

Amendment to HB 535

1 Amend RSA 362-A:1-a, II-b as inserted by section 1 of the bill by replacing it with the following:

2
3 II-b. "Eligible customer-generator" or "customer-generator" means an electric utility
4 customer who owns, operates, or purchases power from an electrical generating facility either
5 powered by renewable energy or which employs a heat led combined heat and power system, with a
6 total peak generating capacity of up to and including one megawatt, ***or up to and including 5***
7 ***megawatts for a municipal customer-generator or a public school district customer-***
8 ***generator***, that is located behind a retail meter on the customer's premises, is interconnected and
9 operates in parallel with the electric grid, and is used to offset the customer's own electricity
10 requirements. Incremental generation added to an existing generation facility, that does not itself
11 qualify for net metering, shall qualify if such incremental generation meets the qualifications of this
12 paragraph and is metered separately from the non qualifying facility.

Amendment to HB 535

AMENDED ANALYSIS

This bill raises the total peak generating capacity for group net metering when the generator is a city, town, or school district.
