

HOUSE RECORD

First Year of the 162nd General Court Calendar and Journal of the 2011 Session

Vol. 33

Concord, N. H.

Wednesday, February 9, 2011

No. 16

HOUSE JOURNAL No. 4 (cont.)

Wednesday, January 26, 2011

Rep. Tucker moved that the House adjourn.
Adopted.

CLERK'S NOTE

The House Session scheduled for February 2, 2011 was cancelled due to weather. The House remained in recess from the Session of January 26, 2011.

HOUSE JOURNAL No. 5

Wednesday, February 9, 2011

The House assembled at 10:00 a.m. and was called to order by the Speaker.

Prayer was offered by House Chaplain, Reverend Roger Boucher of Gilmanton Iron Works. Almighty God, from whom all authority comes, we ask that You enlighten with Your wisdom all those appointed to positions of authority today. Give us a spirit of responsible obedience to the normative principles that build and sustain the good life for our citizens. Keep us focused on the truths that are permanent and that matter and promote life, liberty and the pursuit of a common good. Grant us a spirit of discernment that keeps us from the traps of vanity, fear and singular power, for it is no small task to proceed from one uneasy compromise to another and to arrive at a political order built on permanent truths. We have only to look about the world, Lord, to witness what tragic ends come from the mere assembly of individual radical appetites. Make of us a legislative community that respects only the highest of human ideals, tough as granite, and guide us, this day, with a clarity that always sees the good and the true. We ask this in Your great name. Amen.

Representative Lisa Scentsas, member from Nashua, led the Pledge of Allegiance.

Representative James Garrity of Atkinson led the singing of the National Anthem.

LEAVES OF ABSENCE

Reps. Ronald Belanger, Berube, Julie Brown, Coughlin, Donovan, Dowling and Flanders, the day, illness.

Reps. Beattie, Benn, Eaton, Larsen, Marcus, Peckham, Pelletier and Kevin Sullivan, the day, important business.

Rep. Pantelakos, the day, death in the family.

INTRODUCTION OF GUESTS

Wendy Thompson, a student at Kearsarge Regional High School, Page for the day.

MOTION TO VACATE

Rep. Tucker moved that the House vacate the references of HBs 158, 287, 374, 379, 495, 513, 584 and 628.

Adopted.

The Speaker referred HBs 158 and 513 to the Committee on Judiciary;

HB 287 to the Committee on Public Works and Highways;

HBs 374 and 379 to the Committee on Science, Technology and Energy;

HB 495 to the Committee on Environment and Agriculture;

HB 584 to the Committee on Municipal and County Government, and

HB 628 to the Committee on Criminal Justice and Public Safety.

MOTION TO SUSPEND HOUSE RULES

Rep. Kreis moved that the last sentence of House Rule 38(e) be suspended to allow a bill to be withdrawn.

Adopted.

MOTION TO WITHDRAW

Pursuant to House Rules 38(e), Rep. Kreis moved that HB 523 be withdrawn.

Adopted.

PETITIONS

Petitioner Representative Lars Christiansen of Hudson, on behalf of the voters of the town of Hudson school district, seeks redress relative to a dispute with the State of New Hampshire.

The Speaker referred the Petition to the Committee on Redress of Grievances.

CONSENT CALENDAR

Rep. Bettencourt moved that the Consent Calendar with the relevant amendments as printed in the day's House Record be adopted.

HB 130, establishing an additional method for a school to demonstrate that it provides the opportunity for an adequate education, removed by Rep. LaCasse.

HB 87, relative to disqualification of moderators, removed by Rep. Drisko.

HB 140-FN, establishing an exemption from the civil filing fee surcharge, removed by Rep. Horrigan.

HB 180, relative to criteria for registration as a lobbyist, removed by Rep. Watrous.

HCR 3, urging increased consideration and preservation of local authority in international

trade and investment agreements, removed by Rep. Weed.

HCR 4, urging the United States Nuclear Regulatory Commission to permit New Hampshire to relicense nuclear power plants, removed by Rep. Manuse.

HR 6, condemning the taking of a private business by a foreign government, removed by Rep. Gagnon.

Consent Calendar adopted.

HB 168, establishing a committee to study the juvenile delinquency and child in need of services statutes. **OUGHT TO PASS.**

Rep. Franklin F. Gould for Children and Family Law: This bill establishes a study committee to review the statutes relative to juvenile delinquency and children in need of services (CHINS). These statutes were established at the same time in the late 1970's. Their effectiveness has not been reviewed since, and with the potential to streamline services and develop best practices, a study at this time makes sense. Vote 16-0.

HB 182, relative to the definition of a child in need of services. **INEXPEDIENT TO LEGISLATE.**

Rep. Jeffrey D. Oigny for Children and Family Law: This bill proposed a change to facilitate the earlier intervention for children considered for children in need of services (CHINS). The sponsor agreed that the subject matter would be best addressed if this bill was merged with HB 168. Vote 16-0.

HB 95, permitting an insurer to operate a health maintenance organization as a line of business. **OUGHT TO PASS.**

Rep. Donald H. Flanders for Commerce and Consumer Affairs: This bill permits an insurance company licensed in this state to operate a health maintenance organization, either directly or through a subsidiary or affiliate, as a line of business under their license. Vote 14-0.

HB 129, relative to the licensure of attorneys as real estate brokers by the real estate commission. **INEXPEDIENT TO LEGISLATE.**

Rep. Sean M. McGuinness for Commerce and Consumer Affairs: This bill proposes that any attorney at law in good standing in this state shall qualify for real estate broker licensure without being required to comply with the educational requirements, the apprenticeship requirements or the examination requirement prescribed by RSA 331-A. The testimony in favor of this bill does not persuade the committee that attorneys, by virtue of their general law degrees, should be exempted. Further, the licensing statute already provides attorneys with a qualified exemption in connection with the performance of their duties as an attorney and the administrative rules allow for equivalent experience to be substituted for educational requirements. The committee finds that attorneys who choose to practice licensed real estate brokerage should remain subject to the statute. No special class or profession ought to be exempted from compliance when engaged in the general practice of real estate brokerage in this state based upon a presumption of competency. Vote 14-0.

HB 142-FN, relative to sales of artificial flowers and miniature flags. **OUGHT TO PASS.**

Rep. David J. Palfrey for Commerce and Consumer Affairs: This bill repeals the prohibition on the sale of miniature flags by street vendors. Under current law, the American Legion, the Veterans of Foreign Wars, the Disabled American Veterans, United Spanish War Veterans and other recognized patriotic, fraternal, labor or military organizations chartered in this state are exempt from the prohibition as well as bona fide merchants in their stores or other business establishments. This bill will repeal the statute altogether. Vote 14-0.

HB 143, relative to the sale of stove polish. **OUGHT TO PASS WITH AMENDMENT.**
Rep. David J. Palfrey for Commerce and Consumer Affairs: This bill repeals the sale of inflammable stove polish intended for domestic use. This was an early consumer protection statute established in 1921. It may have stemmed from a NH supreme court decision in 1909 that involved a claim that stove blacking had been represented as safe for use on a warm stove. The product at that time contained naphtha, a highly explosive substance. This product is no longer being manufactured or sold. Vote 14-0.

Amendment (0139h)

Amend the bill by replacing all after the enacting clause with the following:

- 1 Repeal. The following are repealed:
 - I. RSA 158:20, relative to the sale of stove polish.
 - II. RSA 158:21, relative to the sale of certain inflammable polishes.
 - III. RSA 158:22, relative to penalties for the sale of certain polishes.
- 2 Effective Date. This act shall take effect January 1, 2012.

AMENDED ANALYSIS

This bill repeals the prohibition on the sale of stove polish and related compounds used as polishes.

HB 79, relative to certification of dogs for law enforcement work. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Mark Warden for Criminal Justice and Public Safety: This bill simply adds the New England state police administrators compact to the recognized organizations that can certify dog training courses. Vote 11-0.

Amendment (0019h)

Amend RSA 508:18-a, I as inserted by section 1 of the bill by replacing it with the following:

I. The officer and the dog have completed training together and received certification from a nationally recognized organization required for police work or other law enforcement work *or from the New England State Police Administrators Compact*;

HB 67, expanding the duties of the school administrative unit oversight committee. **OUGHT TO PASS.**

Rep. Laura M. Jones for Education: This bill adds cooperative school districts to the list of what the school administrative unit legislative oversight committee already oversees. This will save time and money since an additional committee will not be needed. Vote 16-0.

HB 69, relative to the White Mountains community college academic center in Woodsville. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Rick M. Ladd for Education: The community college system of New Hampshire has seven colleges as well as four academic centers that provide post secondary learning opportunities to New Hampshire residents. In addition to its oversight authority of its colleges, divisions and departments, this bill clarifies community college board of trustees administrative oversight of the regional academic centers and renders the board of trustees the final decision on the closure of any community college or regional academic center. Vote 16-0.

Amendment (0030h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to the community college system of New Hampshire academic centers.
Amend RSA 188-F:1 as inserted by section 1 of the bill by replacing it with the following:

188-F:1 Community College System of New Hampshire Established. The community college system of New Hampshire is hereby established and made a body politic and

corporate, the main purpose of which shall be to provide a well-coordinated system of public community college education offering, as a primary mission, technical programs to prepare students for technical careers as well as general, professional, and transfer programs, and certificate and short term training programs which serve the needs of the state and the nation. The colleges of the community college system of New Hampshire are authorized to grant and confer in the name of the colleges all such degrees, literary titles, honors, and distinctions as other community colleges may of right do. The community college system of New Hampshire shall include, but is not limited to, colleges in Berlin, Claremont, Concord, Laconia, Manchester, Nashua, and Portsmouth. ***The community college system may also include regional academic centers that make quality educational opportunities accessible to New Hampshire residents.***

HB 112, relative to the required number of instructional days and instructional hours in a school district's calendar. **OUGHT TO PASS.**

Rep. Jeffrey L. St. Cyr for Education: This bill allows local school districts to set their own annual school calendar without the approval of the commissioner of education as long as the calendar is set for 180 days or the equivalent number of hours as determined in the department of education rules. This bill will allow local school districts flexibility in setting the calendar to meet the needs of the district such as setting the school calendar around a construction/renovation project. Local school districts still need to follow all rules of the department of education and state law when setting the annual school calendar. Vote 16-0.

CACR 1, relating to the election of state and county officers. Providing that state and county officers shall be elected in odd-numbered years. **INEXPEDIENT TO LEGISLATE.**

Rep. David Bates for Election Law: This CACR proposes amending the state's constitution to hold elections for state and county officers in odd-numbered years. The secretary of state is opposed to this legislation. The deputy secretary of state testified that if this change to the constitution were ratified, it would double the elections budget for the secretary of state's office and would put the state in constant campaign mode. The committee did not find a compelling enough reason to justify the additional cost the state would incur by adopting this amendment. Vote 18-0.

CACR 3, relating to initiative petitions. Providing that referenda to enact laws may be initiated by petition. **INEXPEDIENT TO LEGISLATE.**

Rep. Richard B. Drisko for Election Law: The committee was unanimous in its recommendations of Inexpedient to Legislate. The record shows that multiple examples of ballot petitions becoming law in other states have yielded many unintended consequences after passage. Vote 18-0.

HB 42, relative to the appropriate officials with whom to file for a primary. **OUGHT TO PASS.**

Rep. Regina M. Birdsell for Election Law: This bill will allow candidates for the office of state representative and delegates to party conventions to file for office with the secretary of state or their town clerk. This would make it more convenient for state representatives who are currently serving during the filing time frame. There is no cost to this bill and there is no opposition from the secretary of state and town clerks. Vote 18-0.

HB 73, establishing a process for recall of United States Senators from New Hampshire. **INEXPEDIENT TO LEGISLATE.**

Rep. David M. Pierce for Election Law: This bill, which would establish a process to recall our US Senators, is unconstitutional and would divert the legislature's attention away from the needs of our constituents. First, Art I, Sec. 3, Cl. 1 of the US Constitution provides without exception that each senator serves for six years. Justice Clarence Thomas wrote in a

1995 court opinion that because the US Constitution specifies the length of the terms of members of congress, the constitution denies the states any power to recall any member of congress. Too, the transcripts of the debates in 1787 and 1788 of the constitutional convention and the state ratifying conventions show clearly that the framers considered but rejected any authority for the states to recall members of congress. After considering this evidence, the bill's chief sponsor conceded that this bill is unconstitutional. Second, because this bill would allow any member of the legislature to file a recall petition, the committee thought it not unreasonable to believe that this bill would invite recall petitions in every legislative session. This would inevitably create a politically-charged circus atmosphere and divert attention away from the job the voters hired us to do. Vote 18-0.

HB 104*, relative to the date for the state primary election. **INEXPEDIENT TO LEGISLATE.*

Rep. Shaun S. Doherty for Election Law: The committee decided this bill is unnecessary at this time. The next time an election cycle will fall in a year when a short time period between the primary and general would occur is 2022. We feel it would be better to address the potential issue closer to that election and be able to look at it knowing the voting technologies that would be used in 2022. Vote 18-0.

HB 30*, relative to reciprocity for licensure by the board of veterinary medicine. **OUGHT TO PASS.*

Rep. Suzanne J. Smith for Environment and Agriculture: With the passage of HB 30, New Hampshire will join 33 other states in accepting the PAVE (Program for the Assessment of Veterinary Education Equivalence) examination in the licensure of veterinarians who have graduated from veterinary schools not accredited by American Veterinary Medical Association (AVMA). The cost of this exam is drastically less than the cost of the only currently accepted examination given by the Educational Commission on Foreign Veterinary Graduates (ECFVG). This, hopefully, will assist the state in attracting qualified veterinarians of both large and small animals. Vote 17-0.

Referred to the Committee on Executive Departments and Administration.

HB 93*, relative to medical documentation for a crossbow permit for a person with a disability. **OUGHT TO PASS.*

Rep. Betsy McKinney for Fish and Game and Marine Resources: This bill was a request of the fish and game department to allow nurse practitioners to sign paperwork for disability permits for Disabled Crossbow Permit Applications. Currently, only doctors may fill out the paperwork. The committee felt this was helpful to the applicants. Vote 13-0.

HB 195*, relative to special permits for transportation of deer. **OUGHT TO PASS.*

Rep. Lyle E. Bulis for Fish and Game and Marine Resources: This bill reduces the burdensome requirements of multiple deer tagging currently required of minors, property owners, and other special license holders whose licensing document does not bear tags. The requirement is reduced from three to two. This bill is at the request of the fish and game department. Vote 15-0.

HB 111*, relative to redispensing unused drugs. **OUGHT TO PASS.*

Rep. Donald L. LeBrun for Health, Human Services and Elderly Affairs: This bill adds "including manufacturer's samples" to Pharmacy Rule 318:58 which allows the redistribution of unused prescription drugs, (including manufacturers samples), that have not reached their expiration date, are contained in an unopened unit dose or other tamper-evident packaging and show no evidence of contamination. This will make it possible to also include manufacturer's samples as possible donated prescription drugs. Vote 17-0.

HB 51, relative to screening panel members for screening panels for medical injury claims. **OUGHT TO PASS.**

Rep. Gregory M. Sorg for Judiciary: This bill amends RSA Chapter 519-B, which requires and establishes the procedures to be followed by three-member panels to screen and make recommendations concerning suits alleging medical injury claims. It would clarify the existing undefined requirement that panel members be impartial by making them subject to the same qualifications for impartiality required of jurors, as set out in RSA 500-A:12. The committee unanimously agreed that such a requirement would assist litigants and prospective panel members alike by adding certainty to the process of self-evaluation, and thereby help ensure the fairness of the screening process. Vote 17-0.

HB 118, relative to reporting a person as medically unfit to drive. **INEXPEDIENT TO LEGISLATE.**

Rep. Gregory M. Sorg for Judiciary: This bill would amend the motor vehicle code by providing immunity from civil liability to any person who, "reasonably and in good faith" believing a person cannot safely operate a motor vehicle, reports such to the department of motor vehicles. The committee was not convinced by the testimony and written evidence that there is a significant problem of under-reporting of impaired drivers, or that there is significant risk of civil liability under present law, or that the proposed bill would act as an effective deterrent to litigious-minded persons. Vote 16-0.

HB 161, establishing standards for adequate service of process and establishing a commission to study service of process by laypersons. **INEXPEDIENT TO LEGISLATE.**

Rep. J. Brandon Giuda for Judiciary: This bill proposed a significant change to the service of process procedures in New Hampshire and also proposed a commission to study service of process by laypersons. The current service of process laws are simple and easily readable, with the majority of service being performed by county sheriffs. The proposal would significantly modify current service of process procedures and includes lengthy restrictions as to who may effectuate service and how service may be effectuated. The committee voted that the bill was inexpedient to legislate because, among other things: (1) there are no reported problems with the current service of process procedures, (2) the proposed law would make it more difficult to effectuate service, therefore increasing litigation and costs, (3) it is safer to have uniformed sheriffs effectuate service than unidentifiable civilians, and (4) no commission is needed to study a problem that does not exist. Vote 16-0.

HB 173, relative to service of process on commercial tenants. **OUGHT TO PASS.**

Rep. Peter L. Silva for Judiciary: This bill will allow a commercial landlord to serve notice of eviction or rent at the commercial property and by certified mail to the tenant. Presently, the landlord can only serve notice at the tenant's residence. This presents a problem when the property is in one location and the tenant is another. This bill assures notice is received. Vote 17-0.

HB 41, designating purple as the official state color. **INEXPEDIENT TO LEGISLATE.**

Rep. Jon F. Richardson for Legislative Administration: The color purple is one of a number of colored threads on the New Hampshire State Tartan including green 56, black 2, green 2, black 12, white 2, black 12, purple 2, black 2, purple 8, red 6, and purple 28. The description of the significance of the various colors is described on the state website as follows: "The colors in the set all have significance to the state. The purple represents the state's bird and flower, the purple finch and purple lilac; green represents the green of the forests; black represents our granite mountains; white represents the snow; and red represents all the state heroes." Because the colors are woven together to unify these many ideas, it was felt that it would be inappropriate to single out any individual color as being the most important. Vote 13-1.

HB 184, establishing a committee to study implementing day care services at the state house. **INEXPEDIENT TO LEGISLATE.**

Rep. Joe Duarte for Legislative Administration: The committee was unanimous in the opinion that the cost, regulatory and liability issues associated with establishing a fully operational day care facility at the State House were too great to be surmounted at this time. Vote 15-0.

HCR 5, urging that the United Kingdom return the Parthenon (Elgin) marbles to Greece. **INEXPEDIENT TO LEGISLATE.**

Rep. Cynthia L. Chase for Legislative Administration: The prime sponsor testified that it was now the opinion of those individuals who were supportive of this idea in the last legislative session that due to the disruptive state of affairs in Greece and the region generally at present that it would be preferable to defer this idea until a later time. The sponsor asked if the matter could be tabled. Since tabling would have no positive effect the more appropriate action was to recommend the resolution as inexpedient to legislate. Vote 12-2.

HB 38, relative to emergency use of public docks and piers. **INEXPEDIENT TO LEGISLATE.**

Rep. James P. Belanger for Municipal and County Government: This bill would mandate conditions placed on public piers and docks managed and controlled by local municipal ordinances. The result would be state control of local practices. Vote 16-0.

HB 70, relative to changes to town charters. **OUGHT TO PASS WITH AMENDMENT.**

Rep. James P. Belanger for Municipal and County Government: This bill brings into conformance with other municipalities those that were established by state statute vs. those by RSA 49 B. Vote 14-0.

Amendment (0046h)

Amend RSA 49-B:5-a, I(c) as inserted by section 1 of the bill by replacing it with the following:

(c) ***Within 14 days of receipt of such report the secretary of state, the attorney general, and the commissioner of the department of revenue administration shall notify the municipal clerk and the chairman of the charter commission, if any, of its receipt.*** Within 30 days of the receipt of said report ~~by~~ the secretary of state, attorney general, and the commissioner of the department of revenue administration~~[-they]~~ shall review the proposed charter, charter revision, or charter amendment to insure that it is consistent with the general laws of this state.

Amend the bill by inserting after section 1 the following and renumbering the original section 2 to read as 3:

2 Approval and Review. Amend the introductory paragraph of RSA 49-B:5-a, I to read as follows:

I. The municipal clerk shall file a report, ***which shall include the name and address of the clerk and the chairman of the charter commission, if any,*** with the secretary of state, attorney general, and the commissioner of the department of revenue administration as follows:

HB 86, relative to filling a vacancy among county officers. **OUGHT TO PASS WITH AMENDMENT.**

Rep. James P. Belanger for Municipal and County Government: This bill allows a county delegation to defer filling of vacancies for short periods when longer term replacements are imminent by election. Vote 16-0.

Amendment (0093h)

Amend the bill by replacing section 1 with the following:

1 Vacancies; County Officers. Amend RSA 661:9 to read as follows:

I. If a vacancy ***for a period of one year or longer*** occurs in the office of county sheriff, county attorney, register of deeds, or county treasurer, the members of the county convention shall fill the vacancy for the unexpired term by majority vote. ***If a vacancy for a period of less than a year occurs in any such office, the members of the county convention shall, by majority vote of the county convention, vote to either fill the vacancy or to leave the office vacant.***

HB 181, permitting the charter of a city, town, or school district which is in statute to revert to the control of the voters. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Betsey L. Patten for Municipal and County Government: Currently there are cities, towns or school districts that have local charters that were created by the legislature. Every time one of those political subdivisions wants to revise, amend or replace their charter the governing body or voters have to come to the legislature for action which then has to be ratified at the local level. This amendment would set up a process for those political subdivisions that do not have a local amendment process to use the provisions in RSA 49-B so that local control is instituted. The amendment also provides that the existing charter shall remain in effect until the voters choose to revise, amend or replace it under the terms of RSA 49-B. The committee voted unanimously to have the general court get out of the business of determining local issues. Vote 16-0.

Amendment (0104h)

Amend the bill by replacing section 1 with the following:

1 City, Town, or School District Charter; Reversion to Voters. Notwithstanding any provision of law to the contrary, the charter of any city, town, or school district that was established by the general court and which does not have a local amendment process shall hereby revert to the control of the voters of the city, town, or school district and such charter shall be governed by the provisions of RSA 49-B. The existing charter shall remain in effect until the voters choose to revise, amend, or replace it under the terms of RSA 49-B.

AMENDED ANALYSIS

This bill provides that the charter of any city, town, or school district that was established by the general court and which does not have a local amendment process, shall revert to the control of the voters of the city, town, or school district and such charter shall be governed by the provisions of RSA 49-B.

SB 11-L, relative to the police commission in the town of Hooksett. **OUGHT TO PASS.**

Rep. Betsey L. Patten for Municipal and County Government: In 1977, the voters of Hooksett approved the action taken by the General Court to create the Hooksett police commission. However, no provision to rescind the police commission was included in the legislation. SB 11 authorizes the town to have an article on the warrant that will allow the voters to have their say on this issue – whether to rescind or not. The nine members of the Hooksett council, the Hooksett police chief, the Hooksett police commission along with the four Hooksett representatives and twenty-four senators are all in agreement with the passage of SB 11. Vote 13-0.

HB 35-FN, authorizing the acquisition of certain dams in the Connecticut Lakes Headwaters Tract. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Andrew Renzullo for Resources, Recreation and Development: This bill authorizes the reacquisition of five dams on the Connecticut Lakes Headwaters Tract for \$1. These dams were built by New Hampshire fish and game on leased land some 40 years ago. The leases

have expired and ownership has technically reverted to the lessor. These dams were built with state funds. These dams have been operated and maintained by the State of New Hampshire since their construction. It would be a dereliction of the public trust not to conserve and preserve the state's interest in valuable assets. It should be noted that this bill specifically states that, except for the above mentioned \$1, it does not mandate or authorize any capital or other expenditures. The water bodies impounded by these dams are important recreational assets to the state. They provide important recreational opportunities and fish and wildlife habitat in the North Country. They are some of the best remote trout ponds in the state. One pond is a very unique fishery in that it is one of the few in the state where trout can overwinter. Sport fishing and the tourism it generates is one of the leading economic engines in the area where these lakes are located. Vote 16-1.

Amendment (0047h)

Amend the introductory paragraph of RSA 482:48, VII as inserted by section 1 of the bill by replacing it with the following:

VII. For, a consideration of \$1, the fish and game department is authorized to accept conveyance from the property owners of all water and property rights necessary to repair, maintain, and operate the following described properties for the purpose of improving and controlling the water rights for the benefit of the state. The property rights the fish and game department is authorized to acquire for the benefit of the state shall be exempt from taxation as long as the properties are held by the state. The fish and game department may transfer rights in these properties under RSA 482:51 to the department for purposes of repair and maintenance. With the exception of such \$1 consideration, nothing in this paragraph shall mandate or authorize the expenditure of any funds or capital relative to the provisions of this paragraph.

HB 45, relative to the Connecticut Lakes headwater citizens committee. **OUGHT TO PASS.**

Rep. Thomas J. Howard for Resources, Recreation and Development: The committee unanimously agreed adding a lease holder to the Connecticut Lakes headwater citizens committee would add another valuable voice with interests and experiences that would help the committee in its management of the property. Vote 16-0.

HB 55, adding a member to the exotic aquatic weeds and species committee. **OUGHT TO PASS.**

Rep. David H. Russell for Resources, Recreation and Development: This bill simply adds a representative of the New Hampshire Lakes Association to the exotic aquatic weeds and species committee. The lakes association should be working hand in hand with this committee. The committee is advisory to the New Hampshire department of environmental services (DES) in controlling and eradication of milfoil. The lakes association is also responsible for the lake host program. Vote 16-0.

HB 63, extending the instream pilot program for one year. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Lawrence M. Kappler for Resources, Recreation and Development: This bill is simply another year extension to the instream flow pilot program. Field work began in 2005 and has continued. The analysis needs data from three flow magnitudes for each bio-period in the streams and has proven to be a major task as they are weather controlled. The bill also extends the implementation date preventing the commissioner of New Hampshire department of environmental services (DES) from initiating or adopting rules prior to program completion. Vote 17-0.

Amendment (0038h)

Amend the bill by replacing section 3 with the following:

3 Instream Flow Pilot Program; Extension. Amend 2000, 242:5, as amended by 2001, 138:6, as amended by 2002, 278:6, as amended by 2003, 319.50, as amended by 2009, 201:21 to read as follows:

242:5 Report. The committee shall report its findings and any recommendations for proposed legislation to the senate president, the speaker of the house of representatives, the senate clerk, the house clerk, the governor, and the state library on or before December 15, ~~[2012]~~ **2013**.

Amend the bill by inserting after section 3 the following and renumbering the original section 4 to read as 5:

4 Instream Flow Pilot Program; Reporting Date Extended. Amend 2002, 278:2, III as amended by 2003, 319:48 as amended by 2008, 5:2 as amended by 2009, 201:19 to read as follows:

III. The commissioner of the department of environmental services shall initiate and adopt rules pursuant to RSA 541-A for other rivers designated under RSA 483:15 only after the adoption and implementation of the rules relative to protected instream flows pursuant to RSA 483:9-c for the Lamprey and Souhegan rivers and completion of the hearings and reports required under section 3, III(b) and (c) of this act, but not before December 1, ~~[2012]~~ **2013**.

HB 74, relative to the ticketing and season passes at Cannon Mountain. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Andrew Renzullo for Resources, Recreation and Development: This bill makes changes to the requirements for reduced rate season passes at Cannon Mountain aerial tramway and ski area. It simplifies the process and reduces the confusion among products and hence improves customer service. The bill eliminates the need for secondary school enrollment proof (with home schooling being so prevalent) while still requiring proof of age. The bill changes the age brackets of underage skiers to align the season pass and day ticket age brackets which are currently different. From a service perspective, it makes little sense to have different age brackets and different burdens of proof depending on which product a guest is looking to purchase. The Cannon Mountain Ski Area management does not expect any change in revenue. Vote 15-0.

Amendment (0058h)

Amend the bill by replacing all after the enacting clause with the following:

1 Resident Ski Rates; Reduced Rates. RSA 227:14 is repealed and reenacted to read as follows:

227:14 Reduced Rates. All season passes, including those for different age groups or military service, established by the department for the specific use of the winter facilities at Cannon Mountain aerial tramway and ski area shall be made available to any resident of this state at a 25 percent discount. For the purposes of this section, "resident of this state" means a person whose domicile is in this state. To qualify for the discount, a resident shall provide proof of residency and purchase the pass prior to December 15 of the year in which the pass becomes effective. Proof of residency shall include a state issued driver's license; a state issued I.D. card with a photograph or information including name, sex, date of birth, height, weight and color of eyes; a United States passport; an affidavit certifying residency from the municipal clerk of the purchasers' town or city of residence; or, for a person less than 18 years of age, proof of a parent's or guardian's residency provided by the resident parent or guardian. The commissioner of the department of resources and economic development shall make quarterly reports on season passes issued under this section to the fiscal committee of the general court, the senate president, the speaker of the house of representatives, and the governor and council.

2 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill makes changes to the requirements for reduced rate season passes at Cannon Mountain aerial tramway and ski area.

HB 131, relative to indemnification of volunteers performing duties in the state park system. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Peter S. Bolster for Resources, Recreation and Development: Presently, volunteers who supply much of the maintenance and up-keep of the state parks, forest reservation, trails or historic sites of the state are not adequately protected from law suits per opinion of the attorney general. This bill remedies this deficiency. The bill does not however indemnify against a criminal act. In addition the bill also extends the life of the State Park Advisory Council to 2016. Vote 13-0.

Amendment (0150h)

Amend the bill by replacing section 1 with the following:

1 Indemnification of Park Volunteers. Amend RSA 216-A:3-h to read as follows:

216-A:3-h Indemnification of Park Volunteers. Any ~~[person]~~ **individual, corporation, nonprofit legal entity, or individual who performs services for a nonprofit entity** who is recognized by the ~~[director, division of parks and recreation,]~~ **commissioner of the department of resources and economic development** as a ~~[park]~~ volunteer **and** who is under the **general** supervision of ~~[a park manager]~~ **authorized department of resources and economic development personnel**, and is actually performing assigned volunteer duties or activities at a state park, **forest, reservation, trail, or historic site**, shall be considered a state employee for the purpose of defense and indemnification from civil suits under RSA 99-D; provided, however, such a volunteer shall not be indemnified from any civil suit arising out of a criminal act.

Amend the bill by replacing section 4 with the following:

4 Effective Date. This act shall take effect upon its passage.

Referred to the Committee on Judiciary.

HB 183, renaming Mount Clay in honor of Wonalancet. **INEXPEDIENT TO LEGISLATE.**

Rep. Thomas J. Howard for Resources, Recreation and Development: The committee heard testimony from the prime sponsor indicating the bill was a "mistake" and would we please ITL. Apparently Mount Clay has already been renamed Mount Reagan through HB 82, Chapter 139 in 2003 session. Vote 12-0.

HB 76, authorizing the division of emergency services and communications to levy administrative fines on carriers that repeatedly overwrite the enhanced 911 database. **INEXPEDIENT TO LEGISLATE.**

Rep. Frank R. Holden for Science, Technology and Energy: The committee desires to have the most accurate E-911 database possible but believes that this can best be accomplished by all parties working together in the E-911 Commission. It is not clear that a system of fines would lead to the best possible result. The process of updating the database could use some refinement and that should be done by the E-911 Commission. Vote 16-0.

HB 410, extending the reporting date of the committee to study dispatch times within the enhanced 911 system and requiring quarterly meetings of the committee. **OUGHT TO PASS.**

Rep. Jacqueline A. Cali-Pitts for Science, Technology and Energy: This bill very simply extends the committee formed to review the 911 dispatch times formed last session by SB 428, Chapter 350. The purpose of this extension is to enable the collection and reporting of all pertinent data and to make appropriate recommendations based on the data. Vote 13-0.

HB 56, relative to proper observance of September 11, 2001. **OUGHT TO PASS WITH**

AMENDMENT.

Rep. Frank H. McCarthy for State-Federal Relations and Veterans Affairs: It is the intent of this bill to ensure proper observance of September 11, 2001. Federal statute declares September 11 as "Patriot Day." This bill requires that the governor shall annually issue a proclamation calling for a proper observance of September 11 in honor and remembrance of those who lost their lives on that day. The proclamation shall include but not be limited to the requirements of section 144 of public law 107-89. Vote 13-0.

Amendment (0029h)

Amend RSA 4:13-p as inserted by section 1 of the bill by replacing it with the following:

4:13-p Proper Observance of September 11, 2001. The governor shall annually issue a proclamation calling for a proper observance of September 11 in honor and remembrance of the people who lost their lives on September 11, 2001. The proclamation issued by the governor shall call on the people of New Hampshire to observe the day with appropriate ceremonies, including, but not limited to, the requirements of section 144 of Public Law 107-89.

HB 28, establishing a committee to study driver's license suspensions. **INEXPEDIENT TO LEGISLATE.**

Rep. John E. Tholl for Transportation: While the purpose of the bill is to form a study committee to study driver's license suspension, all of the testimony was not about studying license suspension, but about the single issue of the inclusion of license suspension as a major offense towards habitual offender status. The committee feels that a study committee is not warranted and that a bill drafted to address the issue expressed during the testimony would have been a more appropriate measure. Vote 11-0.

HB 78, relative to motor vehicle permit fee credits. **INEXPEDIENT TO LEGISLATE.**

Rep. John E. Tholl for Transportation: This bill would have required the department of safety to reprint all of the applications for registration blanks to include the required language. Tens of thousands of vehicles are registered each year necessitating a considerable cost to the state for reprinting the forms and/or for the rewriting of the computer software used to print registrations. The required information is already made available by the town clerks when a registration is transferred. In addition, the bill did not contain a fiscal note. Therefore the committee feels that the bill, although well intentioned, is not practicable and overly expensive. Vote 11-0.

HB 97, relative to operation of low-speed utility vehicles. **INEXPEDIENT TO LEGISLATE.**

Rep. Robert W. Williams for Transportation: This bill would modify the operation restriction of only driving 25 or under miles from the owner's residence or place of business. The low speed vehicle plate, the agricultural plate and the farm plate all have similar restrictions. The restrictions limit the use of the vehicles to farm and industrial use. This bill would violate the integrity and the reason for these low cost special plates. Vote 11-0.

HB 98, relative to low-speed utility vehicles. **INEXPEDIENT TO LEGISLATE.**

Rep. Robert W. Williams for Transportation: This bill would allow low speed utility vehicles with farm tractor plates to be used for personal use. This is totally contrary to what such vehicles should be used for. Low speed utility plates were approved solely for the purpose of meeting the needs of some farmers and certain businesses. Vehicles with agricultural plates (RSA 261:82) and farm plates (RSA 261:84) are prohibited from and not allowed to be used for personal use. To allow a low speed utility vehicle to be driven for personal use would be in conflict with the limitations placed on vehicles with farm plates or agriculture plates. Vote 10-1.

HB 116, relative to the rulemaking requirement for establishing operating restrictions on certain bodies of water. **OUGHT TO PASS.**

Rep. John A. Hikel for Transportation: This bill reduces regulations, speeds the process, and reduces the burden on taxpayers. It eliminates cumbersome rule making authority under RSA 541-A. Vote 11-0.

HB 117, allowing additional weight for vehicles using idle reduction technology in order to promote reduction of fuel use and emissions. **OUGHT TO PASS.**

Rep. Robert W. Williams for Transportation: This bill is pro-business, pro-environment and there is no fiscal note attached. This legislation mirrors current federal regulation. NH is under no obligation or mandate to enact this legislation. This bill will allow cost conscious, environmentally friendly truckers to regain the 400 lbs. of gross weight they lose when they utilize this technology. NH DOS, DOT and DES are all in favor of this bill. This bill will reward the independent trucker as well as the largest trucking firms for utilizing technology that they voluntarily purchased and installed on their vehicles to increase fuel economy and decrease emissions. This technology powers cab comfort devices when truckers are in our truck stops and/or neighborhoods adhering to their safety and rest requirements. Vote 11-0.

HB 148, relative to federal funding for motorcycle-only roadside checkpoints. **OUGHT TO PASS.**

Rep. John E. Tholl for Transportation: This bill provides that no entity in the state of New Hampshire shall accept federal funding solely for the purpose of setting up motorcycle only roadside checkpoints. This would be a clear example of discrimination against one group of citizens just because of what type of vehicle they use for their means of transportation. Vote 13-0.

HB 192, relative to commercial motor vehicle registration. **OUGHT TO PASS.**

Rep. Richard W Hinch for Transportation: This bill expands the authority of the division of motor vehicles to refuse or revoke the registration of a commercial motor vehicle. This bill was requested by the department of safety to keep us in compliance with federal motor carrier safety administration prohibitions. The director will therefore be authorized to suspend, revoke or refuse to renew the registration or permit of a commercial motor vehicle if the commercial carrier has been prohibited from operating by the federal motor carrier safety administration. Vote 12-1.

REGULAR CALENDAR

HB 101-FN-A, relative to industrial hemp and establishing an industrial hemp special program fund. **INEXPEDIENT TO LEGISLATE.**

Rep. Stephen J. Palmer for Environment and Agriculture: The federal government currently mandates that hemp not be grown in the United States. Therefore New Hampshire farmers are prohibited from growing hemp. There is now no law in Hampshire prohibiting the growing of hemp. Therefore, if the federal government removes its mandate, New Hampshire farmers are free to grow hemp. Additionally, the bill creates a bureaucracy to oversee the seed sales, growth and sale of hemp, cost unknown. Vote 11-7.

Rep. Dan McGuire requested a roll call; sufficiently seconded.

and the committee report was adopted.

Rep. Connie Soucy voted Nay and intended to vote Yea.

HB 136-FN, repealing the uniform athlete agents act. **OUGHT TO PASS.**

Rep. Spec Bowers for Executive Departments and Administration: This bill repeals RSA 332-J, which establishes the requirement to register as an athlete agent. Only six people have registered as athlete agents in five years, none at all in the last two years. There have been zero enforcement actions. It is not needed because athletes, parents, and coaches are knowledgeable about the rules and are fully able to exercise individual responsibility. The statute is harmful in that it encourages reliance on the government to protect people from their own decisions. Vote 7-5.

Rep. Pilotte spoke against.

Rep. Bowers spoke in favor and yielded to questions.

Rep. Cohn requested a roll call; sufficiently seconded.

HJR 3, prohibiting the implementation of certain rules of the board of mental health practice regarding misconduct investigation. **OUGHT TO PASS.**
Rep. Carol M. McGuire for Executive Departments and Administration: The Joint Legislative Committee on Administrative Rules (JLCAR) found that the new rules of the Board of Mental Health Practice highlighted a conflict in their statute: RSA 330-A:28 defined their duty and powers to investigate practitioners, but their interpretation of these powers could violate the patient privacy and confidentiality required by RSA 330-A:32.

Therefore, JLCAR proposed this resolution to stay the board from using these rules until the statutory conflict could be resolved. HB 554, relative to mental health records, will clarify the privacy constraints on the board's investigative powers. HJR 3 is necessary to protect patients' and practitioners' confidentiality until the statutes are revised. Vote 11-0. Committee report adopted and ordered to third reading.

HB 167, naming the Enfield wildlife management area after former fish and game biologist Henry Laramie. **OUGHT TO PASS.**

Rep. Marc D. Tremblay for Fish and Game and Marine Resources: This bill would rename the Enfield wildlife management area in honor of deceased fish and game wildlife biologist Henry Laramie. Henry Laramie was a true visionary in regards to wildlife in this state in many different ways. His dedication and professionalism during his long career led to not only better management of wildlife species in New Hampshire, but several of his accomplishments have been used across North America. These accomplishments include the development of the beaver pipe, implementation of safe and effective tranquilizers used to sedate bear for research and initiatives to acquire, protect, and preserve hundreds of acres of land in New Hampshire. Henry was instrumental in successfully creating a moose management program. Henry's visionary ideas are being utilized worldwide. We are honored to recognize this truly special man. Vote 15-0.

Reps. Lefebvre and Mirski spoke in favor.

Committee report adopted and ordered to third reading.

MOTION TO PRINT REMARKS

Rep. Hopper moved that the remarks made by Reps. Lefebvre and Mirski be printed in the Permanent Journal.

Adopted.

REMARKS

Rep. Lefebvre: Thank you, Mister Speaker. Good morning. I am honored to rise before you today to ask you to support HB 167, the naming of the Enfield Wildlife Management Area in honor of deceased fish and game wildlife biologist, Henry Laramie. I not only rise before you today on behalf of the Fish and Game Committee, but also as a sportsman, fisherman and hiker who spends hours upon hours every year enjoying the exact forest, ponds and streams that Mr. Laramie worked so hard to preserve for all of our enjoyment. If you could all bear with me for a few more minutes, I am going to read a letter on behalf of Eric Orff, Merrimack County Fish and Game Commissioner and retired fish and game biologist who knew Mr. Laramie well.

I came to know Henry early in my thirty-one year career at the Department. I learned that Henry was a true visionary in regards to the wildlife of this state in many different ways. His dedication and professionalism during his long career led to not only better management of wildlife species in New Hampshire but several of his accomplishments have been used across North America to better manage species.

One of Henry's earlier successes was developing the beaver pipe. You see beaver were essentially gone from this state by the early 1800's with less than 10 beaver believed to be in NH on the Canadian border when they were finally protected in 1901. Beaver did not return over the next half century to the state. By the 1950's Henry was working on a devise to allow beaver to build dams and the important wetlands they provided to lots of wildlife yet to reduce their ability to flood roads and crops. Typically beavers were killed to prevent them from flooding certain lands. Henry wanted to keep beaver in the active

flowages, yet find a way to keep them from flooding too much land. Henry invented a three sided twenty foot long wooden pipe that could be cheaply made and inserted into a beaver dam to control the height of the water. Waterfowl and other wildlife thrived as well as the beaver and the water levels could be managed at appropriate levels. For over fifty years the Department has used beaver pipes to balance wildlife and human need of our state. In fact "beaver pipes" in one form or another are used across North America today.

Henry next brought his insight into black bear management. Similar to beaver bears were nearly extirpated from this state. There had been a bounty on bears that lasted well over a century until it was removed by legislation in 1956. Bears still could be killed year round until 1965 and there was no limit on how many bears one could kill until 1970. Henry saw bears as a valuable game species. Beginning in the 1960's he started working with Concord veterinarian James Paine to find a way to safely tranquilize bear. Doctor Paine would accompany Henry to a captured bear and would try different tranquilizers to anesthetize the bear. Over a period of time they discovered a drug that would put the bear to sleep and was safe to use. Soon Henry was trapping and moving troublesome bear rather than killing them. Soon Henry's discovery of a safe and effective tranquilizer was adopted by the Maine folks. In fact within a few years bear research and management would be changed not only across this country but around the world as this drug was adopted for use in sedating bears for research from South America to panda bears in China. Henry's vision of finding a safe and effective bear tranquilizer lead to modern bear management around the globe.

In the late 1970's and early to mid 1980's the department was affected by a declining economy and a number of vacated positions were not filled, including the Departments land agent. Henry took it upon himself to help acquire significant wildlife habitat during this time. Because of fewer positions with the Department there was an excess in federal funding. The federal funds normally allocated to NH as part of the Pitman-Robertson federal tax on guns and ammunition could not be spent and would have reverted back to the federal government. Henry took it upon himself to negotiate significant land purchases using these federal funds while talking the land owners into donating the twenty-five percent value of the land which would normally be the required state funding portion. Henry was the prime mover during these lean times to protect and preserve hundreds of acres across NH.

Lastly, let me tell you a little how Henry's vision led the department into our successful moose management. Henry had a camp in Pittsburg and developed a keen interest in this state's moose early on. By the early 1980's he began tracking moose sightings. At that time my desk set just outside his office in the old Bridge Street building. I remember Henry collaring conservation officers as they came to headquarters for various purposes and setting them down by his desk. He would pull out a stack of topographic maps and query each officer as to where they were seeing moose and whether they were bulls or cows and if cows how many calves did they see. Before long Henry had a picture of the distribution and abundance of moose across the North Country. His efforts led to the hiring of our moose biologist by 1985. Henry's vision led the Department into nearly three decades of successful moose management in NH.

I would ask that you name the Enfield Wildlife Management Area in his honor. This was Henry's hometown though he lived most of his adult life in Pembroke. Thank you for your consideration.

Eric Orff, Merrimack County Commissioner

Thank you, Mister Speaker.

REMARKS

Rep. Mirski: Thank you, Mister Speaker. I want to particularly express my appreciation to Rep. Chandler for filing this bill. I certainly wish I had thought of it and I want to thank him for inviting Rep. Townsend and Rep. Sova and Sen. Houde to also co-sponsor this. This particular area in the State of New Hampshire comes to about 2,022 acres on top of two mountains, Prospect Mountain and Shaker Mountain in Enfield. The area that we are talking about is visible throughout the district that we represent. Henry was a native of Enfield. If you go and mail a letter down at the post office, as you walk in, you will see a field just off to the left and up in that field is a red barn and some horses. That is called the Laramie farm. He grew up right in downtown. We have a farm right downtown and it was his homestead. Every day when he left the house, he would look out across that field, he would look out across the village and look out across the lake and there behind him was this long ridge, Shaker Mountain and Prospect Mountain. I don't imagine he would have ever imagined that so much of that mountain ultimately would be potentially named in his honor. He was a very modest and generous individual. I met him first about 1973/74. The community in Enfield wanted to preserve as much of that mountain as possible from development because it was an important environmental resource. We wanted to protect it for the watershed. It's a fantastically diverse area for game and so forth and when I made that proposal to the Town of Enfield, which it voted down in zoning 3 or 4 to 1 a bunch of times, it was Henry who stepped up and explained to the community how important the preservation of this area of town is. In the end, the town voted to create a conservation district of about 5,500 acres. Henry also touched another person in this room which is our Clerk, Karen Wadsworth. She was a representative at that time from the Town of Lebanon. She got a bill passed that helped to create this conservation district, so Henry has touched a lot of people. When you stand by a beaver flowage somewhere in the state, you can think of Henry Laramie. There is a little one right near my house that has one of his beaver pipes sticking out, out of the water. It just simply maintains the water level so the beavers are never able to increase the flowage over the highway right there. Until that sort of thing happened, we were out regularly trying to kill beavers whenever possible because of farm fields and roads and so forth. That was extremely significant. We know about Ben Kilham up in Lyme, one of the residents of New Hampshire that has become famous worldwide for his work with bears, but it was Henry who was the first guy in Lyme who really stabilized the bear population in New Hampshire. When you look at your moose plate and you see that moose on that plate, you can think of Henry Laramie every time you see it because it was Henry who developed a management plan for moose that has now made New Hampshire, in a way, famous in a way you wouldn't imagine. This is a great guy. He was self effacing, mild and he would never, ever have imagined himself being recognized this way. It is a terrific honor and in a way a reflection on the quality of many of our state employees that work quietly to do fantastic things. This is just a great opportunity to honor a very important and wonderful individual. Thank you.

REGULAR CALENDAR (CONT'D)

HB 71, authorizing establishment of pharmaceutical drug take-back programs. **OUGHT TO PASS.**

Rep. Evalyn S. Merrick for Health, Human Services and Elderly Affairs: This bill allows New Hampshire communities and private entities to establish uncontrolled and controlled drug take-back programs for the purpose of destruction of these agents. The law allows this action in collaboration with the chief law enforcement of the community or governmental entity. There was great legislative and constituent support for this legislation. All should support this legislation as it has already proven its ability to remove thousands of unused medications from homes, and streets of New Hampshire. Vote 17-0.

Rep. Reagan moved Recommit and spoke in favor.

Adopted.

Recommitted to the Committee on Health, Human Services and Elderly Affairs.

HB 94, relative to public access to advisory committee meetings under the right-to-know law.

MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.

Rep. Kathleen F. Souza for the Majority of Judiciary: This bill would create a new format for public advisory committee meetings. The majority of the committee felt that by changing to an electronic format, with no physical meeting site, some interested citizens would be excluded. Also, advisory boards provide ideas and suggestions that lead to policies that affect our citizens and the important face-to-face interaction among members of these boards and between the public and the boards outweigh any advantages of convenience to the members of the boards. Current right-to-know law already provides that an advisory committee may meet electronically in an emergency situation. The committee felt that current law is working for the citizens of this state and no change is needed at this time. Vote 16-1.

Rep. Gary W. Wheaton for the Minority of Judiciary: This bill allows meeting with non-policy or decision making authorities to have quorum meetings by electronic means. Meeting electronically is only another option and not mandatory. This bill simply allows another means for volunteers to become more engaged in civil activities. Currently in a rural state, the distance limits volunteer time and the number and diversity of people and talents available. There are numerous free and low cost electronic options to accomplish this goal contrary to the argument that "the technology is not here yet."

The question being adoption of the Majority committee report of Inexpedient to Legislate.

Majority committee report adopted.

HB 190, relative to legislative study committees. **OUGHT TO PASS.**

Rep. Timothy P. Comerford for Legislative Administration: This legislation limits membership of study committees established by the General Court to members of the legislative unit. The bill also requires the chairman of any study committee to file the committee report electronically. The committee feels the bill creates efficiency where it is sorely needed. Vote 10-5.

Rep. Mirski moved Recommit and spoke in favor.

Adopted.

Recommitted to the Committee on Legislative Administration.

HB 85, relative to the definition of "abutter" for notice of land use board hearings.

INEXPEDIENT TO LEGISLATE.

Rep. Franklin W. Sterling for Municipal and County Government: The purpose of this bill is to extend the definition of an "abutter" to all unit owners in a "condominium or other collective form of ownership" for the purpose of notification of a hearing by a land use board. The current statute (RSA 672:3) allows for the notification to be to the officers of the condominium association. The committee recognized the importance of notification but was also mindful of the potential cost to an applicant both in terms of the cost of certified mail and the time lost if there was an error in the process of notifying multiple owners in large condominium complexes. The need for condominium owners to be notified is important and the committee would suggest that the issue would be better addressed by strengthening the duties of condominium officers in RSA 356: b-40 IV. Vote 14-2. Committee report adopted.

HB 155, relative to permits to conduct raffles. **MAJORITY: OUGHT TO PASS.**

MINORITY: INEXPEDIENT TO LEGISLATE.

Rep. James P. Belanger for the Majority of Municipal and County Government: This bill enables a local governing body to issue an organization a permit with a longer time limit thus reducing administration costs and allowing established groups to hold a series of events, each of which presently require a separate application. Vote 12-4.

Rep. Kris E. Roberts for the Minority of Municipal and County Government: It is extremely important that people participating in any raffle have confidence in the integrity of all raffles. Some clerks require all raffle permit holders to notify them who won a raffle after the drawing, which is noted in the permit request. If an organization could run as many raffles as they wish during a years time that raises a question. Does the permit cover all raffles held by that organization during that calendar year, or does it require 12 year-long raffle permits for monthly raffles? Under either scenario, the clerk would have no way of knowing whether a raffle was held or not. There would be no way of knowing if funds were collected or winnings paid out. A year long permit could result in a raffle in January, and the clerk not knowing the status of that raffle until the following January. There would be no protecting the public interest. This would result in losing system integrity which could put the funding for numerous civil and social organizations that promote worthwhile public service at risk.

The question being adoption of the majority committee report of Ought to Pass.
Majority committee report adopted and ordered to third reading.

HB 198, relative to the investment options for county funds. **OUGHT TO PASS.**

Rep. Kathleen M. Stroud for Municipal and County Government: This bill allows county treasurers an additional option when investing surplus county funds for all New Hampshire counties. It clearly states that monies must be invested in pooled money market funds invested solely in us treasury bonds. Vote 14-2.

Committee report adopted and ordered to third reading.

HB 89, requiring the attorney general to file lawsuits challenging the Patient Protection and Affordable Care Act and the United States Environmental Protection Agency's cap and trade program. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Steven L. Cunningham for the Majority of State-Federal Relations and Veterans Affairs: The committee determined that the patient protection and affordable care act would result in huge unfunded mandates for New Hampshire, a concern worthy of action by the attorney general. Testimony from the chairman of the finance committee assured us of the massive costs the patient protection and affordable care act would bring to the state. These expensive mandates appear to violate our state sovereignty. The committee has verified that there is no cost to join the lawsuit. Other states, such as Alaska, have budgeted \$5,000 for travel and miscellaneous associated expenses to allow a minimal presence in this lawsuit. A secondary concern for the committee was that the patient protection and affordable care act requires that New Hampshire citizens purchase a health care insurance policy against their will. The committee agrees that this is an onerous violation of individual rights that should be opposed. Vote 11-3.

Rep. Theodoros V. Rokas for the Minority of State-Federal Relations and Veterans Affairs: While the minority finds numerous reasons to deem HB 89 inexpedient to legislate, we will focus on the two most important – constitutionality and cost. As stated by the attorney general at the public hearing, HB 89 is a clear violation of the separation of powers doctrine (part 1, article 37) of the New Hampshire constitution. Part 1, article 37 states that the legislative, executive, and judicial branches of government “ought to be kept as separate from, and as independent of, each other, as the nature of free government will admit...” Ever since the adoption of part 1, article 37 in 1784, it has been the duty of the legislative branch to enact laws, and the duty of the executive branch to enforce them. The minority agrees

with the attorney general that HB 89 violates that separation of power by having the legislative branch dictate to the executive branch which laws to challenge. Just as the attorney general has no constitutional authority to require the legislature to pass or defeat particular bills, the legislature has no constitutional authority to require the attorney general to mount legal challenges against particular laws. If the legislature can compel the attorney general to challenge particular laws, the traditional independence of the attorney general is compromised. This bill is also a perfect example of the wasteful government spending we all seek to eliminate. Passage of HB 89 would require the attorney general to spend his time, resources, and financial wherewithal joining a federal lawsuit that is going forward anyway. The legal and constitutional questions remain the same, and the eventual effect on New Hampshire will be the same whether we join the lawsuit or not. While some states may have extra money in their budgets to make the symbolic act of becoming the 26th or 27th state to join this federal lawsuit, we do not. As one of the least-taxed states in the country, New Hampshire can only afford to spend money on legal cases on which our inclusion has the potential to make a meaningful difference. Additionally, the potential cost to taxpayers for passing HB 89 is unknown. While there was discussion in committee as to the "estimated" cost of passing HB 89, there is no fiscal note attached to the bill. The true cost of HB 89 is unknown. At a time when we will likely see spending reductions in education, and to programs that benefit our neediest citizens, the last thing we should be spending money on is symbolic lawsuits with an unknown cost to the citizens of our state. The minority can think of no better way to show our commitment to responsible spending than to find HB 89 inexpedient to legislate.

Majority Amendment (0037h)

Amend the title of the bill by replacing it with the following:

AN ACT requiring the attorney general to join the lawsuit challenging the Patient Protection and Affordable Care Act.

Amend the bill by replacing all after the enacting clause with the following:

1 Lawsuit Challenging the Federal Patient Protection and Affordable Care Act. The attorney general shall, no later than July 1, 2011, move to join the state of New Hampshire as a plaintiff in the lawsuit pending in federal court captioned State of Florida et al. v. United States Department of Health and Human Services et al.

2 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill requires the attorney general to join the state of New Hampshire as a plaintiff in the lawsuit pending in federal court captioned State of Florida et al. v. United States Department of Health and Human Services et al.

Majority committee amendment adopted.

The question now being adoption of the majority committee report of Ought to Pass with Amendment.

Reps. Rokas and Rosenwald spoke against.

Rep. Blankenbeker spoke in favor and yielded to questions.

Rep. Frank McCarthy spoke in favor.

Rep. Bettencourt requested a roll call; sufficiently seconded.

and the majority committee report was adopted.

Referred to the Committee on Constitutional Review and Statutory Recodification.

Rep. Rice declared a conflict of interest and did not participate.

HCR 1, urging the congressional delegation to begin the process for a constitutional amendment establishing that human beings, not corporations, are entitled to constitutional rights. **INEXPEDIENT TO LEGISLATE.**

Rep. Jeanine M. Notter for State-Federal Relations and Veterans Affairs: This bill would urge congress to begin the process of amending the U.S. constitution to establish that human beings and not corporations are entitled to constitutional rights. This has to do primarily with the funding of elections. The HCR should be killed. Vote 8-5.

Rep. Weed spoke against and yielded to questions.

Reps. Soltani and Baldasaro spoke in favor.

Rep. Weed requested a roll call; sufficiently seconded.

and the committee report was adopted.

BILLS REMOVED FROM THE CONSENT CALENDAR

HB 130, establishing an additional method for a school to demonstrate that it provides the opportunity for an adequate education. **OUGHT TO PASS.**

Rep. Charles J. Brosseau for Education: This bill allows for an alternate method for a school to demonstrate that it provided the opportunity for an adequate education. Currently schools are required to submit annual input and performance based accountability reports to the department of education. This third reporting option enables those schools accredited through New England association of schools and colleges to submit the annual accreditation report demonstrating compliance with standards as an alternate reporting mechanism. This option is a cost saving to local schools and the department of education. Vote 16-0.

Rep. LaCasse spoke against.

Rep. Ladd spoke in favor.

On a division vote, 349 members having voted in the affirmative and 21 in the negative, the committee report was adopted.

Ordered to third reading.

HB 87, relative to disqualification of moderators. **INEXPEDIENT TO LEGISLATE.**

Rep. Richard B. Drisko for Election Law: The intent of this bill was to allow moderators who are on the ballot for office to handle ballots after they have been counted by machine.

Current law prohibits that action. The secretary of state's office opposed the bill on grounds that even the perception of fraud in allowing ballot handling was not desirable. Vote 18-0.

Rep. Drisko offered a vote correction. The committee vote being 16-2 and the vote to place the bill on the Consent Calendar being 18-0.

Committee report adopted.

(Rep. Chandler in the Chair)

HB 140-FN, establishing an exemption from the civil filing fee surcharge. **INEXPEDIENT TO LEGISLATE.**

Rep. Brian J. X. Murphy for Judiciary: This bill would expand the exemption from a filing fee surcharge to include any action to change a person's name. Currently, filing fee surcharge exemptions exist for family law name changes such as marriage, divorce or adoption. The filing fee surcharge is \$25, which was found to be reasonable. An indigent individual seeking a name change for reasons that are not exempted can move to have the surcharge waived. Given the reasonableness of the fee surcharge, and relief already available, expanding the exemption to include all actions for a name change is unnecessary. Vote 16-0.

Rep. Horrigan spoke against.

Rep. Brian Murphy spoke in favor.

Committee report adopted.

(Speaker O'Brien in the Chair)

HB 180, relative to criteria for registration as a lobbyist. **INEXPEDIENT TO LEGISLATE.**

Rep. Marilinda J. Garcia for Legislative Administration: The removal of the exclusions listed in this bill would render RSA 15 provisions that determine whether a person is required to register as a lobbyist overly broad. In addition to creating cumbersome and unnecessary disclosure requirements for those who are not actually employed as lobbyists, it also fails to address the concern about closed door meetings between representatives and representatives from certain organizations, and would be an abrogation of free speech within the public hearing process. Vote 13-2.

Rep. Watrous spoke against.

Rep. Garcia spoke in favor and yielded to questions.

Rep. Campbell requested a roll call; sufficiently seconded.

and the committee report was adopted.

HCR 3, urging increased consideration and preservation of local authority in international trade and investment agreements. **INEXPEDIENT TO LEGISLATE.**

Rep. Lucien A. Vita for State-Federal Relations and Veterans Affairs: This bill contends that supranational treaties, including the Free Trade Area of the Americas (FTAA), the United States-Chile Agreement, the General Agreement on Trade in Services (GATS), the North American Free Trade Agreement (NAFTA) and the World Trade Organization (WTO), contain provisions that will result in the shifting of the power to regulate zoning, ground water and natural resource protection, corporate ownership of land and law enforcement by

courts away from state and local governments. However, a review of web sites dedicated to the above treaties failed to produce any evidence that would support this position. Further, aside from the text of the bill, the sponsor failed to provide any documentation in support of his contentions, nor did any witnesses appear in support of the bill. In addition, this bill focuses on the threat of loss of state and local sovereignty due to the possible impact of a certain few treaties, addressing only a small part of a much larger issue; the process by which bureaucrats, who are not representatives of the people, are allowed to approve treaties and agreements with other countries and supranational organizations. This violation of the constitutional requirement for congressional oversight (Article 2, Section 2) has been justified by the need for expediency, has resulted in hundreds of agreements and treaties becoming law without the protection of a two-thirds majority vote of the United States Senate and will be addressed in this session by HCR 6. Vote 10-0.

Rep. Weed spoke against.

Rep. Baldasaro spoke in favor.

Committee report adopted.

HCR 4, urging the United States Nuclear Regulatory Commission to permit New Hampshire to relicense nuclear power plants. **INEXPEDIENT TO LEGISLATE.**

Rep. Robert L. Theberge for State-Federal Relations and Veterans Affairs: The committee agrees that sufficient regulations are in place and the national regulatory commission (NRC) apprises the attorney general's office fully and notifies the public of any and all hearings and therefore this legislation is not necessary. In addition, the committee was concerned about the cost of creating another level of oversight. Vote 13-0.

Reps. Manuse, Warden and Avard spoke against.

Rep. Lambert spoke against and yielded to questions.

Rep. Blankenbeker spoke in favor.

Rep. Bates requested a roll call; sufficiently seconded.

HR 6, condemning the taking of a private business by a foreign government. **OUGHT TO PASS.**

Rep. Daniel J. Tamburello for State-Federal Relations and Veterans Affairs: The passage of this bill would alert the government of Canada to the illegal taking of a business held and operated by a New Hampshire and U.S. citizen. The governments of Quebec and Canada have committed this act in open violation of the NAFTA treaty. Vote 13-0.

Rep. Gagnon spoke against.

Rep. Tamburello spoke in favor.

MOTION TO INDEFINETELY POSTPONE

Rep. Cali-Pitts moved that **HR 6**, condemning the taking of a private business by a foreign government, be indefinitely postponed.

Rep. Cali-Pitts spoke in favor.

Rep. Baldasaro spoke against.

On a division vote, 115 members having voted in the affirmative and 248 in the negative, the motion failed.

The question now being adoption of the committee report of Ought to Pass.

Rep. Tamburello requested a roll call; sufficiently seconded.

Ordered to third reading.

HOUSE RESOLUTION 11

A RESOLUTION affirming revenue estimates for fiscal years 2011, 2012, and 2013.

Whereas, the House Ways and Means Committee has considered what the unrestricted revenue estimates should be for fiscal years 2011, 2012, 2013 and has presented those estimates to the House of Representatives; and

Whereas, the House Ways and Means Committee strongly supports the Liquor Commission's capital budget request to renovate the Hooksett North and South stores which is estimated by the Commission to generate approximately \$4,400,000 in additional revenue above the estimates affirmed below; and

Whereas, the House Ways and Means Committee strongly believes the repeal of the gambling winnings tax will have a significant positive impact on the revenue estimates affirmed below; now, therefore, be it

Resolved by the House of Representatives:

I. That the House shall not adopt an operating budget for the state effective during the upcoming biennium that spends more than the total of these estimates, which total is \$4,423,600,000.00, less the sum of \$1,606,000.00 resulting from the estimated consequences of the reduction or elimination for the upcoming biennium of the taxes and fees listed below,

for a total maximum state budget combined general fund and education trust fund spending of \$4,421,994,000.00 in the upcoming biennium; and

That the following taxes and fees shall be reduced or eliminated, resulting in the estimated net reduction in the available state general fund and education trust fund revenues available during the upcoming biennium referenced above.

II. That the House wishes to go on record as affirming the following revenue estimates for fiscal years 2011, 2012, and 2013.

Committee estimates are based on current rates.

MOTION TO PRINT DEBATE

Rep. Foose moved that the debate on **HR 11**, affirming revenue estimates for fiscal years 2011, 2012, and 2013, be printed in the Permanent Journal.
Motion failed.

RESOLUTION

Rep. Bettencourt offered the following: RESOLVED, that the House now adjourn from the early session, that the business of the late session be in order at the present time, that the reading of bills be by title only and resolutions by caption only and that all bills ordered to third reading be read a third time by this resolution, and that all titles of bills be the same as adopted, and that they be passed at the present time, and when the House adjourns today it be to meet Wednesday, February 15, 2011 at 10:00 a.m.
Adopted.

LATE SESSION

Third reading and final passage

HB 168, establishing a committee to study the juvenile delinquency and child in need of services statutes.

HB 95, permitting an insurer to operate a health maintenance organization as a line of business.

HB 142-FN, relative to sales of artificial flowers and miniature flags.

HB 143, relative to the sale of stove polish.

HB 79, relative to certification of dogs for law enforcement work.

HB 67, expanding the duties of the school administrative unit oversight committee.

HB 69, relative to the community college system of New Hampshire academic centers.

HB 112, relative to the required number of instructional days and instructional hours in a school district's calendar.

HB 42, relative to the appropriate officials with whom to file for a primary.

HB 93, relative to medical documentation for a crossbow permit for a person with a disability.

HB 195, relative to special permits for transportation of deer.

HB 111, relative to redispensing unused drugs.

HB 51, relative to screening panel members for screening panels for medical injury claims.

HB 173, relative to service of process on commercial tenants.

HB 70, relative to changes to town charters.

HB 86, relative to filling a vacancy among county officers.

HB 181, permitting the charter of a city, town, or school district which is in statute to revert

to the control of the voters.

SB 11-L, relative to the police commission in the town of Hooksett.

HB 35-FN, authorizing the acquisition of certain dams in the Connecticut Lakes Headwaters Tract.

HB 45, relative to the Connecticut Lakes headwater citizens committee.

HB 55, adding a member to the exotic aquatic weeds and species committee.

HB 63, extending the instream pilot program for one year.

HB 74, relative to the ticketing and season passes at Cannon Mountain.

HB 410, extending the reporting date of the committee to study dispatch times within the enhanced 911 system and requiring quarterly meetings of the committee.

HB 56, relative to proper observance of September 11, 2001.

HB 116, relative to the rulemaking requirement for establishing operating restrictions on certain bodies of water.

HB 117, allowing additional weight for vehicles using idle reduction technology in order to promote reduction of fuel use and emissions.

HB 148, relative to federal funding for motorcycle-only roadside checkpoints.

HB 192, relative to commercial motor vehicle registration.

HB 136-FN, repealing the uniform athlete agents act.

HJR 3, prohibiting the implementation of certain rules of the board of mental health practice regarding misconduct investigation.

HB 167, naming the Enfield wildlife management area after former fish and game biologist Henry Laramie.

HB 155, relative to permits to conduct raffles.

HB 198, relative to the investment options for county funds.

HB 130, establishing an additional method for a school to demonstrate that it provides the opportunity for an adequate education.

HR 6, condemning the taking of a private business by a foreign government.

HR 11, affirming revenue estimates for fiscal years 2011, 2012, and 2013.

UNANIMOUS CONSENT

Reps. Gile, Wallner and Bettencourt addressed the House.

MOTION TO PRINT REMARKS

Rep. Lynne Ober moved that the remarks made by Reps. Gile and Wallner be printed in the Permanent Journal.

Adopted.

REMARKS

Rep. Gile: Thank you, Mister Speaker and thank you Honorable colleagues. I rise to pay tribute to a former member, Honorable Gloria Seldin, Representative from Merrimack, District 11, which is Concord wards 4, 8, 9 and 10 who died very suddenly and unexpectedly on January 23, 2011. Gloria was 86 and she left in exactly the manner she had hoped for. She and I became friends in 1996 when we both decided to run for the legislature and both got elected. Representative Seldin served 6 years in the New Hampshire House, one term on the Labor committee and two terms on the Health and Human Services committee. As a Representative, she sponsored bills and focused always on ways to improve the lives of seniors, individuals with disabilities, children and the poor. One of her dreams was to find a way to match young families in need of housing with senior homeowners who needed help with everyday chores and living. Gloria was big hearted, an activist in democratic politics and the consummate volunteer. She was a regular in presidential campaigns, working for candidates and attending meetings to speak up for causes she believed in. At the age of 62, following her retirement and prior to her terms as a legislator, Gloria volunteered for the

Peace Corps and served in Sierra Leone, one of the most challenging assignments on the planet, given the country's long history of poverty and warfare. There she taught residents to cultivate rice and fish for food and spent the better part of the year completely without your typical creature comforts such as clean water and sanitation. Back home, Gloria immersed herself in community service in places like the Concord Auditorium, VMA Hospice House and the Centennial Senior Center. She served on numerous state and local boards and also participated in the America Reads program. Every week she read stories to the kindergarten children at Walker School in Concord. Until her death, she volunteered at Concord Hospital where one of her assignments was to read the bingo numbers on Thursday afternoons because of her wonderful New York accent. In closing, this past Tuesday, the Concord Monitor dedicated an editorial to former Representative Gloria Selden describing her many contributions to the Concord community and the state of New Hampshire. In addition to an extraordinary record of public service, she was a Thursday morning diva at the Windmill in Concord where former Representatives and Senators gather at 7:30, a cookie lady for the shows at the Audi, a mentor who inspired and counseled me on the joys and wonders of aging, often delivering little pamphlets on healthy joints and a few other things I wasn't always anxious to receive. She was one of my dearest friends who I might never have met had it not been for the opportunity to work here in the New Hampshire House of Representatives. Thank you.

MOMENT OF SILENCE

A moment of silence was observed in honor and in memory of the former member from Concord, the Honorable Gloria Seldin.

REMARKS

Rep. Wallner: Thank you, Mister Speaker. I rise today to honor the memory of two former House members. Alice McDonough Wallace died on January 11th after a long illness. She was a lifelong resident of Manchester. Beginning in 1999, she served three terms in the New Hampshire General Court representing Manchester Ward 5. She was a senior advocate and activist. She served as Commissioner of the Manchester Elderly Services and past President of East Manchester AARP. She also served on the Board of Directors of the Elliott Hospital and was President of the Manchester Women's Club. Also, Sandy Stettenheim of Plainfield died on January 10th. She served one term in the New Hampshire House in 1995. Sandy was a Quaker and a long time peace activist. She was the founding member of the New Hampshire Coalition to Abolish the Death Penalty and served on the steering committee. She was devoted to the health and welfare of the people of New Hampshire and she was a gentle pillar of strength. These women were devoted to community service where they truly made a difference in many lives. Thank you, Mister Speaker.

MOMENT OF SILENCE

A moment of silence was observed in honor and in memory of the former member from Plainfield, the Honorable Sandy Stettenheim.

MOTION TO PRINT REMARKS

Rep. Jasper moved that the remarks made by Rep. Bettencourt be printed in the Permanent Journal.
Adopted.

REMARKS

Rep. Bettencourt: Thank you, Mister Speaker. I wanted to take a few moments this afternoon to say a few words in recognition of the centennial birthday of the man whom I

consider to be the greatest President of the twentieth century, Ronald Reagan. In his honor, I would like to read a section of his farewell speech from the Oval Office in 1989. “The past few days I’ve been sitting at the window upstairs and I’ve thought a bit about the ‘shining city on the hill.’ The phrase comes from John Winthrop, who wrote it to describe the America that he imagined. What he imagined was important because he was an early Pilgrim, an early freedom man. He journeyed here on what today we’d call a little wooden boat; and like the other Pilgrims, he was looking for a home that would be free. I’ve spoken of the shining city all my political life, but I don’t know if I ever quite communicated what I saw when I said it. But in my mind it was a tall, proud city built on rocks stronger than oceans, windswept, God-blessed, and teeming with people of all kinds living in harmony and peace; a city with free ports that hummed with commerce and creativity. And if there had to be city walls, the walls had doors and the doors were open to anyone with the will and the heart to get there. That’s how I saw it, and still see it today.” Mister Speaker, in everything that we do, let us strive to uphold the special ideal and vision of America. God bless Ronald Wilson Reagan.

MOMENT OF SILENCE

A moment of silence was observed in honor and in memory of the 40th President of the United States, Ronald Reagan.

RECESS MOTION

Rep. Bettencourt moved that the House stand in recess for the purposes of the introduction of bills, receiving Senate messages, enrolled bill amendments and enrolled bill reports. Adopted.

The House recessed at 1:40 p.m.

RECESS

COMMITTEE ASSIGNMENTS

The Speaker made the following changes to committee assignments:

Rep. Avarad on the Special Committee on Public Employee Pensions Reform.

Rep. Betsey Patten off the Special Committee on Public Employee Pensions Reform.

RECESS
