HOUSE RECORD

First Year of the 163rd General Court Calendar and Journal of the 2013 Session

Web Site Address: www.gencourt.state.nh.us

Vol. 35

Concord, N.H.

Friday, June 21, 2013

No. 47

Contains: Committee of Conference Statements, Meetings and Notices

HOUSE CALENDAR

MEMBERS OF THE HOUSE:

The next House session will be on Wednesday, **June 26th**, at 10:00 a.m. Since the deadline for acting on committee of conference reports is Thursday, June 27th, please save that day in the event that we do not finish our work on Wednesday.

I would like to take this opportunity to express my appreciation to all House conferees for their attentiveness in finalizing the committee of conference reports and signing off in a timely manner. The budget conferees deserve special thanks for their many hours of meetings and tremendous efforts in reaching a budget compromise with the Senate. I also want to thank those staff members who were involved in the committee of conference process for their extra time and dedication in helping to make the last few weeks so productive and smooth.

Please remember that there will be no legislative mileage reimbursement for the month of July, except for statutory and study committees required by law to meet during that time.

Our thoughts and deepest condolences are with the family of Leighton Pratt, a former seven-term member of the House who passed away June 11th at the age of 90. Leighton's service will be held on Friday, June 28th, at the Lancaster Congregational Church in Lancaster. For more information, you can visit the website of Bailey's Funeral Home at www.baileyfh.net.

Terie Norelli, Speaker

NOTICE

There will be a Democratic Caucus on Tuesday, **June 25th at 12:30 p.m.** in Representatives Hall.
Rep. Stephen Shurtleff, Majority Leader

NOTICE

There will be a Republican Caucus on Wednesday, **June 26th at 9:00 a.m.** in Rooms 305-307, LOB.
Rep. Gene G. Chandler, Republican Leader

NOTICE

The 2013 Manual for the General Court (Red Book) will be available on **June 26, 2013**. House members are entitled to three (3) copies. One copy may be picked up at the Secretary of State's Office on June 26th. The two additional copies may be picked up at the member's convenience this summer in the Secretary of State's Office.
William M. Gardner, Secretary of State

NOTICE

The House Calendar closes at **3:00 p.m. on Wednesdays** for *ALL* scheduling and notices. It closes at **NOON** on **Thursdays** for Committee Reports. Please be sure to do your scheduling in order to meet that deadline.
CLOSES NOON THURSDAY:
June 27
AVAILABLE FRIDAY:
June 28

Karen O. Wadsworth, Clerk of the House

HOUSE DEADLINES

Thursday, June 27, 2013	Last day to act on Committee of Conference reports
Monday, September 9, 2013	First day to file LSRs for 2014
Friday, September 27, 2013	Last day to file LSRs (4:00 p.m.)
Friday, November 15, 2013	Last day to sign off LSRs (4:00 p.m.)
Friday, November 22, 2013	Last day to report retained Bills
Wednesday, January 8, 2014	Last day to introduce House Legislation

WEDNESDAY, JUNE 26

COMMITTEE OF CONFERENCE STATEMENTS

SENATE BILLS

SB 35, relative to the master jury list.

The Senate agreed with the House version of the bill.

Rep. Paul S. Berch

SB 48, relative to school performance and accountability.

The House and Senate conferees agreed to changes requested by the department of education to further clarify the definitions of “focus” and “priority schools.”

Rep. Rick M. Ladd

SB 75, relative to games of chance.

The Senate did not concur on raising the charitable gaming bet limit to \$6 from the current \$4 limit. The House did not agree to the prohibition of rental fees being charged to the charities. The House and Senate agreed to changes that strengthened the oversight of charitable gaming including expanded background checks and increased audit provisions. Remittance requirements were streamlined along with minor “housekeeping” changes.

Rep. Patricia T. Lovejoy

SB 119-FN-A, directing the joint legislative historical committee to conduct a study of state house flag restoration and preservation.

The House amended the bill to add a section directing the historical committee to acquire and hang a portrait of Marilla Marks Ricker, an early suffragist and first woman to attempt to file for governor, in the state house complex. The Committee of Conference made some minor textual changes and added a provision to require approval of the joint committee on legislative facilities to hang the portrait. The committee urges approval of the House and Senate.

Rep. Gary B. Richardson

SB 135, relative to the regulation of the practice of genetic counseling.

The Senate requested the committee of conference to address concerns arising out of the removal of existing statutory language allowing disclosure and discussion of genetic testing within a medical practice or hospital. A provision was added to the House version of the bill allowing discussion between the physician or genetic counselor and the clinical laboratory doing the actual testing, but confirming the obligation to obtain the necessary specific written informed consent. The House conferees agreed to this addition to the House version of the bill.

Rep. Lucy M. Weber

SB 148-FN, relative to electric renewable portfolio standards.

SB 148 went to conference with the Insurance Market Rules bill (HB 668) added to the House version. During the Committee of Conference, the Senate Chair acknowledged the need to find a compromise agreeable to both bodies. The compromise achieved is narrowly focused and yet provides a way for the Insurance Department to move ahead with implementation of the federal health care laws and maintains stability in the insurance industry. In this simple, short amendment the issues of age & community rating; rating for smokers; employee counting & list billing have been agreed to. The Insurance Department will now still be able to receive submissions of plans from health insurance carriers in both the individual and small group markets and carry out its oversight and consumer protection responsibilities. With the addition of this amendment, the House conferees agreed to the Senate version of the bill.

Rep. David A. Borden

SB 157-FN, establishing a New Hampshire disaster relief fund.

The House conferees agreed with the Senate version of SB 157-FN to allow for two New Hampshire privately funded disaster relief funds to be combined. That fund will sunset once all moneys have been distributed.

Rep. Susan M. Ford

SB 188-FN, relative to municipally-owned utilities.

Both House and Senate versions of SB 188 had an effective date of 60 days after passage. The House and Senate agreed to a new effective date of "upon passage." There are no other changes in SB 188 as it was passed by the House.

Rep. David B. Campbell

SB 189-FN, relative to the licensure of fuel gas fitters and plumbers by a mechanical licensing board established within the department of safety and transferring regulation of plumbers to the mechanical licensing board.

The Senate conferees agreed with both the extensive House amendment as well as the floor amendment to the section dealing with plumbing regulation, and acceded to the House position.

Rep. Dianne E. Schuett

HOUSE BILLS

HB 1-A, making appropriations for the expenses of certain departments of the state for fiscal years ending June 30, 2014 and June 30, 2015.

The committee of conference produced a balanced and fiscally responsible budget investing in the priorities of the people of New Hampshire without increasing taxes or fees. The budget goes a long way toward restoring the investments in our citizens, communities and state. With restoration of funding for higher education, our mental health system, domestic violence programs, uncompensated care and fully funding great programs like CHINS and LCHIP there is a great deal for us to be proud of in this budget. The budget also includes the new state employee contracts which include the first pay raises in five years and significant long term savings in health care costs. This is a responsible balanced budget and we ask for your support.

Rep. Mary Jane Wallner

HB 2-FN-A-L, relative to state fees, funds, revenues, and expenditures.

This is known as the trailer bill. It contains support for HB 1 and where necessary it makes statutory revisions for the budget bill. It is the way the legislature confirms its decisions on how the state is to conduct business during the period of time covered by the budget. This bill includes a commission with a short timeline to develop a NH Model for Medicaid Expansion, fully restores the LCHIP program, fully restores the UNIQUE Scholarship program and provides language to restore the MQUIP program which benefits county and private nursing homes. This bill includes provisions that protect our state's commitment to our public K-12 education system by fully funding the existing Adequacy formula and increasing the cap, increasing funding to 58 towns. The committee of conference asks for your support.

Rep. Mary Jane Wallner

HB 25-FN-A, making appropriations for capital improvements.

The Senate agreed with most of the Capital Budget as it was passed by the House. The significant changes in HB 25 from the House version as agreed to by House and Senate are as follows: \$10 million was added to the Liquor Commission (from the liquor enterprise fund) for the purpose of adding computer software to all NH liquor outlets for the purpose of credit card security and fraud compliance with the large credit card companies; \$5 million in Highway Fund bonded indebtedness was added to the department of transportation's budget for NH's one-half share of the match money for the \$25 million federal Tiger Grant application for replacement of the Sarah Mildred Long Bridge between Portsmouth and Kittery, Maine. The Hampton North Beach Seawall repair, which had been funded in phases over the past four biennia, was increased to \$4.7 million in order to finish the project over the next two years, because the department of resources and economic development testified to the conferees that the savings would amount to over \$700,000. \$2.35 million of the funds for the seawall comes from the existing Hampton Beach Parking Meter Fund. The Business One-Stop project (headed by the office of information technology and designed to allow easy and efficient on-line interface between businesses and state departments) continues to be phased-in. The amount of funding was increased to \$3 million with the requirement of quarterly progress reports. The source of funding for this project is various closed capital projects in which there were remaining funds. The conferees agreed to increase the University of New Hampshire System block grant funding from \$7.5 million to \$8 million dollars, while eliminating any specific itemized projects. There were a few other adjustments to various department funding levels based on updated numbers from the departments themselves. The overall level of General Fund new bonded indebtedness is slightly less than the \$125 million maximum recommended by the state treasurer at the beginning of the capital budget process.

Rep. David B. Campbell

HB 124-FN, relative to the determination of gainful occupation for a group II member receiving an accidental disability retirement allowance from the retirement system.

The Senate left the original language of HB 124 unchanged. The Senate attached a new provision having to do with the director and assistant director of homeland security. The new language establishes a three year term for the director of homeland security. The director may elect not to become a member of the NH retirement system, and is eligible to continue as a Group II employee if he or she was a Group II member or receiving a Group II retirement allowance prior to appointment. The assistant director of homeland security

may not opt out of the retirement system, but is eligible to continue as a Group II member if he or she was a Group II member or receiving a Group II retirement allowance prior to appointment. The House concurred with the Senate language.

Rep. Lucy M. Weber

HB 142, relative to teacher evaluation systems.

The House conferees agreed with the Senate amendment to HB 142 with one word change. By replacing the word "policy" with the word "system" the language is now aligned with the waiver to no child left behind (NCLB) as suggested by the commissioner of education.

Rep. Anne C. Grassie

HB 183, relative to processing absentee ballots.

This bill as amended by the House allows the processing of absentee ballots two hours after the opening of the polls. In addition, it removes a provision in existing law that allows ten or more voters to prohibit absentee ballots from being processed until after the polls have closed. The Senate version added a requirement that the moderator post notice in two public places in addition to the polling place at least 24 hours before the polls open. The Senate version retained the provision allowing ten or more voters to delay the processing of absentee ballots. After thoughtful consideration, the Senate recognized the wisdom of the House position on these two provisions and acceded.

Rep. Gary B. Richardson

HB 220, relative to the New Hampshire medal of honor.

The House and Senate conferees agreed to the Senate version which adds "in action." at the end of each sentence which reads in the House version as " at the time that they were killed." The Senate version also amends the effective date from "60 days after passage" in the House version to "upon passage."

Rep. Robert L. Theberge

HB 224, relative to the authority of the superintendent of a county correctional facility.

The House conferees concluded that the amendments made by the Senate improved HB 224 and agreed to accept the Senate version of the bill. The Senate amendments streamline the procedures that will allow the superintendent of a correctional facility to release a prisoner for the purpose of obtaining and working at gainful employment, performing uncompensated public service, or to serve the sentence under home confinement, if the superintendent deems such a release to be conducive to the person's rehabilitation. The superintendent is required to notify the sentencing court and the prosecutor of a decision to release a prisoner under this law and, at the request of the prosecutor, a hearing may be scheduled. The decision of a superintendent shall stand unless, following the hearing, the court orders otherwise. If a person violates the terms and conditions laid down for his or her conduct, custody and employment, he or she shall be returned to the correctional facility and serve the balance of the person's sentence in actual confinement.

Rep. Robert R. Cushing

HB 242, relative to child passenger restraint requirements.

The conferees have come to a true compromise on HB 242. The Senate position of a 57 inch height requirement was agreed to by the House and the House requirement of less than 7 years was agreed to by the Senate.

Rep. Michael B. O'Brien, Sr.

HB 252, consolidating the property appraisal division and the municipal services division of the department of revenue administration.

The House and Senate conferees agreed to the House position by removing from HB 252, as amended by the Senate, section 11 which would have changed the classification of assistant directors at the department of revenue administration. The House and Senate conferees agreed to a new amendment that re-establishes the position of director for the division of document processing, which was requested by the commissioner of the department of revenue administration.

Rep. Jeffrey P. Goley

HB 253, relative to limitations on sales by nano breweries for consumption on the premises.

In New Hampshire, a nano brewery that produces less than 2000 barrels annually is eligible to be licensed under RSA 178:12-a and pay a reduced licensing fee. Breweries licensed under this statute are limited to selling, for on-premise consumption, one 4-ounce glass per label per person. This bill waives the restrictions on the glass size and amount sold for on-premise consumption if the licensee pays an additional fee. The intent of both the House and Senate amendments was to require that food be sold by the nano brewery in order to qualify for the enhanced licensing. The Senate version's food requirement referenced RSA 178:20 to clarify that the licensee must comply with the restaurant requirements of a beer and wine licensee. The Committee of Conference kept the requirements of RSA 178:20 but removed section IV of this statute, which is a provision for recorking bottles. It also added language that any product sold for off-premise consumption could not be opened on the premises.

Rep. Donna L. Schlachman

HB 260-FN, relative to the children in need of services (CHINS) program.

The House conferees agreed with the Senate version of the bill, which allows the commissioner of the department of health and human services to suspend referrals for voluntary services upon a determination that

there are insufficient funds, requires quarterly reports regarding CHINS cases and adds SB 129 to the bill. SB 129 was passed by both the House and the Senate. It limits placement at the youth detention center to dangerous persons. The conferees amended the bill to include a study of the Sununu Center.

Rep. Mary Beth E. Walz

HB 295-FN, requiring criminal background checks for volunteers and employees at youth skill camps. The Senate and House agree that protecting our children from harm is of great importance. This bill expands criminal background checks required for recreation camps to include youth skill camps. The Senate amended the definition of youth skill camps and required that these organizations maintain a policy relating to background checks. It also removed the municipal exemption. The House conferees agreed with this Senate version and conferees amended the bill to avoid employees and volunteers of youth skill camps from being subjected to duplicate background checks.

Rep. Suzanne J. Smith

HB 385, relative to licensure of, and the performance of electrical work by, elevator and accessibility lift mechanics.

The House and Senate conferees agreed to a new amendment which changes the qualifications needed to take the examination for an elevator or accessibility lift mechanic license. An individual will need 2 years documented experience, with an average of 1800 hours in each year over the 2 year period, while working in-state directly under a NH licensed mechanic or hold a certificate or license by another state and have had experience for at least 3 consecutive years with an average of 1800 hours each year. The House conferees believes this is a fair compromise.

Rep. Jeffrey P. Goley

HB 472, relative to residential units in rooming houses.

This is a bill relative to rooming houses and the timeframe under which residents of rooming houses have achieved tenancy rights under New Hampshire law. The House version clarified that the 90-day continuous residency requirement is not forfeited if the landlord moves the resident from one room to another. The Senate version added that a voluntary move could interrupt the 90-days needed to qualify for tenancy rights. The Committee of Conference agreed to an amendment that adds that the resident must sign a statement acknowledging that he or she understands the provisions of this statute and that a request to move rooms may interrupt the 90-day consecutive timeframe to achieve tenancy rights.

Rep. Edward A. Butler

HB 518, relative to establishing an individual's status as a veteran and specifying that training for active duty is service for purposes of the veterans' tax credit.

The House and Senate conferees agreed to the Senate version which adds "DD Form 1300, February 2011" and other documents approved by the director, state office of veterans' services. The Senate version also amends the effective date "60 days after passage" in the House version to "upon passage."

Rep. Robert L. Theberge

HB 524, relative to national guard facilities, the national guard scholarship fund, and the state active duty death benefit.

Only section one of HB 524 was the subject of debate between the House and Senate. It deals with the ability of the Adjutant General to receive 100% federal grants for facility renovations in an expeditious manner, or face the loss of these funds to other military facilities in other states. The House and Senate agreed on clarifying and notification language acceptable to the Adjutant General, Administrative Services and the Bureau of Public Works. The approving entity was changed from the Department of Justice to the Capital Budget Overview Committee.

Rep. David B. Campbell

HB 542, relative to electric renewable portfolio standards.

HB 542 makes valuable changes to the state's Renewable Portfolio Standard (RPS) The Senate version differed from the House version in two core ways. First, the exact language of a separate RPS bill, SB 148, was added to HB 542. This was done to ensure consistency between the two bills as they both deal with the same subject matter. The House conferees agreed that this blended language accomplished all of the goals of both bills, and acceded to the Senate amendment. The second area where HB 542 differed with the House position was in language added in response to a recent public utilities commission (PUC) order and draft PUC rules. Both the PUC order and the proposed rules changes seemed to be counter to the intent of legislation passed in the 2012 session relative to comprehensive telecommunications deregulation. The Senate amendment in this regard clarified both the wording and the intent of that legislation such that Voice over Internet Protocol (VoIP) and Internet Protocol (IP) enabled services are not considered public utilities as well as clarifying that telephone service with any service or feature in addition to basic service is considered non basic service. Both the House and the Senate concurred to an additional change proposed by the House to clarify the VoIP and IP enabled section.

Rep. Nickolas J. Levasseur

HB 546, relative to medical examinations under workers' compensation.

The Senate version removed the term "employer-required" medical examination language proposed by the House and instead reverted to the frequently misunderstood term "independent medical examination". In doing so, it added language that requires employers and insured to be given 10 days written notice of a required exam and a statement that the examination is requested by the employer or insurer and is not for the purpose of treatment or advice but rather for a medical opinion about the employee's claim.

The House concerns about the interface with current law, rules, and practice has been allayed and we agreed to accede to the Senate version of HB 546.

Rep. Andrew A. White

HB 573-FN, relative to the use of cannabis for therapeutic purposes.

The House and Senate conferees agreed to support legislation that allows for therapeutic use of cannabis for a number of "qualifying" medical conditions. These conditions include those severely debilitated or who are terminal. Licensed physicians and advanced practice nurses who have an established professional relationship with the patient make the determination as to who has a "qualified" medical condition. The department of health and human services is responsible for rulemaking and administration of the program. It is important that this legislation establishes a therapeutic use of the Cannabis Advisory Council. This council has broad authority including making recommendations for legislation and administrative rules. This legislation provides for legislative oversight by requiring reporting to the Health and Human Services Oversight Committee. The legislation takes a significant step in the utilization of medical cannabis in the treatment of severe and terminal health conditions. The House agreed to the Senate version of the bill. All conferees agreed to a housekeeping amendment.

Rep. James R. MacKay

HB 594-FN, relative to the general consumer credit laws of the state.

This bill, as approved by the House, was a Banking Department bill which made changes regarding mortgage services, bankers and brokers, bringing our statutes into compliance with current industry standards. The Senate attached two amendments which were agreed to in the Committee of Conference. The first amendment made a correction in the managed care law relative to availability of medically necessary nonformulary prescriptions within 48 hours. The second amendment is relative to membership in the state retirement system and clarifies language regarding inclusion in the retirement system for one person holding both the Town Clerk and Tax Collector position.

Rep. Edward A. Butler

HB 595-FN, relative to photo identification of voters.

HB 595 as passed by the House would repeal Phase 2 of RSA 659:13 which is scheduled to take effect on September 1, 2013. Phase 2 would have reduced the number of acceptable forms of voter identification and eliminated the use of student identification cards. In addition, it would have required local election officials to take photographs of individuals choosing to vote without a photo ID. The compromise arrived at by the Committee of Conference repeals Phase 2 and revises RSA 659:13. The amendment will allow the use of qualified student ID's as a means of identification provided that the ID bears a date of issuance or expiration within five years of the election. This provision does not go into effect until September 1, 2018 to grandfather existing student ID's that do not bear an expiration date. The amendment postpones the effective date of the provision that requires local election officials to take photographs of voters until September 1, 2015. Although the House's position was that this provision should be repealed in its entirety, the Senate was only willing to delay the effective date. The amendment retains the authority of election officials to verify the identity of voters and enables voters over age 65 to use acceptable forms of identification without regard to expiration date. The Committee strongly urges all members to support this compromise.

Rep. Gary B. Richardson

HB 599-FN, relative to establishing a single liquor commissioner.

The House agreed with the Senate amendment to the bill with the exception of the inadvertent omission of the word "experience" in the description of a candidate for the single commissioner post. House and Senate conferees agreed that word should be inserted into the section describing qualifications for the position and the conference committee amendment changes that sentence, amending RSA 176:1, to read: "The commissioner shall have significant business management experience and shall complete a criminal history records check prior to confirmation by the council."

Rep. Dianne E. Schuett

HB 635, establishing a committee to study state rest areas and relative to the solicitation of requests for proposals for the naming rights to rest areas.

The House and Senate mutually agreed to a new amendment that: 1) eliminates the study committee, to which the Senate would not designate any Senate members, and 2) requires that the department of transportation submit a procedure for soliciting requests for proposals for the sponsorship and/or naming rights to any NH

rest areas within 90 days, subject to the approval of the long range capital planning and utilization committee. The proceeds from this act shall be used to operate existing rest areas, several of which are currently closed because of a lack of funds.

Rep. David B. Campbell

HB 664-FN, relative to the New Hampshire vaccine association.

This bill passed the House on a strong bipartisan vote and as sent to the Senate received wide support as well. It amends the New Hampshire Vaccine Association Law (RSA 126-Q), a non-profit corporation that collects revenues from assessable entities for the cost of CDC-recommended vaccines provided to children in New Hampshire. The bill broadens the class of assessable entities to include third party administrators that are either licensed by or required to register with the Insurance Department, thereby including self-funded coverage. Two clarifying amendments from the Senate improve the bill.

The Senate also attached a voter registration amendment. During the course of the Committee of Conference discussions, it was agreed to drop the voter registration language and form. The committee then agreed to continue to support the original bill.

Rep. Edward A. Butler

COMMITTEE OF CONFERENCE BILLS NOT SIGNED OFF

SB 19-FN, repealing provisions relative to the sale of the former Laconia state school property and eliminating a ramp toll on the Everett turnpike in the town of Merrimack.

SB 19, as passed by the House, required the Long Range Capital and Utilization Committee to be part of the process in the disposition of the former Laconia state school property, as is the case with all other state property sales. The Senate amendment required the immediate removal of the toll booth at Exit 12 in Merrimack. The Exit 12 toll removal is also the subject of SB 3, which was retained by the Public Works & Highways Committee for study and recommendation as part of a number of issues regarding the F.E. Everett Turnpike, tolls and overall resident commuter relief on the Turnpike system, which will be addressed as part of next year's Ten Year Transportation Plan. The House would not yield on passage of the original bill and the Senate would not yield on the Exit 12 toll removal. The House and Senate conferees agreed to disagree.

Rep. David B. Campbell

HB 233, relative to the care of the war memorial in Franconia Notch state park.

Regrettably, the House and Senate conferees, despite collegial efforts, to reach a compromise could not agree.

Rep. Shannon E. Chandley

HB 265, relative to procedures by absentee voters.

The House and Senate conferees were unable to agree. The House could not accept the changes made by the Senate.

Rep. Mary Ann Knowles

HB 314, raising limits on single wagers in games of chance and relative to gross revenues received by charitable organizations participating in games of chance.

The Senate did not concur regarding the bet limit on charitable gaming to \$6 from the current \$4 limit. The provision to change the remittance schedule was addressed in SB 75. The conferees were unable to come to an agreement.

Rep. Patricia T. Lovejoy

HB 353, relative to the regulation of private investigators and security guards.

The House and Senate conferees were unable to reach agreement on the wording of this bill.

Rep. Lucy M. Weber

HB 357, prohibiting an employer from using credit history in employment decisions.

The Senate amended House Bill 357 (which would prohibit an employer from using credit histories in employment decision) by adding the language of SB 100, which would eliminate the current requirement that employers offer the option of receiving a paper paycheck in favor of a "pay card". The full House soundly rejected the notion of SB 100, its fees to access payroll money, and forcing employees to accept pay cards as a condition of employment. The Senate Conferees would not recede from their insistence that passage HB 357 would require the House to accept SB 100 and the House conferees could not accept the language proposed in SB 100. Further, the Senate conferees asserted that even if the House would accede to the Senate position the Senate would further require "more work" on the underlying bill which is simply not possible in the time available. For these reasons the conferees were unable to reach any kind of agreement.

Rep. Andrew A. White

HB 414, relative to privacy in the workplace.

The Senate amended HB 414 by adding an amendment that added email to the list of protected social media, an enhancement to an already comprehensive bill. The Senate version with exceptional personal privacy protections passed the full senate unanimously, however a floor amendment added the language of SB 153. The House and Senate Conferees agreed to discuss the two major sections of the bill separately – all conferees from both chambers voting to agree with HB 414 with the addition of the Senate amendment; and House Conferees rejecting all provisions of SB 153, which would politicize the collective bargaining process and al-

low for a potential functional veto (by failure to act) by the 10 member Fiscal Committee. The Senate would not recede from its insistence that the bill with all Senate amendments be passed and the House Conferees could not accept the tenets of SB 153 as proposed.

The House and Senate Conferees could not agree to HB 414.

Rep. Andrew A. White

HB 442, prohibiting residency restrictions for registered sex offenders and offenders against children.

The conferees were unable to reach agreement.

Rep. Philip E. Ginsberg

LAI D ON TABLE

HB 116, relative to the powers of an executor or administrator to take control of a decedent's social networking websites. (Pending question: adoption of the Majority committee report of Inexpedient to Legislate.)

HB 344-FN-L, relative to aid to school districts for the cost of special education. (Pending question: adoption of the committee report of Inexpedient to Legislate.)

HB 420, establishing orange, red, and yellow as the state colors. (Pending question: adoption of the committee report of Ought to Pass.)

HB 576, establishing Franklin Pierce Day. (Pending question: adoption of the committee report of Inexpedient to Legislate.)

HB 615-FN-A, relative to the New Hampshire national guard recruitment and retention scholarship fund and making an appropriation therefor. (Pending question: adoption of the majority committee report of Inexpedient to Legislate.)

HB 619-FN, prohibiting images of a person's residence to be taken from the air. (Pending question: adoption of the committee report of Ought to Pass with Amendment.)

HB 638, recognizing the original Thirteenth Amendment to the United States Constitution. (Pending question: adoption of the majority committee report of Inexpedient to Legislate.)

HB 678-FN-A-L, relative to games of chance and establishing a gaming oversight authority and video lottery gaming. (Pending question: adoption of the report of Inexpedient to Legislate.)

HB 683-FN, relative to the retirement system status of the director and assistant director of the division of homeland security and emergency management. (Pending question: adoption of the report of Inexpedient to Legislate.)

HCR 3, affirming States' powers based on the Constitution for the United States and the Constitution of New Hampshire. (Pending question: Ought to Pass.)

HR 6, commemorating the 40th anniversary of the *Roe v Wade* Supreme Court decision and affirming support for its holding and principles.

HR 7, urging the New Hampshire congressional delegation to sponsor and support a constitutional amendment to re-establish the authority of the states and Congress to regulate campaign spending by entities created by law. (Pending question: adoption of the Majority committee report of Inexpedient to Legislate.)

HR 8, affirming revenue estimates for fiscal years 2013, 2014, and 2015. (Pending question: adoption of Ought to Pass.)

SCR 1, relative to special use permits in the White Mountain National Forest. (Pending question: adoption of the floor amendment (2013-1554h).)
