

HOUSE RECORD

Second Year of the 162nd General Court Calendar and Journal of the 2012 Session

Vol. 34 Concord, N.H.

Thursday, November 8, 2012

No. 64

Contains: 2012 Interim Study Statements, Meetings and Notices.

HOUSE CALENDAR

MEMBERS OF THE HOUSE:

This Calendar contains the reports and committee recommendations on the bills sent to Interim Study by the House. Please be mindful of these reports when considering filing legislation for the next Session.

The Republican Caucus to select House officer nominees will be held on Thursday, **November 15**, starting at **4:00 p.m.** in Representatives Hall. Prior to the voting portion of the caucus **at 6:00 p.m.**, there will be a presentation and question-and-answer period for Republican candidates and members beginning at 4:00 p.m.

The Democratic Caucus will be held on Saturday, **November 17**, at **9:00 a.m.** in Representatives Hall.

The New Legislator Orientation Program will be held on Wednesday and Thursday, **November 28 and 29**.

Pursuant to Article 33, Part II of the New Hampshire Constitution, the 2013-2014 General Court will organize on **December 5**, the first Wednesday in December.

Through the end of this legislative term on December 4, legislative mileage will be limited to reimbursement for travel on one day a week to Concord for official legislative or constituent work in addition to those days that members are required to be in Concord for official committee or leadership work. Reimbursement for committee or leadership purposes is limited to service as a member of a policy, chaptered or statutory committee or for Democrat or Republican caucus or legislative leadership. Members should not schedule meetings for Mondays or Fridays, as generally mileage reimbursement will not be permitted on those days.

William L. O'Brien, Speaker

NOTICE

The **2010 House Permanent Journals** have arrived. **House members** who ordered a Journal may pick it up in the Clerk's Office. Thank you.

Karen O. Wadsworth, Clerk of the House

NOTICE

The House Calendar will be published weekly. Please note Calendar **will close on Wednesdays at noon. There will be no calendar the week of Thanksgiving.**

CLOSES NOON WEDNESDAY:

November 14

November 28

AVAILABLE THURSDAY:

November 15

November 29

Karen O. Wadsworth, Clerk of the House

HOUSE DEADLINES

Tuesday, November 13, 2012

First day for all members elected for the 2013 session to file LSRs for the 2013 session.

Friday, December 7, 2012

Last day for all members elected for the 2013 session to file LSRs for the 2013 session.

Last day for a member to declare sponsorship of an LSR filed by an unelected incumbent member.

Friday, January 11, 2013

Last day to sign off all House LSRs, other than petitions involving the election or qualifications of a member to serve in the House.

Friday, February 1, 2013

Last day to introduce House legislation including, but not limited to, House Bills and petitions

Wednesday, February 13, 2013

Last day to amend House Rules by majority vote.

All deadlines are subject to the close of business at 5:00 p.m. each day, except amending House Rules by majority vote, which shall be the ending of the last House session day on or prior to February 13, 2013.

2012 INTERIM STUDY STATEMENTS

CHILDREN AND FAMILY LAW

HB 506-FN, relative to false allegations of child abuse. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

This bill establishes a criminal penalty for knowingly making a false allegation of abuse or neglect. The committee does not recommend further legislation because there is already a criminal penalty for false swearing RSA 641:2. Everyone in New Hampshire is required to report suspected child abuse or neglect, RSA 169-C:31, and this bill could inhibit people from reporting. Regarding the false allegations in divorce or separation, there is a “catch all” phrase for the court to consider under best interests of child, RSA 461-A:6 (1), any other additional factors the court deems relevant. We heard testimony that the court, while not perfect, does a pretty good job of sorting through difficult, divisive circumstances by keeping the focus on the child. Another reason we do not recommend further legislation is because we anticipated a problem of how to know someone was intentionally making a false allegation, and who would do the investigation to prove it. How would you be able to prove

intent? There was fiscal note of \$10,000. And, finally, we heard that although it occurs, it is not a frequent problem. DCYF has a strict standard in order to prove abuse or neglect, but also can do a more in depth review of a report if they feel further investigation is required.

Vote 9-4.

Rep. Carolyn M. Gargas

HB 1365, relative to complaint investigation procedures of the guardian ad litem board.

RECOMMENDED FOR FUTURE LEGISLATION.

Having heard testimony that there is a problem with the current complaint investigation procedures, the majority of the committee recommends further action to correct the problem.

Vote 7-6.

Rep. Edward P. Moran

HB 1530-FN, relative to oversight of guardians ad litem by the guardian ad litem board.

RECOMMENDED FOR FUTURE LEGISLATION.

The committee endorses collection of data from parties to family law litigation involving guardians ad litem. We believe feed back from stakeholders can improve individual performance and provide the basics for evaluative discussion between appropriate parties.

Vote 13-0.

Rep. David S. Robbins

COMMERCE AND CONSUMER AFFAIRS

HB 125-FN, relative to lawful commerce in firearms, including manufacture and sale, in New Hampshire. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

This bill exempts firearms, firearm accessories, and ammunition manufactured in New Hampshire from federal law and regulation. It is not necessary to retain a good in the state of New Hampshire in order to exempt that good from federal law or taxation, or federal regulation, including registration, under the authority of congress to regulate interstate commerce. Commerce is the activity of buying or selling. Intrastate commerce, as is stated in the body of this bill, should not be regulated or otherwise affected by the federal government. Maintaining or retaining are activities that are not related to commerce. These words, concepts, if you will, change the scope of this bill and should not be included. The spirit of this bill is laudable and would move our state and this country back to the founder's vision of the legitimate functions of the federal government. We look forward to the next iteration of this bill, if the above noted problem is addressed. **Vote 10-1.**

Rep. Donna D. Mauro

HB 241, relative to insurance coverage. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

This bill sought to provide consumers a “free market” option in purchasing health insurance by allowing consumers and insurers to enter into mutually agreed upon contracts outside the jurisdiction of the New Hampshire insurance department. The problem with this concept is, if an entity is not licensed in New Hampshire, there are no adequate consumer protections if the company is unscrupulous (e.g. does not actually provide any coverage) or becomes insolvent. **Vote 10-1.**

Rep. Donna L. Schlachman

HB 244, restricting the collection of biometric data by state agencies and private entities.

RECOMMENDED FOR FUTURE LEGISLATION.

The sponsor had already requested to limit this legislation to state and local agencies. The committee supports this new focus to insure that no state agency attempts to implement collection of biometric data without first getting legislative approval. **Vote 10-1.**

Rep. John B. Hunt

HB 324, relative to lawful commerce in goods and services sold, made, and retained in the state of New Hampshire. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

This bill exempts goods and services sold, made, maintained or retained in New Hampshire from federal law and regulation. The section 359-K:1 declaring exemption from Federal

regulation on intrastate commerce is correct. The problem for the members of the committee is in this same section... "when such goods or services are sold, maintained, or retained in New Hampshire..." This sets up a myriad of problems for which government, federal or state, has jurisdiction and when. If New Hampshire has jurisdiction on the transaction as long as the goods remain in the state, how long do those goods have to remain here? Since no length of time is stipulated, the assumption would be, forever. Then the goods are not under the control of the owner (by virtue of the purchase of the goods) but must remain in New Hampshire, essentially, forever. What if the goods are transported across state lines? According to this bill, again by implication, the goods will come under the jurisdiction of the federal government under the commerce clause. How will that be dealt with? The committee believes that the spirit of this bill is laudable and would move our state and this country back to the founders' vision of the legitimate functions of the federal government. We look forward to the next iteration of this bill, if the above noted problems are addressed. **Vote 10-1.**

Rep. Donna C. Mauro

HB 328, relative to New Hampshire domestic liquor and wines. **RECOMMENDED FOR FUTURE LEGISLATION.**

This bill was held in Interim Study out of concern that the Liquor Commission was not doing enough to support New Hampshire's wines and liquor products. While the committee understands and appreciates that the primary mission of the commission is to optimize profits, the committee believes that it is appropriate for a state-owned business to promote New Hampshire products. The committee met numerous times with the commission during both the 2011 and 2012 sessions to follow the commission's progress in this area. The committee is not satisfied with the results and feels that specific language needs to be added to the statute in order to expand the commission's mission and hold it more accountable in this area. **Vote 9-2.**

Rep. Donna L. Schlachman

HB 1236-FN, relative to ownership and operation of liquor licensees. **RECOMMENDED FOR FUTURE LEGISLATION.**

This bill had four separate parts related to types of liquor licenses granted by the state. The part allowing one owner to hold different types of licenses is recommended for future legislation. Presently, if brewpub license holders wish to expand into other "brew" areas that require different licenses, they must find others (e.g. a friend or relative) to take out the license for them. The committee believes business should be transparent and the current statute encourages deviousness. **Vote 10-1.**

Rep. Donna L. Schlachman

HB 1262, prohibiting banks from requiring blood samples, fingerprints, and DNA samples in order to complete a banking transaction. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

This bill, which has been before us before and has failed to pass, would only apply to one industry. It would only apply to New Hampshire chartered banks, with federally chartered banks being exempt. No bank in New Hampshire *is* currently doing this. Another bill has been filed to cover biometric data. **Vote 9-2.**

Rep. David J. Palfrey

HB 1493-FN, relative to copayments for certain specialists. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

This bill would require that co-pays charged for visits to physical, occupational and speech therapists not exceed copays charged for primary care physicians. While understanding the proponents' interest in lowering copays, the majority of the committee did not feel that HB1493 should be recommended for further legislation. Co-pays are used to encourage insureds to be more aware of utilization and to avoid seeking care they do not need. Proponents of further legislation in this area appear to be seeking a legislative solution to the challenge of setting copays at a level which is high enough for them to be meaningful, yet

low enough for them not to create a barrier to care. We do not believe that this is properly a legislative function, particularly in the present day market with pending regulations relating to the ACA, which very well may have something to say specific to these matters. **Vote 6-5.**

Rep. Donald H. Flanders

HB 1700-FN, repealing licensing requirements for money transmitters. **RECOMMENDED FOR FUTURE LEGISLATION.**

This bill, as originally introduced, proposes to repeal the current requirement that “money transmitters” must be licensed by the NH banking department. Money transmitters can be loosely defined as those persons or legal entities that act as intermediaries for the purpose of transferring funds between parties. Most familiar to many are well established companies such as Western Union, Pay-Pal or even Wal-Mart. However in our contemporary environment, there are many small business people who need to transact their business in the most efficient manner possible, especially over the internet. It has been argued that in a practical sense, current law prevents small business, specialty companies from entering this business because (NH) regulations are a barrier to entry for those who transact in small dollar value transactions. The federal law that was developed to regulate this business is contemporary and the state statutes are disparate. There are at least five states: AK, NC, MT, NM, and MA that essentially have no applicable regulation. The federal government requires that all domestic “money transmitters” be registered with the financial crimes enforcement network (FinCen). However, the federal law is structured in such a way that it relies on the individual states for enforcement. The committee spent hours on this subject. Pursuant to testimony heard in committee. This is a classic case that falls to the House Commerce committee. This is almost a dichotomy where we must balance free commerce, access against the principals of consumer protection. There are at least three fundamental questions here: (a) What is the appropriate balance between commerce and consumer protection?; (b) Should this business be regulated by the banking department or should consumer recourse be found under the consumer protection statute?; (c) Can a study of other state legislative law and those deliberations help New Hampshire lawmakers come to the wisest conclusion on this very relevant question? **Vote 8-3.**

Rep. Sean M. McGuinness

HJR 2, prohibiting the implementation of the insurance department rules regarding the New Hampshire Medical Malpractice Joint Underwriting Association. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

The intent of HJR 2 was to prohibit insurance department rules implementation regarding the New Hampshire Medical Malpractice Joint Underwriting Association (MMJUA). The committee determined that HB 170 resolved any outstanding issues and that there was now no need for this legislation. **Vote 11-0**

Rep. Chris F. Nevins

SB 335, establishing a procedure for certain condominiums to waive portions of the state fire code. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

A mutual resolution has been agreed to between the state fire marshal and the Manchester Fire Department with the tenants of the condominium building in question. The tenants who live in a concert condominium building will not have to install costly fire sprinkler systems within each condominium but instead in a fire emergency will utilize a water suppressant system existing within each hallway. **Vote 11-0.**

Rep. Jerry E. Bergeron

CONSTITUTIONAL REVIEW AND STATUTORY RECODIFICATION

HB 1227, relative to disqualification of certain members of the general court. **RECOMMENDED FOR FUTURE LEGISLATION.**

This bill's core concern is the undue influence of money on politics and the increasing number of ethics related issues faced by members of the House who don't recuse themselves as needed, who then participate in discussions and voting on an issue when they have a financial interest in that issue. Limiting who can run in the first place, or be disqualified

after election, might run afoul of Constitutional issues which is why this was retained after passage by the full House. After some research, we believe that the solution of adding the monitoring of these concerns to the duties of the Ethics Committee will put all future members on notice that this behavior is frowned upon. **Vote 9-1.**

Rep. Seth Cohn

HB 1475, relative to enforcement of interstate compacts. **RECOMMENDED FOR FUTURE LEGISLATION.**

The committee recommends a study group be set up to examine all interstate compacts to determine whether there has been specific legislative approval. State officials would be prohibited from enforcing any provision of an interstate compact which has not been specifically approved by the New Hampshire Legislature. **Vote 9-1.**

Rep. Joseph F. Krasucki

HB 1541, repealing the authority of officials to enter and examine the premises of an automotive recycling dealer. **RECOMMENDED FOR FUTURE LEGISLATION.**

The committee recommends this topic for future legislation in the form of a study committee to review the advisability of requiring the surrender of constitutional rights for the opportunity to engage in business and determine the number of instances where this is a requirement. **Vote 9-1.**

Rep. Joseph F. Krasucki

HB 1542, relative to interference with state constitutional rights. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

This bill as currently introduced is too vague and non-specific. Without procedure to alternative language as discussed during subcommittee discussion, the committee does not recommend HB 1542 for further legislation. **Vote 10-0.**

Rep. Kevin E. Reichard

CRIMINAL JUSTICE AND PUBLIC SAFETY

HB 445-FN, relative to the regulation of electronic tracking devices. **RECOMMENDED FOR FUTURE LEGISLATION.**

This bill would prohibit the use of electronic tracking devices to track an individual without the consent of the individual or a court order. The committee unanimously believes that the subject of this bill is worthy of future legislation. **Vote 12-0.**

Rep. Larry G. Gagne

HB 553, relative to the law on wiretapping and eavesdropping. **RECOMMENDED FOR FUTURE LEGISLATION.**

This bill makes various changes to the wiretapping and eavesdropping statute. The committee agrees that the current statute has not kept up with the changes in technology, thus changes in definitions are recommended. Several other aspects of the law, including the recording of public officials, should also be addressed. **Vote 11-1.**

Rep. Mark Warden

HB 1158, relative to the authority of the superintendant of a county correctional facility. **RECOMMENDED FOR FUTURE LEGISLATION.**

This bill would permit the superintendent of the county correctional facility to recommend a prisoner for release in order to obtain gainful employment, perform uncompensated public service, or serve the sentence under home confinement. The committee believes the concerns of the county superintendents have been addressed and that future legislation should only apply to non-violent offenders, as well as allowing the court to be notified of the superintendent's decision. **Vote 12-0.**

Rep. Gene P. Charron

HB 1523-FN-L, relative to the return of personal property seized by law enforcement agencies from a person charged with a crime. **RECOMMENDED FOR FUTURE LEGISLATION.**

This bill would establish procedures for the return of personal property seized by law

enforcement agencies after the acquittal or dismissal of proceedings against a person charged with a crime. The policy contained in this bill passed the House last year and the committee believes that it is suitable for future legislation. **Vote 11-1.**

Rep. Stephen J. Shurtleff

HB 1675-FN, relative to location tracking by electronic communications devices.

RECOMMENDED FOR FUTURE LEGISLATION.

This bill would prohibit a person from gathering geolocation information from an electronic communications device without the express consent of the person using the device. The committee unanimously believes that this subject is suitable for future legislation **Vote 12-0.**

Rep. David A. Welch

HB 1690-FN, prohibiting the use of cell phone data extraction devices by law enforcement agencies. **RECOMMENDED FOR FUTURE LEGISLATION.**

This bill would limit the use of data extraction devices. The committee unanimously believes that this subject is suitable for future legislation. **Vote 12-0.**

Rep. Dennis H. Fields

EDUCATION

HB 296, relative to procedures for juvenile delinquency petitions filed by a school district or school official. **RECOMMENDED FOR FUTURE LEGISLATION.**

The HB 296 study committee met this summer to review the proposed legislation and a proposed amendment. A meeting with stake holders was held in July. Input was varied from school officials, legislators, and officials in the juvenile justice system. Many new programs at the local level are being instituted by communities around the state.

Developmental programs in the schools and new procedures are in the works. The committee recommends that further legislation may be proposed to continue studying youth delinquency petitions and the changes made in the current state budget relating to the CHINS petitions. The committee has looked at a possible survey for school superintendents and police chiefs regarding this issue: however, this was not done. The survey could still be an assessment tool prior to legislation being drafted by interested legislators. It is recommended the subject matter of HB 296 be considered for future legislation. **Vote 11-0.**

Rep. Barbara E. Shaw

HB 1467, relative to educational requirements for teacher certification. **RECOMMENDED FOR FUTURE LEGISLATION.**

Based upon subcommittee review, future study and legislation relative to educational requirements for teacher certification is recommended. **Vote 11-0.**

Rep. Kathleen A. Lauer-Rago

HB 1606-FN, adopting the interstate compact on educational support for military children.

NOT RECOMMENDED FOR FUTURE LEGISLATION.

Due to the complexity of issues associated with HB 1606, adopting the interstate compact on educational support for military children is not recommended for legislation at this time.

Although the intent of the bill is worth, future legislation on this topic should consider and address:

- A) the local control concern
- B) is there documentation that suggests there is a need in New Hampshire
- C) legal advice should be obtained to determine if or to what degree Interstate Commission rules or compact language might conflict with NHDOE regulations and rules, local school district policy, school district financial obligations, or NH RSA's
- D) compact language should parallel terms in NH RSA's. Some examples include: co-curricular vs. extra curricular, accreditation by whom (NEASC, DOE, DOD?) loco parents, etc.
- E) other questions as noted in subcommittee minutes, 7/10/12 & 7/25/12. **Vote 10-0.**

Rep. Rick M. Ladd

HB 1637-L, authorizing a school district which uses official ballot voting to conduct a special meeting necessitated by changes in adequate education funding. **RECOMMENDED FOR FUTURE LEGISLATION.**

This bill was to allow school districts that adopted the official ballot law also known as SB 2, to hold a special election if state education funding was changed. This bill was put into Interim Study to allow for expansion of the bill. An LSR will be filed to make the law effective for all towns, not just SB 2 towns, and also to involve the budget committee for towns that have adopted the municipal budget law. **Vote 13-0**

Rep. Ralph G. Boehm

ELECTION LAW

CACR 21, relating to referendums. Providing that voters may veto laws by referendum. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

CACR 21 was a constitutional amendment that would allow the citizens of New Hampshire to “veto” an action of the legislature by referendum. The bill was referred for interim study at the request of the sponsor because the language did not address all the issues that needed to be taken into consideration. The prevailing sentiment of the committee now is that this legislation is unnecessary because the citizens of New Hampshire are so well represented by such a large legislature. **Vote 10-0.**

Rep. Alfred P. Baldasaro

HB 212, relative to the definition of conflict of interest for executive branch officials and employees. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

The purpose of this bill was to strengthen the definition of “conflict of interest” for executive branch officials and employees. The committee agrees that conflicts of interest are unacceptable. However, the questionable judgment demonstrated by those involved in the matter that gave rise to the filing of this legislation is unlikely to be repeated. That particular problem may have been better avoided if the disclosure requirements for reporting campaign contributions and expenses called for more frequent reporting. If the public is made aware, it is unlikely that they will tolerate someone getting paid by a campaign to do political work for the same person who hired them, at taxpayer’s expense, to do a state job that should be nonpartisan. **Vote 10-0.**

Rep. David Bates

HB 356-FN, requiring valid photo identification to vote in person. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

This bill was another version of legislation to require voters to present a photo ID at the polls. The primary objective of this bill was realized when SB289 became law. **Vote 10-0.**

Rep. David Bates

HB 1399, relative to state general election ballots. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

This bill sought to implement a new requirement to rotate the names of candidates on ballots when more than one party or political organization appears in the same column. Since this bill was introduced, a decision was issued in the Blevins vs. Gardner case that makes it clear that our current statutes dealing with ballot rotation are constitutional and there is no need to change the existing law. **Vote 10-0.**

Rep. Alfred P. Baldasaro

ENVIRONMENT AND AGRICULTURE

HB 1234, establishing a department of environmental services oversight and grievance committee. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

During testimony it was brought to our attention that 4 councils exist that deal with complaints and those who have had aggrieved decisions. The commissioner, during testimony, agreed to post on the department of environmental services (DES) website information on filing complaints and directing users to individual council web sites, which was completed on a timely basis. In addition, there is a special committee to study the

appeal process of DES, with recommendations forthcoming. **Vote 8-1.**

Rep. John T. O'Connor

HB 1481, relative to effluent limitations with regard to nitrogen. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

This bill would have required a new formulation of lawn fertilizer for distribution in the state of New Hampshire to reduce what the committee realizes are the damaging levels of nitrogen in the Great Bay. In 2009, a report on the health of NH's Great Bay reported that total nitrogen load to the Bay had jumped 42 percent in only 5 years. Water clarity was declining and nitrogen-fed nuisance algae populations were on the rise. Since this issue is currently being studied by the New England Interstate Water Pollution Control Commission (NEIWPCC) and the Piscataqua River Estuary Project (PREP), whose reports are due at the end of this year, the committee felt any action on our part prior to these findings being released was premature. **Vote 8-1.**

Rep. Tara A. Sad

EXECUTIVE DEPARTMENTS AND ADMINISTRATION

HB 332-FN, relative to an electronic controlled drug prescription monitoring program. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

HB 332, introduced in January, 2011, was retained by the House Executive Departments and Administration Committee for the following year. In January of 2012, the bill was referred to Interim Study where one subcommittee work session was held in July. It was determined that SB 286 was virtually identical to HB 332. The Senate bill had passed both bodies, been signed by the governor, and was chaptered as Chapter 196, Laws of 2012. For those reasons, no further action on this bill is necessary. **Vote 11-0.**

Rep. Steven J. Winter

HB 476-FN, establishing an independent board of psychologists. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

This bill was overtaken by events, since SB 343 accomplished its goal. **Vote 11-0.**

Rep. Carol M. McGuire

HB 1142, relative to the electricians' board. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

This bill has been dealt with and has been included in SB 226. **Vote 11-0.**

Rep. Carol M. Vita

HB 1154, establishing a committee to study the management structure of state government. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

After seven meetings during July, August and September, which looked at the organizational structures of a number of various executive departments, the committee believes that any restructuring of the executive departments' organizations should be left to the incoming governor. The committee is available to work with the new governor's office in sharing its efforts and findings. One exception to the above is that the committee found merit in the Commissioner of Administrative Services' recommendations regarding a re-write of the state's nepotism statute and rules. A number of excellent suggestions were proffered along with the recommendation that this subject should be addressed for the entire state government structure, not just the governor's executive departments. **Vote 11-0.**

Rep. Steven J. Winter

HB 1265, relative to criteria for the government regulation of occupations and professions. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

This bill was filed to set criteria for licensing of all occupations in New Hampshire. The committee met numerous times, and reviewed occupations requiring licensing. There are some occupations that currently require licensing that some members felt that didn't need to be. Instead of the broad brush stroke of this bill it was decided that individual bills addressing those occupations would be a better vehicle to use, so this bill is not recommended for further action. **Vote 7-5**

Rep. Kenneth Hawkins

HB 1316, relative to continuing education for licensed electricians. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

The subject of this bill was addressed in SB226, and no further action is required. **Vote 11-0.**

Rep. Carol M. McGuire

HB 1317, relative to certifying electricians as fire suppression equipment and alarm installers. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

This bill is not recommended for future legislation as this bill was over-reaching and not what anyone wanted. **Vote 9-2.**

Rep. Mark L. Proulx

HB 1338, relative to failure to renew a professional or occupational license. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

The bill would allow a licensee to reinstate a lapsed license without having to start from scratch or to take an examination or complete additional training. The committee was unwilling to apply this principle to every profession. It felt that some professions might require an examination of an applicant's proficiency before renewal. It decided that there should be a profession-by-profession study to determine the appropriate renewal conditions. The committee was unable to determine what criteria to use in evaluating the professions. Absent such criteria, the committee could not usefully proceed. **Vote 11-0.**

Rep. Spec Bowers

HB 1544-FN, adding state and local government part-time and public employees to employees eligible to participate in the state group insurance coverage. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

This bill proposed allowing part-time employees and local government employees to become eligible for coverage in the state group insurance. The coverage would be difficult since it would require that any local municipality interested in participating to have the same coverage, pay all costs (some difficult to assess) added to the department of administrative services. Since the state is self-insured, who would need to contribute in the case of a super event? If these issues can be addressed, a new LSR could be introduced in the next session. **Vote 10-0.**

Rep. Maurice L. Pilotte

HB 1609-FN, relative to licensure of polysomnographers by the board of respiratory care practitioners. **RECOMMENDED FOR FUTURE LEGISLATION.**

This bill was put forth to clarify existing law, at JLCAR request, so that rules could be passed by the board of respiratory care practitioners. The respiratory board also added some things, confusing the original bill, but a resubmittal is recommended. **Vote 7-5.**

Rep. Mark L. Proulx

HB 1647-FN, requiring the department of health and human services to license supervised visitation centers. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

The study committee believes that the creation of a licensing regime for supervised visitation centers is not warranted at this time. Federal legislation is already providing best practices guidelines for such centers and grant funding for implementing them. In addition, requiring the department of health and human services (DHHS) to license such centers would increase state expenses without a demonstrable justification at this time. **Vote 11-1.**

Rep. Peter B. Schmidt

SB 177, relative to training of directors and officers of nonprofit corporations. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

The committee voted no further legislation. It was the consensus of the committee that the concerns meant to be addressed by the bill could be better addressed by language contained in the individual contracts let out by the state rather than by legislation. **Vote 9-0.**

Rep. Peter T. Hansen

FINANCE

HB 625-FN-A, relative to New Hampshire correctional industries. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

This bill proposed many material changes in the operation of correctional industries within the department of corrections. While these changes would benefit correctional industries, a number of these changes concerning products produced and requirements of other state agencies to sole source from correctional industries could result in overall cost increases to the state. The committee was unable to determine the overall financial impact of HB 625-FN-A because the department of corrections never supplied the LBA with adequate information for a proper fiscal note. Without cost benefit analysis the committee could not recommend for future legislation. **Vote 14-1.**

Rep. William S. Belvin

HB 1285-FN, repealing the state art fund. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

This bill's repeals of the state art fund, within 60 days of passage, left a series of consequences without adequate remedy: no provision was made for curation of the approximate 600 state art works; potential breach of contract by the State for art work in progress; no spending cap and which agency capital payments qualify; and no process in place for authority or responsibility for present or future art purchases. After considering these concerns the committee believes that the current RSA 19-A:9, and its associated dedicated fund serve the best interests of the citizens and State of New Hampshire, and should remain in place without change. **Vote 13-2**

Rep. William S. Belvin

HB 1669-FN-A-L, requiring the deposit of dedicated fund revenues into the general fund for the 2014 and 2015 fiscal years and requiring non-constitutionally established dedicated funds to be eliminated on June 30, 2015 unless reinstated by the legislature. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

The full committee carefully considered the possible consequences of the proposed legislation and recommends that the bill not be considered for future legislation. The committee acknowledges that the legislature should increase the thoroughness of its review of designated funds as it begins the budget process next year. That review is better done through direct interaction between the Finance Committee and other committees in the January time period before the development of the biennial budget begins. The committee does not believe that special interests should feather their nests through the use of special funds. **Vote 15-0**

Rep. Robert A. Foose

FISH AND GAME AND MARINE RESOURCES

SB 224, relative to lead fishing sinkers and jigs. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

No other legislation was vetted as thoroughly as SB 224. The committee was able to accomplish the arduous task of separating fact from emotion. The recommended formation of a committee led by fish and game to bring ALL interested parties together to develop an action plan to solve this issue collaboratively. **Vote 10-0.**

Rep. Marc D. Tremblay

HEALTH, HUMAN SERVICES AND ELDERLY AFFAIRS

HB 493-FN, relative to the certification of integrated residential communities. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

This legislation was kept by the committee to evaluate whether adequate protections were afforded in this newly designated type of facility. No additional information was received and the committee determined that the legislation was not appropriate at this time. **Vote 10-0.**

Rep. John M. Reagan

HB 554, relative to mental health records. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

The committee had kept this bill to continue to work to resolve complex issues involving confidentiality and public protection. No further recommendations were made and the committee voted unanimously not to recommend further legislation. It should be noted that HB 1508 was approved (Chapter 269:8, Laws of 2012) after the House had voted to send HB 554 to interim study last January. HB 1508 in its final form significantly amended the laws governing mental health records and will be effective January 1, 2013. **Vote 11-0.**

Rep. John M. Reagan

HB 1613, relative to protected health information. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

Concern about cost was one of the reasons identified for further work on this legislation but the committee had no additional input, therefore the recommendation was to not seek further legislation. **Vote 10-0.**

Rep. John M. Reagan

JUDICIARY

HB 1178, relative to the losing party's payment of the prevailing party's costs in tort actions. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

This bill provides a judicial procedure whereby the loser of a tort action between New Hampshire litigants would pay for the attorney fees and costs of the prevailing party. The bill is modeled after the English system and is designed to reduce the amount of frivolous and abusive lawsuits filed in New Hampshire courts. The committee acknowledged the value of such legislation to New Hampshire but concluded that the chilling effect of such a bill would offset that value. Some of the proposed solutions to countermand the chilling effect would require accompanying legislation that has not yet been filed. Accordingly, this bill is not presently recommended for future legislation. **Vote 9-1.**

Rep. Brian J.X. Murphy

HB 1261, relative to recovery of delinquent condominium fees. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

This bill would permit a condominium unit owners' association to file multiple liens for unpaid condominium fees and also would remove a grandfathering provision for mortgages executed prior to January 1, 2011. The committee, reacting to the committee to study the laws relating to condominium and homeowners' associations (RSA 356-B:70) and to testimony from the prime sponsor of HB 1261, agrees that there is insufficient support from the condominium community for this bill and that we should let the relatively new current law play out and monitor its effect. The committee therefore recommends no further legislation at this time. **Vote 10-0.**

Rep. John W. Cebrowski

HB 1682-FN, relative to forfeiture of personal property. **RECOMMENDED FOR FUTURE LEGISLATION.**

After a detailed study of the property forfeiture process in New Hampshire and a detailed analysis of HB 1682 dealing with property forfeiture, the committee determined that legislation is necessary to correct significant shortcomings in both procedural and due process aspects of existing forfeiture laws and processes in New Hampshire. Underpinning most of the committee's decisions were the following principles: (1) forfeiture should only apply to criminal convictions; (2) allowing law enforcement to gain financially from forfeiture creates an unacceptable conflict of interest between law enforcement and New Hampshire citizens and leads to impure motives in the forfeiture process; and (3) innocent owners of property should be protected. The committee recommends numerous substantive changes to HB 1682 and also recommends that any future legislation modify all other New Hampshire statutes dealing with forfeiture to defer to the proposed new law (RSA 617). The committee recommends that future legislation should also ensure other statutes that reference

forfeiture, including RSA 633:7, reference RSA 617 as the forfeiture statute. **Vote 10-0.**
Rep. Brandon J. Giuda

LABOR, INDUSTRIAL AND REHABILITATIVE SERVICES

HB 1663-FN-L, relative to payment of union fees by non-members. **RECOMMENDED FOR FUTURE LEGISLATION.**

The committee recommends this bill for future legislation. However, we realize that the intent of the bill could be more clearly written. The majority feels that the bill has merit and should be filed in a future session. It is recommended that any future language add clarity to the bill's intent. **Vote 6-4.**

Rep. Jack B. Flanagan

PUBLIC WORKS AND HIGHWAYS

HB 1130, relative to weighted voting by the Winnepesaukee River advisory board. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

The advisory board has agreed to address this issue internally, so legislation is not needed at this time. **Vote 11-0.**

Rep. Franklin T. Tilton

HB 1192-FN, establishing an E-Z Pass commuter discount. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

This bill would have established a so-called commuter or frequent user discount for E-Z Pass customers. It is the feeling of the committee that the turnpike system, whether one uses cash or E-Z Pass, is a pay for use system. To provide a discount for those who use it the most is counter-productive to this user fee arrangement. Further, the DOT stated that in order to make such discount program revenue neutral a system wide increase in the toll rates would be required. **Vote 9-3.**

Rep. John A. Graham

HB 1369, relative to the location of overhead tolling on the F.E. Everett turnpike. **RECOMMENDED FOR FUTURE LEGISLATION.**

The bill as introduced would have required the eventual replacement of the Bedford toll plaza on the Everett turnpike with a new one farther south in the vicinity of exit 10. While the idea still has merit, the DOT suggested that such a move would require further analysis of traffic diversion at the new airport access road, a cost benefit analysis of eliminating other toll plazas in Merrimack as well as the impact any or all of these actions would have on the turnpike system as a whole. The committee agrees that further study is warranted, and that any changes to the existing system be made part of the Ten-Year Transportation Plan and not be introduced piecemeal as separate bills. **Vote 12-0.**

Rep. John A. Graham

HB 1400-FN-A, allowing the department of transportation to sell naming rights for certain structures. **RECOMMENDED FOR FUTURE LEGISLATION.**

The committee recommended for further legislation to establish a study of this issue. The federal regulations have been changed. Ohio and Virginia have been very pro active with the effort to raise more revenue. We feel there could be opportunities for New Hampshire. **Vote 12-0.**

Rep. Edwin O. Smith

RESOURCES, RECREATION AND DEVELOPMENT

HB 221, establishing a procedure for leasing state parks. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

This bill intended to establish, in statute, a procedure for the leasing of state parks. The state park system advisory council (SPSAC) had also been working on developing a similar procedure. The committee first retained this bill and then placed it into interim study with the intent of allowing and encouraging SPSAC to complete its effort. The committee would subsequently determine whether it met the spirit and intent of the bill.

SPSAC produced a document entitled “Guiding principles for Leases,” listing the criteria to be applied in evaluating a potential lease by the commissioner of DRED, with the input from the SPSAC. The committee determined that the completed Principles met the legislative intent of the bill. The bill had recommended that the procedure be placed in statute, and the committee discussed whether this would serve to make the process more readily accessible to the public. However, the majority of the committee decided this was not necessary, as it will be available on the DRED website. It was also decided that future leasing activity should be monitored over time to determine whether the oversight of the advisory council is sufficient to assure the principles are being adhered to, before placing them in statute. Therefore, at this time, the committee does not recommend this bill for further legislation. **Vote 12-1.**

Rep. Andrew Renzullo

HB 1373, relative to the definition of first-in, first-out as it applies to wastewater or public water supply projects. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

This bill would alter the definition of first-in, first-out as it applies to wastewater and public water supply projects receiving state aid grants. Prior to 2008, municipal water projects could apply for state aid grants that would pay for 20%-30% of the debt service for eligible completed projects. At that time, due to budgetary considerations, payments were suspended by Executive Order. In subsequent budgets, again due to budgetary constraints, the grants were not funded. While there are no new grant applications being considered, there are some 87 wastewater projects and 13 water supply projects that have been planned, bonded, bid or completed for which state aid grants have been delayed or deferred. The value of the delayed and deferred grant requests is \$36,781,137. In 2010, a law was passed dictating the order in which the grant money would be distributed should funds become available. Some communities feel the system for setting that priority list has penalized them, since they made commitments and then found state money was not forthcoming. This bill was their attempt to alter it. The committee found that there were rational arguments supporting both of the existing and altered methods and communities were going to be disadvantaged with either choice. However, until state money becomes available, the problem is academic. Therefore the committee does not recommend this bill for further legislation at this time.

Vote 13-0.

Rep. Andrew Renzullo

HB 1501-FN-L, establishing a fund to upgrade wastewater treatment plants. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

This bill establishes a fund to upgrade wastewater treatment plants, replace failing septic systems, and reduce nitrogen discharge. The committee recognizes that there are water quality problems in some of our fresh and salt water bodies. Some of these problems may be due to individual and municipal water discharges. The paramount question is funding for municipal water, wastewater and storm water infrastructure needed to prevent these problems. Individual septic systems in need of maintenance, repair or replacement may also present a threat to the quality of NH's waters. While the committee supports the submission of legislation that offers an opportunity to consider other viable approaches, it finds that HB 1501 is not the appropriate solution to this problem. As such, the committee does not recommend this bill for further legislation. **Vote 13-0.**

Rep. Andrew Renzullo

SCIENCE, TECHNOLOGY AND ENERGY

HB 311-FN, relative to solar renewable energy. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

The committee believes that the main issue addressed in this bill, instructing the public utilities commission to establish a methodology for tracking the production of customer sited renewable energy installations in the renewable portfolio standards (RPS) law, was accomplished with the 2012 passage of SB 218 into law (Chapter 272). **Vote 12-0.**

Rep. James M. Garrity

HB 543-FN, relative to biomass combined heat and electricity facilities. **NOT**

RECOMMENDED FOR FUTURE LEGISLATION.

The committee believes that the main issue addressed in this bill, establishing a new renewable sub-category of “useful thermal energy” in the renewable portfolio standards (RPS) law, was accomplished with the 2012 passage of SB 218 into law (Chapter 272). **Vote 12-0.**

Rep. James M. Garrity

HB 649, relative to the Northern Pass Project to construct and operate transmission lines from the Canadian border to a proposed terminal in Franklin, New Hampshire. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

The committee believes that the main issue addressed in this bill, private property protections from eminent domain takings for electric transmission lines, was accomplished with the 2012 passage of HB 648 into law (Chapter 2). **Vote 12-0.**

Rep. James M. Garrity

HB 1210, applying the procedures of the eminent domain procedures act to cases of eminent domain concerning public utilities. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

The committee is of the opinion that the main issue addressed in this bill, private property protections from eminent domain takings for electric transmission lines, was accomplished with the 2012 passage of HB 648 into law (Chapter 2). **Vote 12-0.**

Rep. James M. Garrity

HB 1288-FN, relative to protection of private property from the use of eminent domain. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

The committee is of the opinion that the main issue addressed in this bill, private property protections from eminent domain takings, was accomplished with the 2012 passage of HB 648 into law (Chapter 2). **Vote 12-0.**

Rep. James M. Garrity

HB 1391, relative to transmission and distribution utility line extension construction and relative to pole attachments. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

The committee believes that the issues addressed in this bill are better addressed in 3 currently open dockets at the public utilities commission dealing with utility pole attachment issues. **Vote 12-0.**

Rep. James M. Garrity

SPECIAL COMMITTEE ON EDUCATION FUNDING REFORM

CACR 7, relating to education funding. Providing that the general court shall distribute funds in the manner that it determines will best promote an equal opportunity for an adequate education. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

The committee retained CACR 7 as a potential vehicle for further legislative action. Subsequently, the legislation was not needed and the committee does not recommend for future legislation. **Vote 12-2.**

Rep. Lynne M. Ober

HB 1473-FN-L, relative to the calculation and distribution of adequate education grants. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

The committee originally recommended interim study as a possible vehicle to ensure future legislative action. Since the legislation is no longer needed due to other legislative initiatives, the committee does not recommend for future legislation. **Vote 10-0.**

Rep. Lynne M. Ober

HCR 26, declaring that the Claremont case's mandates that the legislative and executive branches define an adequate education, determine its cost, fund its entire cost with state taxes, and ensure its delivery through accountability, are not binding on the legislative and executive branches. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

Based on previous pending legislative initiatives, the committee recommended interim study to await the outcome of these bills addressing issues raised in HCR 26. The committee has

determined there is no need for another bill at this time and does not recommend for future legislation. **Vote 12-2.**

Rep. Lynne M. Ober

STATE-FEDERAL RELATIONS AND VETERANS AFFAIRS

SB 333, relative to a surviving spouse's right to retain a Purple Heart plate. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

The committee recommended legislation not be brought up next year with the same wording due to equal treatment considerations for the service of all veterans. **Vote 9-2.**

Rep. Daniel Tamburello

TRANSPORTATION

HB 1278, relative to obstructions on highways. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

The sponsor stated that the committee should not recommend the bill for further legislation due to the lack of movement by the constituent. **Vote 10-0.**

Rep. John E. Tholl

HB 1414, relative to revocation or suspension of youth operators' licenses for speeding. **RECOMMENDED FOR FUTURE LEGISLATION.**

The committee felt that there was some reasons for a future discussion of penalties for under 20 drivers. **Vote 9-2.**

Rep. Sherman A. Packard

WAYS AND MEANS

HB 447-FN, relative to collection of the education property tax and establishing a program to rebate certain excessive property tax payments of eligible taxpayers. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

While the motivation behind this bill is laudable, the department of revenue administration estimates it would cost millions of dollars to implement. The committee concluded that there was no offsetting benefit to justify this increased expense and bureaucracy. In addition, this legislation has some unintended consequences in terms of priority of liens for unpaid taxes, and the granting of abatements and tax credits. **Vote 12-3.**

Rep. David W. Hess

HB 611-FN-A, relative to determination of the reasonable compensation deduction under the business profits tax. **RECOMMENDED FOR FUTURE LEGISLATION.**

This bill is necessary because the DRA continually makes rules that occasionally violate legislative intent. It clarifies legislative intent on the reasonable compensation issue. The legislature has placed the burden of proving compensation above the \$50,000 threshold on the DRA. Often their rules thwart this process. HB 611 as a subsequent bill will provide a mechanism for "tweaking" the law and keeping the DRA in check. **Vote 11-4.**

Rep. Frank V. Sapareto

HB 645-FN-A-L, eliminating various taxes and fees and tax and fee increases enacted in fiscal years 2007 through 2010. **NOT RECOMMENDED FOR FUTURE LEGISLATION.**

This bill was introduced to identify the cost of repealing any of the new and increased taxes and fees enacted in fiscal years 2007 through 2010. That goal has been accomplished. Consequently, this bill is no longer needed. **Vote 15-0.**

Rep. David W. Hess

HB 646-FN-A-L, eliminating various taxes and fees and tax and fee increases enacted in fiscal years 2006 through 2010. **NOT RECOMMENDED FOR FUTURE LEGISLATION.** This bill is nearly identical to HB 645 and was not recommended for future legislation for the same reason as HB 645. **Vote 15-0.**

Rep. David W. Hess

COMMITTEE MEETINGS

THURSDAY, NOVEMBER 8

CURRENT USE BOARD (RSA 79-A:3), North Country Resource Center, 629B Main Street, Lancaster

4:30 p.m. Public forum.

FISCAL COMMITTEE (RSA 14:30-a), Rooms 210-211, LOB

10:00 a.m. Rescheduled regular business.

10:30 a.m. Audits: State of New Hampshire, Fish and Game Department, Off Highway Recreational Vehicle Registration Program, internal control over revenue November 2012.

State of New Hampshire, Department of Corrections, nonsecurity staffing performance audit November 2012.

State of New Hampshire, Department of Corrections, security staffing performance audit November 2012.

SPECIAL HOUSE COMMITTEE ON DEFINED CONTRIBUTION RETIREMENT PLANS FOR PUBLIC EMPLOYEES , Room 202, LOB

10:00 a.m. Regular meeting.

FRIDAY, NOVEMBER 9

NEW HAMPSHIRE COMMISSION ON DEAFNESS AND HEARING LOSS (RSA 125-Q), NH Deaf and Hard of Hearing Services, 57 Regional Drive, Concord

1:30 p.m. Regular meeting.

TUESDAY, NOVEMBER 13

ADVANCED MANUFACTURING EDUCATION ADVISORY COUNCIL (RSA 188-E:21), Room 100, State House

3:00 p.m. Regular meeting.

CURRENT USE BOARD (RSA 79-A:3), Keene Library (Kay Fox Room), 60 Winter Street, Keene

6:30 p.m. Public forum.

HISTORICAL COMMITTEE (RSA 17-I), Room 208, LOB

10:00 a.m. Regular meeting.

SPECIAL HOUSE COMMITTEE TO EVALUATE THE NH STATE LIQUOR COMMISSION AND TO RECOMMEND STRUCTURAL AND OVERSIGHT REFORMS, Rooms 210-211, LOB

H:14-c), Room 100, State House**

9:00 a.m. Regular meeting.

TUESDAY, NOVEMBER 20

HOME EDUCATION ADVISORY COUNCIL (RSA 193-A:10), Department of Education, Room 12, 101 Pleasant Street, Concord
3:30 p.m. Regular meeting.

MONDAY, NOVEMBER 26

HEALTH AND HUMAN SERVICES OVERSIGHT COMMITTEE, (RSA 126-A:13), Room 205, LOB
10:00 a.m. Regular meeting.

OIL FUND DISBURSEMENT (RSA 146-D:4), Room 305, LOB
9:00 a.m. Regular meeting.

TUESDAY, NOVEMBER 27

LONG-RANGE CAPITAL PLANNING AND UTILIZATION (RSA 17-M), Room 201, LOB
10:00 a.m. Regular business.

OFFICIAL NOTICES

When the House Clerk's Office is aware of House Members who are hospitalized or homebound by serious illness, we will publish a list of names and addresses as requested.
Rep. Frank G. Case, 44 Beach Head Road, Nottingham, New Hampshire 03290-4921.
Rep. Amy S. Perkins, 49 Washington Street, Seabrook, New Hampshire 03874-4640.
Colleagues who so desire may send cards and greetings to the address listed above.

Karen O. Wadsworth, Clerk of the House

MEMBERS' NOTICES

The following notices are published in the House record as a courtesy to the member(s) requesting publication. These are not official public notices and will be limited to legislative policy or legislative social activities and political meetings or events. Publication should not be construed as support for either the events listed or the views espoused by the individual or organization sponsoring the event.

2012 New Hampshire Charter Schools Legislative Open House Schedule

An opportunity for incumbents and candidates to take a one hour tour to learn more about their local public charter school's mission and how they serve your constituents educational needs. Please RSVP to eileen@liponis.com

November 16th 9:00 a.m.-10:00 a.m. Birches Academy of Academics and Art: A Public Charter School, 419 South Broadway, 2nd Floor, Salem, NH 03079

Reps. Gregory Hill and Kenneth L. Weyler

STATE HOUSE VISITATION SCHEDULE

As a convenience to the members of the NH General Court, the Visitors' Center offers the following schedule of schools and other groups visiting the State House in **2012**. These listings are to ensure all members be notified in a timely manner of visitors from their district. Our schedule is tightly booked for the school year and subject to changes.

Please contact the Visitor Center concerning school tour booking information.

Legislators planning to meet with students should notify the Visitor Center. Thank you for your continued participation with your School Visitation Program.
