2004 INTERIM STUDY STATEMENTS

CHILDREN AND FAMILY LAW

HB 541, relative to the obligation of religious leaders to report child abuse.

Rep. Margaret D. Hallyburton for Children and Family Law: This bill was introduced to amend RSA 516:35 (Privileged Communications, Religious Leaders) to make it consistent with RSA 169-C (N.H.'s Child Protection Act). Both statutes have been in New Hampshire law since 1979. The complexities resulting from the interpretation and application of RSA 516:35, without amendment, have caused great confusion and some tragic consequences for children. While the committee feels strongly that the balance of interest must fall to the child victim, this bill at this time is not recommended. The state Supreme Court has before it an appeal that will likely address this issue. **Vote 10-0.**

HB 726-FN, relative to enforcement of spousal support orders by the department of health and human services

Rep. Edward P. Moran for Children and Family Law: The committee unanimously voted not to recommend this bill for legislation because the solution lies ultimately in federal legislation. The N.H. Department of Health and Human Services collects spousal support in conjunction with child support under the Social Security Act Title IV-D. However, under this act, the collection of spousal support independent of child support is prohibited. To use the resources provided by the federal government to the state for the sole purpose of spousal support collection would put the Title IV-D funding in jeopardy. To amend the Title IV-D to allow stand alone spousal support collection requires the actions of the federal government. **Vote 10-0.**

HB 1198, relative to reporting child custody statistics.

Rep. David A. Bickford for Children and Family Law: This bill is not needed at this time because the New Hampshire Supreme Court already reports custody statistics and intends to include statistics regarding custody of children of unwed parents. In the past, only data on divorcing parents has been collected. About 25 percent of children are born to unwed parents today; therefore, it is sensible to collect that information also. **Vote 10-0.**

COMMERCE

HB 342, restricting the use and display of social security numbers and establishing a private right of action under the right to privacy act.

Rep. Jane S. Langley for Commerce: The subcommittee had numerous meetings on this bill. The federal government is studying this issue at this time. They are having a problem with the same issues. We feel there will be legislation filed in future sessions. **Vote 12-0**

HB 347, limiting access to certain business records.

Rep. Tara G. Reardon for Commerce: The committee has failed to pass this measure for the past four sessions. The sponsor feels that having this legislation active in committee has a chilling effect on other states from requesting review of New Hampshire businesses' financial records. The sponsor has already filed an LSR covering this subject matter for next session. The committee does not recommend future legislation. **Vote 11-0**

HB 382, relative to state-funded health insurance.

Rep. Kathleen N. Taylor for Commerce: The purported purpose of this bill is to prohibit the state from providing health insurance to any persons who do not qualify under existing state statute as of the date of passage and to prevent the Healthy Kids Corporation from extending benefits to low-income adults unless specifically authorized by the General Court. The committee finds that these measures are redundant and unnecessary, as expansion of benefits are specifically prescribed under existing statutes and would require affirmative legislative action as well as specific budgetary authorization before they could become effective. **Vote 11-0.**

HB 545, requiring building contractors to disclose the name of any subcontractors involved in the project.

Rep. Donald H. Flanders for Commerce: This bill was sent to study at the request of the sponsor in order to allow the proponents to redraft it. Everyone was in agreement that the bill as written was unacceptable. Discussion with the sponsor showed that nothing had been done to change the bill and he was agreeable to our recommendation as he will file new legislation next session. **Vote 11-0.**

HB 771-FN, repealing exemptions to the consumer protection act.

Rep. Sheila T. Francoeur for Commerce: The issues that this bill addressed have been resolved by passage of HB 1282. Therefore, no further legislation is recommended. **Vote 11-0.**

HB 815, relative to the duties of corporate directors and the procedure for shareholder inspection of records under the New Hampshire Business Corporation Act.

Rep. Charles L. Clark for Commerce: This bill would allow a shareholder, with as little as one share of stock, to initially bypass the court and request a company's shareholder list through an administrative hearing at the secretary of state's office. This bill would only apply to publicly-traded companies incorporated in the state of New Hampshire. Due to the very small number of companies which would actually be subject to this bill, questions as to whether there are adequate safeguards to oversee the proper use of the list, and serious questions as to whether this procedure would truly expedite the process, the committee does not recommend legislation in this area. **Vote 11-0.**

HB 1264, relative to advertisement of prescription drugs.

Rep. Matthew J. Quandt for Commerce: This bill is already current law, although outdated from 1956. There will be another bill coming into this session that will update the outdated law. The committee does not recommend this bill for further legislation. **Vote 11-0.**

HB 1319, relative to the percentage of ownership in physician hospital organizations.

Rep. Matthew J. Quandt for Commerce: This bill is relative to the percentage of ownership in physician hospital organizations. The committee found several issues with this bill that indicated that it should not be passed. This bill appears to be a special interest bill directed against doctors and does not include hospitals. The committee felt that the legislature should not get involved in promoting or directing business to any one industry. The committee also felt that it did not want to dictate how much of a business a person can own. During the committee hearings on this bill, it was plain to see that there was disagreement among the physical therapists as to whether they wanted this bill or not. **Vote 11-0.**

HB 1409, relative to the disclosure of protected health information by court ordered service providers.

Rep. Matthew J. Quandt for Commerce: The committee felt that this bill is unnecessary since it could cause potential problems with the guidelines under Health Insurance Portability and Accountability Act. This information is available from the patient. **Vote 11-0.**

SB 482-FN, relative to captive insurance companies and reciprocal insurers.

Rep. Donald H. Flanders for Commerce: This bill was introduced at the request of the Insurance Department. The purpose of the legislation is to create a statutory environment that will encourage the formation of "captive" insurance companies in New Hampshire. "Captives" are a generally accepted practice in the industry to isolate specific insurance risks and/or to accommodate reinsurance activities. They are basically "paper" or shell corporations funded with segregated capital to accomplish a limited specific business purpose. The committee was favorably disposed to the legislation last spring, but recent changes in Vermont law required an updating of the bill. The committee also had questions concerning the tax treatment of these entities, which have subsequently been addressed. The updated version of this bill exempts "captives" from BET and BPT taxes. Tax will be based solely on premiums collected. The insurance Department will also levy an assessment to the company to cover supervisory costs. Passage of this bill will greatly enhance the competitive attractiveness of the state for new insurance business, which will in turn generate new premium tax revenues for the state. **Vote 12-0.**

CRIMINAL JUSTICE AND PUBLIC SAFETY

HB 138-FN, relative to interpreters for the deaf in certain governmental or public proceedings.
Rep. Elbert I. Bicknell for Criminal Justice and Public Safety: The basic reasoning behind the recommendation for no further legislative action on this matter is because NH RSA 521-A:1 through A:2 addresses the same concerns. The committee felt the courts are handling the matter of interpreters for deaf and hard of hearing persons and took the position this was not necessary. **Vote 18-0.**

HB 276-FN, relative to protective custody for intoxicated or incapacitated persons.
Rep. Donald C. Smith for Criminal Justice and Public Safety: We found, after listening to testimony and doing research, that the bill creates some concerns with financial responsibility involved with transport, housing, etc., and the interpretation of RSA 172-B:1, X, the definition of intoxicated. We therefore do not recommend legislation. **Vote 18-0.**

HB 355-FN, relative to the permissible fireworks review committee, the fireworks license fee, and the authority of the permissible fireworks inspector.
Rep. Karl I. Gilbert for Criminal Justice and Public Safety: This bill suggested changes in the appointment process for the chairperson of the Fireworks Review Committee, the scheduling of meetings, and the reduction of license fees for vendors. The subcommittee felt that the present process of the Review Committee was satisfactory. **Vote 18-0.**

HB 1219-FN, establishing penalties for transmission or distribution of obscene electronic mail.
Rep. Stanley E. Stevens for Criminal Justice and Public Safety: It was felt that the new federal law titled “Controlling the Assault of Non-solicited Pornography and Marketing Act,” the so-called CAN-SPAM Act, covers what this bill is designed to do. **Vote 18-0.**

HB 1239, relative to records access by private investigators.
Rep. Stanley E. Stevens for Criminal Justice and Public Safety: The subject matter of this bill is part of the chartered study committee on the Integrated Criminal Justice Reporting System and therefore this bill is not necessary. **Vote 18-0.**

HB 1274, relative to evidence admissible in sexual assault cases.
Rep. Beth Rodd for Criminal Justice and Public Safety: The basis of this bill was to require the admission of “grooming behavior” to bolster charges of sexual assault. There is no standard, acceptable definition of “grooming behavior” although some behaviors are already admissible in court at the judge’s discretion. The Attorney General is willing to work with any sponsors interested in pursuing this legislation. However, no interested party attended the subcommittee meeting and the subcommittee members did not receive any input or direction from any other source. **Vote 18-0.**

HB 1341-FN, relative to prohibited computer practices.
Rep. Stanley E. Stevens for Criminal Justice and Public Safety: There were no sponsors or other persons present at the committee meeting. The subject matter of this bill is currently being considered as part of the chartered study committee on the Integrated Criminal Justice Communication System and is therefore not recommended. **Vote 18-0.**

HB 1349-FN-LOCAL, relative to medical parole.
Rep. John E. Tholl, Jr. for Criminal Justice and Public Safety: The subject matter of this bill was covered in a Finance bill passed this term, so the bill is not recommended for further legislation. **Vote 18-0.**

HB 1360-FN, including “unborn child” in the definition of “another” for the purpose of capital murder, first and second degree murder, manslaughter, and negligent homicide.
Rep. Karl I Gilbert for Criminal Justice and Public Safety: After studying the legislative history of this subject and reviewing prior legislation, the committee found that there is no need to change the law at the present time. **Vote 13-5.**

HB 1365-FN, relative to protecting hearing ear dogs, guide dogs, and service dogs.
Rep. George D. Winchell for Criminal Justice and Public Safety: Nationwide recognition of the role for service dogs to assist disabled persons suggests a need for protection and penalties for willful abuse or destruction of these valuable assets. Presently, 35 states have passed similar legislation. **Vote 18-0.**

HB 1391-FN, relative to motor vehicle violations.
Rep. John E. Tholl, Jr. for Criminal Justice and Public Safety: There was very little support for motor vehicle violations to be heard by hearings officers instead of district court judges. **Vote 16-2.**

HB 1407, granting limited law enforcement authority to certain federal officers stationed in New Hampshire.
Rep. John E. Tholl, Jr. for Criminal Justice and Public Safety: There was no support for this idea in subcommittee. Federal law enforcement can be requested to assist New Hampshire law enforcement now. This bill would have allowed federal officers to have authority to enforce New Hampshire laws which the committee felt was unnecessary. **Vote 18-0.**

EDUCATION

HB 492, establishing a statement of parental rights relative to school disciplinary measures, the content of educational materials and surveys, and the use of psychological testing and psychiatric drugs in schools.
Rep. Barbara J. Hagan for Education: The study committee focused on the subject of special education, individual education

plans and psychiatric drug use. We recommend that proposed changes include striking all language regarding discipline. Parental involvement regarding medical decisions and treatment and an emphasis on using qualified medical professionals, in cooperation with parents, are recommended to be included in future legislation establishing a parental rights statement. **Vote 13-0.**

HB 754-FN-LOCAL, establishing an education certificate program to allow parental choice in the selection of schools for children.

Rep. Mark S. Carter for Education: The subject matter and the specific language of this bill is being considered by the chaptered study committee for HB 727, rendering this legislation redundant and unnecessary. **Vote 13-0.**

HB 1232-FN, allowing a disabled person to enroll in a class free of charge at any institution within the university system of New Hampshire, provided a seat is available in the class.

Rep. Stephen R. L’Heureux for Education: The interim study committee thoughtfully considered the subject but felt seats were currently available for prospective students and free tuition was not appropriate at this time. **Vote 13-0.**

HB 1345-FN-LOCAL, establishing an education scholarship fund.

Rep. John R.M. Alger for Education: This bill would have created an education scholarship fund, but the sponsor has decided to offer another bill instead that is comprehensive in scope to eliminate the statewide property tax and donor towns, pay for special education costs at the state level, and create an education alternative fund. The subcommittee does not pass judgment on this new bill but simply finds the current bill, HB 1345-FN-L unnecessary. **Vote 13-0.**

ELECTION LAW

HB 775, establishing a New Hampshire presidential primary advisory commission.

Rep. James R. Splaine for Election Law: The committee believes that our New Hampshire first-in-the-nation presidential primary status must be preserved and protected at all costs. The subject matter of House Bill 775 deserves further consideration and future legislators should have clear guidance and explicit understanding of our firm resolve to maintain our “first” status. We will leave it to future legislatures to be as flexible and innovative as possible to accomplish that goal. We thank the late former Governor Hugh Gregg and others involved in the efforts to protect New Hampshire’s first-in-the-nation presidential primary. **Vote 11-0.**

ENVIRONMENT AND AGRICULTURE

HB 653-FN-A, authorizing the production of industrial hemp.

Rep. Derek Owen for Environment and Agriculture: The subcommittee met several times over the summer. It then drafted a proposal for a new bill using the best parts of this bill and HB 239-FN-A from the 2000 session. **Vote 14-1.**

HB 1229, establishing a commission to study bioaccumulative toxic chemicals.

Rep. Derek Owen for Environment and Agriculture: This bill is not necessary because the Commission to Study the Relationship Between Public Health and the Environment (HB 1390, Chapter 114:2, Laws of 2000) has offered to review the subject of this bill. **Vote 9-5.**

EXECUTIVE DEPARTMENTS AND ADMINISTRATION

HB 116-FN, granting group II retirement system status to certain positions in the department of corrections.

Rep. William R. Zolla for Executive Departments and Administration: This bill would have granted Group II Retirement System status to certain Group I positions within the Department of Corrections. The committee felt that further legislation was required to better define the Group II positions and responsibilities within the Department of Corrections. **Vote 12-4.**

HB 227, establishing a committee to study the feasibility of consolidating the administrative functions of regulatory boards and commissions into a single agency.

Rep. Michael O’Neil for Executive Departments and Administration: The issue of consolidating the administrative functions of regulatory boards and commissions was discussed by the 2003 Governor’s Efficiency Commission. While it appears to be a good idea, the committee feels that a lot more work needs to be done to determine exactly how such a plan can be implemented. **Vote 14-1.**

HB 341, relative to performance budgeting of state programs and agencies.

Rep. Michael O’Neil for Executive Departments and Administration: The executive branch is currently working on developing software for a new budgeting system. Therefore, there is no reason to pursue this concept at this time. **Vote 15-0.**

HB 781-FN-A, establishing the office of corrections ombudsman.

Rep. John DeJoie for Executive Departments and Administration: The committee expressed concern that complaints by staff or inmates are handled expeditiously, but believed that the Department of Corrections (DOC) and the Attorney General’s Office have adequate staff. The committee does not believe that adding a position to DOC would improve the handling of these complaints. The committee does, however, feel that the issue of establishing a Corrections Ombudsman should be included in

any future discussions relative to improving operations at the DOC. **Vote 15-1.**

SB 362, changing the name of the college for lifelong learning to Granite state college.

Rep. Francis B. Sullivan for Executive Departments and Administration: Sending the bill to interim study allowed the University trustees to reexamine the structure of the College for Lifelong Learning's mission as it fits into the mission of USNH. After engaging in strategic planning discussions, the trustees have concluded that keeping the College for Lifelong Learning as a separate entity, with the proposed name change, is the best course of action. The committee agrees. **Vote 16-0.**

FINANCE

HB 612-FN-LOCAL, increasing state appropriations to school districts for certain special education costs.

Rep. Robert K. Dodge for Finance: After lengthy study, the committee recommends changes to the allocation of catastrophic aid expenditures, specifically in the upper and lower limits of state participation. The changes should also consider special education aid paid by local districts, payments made by Medicaid through Health and Human Services, and transportation expenditures. Use of the unique student ID number system will preserve pupil privacy with respect to Health and Human Services data. **Vote 20-0.**

HB 645-FN-A-LOCAL, establishing a pilot program for partial tax abatements on new construction of private schools.

Rep. Robert K. Dodge for Finance: The committee agrees that the intent of the legislation is commendable. However, the legislation as it came to the committee does not address funding. Consequently, the bill is incomplete. Further study relative to funding of the program is essential to develop an acceptable and sustainable solution. **Vote 17-4.**

HB 785-FN, requiring the commissioner of the department of education to establish a public school choice initiative.

Rep. Robert K. Dodge for Finance: After due consideration, the committee decided to allow the intent of HB 785-FN to be consolidated with other school choice legislation presently being considered by the Education Committee. **Vote 19-1.**

SB 411-FN-L, relative to liability for special education transportation costs.

Rep. Elizabeth S. Hager for Finance: The subject of this bill was transportation costs for special education students. Accounting practices in the past allowed districts to collect the transportation portion of the adequate education grant plus the requirements of the individual education plan. The bill intended to bring fair accounting plus ensure that special education transportation was covered even if adequate education grants did not include transportation. The Finance Committee previously recommended HB 612-FN-L. The subject of that bill was very similar, but more comprehensive. We discovered that districts were applying for catastrophic aid by crediting federal funds and Medicaid funds as district funds. HB 612-FN-L calls for improvements in accountability for all credited funds. **Vote 20-0**

FISH AND GAME

HB 1249-FN, relative to the recreational taking of lobster by scuba diving.

Rep. Robert J. Laflam for Fish and Game: The committee felt that the subject matter of this bill should, more appropriately, be addressed in the new session by a new committee. **Vote 9-2.**

HB 1420, relative to requirements of the fish and game department before a coastal area may be closed to fishing of marine species.

Rep. Dennis Reed for Fish and Game: The committee felt that the subject matter of this bill should, more appropriately, be addressed in the new session by a new committee. **Vote 10-1.**

JUDICIARY

HB 1247-FN, relative to a statewide law library network.

Rep. Peter E. Franklin for Judiciary: There may be some changes in the Judicial Branch in the next few years that would make a statewide law library system something to be considered at that time. The committee does recommend that the Office of Legislative Services, which negotiates the printing of the RSAs, keep accurate records of all the free copies that the state receives. **Vote: 13-0.**

SJR 3, urging the United States Supreme Court to retain the words "under God" in the pledge of allegiance.

Rep. Bette R. Lasky for Judiciary: This Senate Joint Resolution was initially submitted as a response to a pending U.S. Supreme Court case. The case has since been dismissed by the Court and there is no other case pending, thereby making this Resolution moot. This decision by the Judiciary Committee does not reflect anyone's feeling regarding the appropriateness of the words "under God" in the Pledge of Allegiance. **Vote: 9-4.**

LABOR, INDUSTRIAL AND REHABILITATIVE SERVICES

HB 1153, relative to employment security.

Rep. Russell T. Ober, III for Labor, Industrial and Rehabilitative Services: The committee voted not to recommend this

legislation due to the bill's fiscal note showing state costs at \$1 million. **Vote 10-2.**

LEGISLATIVE ADMINISTRATION

SB 350, relative to access by the legislative budget assistant to confidential information maintained by the department of revenue administration.

Rep. Eric G. Stohl for Legislative Administration: The committee recommends that no legislation be introduced in the next session because there appeared to be serious concerns as to the handling of confidential information while LBA conducted a performance audit. **Vote 12-0.**

MUNICIPAL AND COUNTY GOVERNMENT

HB 681-FN-LOCAL, relative to the allocation of a municipality's share of county taxes.

Rep. Dudley D. Dumaine for Municipal and County Government: The committee recommends future legislation that would enable counties to change the structure allocating county taxes to municipalities. **Vote: 9-2.**

PUBLIC WORKS AND HIGHWAY

HB 567-FN-LOCAL, relative to telecommunications infrastructure in state-owned rights-of-way.

Rep. Edwin O. Smith for Public Works and Highways: At the request of the sponsor, the committee did not recommend further legislation. **Vote 16-0.**

HB 607-FN, relative to the determination of just compensation in eminent domain proceedings.

Rep. Edwin O. Smith for Public Works and Highways: This issue was settled with other legislation. **Vote 16-0.**

HB 835-FN, relative to federal highway grant anticipation bonds. .

Rep. John A. Graham for Public Works and Highways: While this bill was in interim study, another identical bill (SB 413) was introduced. That Senate bill established a study commission. The study commission met numerous times over the summer and fall of this year, and recently submitted its recommendations. One of the key recommendations of this commission was "that legislation be introduced to give the state the authority to authorize the issuance of federal highway grant anticipation bonds (GARVEE)." Based on this, the committee recommends further legislation. **Vote 15-2**

SB 429, relative to state and municipal contracting practices for public works.

Rep. John A. Graham for Public Works and Highways: The committee believes this issue is worthy of further study. The committee recommends that legislation be introduced to establish a study commission to look at the issues raised during the study of SB 429. The committee recommends that the commission be comprised of members of the House, the Senate, representatives from industry, union and non-union workers, municipalities, school districts, counties and the general public. **Vote 14-3.**

RESOURCES, RECREATION AND DEVELOPMENT

HB 152, relative to regulation by political subdivisions of OHRV trails and exempting certain rail trails use from the state trail evaluation process.

Rep. David M. Lawton for Resources, Recreation and Development: This bill sought to exempt public OHRV trail siting proposals on private lands from compliance with local ordinances. A recent Supreme Court ruling found that this type of exemption is illegal. Therefore, the committee does not recommend this bill for legislation. **Vote 13-0.**

HB 385, requiring compliance with local ordinances in the establishment of public ATV and trail bike trails on private lands.

Rep. David M. Lawton for Resources, Recreation and Development: This bill would require public ATV and trail bike trails to comply with all local ordinances in the cities/towns where they are being proposed. A recent Supreme Court ruling essentially found that these types of trails, by current law, must comply with local ordinances. The committee does not recommend this bill for legislation. **Vote 13-0.**

HB 1164, relative to moorings on Bow Lake.

Rep. Richard T. Cooney for Resources, Recreation and Development: This bill would include Bow Lake in the moorings program which presently covers our six largest lakes: Lake Winnepesaukee, Lake Winnisquam, Squam Lakes, Newfound Lake, Ossipee Lake, and Lake Sunapee. The moorings program is intended to control moorings on a lake when the number of moorings becomes excessive. The program essentially limits moorings to lake-front property owners. Bow Lake is a medium-sized lake in the towns of Northwood and Strafford. It has very limited public access and associated parking for vehicles and boat trailers. A five-member subcommittee toured Bow Lake on a Saturday in July and also toured Lake Ossipee, the last lake to be included in the moorings program. The subcommittee concluded that including Bow Lake in the moorings program is not warranted at this time. The committee voted not to recommend for legislation. **Vote 12-0.**

SB 205-FN, authorizing the state to accept the title of the dam and dikes at Smith Pond, Enfield, New Hampshire.

Rep. Henry A.L. Parkhurst for Resources, Recreation and Development: Due to the numerous unanswered questions regarding Smith Pond Dam, the committee felt “not recommended for further legislation” was the fairest route to follow. Future legislation may be necessary to resolve this situation but not at this time. **Vote 10-3.**

SB 525-FN-A, relative to land and community heritage investment program administration.

Rep. D.L. Chris Christenson for Resources, Recreation and Development: The committee recommends enabling legislation to allow the Land and Community Heritage Investment Program (LCHIP) to offer loans as part of their “tool kit” of activities. Loan activities should be capped to preserve the emphasis on grants as the primary function of LCHIP. Principal and interest should be returned to the program. To accomplish its widely accepted goals, LCHIP requires a permanent, stable, dedicated source of funding. **Vote 13-0.**

SCIENCE, TECHNOLOGY AND ENERGY

HB 1390, relative to MTBE.

Rep. John H. Thomas for Science, Technology and Energy: This bill was introduced as a measure to phase out MTBE as an additive to gasoline. At the same time, SB 397 was introduced in the Senate. During the regular session, the committee incorporated parts of HB 1390 into SB 397 and held HB 1390 in interim study in case SB 397 ran into problems. Whereas SB 397 passed and was enacted, the committee recommends that no further action is required. **Vote 11-0.**

HB 1421-FN, relative to solid waste incineration.

Rep. Roy D. Maxfield for Science, Technology and Energy: The committee voted not to recommend this bill for further action. The original bill would have prohibited a bio-energy electric generation facility in Hopkinton, NH, from operating, as well as several existing fossil fuel generating plants in the state. Our committee held several public hearings and work sessions during the year on this legislation. We failed to reach a common understanding with the sponsors on a reasonable course of action short of shutting these facilities down. The bill did highlight shortcomings in our air regulations as they relate to using construction and destruction demolition waste as a fuel in wood generation facilities. A new bill that addresses these shortcomings will be introduced in the next session. **Vote 9-2.**

WAYS AND MEANS

CACR 22, relating to taxation. Providing that a 2/3 vote is required to pass a new tax or to increase a tax after it is levied and that the maximum increase in any budget bill shall be limited by the rates of inflation and population growth.

Rep. Jeffrey D. Gilbert for Ways and Means: No evidence or third party testimony was presented to the study subcommittee or committee as a whole in support of any benefits to be derived from this legislation. The majority of the subcommittee concluded that this proposed constitutional amendment would unduly restrict the legislature’s ability to fully consider and respond to future revenue and spending requirements and thus it would not serve the best interests of all of the state’s citizens. The committee as a whole also considered commentary from several of its members that the only other state that has enacted a similar constitutional provision, Colorado, has experienced a serious fiscal crisis that the state’s governor and legislature have been unable to resolve. Consequently, the committee adopted, by a vote of 11-5, the subcommittee’s recommendation that no further legislation should be considered. **Vote 11-5.**

HB 1203-FN-A, establishing a research and development tax credit against the business profits tax.

Rep. Susan W. Almy for Ways and Means: The committee recognizes the crisis in manufacturing in this state and the nation, but we could find no evidence that this credit would help the problem. Many other factors, including some the state could positively affect if it had more revenue, are higher priority on industry’s list to deal with the crisis. In contrast, the committee did determine that the credit would cost the state considerable revenue, hurting our ability to maintain needed services. **Vote 15-1**

HB 1387-FN-A, reducing the rate of the business enterprise tax.

Rep. Russell F. Ingram for Ways and Means: While many members of the committee were sympathetic with the objective of this legislation, the committee unanimously recognized that in these uncertain fiscal times, it would be irresponsible to propose a reduction in revenues of tens of millions of dollars. Although the committee recognized that a reduction in the BET could improve the business climate in New Hampshire, the committee agreed that any revenue loss resulting from a reduction in the BET would have to be replaced, and no viable alternative could be identified. **Vote 16-0.**

HB 1388-FN-A, reducing the rate of the business profits tax.

Rep. Russell F. Ingram for Ways and means: The current tax rate of the business profits tax is higher than many committee members would like. The committee received some evidence that the current rate is a disincentive to businesses to either move into New Hampshire or expand existing operations in the state. Once again, however, the committee recognized that in these unsettled fiscal times, with the possibility of a budget deficit looming in the next biennium, it could not recommend a tax reduction without proposing an alternative revenue source to make up for lost revenues. None was apparent. Consequently, the Ways & Means Committee voted unanimously to not recommend this subject for future legislation. **Vote 16-0.**

HB 1402-FN-A, requiring a discount to wholesalers on cash purchases of tobacco tax stamps.

Rep. Christine C. Hamm for Ways and Means: This legislation would restore the reimbursement of one cent per pack to tobacco wholesalers for the costs they incur in purchasing and affixing New Hampshire tobacco stamps to each package of cigarettes sold. Although all but one other state continues to provide some form of credit for this tax collection activity, New Hampshire eliminated this discount in 2003, after it had been in existence since 1939. Committee members believe this was unfair to wholesalers, who must continue to affix the stamps in order to sell their product which, in turn, produces revenue for the state. While the point was raised that wholesalers may already have passed this cost on to consumers, committee members regard that as a separate issue which does not bear on the unfairness of eliminating the reimbursement. Some committee members suggested that the approximately \$3 million in lost revenue to the state could be defrayed by a one-cent increase in the tobacco tax. Such a decision, however, would require separate legislation. **Vote: 15-1**
