STATE OF NEW HAMPSHIRE

In the Year of Our Lord Two Thousand Twenty-Six

AN ACT creating a motor vehicle license plate for amateur radio operators.

Be it Enacted by the Senate and House of Representatives in General Court convened:

1 1 New Section; Vanity Number Plates; Identifying Decals for Amateur Radio Operators. Amend
2 RSA 261 by inserting after section 89-e the following new section:

3 261:89-f Vanity Registration Plates for Amateur Radio Operators.

4 I. The director of motor vehicles is directed to solicit designs for a vanity plate clearly
5 identifying the owner of the vehicle to be an amateur radio operator and including the call sign of
6 said operator who shall present Federal Communications Commission (FCC) certification as a
7 licensed radio operator upon application.

8 II. If the FCC-issued call sign is not displayed, the registrant may request a standard issue
9 plate featuring a lightning bolt symbol to indicate their status as a licensed amateur radio operator.

10 (a) There shall be no duplication of numbers.

11 (b) A list of all such plate holders shall be made available to the New Hampshire
12 department of safety, division of homeland security and emergency management, for the sole
13 purpose of contact and coordination of such persons in a natural disaster or other public safety
14 requirement. All other data is privileged per RSA 260:14-a.

15 (c) Nothing in this section shall be construed to confer any special privileges, including
16 but not limited to the use of emergency lights, exemption from traffic laws, or access to restricted
17 areas, except when acting under the express direction of authorized public safety personnel.

18 2 Effective Date. This act shall take effect January 1, 2027.

METHODOLOGY:

This bill authorizes the creation of vanity license plates and decals that identify amateur radio operators by their Federal Communications Commission (FCC) call signs or a lightning bolt symbol. The Department of Safety states this would require system programming changes to accommodate the new plate types and the associated eligibility verification process, at an estimated one-time cost of approximately \$25,000. Vanity plates are produced on-demand, and the cost of plate production, materials, and distribution is covered by existing vanity and plate fees. To the extent this bill would generate additional vanity plate sales, there would be an increase in state revenue. Demand for such plates cannot be estimated and therefore this bill's impact on state revenue is indeterminable.
