HOUSE JOURNAL No. 2

Wednesday, January 4, 2017

The House assembled at 10:00 a.m. and was called to order by the Speaker.

Acting Governor, Chuck Morse, joined the Speaker on the rostrum for the day's opening ceremonies.

Prayer was offered by House Chaplain, Reverend Kate Atkinson, Rector of St. Paul's Church in Concord. Almighty God, we gather today on the brink of a new political era. We gather together with people who are known to us and people we do not yet know, each of us filled with anticipation as we enter into this new place in time. But You, O God, are timeless. You, O God, are limitless in Your vision and Your creative power, and You long to see Your people live into the fullness of our potential. And so we pray that You would inspire our leaders and representatives in new and wonderful ways on this day of new beginnings. Give them wisdom and intuition; give them courage and imagination; and help them to gain a fresh understanding of the needs of this State, this Nation, and our wider world. Illuminate their hearts, minds and spirits with the radiance of possibility so that they may be beacons, lighting the path to a future beyond our wildest dreams. Amen.

LATE SESSION

UNANIMOUS CONSENT

Rep. Vaillancourt requested Unanimous Consent of the House regarding the passing of Rep. Martel of Manchester.

Rep. Rogers requested Unanimous Consent of the House regarding the passing of John Glenn.

PRINT REMARKS

Without objection, the Speaker ordered the remarks made by Reps. Rogers and Vaillancourt during Unanimous Consent be printed in the Permanent Journal.

REMARKS

Rep. Vaillancourt: Thank you Mister Speaker. When you hear that someone spent 14 years of his or her life toiling in these buildings we call the New Hampshire Legislature, your immediate thought probably is, what a selfless accomplishment, what a wonderful thing to do with your life. But you know that very notion betrays

how overblown we consider ourselves as working here for the people. It's a great thing what we do here, but there are other great things in the world and Andy Martel was one of the people who did other great things. Sure, he served 5 terms in this House. I believe he was on Health and Human Services. He served 5 terms in this House and 2 terms in the Senate before he passed away just before the holiday season. My thoughts though, and I'm sure most of you from Manchester, were never actually of Andy's service in this House or the Senate. Three words, or actually one word and three letters come to mind when I and many others think of Andy Martel, Save CMC. It was a fight back in the 90s so many of us here probably never knew of it or have all but forgotten. But as *Union Leader* reporter Mark Hayward wrote recently, "It was a truly epic struggle, if not of good versus evil, than certainly the little guy verses the big guy, of Davey versus Goliath." "Had the fight been about faceless hospitals," Hayward writes, "it probably would have gone nowhere, but Martel was fond of talking of his grandparents and many West side residents with French-Canadian roots, who had contributed nickels and dimes to build CMC." Then, in the 90s along came Optima Health announcing plans to merge, or some would say to take over CMC. My goal today here is not to provide a play-by-play of what became a four-year saga, but were I to do that, the name Andy Martel would be mentioned along every step of the way. Not always politically correct, my type of person you might say, Andy said some outrageous things during that struggle and he made some powerful enemies, but he never gave up. Rather than Davey versus Goliath, I've been thinking the past two weeks of Andy Martel as a latter-day Don Quixote, perhaps better known to some of us who couldn't get through Saavedra as Man of La Mancha, who with his colleague alongside, Sancho Panza, was fond of tilting at windmills – tilting at windmills. The very phrase has entered our lexicon as meaning fighting for a hopeless cause, but I ask you really now, how are we to know that a cause is hopeless until we mount our trusty steed, sword in hand, and set forth. More than anything else, Andy Martel will be remembered as the man who had the courage, the fortitude, the tenacity, and yes, the time to fight this fight. And, unlike Don Quixote, who wasn't so good at slaying windmills, Andy Martel proved very good at saving CMC. No, he didn't do it alone; some Reps in this very Hall today were among those who helped him. Like Andy, many have passed away. Strange how that happens when we are talking about history, isn't it? Kathy Souza of Ward 4 in Manchester is with us today and she is one who joined Andy for that fight. Michael Quinlan, then a respiratory therapist, is quoted at length in the Hayward article and rightly so. He was at Andy's side throughout the struggle and we must never forget Attorney General Phil McLaughlin's decision which put the kibosh to Optima's plans. Without McLaughlin who knows what would have happened to CMC, but without Andy Martel the struggle would never have been won. That windmill would still stand. In retrospect so many good things have happened to CMC in the past 20 years it's hard to imagine a Manchester or a New Hampshire without it and we can almost never say this about anything in history – almost. But unlike Representatives and Senators who work tireless in these venues, the CMC Optima story would have an entirely different ending, but for this man who died over the holidays. We salute you Andy Martel, tilter of windmills and savor of CMC.

REMARKS

Rep. Rogers: Thank you, Mister Speaker. Mr. Speaker and members of the House, on Feb 20, 1962 the nation's imagination was seized by a clean-cut, quiet marine from a small Midwestern town, nurtured in patriotism and tested in war, who stepped forward to risk the unknown and succeeded spectacularly. John Glenn joined a small group of Americans whose actions challenged the limits of mankind and made him a true hero...like Lewis and Clark, the Wright Brothers, and Charles Lindbergh. In 1962 the world was in the midst of the Cold War. Americans felt fear of nuclear destruction, and the Russians seemed to be winning the contest of the race into outer space, two of their people had already orbited Earth the year before, overshadowing the feats of two Americans including NH's own Alan Shepard who had been launched to the fringes of space. But on that February day at 9:47 a.m. Eastern Time, after weeks of delay the rocket achieved liftoff. "*Godspeed, John Glenn,*" his fellow astronaut Scott Carpenter said through a microphone at mission control. With that short flight a nation's attitude and horizon had expanded! From that point on, the United States space program surged and Americans charted an historic all the way to a lunar landing just seven years later. John Glenn led the way. John Glenn's journey towards becoming an American Hero began years before that historic flight. Shortly after Dec 7, 1941 he signed up to become a Marine Pilot and flew 59 combat missions in the Pacific theatre and earned two Distinguished Flying Crosses. He saw more action in the Korean War, flying 90 combat missions and earning more medals. After the war, Glenn met a new challenge and put his life on the line again as a military test pilot in the early days of supersonic flight. In 1957, just months before the Soviet Union launched its first Sputnik satellite; he made the first transcontinental supersonic flight from Los Angeles to New York in record time: 3 hours 23 minutes 8.4 seconds...once again, John Glenn led the way and captured the imagination of a nation. In 1959, newly promoted to lieutenant colonel, he heeded a call for test pilots to apply to be astronauts for the fledgling National Aeronautics and Space Administration. He and six other pilots were selected in April of that year. After his distinguished military career John Glenn went on to a career as a US Senator from Ohio. Always ready to take on a challenge, after Robert Kennedy's assassination in 1968, Mr. Glenn headed a bipartisan lobbying group called the Emergency Committee for Gun Control. President Lyndon B. Johnson later signed the Gun Control Act of 1968, placing some restrictions on

firearms. As a senator, John Glenn developed an expertise in weapons systems, nuclear proliferation issues and spear-headed most legislation related to technology and bureaucratic reform. Not satisfied with youthful pursuits of space travel, Senator Glenn once again challenged the limits of our imagination and our assumption, becoming the oldest person to be launched into space. His mission in 1998 drew criticism, but the new-old astronaut was not to be denied, and his heroic image, and reawakened memories of the early space age, attracted launching crowds on a scale not seen since astronauts were flying to the moon. Still healthy and vigorous, though not as agile as in 1962, Mr. Glenn embarked on his second venture in space, as he said in an interview, to show the world that the lives of older people need not be dictated by the calendar. He advanced the horizons of both space and time – a true pioneer. I was lucky enough to be able to work with Senator Glenn over the course of a number of years. He was ALWAYS an “Officer and a Gentleman,” he was kind, he was thoughtful, he cared about people, and yes I was always aware he was a true American HERO. It was an honor to serve with him in the political arena. I will always remember him saying, “The most important thing we can do is inspire young minds and to advance the kind of science, math and technology education that will help youngsters take us to the next phase of space travel.” Senator Glenn understood education and the next generation was our future. Sadly we lost him on Dec 8, 2016. Godspeed John Glenn we will miss you; you were truly the last great American Hero.
