

State of New Hampshire

HOUSE RECORD

Second Year of the 160th General Court Calendar and Journal of the 2008 Session

Vol. 30

Concord, NH

Friday, May 30, 2008

No. 42

Contains: Committee of Conference Statements, Meetings and Notices

HOUSE CALENDAR

MEMBERS OF THE HOUSE:

The House will be in session on **Wednesday, June 4th at 1:00 p.m.** to vote on all committee of conference reports.

Some Committee of Conference statements, written by the first named House members, were not available at the time this Calendar was sent to print. An addendum Calendar containing these statements will be posted on line as soon as possible.

The Committee of Conference reports will be in your seat pockets next week, and are available on line.

Thanks to all of you who participated in these Committees of Conference. The House can be proud of its work.

On Wednesday, we will say goodbye to one House Information Officer and welcome another. Katie List will be leaving for a summer in India and will be succeeded by Cissy Taylor, who joins the House staff after a 37 year career in journalism, including 23 years with the Union Leader. Best of luck Katie, and welcome Cissy.

Terie Norelli, Speaker

NOTICE

There will be a Democratic Caucus on Wednesday, **June 4 at 12:15 p.m.** in Representatives Hall.
Rep. Mary Jane Wallner, Majority Leader

NOTICE

There will be a Republican Caucus on Wednesday, **June 4 at 11:00 a.m.** in Rooms 305-307, LOB.
Rep. David W. Hess, Deputy Republican Leader

NOTICE

Open enrollment for Representatives to purchase or make changes to medical and/or dental insurance through the State health care program will be held from **6/9/08** to 6/20/08 with an effective date of 7/1/08. Those Representatives who are already enrolled in the program, but wish to make changes should do so during open enrollment. Information and enrollment forms are available through Joyce Phinney or Mary Vinson, State House Room 113 or call 271-5685.

Terie Norelli, Speaker

NOTICE

Please note that the Calendar closes at 1:00 p.m. on Wednesdays for scheduling and notices. Members and staff who need to schedule meetings should make arrangements with the Clerk's Office for room availability/assignment and publication of meeting notices.

Karen O. Wadsworth, Clerk of the House

WEDNESDAY, JUNE 4

COMMITTEE OF CONFERENCE STATEMENTS SENATE BILLS

SB 32-FN, increasing the maximum amount of debt or damages for small claims actions. The House and Senate conferees were unable to reach agreement on this bill.

Rep. Bette R. Lasky

SB 94, relative to the office of information technology.

The Senate conferees concurred with the House position on this bill.

Rep. Carole J. Estes

SB 212-FN, relative to the regulation of home inspectors.

The only change, by the Committee of Conference, in SB 212, as approved by the House, was to clarify the grandfathering clause to be sure everyone understood that all licensees would need to take the licensing exam.

Rep. Alida I. Millham

SB 264, relative to creating liens on personal and real property to recover uncollected small claims judgments.

This bill establishes and clarifies the right of small claims judgment creditors to obtain attachments to secure their judgments. The conferees agreed to adopt the bill as amended by the House, with the following exceptions: 1. The judge, and not the court clerk, will have the authority to issue a discharge of an attachment, and 2. language in the Senate version clarifying that attachment under RSA 511 may be granted following entry of judgment for the plaintiff, which had been deleted from the House version, will be restored.

Rep. Janet G. Wall

SB 310-FN, relative to changes to games of chance.

The Senate conferees agreed with the House version of this bill with an additional amendment. The purpose of the bill is to improve oversight of games of chance, establish penalties and fines for misconduct by operators of games of chance, clarify the rulemaking authority of the pari-mutuel commission, and establish a new auditor position in the commission to make sure that operators and charities are following established rules. The amendment adopted by the committee of conference makes two changes to the House version of the bill. The most substantive change is that it modifies the requirement that members of the sponsoring charity be present at all times while games of chance are being conducted to a requirement that a member of the charity must be present at some

point in the day during the games of chance event. The amendment also makes the adoption of certain provisions in SB 310 contingent on the non-adoption of HB 1509 and HB 1302, two other bills that deal with charity gaming. Some of the provisions in SB 310 are contained with minor differences in these other bills, or are not needed if the other bills are passed, so the amendment makes clear that certain provisions do not take effect if HB 1509 or HB 1302 become law

Rep. Michael G. Marsh

SB 317-FN, relative to the retail sale of tobacco products.

The Senate concurred with the House position on the bill.

Reps. William Butynski

SB 321, relative to construction or renovation of regional vocational centers, transferring certain positions from the pari-mutuel commission to the department of safety, and requiring certain operating budget reductions.

Statement not available when calendar sent to print

SB 327-FN, relative to compensation for state employees injured in the line of duty.

The Committee of Conference fixed two technical problems identified by the NH Retirement System:

1) “disabled worker” was changed to “injured worker” because disabled refers to a final determination after an investigation of the facts; 2) the phrase “.....shall not be entitled to receive workers’ compensation payments....” was changed to read “....shall not receive workers’ compensation payments....” because a worker must be “entitled” in order to be considered for a retirement package. In addition, the word “state” was added before “compensation” and each instance of the words “workers’ compensation payments.” A final sentence was added to clarify that, “Nothing in this section shall prohibit medical expense payments or final settlements” that a worker would be eligible to receive under existing law.

Rep. Bernard L. Benn

SB 341, prohibiting digital advertising devices on certain highways.

The Senate acceded to the bill as passed by the House. Three words were added (“New or existing”) to simply clarify the legislative intent.

Rep. David B. Campbell

SB 363, requiring youth operators and passengers of OHRVs and snowmobiles to wear approved protective headgear.

The original bill required operators and passengers of OHRVs and snowmobiles under the age of 18 to wear eye protection and protective headgear which meets the specifications of Federal Motor Vehicle Safety Standards (FMVSS 218). The House added the words “size appropriate” which the Senate disagreed with. Rather than having the bill rejected, the House conferees agreed to eliminate the words “size appropriate” which could be open to interpretation.

Rep. Peter F. Bergin

SB 370, relative to emergency powers of the supreme court.

This bill gives the chief justice of the supreme court a limited power to suspend the deadlines for 21 days during a declared state of emergency. The Senate agreed to the House version of the bill, and the sole change made by the Committee of Conference was to change the words “chief judge or administrative judge of any court” to “chief justice of the superior court or the administrative judge of the district or probate court or the judicial branch family division” to more accurately reflect the designation of these judges.

Rep. Lucy McV. Weber

SB 384, relative to the repair of septic systems prior to the sale of waterfront property.

The conferees all agreed with the House version of the bill adding a housekeeping amendment. The amendment made the definitions of bodies of water included under “developed waterfront property” consistent with those in RSA 483.

Rep. Suzanne H. Gottling

SB 386, relative to service territories served by several telephone utilities.

The original bill would have added a provision to enable cable operators to expand into the territory of small telephone providers. During the discussions it was noted that the section of law referenced conflicts with federal telecommunications law, and that federal law allows the expansion anyway. By repealing the conflicting section of New Hampshire law, the federal law clearly takes precedence, and the goal of the original bill is accomplished. In the committee of conference the senate acceded to the house position.

Rep. Melanie A. Levesque

SB 413, authorizing the department of resources and economic development to retain the administrative fee for certain disposals of state land.

The Senate conferees agreed with the House version of the bill. All conferees agreed to minor changes clarifying statutory language.

Rep. David H. Russell

SB 429, relative to driver education courses in other states.

The Committee of Conference met on two occasions and came to an agreement that reflects the policy intent of both the House and Senate in providing the ability for students in out-of-state high schools to receive driving instructions at their school districts. Such a program needed to be equivalent or more stringent than normal NH standards. Oversight was placed with the department of safety.

Rep. Howard N. Cunningham

SB 433, relative to confidential communications between a physician and a patient.

The Senate agreed to the House version of the bill that ties the release of blood/urine test results directly to the incident that is under investigation at the time the blood/urine sample was obtained.

Rep. John E. Tholl, Jr.

SB 482, relative to ethical standards for volunteer service in the executive branch.

The Senate and House conferees were able to reach a compromise on two points of contention in SB 482. The Senate conceded to the House position in regard to the financial disclosure reporting form filed annually by legislators. The House believes, and the Senate concurred, that the optional reporting requirements should be made mandatory on the new form. The language of the new form will also be placed into statute to alleviate any confusion. The House, after much discussion, conceded to an amendment that strikes one line from RSA 21-G:26 regarding service on multibranch commissions and task forces. The House was unwilling to strike the entire RSA as was previously offered by the Senate, and agreed to strike one line excluding members of the public who work or belong to an organization who employ a lobbyist. The other change to the same section struck reference to the words “incident or drill,” which had the potential of excluding police and fire personnel from serving during time of emergency due to their professional associations.

Reps. Michael S. Rollo

SB 484, establishing a commission to investigate alternatives to incarceration for nonviolent offenders and cost savings related to such alternatives.

The Senate agreed with the House version of the bill. The conferees adopted an amendment adding members to the commission created by the bill and added duties to the charge of the commission. It increased the size of the quorum from six to ten members.

Rep. Laura C. Pantelakos

SB 490-FN, relative to fees for special number plates for veterans and relative to vehicle registration fees for disabled veterans and former prisoners of war.

The Committee of Conference met on three occasions. The conferees agreed to include former prisoners of war in the legislation as initially approved by the House policy committee. A significant amount of conference time was spent on a nongermane amendment which was inappropriate to consider on a bill designed regarding vehicle plates.

Rep. Jim Ryan

SB 492, relative to persons designated to fill vacancies on the ballot.

The Senate conferees concurred with the House amendment. The House and Senate conferees agreed to limit the ability of candidates to request recounts and also to authorize the Secretary of State to require advance payment of certain additional recount costs. Conferees also agreed to require a person accepting the designation by a party to fill a vacancy who has already filed for an incompatible office to withdraw.

Rep. Jane A. Clemons

SB 495-FN, prohibiting Internet solicitation and exploitation of children.

After two meetings, the Committee of Conference agreed on a final version that addresses the concerns of the House. The bill retains the House version that “child” means any person under the age of 18 years. It was agreed that in sections that deals with indecent exposure and lewdness would retain the Senate version age of less than 16 years of age. The conferees also made clarifying language on security issues in discovery.

Rep. Stanley E. Stevens

SB 507-FN, relative to extended terms of imprisonment for criminal street gang members.

The House version of this bill removed language relative to identifying members of a criminal street gang and inserted language to target those who recruit, organize and direct criminal activities. The Committee of Conference has amended the House language, restored the Senate language, and calls for a task force to determine the scope of street gang violence, methods used in other states to address criminal street gang violence and study the feasibility of establishing a unified statewide task force to respond to street gang violence in New Hampshire. The effective date for the commission is on passage. The effective date for legislation in March 31, 2009 to allow any corrections that are suggested by the study to be fast tracked in the next session if needed.

Rep. David A. Welch

SB 516-FN-L, relative to aid for county bridges.

The Senate bill as amended by the House would make county-owned bridges eligible for bridge aid. After some questions about the House amendment were answered, the Senate conferees agreed to concur with the House version.

Rep. John R. Cloutier

SB 522-FN, relative to licensing requirements for small quantity biodiesel producers and distributors and prohibiting the sale or delivery of biodiesel not meeting the state ASTM standard. The Senate agreed with the House version of SB 522. This bill sets up licensing procedures for the producers of small quantities of biodiesel. Currently, even small producers of this fuel are required to be licensed and post a \$10,000 bond. This bill allows small producers (less than 10,000 gallons/year) to be licensed without the bond. The bill provides a definition for bio-diesel and establishes technical standards for its production. Additionally, it allows for a refund of the road toll collected on this bio-diesel to be refunded if it is used for off-road purposes, and allows the collection of purity testing fees from producers whose product fails to meet established standards.

Rep. John A. Graham

SB 526, relative to the death benefit for police officers and firefighters killed in the line of duty.

The Senate has changed its mind and has agreed to concur with the House version of the bill.
Rep. Daniel J. Sullivan

SB 530-FN-A-L, relative to kindergarten aid.

The House and Senate Conferees agreed to support the House position on SB 530 with the follow exception: The 12 school districts that currently do not provide public kindergarten will have 3 years instead of 4 years to contract with a private entity to provide a kindergarten provided that the kindergarten meets or exceeds the minimum standards for school approval as adopted by the department of education. The Conferees also agree to add new language that will amend RSA 198:46 that will effectively eliminate “donor towns” for fiscal years 2010 and 2011. This new language will confirm the intent and representations made with the passage of SB 539-FN-Local. Without SB 530, districts must offer public kindergarten by September 2008 and would have few transition options. This bill will allow the 12 remaining school districts 3 years to transition to public kindergarten for all 5 year olds.

Rep. Peter R. Leishman

SB 531, relative to the capital appropriation for the Hillsborough north superior court and relative to the venue for criminal cases in Hillsborough county.

In section 1 paragraph II of the bill, the House conferees agreed to remove “renovation” from the purpose of the appropriation. The appropriation will only be for design of the Hillsborough County Superior Court-north.

Rep. Candace C.W. Bouchard

SB 533, establishing a committee to study age-based driver’s license renewal testing.

The conferees negotiated a positive disposition of the bill. The Senate agreed to appoint two members of the Senate as requested by the House. The House agreed to revise the bill to establish a traditional study committee rather than a commission.

Rep. Jim Ryan

SB 536-FN, reclassifying certain positions in the insurance department.

The Senate agreed to the House position on this bill.

Rep. Maurice L. Pilotte

COMMITTEE OF CONFERENCE STATEMENTS

HOUSE BILLS

HB 65, relative to the Pease development authority.

The Committee of Conference agreed upon much of the bill passed by the House. The proposal of the Senate to add a study commission was dropped. The House change in the procedure for appointing the director of ports and harbors by the governor and council was dropped. Minor errors and omissions between the House and Senate versions were corrected.

Rep. Peter E. Franklin

HB 310, allowing municipalities to regulate small wind energy systems.

The conferees were able to agree to the following changes. We included from the Senate version that it is unreasonable for municipalities to prohibit small wind energy systems in all districts. We removed from the Senate version “Limits on tower heights or system height may consider factors such as, but not limited to, system operability, visual impact, and safety.” The House conferees accepted the Senate version of setbacks because of difficulty in dealing with a “disapproving abutter.” The House conferees also accepted the Senate position on where to measure the sound level. House conferees were very concerned that in the hearing process proposed in the Senate version, individuals from other municipalities would have the legal right to challenge decisions made

by the host municipality. However, after closely reviewing the statutes regarding developments of regional impact, it was clear that individuals from other municipalities may testify at a hearing but would have no legal standing to challenge any decision. Language changes were made in the Senate version to allow for notification of abutters when the application was filed rather than when a building permit was issued. A sentence was added to give abutters a 30 day period to respond after notification and a phrase was added to clarify what is already in statute that the building inspector and a local land use board are one and the same. Further language changes for clarification were made in section 5 of the Senate version. “Reasonable opportunity” was changed to “30 days” and comments must be submitted to “the building inspector” as well as the governing body prior to the issuance of the building permit.

Rep. William V. Chase

HB 359-FN, relative to recovery of medical assistance from an estate.

The House agreed to the Senate amendment providing the department of revenue administration with the ability to collect the nursing home quality assessment from special needs hospitals and a similar quality assessment from intermediate care facilities for the mentally retarded. The Senate concurred with the House position on recovery of medical assistance from an estate.

Rep. Bette R. Lasky

HB 765-FN, establishing a committee to study the financial liability for placement of a child with a disability.

The House and Senate quickly concurred on the only two issues. The first was a correction of a typographical error regarding the makeup of the committee now changed to three House and one Senate member. The second was another correction allowing that a quorum shall be three (not four) members.

Rep. Kimberley S. Casey

HB 781-FN, relative to the duties of the department of safety.

The House passed version was a housekeeping bill by the department of safety. The bill clarified the department of safety reporting procedures, its responsibilities for homeland security and emergency management, enhanced 911 services and firefighting training. It also repealed the hazardous materials transportation safety board and established the hazardous materials transportation advisory committee. The Senate agreed with all of this, However, they added a section to update emergency lights and warning lights. The House conferees agreed with the Senate on this addition to the bill.

Rep. Peter F. Bergin

HB 1174, relative to condominium association meetings.

The House and Senate conferees were unable to reach agreement on HB 1174. The House version provided for notice of condominium meetings to be given to unit owners and for unit owners to have access to the minutes of condominium association meetings. The Senate requested a study committee to study the scope and application of RSA 356-B, the condominium act, including the adequacy of notice and disclosure requirements for meetings of the governing body of the unit owners association.

Rep. Tara G. Reardon

HB 1220, establishing a commission to study the taxation of alternative fuel and electric power motor vehicles for the purposes of funding improvements to the state’s highways and bridges.

The version of the bill as amended by the Senate would have established a committee to study the taxation of motor vehicles for the purpose of funding improvements to the state’s transportation system, in particular relative to the impact of reduced funding due to fuel economy improvements and use of alternative fuels. The Senate conferees agreed to the House original version of the bill, which would establish a commission to study the taxation of alternative fuel and electric powered

motor vehicles for the purpose of funding such improvements. In return the House conferees agreed to the Senate's request to reduce Senate membership on the commission from three to one as well as reduce the quorum to conduct business from six to five.

Rep. John R. Cloutier

HB 1227, clarifying when persons elected may assume certain offices.

The House and Senate adopted a new amendment making technical improvements and a clarification of the appeals process involving multi seat offices.

Rep. Jane A. Clemons

HB 1236, relative to motor vehicle laws.

The House conferees agreed with the Senate amendments. This bill makes a variety of changes in the motor vehicle laws. These changes are being made to bring current law up to date and to clarify some sections. The Senate did not change the bill as it was introduced with nine sections, but added two sections and made a change in the effective date. A new section 11 changed the gross weight from 9000 pounds to 11000 pounds for a motor vehicle as defined in RSA 259:10 and a new section 10 allows the director to allow residents from other states to take a rider training course only if an adequate number of rider training courses have been provided for New Hampshire residents. The effective date for section 11 is upon its passage. The remainder of the bill will take effect in 60 days.

Rep. Robert W. Williams

HB 1242, relative to the prohibition on employee consumption of beverage or liquor.

The House and Senate conferees agreed to amend the Senate version of HB 1242. The amendment only changed the effective date from July 2009 to January 2009.

Rep. Randolph N.S. Holden

HB 1260-L, relative to growth management ordinances.

The House and Senate conferees agreed with the Senate version which added a time period for the modification of existing growth management ordinances. Municipalities will have until June 1, 2010 to amend their zoning ordinances to conform with this act. The effective date was changed to be upon passage. A Senate amendment which dealt with another subject matter was removed from this bill.

Rep. Robert L. Theberge

HB 1335, establishing a commission to study the effects of post-traumatic stress disorder and traumatic brain injury suffered by New Hampshire soldiers and veterans returning from Iraq and Afghanistan.

The Senate reduced the quorum from seven to five out of concern about achieving a quorum during the summer. However, due to the importance of the issue the House believes and the Senate concurred that a quorum of seven is workable. Due to the importance of the subject there will be a number of off-site visits, but the draft and final reports will be signed off with a quorum present.

Rep. Kris E. Roberts

HB 1346, relative to the regulation of junk dealers, scrap metal dealers and pawnbrokers.

The House conferees concurred with the Senate that the phrase "at any time" be removed from the inspection regulations. In the paragraph on identification we were unable to agree on changing the word from "collecting" to "purchasing", but we agreed to strike the whole clause as unnecessary in this location. The Senate conferees agreed to extend the language on inspections to pawnbrokers, and both bodies agreed that "cause" was unnecessary for inspections.

Rep. Timothy Butterworth

HB 1405-FN, regulating outdoor wood-fired hydronic heaters.

The Committee of Conference agreed to the following changes. 1. While the Senate version of the

purposes and findings was less incriminating of existing OWHH's than that of the original version of the bill, the conferees accepted the Senate version of purposes and findings with language changes which further reduced the incrimination. 2. Language was added to the bill directing OWHH dealers to not only not sell non phase I or phase II units after 1 January 2009 but to also "not offer for sale" said units. 3. There was considerable discussion regarding the inclusion of setback and stack height specifications. These had been eliminated in the House version in favor of leaving the specification limitations up to individual municipalities. The Senate conferees concern was that there are quite a number of municipalities that, for various reasons, do not create ordinances that would provide guidelines for individuals installing units like OWHH's. It was felt the state should provide some basic guideline specifications for setbacks and stack heights to prevent frivolous placement and installation of units. The Senate version of setbacks and stack heights calls for decreasing setback and stack height limits as the efficiency of the OWHH's improves. The House conferees agreed to the Senate version but with additional language to clarify that municipalities may institute more restrictive limitations if they wish to do so. 4. The setback for non phase I or phase II OWHH units purchased between the effective date of the bill and 1 January 2009 was changed from "at least 200 feet from the nearest property line" to "at least 200 feet from the nearest residence." This would give individuals more flexibility to purchase units that could be installed on their property and dealers more opportunity to move non phase I and phase II units in their inventories. 5. Language in the bill was clarified for non phase I or II units purchased between the effective date of this bill and 1 January 2009 to indicate that setbacks and stack heights would have to be in compliance with the statute whether installed before or after the 1 January 2009 date.

Rep. William V. Chase

HB 1442-FN-A-L, relative to the taxation of farm buildings and land under farm buildings. The conferees agreed to the bill as amended by the Senate with some changes. Curtilage was added to the qualifying farm structure for tax exemptions. Modifications were also made to the low income housing tax credit program (LIHTC) which was in the Senate version of the bill. The changes included the duties of the commissioner of the department of revenue administration (DRA); the consideration of tax credits by the Assessing Standards Board when finalizing a formula for assessment purposes; grandfathering LIHTC properties and allowing for a 2 year period before the act is implemented; and finally, ensuring that no property under RSA 75:1-a shall be eligible for a tax exemption under RSA 72:23 after July 1, 2010

Rep. Robert L. Theberge

HB 1446, relative to changes to the school building aid statutes and to the schoolhouses statutes. In the Committee of Conference, the Senate floor amendment added to the House passed version of HB 1446 was removed. The bill now is in the exact form as it passed the House in February 2008 and is a housekeeping measure concerning the school building authority.

Rep. Bennett F. Moore

HB 1468, relative to mosquito control policy for lands managed by the fish and game department. The House conferees agreed to the Senate amendments with one notable exception. The Senate conferees agreed with the House position that adding a "grandfathering" section to the mosquito control policy was not necessary and would complicate its implementation. State agencies involved in land management expressed concern with activities occurring on state lands without their knowledge and are satisfied with the bill as offered. The bill, as agreed upon, is the result of two years of work by the mosquito commission and the policy has also been implemented by executive order.

Rep. Dennis F. Abbott

HB 1471, relative to time limits for excavating and dredging permits. The Senate acceded to the House version on the time period for applicants. The House acceded to the Senate amendment, which directs the department of environmental services (DES) to prepare a

plan to achieve compliance with RSA 149-M:2, which establishes solid waste management goals for New Hampshire. The conferees agreed to broader language addressing future disposal capacity of New Hampshire's solid waste.

Rep. Frank A. Tupper

HB 1502-FN, relative to disposal of used needles.

The Committee of Conference recommends that the House recede from its position of nonconcurrency with the Senate amendment, and concur with the Senate amendment, and that the Senate and House adopt a new amendment to the bill which corrects the name of the National Solid Waste Management Association.

Rep. Jane E. Beaulieu

HB 1509-FN-A, establishing certain fees for operators of games of chance for the purpose of funding the education trust fund.

The House conferees agreed to the Senate version of the bill with a minor amendment. The Senate version allowed the maximum bet in games where chips have value to increase from \$2 to \$5. The committee of conference amendment sets this maximum bet at \$4. HB 1509 also institutes an assessment on this form of gaming, about \$2 to \$3 million a year, comparable to the long-standing state levy on bingo and Lucky 7. This is an assessment on game operators of 3% of the gross money waged in poker tournaments and 10% of the house gain or rake in other games. This money is used in part to fund four new positions in the pari-mutuel commission that will provide needed regulatory oversight of the industry. The balance of the assessment goes to the general fund. The bill protects the charities by limiting the amount of money that can be paid out to the players.

Rep. Michael G. Marsh

HB 1573-FN-L, relative to hazardous and dilapidated buildings.

The House receded from its position and accepted the Senate amendment to the bill which clarified the process a city or town must undertake prior to attaching an owner's insurance proceeds for the purpose of cleaning up the debris from derelict properties when razed by fire or otherwise left in a hazardous condition.

Rep. Andy R. Peterson

HB 1594-FN, relative to hazardous material reporting requirements and establishing fees for hazardous materials facilities and employees.

The House conferees agreed to work with the Senate version of the bill. The HazMat program through the regional response teams provide critical initial response to spills of hazardous materials. The program has wide support at both the federal and state level, also broad support by industry, as well as by fire and safety organizations. Policy issues have been extensively studied in committee by a joint legislative committee and by the NH Hazardous Materials Collaborative Council. The Committee of Conference agreed that further work is needed to find a permanent means of financing this program. The conferees also agreed that further work is also needed to clarify the organizational structure of the regional teams and their relation to the state fire marshal's office. The Senate version of HB 1594 as amended by the Committee of Conference will do exactly that by establishing a broad-based commission for that purpose. The Committee of Conference at its meeting received strong assurance by the Assistant Commissioner of Safety and the State Fire Marshal that the program does not need funding in fiscal year 2009 by the legislature and that necessary funding during that period will be provided from other sources.

Rep. Gilman C. Shattuck

HB 1615-FN-A, establishing the state office of rural health in the department of health and human services and establishing a commission to recommend policies and programs to increase the number of persons in health professions servicing New Hampshire's rural and underserved areas.

The Senate agreed to reinstate the commission to study rural health care workforce issues, which

was amended to include fewer members and a reduced scope of duties. The House agreed to push back the final report date by two months and to send copies of the reports to the Health committees of both chambers and the Health and Human Services Oversight Committee.

Rep. Cindy Rosenwald

HB 1628, relative to renewable energy generation incentive programs.

The Senate amendment consisted of several PUC-recommended changes to HB1628 to clarify the definition of a small residential system, give clear authority to the PUC to administer the rest of the RPS renewable energy fund, and implement two non-germane housekeeping changes to the RPS law. The House agreed with the housekeeping changes, but the new definition unintentionally removed off-grid systems from the program. The Senate version also gave the PUC the ability to change the incentive program by rule or order, and the House wanted to limit that to a rule change under legislative review. Additionally, the word “built” was changed to “becomes operational” to eliminate any confusion about eligibility. An extra paragraph left by an editing mistake was removed. The House and Senate conferees agreed to a committee amendment to implement these changes.

Rep. Michael A. Kaelin

HB 1637, relative to reports to the cancer registry.

HB 1637 was requested by the Joint Legislative Committee on Administrative Rules (JLCAR). As amended by the House it provided an alternative to the JLCAR process for reviewing the technical content of amendments to standards for cancer registries recommended by the North American Association of Central Cancer Registries. The Senate added an amendment. The conferees changed the Senate amendment so that it directs the Health and Human Services Oversight Committee to work with the Board of Pharmacy to study and report the frequency of unfilled prescriptions due to inadequate staffing and pharmacy closures.

Rep. Robert G. Bridgham

HB 1640-FN, relative to the classification of convicted sex offenders and offenders against children and revising the provisions requiring DNA testing of criminal offenders.

The Committee of Conference adopted the Senate version of the bill with the House modified position on DNA that limits DNA testing to only violent felonies, sexual offenders, and offenders against children. It retains the current 10 year registration period for Tier 1 offenders. It amends felonious sexual assault by increasing the age difference from 3 to 4 years when the victim is over 13 years of age and under 16 years (RSA 632-A:4, I (c)). This is consistent with the Adam Walsh Act. It adds the suspension of driving privileges for non-compliance with registration requirements for sexual offenders after a 15 day period, once notification or attempted notification has occurred. Portions of HB 1613 which was tabled in the Senate that dealt with incest was also included. The language from SB 356 which had been found inexpedient to legislate in the House relative to special restrictions on offenders against children was removed.

Rep. John E. Tholl, Jr.

HB 1642-FN, providing additional funding for charter schools for the 2009 fiscal year.

The House and Senate Conferees agreed to new language which allocates additional funds to six chartered public schools: the Academy for Science and Design Charter School, Cochecho Arts and Technology Charter Academy, New Hampshire Equestrian Academy Charter School, Seacoast Charter School, Strong Foundations Charter School and Surry Village Charter School in the amount of \$1,168 per student which will be added to the 2009 charter school allotment as stipulated by (previous) law.

Rep. Kimberley S. Casey

HB 1645-FN-L, relative to administration of the New Hampshire retirement system and benefits for members.

Statement not available when calendar sent to print

HB 1646, relative to the 10-year transportation improvement plan.

The Senate acceded to the bill as passed by the House. HB 1646 contains the 10 year transportation plan, without amendments.

Rep. David B. Campbell

Karen O. Wadsworth, Clerk of the House

MEMBERS' NOTICES

The following notices are published in the House record as a courtesy to the member(s) requesting publication. These are not official public notices and will be limited to legislative policy or legislative social activities and political meetings or events. Publication should not be construed as support for either the events listed or the views espoused by the individual or organization sponsoring the event.

Want something new to read? Have a book that you're done with? Head over to the basement of the LOB and help the Order of Women Legislators (OWL's) Scholarship Program. You are sure to find something that appeals to you. Donations accepted.

Rep. Julie Brown

The Legislative Youth Advisory Council will meet on Sunday, **June 1st** at 1:00 p.m. at the NH Technical Institute, Concord. The council will be considering issues of concern to youth and will be planning the August seminar. The public is invited to attend.

Rep. Carolyn Gargas

The state sponsored voluntary retirement/economic security project group will meet on **June 2nd** at 10:00 a.m. in Room 306, LOB.

Rep. A. Laurie Harding

All members are invited to the Rockingham County Conversation with UNH President Mark Huddleston on Monday, **June 2nd**, at Seacoast Youth Services, 867 Lafayette Road, Seabrook from 3:00 to 6:00 p.m. This year's topic, Strengthening Lower Seacoast Youth and Families, will describe

UNH Cooperative Extension and research efforts that focus on how a partnership between UNH Cooperative Extension and Seacoast Youth Services has evolved over the past 5 years. By working collaboratively, a comprehensive program of services and positive youth development activities for youth and families from New Hampshire's lower seacoast towns has been created. Involved youth are preparing special refreshments along with presentations highlighting the youth perspective. Registration begins at 3:00 p.m. with the County Conversation commencing at 4:15 p.m. Please RSVP to Rockingham County Cooperative Extension at 679-5616 or e-mail Deb.Stevens@unh.edu by May 28. Hope to see you there.

Rep. Kimberly S. Casey

In recognition of the 9th anniversary of the NH Legislature's enacting an official Dr. Martin Luther King Jr. holiday, the NH Cultural Diversity Awareness Council invites all legislators to join them and their special guest, Governor John Lynch, for lunch on Wednesday, **June 4** at 11:30 a.m. at St. Paul's Episcopal Church. The Council will also recognize NH's law enforcement community for its efforts in promoting diversity and for its contributions to our quality of life. Please RSVP by May 31 to nhcdac@aol.com or Wayne Jennings at 487-3851 or 494-4723.

Rep. Linda T. Foster

The New Hampshire Reagan Network invites Republican legislators to an open house celebrating their first anniversary at their 134 North Main Street location across from the Capital. Come by right after the **June 4th** session for refreshments and to celebrate with us.

Rep. Fran Wendelboe

The Unitarian Universalist Action Network (UUAN) is a statewide organization with a broad mission including education on the legislative process. UUAN is holding a series of house parties throughout the state and is inviting legislators to attend to discuss issues and the legislative process with guests. If you would like to attend a UUAN house party on the evening of **June 7** in Bristol or **June 14** in Sanbornton, or for more information, please contact Pauline Chabot at 286-4596.

Rep. Gail Morrison

On Sunday, **June 15th** the New Hampshire Motor Speedway will hold the 85th Annual "Loudon Classic." This event, an integral part of Race Week, is the longest running, continuous event for motorcycles in the nation. Senate and House members are invited to participate in the opening ceremonies by doing a parade lap on their motorcycle. For further information please contact Rep. James Phinizy.

Rep. James G. Phinizy

National Heritage Center for Constitutional Studies is presenting "A Walk through the Framers Constitution" A review of the Constitution for the United States of America, Article by Article, Section by Section, Clause by Clause to be held on Saturday, **June 21**, at Southern New Hampshire University. Registration through June 16 at 679-2444 or www.nhccs.org.

Rep. Daniel C. Itse

Ron Borque discusses "the socioeconomic climate in America in light of social changes in recent history", sponsored by New Hampshire Right to Life on Sunday, **June 22** at 3:00 p.m. at the Holiday Inn, Concord N.H., Capital Room. No registration necessary.

Rep. Daniel C. Itse

The Experimental Program to Stimulate Competitive Research (EPSCoR) will meet on **June 27**, in Room 304, LOB from 8:30 a.m. to 12:00 noon.

Rep. John Thomas

The House Republican Alliance will meet every Tuesday at 8:30 a.m. in the Upham Walker House.

Rep. David J. Bettencourt

STATE HOUSE VISITATION SCHEDULE

As a convenience to the members of the NH General Court, the Visitors' Center offers the following schedule of schools and other groups visiting the State House in **May & June 2008**. These listings are to ensure all members be notified in a timely manner of visitors from their district. Our schedule is tightly booked for the remainder of the school year and subject to changes. **Please contact the Visitors' Center concerning school tour booking information.** Thank you for your continued participation with your School Visitation Program.
