GOVERNOR'S VETO MESSAGE REGARDING HOUSE BILLS 1 AND 2

By the authority vested in me, pursuant to part II, Article 44 of the New Hampshire Constitution, on June 25, 2015, I have vetoed House Bills 1 and 2, making appropriations for the expenses of certain departments of the state for fiscal years ending June 30, 2016 and June 30, 2017.

To keep our economy moving in the right direction, I originally proposed a fiscally responsible, balanced budget that was transparent and honest about how we would support critical economic priorities without an income or a sales tax. The plan that I proposed clearly set those economic priorities, including holding down the cost of higher education, strengthening public safety, ensuring access to affordable health care, and repairing our roads and bridges.

I have vetoed the budget passed by the legislature because it is unbalanced, makes false promises about what it funds, and gives unpaid-for tax giveaways to big corporations, many based out-of-state, at the expense of critical economic priorities, including higher education, health care, public safety and transportation. The long-term impact of these unpaid-for corporate tax cuts will create a more than \$90 million hole in future budgets, further eroding our ability to encourage economic growth.

This budget is unbalanced. The legislature double-counted carryforward funds, attempting to take money that has been designated and appropriated to pay for 2015 bills, and instead proposed to use it to balance its 2016 budget. This gimmick would have forced cuts to this budget within months of enactment, eliminating the increased funding that many people thought they were being promised in this budget.

Compounding the danger to our state's future, the legislature used more than \$65 million in 'one-time' sources of revenue in this budget. When combined with the impact of the unpaid-for corporate tax cut, the gap that would need to be filled in the very next budget would exceed \$100 million. This gap would force the next legislature to make even deeper cuts to a budget that is already under-funded in critical areas.

For example, the budget that I have vetoed would not provide any year-to-year increase to our university system – which is still funded below 2010 levels and receives among the least amount of state support in the nation – jeopardizing our efforts to hold down the cost of higher education to help keep more of our young people here in New Hampshire for college and their careers. In the face of an opioid crisis, it would not adequately fund substance abuse prevention, cutting my proposal for the Governor's Commission on Alcohol and Drug Abuse Prevention, Treatment and Recovery by more than 30 percent.

This budget would force the Sununu Youth Services Center to cut a quarter of its budget without a plan for how to achieve those savings while seriously undermining its ability to help youthful offenders put their lives back on track. It neglected to include a modest cost-of-living increase for employees, even though the state reached a good-faith negotiated agreement prior to our budget proposal. In funding the Department of Transportation, the legislature would divert funds that were intended to provide additional road and bridge repairs, and it underfunded snow plowing and removal by nearly \$5 million.

And this budget would not ensure the continuation and funding for our successful and bipartisan New Hampshire Health Protection Program, jeopardizing health insurance coverage for more than 41,000 New Hampshire citizens and creating uncertainty for our businesses, our health insurance market and our economy. It would also jeopardize access to substance abuse and mental health treatment that is provided under our bipartisan expansion plan and is making a real difference to the health and safety of our citizens and our communities.

I have made clear to legislative leaders that I am not philosophically opposed to reducing corporate tax rates and that I am willing to work together, compromise and negotiate to reach a better, more responsible and balanced budget. I have put forward concrete ideas that would reduce business tax rates while ensuring that those cuts are paid for in order to protect our state's long-term finances and economic future.

I did not come to the decision to veto this budget lightly. I would prefer to work together to find a compromise path forward, and I remain committed to such efforts.

My responsibility as Governor is to consider both the short- and long-term impacts of legislation and stand up for today's citizens of New Hampshire, as well as for the future. I will not trade New Hampshire's economic future for an inadequate, unbalanced budget today. Therefore, I have vetoed HB1 and HB2.

Respectfully Submitted,

Margaret Wood Hassan

Governor

GOVERNOR'S VETO MESSAGE REGARDING HOUSE BILL 332

By the authority vested in me, pursuant to part II, Article 44 of the New Hampshire Constitution, on June 26, 2015, I have vetoed House Bill 332, relative to school district policy regarding objectionable course material.

By imposing inflexible notice requirements on certain curricula, House Bill 332 would be an impediment to an adaptable learning environment, which is critical to helping our students develop the skills and critical thinking necessary for success in the 21st century economy. Furthermore, this bill would make it more difficult for young people to receive critical public health education and it could affect a wide range of curricula – including science and the study of important literature, ranging from Mark Twain to Shakespeare.

Current New Hampshire law requires school districts to adopt a policy allowing an exception to specific course material based on a parent's or legal guardian's determination that the material is objectionable, and it also addresses parental objections to health and sex education based on religious beliefs, rendering this bill unnecessary. By requiring schools to provide no less than two weeks' notice to parents of all materials – literary books, textbooks, worksheets, videos, online resources – that even touch upon human sexuality or human sexual education, this bill imposes strict, overly burdensome notification requirements that could lead to schools avoiding material of merit and historical importance because it could potentially elicit objections and even litigation. In addition, these notification requirements could prohibit the natural, spontaneous discussions that arise in the context of everyday learning.

Additionally and just as troublesome, this bill aims to put in place additional barriers for New Hampshire students who decide to access education about sexual health. Research has shown that teens who participate in comprehensive health education programs that discuss the importance of delaying sex and provide information about contraceptives are less likely to experience teen pregnancy or sexually transmitted diseases.

House Bill 332 would create an even greater stigma concerning sex education and lead to fewer students having access to important health information. Such barriers to information can have far-reaching, negative impacts on the health of our young people and communities.

New Hampshire law already provides protections that allow parents to opt their children out from curricula that the parents consider to be objectionable. This unnecessary law would only serve to inhibit classroom discussions and access to important information about health education, while opening the door to notification policies that could lead to censorship. Therefore, I have vetoed House Bill 332.

Respectfully Submitted,

Margaret Wood Hassan

GOVERNOR'S VETO MESSAGE REGARDING HOUSE BILL 449

By the authority vested in me, pursuant to part II, Article 44 of the New Hampshire Constitution, on July 6th, 2015, I have vetoed House Bill 449, relative to the duration of child support.

Finishing high school or high school equivalency programs is vitally important to the economic well-being of our youth, helping them develop the skills and innovative thinking necessary for success in the 21st century

economy, and current law requires that child support continues until a child graduates from high school, even if the child is over age 18. House Bill 449, if enacted, would end child support orders for any child over the age of 18 who chooses to pursue the HiSET or any other high school equivalency program as opposed to attending a traditional high school. In doing so, I believe this bill would create two different standards for youth and their families, elevating one path to completing education above another.

As a state, we have recognized that not every child thrives in the traditional classroom environment and have worked to offer alternatives to allow students to finish their high school degrees so that they may better compete in the workforce and participate in higher education if they so choose. For example, in 2014, 317 New Hampshire students between the ages of 16 and 19 completed the HiSET exam. This legislation would say those children no longer merit the support of both of their parents as they work to complete their high school education and prepare themselves for future success.

It is also unclear what impact this legislation might have on home-schooled students, who do not attend a traditional high school but may participate in a high school equivalency program as part of their efforts to enter the workforce or apply for college.

House Bill 449 would also terminate child support forever if a child over the age of 18 is incarcerated, even if the incarceration is only for a short duration and the child returns to high school, which could greatly inhibit our efforts to help youthful offenders put their lives back on track.

A child who is struggling in a traditional high school environment but pursuing a high school equivalency degree may still need the support – both emotional and financial – of their parents. It should not be arbitrarily withdrawn because they are taking a slightly different path than others in their age group.

It may be appropriate to place time limits on how long a child has to finish an equivalency program, but to arbitrarily cut off child support on the first day a child chooses a different path is not good for the children of our state. Therefore, I have vetoed House Bill 449.

GOVERNOR'S VETO MESSAGE REGARDING HOUSE BILL 550

By the authority vested in me, pursuant to part II, Article 44 of the New Hampshire Constitution, on July 20, 2015, I have vetoed House Bill 550, relative to administration of the tobacco tax and relative to the sale or exchange of an interest in a business organization under the business profits tax.

Like many others, I am disturbed by the process that brought this bill to my desk. It was passed at the last moment, with no public hearing before the vote. That defective process has understandably raised concerns among members of the legislature and the public. However, I remain open to considering legislation similar to House Bill 550 as part of a larger budget agreement if this tax law change it proposes is paid for.

New Hampshire's absence of a sales or income tax has long served to our state's advantage in attracting businesses and people to our state. It has, however, also led to the development of some areas of our tax code that are unique, which can at times be confusing to outside observers. I have heard from a number of businesses that New Hampshire should work to mitigate the impact of such provisions, particularly those that House Bill 550 seeks to address, because at times these provisions can hinder capital investment in New Hampshire companies. I remain willing and open to work in a bipartisan manner to address this concern.

House Bill 550 also suffers from the same problem as the budget that I recently vetoed. It encompasses a significant tax cut that will impact this budget and future budgets without addressing how New Hampshire will pay for it. Cutting taxes without offsetting the loss in revenue will jeopardize our state's ability to invest in the priorities that are critical to our state's families, businesses and our future in the 21st century innovation economy. Many of the same businesses who have expressed support for legislation similar to House Bill 550 have also raised concerns about New Hampshire losing the ability to support the critical economic priorities necessary to keep our state competitive, priorities such as affordable higher education, modern and safe transportation, accessible health care, and combating the substance abuse crisis.

As long as the tax cut House Bill 550 contemplates is paid for, I am willing to address the tax relief it proposes, as well as the larger issue of business tax reductions, in a compromise budget that ensures that we make these reductions in a way that does not jeopardize our state's economic priorities and future.

GOVERNOR'S VETO MESSAGE REGARDING HOUSE BILL 603

By the authority vested in me, pursuant to part II, Article 44 of the New Hampshire Constitution, on June 12, 2015, I have vetoed House Bill 603, relative to student exemption from the statewide assessment.

House Bill 603 would create a student opt-out option from the statewide assessment process. This bill would conflict with current state educational accountability laws, undercut one of the tools that educators use to evaluate K-12 student progress, and jeopardize federal funding for New Hampshire schools.

If it became law, House Bill 603 could do real and lasting damage to New Hampshire's economic competitiveness, suggesting that our state is not committed to ensuring that students are ready for college and/or careers in the 21st century's innovation economy. That is why the business leaders and educators joined together to oppose this legislation.

By state law – and as a result of Supreme Court decisions requiring a statewide education accountability system – New Hampshire schools are required to participate in the Statewide Educational Improvement and Assessment Program. If passed, House Bill 603 would discourage participation in the annual statewide assessment, violating the requirements of both federal and state law, as well as the requirements of the New Hampshire Supreme Court that New Hampshire have a broad assessment and accountability system.

A valid annual assessment is a critical component of accountability, which is why state statutes say that all students must take the statewide assessment. This year, New Hampshire started a new annual assessment, the Smarter Balanced Assessment, an improved test that helps inform educators about whether students are meeting higher standards and helps direct any resulting changes to instruction. These tests provide the only statewide snapshot as to how our public schools are performing, serving as an additional measure to inform us about how well students are being educated. But it is also important to note that New Hampshire does not over-rely on these tests as they are not a significant factor in teacher evaluation, they are not used to determine school funding and they are not required for a student to graduate.

New Hampshire also recognizes that standardized assessments alone do not provide the most well-rounded, individual student-driven results that effectively inform teacher instruction. That is why New Hampshire continues to build on our efforts that are leading the nation in developing assessment alternatives through the Performance Assessment of Competency Education (PACE) Pilot Program. PACE empowers our students and our teachers by reducing the amount of standardized testing in favor of more locally managed assessments that will be integrated into a student's day-to-day work, which improves the effectiveness of project-based 21st century learning.

Allowing this bill to become law also poses significant fiscal risk by threatening tens of millions of dollars a year in federal funding to our schools. The federal government requires 95 percent of students to participate in a statewide assessment to receive Title I funding. Action in some New Hampshire school districts that provided an unofficial opt-out option this year led to decreased student participation – demonstrating that any state action to encourage opt-out would have the same, if not greater implications. House Bill 603 does not provide reporting of opt-outs to the Department of Education, so we would be unable to accurately determine how many students did not take the test and whether the State met the 95-percent student participation threshold.

House Bill 603 also sets a bad precedent for, and sends a bad message to, our students. Students who are told that they can opt out of this critical component to their education will believe that they can opt out of other of requirements as well, which could in turn affect participation in day-to-day activities and interfere with both student assessment and direct instruction.

New Hampshire's economic competitiveness depends on our ongoing commitment to ensuring that our students and workers have the skills needed to compete in the future. If passed, this bill would inhibit the ability to effectively measure student progress and inform teacher instruction, while sending a message to the business and education communities that New Hampshire does not value high standards in education, standards that will help prepare our future workforce for success in the innovation economy. Therefore, I have vetoed House Bill 603.

Respectfully Submitted,
Margaret Wood Hassan

NOTICE LEGISLATIVE ETHICS COMMITTEE

The Legislative Ethics Committee has voted to issue the following advisory opinion, which is printed below in its entirety.

Advisory Opinion 2015-2
Response to a Request for an Advisory Opinion
from Senator Jeb Bradley
(August 7, 2015)

Senator Jeb Bradley has requested an Advisory Opinion about whether, consistent with applicable statutes and the Ethics Guidelines, he and other members of the General Court may accept complimentary meals, beverages, and lodging, associated with attendance at a proposed “Legislative Leadership Summit,” organized and sponsored by the Business and Industry Association of New Hampshire (BIA).

According to information provided to the Committee by Senator Bradley, the Summit would be held on an annual or biennial basis and would involve state legislators, the governor and some state agency heads, and members of the business community. About 50-60 guests would be invited and the estimated value of the expenses to be underwritten by the BIA would be approximately \$600 per invitee. His request states that the purpose of the Summit would be: “1) to engage in a robust exchange of information and ideas between elected and appointed state public policy leaders and business leaders around several important issues areas affecting businesses, large and small, such as New Hampshire’s tax structure, energy supply and cost, healthcare availability and expense, etc.; and 2) to create an atmosphere where elected and appointed state public policy leaders and business leaders can build friendly, respectful relationships in a less formal, relaxed setting.” Senator Bradley provided an example of an agenda illustrating the public policy subjects that would be discussed.

Under RSA 15-B:3, “Gifts” to legislators are generally prohibited, unless specifically exempted by law. Unless specifically exempted, money payments to legislators by third persons are prohibited. Also prohibited are transfers by third persons to legislators of items of value other than money, unless the item is worth less than \$25.00, or otherwise qualifies for a specific statutory exemption from the definition of “gift.” Since the BIA estimates that the value of the complimentary meals, beverages, and lodging would be approximately \$600, the question becomes whether acceptance of the complimentary items would qualify for a specific exemption.

Senator Bradley’s request suggests that acceptance of the complimentary items would qualify for exemption from the definition of “gift” under the specific exemption set forth in RSA 15-B:2,V(b)(10)(B), allowing acceptance of meals, beverages, lodging, or transportation associated with attendance at any event where the legislator is attending in his/her official capacity representing the senate or house.

In the Committee’s previous interpretations of RSA 15-B:2,V(b)(10)(B), we have presumed that the Senate President is representing the Senate when attending an event in an official capacity (Advisory Opinion 2011-3), and we held that the same presumption would apply to the Speaker of the House (Advisory Opinion 2013-3). But as we stated, merely because other legislators might be invited to attend an event in their official capacity does not satisfy the additional requirement that in attending, they would be “representing” the body they belong to, unless they have been granted specific authority to do so. (Advisory Opinion 2013-3). Absent such specific authority, the statutory requirements for the RSA 15-B:2,V(b)(10)(B) exemption would not be met.

However, legislators may accept payment for the cost of travel to and attendance at an event if the payment qualifies as an “expense reimbursement.” This exemption does not require payment directly to the legislator, or that the expenses be prepaid by the legislator. It is also available for costs that are waived, forgiven, reduced, or prepaid by a third party, and can include the costs of attendance, registration, travel, meals, or lodging. The exemption applies only where the event is a *bona fide* conference, meeting, seminar, or educational or informational program that relates to the legislator’s duties. As we have held, the event must offer, as a genuine and central element, organized learning about subjects that are or may become the focus of legislative activity in New Hampshire. See Interpretive Ruling 2013-1.

Based on the information provided by Senator Bradley about the proposed Summit’s purpose and activities, the event, as described, would qualify as a *bona fide* conference, meeting, seminar or educational or informational program.

Accordingly, the Committee advises that acceptance by legislators of complimentary meals, beverages, and lodging, associated with attendance at the proposed Summit would qualify for exemption from the prohibition on “Gifts” under RSA 15-B:3, as “Expense Reimbursement” under RSA 15-B:5.

Legislators must report their acceptance of the complimentary items received at the Summit in accordance with RSA 15-B:6.

We appreciate the opportunity to be of assistance.

For the Committee,
Donna Sytek
Chairman

[Vote: 7-0]

NOTICE LEGISLATIVE ETHICS COMMITTEE

The Legislative Ethics Committee has voted to issue the following interpretive ruling, which is printed below in its entirety.

INTERPRETIVE RULING 2015-1 RSA 15-B:2,V(B)(11),VI; RSA 15-B:6 (August 31, 2015) Honorariums

The Committee was asked whether a \$100 donation to a charity from a third party in a legislator's name, for participation in a focus group, qualifies as an honorarium that must be reported.

RSA 15-B:2, VI defines an honorarium as "a payment in any form to an elected official ... for an appearance, speech, written article or other document, service as a consultant or advisor, or participation in a discussion group or similar activities." This exception to the general prohibition on the acceptance of gifts under RSA 15-B:3 allows a legislator to accept payment from a third party for performance of the activities specified in RSA 15-B:2, VI relating to his or her duties or position as a legislator.

The Committee determined that although the legislator did not personally receive a payment for participation in the focus group, the intangible honor and recognition of the donation resulting from it being in the legislator's name constitutes a form of payment for his participation. Therefore, the donation is an honorarium and must be reported pursuant to RSA 15-B:6.

For the Committee,
Donna Sytek
Chairman
