability to choose what is right for me and my family. I would like to be able to choose an abortion without interference from the government.

Heather Mane

As a practicing physician, I fully support the need for women and their families to be able to make a personal decision regarding ending a pregnancy. This is a basic and incredibly important right for women to have over their own bodies, and government should not be a part of this decision making

ALISON SCOTT

Abortion is healthcare.

Colin Falvey

Abortion is proven to save lives. Getting rid of this gets rid of a live saving measure. Most people only use it as a last resort.. As an EMT my self seeing young girls get raped and needing this, or emergency abortions due to complications. Somthing like this shouldnt even be a debate.

c Falvey

Abortion is proven to save lives. Getting rid of this gets rid of a live saving measure. Most people only use it as a last resort.. As an EMT my self seeing young girls get raped and needing this, or emergency abortions due to complications. Somthing like this shouldnt even be a debate

Corrin Wilson

Please give women the option to make their healthcare decisions with their doctors. Politicians shouldn’t get a say. Stay out of my uterus.

Douglas Scott

Abortion is healthcare.

Rebecca Tancrede

Reproductive healthcare should be available to women without question or government intervention.

Brian Harris

Keep NH free!

Alexandra LaSala

Support women’s right to make decisions about their own bodies. No woman wants an abortion. It’s a horrible choice that is done with the best intentions.

Anne Eiseman

I strongly support a woman's right to choose. This is a basic healthcare and is so important that a woman and her doctor should make these very personal decisions

Nicole Burke

Please, for the sake of our daughters, nieces, and granddaughters, have the courage to end the fight against abortion as responsible healthcare that MUST be accessible to those in need or those who choose. We have to stop policymakers from making medical decisions that are reckless and dangerous for the women we love and respect without any actual knowledge on the matter.

Janet Perkins-Howland

As an OB in NH for nearly 30 years, I strongly support this bill. This is in line with NH values of personal choice and freedom. It has wide public support.

Desiree Crossley

Our right to access life-saving medical care, make decisions about our bodies, or simply not be pregnant shouldn't be left up to the whim of whoever's sitting in the state house.

The solution is to affirm abortion in our state law to guarantee it can't be taken away.

Diana Papageorge

it's my body my business

Jeffrey Huber

As long as women's rights do not exist in New Hampshire, the state does not have human rights. I SUPPORT women's rights in New Hampshire.

Paige Craven

The State of New Hampshire believes firmly in our motto, Live Free or Die. How are we supposed to live free when women do not have the freedom to make the most basic medical decisions? I am so deeply exhausted by fighting again and again for this sacred right to be protected. Women should not need to fight tooth and nail, sharing our traumas and personal stories, just to earn the right to be treated as an autonomous human. This legislation gives me hope that we can finally have the security of knowing that our medical decisions will be our PRIVATE decisions to make.

As a medical provider who practices psychiatry, I see the consequences of a lack of personal autonomy every single day. Trauma, such as forced birth, begets trauma. The effects of forced pregnancy and birth affect generations. If this bill does not pass, I, and other mental health professionals, will still be here to pick up the pieces - but so much trauma could be avoided by protecting the freedom of choice.

I am a mother. I have a daughter. She was desperately wanted and is fiercely loved. Motherhood was MY choice. I am begging the legislators in our state to ensure that she has the right to make her own choice about motherhood, in her own time. The freedom of choice is right for women, right for families, and right for New Hampshire.

Now personally I'd prefer an amendment to the state constitution to this same tune, but I'll take whatever we can get to forward the cause of securing a woman's right to choose in NH. Frankly, it's absurd that we're the only state in New England that doesn't protect a woman's rights constitutionally, while over THREE QUARTERS of the NH population support that right. This feels an awful lot like a minority of lawmakers are holding its citizens hostage, and I'm getting a little tired of that song+dance.

Cora Panella

Our right to access life-saving medical care, make decisions about our bodies, or simply not be pregnant shouldn't be left up to the whim of whoever's sitting in the state house. The solution is to affirm abortion in our state law to guarantee it can't be taken away. I am a woman who has all my life dreamed of having a family and my decision to willingly become pregnant in a New Hampshire some day is dependent on having access to abortion should that be necessary for my health. The women in my family had a long history of miscarriages and ectopic pregnancies that have required medical abortions. As excited as I am to be a mother one day, I do not want to die to fulfill that dream. Please protect your citizens by passing this HCR 7.

Nathaniel Blair

The government shouldn't be interfering with a person's freedom to make decisions about their own body that don't affect anyone else. It goes against what our state stands for. As such, passing is resolution affirming that freedom to choose should be a no-brainer.

Grace Guthrie

Abortions are necessary medical care. Fetus are not able to be properly passed when experiencing a miscarriage. That trauma alone is awful, but adding the side effects that could have are even worse. Little girls shouldn't be afraid to get their periods because they could be raped, impregnated and forced to carry a pregnancy or die trying. Banning access to abortion will increase suicide rates and deaths of women and children. Girls can get their period as young as 8 years old. Imagine an 8 year old girl, small and scared, in a damn delivery room with a swollen stomach when she should be playing on the playground. Women bodies do not belong to the state. Our children's bodies do not belong to the state. Our bodies belong to us.

Johanna Cannon

Abortion is healthcare. Please support this bill.

Maggie Purcell

Good afternoon, ladies and gentlemen. I am writing to you as a 25 year old woman who's life was saved by my ability to choose to terminate my pregnancy, and who desperately wishes to preserve this right for all women in the great state of New Hampshire. Back in 2022, my partner and I made the decision to grow our family, and were thrilled when I became pregnant. Unfortunately, that joy quickly turned sour. I began to suffer from a condition called Hyperemesis Gravidarium, a rare complication of pregnancy that results in excessive vomiting.

I vomited multiple times a day, I could not keep any food or water down. I became severely dehydrated, and had to be hospitalized multiple times in order to receive IV fluids. I was so weak and dizzy that I could barely get out of bed. I would vomit while at work, and had to quit my job because I couldn't complete basic tasks. I would vomit in the car, and so had to make the decision to stop driving for my own safety and the safety of others. I would vomit even when my stomach was empty, burning my mouth and throat with stomach acid. I became so dizzy and weak that I could hardly stand to get out of bed. I was so sick that I lost 16lbs in the first 6 weeks. I was so miserable, and in so much pain constantly, that I regularly had suicidal thoughts. I was not alone in my suffering, as a study conducted by in the UK in 2021, published in the Royal Society of Medical Journals (PMCID: PMC9574451 PMID: 36262812) which surveyed women suffering from hyperemesis gravidarium found that " 4.9% of women surveyed reported having previously terminated a wanted pregnancy as a consequence of HG with a further 52.1% considering it. 25.5% and 6.6% of women reported occasional and regular suicidal ideation respectively".

While primary and secondary care is available, such as anti-nausea medication, it doesn't work for every woman. I was, unfortunately, one of those women for whom it did not work. As I continued to get more and more sick, and weaker as time went on, I was faced with a heartbreaking reality: I could not handle the symptoms of my pregnancy, either mentally or physically. My partner also could not handle the burden of being the sole financial provider for the household, as well as caring for me as I became bed-bound due to my illness. At 11 weeks, my partner and I made the heartbreaking decision to terminate our much-wanted pregnancy.

It is not a decision I would wish for anyone to have to make. It broke my heart, and every day I think of the "what if's". What if I hadn't been sick?.. What if I hadn't been able to get an abortion? Ladies and gentlemen, I beg you, please protect the reproductive freedom, health, and well-being of New Hampshire women. I truly and whole-heartedly believe that if I hadn't been able to terminate my pregnancy, I would not be here today. I would have left behind my partner, my family, and my friends in order to escape the agony of hyperemesis gravidarium.

My appeal to you, ladies and gentlemen, is to please not put New Hampshire women in that position.

Don’t put us in the position where death is the only answer, the only escape. Please protect our right to terminate our pregnancies if we need to. I wholeheartedly trust in the goodness and decency of humanity to do what is right, please don’t let me down. Thank you for your time, and your consideration.

Katherine Lutarewych

I support HCR7 because I support women's reproductive freedom and her right to have an abortion, prior to 24 weeks gestation. Abortion care is an aspect of reproductive health care, and a mother with her family should not be denied control of this decision.

Sam Morrison

"Mother knows best", it's a cornerstone of our society taught from an early age via fairy tales and reinforced through our lives. Biologically, when a woman becomes pregnant she changes- genetic material from her baby flows through her body making her a mother. If a woman, as a mother as well as a human being, decides that it is in the best interests for her child to die, who are we to say she is wrong?
Medical professionals cannot, unless very specific circumstances are present, perform an abortion without a woman -mother's- consent. While we cannot violate a medical professionals right to refuse to perform an end of life procedure, we also cannot deny a mother's right of basic bodily autonomy. This is not a political issue, this is a deeply personal medical issue that should be handled with the greatest care by a woman and her medical professional. Not regulated by a woman, her medical professional, and a government that is weighted with men who have no ability to naturally carry another's blood, genetic material and soul within their bodies.

While NH does not have overly strict abortion laws compared to some in the union, it does have vast swaths of medical care deserts. This lack of access to abortion already risks lives of those who society has deemed some of the most vulnerable. By removing or unduly restricting the already sparse access, the state is overstepping every woman's constitutional right to no taxation without representation as well as freedom to pursue happiness.

Bring this state into the modern era and protect women’s lives.

Nicholas Geraci

Regardless of ones personal beliefs or preferences, the option should always be available to women so that they can make choices for themselves, not be forced into an option that may be disastrous to the health and continued well being of not only themselves but their would be children.

Heather Tillberg-Webb

Doctors working with their patients are best informed to make difficult decisions, often needing quick decision-making for the best outcomes for the health of a woman and fetus. We can't imagine every scenario, nor should we. Miscarriages are spontaneous abortions, and sometimes need intervention (d&c) to avoid septic infections. Unviable pregnancies, sometimes not clearly unviable until late in the pregnancy need options when facing heartbreaking outcomes. Abortion care is a critical component of women's health care.

Sharon Racusin

This is a good bill. My right to terminate my own pregnancy, prior to 24 weeks gestation, shall not be denied or infringed upon in this states

abortion is basic health care and protects our freedom to make our own care decisions.

Rhonda Robinson

Women should have control over their own bodies and need adequate health care to support their choices.

Susan Hechler-Lynch

Good Morning Committee Members,

I am a 44 year health care provider but am writing as a private citizen today. I am writing to urge you to pass resolution HCR7 for the following reasons

I believe that abortion is a critical piece of reproductive health care which of course is a large component of health care in general for women and their families. I am quite certain that we all value our freedoms as New Hampshire residents. That includes the freedom to make our own decisions for our health, including pregnancies, without government interference. Each pregnancy, person and situation is different. One cannot be on the sidelines making very personal decisions for someone else.

Many legislators and candidates in the 2024 election cycle promised not to further restrict abortion. Lawmakers now have the opportunity to fulfill those campaign promises by voting in favor of HCR7. HCR7 gives New Hampshire residents the freedom to end a pregnancy prior to 24 weeks gestation without denial of this right or infringement by the government.

Pregnancy is complicated and complex. Patients and their health care providers are best qualified to make decisions about a pregnancy, NOT politicians. This resolution recognizes that we must trust doctors and patients- not politicians- to make very personal informed health care decisions. During my 44 years in medicine I have seen situations too numerous to count and too complicated to count involving pregnancies and the decisions surrounding them. There is no one size fits all and no one is qualified to make any kind of decision for a patient other than the patient. This is the case for any type of health care issue. Pregnancy being a very important one.

With this resolution , lawmakers can affirm their commitment to protecting reproductive freedom and opposing further restrictions and barriers to abortion. Now is the time for actions, not words.

Living a safe and healthy life is a basic right. I ask you to strongly consider giving Granite Staters the ability to get the care they need without worrying about threats to their health, freedom or well being.

Thank you,

Susan Lynch

Morgan Hallock

Please! We are witnessing the demise of America and we need to fight back. This is a step in taking back America for the people.

Stuart Brune

I support the recognition of abortion as a critical component of reproductive health care. This will ensure that individuals will be able to make a choice as to what is right for their families, lives and health care. If abortion is to be decided at the state level, I want it to have explicit legal protections and that it will not be determined by the personal preferences of whomever is currently in office. It will also provide protection from federal governmental overreach. One of the reasons that I moved to New Hampshire is because the state’s belief in individual freedom and this will help cement this ideal.

Ellen Brune

I support the recognition of abortion as a critical component of reproductive health care. This will ensure that individuals will be able to make a choice as to what is right for their families, lives and health care. If abortion is to be decided at the state level, I want it to have explicit legal protections and that it will not be determined by the personal preferences of whomever is currently in office. It will also provide protection from federal governmental overreach. One of the reasons that I moved to New Hampshire is because the state’s belief in individual freedom and this will help cement this ideal.

C Scollans

Abortion is a critical procedure for women’s healthcare. I support this bill.

Julia Guilmet

My body my choice.

Suzanne Butler

I am not sure why anyone feels that they have the right to determine what I DO with my body. Trying to get pregnant, stay pregnant, give birth without dying, raise a healthy child - NONE of these things involve anyone else besides myself and my husband. You have no involvement in my life so why should you get to make any decisions about my life?

Kristen Lovell

Having a history of recurrent pregnancy losses, some requiring “abortions” it is so imperative that abortion care remains healthcare and available to anyone, no matter the circumstances.

Kelly Griffin-Brown

Please allow abortion decisions to stay between a doctor and their patient.

Laura McAlevy

Keep the government out of women’s health care!

Julia Tennant

Honorable House of Representatives — I'm writing in support of this bill to ensure the safety of women, families, and children in the state of New Hampshire. The people deserve the freedom to be able to terminate their pregnancies up to 24 weeks for any reason. Any encroachment on this right ties the hands of not only patients, but also medical professionals who rely on expert clinical judgement and science to make the safest choices alongside their patients — often in emergent situations that can jeopardize the health of both mother and fetus. Abortion is a necessary part of obstetric health care and should remain as such.

Fern Greenberg-Wolf

I support this bill because abortion is a healthcare issue.

Judith Harlow

I believe everyone should have a right to have access to an abortion. It is a family decision not some else’s. Nh needs to take steps to ensure access is and will remain part of their reproductive rights. It is a human right to control one’s own body, not anyone else’s. This is a deeply personal issue and decision, it is about the right to do what’s best for one's self. It is the individual’s future life at stake and NH needs to step up and protect that right.

Sarah Nolan

Abortion is healthcare. Medical decisions should be made by a patient and their doctor, not by the government.

Heather Pisani-Kristl

I would like to see New Hampshire affirm that abortion is a legal medical decision.

Erin Bradt

I have written in on a number of bills that have attempted to remove this right and I don't have the capacity to write again about the horrors I and others I know have experienced. I am thrilled to see this bill come forward to support women's health. Thank you. This makes me proud to be a New Hampshire resident.

Susan Woods

I oppose.this bill that further restricts access to abortion.

Sandra May

Despite all the campaign promises from our now-governor to reject any bills restricting abortion rights, various House Republicans made it an early priority to restrict the freedoms of New Hampshire women and endanger their health care. It is past time to permanently safeguard the right to terminate a pregnancy prior to 24 weeks gestation.

Nancy Wiggin

I am in support of HCR7. I believe it is an important part of healthcare for women. I believe women should have access to abortion which allows them to make their own healthcare decisions. I believe a women along with their families and doctors should have the right to terminate a pregnancy prior to 24 weeks gestation. Please protect this precious right women have over their own bodies.

Thank you,
Nancy Wiggin

Betsy Kelleher Horne

Healthcare is a right! Abortion is healthcare. This is a decision between a woman and her doctor. We must protect a woman’s right to bodily autonomy!

SHARON BROWN

I am a conscientious NH voter.
If abortion is not treated as part of the right to equal access to health care, then the lives and health of those who are pregnant are put at risk. Medical providers should not be afraid to help their patients make informed decisions, or to jump into action when their patient's health or life are at stake.
New Hampshire is the only state in New England without any explicit protections for abortion access in our state law or Constitution. Abortion is a critical part of reproductive health care. HCR7 affirms the position that New Hampshire will not further restrict abortion - what many current lawmakers, and Governor Ayotte, promised on the campaign trail.
Thank you for your consideration.
Sharon Brown

Jacqueline Romano

I am proud of the members of the house who sponsored this bill.

Sheryl Tedford

I support this bill, stop mixing medical needs with politics. Doctors and their patients are most qualified to make the choices they need. NH and women need this bill more than ever.

Jordana Gruber

Abortion is a human right.

Loretta R Laurenitis

Health care for women includes abortion as a choice and option for health care decisions of women. It must be protected from the everchanging whims of the political climate, politicians, political operatives, and religious factions that seek to impose their personal beliefs on all of womanhood.

Please support HCR7 for the sake of all NH women and those who love them.

Kevin Sadonsky

I strongly support New Hampshire's HCR7 because it affirms that abortion is essential healthcare and protects individuals' right to make personal medical decisions without political interference. This bill aligns with New Hampshire's bipartisan history of respecting reproductive autonomy, exemplified by the 1997 repeal of an outdated abortion ban, while addressing the urgent need for explicit legal protections in a state that remains the only New England outlier without codified abortion rights. By ensuring access to care up to 24 weeks gestation, HCR7 respects complex medical realities and prevents politicians from imposing one-size-fits-all restrictions like the proposed 15-week ban that would endanger patients. I believe healthcare decisions should remain between patients and doctors, free from ideological agendas - a principle supported by 78% of Americans who agree abortion access shouldn't depend on election outcomes. Enshrining this right in state law is crucial to safeguard New Hampshire families from ongoing anti-abortion attacks and ensure bodily autonomy remains foundational to our "Live Free or Die" values.

Lena Cardell

I support this bill. Please pass it and protect access to critical healthcare for women.

Eileen Flockhart

As a former member of this committee for 3 terms, I strongly oppose this bill. We all learned the hazards of unintended consequences and this bill is full of them. They do no service to the rights and protections of the child and do irreparable harm to families from a misguided minority.

Please vote ITL, NH citizens will be watching

Kelly Bennett

Abortion is health care. End of argument. If this was an argument over a mans penis the entire country would be supporting it. Stop criminalizing women who need basic reproductive heath care. Save abortion rights in nh. Live free or die shoildnt become dont live free and just die (if your a woman in crisis.)

Sheila Nolan

We need to protect women’s rights to reproductive health care! These decisions should be made with doctors - not dictated by politicians who know nothing about individual circumstances and health conditions.

Sherri Watson

Every human should have the right to decide what is right for their body.

Cecelia Simon

New Hampshire is the only state in New England without explicit legal protections for abortion in its state law or constitution.

When abortion is not protected in the state constitution, politicians hold our bodies hostage, using our reproductive rights as a bargaining chip for political gain. Without constitutional safeguards, our ability to make personal medical decisions is dictated by lawmakers, not by our own health, circumstances, or autonomy.

Every politician in this state campaigned on protecting abortion rights. Voters showed up based on those promises. Yet without constitutional protection, those promises are meaningless—easily reversed by future lawmakers or political shifts. If every politician truly stands by their word, they should ensure these rights are permanently protected.

This is about more than abortion—it's about whether the government has the power to force someone to give birth against their will. When the state mandates pregnancy, it seizes control over our bodies and futures. If the government can force pregnancy, what else can it control?

Our rights should not depend on who is in office. Enshrining abortion protections in the constitution guarantees that no politician, no election, and no ideology can strip us of our bodily autonomy. This is not up for debate—our rights must be permanent, protected, and beyond the reach of political games.

Support HRC7
Thank you for your time,
Cecelia Simon -North Hampton, New Hampshire

Marguerite Tucker

I believe abortion is a critical component of comprehensive reproductive health care and should be left up to a private decision made between a woman and her physician when considering her overall health and necessary medical treatment.

Karen Kimel

Woman should have the same body autonomy as men. Period.

Leane Garland

Yes! Let's depoliticize the abortion issue and ensure that all types of health care are available to women. These decisions are between women, their families, and their doctors; let's enshrine those values in our system and our laws! Vote to support this Resolution.

Kathryn Whalen

At a time in which womens' lives and health are under attack from ignorant, uninformed misogynists parading as politicians, it is crucial to protect lifesaving abortions in state law. Many anti-abortion folks don't have any medical knowledge or awareness of how critical "abortion" related care could be for them as well, in the event they have a spontaneous abortion (miscarriage!), are hemorrhaging prior to or following childbirth, have retained plaenta that leads to sepsis, etc. In the recent case of my own cousin, her life was (barely) saved by an emergency d&c a week after she had given birth when a placental retainment turned into sepsis. This is considered abortion care and would be inaccessible under the monstruous "laws" some of our current politicians want to use to control women. We need laws like HCR7 to protect women, even those that are uninformed on this topic but who should still have access to lifesaving care when needed.

Amy Simoneau

Abortion is a critical component of comprehensive reproductive health care. Our right to access life-saving medical care, make decisions about our bodies, or simply not be pregnant is too important to be left up to the whim of the person sitting in the state house. The time is now to codify abortion rights in our great state. Pass HCR7.

Reina Ellis

An individual's right to terminate their own pregnancy, prior to 24 weeks gestation, shall NOT be denied or infringed upon.

Daniel DaSilva

Abortion is not a right as SCOTUS determined in throwing out the Roe v Wade debacle. Supporters deceive the public and legislators to believe it is life-saving medical care when 99 percent of abortions are performed on pregnant women who simply choose not to be pregnant.

Stop this cycle of state supported lies and death.

State law should never support the mass destruction of life in any form, especially its vulnerable earliest form.

Elizabeth Clifton

I support this bill. Abortion is a human right and is only the choice of the woman undergoing the procedure.

Carey Cahoon

No must protect women’s reproductive rights to ensure the health, safety and quality of life of NH women.

Meryl Carmel

I stand in support of a woman's right to make decisions about her body and private life.

Elizabeth Vande Velde

Medical decisions should be between the patient and her doctor. There should not be any meddling by any level of government in this type of decision. Having this right enshrined would be a huge win for women and families in New Hampshire. I fully support this bill.

Joseph Braught

My spouse has worked in women's health for years and has seen how a lack of care options can lead to terrible outcomes for women.
We need to ensure women can get the care they need in our state.

Douglas Carmel

I support abortion access and reproductive freedom! Do not deny women the right to choose.

Molly Litt

I wholeheartedly support this bill.
Abortion is vital reproductive care and needs to be protected. The lives and bodies of women are not a political playground, and this bill will give women, and abortions, the respect they deserve.

Bliss Martin

The right to abortion is fundamental—not just for personal autonomy but for women's health and safety. I've heard heartbreaking stories of those forced to carry pregnancies despite medical risks, and I can't imagine bringing children into the world without the ability to make that choice.

Some people know they can't provide for a child, and having a safe, legal option prevents more children from ending up in already overwhelmed systems. History has shown that abortions don't stop—they just become more dangerous when access is restricted. Protecting this right ensures that people can make the best decisions for their health, future, and families without unnecessary risk or suffering.

Jennifer Komisarek

My sister has had 5 miscarriages and would be dead and my niece never born if she didn't have access to abortion care. Take care and protect the people with a uterus. Why does health depend on who is in political office?

SUSAN TUFTS-MOORE

I ask you to support HCR7 as I firmly believe in the woman's right to choose what happens to her own body. This includes abortion as a very important part of reproduction health care, which should be a human right for all of us in the state of New Hampshire.

We should be able to access the health care that we need without the worry about threats to our health, freedom, or general welfare. The New Hampshire Legislature must do what it can to support our citizens in making our own choices about our future lives.

HCR7 must be adopted so as to support the position that New Hampshire will not further restrict abortion and that women will have the right to make their own decisions about their own bodies.

Eleanor Cochrane

Access to safe and timely abortion is an essential part of appropriate healthcare for Granite State women. As a nurse with a background in maternal and child healthcare, a care coordinator and patient advocate, I strongly support this bill and expect you will as well. Our women deserve the best care.

Dylan Robinson

Hello. The decision to have an abortion should be left up to the individual. We do not all share the same ethics and spiritual views, do not force those of the many onto the few.

Jane Oldfield-Spearman

I believe that women should have the right to make their own health care decisions, including when it comes to their reproductive choices. Please pass this bill!

Alison Batey

I affirm this bill to put no further restrictions on abortion and to allow women and their doctors to make the choices that make sense for their bodies.

Taylor Matthews

I support this bill. Healthcare includes all forms of care, abortion is a critical component of comprehensive reproductive health care, and access to abortion allows people to make decisions about their families and their lives.

Stephen Zakur

NH residents deserve the best healthcare no matter what.

Christopher Tibbetts

A woman's right to make decisions about her own body i should be absolute and that discussion belongs only between her and her doctor. This bill is a step in the right direction for the people of New Hampshire.

Kristin Atkinson

Abortion is healthcare and should be protected by NH law.

Eric Yehling

Access to abortion is fundamental to human progress

Laura Brown

Please adopt this bill so we can all have rights to healthcare when we need it. A woman’s decision is a woman’s decision.
Passing a law should not mean that one person ‘wins’ while others lose. This bill allows choice. That’s it. Each person decides for themselves how to care for their bodies which affects their lives directly.
This ha k you,
Laura

Mimi White

Abortion rights were promised by our governor!

Jenna Luek

A right to abortion protects life. Abortions will still happen if individuals do not have the right to abortion but become hidden and dangerous. Abortion rights are health care.
From a finance perspective, unwanted births often become a burden to tax payers who cannot support their children.

Peter Degnan

I support HCR7 as a mechanism to ensure that the legal rights to reproductive healthcare including pregnancy termination remain available to women in the state of NH. Thank you.

Daniel Kirby

I support this resolution to allow and secure individual choice for reproductive health care

Karin Lewis

It’s time to let women determine the health care they need for themselves.

Anastasia Glavas

I support a woman's right to choose as part of her own personal healthcare. I support this bill regarding abortion as a critical component of reproductive healthcare.

Emma Sheehan

I support this bill.

Eliana Forciniti

My daughters deserve to have at least the same freedoms I did.

Daniel Milton

I want to ensure my daughter has access to all the healthcare she needs, when she needs it, in the state of her birth. This bill is clear and consistent with New Hampshire's history of not over regulating personal choices. Please keep the state out of a difficult decision that should be made only among the women affected, their families, and their physicians.

Carolyn Ogren

Abortion health is a critical component of a women’s healthcare. Placing restrictions on a women’s right to choose what is best for her is a critical right for the autonomy of her body and life.

Susan Curtis

I support a women’s right to choose.

Steven Brown

Decisions related to pregnancy are complex and involve a variety of moral questions that are difficult to answer. Because of this complexity, such decisions must be made by the individuals involved, not by government. This Bill would ensure that individuals will be able make these difficult decisions for themselves. Please support it.

Megan Kettmann

NH's motto is "Live Free or Die" and the right for a woman to make medical decisions with her doctor literally can fall into the two categories of freedom or death. The government has no business being involved in those decisions. Religion has no place in our government and applying somebody else's religious beliefs to my medical care is a violation of my religious freedoms.

Lindsay Cooper

Women should have the right to their own body and decisions. We don't need white men telling us any different.

Tova Searleman

Reproductive rights are human rights. Please do not restrict access to abortion for those who need them. The basic rights of pro-life individuals would not be suppressed in passing this bill, as no one against the procedure would be compelled to go through with one.

Patricia Kelley

NO government is more qualified to make decisions about reproductive health care than a doctor and their patient. This resolution recognizes that we must trust doctors and patients, NOT politicians, to make informed health care decisions.

Veronica Leeds

Thank you for your heroic work in protecting bodily autonomy and preventing our daughters from being subjected to fascist regulation of their bodies.

Barbara A Lathroum

Abortion should be included as an option and as a lifesaving option in any comprehensive women’s health plan.

Jessica Shelton

It is important to me, as a resident of New Hampshire, that family planning decisions remain between me and my husband with our doctor and our faith to guide us should there be medical issues. Abortion is a medical procedure and should be protected.

Alison Thatcher

To the Members of the Health, Human Services and Elderly Affairs Committee,

It is frightening to live in a time when politicians, without any medical expertise, want to stand between me and what could be life-saving medical care. We have seen across the country how health care providers are chilled by legislation attacking reproductive care. Women must wait until they go into sepsis before they can receive health care. Women who have an ectopic pregnancy may be denied an abortion because legislators who, once again with no medical expertise, do not understand the need for full reproductive healthcare. I heartily support this measure that would protect New Hampshire women by acknowledging that abortion is indeed part of critical, comprehensive reproductive healthcare.

Respectfully,
Alison Thatcher

Dr THERESA SMITH

The government has no business intervening in diagnosis and treatment. Abortion may be necessary in some circumstances best left to patients and physicians to assess. Some time ago a friend of mine was diagnosed with an aggressive breast cancer while she was 3 mo. pregnant. She was informed she could carry the pregnancy to term but would probably die if she did not treat the cancer; on the other hand, the treatment would target rapidly dividing cells (the tumor, but also the pregnancy) and so she would lose the pregnancy if she saved her own life. She chose to try to live. Today she is the mother of a fine set of twins, conceived after her cancer treatment. Should it be a capital offense to get cancer while pregnant? Of course not.

Chandra Reber

I support the recognition of abortion as reproductive care. Abortions occur for many reasons and no one but a woman and her medical care providers should be determining when an abortion is the best intervention for the situation. Opponents forget that their religious views do not belong in anyone's exam room but their own. Opponents also forget that making abortion illegal only results in more death because they will continue to happen, they'll just be unregulated and dangerous.

Brandon Nichols

This is common sense, stop allowing pregnant mothers to be put at risk

Cynthia Couture

Please Vote in support of this bill protecting healthcare access including the right to an abortion.

abortion is healthcare and can be a lifesaving measure for expecting parents with health conditions. peoples lives should not be in the hands of lawmakers.

Karen Mullen

I strongly support this bill! Women have the right to control their own health and bodies!

It shouldn’t even be a question.

Peggy Sheets

Abortion is HEALTHCARE. Respect a woman's right to make choices for her own body. As elected officials it is your responsibility to recognize the sentiments of the MAJORITY and, if you look at accurate information regarding this issue, you will OPPOSE this bill.

Leanne Bernier

I value women's healthcare rights and reproductive rights!

Mary Nichols

Reproductive Rights are Women’s Rights and abortion should be a part of reproductive care.

Brandy Hardiman

Please support this bill so those that need it have the choice and opportunity to make the decision that is best for them. Thank you for your consideration.

it absolutely is healthcare

Catherine Bergeron

I strongly support this bill. Access to life saving medical care should not be able to be changed on the whims of a legislature that changes every two years.

Alison Murphy

I support this bill because I believe abortions are healthcare, and to have a healthy, thriving society, we must provide access to abortion to our people.

Jennifer Schaffner

Abortion is healthcare. It doesn't matter what your religion says. It doesn't matter what your personal beliefs are. The fact is that abortion is healthcare. The fact is that abortion can save lives. The fact is that abortion is a difficult choice that some individuals must make, and we must make that choice available to them.

Kerry Gleeson

Every individual should have the right to make their own healthcare decisions for themselves.

Rebecca McBeath

I strongly support this bill.

John McIntyre

As a father to 3 children born in the State of New Hampshire, two of whom are females of reproductive age, I support this bill. We all have the right to make decisions about our bodies and our futures without interference or prejudice.from our government.

Catherine Makem Boucher

Every US Citizen should have a fundamental right to healthcare - and should be allowed to make their health care decisions for themselves (assuming they are of their right mind). It is not your job to police health care.

Deanna Wilson

As a mother of 3 who knows just how many difficulties you can face in a pregnancy and the cost of raising children, physically, mentally and economically I am in full support of any and all bills that support abortion as healthcare. Each of my pregnancies was more difficult than the one before with my last one putting me in the hospital for over a week to stop pre-term labor and then on bedrest for over a month. We are lucky that not only was my husband's job stable, but my job also provided short-term disability benefits so we could make ends meet while I was on bedrest. We also were blessed to live so close to family who had flexible work schedules and were able help with my other 2 children who were 1.5 and 3 years old at the time. Even with that there were a few hours each day where I was alone with my children and therefore could not stay in bed but tried to limit my movement from bed to sit in the playroom to watch them.
The actual labor also nearly killed me due to blood loss with the doctor elbow deep trying to get every last piece of retained placenta out while also giving me meds to help stop the bleeding. After that I was told if I ever became pregnant again, I would likely die along with the baby. We are lucky enough to have wonderful health insurance (which is unusual in our country) and my husband was willing to get a vasectomy (which some men are not). I know that if that vasectomy did not work and I ended up pregnant again I would have likely had to use abortion services in order to be there for my 3 boys.

The best and most ethical way to lower the abortion rate it to provide comprehensive healthcare including birth control, comprehensive sex education, and assistance for children and families in need. Studies have shown states with better overall assistance programs to support families have lower abortion rates while still allowing abortion as a necessity for healthcare because there are always situations in which we cannot legislate family/health decisions. If you really want to show you are pro-life, show us with your legislation that you still care for that child after they are born, advocate for things like free school lunches and basic healthcare for everyone.

Margaret Sweeney

The intentional termination of human life growing in the womb is NOT "health care". Thank you in advance for having the courage to protect this vulnerable population of human beings.

Carolyn Walcott

This is about women's health care! NH should never restrict any access to that, & Gov. Ayotte promised to veto any bill that would. Let's protect women's rights in NH.

Hannah Gagnon

Abortion is healthcare, full stop. That should be all the legislature needs, but unfortunately some of you skipped high school level health classes. Abortion is not solely used for terminating unwanted pregnancies but can help the mother when their lives are endangered from complications of pregnancies. Women WILL DIE without legal abortion. If this bill is not supported, the House will always and forever have blood on their hands and I for one, will never forget it.

mary ann haagen

I strongly support this bill to strengthen our rights as New Hampshire women to make our own decisions about our health, and reproductive options. Please help keep our state free from the tyranny of those who would dictate the trajectory of our lives through repressive legislation that opposes reproductive choice.
Thank you.
Mary Ann Haagen

Jennifer Pettigrew

Please protect women's health.

Margaret Gay

I support this bill. Women need to have options and choose for themselves.

Kara Clavio

New Hampshire is the ONLY state in New England without explicit legal protections for abortion in its state law or constitution.

The right of New Hampshire citizens to access life-saving medical care and make decisions about our own bodies should NOT be left up to the whim of whoever is sitting in the state house term to term. The solution is to affirm the right to abortion in our state constitution to guarantee it can't be taken away. Please vote YES on HCR7.

Donnamarie Kelly

SUPPORT HCR7

Tiana Dziedzic

PLEASE SUPPORT HCR7

Roy Dennehy

This proposed bill has the financial support of Planned Parenthood, the state's largest killer of pre-born children in the womb via the evil act of abortion. Why? Because, 90% of their revenue is generated aborting babies in the womb. If you support the sanctity and value of human life, you must oppose this HCR7 legislation.

Karissa Fitzell

I SUPPORT HCR7

Katharine Wentworth

Please take away the uncertainty that women feel about abortion access in NH. Put it into law so that it can't come up for change with every new administration.

Michele Hajj

It is imperative that we keep abortion legal and safe. Women’s lives depend on it.

Anne Winkler

Dear members of the committee,
I would like to record my strong support for this bill. While I myself have not been through a horrific experience, I know people who have had to make this gut wrenching decision because their pregnancy was not viable. This heartbreaking decision should be between a woman and her doctor only. I know the legislator would like to think that government should have a decision in this, but I would like the legislator to answer law comes between a decision with the men and their doctors? None.. because it is very apparent across this nation that controlling a woman's ability to manage the size of her family and make autonomous decisions about her body is simply to control us. It is to make us less effective in the workforce. It is to make us less financially independent so many reasons that are nothing to do with the pregnancy itself.
If the legislators cared about babies being born, they would care about them being educated and not trying to gut their education or their Medicaid or their food stamps or their lunches or their childcare. Hypocrisy at its best. So along with the votes of this bill, I will make sure that the votes on all of the other anti-life bills, all of the bills that do not support a child after it is born or listed with this vote so that the hypocrisy is on full display. I'll also remind you that the people voted unanimously in support for a women's right to choose EVEN WHERE TRUMP WON!
A women's right to choose is NOT up to the STATE!!! I support this bill and 450 of your constituents do as well

stefan wickstrom

STOP MAKING THINGS WORSE, SUPPORT WOMEN'S AUTONOMY.

Allison Lewis

I am in full support of this bill. I am pro choice and I want children. I have some health issues that make me terrified to be pregnant in a state that may outlaw abortions. I deserve to live even if complications arise during my pregnancy that make it non viable. Women deserve to live. Abortion is not a "birth control method" it's a procedure that can save the lives of women that reside and pay taxes and work and thrive in this state. Our motto is live free or die and I choose to live free

Chris Martin

Abortion is Health Care. It is the only safe treatment for certain conditions such as ectopic pregnancy.

Emma Simpson-Tucker

A person's right to decide when and if they continue a pregnancy and/or parent is unalienable. It is a basic human right, and NH citizens deserve to know that their right to bodily autonomy is protected. Abortion is normal, common (1 in 4 people who can get pregnant will have an abortion in their lifetime), and safe (statistically both medication abortion and procedural/suction abortion are both safer than a routine colonoscopy, wisdom teeth removal, and/or plastic surgery). This is a real statistic from the American College of Obstetrics and Gynecology (ACOG).

It’s important for women to protect this area of healthcare.

Phylicia Flood

I think it’s essential to protect our rights as women’s to our own bodies. While I may not choose an abortion for myself, I would never put someone else in a position where I am making that choice for them or the government is making that choice for them. It is their body and their choice.

Eric Emmerling

The State of NH need not further impose restrictions regarding abortions. It is simply a waste of time as Gov. Ayotte has already declared; “If you send me legislation that further restricts access to abortion beyond our current law, I will veto it." Please allow a woman, with support from her family, make important decisions regarding health care on their own.

Sarah Roberts

Safe and ready access to abortion is an essential part reproductive healthcare. People need to be able to make their own choices about what's best for themselves, especially about something as irrevocable as giving birth.

Carrie Hoffman

Access to full reproductive care, including abortion, is crucial to women's health and economic security.

Gina Rainone

I am writing as a nurse, mental health professional, and a woman who has experienced abortion. Restricting access to abortion is unsafe for the future of woman’s healthcare. Doctors become liable for care provided after these strict ban timelines, causing gaps in services. We must maintain access to care for woman throughout their pregnancy. These restrictions are viewing a viable fetus as a moral dilemma but fail to respect the vulnerable mother. Woman's healthcare is complex, restrictions can cause traumatizing consequences to woman. A recent example includes a miscarriage where a woman is forced to painfully eject the remaining tissue for a prolonged period instead of receiving surgical intervention. Legal restrictions cause fear in doctors to care for woman. It can also cause fear in woman to seek care, pressuring archaic measures to protect our own lives.

Katherine Ward

As a healthcare worker I have seen firsthand the need for safe and protected access to reproductive healthcare which includes access to abortion.

The right to choose is something I have unwaveringly supported. It is not only necessary to protect access so that women aren't forced to give birth to babies with terminal diagnoses like the woman in Texas who was forced to birth a baby that had been diagnosed with anencephaly (missing part of the face and or skull) who dies shortly thereafter. Such cases are mind boggling cruel and something that shouldn't happen in America.

Besides severe fetal abnormalities, the right to choose is monumentally important to protect. In the unfortunate, already traumatic event of rape or incest a woman should not be forced to have her attackers child.

Lastly, the right to safe and legal abortion is necessary because birth control can and does fail. In such instances women should have the right to choose wether or not to terminate the pregnancy. Sometimes pregnancies can endanger the life of the mother. Whatever the reason, safe and legal access to reproductive healthcare including abortion must be protected.

The human body sometimes rejects a pregnancy spontaneously and a woman will miscarry and lose the pregnancy. Sometimes this process is incomplete which can necessitate a procedure in which the remaining tissue must be removed or the woman can develop a life threatening infection.

As someone who believes in more personal freedoms, the role of government in such situations should be limited to protecting acces to reproductive healthcare services

Thank You for your time and consideration,

Sincerely,

Katherine Ward

Robert Jones

I support this bill.

Jessica Purdy

Access to the full range of reproductive health care, including abortion, is crucial to women's health and economic security.

Andrew Barrie

Please protect access to life saving medical care. There is supposed to be a separation of church and state. Please do not let religious beliefs sway public policy. Also, in states with abortion bans, infant abandonment has increased significantly. Please help keep New Hampshire's dumpster baby numbers low. I would like to believe less abandon children is better for everyone. If you do not think this way, you might be a horrible monster.

Elizabeth Brosnan

As the Live Free or Die state, it’s essential that New Hampshire pass legislation that protects women’s right to choose their own healthcare and make the decisions that are best for them, including whether to continue or terminate a pregnancy. There’s no more fundamental freedom than the right to control your own body, and no lawmaker or judge knows better than a woman herself about what is best for her own physical and mental health, or her future and that of her family. Please strongly support this bill. Thank you.

Stacey Purslow

Access to reproductive health care is a right of all women and that includes the ability to terminate a pregnancy.

Amy Lance

I believe in a woman’s right to choose. Pregnancy and birth can be extremely difficult and dangerous, and every person should be able to choose whether or not they want to subject themselves to that regardless of the factors leading up to the pregnancy

Joanne Lazarus

Our government has no business being involved in private health matters, this bill is crucial to supporting privacy.

Molly Campbell

At the age of 17 I was groomed by my teacher and when he left his position at my high school he engaged in a sexual relationship with me. By the following February, I had graduated early from high school, had been accepted into the number two political program in the country at American University and was pregnant by this man. A man that was 20 years my senior and married. The pregnancy caused me not just the moral dilemma of whether or not to bring a child into this world or my life; how it would impact my future but it also brought health complications from the very start and immense family pain. I was fortunate that I had the freedom of choice and not forced to bear the child of sexual abuse. I spent my adult life struggling with mental illness, that being only a piece, and ultimately made the decision not to have children at all because I was not prepared to be fully present in the way a child deserves, as a mother. If, as a grown woman, I knew I could not provide emotionally and psychologically for a child after years of mental health care and wellness - the fate I would have sentenced a child when I was still a child myself, to me would have been unconscionable. To punish an infant for the crimes against a victim of abuse is inhumane. To force a woman to use her body in any way she does not want is a form of torture. To believe that any one person, body or organization should have authority over the autonomy of the individual under any circumstance whatsoever, is the very problem we are struggling with today at the very top of our broken nation.

The lack of moral character, self respect and respect for our neighbors we see in elected officials, corrupt businesses and too many of our countrymen has eroded the very ideas this nation was founded on - liberty and freedom. New Hampshire has always prided itself on our motto, Live Free or Die - for us to legislate anything that would cross the bounds of respecting individual liberty shames the very ideals that we are supposedly fighting for. For what? Religion? New Hampshire is the #1 LEAST religious state in the nation. Conservatism? We have voted for ONE Republican President in the last 30 years. In the same time we've had 18 years of Democratic governors and 12 Republican - 8 of those being Governor Sununu who, until this election cycle, was seemingly vehemently anti-Trump and believed in middle of the road Conservatism. We've chosen WOMEN to represent us in the Senate and the House of Representatives for the last 15 years. No one can tell me this is a state that believes in the suppression of individual rights of any kind, let alone women's. These are out-of-state groups with out-of-state money and out-of-state ideas putting pressure on greedy and corrupt individuals elected in our government to fit into a mold that does not represent the people of NH. Codify the right to abortion in NH law. Support this bill.

Diane Bilotta

Gov Ayotte made a promise NOT to change the NH abortion law from 24 weeks. This is her chance to prove that her campaign promise is being fulfilled

Emily Bogart

Please protect women by making abortion, a part of women's reproductive health care, protected. Please help make NH a safe place for women and affirm abortion into state law.

Jennifer Jones

Abortion is healthcare. It’s as simple as that.

Nate Jones

Abortion is healthcare.

I’m for the wellbeing of LIVING, EXISTING PEOPLE. We shouldn’t make women fear for their lives because of others’ morals.

Alina Rapaj

I OPPOSE this bill because all developing, embryos and fetuses ARE HUMAN.

We can ensure mothers safety, care for her when she is struggling help her to adopt her baby out IF necessary and always remove the baby if they are dying or dead in the womb. Abortion is the intentional killing of an innocent human.

Kay May

I support this bill because it affirms what the NH State Legislature has ruled regarding abortion in the past. The laws already on the books in NH relative to abortion do not need to be changed; they have worked well for the people of this State. HCR7 will send a clear message to President Trump to make good on his commitment to State Rights.

Robin Merrow

The more we can affirm by law that there will be no further restrictions to reproductive care, the harder it will be for Republicans to push more bans and anti-choice legislation, like the 15-week ban they just tried to pass last month. This bill will add an element of protection (and precedent) against that happening again.

abortion is healthcare

women shouldn't have to fear political when their reproductive and general health is at stake.

This law can help solidify health procedures, women safety, and allowing people to be in control of their own bodies. This legislation makes sense and there are zero reasons to argue against it

Hillary Hillary

At 20 weeks pregnant, I lost my baby. It was unbelievably sad. What made it worse is that I had to have a D & C - a standard procedure now illegal in anti-abortion states. I HAD to have the operation, or risk infection, the loss of my ability to have kids, or even death. Abortion is absolutely medically necessary healthcare. Sincerely, Hillary Nelson

Renee Comings

Abortion is one of the most important elements of healthcare that a woman can have access to. It ensures safety and does not force any one woman into having a child resulting from incest or rape. Consent and informed decisions NEED to be a part of our healthcare. It is and should continue to be an individuals right to receive this critical medical treatment.

Lucas Merrow

I am a Republican who support reproductive rights and am increasingly concerned by the parties move to the extreme on this issue. I also do not appreciate politicians being vague or even supportive on these rights when campaigning, but then adopting such extreme positions after they are in office. This is a bait and switch, pure and simple and myself and many fellow citizens are already sick of it.

The more we can affirm by law that there will be no further restrictions to reproductive care, the harder it will be for two-faced, extremist politicians to push more bans and anti-choice legislation, like the 15-week ban they just tried to pass last month. This bill would add an element of protection (or at least precedent) against that happening again.

Jamie Pettis

Abortions saves lives!

Charles Rhoades

It is disappointing that there are no men joining to co-sponsor this bill. I am one of thousands of men who support it in NH.

Amy Agostino

I dearly wish I could have testified in person for this bill. It restores the protection women had under Roe v Wade. As an RN who worked for 15+ years in inpatient maternity/labor/NICU care, I cannot state strongly enough that pregnancy is infinitely more complicated than most people realize. Yes, the majority of pregnancies and births are "uneventful", medically. But when something goes wrong, it goes wrong unexpectedly and rapidly, with high stakes outcomes: women die; women rupture a uterus and become infertile; women become life-threateningly septic (and so do their babies); terrible fetal malformities are discovered, which are incompatible with life outside the womb; SO MANY other terrible outcomes.

Which is why it is so critically important that the government NOT be involved in pregnancy care decisions. OB-GYNs have years and years of education and training to deal with emergencies and complications as they arise. Having to work around the government banning certain procedures can tie their hands. We've seen the stories coming out of the south about women dying, almost dying, ending up with lifelong cardiac problems, becoming infertile, etc. Most of these horrible outcomes could be prevented by just letting doctors do their jobs without government interference before 24 weeks.

The reality is that 93% of abortions occur during the first trimester (up to 13 weeks). 6% occur from weeks 14-20. About 1% occur after 20 weeks. (Data from CDC and Pew Research) That 1% seems to be the focus of most concerned people - and that 1% are the life-threatening, unexpected, devastating cases that usually require speedy emergency care. I promise you, no MD worth their license is just allowing women to come into a clinic and say, "I've changed my mind about this pregnancy" that late in the second trimester. Doctors need to be able to respond to these pregnancy emergencies without waiting for a callback from a lawyer.

The women of NH deserve the basic protection of letting them make medical decisions with their doctors. This may be one of the most important pieces of legislation this year. Please let the women and doctors of NH manage pregnancy without unnecessary government interference. Thank you.

Maura Fay

Health care decisions should be left to health care professionals and their patients. Protecting access to abortion at the state level is an important way to ensure that NH citizens retain the right to make their own health care decisions. If you believe that limited government is an important NH value then health care decisions should not be left to legislators.

jonathan wood

keep the goverment out of womens rights only women can make that choice

Shirley Montgomery

I support this bill because I think that an individual's right to terminate their own pregnancy, prior to 24 weeks gestation, shall not be denied or infringed upon in this states. I think that this decision should be made by the woman and her doctor. The right to an abortion in the case of a miscarriage is critical to a woman's life.

Alice Ann Robertson

The ability for a person and family to determine their reproductive outcome is vital to ensuring appropriate healthcare access. Please don't leave access to this capability in the hands on of non-medical officials looking to pander to folks.

Erin Castillo

New Hampshire needs to get with the rest of New England and codify abortion access into state law. It is embarrassing that this is still up for debate.

Patricia Pangan

As a primary care physician in the Seacoast for 25 years, what a person chooses to do with their body is their own fundamental right. Much deliberation and shared decision making is part of one's health care decisions. Having access and the option is an individual's right. Pregnancy termination is not a simple decision and not having abortion as a component of comprehensive health care can endanger the person carrying the pregnancy.

Alexis Simpson

Introducing HCR 7

Good afternoon, Chairman McDonald and committee members.

I'm proud to introduce HCR 7, a simple and straightforward resolution that allows our constituents to clearly see where the New Hampshire House stands on the right to abortion before 24 weeks of pregnancy.

I have heard from so many constituents that they do not want any further restrictions on abortion in New Hampshire. I know many of my colleagues have, as well.

We know a supermajority of Granite Staters want their lawmakers to take proactive action on abortion rights in New Hampshire. NH is the only state in New England that doesn't have the right to abortion clearly spelled out in our state law or state constitution. This lack of clarity is confusing for Granite Staters, and it is our job, as lawmakers, to be clear.

What HCR 7 does is clearly show our constituents what our House position is on abortion: that an individual's ability to access abortion before 24 weeks of pregnancy shall not be denied or infringed upon by the government.

We saw how important abortion was in the 2024 election. So many of us running for office promised on the campaign trail to not further restrict abortion in New Hampshire. Now, it's time to put those words into action. New Hampshire, for so long, has had a long, proud, bipartisan tradition of supporting reproductive rights by voting against harmful legislation. It is important to vote against abortion restrictions and bans, but it's not enough. We, as an elected body, need to show Granite Staters our values, our priorities, and our firm and clear position. We can do that by passing HCR 7.

I respectfully urge you to vote Ought to Pass on HCR 7 reflecting a commitment and an action to not further restrict abortion in New Hampshire.

Respectfully submitted,

Rep. Alexis Simpson
Rockingham 33
Exeter, Newfields, Newmarket, & Stratham

Karenelise Metz

I fully support this bill. Please see to it that our mothers and daughters are ACTUALLY cared for in our state.

Thomas Donohue

I strongly support this bill and implore it's passage. Reproductive rights are inexorably tied to bodily autonomy - and nothing is more "live free and die" than the right to control over one's body.

Hannah Barr

Women in NH and all states deserve the freedom and right to determine what is best for their body, mind and wellbeing. Medical decisions should be left between a women and her doctor without fear of governmental consequences. I fully support HCR7.

Gail Brown

I agree with this affirmation that NH will not further restrict abortion. My votes at the polls reflected the candidates campaign promises.

Margaret Konze

Women are entitled to body autonomy.

People who are already here, existing and living and breathing can't use our body parts for survival without our consent even after death. If I am not an organ donor and my family doesn't agree you can't harvest my organs even if you will die without having them.

How is it that I have less body autonomy when I am alive than I would after death?

Rebecca Hedlund

Do not further restrict abortion. Access to all reproductive health care -- including abortion -- is crucial to women's health and economic security. Don't like abortion? Don't have one -- each woman can choose what's best for herself, in conjunction with medical advice from her doctor.
Thank you.
Your constituent,
Rebecca Hedlund (Portsmouth)

Jessica Trombetta

I believe every human has the right to body autonomy, and the government should not have the final say over what happens to someone else’s body.

Morgan Bolton

While I am a firm believer that abortion is healthcare and should have absolutely no place in politics and anyone should have the right to an abortion as needed no matter at the point in the pregnancy, this is incredibly important for the women of New Hampshire to ensure they have a safe pregnancy. Statistically, pregnancies that are terminated beyond 16 weeks are mainly due to extreme life threatening complications to either the child or the mother. This bill ensures that those needing to terminate for these absolutely devastating reasons can do so safely without fearing legal backlash.

Dani-Jean Stuart

The termination of pregnancy should be a private matter between a woman and her doctor.

ETHAN RODERICK

HCR 7 affirms the position that NH will not further restrict abortion, which is what many lawmakers promised on the campaign trail.
The more we can affirm by law that there will be no further restrictions to reproductive care, the harder it will be for certain lawmakers to push more bans and anti-choice legislation, like the 15-week ban they just tried to pass last month. This bill would add an element of protection (or at least precedent) against that happening again.

Linda L Harvey

"Live free or die." - our state motto.

One of the things I prize most about our state is our commitment to freedom. Freedom of expression, freedom of religion, freedom of speech, freedom of choice.

And yes, I do believe this must include the right to abortion access. Whether a pregnancy is maintained until term or ended early is a decision that should be between the mother, the father (assuming it was not a case of rape or incest), and her healthcare provider. In many cases, abortion is a critical healthcare decision.

In the land of the free, we should be exactly that - free.

Janice Harvey

Abortion is a critical aspect to women's healthcare and that decision should be left between her and her doctor.

Mason Bliss

Abortions are in all too many situations a critically important measure to protect womens' health. While no one is particularly happy about them, they must remain an option when medically necessary to ensure a woman's safety.

Catharine Farkas

Strongly in favor of this bill!

HCR 7 (1)

HCR 7 TESTIMONY FEBRUARY 19, 2025

Hon. Janet Lucas, MD, FACOG

Dear Chairman MacDonald and Committee Members,

For the record I am Janet Lucas and I represent Grafton County District 7. I testify today as an Obstetrician Gynecologist with 37 years of practice and instruction experience in a Catholic Health Care System. During my career, I served on numerous hospital committees, including the Ethics Committee, and as Department Chairperson.

There are many life-threatening complications of pregnancy that if allowed to continue would result in death, severe disability or the irreversible loss of the expectant mother's future fertility. These include placental and fetal abnormalities that cause maternal heart failure in the early second trimester, pre-existing maternal conditions such as certain congenital heart diseases (e.g. Eisenmenger's Syndrome); pulmonary hypertension; kidney disorders; cancers; ectopic pregnancies; a history of postpartum psychosis; alcohol abuse; and IV drug use resulting in bacterial endocarditis. I encountered all of these and other high risk pregnancies when the balance of maternal and fetal well-being challenged all care-givers involved to render the best care based on the most current information and technology available. When the patient was not from my practice, I was still often involved in the decision-making process as head of the department and advisor to the hospital c.e.o. who happened to be a nun. There were times when the only option to save the mother's life was to medically end her pregnancy. As heart-breaking as that decision was for me personally, I never believed we had made the wrong choice. And it was an informed choice made without the unnecessary pressure of policies originating from outside of the medical field.

A study by the Tulane University School of Public Health found that states with more abortion restrictions had a 7% increase in total maternal mortality compared to states with few or no abortion restrictions. To quote the lead author of the study, "It is critically important that state-level policies related to women's access to comprehensive reproductive care services, including abortion, are evidence-based and guided by the primary goal of improving women's health and reducing maternal mortality." The numbers are indisputable. In states with strict abortion bans, women are dying at accelerating rates. States with abortion bans or restrictions have adverse outcomes including declining enrollment in OB-GYN residencies, departure of trained specialists to practice in other less restrictive states, maternity care deserts, and elevated death rates for women of reproductive age.

It's well-known that women make the health care decisions in their families. If they have a good experience in obstetric and gynecologic care, they are likely to refer their family members for other kinds of care to the same facility. Women also influence decisions on where their families will live based on quality of health care, education, and other factors. New Hampshire should be a welcoming state for all families who happen to have female members. I ask you to support HCR 7.

HCR 7 (2)

To the members of the House Health, Human Services and Elderly Affairs Committee:

RE: HCR7

Our state has arguably the strongest tradition of respect for personal individual privacy of any state. When I served in the General Court many years ago, with only a small handful of exceptions, every member of this body upheld that principle as it applied to reproductive rights in general and to the right to choose abortion in particular.

I urge all members of this committee to recognize that any failure to strongly support ALL rights to personal individual privacy will lead to an erosion of New Hampshire's privacy rights more broadly. Granite Staters must proudly stand up for the rights of all, even those with whom we may strongly disagree. If we fail at that, ultimately every citizen's freedom will be at risk.

HCR 7 - AS INTRODUCED

25-0743
05/11

STATE OF NEW HAMPSHIRE

In the Year of Our Lord Two Thousand Twenty Five

A RESOLUTION recognizing abortion as a critical component of comprehensive reproductive health care.

Whereas, abortion is a critical component of comprehensive reproductive health care, and access to abortion allows people to make decisions about their families and their lives; and

Whereas, in 1997 the legislature of the state of New Hampshire, with bipartisan support, repealed an unenforced 1955 abortion ban to ensure access to essential abortion care in this state; and

Whereas, President Trump has stated that the regulation of abortion should be left to the states; now, therefore, be it

Resolved by the House of Representatives, the Senate concurring:

That an individual's right to terminate their own pregnancy, prior to 24 weeks gestation, shall not be denied or infringed upon in this state; and

That the house clerk and senate clerk each transmit a copy of this resolution to the President of the United States Senate, United States Senate Majority Leader, Speaker of the United States House of Representatives, the governor of New Hampshire, the attorney general of New Hampshire and the members of the New Hampshire congressional delegation.
