Senator Daniel Innis
For the Committee

This bill would allow students under age 21 to taste wine, beer, and other products, in certain educational settings. Students who participate in these sip and spit tastings would be supervised extensively. At the beginning of each semester that the course is offered, the Liquor Commission would provide a training program. The course and the training would provide students with an understanding of the risks and benefits of alcohol consumption and how to be responsible users of alcohol as well as identifying its health effects and how to identify those who have been overserved.
