

State of New Hampshire HOUSE RECORD

Second Year of the 156th Session of the General Court Calendar and Journal of the 2000 Session

Vol. 22 Concord NH Thursday, November 9, 2000 No. 67

Contains: Committee Meetings, Work Sessions, Notices, Interim Study Statements and Unofficial County List for 2001.

HOUSE CALENDAR

MEMBERS OF THE HOUSE:

This week's calendar is being mailed to incumbents and representatives-elect. Congratulations to all of you for your willingness to serve your state during these trying and historic times. The responsibility of representative democracy is now in your hands.

Reports for all bills referred for Interim Study are printed in this House Record. Thanks to the committee chairmen and members who continued to work on these important measures after the House went into recess. Some issues will enjoy a head start next session because of your work this fall.

Please note the message from the State House nurses that because of a shortage of vaccine, **flu shots will not be available as planned on November 15**. They are however hoping for an ample supply of vaccine for the December 6 clinic.

Today will mark the last day for Journal Clerk Terry Albin who is leaving to enjoy some leisure time and pursue new challenges. In addition to keeping the official record of all our actions, it was Terry's task to transcribe the debate from the audio tapes whenever we voted to "have remarks printed in the permanent Journal." We salute her for her patience and accuracy, and wish her well-deserved rest and success. Nancy Cossette, the very capable Assistant to the Clerks, has been promoted to Journal Clerk.

This holiday weekend, take a moment to reflect on the contribution of our military veterans to our great country. We are honored to have many veterans in our membership. Their presence enriches us all and reminds us of the sacrifices made in the name of freedom. When you see a vet, say "Thanks!"

Donna Sytek, Speaker

NOTICE

Until further notice the House Calendar will *close* each week on *Wednesday at noon* to be mailed Thursday.

Karen O. Wadsworth, Clerk of the House

NOTICE

The Flu Vaccine Clinic for legislators and staff scheduled for Wednesday, November 15th is cancelled. The Concord Regional Visiting Nurses Association has run out of vaccine and has had to cancel the clinic. On Wednesday, December 6th from 9:00 to 10:00 a.m. in Room 201, LOB, a clinic is tentatively scheduled. Please watch for further details. For more information, contact State House Health Services at 271-2757.

Barbara Leahy, RN and Margaret Lind, RN

NOTICES OF RECONSIDERATION

Pursuant to House Rule 25, at 9:55 a.m. on July 13, 2000, Rep. Bernard Raynowska, having voted on the prevailing side, served Notice of Reconsideration on the vote taken during the House Session of July 12, 2000, whereby the House of Representatives, on a 176-144 roll call vote, adopted House Resolution 53, recommending that no article of impeachment be brought against supreme court justice John T. Broderick, Jr.

Pursuant to House Rule 25, at 10:45 a.m. on July 13, 2000, Rep. James Fenton, having voted on the prevailing side, served Notice of Reconsideration on the vote taken during the House Session of July 12, 2000, whereby the House of Representatives, on a 187-134 roll call vote, adopted House Resolution 52, recommending that no article of impeachment be brought against supreme court justice Sherman D. Horton, Jr.

Karen O. Wadsworth, Clerk of the House

HOUSE DEADLINES

September 13, 2000, Wednesday	First day for incumbents who are candidates for re-election to file LSR's with complete information.
November 1, 2000, Wednesday	Final day to file interim study reports with the House Clerk.
November 8, 2000, Wednesday	First day for new members to file LSR's with complete information; begin requirements of 10 day sign-off rule.

LAID ON TABLE – 2000 session

CACR 33, relating to meetings of the legislature. Providing that the legislature shall assemble biennially. (Pending question is interim study.)

HB 637-FN, establishing certain standards of accountability for health maintenance organizations and other entities providing health insurance through a managed care system. (Pending question is the adoption of the committee report – ought to pass with amendment.)

HB 1229, requiring the completion of a rate proceeding prior to legislative approval of a settlement agreement with PSNH.

(Pending question is the adoption of the majority committee report – interim study.)

HB 1375, establishing financial assurance for guaranteed promise of customer repayment of rate reduction bonds. (Pending question is the adoption of the committee report – interim study.)

interim study STATEMENTS

CHILDREN AND FAMILY LAW

HB 200-FN-LOCAL, relative to restructuring the juvenile justice system in New Hampshire. WITHOUT RECOMMENDATION.

Rep. Patricia A. Dowling for Children and Family Law: The committee did not vote on this bill since most areas of concern were addressed in other legislation.

HB 555, relative to representation of a child during child interviews. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Laura C. Pantelakos for Children and Family Law: The committee felt this bill tied the hands of school officials to even question a child regardless of circumstances, even for a simple argument between two children. Vote 16-1.

HB 717-FN-A, establishing a child care incentive program for training child care workers, and making an appropriation therefor. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Karen K. Hutchinson for Children and Family Law: The majority of the committee recognizes the urgent need for continuing education for child care providers and urges continued study of this concept. Vote 10-7.

HB 1238, relative to the collection and disbursement of support orders by the department of health and human services. RECOMMENDED FOR FUTURE LEGISLATION.

Rep. David A. Bickford for Children and Family Law: The committee felt there should be good cause before a parent is forced by the state to pay their support obligation through mandatory wage assignment. The bill allows non-custodial parents to be free of government intervention unless they demonstrate cause to need it. Vote 18-0.

HB 1333-LOCAL, relative to the establishment of parenting plans. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. David A. Bickford for Children and Family Law: The committee agreed with the intent of this bill but believed the concept needs fine tuning and further investigation. Vote 17-0.

HB 1443-FN, requiring a hearing prior to issuance of statement of findings on the suspension, revocation, or denial of a daycare provider's license. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Barbara H. Richardson for Children and Family Law: The committee voted unanimously not to recommend this bill for future legislation. It was felt that current hearing procedure protects children and is fair to child care agencies. Vote 17-0.

HB 1533, relative to the child protection act. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Barbara H. Richardson for Children and Family Law: Because of the complexity and depth of this subject, the committee voted not recommended. A more in-depth study must be done prior to future legislation because of the magnitude of issues. Vote 17-1.

HB 1547-FN, relative to raising the age of minority for the purposes of juvenile delinquency proceedings from 17 to 18 years of age. RECOMMENDED FOR FUTURE LEGISLATION.

Rep. David A. Bickford for Children and Family Law: The committee feels state and communities have not developed effective programs over the last five years to accommodate the 17 year old population. The committee also felt confident that continued services after age 16 would help many youths become productive citizens. Vote 16-2.

COMMERCE

HB 309, relative to motor vehicle insurance. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Stephen G. Avery for Commerce: The NH Insurance Department issued a bulletin (INS No. 99-014-AB) on September 20, 1999 that takes care of most of the problems that this legislation addresses. The Insurance Department reports that complaints are greatly reduced and the after market parts problem has been addressed. Vote 13-0.

HB 528, adding penalty provisions to the unfair claim settlement practices by insurers law. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Stephen G. Avery for Commerce: There is a pending Supreme Court case (Norma Bell vs. Liberty Mutual Insurance) that may determine whether legislation is needed. The case is not scheduled to be decided for another six to seven months. If the decision is against Ms. Bell, new legislation may be introduced. Vote 10-3.

HB 693-FN, limiting access to certain business records. RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Stephen G. Avery for Commerce: The sponsor indicates that by continuing to keep this subject alive, it helps New Hampshire businesses from being unduly harassed by out-of-state revenue services. The sponsor will introduce a new modified bill next session. Vote 8-6.

HB 1164, relative to insurance compliance self audits. MAJORITY: RECOMMENDED FOR FUTURE LEGISLATION. MINORITY: NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. John B. Hunt for the Majority of Commerce: Further review should be an option for future legislative sessions. This bill has a worthy objective to encourage insurance companies to conduct voluntary, internal self-audits to ensure their activities comply with legal and regulatory requirements. However, there isn't yet much experience available from other states to indicate how the legislation would work in practice and the committee hasn't had enough time to review the bill in needed depth. Vote 9-8.

Reps. Anthony R. DiFruscia and Tara G. Reardon for the Minority of Commerce: The Minority of the committee disagrees with the concept of granting blanket immunity to insurance companies that self-report wrong doing. Additionally, it prevents consumers from "discovering" the information.

HB 1184, relative to minimum participation requirements for small employers. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Sheila T. Francoeur for Commerce: Legislation was not recommended by the committee on this issue relative to minimum participation requirements for small employers in health plans. This is an issue that can be resolved at the employer level. Additionally, the Department of Insurance will continue to review network adequacy in the state. Vote 15-0.

HB 1260-FN, relative to the cost of prescription medication. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Joseph D. Kenney for Commerce: This bill prohibits overcharging an uninsured person for the cost of prescription drugs. The committee felt that the Prescription Drug Access Committee created through SB 367, Chapter 208, Laws of 2000, is addressing the uninsured prescription drug issue in a comprehensive way. Additionally, the Governor's Health Care Committee is also addressing the issue within the tri-state system, which is attempting to share health care data. Vote 13-2.

HB 1295, relative to prescription drug cards. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Joseph D. Kenney for Commerce: This bill requires that insurers providing coverage for prescription drugs issue to their enrollees a card or other similar item containing uniform prescription drug information. The committee felt that this concept was premature until HIPAA and the Graham-Leach-Bliley Act resolve privacy regulation issues. Additionally, the major problems with health care cards exist from outside of the state which NH has no control of. Therefore, the subcommittee has recommended a State-Federal Resolution to encourage the Federal level to create a uniform prescription drug card system. Vote 16-0.

HB 1315, relative to payout ratios of qualified charitable gift annuities. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. John B. Hunt for Commerce: The sponsor and the proponents of the bill feel that at this time they are willing to live with the new law passed in 1998. Vote 14-0.

HB 1398, requiring disclosure of policy limits by insurers. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Anthony R. DiFruscia for Commerce: The committee does not believe this legislation is necessary. Vote 13-4.

HB 1496-FN, relative to joint negotiations by physicians with health benefit plans. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Sheila T. Francoeur for Commerce: The committee does not recommend legislation at this time, but does encourage physicians, the NH Medical Society, the Attorney General and the Department of Insurance to work with the Foundation for Healthy Communities to develop safe harbors that will allow medical care providers the opportunity to confer on issues that will support and enhance quality health care for the citizens of New Hampshire. Vote 17-0.

HB 1545-FN-A, relative to the sale of furniture and bedding. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Stephen G. Avery for Commerce: While the intent of this bill is to be commended the fact is that it would not affect any companies outside of the state and it would become a disadvantage to manufacturers in the state. They are working on a voluntary set of requirements on furniture and bedding. Vote 14-3.

HB 1567-FN, extending medical and surgical benefits to domestic partners. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Sheila T. Francoeur for Commerce: Legislation extending medical and surgical benefits to domestic partners of state employees was not recommended by the committee. It was felt that as a benefit issue health insurance should be addressed in contract negotiations. The committee also believes that there will be domestic partnership legislation introduced in the next session and the issue of health insurance could be studied at that time. Vote 12-5.

SB 52, requiring insurance coverage for infertility treatments. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Joseph D. Kenney for Commerce: This bill requires insurance coverage for infertility diagnosis and treatment. Under this bill insurance companies may charge a higher co-payment if the services exceed \$30,000. The committee felt with the recent increase of 15% to health care premiums in the State of New Hampshire it would be difficult to mandate additional health care cost to NH families. The committee agreed this issue needs to be studied on an ongoing basis in the future. Vote 14-3.

SB 418, relative to liquor liability insurance coverage. RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Stephen G. Avery for Commerce: This legislation will allow the Liquor Commission to require Liquor Liability Insurance for certain licensees who disregard the laws on serving minors and intoxicated persons. The Liquor Commission will come up with specific language as to the violations. Vote 15-2.

CRIMINAL JUSTICE AND PUBLIC SAFETY

HB 202, legalizing the possession and cultivation of marijuana for medicinal purposes. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Reps. John E. Tholl, Jr. and Everett A. Weare for Criminal Justice and Public Safety: The whole committee felt that persons with a terminal illness should receive any and all assistance to allow them the best quality of life possible. This bill is overly broad and unworkable. It would, if passed, pit local and state law enforcement against federal law enforcement. If passed, it would still be illegal to prescribe marijuana and doctors would face sanctions for doing so. The committee feels that growing marijuana by individuals even to assist medically, is inappropriate and unworkable. Vote 11-4.

HB 1140, establishing a committee to study the department of corrections. RECOMMENDED FOR FUTURE LEGISLATION.

Reps. Timothy N. Robertson and Everett A. Weare for Criminal Justice and Public Safety: The committee has requested a legislative performance audit of the Department of Corrections. A particular concern is that a staff analysis of the NH Department of Corrections and a review of its policies and procedures be supplied to the Department and Legislature. A bill will be filed to address any concerns resulting from the audit. Vote 15-0.

HB 1346-FN, relative to certain acts of felonious sexual assault. RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Patricia O'Keefe for Criminal Justice and Public Safety: This bill provides for an exception to felonious sexual assault. In a case where an actor engages in sexual penetration with a person other than their legal spouse who is 13 years of age or older

and under 16 years of age, a four year age differential is allowed and the penalty is reduced from a Class B felony to a Class A misdemeanor, providing there is no evidence of coercion, force or intimidation on the part of the actor. The bill also exempts such persons from the registration requirements of the sexual offender registry. The bill is supported by members of the judicial branch, the Department of Corrections and the county prosecutors and will be introduced in the next session. Vote 14-0.

HB 1391, relative to personal appearance by law enforcement officers at administrative license suspension hearings. RECOMMENDED FOR FUTURE LEGISLATION.

Rep. John E. Tholl, Jr. and Everett A. Weare for Criminal Justice and Public Safety: The labor issue that was raised when this bill was presented to the House has satisfactorily been resolved. The intent of the bill was worthwhile and will be submitted during the next session. Vote 15-0.

HB 1503, establishing a study committee to review the state’s current parole and probation procedures. RECOMMENDED FOR FUTURE LEGISLATION.

Reps. Timothy N. Robertson and Everett A. Weare for Criminal Justice and Public Safety: The committee has requested a legislative performance audit of the Department of Corrections. A particular concern is that a staff analysis of the NH Department of Corrections and a review of its policies and procedures be supplied to the Department and Legislature. A bill will be filed to address any concerns resulting from the audit. Vote 15-0.

HB 1520-FN, relative to criminal neglect of elderly, disabled, or incapacitated persons. RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Kathleen M. Flora for Criminal Justice and Public Safety: We believe the original intent was well founded but too far-reaching. We wanted to be certain to balance the need for protection with the need to encourage family members to care for their elderly without fear of prosecution if something inadvertently goes wrong. Suggested changes eliminate misdemeanor charges and inserts "serious" before "bodily injury". "Incapacitated" was changed to "impaired adults" throughout the text. The draft amendment is #2000-4821h. A bill will be filed in the next session incorporating our suggested changes. Vote 15-0.

HB 1556-FN-A, establishing a tax on the retail sale of fireworks and making appropriations to the division of fire standards and training. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Reps. Richard F. Doucette and Everett A. Weare for Criminal Justice and Public Safety: This bill is no longer necessary as funding for the NH Fire Academy is to be addressed in HB 1504 currently in chaptered study (Chapter 296, Laws of 2000). The study committee will make recommendations and file legislation for the next session to provide funding for firefighter training, full-time as well as part-time. The committee is in support of funding firefighter training for all firefighters. Vote 15-0.

SB 88-FN, relative to penalties for third driving while intoxicated offenses. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Reps. Everett A. Weare and Robert M. Fesh for Criminal Justice and Public Safety: A chaptered study committee is presently reviewing all aspects of the DWI issue and has submitted legislation addressing the issue of SB 88. Therefore, this bill is not needed. Vote 14-0.

EDUCATION

HB 1427, relative to the calculation of the days of school in the school year. RECOMMENDED FOR FUTURE LEGISLATION.

Rep. P. Judith Sullivan for Education: The committee finds merit in the concept of breaking down the required number of school days in a school year into the required number of instructional hours in a school year. It is therefore the intent of the committee to revisit this subject once the Department of Education develops a specific definition of "instructional hour". Vote 16-0.

HB 1505-FN-LOCAL, relative to the formula for distributing school building aid. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Claire A. Snyder for Education: The intent of the sub-committee in a vote of 3-2 recommended means testing building aid as proposed in this bill. The full committee did not agree. Vote 11-6.

ELECTION LAW

HB 1365, relative to spending disclosures in political advertising. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Robert E. Clegg, Jr., for Election Law: This bill required the cost of production and the advertising rate be indicated on all advertising for political ads. The committee felt this subject was part of the comprehensive campaign finance reform bill overwhelmingly passed by the House only to be killed by the Senate. This bill in and of itself did little to accomplish reform. It will again be the subject of legislation in the next year, but this bill is not recommended for future legislation. Vote 13-0.

HB 1478-FN-A, establishing matching funds for certain candidates. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Robert E. Clegg, Jr. for Election Law: This bill established a fund to provide matching funds for candidates for Governor, US Senate and Congress. The committee sent a letter to the Secretary of State requesting a joint work session with the Secretary of State and the committee he had formed dealing with the issue. The committee received no response until the day it voted out this bill. The committee understands this subject will reappear next year in the form of a new bill. The committee voted not to recommend for future legislation. Vote 13-0.

HB 1526-FN, relative to campaign contributions and expenditures. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Robert E. Clegg, Jr., for Election Law: This bill established a fund for campaign financing of Governor and Governor's Council races. The committee had sent a letter to the Secretary of State requesting a joint work session with the Secretary of State and the committee he had formed to study this issue. No response was received until the day we voted this bill out. The committee understands this subject will resurface in a bill in the next session but voted not to recommend for future legislation. Vote 10-3

ENVIRONMENT AND AGRICULTURE

HB 239-FN-A, permitting the development of an industrial hemp industry in New Hampshire and continually appropriating a special fund. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Karen K. McRae for Environment and Agriculture: The committee will not take any further action on this bill but individual members may. Vote 11-3.

HB 1201, creating a committee to study incentives for regionalization of sludge and septage facilities. RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Donald R. Philbrick for Environment and Agriculture: Numerous studies have been conducted relative to septage problems. The committee reviewed these past studies as well as a current study that is ongoing with the Department of Environmental Services relative to septage problems. RSA 485-A:5-b states that municipalities are responsible to provide septage disposal facilities for their residents. Statewide approved septage disposal facilities have not kept pace with our rapid growth. There are 58 municipalities that, for one reason or another, are unable to comply. More reliance is placed on out-of-state facilities, which are becoming close to capacity. The interim study committee combined with the ongoing septage task force organized by DES has proposed several bills for the next legislature to help resolve these issues. There are currently 70 municipalities that send septage to out-of-state facilities that may refuse septage at any time. Vote 15-0.

HB 1227, relative to universal waste. NOT RECOMMENDED FOR FUTURE LEGISLATION

Rep. Karen K. McRae for Environment and Agriculture: It is felt that, until rules regarding universal waste are formulated and completed, this legislation is premature, although it may be valid at some time in the future. Vote 16-0.

HB 1395-FN-A-LOCAL, establishing an advance disposal fee and establishing grants to fund municipal waste management programs and activities. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Karen K. McRae for Environment and Agriculture: Individual members are ready to introduce legislation dealing with this subject. Vote 12-3.

HB 1417-FN-A-LOCAL, setting priorities for the disposal of certain components of the solid waste stream. RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Karen K. McRae for Environment and Agriculture: Three different categories of recyclables need to be addressed and legislation will be introduced by individual members. Vote 15-1.

HB 1423-LOCAL, relative to regulation of junk yards. RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Karen K. McRae for Environment and Agriculture: The committee is dealing with definitions and will be introducing legislation. Vote 16-0.

SB 384, establishing a committee to study pollution prevention and pretreatment program for reducing pollutant levels in sewage sludge. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Karen K. McRae for Environment and Agriculture: These are issues to be addressed by others in other legislation to be introduced in the coming session. Vote 16-0.

SB 408, establishing a committee to study the application of non-conventional veterinary procedures for domestic animals. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Karen K. McRae for Environment and Agriculture: The Speaker appointed a study committee on HB 1483 which deals with the same subject. Vote 16-0.

SB 465-FN-LOCAL, relative to the definition of "sugar orchard" for purposes of the timber yield tax. NOT RECOMMENDED FOR FUTURE LEGISLATION

Rep. Donald R. Philbrick for Environment and Agriculture: The committee concluded that attempting to solve one concern would create additional problems. The timber yield tax and current use taxation are basically interconnected. To make a change in one would ultimately affect the other. Since both laws have worked well and are well accepted by municipalities it was felt that no further changes should take place. Vote 14-0.

EXECUTIVE DEPARTMENTS AND ADMINISTRATION

HB 1307, relative to certification of food protection managers. RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Dana L. Landers for Executive Departments and Administration: Although the committee as a whole does not endorse this bill as written, future legislation has possibilities if some concerns can be addressed. Vote 11-1.

HB 1380-FN, relative to compensation for time lost by state law enforcement officers injured in the line of duty. RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Ray F. Langer for Executive Departments and Administration: This bill should be reviewed and rewritten to provide the intended coverage for all state employees. Vote 12-0.

HB 1415-FN, relative to the classification of certain personnel of the department of corrections. RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Ray F. Langer for Executive Departments and Administration: The committee recommended that this bill be reviewed and rewritten to accept the 54 new positions classified in group II. Vote 12-0.

HB 1437-FN, relative to ayurvedic health care practice. RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Sylvia A. Holley for Executive Departments and Administration: The committee believes future legislation would be appropriate with the feasibility of developing a "Bureau of Complimentary Medicine", including the Board of Naturopathics, Health and Human Services and the Board of Chiropractors, reviewed in a chaptered study. Vote 12-0.

HB 1549-FN, relative to cost of living adjustments for certain retired members of the New Hampshire retirement system. RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Ray F. Langer for Executive Departments and Administration: This bill provides a small additional amount. The committee recommends we redraft this legislation after discussing with the Bureau of Labor Statistics as to what they recommend for an adequate income. Vote 12-0.

HB 1558-FN-LOCAL, relative to payment of group health insurance premiums for eligible retired members of the retirement system. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Ray F. Langer for Executive Departments and Administration: This is a duplication of Senate Bill 415 that was passed. There is no need for future legislation. Vote 13-0.

HB 1561-FN, relative to benefits payable upon a group II retirement system member's death after retirement. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Ray F. Langer for Executive Departments and Administration: Approval was not considered . This bill created many problems among which were income tax problems. Vote 14-0.

HB 1575-FN, relative to the licensure of interpreters for the deaf. WITHOUT RECOMMENDATION.

Reps. Howard C. Dickinson and Merton S. Dyer for Executive Departments and Administration: The committee reports this interim study bill with no recommendation. House rule 44(a) says that a committee, as its interim study final report shall submit its findings and any recommendations. On a subcommittee motion of not recommended for future legislation, the committee was deadlocked with a 7-7 vote with all members present and voting. The subcommittee reported this was a difficult and complex bill and they did not have the time to review all of the ramifications before the deadline. There were some points the subcommittee could support but those points would not make a complete bill. Some members of the committee that had considered the bill as an ad hoc committee felt the full committee should recommend this for future legislation. This was not an official subcommittee and the full committee allowed the vote to stand to report without recommendation. Vote 7-7.

HB 1591-FN-LOCAL, establishing a defined contribution retirement option in the New Hampshire retirement system. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Ray F. Langer for Executive Departments and Administration: There were too many problems in regard to providing a defined contribution plan for all members of the retirement system. Vote 13-0.

HB 1610-FN, regulating indoor tanning facilities. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Sylvia A. Holley for Executive Departments and Administration: Field trips to tanning salons throughout NH revealed the following: FDA regulations govern the manufacturing and regulations of the actual ultra violet lights at the manufacturing level that are used in tanning salons. Lighting rods are good for 1,000 hours but are regularly changed at 400 hours and apparently reported on salon computers. Environmental Health Departments of city Health Departments report little or no complaints over a 27 year period. Warning notices were found posted at each tanning unit and sanitation of salons is adequate for personal safety. Written consent of a parent or legal guardian is now in place. UV cops and licensure of tanning salons is not needed at this time. Vote 8-5.

HB 1612-FN, establishing a state office of privacy. RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Howard C. Dickinson for Executive Departments and Administration: After meeting six times in the last few months, the subcommittee was able to convince the full committee that the issue of privacy of information deserved further legislation in the next session. The subject has become a "hot button" issue throughout the country with two sessions at the annual meeting of NCSL devoted to it this summer. Of particular interest is the protection of social security numbers and medical records with special exception being made for information gathered as a part of formal research projects previously reviewed and approved by federally mandated institutional review boards. There is no doubt that several bills will be introduced on the subject of privacy in the upcoming session. We trust that serious consideration will be given to all of them. Vote 10-3.

HB 1624, relative to administrative rules concerning sales of pari-mutuel pools. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Benjamin E. Moore for Executive Departments and Administration: This bill referred to one specific exemption from RSA 541-A rulemaking process. The committee finds there are many such exemptions in the RSA that should also be questioned. The action taken by the Pari-mutuel Commission using the exemption from RSA 541-A rulemaking process was thoroughly researched by the Attorney General's Office and found legally correct. The exemption in the RSA predated any legislative action on the subject matter of the bill, and legislation made no reference to the exemption in the RSA that was granted to the Pari-mutuel Commission. Therefore, this bill, as titled and worded, should not be recommended for future legislation. Vote 13-0.

SB 181-FN, relative to licensure of geologists. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Maurice E. Goulet for Executive Departments and Administration: This year (2000) legislation was passed and signed into law by the Governor to license geologists. SB 181 was a comparable licensure bill that originated in the Senate and was deemed

not necessary by a unanimous vote of the committee. Vote 12-0.

SB 414-FN, reorganizing the divisions of the department of corrections. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Dana L. Landers for Executive Departments and Administration: With the new Commissioner in place and with similar bills already in motion, there seemed to be no need for this bill. Vote 14-0.

SB 457, relative to ownership of certified accounting firms. RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Maurice E. Goulet for Executive Departments and Administration: This bill was sent to interim study to provide an opportunity for the Board of Accounting to address the issues presented in this bill. Regrettably the Board never showed us during the study meetings. It was decided that further legislation would provide the Board the opportunity to provide input on the issues of CPA company ownership. Vote 9-4.

FINANCE

HB 692-FN-A, adopting a single sales factor method of apportionment under the business profits tax. RECOMMENDED FOR FUTURE LEGISLATION.

Rep. David J. Alukonis for Finance: Adopting the single sales factor method of apportionment remains a viable economic development tool which a number of competing states have adopted in order to attract and enhance increased economic development. NH should continue to examine the initiative in order to maintain an economic advantage in this competitive environment. Vote 23-0.

HB 735-FN-A, establishing a contributory judicial retirement plan. RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Susan W. Almy for Finance: The committee extensively revised the bill over the summer, and recommends HB 735 as amended by 2000-4824h for future legislation. Enactment would provide two advantages: 1) the state would begin to fund its unfunded obligation to future judicial retirees; and 2) judges who cannot now retire before the age of 65, but need to, would be able to do so without losing accumulated pension benefits. The basic principles enunciated in the amendment are: 1) a contributory plan at 7.5% of salary, with the state picking up all of the cost for old and new judges above their current salary plus inflation, until such time as their salaries are raised high enough above accumulated inflation to cover the full contribution; new judges' contributions will be the same as those of their existing counterparts in the system; 2) full pension equal to the current one for anyone who retires after 20 years of service and/or with total disability; partial pension based on years of service for anyone who vests at 10 years (as now); death benefits proportional to pension; 3) every judge moves to the new plan, but existing judges will get the better of the two plans when they retire. The committee strongly recommends that this bill not leave the House next session until the IRS provides the private ruling being requested of it by the Speaker, and the ruling is found to be positive. Vote 22-1.

HB 1284-FN, prohibiting the courts from charging fees. RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Susan W. Almy for Finance: This bill took a very broad approach to bringing the state in line with our Constitution's Article 14, which talks of obtaining "right and justice freely". The bill was recommended for interim study but fell through the cracks. After a brief debate, the committee decided that the cost of fees, and especially transcripts, seems to be denying the possibility of an effective appeal to lower-income petitioners. However, the issues involved are very complex, and cover technological advances, administrative arrangements in the court and financial constraints of the state. Future legislation to establish a study committee to identify solutions to this problem is recommended. Vote 23-1

HB 1472-FN-A, allowing the deduction of trust expenses from trust income taxable under the interest and dividends tax. RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Kenneth L. Weyler for Finance: Existing evidence from current law, bank correspondence and Department of Revenue Administration correspondence, as well as testimony have convinced us that confusion reigns on the subject of whether the net or the gross of trust income is taxed as interest and dividends. We therefore recommend a study committee to look at this subject and other aspects of trusts that may lack guidance in law. Vote 24-0.

HB 1485-FN, relative to a certain toll booth and establishing a committee to study road tolls along the state's highways. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. David J. Alukonis for Finance: Further discussion of the Nashua tollbooth is not needed as the issue has been resolved by the adoption of HB 2000 (the 10-year highway plan) in the 2000 legislative session. Vote 24-0.

HB 1587-FN, relative to payment of health insurance costs for certain child day care agencies. RECOMMENDED FOR FUTURE LEGISLATION.

Rep. O. Alan Thulander for Finance: Health care for childcare workers is a material issue to be considered in conjunction with other social issues in the Health and Human Services budget for fiscal years 2002-2003. Vote 22-2.

SB 210-FN-LOCAL, relative to payment by the state for certain court-ordered placements of special education students. RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Bruce F. Hunter for Finance: The committee did not receive the information from the Department of Education to go further on this bill. The committee decided to put a new bill in to study so we can work with all of the people involved and come out with a final bill. Vote 23-0.

SB 399-FN-A, making an appropriation to the fish and game department for the purposes of the wildlife damage control program. RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Dennis F. Abbott for Finance: The subject matter of this bill remains a contentious issue regarding game damage. Liability for game damage to agricultural crops no longer exists and the question for the next legislature may be whether or not funding for this damage should be considered a general fund expense. The committee agrees that this subject may warrant new legislation during the next session. Vote 22-0.

SB 421-FN-A, establishing a child day care program credit against the business profits tax and the business enterprise tax. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Norman L. Major for Finance: The committee realizes the seriousness of the childcare issue for working parents and businesses in New Hampshire. The issues are very complex and do not just involve tax credits. Some of the issues are: staffing costs and liability; state medical payments for child care; flexibility of licensing smaller childcare facilities; linkage of Medicare, daycare, number of children and insurance; businesses that lack tax liability; administrative cost of using tax credits; in-house or contracted out childcare; pooling of resources; utilization; enabling legislation. The committee recommends referring the issue to "The Governor's Business Commission on Child Care and Early Childhood Education" and therefore voted to not recommend for future legislation. Vote 14-8.

JUDICIARY

CACR 37, relating to the right to privacy. Providing that an individual's right to live free from governmental interference in private or personal matters is fundamental. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. McKim W. Mitchell for Judiciary: The committee held three scheduled meetings in total. Each of these meetings represented poor attendance of committee members and sponsors. This has made it most difficult to do the actual work expected. At the first meeting, the sponsor of the amendment was asked what he meant by governmental interference and how broad an area he interprets this to cover. He, not personally having an answer, suggested to the committee that we contact Professor Richard Hesse at Franklin Pierce Law Center . We contacted Professor Hesse. The committee received a synopsis of the professor's concerns with CACR 37 as proposed. The committee has found that CACR 37 as proposed should not be considered for future legislation. Vote 13-2.

HB 575, limiting railroad liability for passenger and tourist rail service. RECOMMENDED FOR FUTURE LEGISLATION

Rep. Peter F. Bergin for Judiciary: The committee voted to recommend that the concept of limiting railroad liability for passenger rail service should be filed for future legislation. However, several concerns still have to be researched. They are the responsibilities of the State of New Hampshire, the federal government, Guilford Transportation (owner of the tracks) and the MBTA (operators of the train). Also, the concerns of the NH Trial Lawyers of putting on a liability cap. All of these will be addressed when this bill is filed in the 2001-02 session. Vote 14-3.

HB 1507, establishing a committee to investigate allegations against supreme court justice Thayer regarding unreported and underreported income. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. John M. Pratt for Judiciary: The committee voted unanimously that the creation of a committee to investigate allegations of unreported or underreported income by former Justice Thayer was no longer meaningful or feasible. Vote 18-0.

SB 85-FN, including the judiciary as a public employer under the public employee labor relations act. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Al J. Picconi for Judiciary: The subcommittee after review of the issue of SB 85 recommends that if similar legislation is introduced in the 2001 session that it be referred to the Labor Committee of the House. This would enable the Labor Committee to sort out items such as number of bargaining units, fiscal costs and perhaps the constitutionality of imposing legislation upon the Judicial Branch. Vote 16-1.

SB 335, allowing physicians to make a report when a person is unfit to drive a motor vehicle. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Janet G. Wall for Judiciary: The committee did not see a need for this bill as written. Among the committee's concerns are the confidentiality of the patient/doctor relationship, the possibility of family members or others inappropriately influencing physicians, and the question as to how many doctors are actually adversely affected by lawsuits in these instances. There are already processes in place which work well for suspending licenses. Vote 16-2.

LABOR, INDUSTRIAL AND REHABILITATIVE SERVICES

HB 579-FN, relative to eligibility for unemployment benefits for certain persons commensurate with their attachment to the workforce. NOT RECOMMENDED FOR FUTURE RECOMMENDATION.

Rep. Gary L. Daniels for Labor, Industrial and Rehabilitative Services: The majority of the committee felt that unemployment benefits should be reserved for full-time workers and that institution of this program would negatively affect the trust fund, as well as increase unemployment insurance costs to a number of employers. Vote 9-5.

HB 636-FN, relative to public safety employee collective bargaining negotiations under the public employee labor relations act. WITHOUT RECOMMENDATION.

Rep. Gary L. Daniels for Labor, Industrial and Rehabilitative Services: As has been the case all along, the committee was split on whether or not to recommend for future legislation. Therefore, this is reported without recommendation, but with the hope that members continue to discuss the issue. Vote 7-7.

SB 442-FN, establishing an equipment depository and disabled person's employment fund in the department of administrative services. . RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Nancy W. Wall for Labor, Industrial and Rehabilitative Services: This bill is recommended for future legislation. Particular questions arise as to flaws in the bill relevant to "political subdivisions" and "interpreters" that may be necessary to change. Vote 11-3.

MUNICIPAL AND COUNTY GOVERNMENT

HB 446-LOCAL, subjecting certain land in the town of Newport to local land use regulations. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Robert W. Brundige for Municipal and County Government: The committee voted to defer to the statutory committee formed under HB 379 for their recommendations. Vote 13-0.

HB 536, authorizing municipalities to exempt from the local property tax personal property employed in the generation and production of electric power. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Anthony F. Simon for Municipal and County Government: The committee spent a great deal of time on this bill, both this year and last. As a result of our work in interim study, the committee determined that this proposal, as drafted, was inappropriate for further legislative consideration. However, the committee respectfully recommends to the next legislature that it establishes a study committee to consider the taxation of power production facilities on a power output basis. This should additionally address the question of how the proceeds of any such tax should be allocated. Vote 13-0.

HB 641-LOCAL, clarifying the value of public utility property for property tax purposes. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Priscilla P. Lockwood for Municipal and County Government: The committee felt that it would be appropriate to defer to the Tax Equity Commission on this issue. Vote 13-0.

HB 696-FN-L, relative to the taxation of land held by municipalities for water supply purposes. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Betsey L. Patten for Municipal and County Government: The issue of how land held by municipalities for the protection of their water supply is significant. This bill was initiated to help the host and neighboring towns have a formula set in statute to start negotiations that would be amenable to both towns. There was concern that the proposed formula may affect existing agreements. Since there was not enough time to adequately address this issue, the sponsor agreed to "not recommend for further legislation" with the intention of researching other possibilities for protecting land acquired for water supply. Vote 12-0.

HB 1389-LOCAL, relative to the Nute High School and library trustees. RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Robert W. Brundige for Municipal and County Government: This bill was introduced to allow increased non-taxable donations to support the Nute High School and Library. The committee recommends that no limitation be placed on the non-taxable donations. Vote 13-0.

HB 1590, relative to prohibiting a zoning ordinance from a residential preexisting nonconforming property owner's ability to rebuild after a fire loss. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Anthony F. Simon for Municipal and County Government: This bill is not recommended for future legislation. After much discussion, the committee concluded that it would be unwise for the state to exercise its authority in an area that is manifestly the subject of municipal responsibility and control. Vote 11-2.

HB 1625, requiring the attorney general to initiate a declaratory judgment action concerning record title matters related to the Green Hills subdivision in the town of Raymond. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Anthony F. Simon for Municipal and County Government: This bill is not recommended for future legislation because the problem that it was introduced to address is being dealt with by other means. Members of the committee spent a great deal of time this summer attempting to design and implement an alternative to this bill which, as drafted, had great potential for creating a serious disagreement between the legislative and executive branches of government. The alternative that was developed involves pro bono legal services provided to residents of the subdivision in the Town of Raymond. The legal work required includes both a declaratory judgement to try and establish the effectiveness of legislation from two years ago that was passed to solve the existing problem and, if that fails, a petition to quiet title to accomplish the same result. Vote 13-0.

PUBLIC WORKS AND HIGHWAYS

HB 1341-FN, relative to direct access for certain types of development along highways. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Edwin O. Smith for Public Works and Highways: The subcommittee recommended no further legislation to the full Public Works and Highways Committee. After studying the bill with the Department of Transportation, the committee learned that rules addressing this issue are in place. Vote 17-0.

HB 1420-FN-LOCAL, relative to the port in the city of Portsmouth, New Hampshire. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Edwin O. Smith for Public Works and Highways: Members of the subcommittee on this bill vote not to refer it for further study, but to include information and testimony to inform the members of the HB 1559 two-year study of the NH Port Authority. Vote 16-0.

SB 387-FN-L, relative to proposed toll booths in the city of Nashua and relative to alternatives to the state-wide toll booth system. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Edwin O. Smith for Public Works and Highways: The language in this bill is exactly the same as an amendment to HB 2000. There is a chaptered study which resulted from HB 2000, so no further action was necessary for this Senate Bill. Vote 16-

1.

RESOURCES, RECREATION AND DEVELOPMENT

HB 539-FN, relative to public access to Squam Lake. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Michael D. Whalley for Resources, Recreation and Development: Construction for the state-owned public access site on Squam Lake is scheduled to begin the week of November 6, 2000, with an estimated completion date of May 30, 2001, in time for the next boating season. This project will finally provide true public access to Squam Lake. Therefore, no further legislation is necessary at this time. Vote 15-0.

HB 543, relative to fill and dredge permits for breakwaters. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. David M. Lawton for Resources, Recreation and Development: New rules relative to fill and dredge permits for breakwaters have been adopted at the Department of Environmental Services and have helped clarify who is eligible to have a breakwater. The committee has carefully reviewed the new rules and the revised permitting process and the majority believes that no further legislation is needed at this time. Vote 14-1.

SCIENCE, TECHNOLOGY AND ENERGY

HB 386, establishing a committee to study allowing Internet service providers to restrict unsolicited electronic mail. NOT RECOMMENDED FOR FUTURE LEGISLATION

Rep. Terie T. Norelli for Science, Technology and Energy: While the committee believes that unsolicited electronic mail is a problem, we do not recommend legislation at this time due to the continuing development of the industry, as well as pending legal challenges around the country. The committee does, however, request that the Legislative Telecommunications Oversight Committee continue to monitor developments regarding this issue. That committee may, in the future, recommend legislation. Vote 13-1.

HB 1310, relative to the universal service fund. NOT RECOMMENDED FOR FUTURE LEGISLATION

Rep. Jeffrey C. MacGillivray for Science, Technology and Energy: This bill was introduced to ensure that the Public Utilities Commission (PUC) studied issues related to a universal service fund for telecommunications. Such legislation is no longer needed because the PUC has established a docket and received testimony, has studied the issues, and will issue a report this fall. The Telecommunications Oversight Committee will examine the PUC's report, will continue to study the possible future need for a universal service fund, and may recommend additional future legislation. The committee expressed considerable concern that in the event a telecommunications universal service fund was created in the future, funding should be specifically approved by the legislature, not by the PUC alone. Vote 14-0.

HB 1524, requiring all retail suppliers of electricity to disclose information regarding the environmental characteristics of the electric power in their resource mix, and establishing a committee to determine optimal ways to ensure that all electricity sold in New Hampshire conforms with acceptable environmental standards. NOT RECOMMENDED FOR FUTURE LEGISLATION

Rep. Harold V. Lynde for Science, Technology and Energy: This bill proposed a committee to study ways to ensure all energy sold in New Hampshire conforms to acceptable environmental standards and require periodic disclosure from electric power suppliers of the environmental characteristics of their resource mix. The committee felt this legislation was unnecessary as the Public Utilities Commission and the Independent Systems Operator of New England (ISO-NE) are in the process of establishing disclosure rules which may adequately address the issues of HB 1524. Vote 14-0.

HB 1618, relative to requiring legislative approval for mergers, acquisitions, or restructuring of certain electric utility corporations. NOT RECOMMENDED FOR FUTURE LEGISLATION

Rep. Jeb E. Bradley for Science, Technology and Energy: The committee determined the subject matter of the bill (specific legislative authorization of utility mergers) does not require further legislation. The committee is aware that legislation is likely to be filed that will consider the Public Utility Commission's statutory role in examining utility mergers. Vote 14-0.

SB 460-FN-LOCAL, establishing a grant program to reimburse eligible districts served by municipal waste combustors. RECOMMENDED FOR FUTURE LEGISLATION

Rep. Jeb E. Bradley for Science, Technology and Energy: The committee does not support SB 460 as introduced. Instead, the committee supports more limited legislation that reduces mercury emissions to the level proposed by SB 460, much sooner than required by the federal government. The committee has considerable disagreement as to who should pay to implement this policy. Vote 12-2.

STATE FEDERAL RELATIONS AND VETERANS AFFAIRS

SCR 7, urging the federal government to consider the impacts on New Hampshire and the smaller states of interstate waste legislation. RECOMMENDED FOR FUTURE LEGISLATION.

Rep. James J. Fenton for State-Federal Relations and Veterans Affairs: This legislation addresses a potential waste disposal problem in New Hampshire and other small states. The committee feels a more in depth look at this activity may develop more comprehensive legislation. Vote 12-0.

TRANSPORTATION

HB 560-FN, relative to the suspension or revocation of youth operators' licenses. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Sherman A. Packard for Transportation: At the end of the 2000 session the laws on supervision of youth licenses were changed thus making any future legislation unnecessary. Vote 12-0.

HB 1273, relative to restricting usage of cellular phones while driving. RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Sherman A. Packard for Transportation: Rep. Milligan, chair of the interim study subcommittee and prime sponsor of the original legislation will file new legislation relative to RSA 265:79. This will be an amendment to include new technology usage while driving. Vote 13-0.

HB 1279, relative to the applicability of school bus safety laws. NOT RECOMMENDED FOR FUTURE LEGISLATION.

Rep. Robert J. Letourneau for Transportation: No legislation is recommended at this time however the committee is open to future safety recommendations. Vote 12-0.

WILDLIFE AND MARINE RESOURCES

HB 280-FN, establishing a point system for the annual moose permit lottery. NOT RECOMMENDED FOR FUTURE LEGISLATION

Rep. Robert J. L'Heureux for Wildlife and Marine Resources: This bill would have established a preferential point system for all moose permit applicants, and was extensively studied for two years. After a thorough review and evaluation, the subcommittee determined that the concept had merit but the implementation at this time would be premature. Since the State of Maine has recently implemented a point system, the committee felt we should wait a few years, at which point we could evaluate the Maine system before proceeding. The committee recommends no further legislation. Vote 15-0.

HB 1152, relative to the establishment of crossbow hunting seasons. RECOMMENDED FOR FUTURE LEGISLATION

Rep. Robert J. L'Heureux for Wildlife and Marine Resources: This bill was assigned to a subcommittee for interim study. This bill, which would have established a crossbow hunting season, was extensively studied. In addition to the public hearing held in the LOB, three additional Saturday morning work sessions, in Lancaster, Concord and Keene, were conducted. Prior to the work sessions crossbow demonstrations were conducted at all three locations.

After a thorough review and evaluation the committee determined that the overwhelming opposition to this legislation was from the archery hunters who did not want a crossbow season in "their season". Since the legislation dealt only with giving the authority to the Fish and Game Department to establish a crossbow season, the subcommittee felt that much of the information received was not pertinent to this piece of legislation.

It is therefore the committee's recommendation, based upon research, pertinent public testimony and extensive review of materials submitted, that further legislation is required with the following suggestions: 1. The word "season" be removed from

the title and wording more appropriate such as "expanding the legal method of take to include crossbows" be substituted. 2. A sunset provision be included. 3. A crossbow hunter safety course be included. 4. The handicap crossbow license requirements remain as they are (unless the Fish and Game Department requests legislative changes). 5. That the hunting legal method of take be expanded to include crossbows and be made available to all parties. The Fish and Game Department, through administrative rules, would establish the necessary and required criteria and determine if a separate license would be required to hunt with crossbows. Vote 14-0.

HB 1604-FN-LOCAL, establishing the position of state animal control officer. NOT RECOMMENDED FOR FUTURE LEGISLATION

Rep. Ronald J. Nowe for Wildlife and Marine Resources: The full committee acted upon the subcommittee recommendation of no future legislation. The committee felt a need for this position in the future. Mandating an increase in dog licensing would go against RSA 28-a. Note also that the prime sponsor of this bill is going forward with new legislation with a new approach. Vote 14-0.

COMMITTEE meetiNGS

MONDAY, NOVEMBER 13

CURRENT USE BOARD (RSA 79-A:3), Lancaster – Forestry Office

1:00 p.m. Public forum.

LICENSURE OF RADIOLOGIC TECHNOLOGISTS STUDY (SB 341, Chapter 49:1, Laws of 2000), Room 102, LOB

1:00 p.m. Regular meeting.
