METHODOLOGY:

This bill provides victims of crime with a right to request a copy of the law enforcement report and other documents related to the case, including the right to receive a free copy of the initial incident report. There may be a minimal cost to a state, county or local law enforcement agency to produce copies of the police report and other documents related to the case to the victim. Such costs cannot be determined as the number of reports that will be requested is unknown.

The New Hampshire Municipal Association indicates there may be de minimis costs of under \$10,000 to individual municipalities related to the staff time needed to prepare, copy and review large reports for confidential information within the timeframes required in the amendment.

The New Hampshire Association of Counties does not anticipate significant costs for county government.

It is assumed that any fiscal impact would occur after FY 2025.
