THE COMMITTEE ON Energy and Natural Resources

to which was referred **SB 228-FN**

AN ACT

relative to the limitations on community customer
generators.

Having considered the same, the committee recommends that the Bill

OUGHT TO PASS WITH AMENDMENT

BY A VOTE OF: 5-0

AMENDMENT # 0718s

Senator David Watters
For the Committee

SB 228 modifies the scope and capacity limits of community solar projects. It allows customer-generators to join group net metering after using their on-site generation and raises the capacity limit for individual low-to-moderate income solar projects to 3 MW and up to 18MW for all projects. The amendment caps compensation at total group electricity costs to prevent excessive payments and adds nonprofit education institutions and special districts or entities, including public housing, as eligible municipal hosts.
