STATE OF NEW HAMPSHIRE

*In the Year of Our Lord Two Thousand Twenty Five*

AN ACT                    relative to the practice of optometry and authorization to perform ophthalmic laser procedures.

*Be it Enacted by the Senate and House of Representatives in General Court convened:*

1            1 Authorization to Perform Ophthalmic Laser Procedures. Amend RSA 327 by inserting after  
2 section 6-c the following new section:

3            327:6-d Authorization to Perform Ophthalmic Laser Procedures.

4            I. Notwithstanding any other provision of this chapter, an optometrist licensed under this  
5 chapter shall be authorized to perform the following ophthalmic laser procedures upon certification  
6 by the board:

7                    (a) Laser capsulotomy.

8                    (b) Laser trabeculoplasty.

9                    (c) Laser peripheral iridotomy.

10            II. The board shall adopt rules under RSA 541-A establishing the criteria for certification of  
11 an optometrist to perform ophthalmic laser procedures with proficiency, including:

12                    (a) Establishment of minimum education, training, and live experience requirements for  
13 a licensee to perform such procedures with proficiency;

14                    (b) Criteria for requiring proctoring and criteria for proctors; and

15                    (c) Outcome reporting requirements for such procedures performed by certificate  
16 holders.

17            III. No optometrist shall perform ophthalmic laser procedures under this section unless the  
18 optometrist has submitted evidence of satisfactory completion of all requirements for specific  
19 procedures and the board has certified the optometrist as qualified.

20            2 Effective Date. This act shall take effect 60 days after its passage.

**HB 349-FN- FISCAL NOTE  
AS INTRODUCED**

AN ACT relative to the practice of optometry and authorization to perform ophthalmic laser procedures.

**METHODOLOGY:**

This bill authorizes optometrists who meet criteria established by the Board of Registration in Optometry to perform certain ophthalmic laser procedures. The Office of Professional Licensure and Certification (OPLC) states that the creation of new license types could lead to indeterminable additional costs between \$10,000 to \$100,000 for processing applications and may require third-party testing contracts for licensure examinations. However, it could also generate additional revenue for the OPLC through fees. Although the Office already has staff to handle licensing for the Board, it is impossible to determine how many optometrists will seek one or more of these new license types.

It is assumed that any fiscal impact would occur after FY 2025.
