METHODOLOGY:

This bill provides victims of crime with a right to request a free initial police report and, following the conclusion of the investigation or case, a free copy of the complete case file. There may be a minimal cost to a state, county or local law enforcement agency to produce a copy of the police report of the investigation and the complete case file to the victim. Such costs cannot be determined as the number of reports that will be requested is unknown.

The New Hampshire Municipal Association indicates there may be de minimis costs of under \$10,000 to individual municipalities related to the staff time needed to prepare, copy and review large reports for confidential information within the timeframes required in the amendment.

The New Hampshire Association of Counties does not anticipate significant costs for county government.

It is assumed that any fiscal impact would occur after FY 2025.
