**METHODOLOGY:**

The Secretary of State indicates this bill would make permanent the sharing of the State’s accessible voting systems (AVS) for use in town, city, or school district elections. RSA 659:20-b requires that any city, town, or school district which has adopted an official ballot system to use an AVS in local elections. The statute includes a pilot program for the State to share AVS with cities, towns, and school districts. This pilot program of sharing AVS is set to expire on June 30, 2025. This bill would change the pilot program end date to December 31, 2025 and make the AVS sharing program permanent thereafter.

The Secretary of State indicates the current AVS system is 10 years old, is difficult to program, and some parts are hard find replacements for. The Department is currently in the process of drafting a Request for Proposals to replace the existing AVS. The new AVS will be easier to program and easier for the voter to use. The Secretary of State estimates the replacement cost will be between \$1.2 million and \$1.5 million. It is anticipated that the vendor to charge annual

maintenance fees and programming fees for state and federal elections. These annual costs are estimated to be \$75,000-\$250,000.

The Department expects the vendor will charge local election programming fees that the town, city, or school district will pay. In the March 2025 elections, the current AVS vendor charged \$600-\$800 per ballot design based on the number of pages. If a town had one town election and 2 school elections, the fee would be \$600-\$800 to the town and another \$600-\$800 to each school districts for a total local cost of \$1800-\$2400.
