HOUSE RECORD

Second Year of the 168th General Court

Calendar and Journal of the 2024 Session

Web Site Address: www.gencourt.state.nh.us

Vol. 46

Concord, N.H.

Friday, June 7, 2024

No. 23

Contains: Bills Laid on Table; Conference Committee Statements; Governor's Veto Message;
House Deadlines; Meetings and Notices; Revised Fiscal Notes.

HOUSE CALENDAR

MEMBERS OF THE HOUSE:

The House will meet on Thursday, June 13th, starting at 10:00 a.m. The Speaker's Ice Cream Social will also be held on that day at the Upham Walker House during the lunch break.

Your safety and security are a high priority in and around the State House Complex. To report a security concern, please visit the nearest Protective Services post, or call 603-271-2200. If there is an emergency situation, dial 9-1-1 first.

If you would like to request an in-person bill signing with the Governor for legislation that you have sponsored, please email Harold.B.Parker@nh.gov or call him at 603-271-8790. The deadline for requests is Friday, June 14, 2024. The Governor's office will try to accommodate requests, but given the volume of bills and limited amount of time, we cannot guarantee that all requests will be scheduled.

Sherman A. Packard, Speaker of the House

NOTICE

There is no chair/ vice chair meeting scheduled at this time. The next meeting of the chairs and vice chairs will be announced in an upcoming calendar.

Sherman A. Packard, Speaker of the House

NOTICE

ALL reports, scheduling and notices are due in the House Clerk's Office by **3:00 p.m. on WEDNESDAYS**. Reports and scheduling shall be turned in to House Committee Services for processing **no later than 1:00 p.m.** on Wednesday. Please be sure to complete that work in a timely fashion to meet the Calendar deadline.

CLOSES AT 3:00 p.m. ON:

Wednesday, June 12, 2024

Wednesday, June 19, 2024

Wednesday, June 26, 2024

AVAILABLE ON:

Friday, June 14, 2024

Friday, June 21, 2024

Friday, June 28, 2024

Paul C. Smith, Clerk of the House

2024 HOUSE DEADLINES

Second Year Session Deadlines

Thursday, June 13, 2024

Tuesday, September 3, 2024

Friday, September 13, 2024

Friday, October 25, 2024

Wednesday, November 6, 2024

Friday, November 22, 2024

Thursday, January 2, 2025

Friday, January 24, 2025

Last day to act on committee of conference reports

First day for incumbents running for re-election to file LSRs with complete information

Last day prior to the General Election for incumbents running for re-election to file LSRs with complete information

Last day to file 2024 Interim Study reports

First day for all Representatives to file LSRs with complete information

Last day to file LSRs with complete information (4:00 p.m.)

Ten-day signoff begins

Last day to sign-off on all LSRs (12:00 p.m.)

Last day to introduce House Bills

Last day to amend House Rules by majority vote

GOVERNOR'S VETO MESSAGE REGARDING HOUSE BILL 1233

By the authority vested in me, pursuant to part II, Article 44 of the New Hampshire Constitution, on May 29, 2024, I have vetoed House Bill 1233, relative to animal chiropractors.

This bill seeks to exempt select individuals from licensure requirements in the context of providing chiropractic care to animals. While the notion of reducing rigidity in licensing requirements for purposes of promoting access is laudable, such initiatives must be done with prudence to avoid unintended consequences. The exemption set forth in this bill is vague and stakeholders from the chiropractic and veterinary communities have been uniform in expressing concern over potential unintended consequences, inclusive of allowing individuals to treat animals who lack certain fundamental and foundational training and knowledge concerning animal care.

In addition to concerns over the direct care of animals, the proposed language appears to entirely exempt these prospective practitioners from licensure requirements as opposed to offer the grant of licensure through recognized review and reciprocity. Intended or not, this presents the possibility that these individuals would operate in the absence of the oversight or accountability generally attendant to provision of such services.

While I understand the intent of this bill and am an advocate for reducing unnecessary obstacles to individuals engaging in a trade, upon advice of professionals currently engaged in the field, further adjustments to this bill are needed.

For the reasons stated above, I have vetoed House Bill 1233.

Respectfully submitted,
Christopher T. Sununu
Governor

BILLS LAID ON THE TABLE

HB 232-FN, adopting section 1910 OSHA standards for public sector employees in New Hampshire. Pending question: Amendment (2429h).

HB 267, relative to criminal records checks in school employment. Pending question: Refer for Interim Study.

HB 301, relative to recusal by members of the general court for conflicts of interest. Pending question: Amendment (2326h).

HB 369, establishing a task force to provide energy relief on farms. Pending question: No pending question.

HB 375-FN, relative to the licensure of nonresident aliens temporarily residing in New Hampshire. Pending question: Inexpedient to Legislate.

HB 437-FN, relative to a reading assessment and intervention program. Pending question: Refer for Interim Study.

HB 439-FN, relative to the duty to provide an education and contracts with private schools. Pending question: No pending question.

HB 499-FN, requiring the rules of evidence to apply in family court cases and relative to the admission of certain evidence in family court proceedings. Pending question: Inexpedient to Legislate.

HB 505-FN, relative to comprehensive mental health education in schools. Pending question: No pending question.

HB 553, relative to school district information on personnel salaries. Pending question: No pending question.

HB 570, relative to Real ID compliant New Hampshire driver's licenses. Pending question: Inexpedient to Legislate.

HB 577-FN-L, relative to state aid for special education pupils. Pending question: No pending question.

HB 651, authorizing the department of education and local school districts to contract with transportation network companies to provide school transportation services. Pending question: Inexpedient to Legislate.

HB 1005-FN, relative to judicial training. Pending question: Inexpedient to Legislate.

HB 1053, relative to permissible residential units in a commercial zone. Pending question: Inexpedient to Legislate.

HB 1084, relative to qualifications for the commissioner of education. Pending question: No pending question.

HB 1087, establishing a commission to study information literacy and media literacy instruction in public schools. Pending question: No pending question.

HB 1099, relative to partisan school district elections. Pending question: Inexpedient to Legislate.

HB 1100, relative to coyote hunting. Pending question: Inexpedient to Legislate.

HB 1102-FN, relative to the definition of animal cruelty. Pending question: Inexpedient to Legislate.

HB 1156, relative to public health, safety, and state sovereignty. Pending question: Indefinite Postponement.

HB 1208-FN, relative to permitting requirements before timber harvesting operations in a wetland. Pending question: Inexpedient to Legislate.

HB 1210, relative to the election of Strafford county commissioners. Pending question: No pending motion.

HB 1212-FN-L, relative to eligibility for free school meals. Pending question: Inexpedient to Legislate.

HB 1240, relative to eating disorders as a qualifying condition for the therapeutic cannabis program. Pending question: Inexpedient to Legislate.

HB 1281, relative to zoning restrictions on residential rental property. Pending question: Inexpedient to Legislate.

HB 1297-FN, relative to the authority of municipalities to enforce ordinances related to health and safety. Pending question: Inexpedient to Legislate.

HB 1301, relative to wake surfing on public bodies of water. Pending motion: Ought to Pass.

HB 1317-FN-L, relative to municipal filings made by charitable organizations exempt from taxation. Pending question: Majority committee amendment.

HB 1353, relative to authorizing the commissioner of the department of education to issue subpoenas. Pending question: Ought to Pass.

HB 1363-FN, relative to allowing members of the general court to participate in the department of health and human services employee assistance program. Pending question: Inexpedient to Legislate.

HB 1390, relative to regulating wakeboarding and wakesports. Pending question: Majority committee amendment.

HB 1410-FN, relative to certain professional licenses and relative to the board of optometry and the regulation of optometry. Pending question: Motion to Concur with Senate Amendment.

HB 1452-FN, relative to credentials for the position of superintendent of schools and school business officer. Pending question: Ought to Pass.

HB 1453, relative to degree granting authority of certain institutions of higher education. Pending question: Ought to Pass.

HB 1476-FN, relative to charter school memorandums of understanding. Pending question: Ought to Pass.

HB 1482, relative to the sale of human blood and organs. Pending question: Inexpedient to Legislate.

HB 1522-FN, relative to weekly benefit amounts for unemployment compensation. Pending question. No pending question.

HB 1545, relative to the disposal of state surplus property for affordable housing. Pending question: Amendment (1115h).

HB 1560-FN-A, relative to unassigned moneys in the education trust fund. Pending question: Ought to Pass.

HB 1577-FN, relative to digital images of ballots. Pending question: Majority committee amendment.

HB 1592-FN-L, relative to the use of education freedom account funds in religious schools. Pending question: Ought to Pass.

HB 1629-FN, relative to attorney general's duties concerning legislators residing in different districts than they represent. Pending question: No pending question.

HB 1640-FN, relative to qualified immunity standards. Pending question: Inexpedient to Legislate.

HB 1644-FN, requiring the department of energy to initiate an investigation of the benefits and key considerations regarding support for clean or non-carbon emitting power generation. Pending question: Committee amendment.

HB 1683-FN, relative to coverage of circumcision under the state Medicaid plan. Pending question: No pending question.

HB 1686-FN, relative to requiring excess revenues raised through the statewide education property tax to be remitted to the education trust fund and prohibiting the department of revenue administration from setting negative local and county tax rates on real property. Pending question: No pending question.

HCR 8, applying to congress for a limited national convention for the exclusive purpose of proposing an amendment to the United States Constitution relative to elections. Pending question: Ought to Pass.

HR 27, calling for policymakers locally and nationally to fully consider all relevant information and factors pertaining to climate change before pursuing courses of action that could adversely affect any economy or environment. Pending question: Ought to Pass.

HR 31, urging support of the dignity through prosperity act. Pending question: Refer for Interim Study.

SB 218-FN-A, establishing an early educator professional development grant. Pending question: No pending question.

SB 252-FN, relative to the release of a defendant pending trial, directing the establishment of an electronic monitoring program for criminal defendants released on bail, and making an appropriation therefor. Pending question: Inexpedient to Legislate.

SB 386, relative to establishing a committee to study power generation, transmission, distribution, and storage. Pending question: Majority committee amendment.

SB 387-FN, relative to a state parks pass pilot program for recovery centers and community mental health centers. Pending question: Refer for Interim Study.

SB 414-FN, relative to establishing a mandatory minimum sentence for the crime of distribution of a controlled drug with death resulting. Pending question: Ought to Pass.

SB 440, relative to the board of optometry and the regulation of optometry. Pending question: Ought to Pass.

SB 454-FN, increasing the annual real estate transfer tax revenue contribution to the affordable housing fund. Pending question: Refer for Interim Study.

SB 471-FN, relative to adding a speed limit of 45 miles per hour on rural highways. Pending question: Ought to Pass.

SB 558-FN, relative to insurance coverage for infertility treatments, protection from discrimination during IVF treatments, parental leave, and adoption. Pending question: Refer for Interim Study.

SB 563-FN, relative to federal immigration enforcement. Pending question: Majority committee amendment.

SB 567-FN, directing the commissioner of the department of health and human services to compile a report on the availability of mifepristone and misoprostol. Pending question: Inexpedient to Legislate.

COMMITTEE OF CONFERENCE STATEMENTS SENATE BILLS CONSENT CALENDAR

SB 357, relative to expanding the definition of providers who can certify patients of the therapeutic cannabis program. The House accedes to the Senate, with an amendment to permit out of state physician assistants to certify patients for the therapeutic cannabis program and to update the reference for New Hampshire physician assistants to certify consistent with their collaboration agreement rather than an outdated reference to express consent from their supervising physician. The House receded from its position that an additional medical provider would only be “responsible” for the patient care versus “primarily responsible” because the Senate conferees believed that removing the word primarily was an unnecessary splitting of hairs. All testimony received has informed us that in an outpatient setting, there is no functional difference between “primarily responsible for the patient’s care related to his or her qualifying medical condition” or “responsible for the patient’s care related to his or her qualifying medical condition” and therefore in the interest of passing this bill the House conferees retreated from this desired but not technically necessary change.

Rep. Erica Layon

SB 371-FN, (New Title) relative to the licensing and regulation of physicians. As originally introduced, SB 371 sought to give an exemption to the two-year license renewal requirement for resident physicians. The House removed this language and replaced it with language amending the statute dealing with the licensing and regulation of physicians. Although the Senate wanted to add the original language of the bill back in, the conferees agreed that sufficient hardship to resident physicians could not be substantiated to warrant an exemption to the licensing requirement. The House and Senate conferees agreed to the House’s position.

Rep. Matt Simon

SB 379-FN, relative to emergency action plans for sports related injuries. This bill establishes requirements for the placement and maintenance of automated external defibrillators (AED) in public schools and house conferees accede to the senate version as amended in committee. The amended change requires that for grades 6-12, an individual trained in cardiopulmonary resuscitation supervise organized school sports activities.

Rep. Rick Ladd

SB 513, relative to permitting charity auctions by non-profit corporations. As amended by the House, this bill creates a new exception to RSA 311-B:13 that will enable a “charitable, educational, religious, or other non-profit organization to conduct a fundraising auction free of the requirement that the auctioneer be licensed.” The Senate conferees agreed to the Houser version, subject to a new narrowly crafted proviso making clear that a “political advocacy organization, as defined in RSA 664-2, XXII” will be excluded from this new exception. The House conferees agreed unanimously to this modification to the bill as passed by the House.

Rep. Walter Spilsbury

SB 521-FN, relative to the educational credentials for master teacher. This bill changes the requirements for the granting of the educational credential of master teacher. House conference committee members acceded to the Senate version. Several criteria associated with “master teacher” were changed as follows: “leadership” to “leadership and supervision” and “professional learning” to “professional development.” Fees for the granting of licenses to master teachers and renewal of master teacher licenses shall be no more than beginning or experienced educator licenses.

Rep. Rick Ladd

REGULAR CALENDAR

SB 266, (New Title) relative to administration of school assessment and accountability programs by the department of education. The Senate acceded to the House version of SB266 as amended by the committee of conference. SB266 is relative to the statewide improvement and assessment program (PBAS). The Senate version as presented to the House was a 24-page document intended to modify and recodify education laws on the administration of and criteria for PBAS and involved changes in RSA193-E, RSA193-H, RSA193-C and RSA193-K. As amended, the bill is now 4 pages in length and will better assist the department in meeting ESEA/ESSA requirements.

Rep. Rick Ladd

SB 340, (New Title) relative to communication between parents and school districts regarding special education, special education reporting requirements, and the office of the advocate for special education. The Senate accedes to the House version. The bill includes an amendment that addresses issues found in the recent LBA Performance Audit on Special Education Due Processes. It contains measures that will assist the Department of Education to monitor and track the status and resolution issues between districts and parents regarding services to their children. It will also give the Office of Special Education Advocate the tools to perform their statutory functions. This is a first step to addressing special education issues and services to children with disabilities.

Rep. Rick Ladd

SB 407-FN, (New Title) establishing a ground ambulance cost reporting program and a study by an independent actuarial and accounting expert of the cost of providing ground ambulance services in the state. The committee of conference met several times, and in the end the Senate gave up on their bill and agreed to the House position to do an ambulance usage survey with an intent to file for CMS waiver to increase Medicaid reimbursements.

Rep. John Hunt

SB 417-FN, relative to out-of-home placements for children. This bill addressed issues surrounding the placement of children outside their homes. Driving this bill were two issues of concern: one was a number of tragic outcomes where children were not moved from dangerous home situations or else were moved but wrongfully place. Additionally, both the Children and Family Law Committee and the Special Committee on the Family Division of the Circuit Court heard heart-rending testimony of how children were needlessly moved from their homes by sincere but mistaken judges and government workers, thereby trampling on the legitimate rights of parents. The House and Senate delegations worked extremely hard to reach common ground on this bill sometimes crafting compromises, other times even finding new language superior to that of the existing bills. The result was not perfect, but we acknowledged this bill was too important to fail. Doubtless bills to tweak this or that provision of the conference's final product will soon be filed. In the meantime, genuine concerns have been addressed and progress will be made.

Rep. Mark Pearson

SB 480-FN, (New Title) relative to the regulation of real estate practice. The committee of conference met on SB480 which resulted in the Senate acceding to the amended House version.

Rep. Jaci Grote

SB 499-FN, relative to the Supplemental Nutrition Assistance Program and the Summer EBT program and making appropriations therefor and relative to providing disaster relief funding to municipalities after a natural disaster.

Rep. Keith Erf

SB 555-FN, relative to receipt of pharmaceutical rebates by insurers and pharmacy benefits managers. The underlying statute was set to expire, and both the House and Senate had agreed to repeal the sunset. The Senate version was setting percentage amounts of the rebates, which the House disagreed with. The agreed version was to just repeal the sunset but also added reporting requirements for these rebates.

Rep. John Hunt

SB 574, (New Title) relative to the appointment of a temporary agent for a minor child or incapacitated person and relative to the determination of parental rights and responsibilities based on shared parenting. This bill allows for parents or guardians to appoint temporary agents for periods not to exceed 60 days and to delegate parental rights to those agents, subject to certain exceptions and limitations. The committee amendment establishes guardrails to make sure that the non-custodial parent cannot have the child placed in their custody if they fall under certain categories. This bill seeks to allow parents who are traveling or temporarily indisposed to be allowed to appoint a temporary guardian for a very limited amount of time, to keep their children safe.

Rep. Mark Pearson

HOUSE BILLS CONSENT CALENDAR

HB 194-FN, (Third New Title) requiring the director of the division of historical resources to compile and maintain a list of public monuments and requiring legislative approval of the amendment or permanent removal of historical markers. As it left the House, this bill required the director of the division of historic resources to compile and maintain a list of public monuments. The Senate amended the bill such that to amend or permanently remove an historical marker requires approval of the General Court, through legislation passed by both the house of representatives and the Senate. The House non-concurred and requested a committee of conference. The conferees determined that there should be a role for the legislature in the process of changing or removing historical markers, but approval via legislation was not well suited to the task. It was finally determined that the fiscal committee process would be. The committee adopted the following amendment: “Before amending or permanently removing any marker, the commissioner of the department of natural and cultural resources shall secure the approval of the joint legislative fiscal committee.”

Rep. Andy Renzullo

HB 1030, (New Title) repealing certain task forces, study committees, and study commissions, repealing the John G. Winant memorial commission and making the maintenance of the memorial a duty of the joint legislative historical committee, and establishing a committee to study the appeals process administered by the environmental councils established under RSA 21-O. The House agreed to virtually all of the Senate amendment of HB 1030. The House version of HB 1030 repealed among other things, several committees, including the advisory committee on state procurement, the county-state finance commission, and the committee to study the laws relating to condominium and homeowners associations. As amended by the Senate, these three committees would not be repealed. In the committee of conference, the conferees agreed to reinstate two of the three, however, the committee regarding the laws relating to condominium and homeowners associations would be repealed pursuant to HB 1030 as amended by the conferees.

Rep. Vanessa Sheehan

HB 1274-FN, relative to judicial administration. This is a judicial cleanup bill that is designed to update statutory law to reflect changes in judicial practice, other statutory law changes, and to provide greater efficiency in court operations. It came out of the House Judiciary Committee with a 19-0 OTPA recommendation and passed the House on the consent calendar. At the request of the Judicial Branch, the Senate added a provision that amends the definitions in the coverage of the New Hampshire Retirement System (NHRS) so as to remove from participation in the system the newly created position of assistant director of safety and security in the judicial branch. The House requested a committee of conference because of its concern about the possible impact of this change on NHRS. However, at the C of C hearing, it became clear that there are good reasons for excepting this position from NHRS. The judicial branch has an urgent need to upgrade its security processes and procedures; the branch has a very well-qualified retired law enforcement officer to fill the new position; and, unlike the executive branch, which has obtained changes to the NHRS that allow former police officers to remain as Group II participants in, for example, positions with the department of homeland security and the police standards and training council, providing a similar change for this position would raise separation of powers issues by placing a law enforcement officer (a quintessential executive branch function) in the judicial branch. For these reasons, the House acceded to the Senate’s version of the bill. However, the C of C did make one very minor non-substantive language change, which clarifies that in order to be excepted from the definition of “part-time” in RSA 100-A:1, XXXIV, both court security officers and court bailiffs must be per diem employees. This is consistent with current law.

Rep. Bob Lynn

HB 1278-FN, (New Title) relative to qualifying medical conditions for purposes of therapeutic cannabis; and relative to the summer EBT program, the SNAP elderly simplified application and the school lunch program and making appropriations therefor. The Senate has receded from their amendment and acceded to the House position, which empowers providers to certify adults 21 and older for therapeutic cannabis through their own discretion rather than a limited list of conditions. This is more limited than their ability to prescribe drugs, including controlled drugs, as it states that they can certify for “any debilitating or terminal medical condition or symptom for which the potential benefits of using therapeutic cannabis would, in the provider’s clinical opinion, likely outweigh the potential health risks for the patient.”

Rep. Erica Layon

HB 1622-FN, relative to administrative rulemaking and license renewals by the office of professional licensure and certification. This bill had a number of timing changes for the rulemaking process. The Senate amendment was primarily updating and clarifying language, with no policy changes. The committee of conference agreed with the Senate version with three changes. First, RSA 310:8, II was removed from the bill as the ap-

propriate language had been included in HB 518. Second, RSA 541-A:11 was expanded to clarify how public comments should be posted to rules. Finally, the report on how comments are included in rules defined by RSA 541-A:12, II (e) was expanded and clarified.

Rep. Carol McGuire

REGULAR CALENDAR

HB 318-FN-A, (Third New Title) relative to bail commissioners, the standards applicable to and the administration of bail, and making an appropriation. The conferees met and came the following agreements on the amended bill: As the intent of cash bail is to ensure the appearance of a defendant at a future proceeding, and not to otherwise keep them incarcerated pending trial, bail may not be set in an amount higher than a defendant is able to pay. A magistrate program is established with a minimum of 3 and subject to appropriation, 5 to start. The standard of proof required to hold a defendant for risk of flight is set at a preponderance of the evidence. The standard to hold a defendant for dangerousness remains clear and convincing evidence. Law enforcement shall make every reasonable attempt to notify a victim of a violent crime prior to the release of a defendant on bail. The sum of 1.7 million dollars to establish a bail notification and tracking system in the courts and for law enforcement was returned to the bill. Together these changes represent the bipartisan and bicameral agreement on the necessary changes to our bail system as was requested by the citizens of New Hampshire, as well as our law enforcement community, and our bail Commissioner themselves. These changes were made with the input and consideration of all the stakeholders involved.

Rep. Terry Roy

HB 458, (New Title) reestablishing the commission to study the assessing of power generation. The conferees met and agreed to make the following change: delete “recommend a solution” and replace it with “create recommendations.” This change will allow the commission that is the subject of the bill to consider multiple methodologies for the assessment of power generation stations.

Rep. Michael Vose

HB 518, (New Title) relative to the administration of occupations by the office of professional licensure and certification. HB 518 relative to the administration of occupations by the office of professional licensure and certification. The House acceded to the Senate position with an amendment that removed language related to digitally verifiable occupational licenses because the House heard testimony that the Department of Information Technology did not have the infrastructure to support it and there is not yet a clear standard for such licenses. In any case the status of someone’s license can be verified on the Office of Professional Licensing and Certification (OPLC) website. HB 518 changed a paragraph that was also changed in HB 1622 but in a different way. The amendment changes the HB 518 language to be identical to that in HB 1622 to avoid a conflict. The amendment to HB 518 also included the language from amendment 2024-1610h to SB 485 requiring that rules defining what constitutes military education, training, or service acceptable for each military occupational specialty (MOS) related to specific regulated occupation or profession. This is for occupations and professions not under OPLC. The language from that amendment was lost when the Senate non concurred on the House changes to SB 485 that were not related to this amendment.

Rep. Tony Lekas

HB 1018-FN, (New Title) relative to on-premise and off-premise liquor licenses and relative to land in current use. The conferees decided that allowing land owners of land in current use to still get the extra discount as long as they allow recreational use of their posted land was acceptable, as the underlying liquor bill is very important to both the on and off premise liquor licensee’s.

Rep. John Hunt

HB 1079, (Second New Title) relative to critical incident stress management team members and establishing a rural and underserved area educator incentive program for higher education and making an appropriation therefor. HB1079 was the base bill to which the text of SB495 and SB217 were added. SB495 was voted into interim study by House HHSEA while House Education amended SB217 but it failed in House Finance. The committee of conference unanimously agreed to accept HB1079 as introduced to House ED&A, delete the Senate version of SB495 because there were too many unanswered questions from the House side and the House version of SB217 as passed through House Education. SB217 establishes a grant program for teachers in an underserved areas and it was the committee’s position that this would only occur if funded in the biennial budget.

Rep. Jaci Grote

HB 1091, relative to the financing of political campaigns. This campaign finance reform bill has minor amendments by the Senate. The conferees agreed on a small change moving Senate campaigns from being categorized with all down ticket campaigns, to being on par with the Executive Council.

Rep. Steven Smith

HB 1127, (New Title) relative to the revocation and suspension of drivers' licenses and to invalidating out-of-state driver's licenses issued to undocumented immigrants. The Senate amended HB 1127 to include language from SB 358 (invalidating out of state drivers' licenses issued to undocumented immigrants). SB 358 failed on the House floor so an amendment to fix the bill and allow it to apply to the people it intended to could not be introduced. Key parts of that amendment were offered in the conference but the Senate would not agree. The House, in turn, would not agree to returning the original language to the House floor. The committee recessed twice at the request of the Senate in hopes of a solution but none came. Ultimately, the committee agreed to remove the SB 358 language and sign off on the original HB 1127.

Rep. Tom Walsh

HB 1195, relative to allowing school districts to approve different apportionment methods for school administrative unit costs. This bill allows school districts to approve different methods for school district administrative costs. The House conferees agreed to accede to the Senate version by adding an exception that the proposed method of apportionment change shall be adopted only if there is a majority affirmative vote in each school district in the school administrative unit.

Rep. Rick Ladd

HB 1197, (New Title) relative to criminal background checks and relative to insurance coverage for intra-uterine insemination. The conferees from the House and Senate agreed to the removal of one line from the Senate version of SB 558. Specifically, it removed the line indicating that the procedure was "medically necessary". The bill continues to require that the procedure be covered for all women, and the stricken line does not impact the function or intent of the bill. The result is the House accede to the Senate Amendment, with further Amendment.

Rep. Terry Roy

HB 1202-FN, (New Title) relative to the issuance of permits for the alteration of driveways exiting onto public ways and relative to the definition of disability or special needs under the child care scholarship program. This legislation came from the work of the Special Committee on Housing, and the House conferees agreed to the Senate position on HB 1202. The Senate amended the House bill to lengthen the time DOT had to process a major driveway access permit from 30 to 60 days. In doing so, the Senate removed, and the department agreed, that they would no longer need four new positions to process those driveway access permits. The additional 30-day review time frame will save more than \$750,000 for the years 2025-2027. The Senate did add a non-germane amendment relative to the definition of special needs under the childcare scholarship program. The conferees were told that the increase in spending to fund this program until the next budget would be less than \$300,000 and most likely less than \$200,000.

Rep. Mark McConkey

HB 1215, (Second New Title) relative to development approvals and appeals, and allowing the town of Hampton to discontinue a particular highway in order to lease that property. The conferees met and discussed the bill's attributes with particular focus on the senate amendment as the underlying bill passed unanimously out of committee and out of the House on consent. The Senate amendment asks the General Court to enable the town of Hampton to hold a vote after several public town meetings, to discontinue the use of and subsequently lease for 99 years to the sole abutter the land in Hampton Beach that is currently known as D street. Why does the General Court have to get involved in this matter? Two reasons are: 1) RSA 231:43 authorizes a vote of the legislative body of a municipality to discontinue a road by a town meeting. However, because of RSA 41:11-a which clearly stipulates that a municipality has the authority to lease town owned property for up to one year by a vote of the Select Board and up to 5 years without a town wide vote. 2) Even with a special town meeting and vote to do so NO municipality has the authority to lease out town owned property for more than 5 years. Therefore, we the General Court have to enable the town of Hampton to take this action if and only if the public hearings and the deliberative body agrees to do so by March 10, 2025 The House conferees believe that there is already a precedent set in limited situations in which the General Court steps in to enable a project to go through. The Senate indicated during their public hearing on this bill that various stakeholders from the Town of Hampton testified in support of this change. The House conferees believe that shutting down 1/10 of a mile of D Street will help revitalize the Hampton Beach boardwalk area and will lead to millions of dollars of economic growth in the region. The House acceded to the Senate's position on HB1215.

Rep. Joe Alexander

HB 1236, (Second Title) establishing a pilot recruitment and retention program within the department of health and human services and relative to the income eligibility for "in and out medical assistance" under the state Medicaid plan. The House requested a committee of conference to fully understand the Senate amendment. After meeting, and since the amendment was good and needed the House conferees agreed to the Senate version.

Rep. John Hunt

HB 1241-FN, (New Title) relative to the regulation of money transmitters and relative to license applications and renewals for certain consumer credit entities. The conferees agreed to pass the bill with the deletion of the Senate amendment relating to secondary ticket exchanges, ticket issuers, and resellers. And amending the public deposit investment pool law to allow the investment advisor selected by the state treasurer and advisory committee shall “strive” to place funds ordinarily held by the public deposit investment pool in bank deposits with state or federally chartered banks that are eligible to accept deposits of public funds under RSA 6:8, I and 6:8, I-a.

Rep. John Hunt

HB 1243, (New Title) revising the laws relative to retail installment sales of motor vehicles, and relative to the sale of a vehicle to a Massachusetts resident. The underlying banking bill recodified the auto financing statute, the Senate amendment was agreed by the House conferees.

Rep. John Hunt

HB 1259-FN, (New Title) relative to property and casualty insurance laws administered by the insurance department; and making an appropriation to the department of environmental services to fund regional drinking water infrastructure. After reviewing the Senate amendment, it was determined that it was unnecessary, so the Senate acceded to the House position.

Rep. John Hunt

HB 1265, (New Title) relative to the penalty for failure to file school expenditure reports, relative to certain adequacy grants, and requiring mandatory reporting by school districts of school expenses. The House accedes to the Senate version of HB1265 as amended by the committee of conference. This legislation requires school districts to post mandatory reports of school expenses, including average cost per pupil, average teacher salaries, and top administrator salaries. It also creates a civil remedy for the enforcement of this requirement. For consistency and accuracy of data in the district reports, the department provided information identifying the expenses to be included.

Rep. Rick Ladd

HB 1292-FN, (New Title) relative to coverage of children under the state retiree insurance plan and relative to federal immigration enforcement. The conferees met and agreed to adopt the House version of HB563. The language removes the overly broad requirement for law enforcement to assist with Federal immigration law. The language in the bill now only requires law enforcement to honor criminal detainees that are discovered subsequent to someone being arrested for a violation of New Hampshire law. Furthermore, the language specifically prohibits law enforcement from questioning people about their immigration status. The bill does not prohibit any town from adopting an ordinance or resolution welcoming immigrants to their community. As stated, the bill only prohibits towns from ordering their law enforcement to ignore requests from immigration to either notify or temporarily hold someone already in custody who is wanted by immigration for either being a deportable person, which means they have already met the threshold requirements and orders exist to deport them; or they are wanted on a criminal detainer for being suspected of, or charged with committing another crime in the United States in a different jurisdiction. United States Department of Immigration and Customs Enforcement has specifically asked under the current Administration, that localities refrain from adopting any laws or ordinances that would prohibit cooperation with ice. They say that doing so not only interferes with their ability to carry out immigration law, but also puts citizens and other immigrants in danger by allowing known criminals and dangerous offenders to remain in our communities. This bill honors our long tradition of welcoming immigrants, while allowing our federal partners to carry out the laws as set by congress.

Rep. Terry Roy

HB 1313-FN-L, relative to access to the voter checklist by candidates. This bill establishes procedures and fees for obtaining a copy of the voter checklist. The Senate version changes language making the format of the information less specific, as long as it conforms to the guidelines established in the House version.

Rep. Steven Smith

HB 1358, (Second New Title) relative to tenant and contract manufacturers of beer, wine, and liquor; allowing pharmacists to administer influenza, COVID-19, and other FDA licensed vaccines without explicit approval from the general court; and, restricting the purchase of real property on or around military installations. The title is incorrect, this bill did not contain any pharmaceutical legislation. The House in the end, agreed to a chaptered study committee on restricting purchases of real property on or around military installations.

Rep. John Hunt

HB 1369, relative to the verification of voter rolls every 4 years. This bill establishes verifying the voter checklist every 4 years. The Senate changes a 4 year look back when verifying to a 6 year look back.

Rep. Steven Smith

HB 1370-FN, (New Title) relative to eliminating voter identification exceptions. This bill removes any exceptions for proving voter identification. This bill also removes the voter affidavits as proof of identification and repeals the procedures for affidavit ballots and creates a judicial review or data verification process for persons aggrieved by the decision of an election official which denies that person the opportunity to vote. The amended version provides that once the voter has called the hotline, they must be taken care of within 20 minutes, or they may vote anyway.

Rep. Steven Smith

HB 1380-FN, (New Title) relative to brew pub licenses, relative to insurance cost-sharing calculations, and relative to receipt of pharmaceutical rebates by insurers and pharmacy benefits managers. After several meetings, the Senate finally agreed to remove the pharmaceutical amendment that was resolved in a different bill.

Rep. John Hunt

HB 1386-FN, relative to prohibiting the disposal of lithium-ion batteries in solid waste landfill facilities, composting facilities, or incinerators. The conferees met and agreed to adopt amendment 2024-2146h to the Senate version of HB 1386. The amendment cleans up some drafting errors that occurred when the Senate made their changes to the House version. The adopted amendment removes an erroneous and duplicative definition of the term “computer,” makes some corrections to typographical errors and adds back in the section to repeal RSA 140-M:27, IV.

Rep. Judy Aron

HB 1400, (Third New Title) relative to residential parking spaces, landlord-tenant law, unauthorized occupant evictions, and zoning procedures concerning residential housing. The House acceded to the Senate position on parking with amendment #2024-2286s. The amendment does a few things: 1) Compromises on the House position on parking. The House passed HB1400 on consent earlier this year that would require municipalities not regulate more than 1 parking space per unit. The Senate amended it to 2 parking spaces. The COC agreed to a position of 1.5 spaces for studio and one bedroom apartments and 1.5 spaces for every unit in multi-family developments over 10 units. This is a commonsense change that allows for developers to plan accordingly for the number of spaces they believe they need while also allowing municipalities discretion in the number of spaces required for any building up to 10 units. The House also included language that allows for alternative parking solutions. This language would enable a developer and municipality to have a conversation about other possible locations for parking nearby proposed multi-family or single family developments and the municipality consider a number of factors when evaluating a number of parking spaces needed. 2) The Senate added language that was a careful compromise between tenants rights advocates and housing providers that would provide a remedy for housing providers in situations where there is a dispute around who is living in the unit. The House agreed with most of the language but felt that there needed to be clear language in the bill that gave law enforcement the right to enforce the criminal trespass statute and the arrest and prosecution of a squatter either in an apartment or an owner occupied dwelling. Additionally, the House feels This is not a tool for law enforcement to use to circumvent an arrest for burglary or criminal trespass, if probable cause exists , nor is it to be used as a defense. This language is a right afforded to the non-rental owner to use as an option for relief of a violation of RSA 635:1 or 635:2. 3) The House amended language to allow municipalities to create a tax cut for those that convert office spaces to residential developments. This language sunsets in 2035. The House also added language that would empower local legislative bodies and planning boards to collaborate more effectively when considering “qualifying structure” under the RSA79-E:4-d tax cut. The House conferees acceded to the Senate version of HB1400 with these changes.

Rep. Joe Alexander

HB 1573-FN, (Third New Title) relative to out-of-home placements for children. Both House bill 1573 and Senate bill 417 were concerned with placement of children outside their homes. Using language from various, previous versions of HB 1573 this bill outlines the manner in which facilities will be evaluated for placement of New Hampshire children, describes the frequency and manner of on-site visits, and makes an appropriation to fund personnel and travel of department members for the purposes of enhancing oversight.

Rep. Mark Pearson

HB 1585, (Third New Title) relative to the position of certified assisted living medication aide and relative to the state loan repayment program for qualified nursing professionals, and making an appropriation therefor. The Committee of Conference on HB 1585 met on June 4, 2024. Everyone from the House and Senate agreed that the underlying bill was important and necessary. The bill would authorize Certified Assisted Living Medication Aides (CALMA) the ability to administer non-injectable medications in specified settings. Since the COVID Pandemic especially, the shortage of help in assisted living facilities in New Hampshire has been a major problem and the need for assistance in the dispensing of medication has been critical. This program initially cost no money. The Senate had attached an appropriation to the bill, however, which required \$300,000.00 to be placed in the state loan repayment program for qualified nursing professionals.

House conferees saw this as a possible obstacle for the full House to concur and expressed this concern to the Senate conferees. The Senate conferees refused to change their position and, recognizing the value of the overall bill and the CALMA issue, the House conferees acceded to the Senate position.

Rep. Wayne MacDonald

HB 1596-FN, requiring a disclosure of deceptive artificial intelligence usage in political advertising. This bill establishes penalties for the use of AI in generating false information for campaigns. The conferees agreed on language that protects inadvertent users, or people who do not know that they are reposting fake material.

Rep. Steven Smith

HB 1600-FN, (New Title) establishing a committee to study the aggregation of electric customers by municipalities and counties. The Senate version of this bill changed its substance into a legislative study committee. Conferees decided that such a committee would be unlikely to produce a meaningful report by November 1, 2024. The final agreement was to preserve two sections of the House bill – one, a technical correction to RSA 53-E and the other the effective date. The third section of the original bill was removed due to uncertainties and concerns about an expansion of net metering.

Rep. Michael Vose

HB 1616-FN, (New Title) relative to parental consent for student participation in Medicaid to schools program and establishing a pilot recruitment and retention program within the department of health and human services. The House accedes to the Senate version, as amended by the committee of conference. As amended in conference, the bill establishes a pilot recruitment and retention program in the Department of Health and Human Services. Pilot program grant funds shall be used to proactively address vacancy rates, fluctuations experienced in census populations, acuity of care and reliance on contracted staff at the Sununu Youth Services Center and at the Hampstead Hospital Residential Treatment Facility.

Rep. Rick Ladd

HB 1623-FN, (New Title) relative to involuntary retirement or decommissioning of electricity generators. The House conferees, after a thorough discussion proposed amendment language, agreed to adopt the Senate version of the bill. Conferees could not agree on new language to add statements on energy reliability, affordability, and price stability to state energy policy. The agreement between the bodies preserved language that slows the state to intervene on behalf of a generation plant facing premature closure due to regulatory overreach.

Rep. Michael Vose

HB 1633-FN-A, relative to the legalization and regulation of cannabis and making appropriations therefor. The House was able to get some concessions from the Senate, which includes edibles in automobiles for passengers, increasing possession from the current law of $\frac{3}{4}$ of oz to 1ounce. Changing the date for the medical marijuana providers becoming for profit, and an additional ATC member for the oversight commission.

Rep. John Hunt

HB 1665-FN, (New Title) relative to student eligibility for education freedom accounts and the scholarship organization's costs of administering the program, extending phase-out grants for education freedom accounts, and revising the definitions of average daily membership in attendance and average daily membership in residence. The conferees support the Senate version of the bill with the following changes: in section 1 of the bill, change 400 percent of the federal poverty guidelines to 425 percent of the federal poverty guidelines; and remove section 5 of the bill regarding school funding; ADMA and ADMR for home educated pupils and pupils participating in the EFA program.

Rep. Rick Ladd

HB 2024-FN, (Third New Title) relative to the state 10-year transportation improvement plan; relative to adding a speed limit of 45 miles per hour on rural highways; relative to disability pensions for public safety employees who are victims of violence; and making a capital appropriation to the department of corrections toward the replacement of the New Hampshire state prison for men. The House conferees agreed with the Senate to adopt the 2025-2034 10-year transportation plan, with amendment. Adding certain projects to the 2025-2034 10-year transportation improvement plan, removes certain projects from the 2025-2034 10-year transportation improvement plan, increases funding for certain projects in the 2025-2034 10-year transportation, requires that all rail removed from a portion of the Conway Branch rail line be used to offset construction costs of that portion's rail bed, reclassifies Continental Boulevard in the Town of Merrimack as a Class V highway beginning July 1, 2029, adds a speed limit of 45 miles per hour on rural highways and makes a capital appropriation to the Department of Corrections toward the replacement of the New Hampshire state prison for men.

Rep. Mark McConkey

COMMITTEE OF CONFERENCE REPORTS NOT SIGNED OFF SENATE BILLS

SB 84, (Second New Title) repealing certain task forces, study committees, and study commissions, repealing the John G. Winant memorial commission and making the maintenance of the memorial a duty of the joint legislative historical committee, and establishing a committee to study the appeals process administered by the environmental councils established under RSA 21-O. The House conference members offered an amendment which the Senate members rejected and modified. The House conferees chose instead to remain firm on the original House position for which the Senate had no response and no agreement was therefore reached.

Rep. Vanessa Sheehan

SB 354-FN, relative to insurance cost-sharing calculations. The House and Senate could not get together on an agreement, so there is no bill.

Rep. John Hunt

SB 534-FN, relative to campaign finance. This bill is largely incorporated in HB1091 and was not needed.

Rep. Steven Smith

HOUSE BILLS

HB 463-FN, (New Title) relative to the establishment of an election information portal and makes an appropriation therefor. A large allocation was added by the Senate and no agreement could be reached.

Rep. Steven Smith

HB 468-FN-A, (New Title) establishing a commission to recodify the education laws and making an appropriation therefor. At 1:00 PM on June 3, 2024, the Committee of Conference on HB 468 met. From the House were Representatives Weyler, Emerick, Heath, and Kate Murray. From the Senate were Senators Gray and Rosenwald. The Senate version added many details that the House members objected to as complicating a straightforward bill. The members could not agree on any compromise. The House members are united on letting the Committee of Conference die, with no result or report.

Rep. Kenneth L. Weyler

HB 1069, (New Title) relative to material subject to disclosure under the right-to-know law. The House and Senate conferees appeared for the conference. However, during discussion the Senate conferees made it clear that they wanted to kill this bill and would nonconcur even if the House agreed to accept the bill as passed by the Senate. Therefore, there was no agreement and the bill failed.

Rep. Bob Lynn

HB 1223-FN, (New Title) creating local options for games of chance. The Senate and House members met briefly to consider minor, but improved language for legislation which creates local option for the operation of games of chance in municipalities. Of note, two sections were added to clarify the wording on ballots for municipalities with and without current games of chance in operation. Additional clarification is made as to operators already in operation or those who have applied to the lottery commission. All conferees appeared to be in agreement, however the report was not ultimately agreed by all.

Rep. Len Turcotte

HB 1298-FN, relative to the definition of part-time teachers. The House accedes to the Senate version as amended by the committee of conference. As amended in conference, the bill only provides adjunct faculty certificate eligibility to those who work as a teacher on a part time basis for no more than 20 hours per week, and who are employed or contracted as a faculty member by an institution with either the CCSNH or the USNH. The faculty member requesting adjunct authorization shall be required to seek a criminal history record check clearance. As amended, this bill would have enabled faculty from NH public post-secondary institutions to provide instruction such as, but not limited to, concurrent and dual enrollment courses in public schools. Unfortunately, not all House conferees agreed and the bill failed.

Rep. Rick Ladd

HB 1521, (New Title) relative to recovery houses. While the conferees agreed that clarifying the zoning and other regulatory language for recovery houses was important, and that the state needs more of them, spread throughout the state, we were unable to agree on a method of encouraging this. The Senate had imposed a percentage of population limit that would require a vote of the legislative body for new recovery houses – immediately in Manchester, and soon in Nashua. The House realizes recovery houses need to be located in fairly dense communities where services and jobs are available; a limit for certified recovery houses in Manchester and Nashua seems more likely to bring in uncertified and under the radar houses than to promote recovery houses in other communities. No agreement was reached.

Rep. Carol McGuire

HB 1593-FN, (Second New Title) making an appropriation to the department of health and human services to support recreational activities for individuals with developmental disabilities and relative to the uncompensated care and Medicaid fund. This bill would have changed payments to hospitals to 93 percent of the money collected pursuant to RSA 84-A. The House agreed to the 91 percent. Unfortunately, the Senate also wanted 5.7 million dollars in an allocation which was never vetted any House committee.

Rep. Steven Smith

HB 1695, relative to the release of student personally identifiable information. The House accedes to the Senate version, as amended by the committee of conference. The Senate version as amended in conference changes the release of personally identifiable information and data from “within 14 school days of the release date” to “14 school days before the release date.” Amending language also changes the tense of the word “was” to ensure information and data to be released “is” done after parent and student consent in accordance with FERPA. Unfortunately, after we thought there was agreement, there was not.

Rep. Rick Ladd

COMMITTEE MEETINGS

FRIDAY, JUNE 7

ASSESSING STANDARDS BOARD (RSA 21-J:14-a), NH Department of Revenue Administration, Training Room, 109 Pleasant Street, Concord

1:00 p.m. Subcommittee work session.

MEMBERS' NOTICES

The following notices are published in the House Record as a courtesy to the member(s) requesting publication. These are not official public notices and will be limited to legislative policy or legislative social activities and political meetings or events. Publication should not be construed as support for either the events listed or the views espoused by the individual or organization sponsoring the event.

All Representatives are invited to a Bible Study and Prayer, during the Lunch Break on Session Days. We will meet in LOB 104 with Pastor Peter Chamberland for this time together. Come and be refreshed both physically and spiritually during our lunch hour. Looking forward to seeing you there!

Rep. Deb Hobson

Most occupational licensing boards have members of the public serving on them. Those board members are intended to represent the public, the customers of the professions being licensed. The Office of Professional Licensure and Certification (OPLC) has difficulty filling those positions because most people don't even know they exist and OPLC does not have a good way to advertise. As representatives we know many people in our districts, so Representatives are asked to let citizens who might be interested in serving on a board to contact Lindsey B. Courtney, Executive Director, at lindsey.b.courtney@oplcln.gov. Alternatively, they may apply online at <https://www.oplc.nh.gov/interested-becoming-oplc-board-member>.

Reps. Tony Lekas and Jaci Grote

We hope you'll join us **Monday, June 17th 10:00 a.m. - 1:00 p.m.**, as we discuss the importance of higher education research and hear firsthand from businesses that partner with UNH in research and education. The event will include a short presentation, a tour of the facility, followed by lunch and conversations with local businesses and students working and learning at UNH. UNH Showcase Day: John Olson Advanced Manufacturing Center, 121 Technology Dr., Durham, NH 03824.

Rep. Marjorie Smith

NOTICE

The House Clerk's Office is accepting orders for the **2023 and 2024** hardcover **Permanent House Journals**.

Anyone who was a **New Hampshire Legislator for the 168th General Court** and all state agencies are entitled to one House Journal at no charge, **upon request**. All others interested in obtaining a House Journal, as well as any legislator or state agency requesting additional copies, will be charged for that copy. We estimate the cost for paid volumes to be approximately \$65 each. In addition, if the volume is to be mailed, there will be a \$5.00 shipping & handling charge. Those who order paid copies will be notified **and billed** when the House Journals are ready for distribution. **DO NOT** send any money now.

In an effort to contain costs, the number of House Journals printed will be determined by the number of advance orders received. **Extra copies will not be ordered.**

Please note that by placing an order for a House Permanent Journal for the 168th General Court biennium, it will be for two House Journals, one for the year 2023 and one for the year 2024.

To place an order, please send information via email to: teresa.preston@leg.state.nh.us

or mail to: Teresa Preston, Journal Clerk
NH House of Representatives
Room 317, State House
107 North Main Street
Concord, NH 03301
