GOVERNOR'S VETO MESSAGE REGARDING HOUSE BILL 365

By the authority vested in me, pursuant to part II, Article 44 of the New Hampshire Constitution, on June 3rd, 2019, I have vetoed House Bill 365, relative to net energy metering limits for customer generators.

This bill is a regressive cost burden on citizens that benefits large-scale solar developers while hurting all ratepayers, including the elderly and those on fixed incomes. I am committed to advancing renewable energy in New Hampshire, but over the life of the subsidy, this will cost ratepayers hundreds of millions of dollars in higher electric bills. We should not allow our good intentions to mask a bad policy. We should not force our ratepayers to massively subsidize those who can afford to construct 40-acre solar farms. Rather, New Hampshire should focus on advancing policies that limit the harm to our ratepayers and target the benefits of renewable energy to those most in need.

Some municipalities believe that this bill would help them reduce their property tax burden, but this is yet another example of good intentions that lead to harmful outcomes. Any perceived tax savings from a net-metered solar project are cost-shifted to ratepayers across New Hampshire.

For the reasons stated above, I have vetoed House Bill 365.

Respectfully submitted,
Christopher T. Sununu, Governor
Date: June 3, 2019

COMMITTEE OF CONFERENCE STATEMENTS

SENATE BILLS

CONSENT CALENDAR

SB 30, relative to the advisory board on services for children, youth, and families. After extended discussion between the House and Senate conferees, the Senate agreed to the House position on this bill.

Rep. Pat Long

SB 31, (New Title) adding a member to the New Hampshire community development advisory committee and exempting the community development finance authority from the administrative procedure act. The Senate agreed to the House position on this bill.

Rep. Timothy Josephson

SB 82-FN, relative to school food and nutrition programs. The Senate has concurred with the House position.

Rep. Patricia Cornell

SB 86, establishing a commission to study programs for serving individuals with certain developmental and mental health disabilities. The Senate concurred with the content of the bill as it passed the House. The Senate noted, however, that the standard provision for legislators to be reimbursed for mileage had been omitted from the House version of the bill. House conferees confirmed that the omission was inadvertent, and the conferees agreed to reinstate the mileage reimbursement provision.

Rep. Lucy Weber

SB 118, establishing a child fatality review committee. The only change to the bill comes in the addition of the Commissioner of the Department of Health and Human Services, or designee. DHHS has input and appointing authority to this committee and both bodies recognized the oversight of not including the commissioner previously.

Rep. Pat Long

SB 167-FN, establishing a clean energy resource procurement commission. The sole issue that caused this committee of conference was the make-up of the commission that the bill established. After the Senate conferees stated their case that certain interested stakeholders should be represented, the House conferees agreed and felt that, although this enlarged the total membership by two, to a total of nineteen, that was appropriate and acceptable.

Rep. Robert Backus

SB 190-FN, (New Title) relative to apportionment of sales under the business profits tax and the apportionment of dividends under the business enterprise tax. This bill modifies the apportionment to this state of sales of a business organization with activity in other states and the apportionment of dividends of a business

enterprise based on sales made within this state. The bill also establishes a committee to study apportionment under the business profits tax and monitor the laws and legislation of other states concerning market-based sourcing.

Rep. Dennis Malloy

SB 235-FN, relative to sexual harassment complaints in the general court and authorizing an independent human resources professional. This bill enshrines in statute the requirement that the General Court will develop a sexual harassment policy together with procedures for handling sexual harassment complaints. This allows protections for legislators, staff, lobbyists, and the general public through an independent, non-political process. An independent resources professional shall handle complaints and may consult with any person reasonably necessary to conduct an investigation. The Senate and House conferees agreed upon an amendment clarifying the Speaker and Senate President may be notified but shall have no oversight or responsibility for any complaints involving sexual harassment.

Rep. Janet Wall

SB 246-FN, relative to licensing of child daycare, residential care, and child-placing agencies. The conferees discussed an amendment submitted by the Senate with respect to FBI background checks. The bill currently did not comply with FBI requirements and the amendment would bring the legislation into compliance. The Senate agreed to the House version as it related to replacement card fees.

Rep. Pat Long

REGULAR CALENDAR

SB 10, (New Title) relative to the state minimum hourly rate. This bill sets the minimum wage at \$10 per hour for 2020 and 2021, and \$12 per hour for 2022 and beyond. The Senate agreed to remove the reference to sick leave and the conferees agreed to leave tipped wage minimum at 45% of the current minimum wage.

Rep. Brian Sullivan

SB 194-FN, relative to the insurance data security law. This is the first data security policy for the Insurance Department. The Senate acceded to the House position and both agreed to an amendment which provides exemptions for industries like Banks and Credit Associations which are regulated by the Gramm-Leach-Bliley Act. Notification to the Insurance Department of breaches would still be required by such industries.

Rep. Ed Butler

SB 216-FN, (New Title) establishing an autonomous vehicle advisory commission, establishing an autonomous vehicle testing pilot program, and providing requirements for automated vehicle deployment. The Senate agreed with the House version of the bill after one further change as proposed by the House. The added language clarified that the pilot testing programs call for in the bill would apply to level 4 and 5 vehicles as defined by guidance provided by the federal government and department of transportation.

Rep. George Sykes

SB 226-FN, relative to registration of pharmacy benefit managers, and reestablishing the commission to study greater transparency in pharmaceutical costs and drug rebate programs. This bill will help to provide regulatory oversight to one of the most opaque components of the prescription drug cost system. The Senate acceded to the House position. Both bodies agreed to a couple of technical amendments.

Rep. Ed Butler

SB 267, relative to the release of student assessment information and data. The House concurred with the Senate to withdraw the option of the Department of Education to collect student address information from school district to the purpose of distributing assessment results. Currently, school districts directly distribute student assessment results to parents. We agreed that the assessment vendor shall retain assessment results for a period of eight years prior to destroying the data.

Rep. Mel Myler

SB 279-FN, relative to access to fertility care. This bill will provide insurance coverage for treatments for couples who are infertile. The parameters of coverage are similar to that already offered in the policy for state employees. The Senate acceded to the House position.

Rep. Ed Butler

SB 290-FN, relative to the New Hampshire granite advantage health care program. SB 290 provides the Commissioner of DHHS with the authority to waive the work requirement and/or waive the suspension from Granite Advantage Health Care Program coverage until July 2021 if there is an inability to communicate with members who are not already exempted, or in compliance with the work rules. This provision is critical to address the recent inability of DHHS to contact a significant number of enrollees to verify compliance. The suspension period allows time for DHHS to address the communications issues, or for this or the next legislature to take any other corrective action. The bill retains the clarification that hours spent in self-employment,

mental health treatment, and/or substance use disorder treatment or recovery activities all qualify to meet the work requirement. It raises the age of the dependent child exemption from under six years of age to through 12 years of age and stipulates that a person who is homeless is exempted. Caregivers providing medically necessary care, whether or not the person receiving care resides in the same household, are also exempt. The compromise language removes the proposed grandparent exception and the full-time student exemption, but both caregiving and student hours still qualify towards meeting the work requirement. In addition, commissioner is directed to seek a modification of the current waiver of the requirement of the 90-day retroactive coverage to allow 45 days of retroactive coverage from the date of enrollment, instead of the proposed 90 days retroactive coverage.

Rep. Joelle Martin

HOUSE BILLS CONSENT CALENDAR

HB 326, relative to the definition of prime wetland. Prime wetlands are those few wetlands which a municipality has asked to be so designated by the state “because of their size, unspoiled character, fragile condition or other relevant factors making them of substantial significance.” Several years ago, the statutes defining prime wetlands were changed so they inadvertently eliminated some of the most important parts of the wetland, the narrower portions that might connect two wetland systems or be an integral part of their water supply and wildlife habitat. HB326 allows prime wetlands to include additional connected narrower wetland areas (less than fifty feet at their narrowest point) provided the narrower portion provides a significant contribution to wetland functions. In the bill as amended by the senate, significant contribution is defined as containing four or more primary wetland functions as defined in RSA 482-A:2 and shall not include manmade structures under RSA 482-A:3, IV (b). In conference, both House and Senate conferees agreed to an amendment which clarifies that this section of the law will apply to existing prime wetlands as well as new applications. The conferees also corrected previous drafting errors.

Rep. Suzanne Smith

HB 464, (New Title) relative to the definitions of solar energy systems and wind-powered energy systems for assessed value of real estate exemptions and enabling municipalities to adopt a property tax exemption for electric energy storage systems. The conferees agreed to add an amendment to the latest, Senate version of the bill that clarifies RSA language for municipalities on the applicability of tax exemptions and replaces an incorrect RSA reference in several places with the correct RSA citation.

Rep. Kat McGhee

HB 511-FN, relative to vaping. The Senate amendment fixed language relative to the therapeutic cannabis exemption in the House version of HB 511 as requested by the Liquor Commission. The compromise language agreed by the conferees incorporates the definitions in section 109 of HB 2 and changes the effective date to July 1, 2019 to enable enforcement of the existing prohibition on vaping by minors. This was requested by the Liquor Commission.

Rep. William Marsh

HB 534-FN, relative to certain major state projects. This bill amends existing statutes for dealing with exclusions from the competitive bidding process. It increased the limit from \$250,000 to \$500,000 for the department of fish and game, adjutant general’s department and the department of natural resources and economic development. The Senate amended proposal at the committee of conference would allow the department of administrative services to grant other agencies an exclusion for specific projects whose estimated cost is not more than \$500,000 if the administrative services commissioner concludes to do so is in the best interest of the state. The House version of the bill added the department of transportation to the three agencies that were excluded from the established process as required by statute. The Senate proposed an alternative that is acceptable to the parties involved. The house agreed to this compromise and supports the amendment proposed by the committee of conference.

Rep. Michael Edgar

HB 582-FN, relative to the regional greenhouse gas initiative cap and trade program for controlling carbon dioxide emissions. The House Conferees on this bill were concerned that the Senate amendments deleted a requirement that climate change be included in future updates of the NH Energy Strategy. However, the Senate members expressed their belief that including this as a required subject would possibly jeopardize the prospects of the bill becoming law. Since the climate language was not directly related to the main purpose of the bill, i.e., increasing funding to advance NH’s energy efficiency programs, and since that purpose was the main goal of the House, the House conferees agreed to the approving the bill as amended by the Senate.

Rep. Robert Backus

HB 628-FN, relative to universal changing stations in certain places of public accommodation. This bill requires that new construction of certain buildings open to the public will include a universal changing station available to persons with disabilities and their caregivers. The Senate wanted to give the Building Code Review Board time to adopt this policy and proposed an effective date of January 1, 202. House conferees accepted this change.

Rep. Kermit Williams

REGULAR CALENDAR

HB 1-A, making appropriations for the expenses of certain departments of the state for fiscal years ending June 30, 2020 and June 30, 2021. The committee of conference produced a balance and fiscally responsible budget investing in the priorities of the people of New Hampshire. The budget makes investments in our citizens, communities, and state. The budget supports our communities and local property tax payers with \$40 million in unrestricted municipal aid to our cities and towns that was guaranteed to our communities in 1969 when creating the business profits tax. This budget combats the opioid and mental health crisis facing our State. HB 1 has the greatest increase in homelessness programing and rapid re-housing in the state's history to address our housing and homelessness crisis. HB 1 also supports the state's law enforcement and builds a safer New Hampshire. This budget incorporates Senate Bill 6 and finally fully funds the child protection staff necessary to protect our children, consistent with the DCYF audit released in December of 2016. Supports other child protection staffing as well as the office of Child Advocate. It advances cost effective prevention services, such as voluntary services for at-risk children and family, parental assistance, home visiting, and family resource centers. Increases funding above the Governor for Domestic violence crisis centers, for our regional drug task forces, and for Granite Shield, all critical to public safety. Supports the effort to attract and retain our state police/troopers. Funds an additional detective and attorney for the cold case unit with the more than 125 unsolved murders.

Rep. Mary Jane Wallner

HB 2-FN-A-L, relative to state fees, funds, revenues, and expenditures. HB 2 includes; the largest public education investment in almost two decades with approximately \$138 million in new state funding for local public schools, the greatest increase in funding for local public schools in twenty years. For the first time in New Hampshire history, kindergarten students are treated the same as every other student, i.e., full adequacy for full-day kindergarten. Full stabilization payments to help those communities left out and left behind and a new fiscal disparity aid formula that sends targeted resources back to the communities who need it most. Commission to study long-term funding of education, including the funding of pre-K (New Hampshire Was one of only 6 states that does not provide state funding for pre-k). Freezes in state-tuition at our community colleges and our university system, helping retain graduating high school seniors and advancing our workforce. Combats the Opioid and Mental Health Crisis. Protects Medicaid expansion by ensuring the Medicaid expansion trust fund is solvent, protecting access to health care for thousands who need it in these crises. Creates a new 25 bed Secure Psychiatric Unit, finally stopping the criminalization of the mentally ill at the state prison. Incorporate Many of the provisions of Senate Bill 11 to address the ER boarding crisis. Moves the children out of New Hampshire Hospital to a better setting with several safeguards, renovates the remaining space to add capacity to help solve the ER boarding crisis. Incorporates Senate Bill 14, creating a first ever statewide children's mobile crisis and intervention unit, children's health and reducing costs down the road, including special education. Helps support Safe Stations in Manchester and Nashua. Supports emergency shelters for individuals with substance use disorders. Each month there are close to 15,000 job openings in New Hampshire, Our businesses need a skilled workforce. This budget promotes New Hampshire jobs and New Hampshire small businesses. HB 2 incorporates Granite State Jobs Act (Senate Bill 2) which attracts and retains workers, skill workers up, and places them in available jobs. It supports New Hampshire's small business and entrepreneur incubator programs as well as the NH Small Business Development Center. It increases our tourism marketing budget helping drive more business here. Adding a student loan repayment program for advanced regenerative manufacturing and our health care workforce. Reforms business taxes ensuring small businesses in NH do not get double taxed by other states, while ensuring large out of state corporations pay their fair share. It also protects the Energy Efficiency Resource Standard, ensuring energy efficiency investments across the board, which lowers rates for everyone.

Rep. Mary Jane Wallner

HB 131, (Second New Title) establishing a commission on mental health education and behavioral health and wellness programs and conferring degree granting authority to Signum university. The Senate agreed with the original intent of HB 131, which established a commission on mental health education and behavioral health and wellness. We agreed on three changes to the membership of the commission as well as reporting deadlines of the committee work. The Senate withdrew their amendment authorizing Signum University to

grant degrees in the state with the understanding the House Education Committee will, in the fall, review the legislative rule in the Higher Education Commission's process of granting authorization for colleges to do business in the state. Subsequent to that review, the status of Signum University will be revisited.

Rep. Mel Myler

HB 315, (Second New Title) relative to the Interstate Voter Registration Crosscheck Program and the accuracy and efficiency of voter registration systems. The conferees agreed to amend the bill to meet the goals of both bodies. Legislative policy is set out to have the Secretary of State aggressively supervise the accuracy and efficient of the state's voter registration system. The Kansas based Electronic Registration Information Center (ERIC) has stopped its service, so the authority for the secretary to participate in that program is repealed. The secretary is allowed continuing discretion as to what crosscheck program, if any, NH should join. However, because involvement in such a program is desirable, the secretary is required to report to the House and Senate no later than January 15, 2020 as to the reasons why that office either has or has not joined a multi-state voter crosscheck program by that time.

Rep. Wayne Moynihan

HB 393, (Second New Title) establishing a committee to study child care in New Hampshire, relative to tuition waivers for children in state foster care or guardianship, relative to penalties for violations related to obtaining public assistance, relative to designated receiving facilities, relative to the membership of the commission to study the environmental and health effects of evolving 5G technology, and relative to the moratorium on health facility licensure. The conferees discussed the Senate changes and concurred that their changes best articulated the intent of the legislation with clearer understanding, thus the House acceded to the Senate version of the bill.

Rep. Pat Long

HB 459-FN, (Second New Title) defining hemp, relative to its growth and use in New Hampshire, establishing a committee to study the federal guidelines on growing hemp, and relative to costs of care for animals seized in animal cruelty cases and prohibiting the future ownership of animals in certain animal cruelty cases. Small changes were made to the Senate amended bill during the Committee of Conference for clarification and consistency. In Section 10, IV(a)(2), we changed the term "preliminary hearing" to "status hearing" and in Section 10, IV(c) made edits to keep the terms defendant/appellant consistent throughout the session. In the original House bill, there was a subsection that the owner or custodian of the confiscated animals may chose a veterinarian licensed under RSA 332-B to examine the confiscated animals and the location from which they were taken within 24 hours of confiscation. The Senate took it out due to the concern of the 24 hours timeline. Currently, a defendant can request for their own veterinarian to examine confiscated animals with a court motion based on the NH State Constitution, Article 15. During the committee of conference, we agreed to put language into statute that is consistent with court procedures. House conferees agreed to all these changes.

Rep. Amanda Gourgue

HB 494, relative to removal or containment of contaminants from the Coakley Landfill. The House acceded to the Senate position with a new amendment. This bill recognizes that the contamination at the Coakley Landfill site poses a threat to surrounding communities and requires that the Department of Environmental Services propose a remedy, including design solution, associated costs, and implementation timeline by January 1, 2020. The implementation of the remedy shall begin by September 1, 2020. The proposal must be consistent with the consent decree and if these deadlines are not met, the attorney general's office shall take appropriate action.

Rep. Peter Bixby

HB 508, (Second New Title) relative to direct primary care. Direct Primary Care is the provision of primary health care done without using a formal insurance product. Instead the payment method is a monthly stipend agreed to by consumer and provider. The committee of conference agreed to merge both the Senate language and House-proposed study committee.

Rep. Ed Butler

HB 564, (New Title) relative to possession of firearms on school property. The conferees agreed to amend the bill with language that follows the House position, requiring local school boards to hold a public hearing prior to authorizing persons to possess firearms on school property, and with such authorization exempt from 91-A.

Rep. David Luneau

HB 592, relative to OHRV operation and license. The Senate made several changes to the original bill as passed by the House. The House acceded to the Senate position after House concerns were addressed in the committee of conference, specifically that the Department of Safety be consulted in developing a required safety course, and that unlicensed operators, when operating on the traveled portion of a public highway, keep to the extreme right and shall yield to conventional motor vehicle traffic.

Rep. George Sykes

HB 696-FN, establishing a protective order for vulnerable adults. The bill is important and necessary because our criminal statutes do not provide adequate protection for our state's most vulnerable citizens; too often, by the time abuse, neglect or exploitation can be proven, assets are long gone, or the vulnerable adult has been subjected to unsafe conditions for far too long. The Senate made some minor changes to the bill, such as reducing the time for a hearing to be held from 3 days to 2, clarifying that a protected person must appear to be of sound mind when making a statement, and requiring that a plaintiff has a legal or equitable interest in property a defendant is restrained from taking, converting or damaging. The House conferees agreed to those changes. Both sides agreed, at the request and with the support of advocates of this protective legislation, to amend the bill to remove firearms references, while leaving in place in HB 696 provisions for the confiscation of any deadly weapons involved in the abuse, exploitations or neglect of a vulnerable person.

Rep. Renny Cushing

COMMITTEE OF CONFERENCE REPORTS NOT SIGNED OFF SENATE BILL

SB 228-FN, relative to multiple-employer welfare arrangements. The House and Senate conferees met on this standalone bill, which was also included in the contents of HB 2. We were moving ahead under the assumption that we would adopt both SB 228 and HB 2, but the Senate decided that inclusion in HB 2 was sufficient, and so did not sign off on this report.

Rep. Ed Butler

HOUSE BILL

HB 295-FN-A, (New Title) establishing a special marriage officiant license and relative to the assignment of temporary justices to the supreme court. The Senate added an amendment having to do with the appointment of retired supreme court justices during vacancies. The underlying bill related to temporary marriage officiants. The House Judiciary committee noted a lack of what it considered to be proper procedures in adopting this position and was concerned about its constitutionality. These issues were raised during the committee of conference and the Senate conferees agreed to withdraw their amendment and pass the bill as it left the House. Subsequent to the meeting, the Senate conferees did not sign off.

NOTICE

The House Clerk's Office is now accepting orders for the **2019** hardcover **Permanent House Journals**. Orders will be accepted until **Friday, November 15, 2019**.

Anyone who was a **member of the Legislature in 2019** and all state agencies are entitled to one Journal at no charge, **upon request**. All others interested in obtaining a Journal, as well as any Legislator or state agency requesting additional copies, will be charged for that copy. We estimate the cost for paid volumes to be approximately \$55 each. In addition, if the volume is to be mailed, there will be a \$5.00 shipping & handling charge. Those who order paid copies will be notified *and billed* when the Journals are ready for distribution. **DO NOT** send any money now.

In an effort to contain costs, the number of Journals printed will be determined by the number of advance orders received. **Extra copies will not be ordered.**

To place an order, please clip and return the form below:

Please clip this form and return it in person or via mail to: **Teresa Preston, Journal Clerk**
