12 sponsored plan.*** The commissioner shall adopt rules under RSA 541-A specifying the form of such
13 opt in, which shall include, but not be limited to, notice to the employer regarding why it is receiving
14 the notification form, the privacy protections for the data submitted should the employer choose to
15 opt in, ***the access to its own claims data that will be afforded to the employer,*** and the

METHODOLOGY:

This bill requires carriers or third-party administrators managing benefits for self-insured employers to notify employers, at the time of plan renewal, of their option to opt-in for submitting their claims data to the NH All-Payer Claims Database (NH CHIS). If authorization is granted, the Insurance Commissioner shall provide such employers access to a utilization report based on the de-identified and aggregated claims data associated with that employer-sponsored plan. The bill mandates that the Insurance Commissioner specify the format for data provided to eligible employers. Additionally, self-insured employers who have not opted into the NH CHIS for claims data submission and do not currently receive their claims data from their third party administrator or plan administrator must be informed of these options.

The Insurance Department states if employers utilize claims data to optimize their health plans, they may reduce costs and lower premiums, which could gradually reduce the state’s Insurance Premium Tax revenue. The Department also states that any additional work required by this new bill could be absorbed into their current budget.
