STATE OF NEW HAMPSHIRE

In the Year of Our Lord Two Thousand Twenty-Six

AN ACT creating a motor vehicle license plate for amateur radio operators.

Be it Enacted by the Senate and House of Representatives in General Court convened:

1 1 New Section; Vanity Number Plates; Identifying Decals for Amateur Radio Operators. Amend
2 RSA 261 by inserting after section 89-e the following new section:

3 261:89-f Vanity Registration Plates for Amateur Radio Operators.

4 I. The director of motor vehicles is directed to solicit designs for a vanity plate clearly
5 identifying the owner of the vehicle to be an amateur radio operator and including the call sign of
6 said operator who shall present Federal Communications Commission (FCC) certification as a
7 licensed radio operator upon application.

8 II. If the FCC-issued call sign is not displayed, the registrant may request a standard issue
9 plate featuring a lightning bolt symbol to indicate their status as a licensed amateur radio operator.

10 (a) There shall be no duplication of numbers.

11 (b) The director is allowed to set a fee for the plates as approved by the New Hampshire
12 house and senate ways and means committee. Separate fees may be charged on a per plate cost for
13 the call sign plate and the electric bold style plate.

14 (c) A list of all such plate holders shall be made available to the New Hampshire
15 department of safety, division of homeland security and emergency management, for the sole
16 purpose of contact and coordination of such persons in a natural disaster or other public safety
17 requirement. All other data is privileged per RSA 260:14-a.

18 (d) Nothing in this section shall be construed to confer any special privileges, including
19 but not limited to the use of emergency lights, exemption from traffic laws, or access to restricted
20 areas, except when acting under the express direction of authorized public safety personnel.

21 2 Effective Date. This act shall take effect 90 days after passage.

METHODOLOGY:

This bill authorizes the creation of vanity license plates and decals that identify amateur radio operators by their Federal Communications Commission (FCC) call signs or a lightning bolt symbol. The Department of Safety states this would require system programming changes to accommodate the new plate types and the associated eligibility verification process, at an estimated one-time cost of approximately \$25,000. Vanity plates are produced on-demand, and the cost of plate production, materials, and distribution is covered by existing vanity and plate fees.

It should be noted this bill states that the Director of the Division of Motor Vehicles is allowed to set a fee for the plates “as approved by the New Hampshire house and senate ways and means committee”. It is assumed this means approved separately by the House and Senate Ways and Means Committees, which is a deviation from standard practice, as similar fees are established in statute or through administrative rulemaking.
