<b>Appropriations*</b>	\$0	\$0	\$0	\$0
<i>Funding Source(s)</i>	None			

\*Expenditure = Cost of bill

\*Appropriation = Authorized funding to cover cost of bill

**METHODOLOGY:**

This bill requires all anchored seasonal platforms on public waters obtain an anchored seasonal platform permit issued by the Department of Safety, Division of State Police Marine Patrol. The bill establishes a \$50 permit fee, with \$25 to the Navigation Safety Fund and \$25 to the Cyanobacteria Mitigation Loan and Grant Fund. It also establishes a \$100 fine plus a 20% penalty assessment for failure to obtain the required permit.

The Department states it is not known how many seasonal platforms exist on state waters. For comparison, the state currently issues 4,800 to 5,000 mooring permits on only eight regulated lakes. This bill would cover all bodies of water. Currently, the Department employs one full-time employee responsible for processing mooring permit applications and renewals. If passed, the Department states it would need two (2) new positions (miscellaneous records clerk – 2, SOC 43-03) to implement the program, at an estimated cost of \$178,000 in FY 2027, \$144,000 in FY 2028 and \$150,000 in FY 2029. The Department has not provided an estimate as to how many new permits may be issued under this bill, therefore, the cost to produce additional permit decals (\$.51 per decal) and the revenue impact on the Navigation Safety Fund and the Cyanobacteria Mitigation Loan and Grant Fund are indeterminable.
