METHODOLOGY:

This bill exempts certain agency projects of not more than \$1,000,000 from the Department of Administrative Services competitive bidding requirements. The current statute exempts such projects if the estimated total cost is not more than \$500,000.

This bill raises the threshold, from \$500,000 to \$1,000,000, for projects that are exempt from the competitive bid requirement of the Department of Administrative Services, Division of Public Works Design and Construction (DPW). It changes the Adjutant General's Department to read as the Department of Military Affairs and Veterans Affairs to coincide with Chapter 273, 2019 in renaming the Department. Additionally, the bill also provides that the change in law is contingent on the funding for two additional positions to carry out contracting duties within the Department of Military Affairs and Veterans Services. The Department states that they can handle the additional workload of contracts up to \$1,000,000 in house with current staff. Therefore, they have sufficient funding to support the changes in this bill and do not require additional positions.

The Department of Administrative Services (DAS) has indicated that increasing the project threshold for the National Guard from \$500,000 to \$1,000,000 would lead to a revenue decrease

for the Division of Public Works Design and Construction (DPW). Currently, 25% of DPW's operations are funded by revenue generated from agencies adhering to RSA 21-I:80, which mandates payment for DPW services. The remaining 75% of DPW's funding comes from General Funds.

With the higher threshold, DAS anticipates fewer projects will go through DPW. In the calendar years 2022-2023, the National Guard had 12 projects managed by DPW. These projects ranged in value from \$194,000 to \$5,358,000, with six of them below the \$1,000,000 mark. Those six projects accounted for \$152,530 in potential DPW fees, which is approximately 14% of the total potential fees for all 12 projects. Although current statutes exempt the National Guard from projects under \$500,000, they still submitted four projects below this threshold to DPW in 2023. The DAS estimates DPW revenue will decrease by \$160,000 in FY 2026, \$170,000 in FY 2027 and \$180,000 in FY 2028. It is assumed the DPW would need additional general funds to offset, at least partially, the loss in revenue.

It is assumed that any fiscal impact would occur after FY 2025.
