

Amendment to SB 232

1 Amend the bill by replacing all after section 2 with the following:

2

3 3 Net Energy Metering. Amend RSA 362-A:9, III to read as follows:

4 III. Metering shall be done in accordance with normal metering practices. A single net
5 meter that shows the customer's net energy usage by measuring both the inflow and outflow of
6 electricity internally shall be the extent of metering that is required at facilities with a total peak
7 generating capacity of not more than 100 kilowatts. A [~~bi-directional~~] **bidirectional** metering
8 system that records the total amount of electricity that flows in each direction from the customer
9 premises, either instantaneously or over intervals of an hour or less, shall be required at facilities
10 with a total peak generating capacity of more than 100 kilowatts. ***The bidirectional system may
11 consist of one or more meters, as long as it can be used to appropriately meter and bill in
12 compliance with utility tariffs and rules.*** Customer-generators shall not be required to pay for
13 the installation of net meters, but shall pay for the installation of, ***or procure at their own cost if
14 approved by the interconnecting utility,*** all [~~bi-directional~~] **bidirectional** metering systems as
15 outlined in utility interconnection tariffs or rules.

16 4 Effective Date. This act shall take effect upon its passage.
