GOVERNOR'S VETO MESSAGE ON HB 443

By the authority vested in me, pursuant to part II, article 44 of the New Hampshire Constitution, on July 16, 2009, I vetoed HB 443, an act relative to underground storage facility operator training and relative to requirements for guaranteed price plans and prepaid contracts for petroleum.

I appreciate the general court's well-intentioned effort to strengthen protections for consumers of heating oil in this bill. I am concerned, however, that this bill may contain unintended consequences for consumers that will impact their ability to negotiate the best price possible for heating oil. Under current law, a prepaid or capped-price contract for heating oil cannot exceed a term of one heating oil season, and these contracts can be offered no earlier than January of the year in which the heating oil season begins. This bill would allow prepaid or capped-price contracts to be offered no earlier than May of the year in which the heating oil season begins. The proposed legislation would give consumers four months less time each year in which to enter into prepaid or capped-price contracts.

This proposed legislation was introduced in an effort to protect consumers who, on some

occasions in the past, have paid monies in advance for home heating oil, and then did not receive the heating oil because the oil dealer went out of business before the next heating oil season. Nevertheless, I am not convinced that this bill is the proper solution to address the problem. I also question whether we should limit the pre-buy period between January and May. Many residential and business consumers of heating oil have indicated that, by shortening the window to offer these contracts, the proposed legislation will materially impact their ability to obtain the best price possible for heating oil. I believe this issue warrants further consideration by the general court. For this reason, I am vetoing HB 443.

I fully support establishing requirements for training operators of underground petroleum storage facilities as set forth in the first two sections of this bill.

Respectfully submitted,
John H. Lynch
Governor

GOVERNOR'S VETO MESSAGE ON HB 648-FN

By the authority vested in me, pursuant to part II, article 44 of the New Hampshire Constitution, on July 10, 2009, I vetoed HB 648-FN, an act relative to the use of marijuana for medicinal purposes.

I have tremendous compassion for people who believe medical marijuana will help alleviate the symptoms of serious illnesses and the side effects of medical treatment. Although opinion of the medical community on the efficacy of medical marijuana remains mixed, I have been open, and remain open, to allowing tightly controlled usage of marijuana for appropriate medical purposes. But in making laws it is not enough to have an idea worthy of consideration, the details of the legislation must also be right.

I recognize that the sponsors of this legislation, and the members of the conference committee, worked hard to attempt to address the concerns raised about this legislation. However, after consulting with representatives of the appropriate state agencies and law enforcement officials, I believe this legislation still has too many defects to move forward.

Law enforcement officials have raised legitimate public safety concerns regarding the cultivation and distribution of marijuana. These concerns have not been adequately addressed in this bill. Marijuana is an addictive drug that has the potential to pose significant health dangers to its users, and it remains the most widely abused illegal drug in this State. I am concerned about the quantities of the drug made available to patients and caregivers under this bill, particularly because there are different types of marijuana and the potency of marijuana can vary greatly depending on how it is cultivated. I am troubled by the potential for unauthorized redistribution of marijuana from compassion centers. In addition to patients and designated caregivers, an unlimited number of "volunteers" can receive registry cards and receive the full protections afforded under this legislation to authorized cardholders. The provisions made for law enforcement to check on the status of an individual who asserts protection under the proposed law are too narrow.

There are also many inconsistencies and structural problems in the legislation that would greatly complicate its administration and would pose barriers to controls aimed at preventing the unauthorized use of marijuana. The bill does not clearly restrict the use of marijuana to those persons who are suffering severe pain, seizures or nausea as a result of a qualifying medical condition. The bill requires compassion centers to hold a license to cultivate and distribute marijuana for medicinal purposes, but the bill does not contain clear

provisions regarding a licensing process or standards. Compassion centers can be penalized for distributing amounts of marijuana that exceed permissible limitations, without the compassion centers having the means to know how much marijuana the patient already possesses. Caregivers in some instances are required to control the dosage of marijuana without any real means to accomplish this task. The bill leaves unclear the authority of a landlord to control the use of marijuana on rented property and in common areas of property. While the bill contemplates self-funding, there have been inadequate fiscal studies. The Department of Health and Human Services' administrative responsibilities are of such a magnitude under this legislation that the fees potentially would be so great as to deny access to anyone but the wealthiest of our citizens, resulting in potential inequities.

I understand and empathize with the advocates for allowing medical marijuana use in New Hampshire. However, the fact remains that marijuana use for any purpose remains illegal under federal law. Therefore, if we are to allow its use in New Hampshire for medical purposes, we must ensure that we are implementing the right policy. We cannot set a lower bar for medical marijuana than we do for other controlled substances, and we cannot implement a law that still has serious flaws.

Therefore, I am regretfully vetoing HB 648-FN.

Respectfully submitted,
John H. Lynch
Governor

GOVERNOR'S VETO MESSAGE ON HB 655

By the authority vested in me, pursuant to part II, article 44 of the New Hampshire Constitution, on July 31, 2009, I vetoed House Bill 655, an act extending senior active status to judges over 70 years of age.

Part II, Article 78 of the Constitution of New Hampshire states that "[n]o person shall hold the office of judge of any court, or judge of probate, or sheriff of any county, after he has attained the age of seventy years." The supreme court has ruled that this constitutional provision does not prohibit a retired judge over the age of 70 from exercising power as a judicial officer on a temporary basis. The supreme court has reasoned that the general court holds the constitutional authority to authorize limited temporary assignment of retired justices over the age of 70 to ensure the adequate and orderly administration of justice.

In adherence to this constitutional provision, the general court has granted very limited authority for retired supreme court or superior court justices over the age of 70 to sit on specific appellate cases at the supreme court, only when an active supreme court justice is disqualified or unable to sit in any cause or matter pending before the court. In addition, retired judges under the age of 70 presently may elect to be designated on senior active status within their respective courts. Retired judges over the age of 70 may not be designated to serve on senior active status.

This bill would allow retired justices of the supreme, superior, district or probate court who are over the age of 70 to elect senior active status and assume all of the powers of a justice in regular active service, including the power to render judgments and preside over jury trials. The retired justices over age 70 would be appointed to "limited temporary assignments." The permissible scope and duration of "limited temporary assignments" is not defined or addressed in the proposed legislation.

Our Constitution clearly states that no person shall hold the office of judge of any court after the age of 70. The supreme court has held that the temporary assignment of retired judges is permissible. This bill would substantially expand the circumstances and potential timeframes during which judges over the age of 70 could serve on the bench. The Constitution of New Hampshire sets forth an appointment process for new judicial officers through nomination by the governor and confirmation by the executive council. This bill grants the chief justice and administrative justices with discretion to appoint or reappoint some judges over age 70 on senior active status based on an annual assessment. The appointment process for new judicial officers as set forth in our Constitution weighs against the adoption of a significantly expanded senior active status for judges over age 70.

Any further expansion of the role of judicial officers over the age of 70 should be drawn in a very narrow way, or addressed through an amendment to our Constitution.

Respectfully submitted,
John H. Lynch
Governor
