THE COMMITTEE ON Energy and Natural Resources

to which was referred **HB 189**

AN ACT

defining "clean energy" and the department of energy's 10-year state energy strategy to include new technology small-scale nuclear energy, renewable energy, and fuel diversity; and, removing references to the energy efficiency and sustainable energy board.

Having considered the same, the committee recommends that the Bill

OUGHT TO PASS WITH AMENDMENT

BY A VOTE OF: 5-0

AMENDMENT # 2140s

Senator David Watters
For the Committee

HB 189 defines “clean energy” to include low-greenhouse gas sources such as small-scale nuclear and renewable energy. It incorporates this definition into the Department of Energy’s 10-year state energy strategy. The bill emphasizes fuel diversity and the inclusion of new technologies in planning New Hampshire’s future. It also removes references to the Energy Efficiency and Sustainable Energy Board from the development process. HB 189 defines “clean energy” to include low-greenhouse gas sources such as small-scale nuclear and renewable energy.
