HOUSE RECORD

Second Year of the 165th General Court Calendar and Journal of the 2018 Session

Web Site Address: www.gencourt.state.nh.us

Vol. 40

Concord, N.H.

Wednesday, March 21, 2018

No. 9

HOUSE JOURNAL No. 8 (Cont'd)

Thursday, March 15, 2018

Rep. Hinch moved that the House adjourn.
Motion adopted.

HOUSE JOURNAL NO. 9

Wednesday, March 21, 2018

The House assembled at 10:00 a.m., the hour to which it stood adjourned, and was called to order by the Speaker.

Prayer was offered by House Clerk, Paul C. Smith.

Oh Divine Creator of the universe, the stars, planets, moons, and the spaces in between. We ask You to watch over this assembly of New Hampshire's State Representatives today and endue them with compassion for their citizens, strength in their convictions, wisdom to vote in a manner they believe is right, and kindness towards each other within and without these hallowed halls. We ask You, the Designer of the spaces in between to remember those in society who fit in between, and lift them up-as no person or groups of people should ever be marginalized. We ask Your blessing on the whole of humanity; that we may live in peace, free from fear, one common race of persons, now and forever. Amen.

Representative Victoria Sullivan, member from Manchester, led the Pledge of Allegiance.

The National Anthem was sung by Rachel Galante of Manchester.

LEAVES OF ABSENCE

Reps. Carr, Cote, Elizabeth Edwards, Hoell, Hull, McBeath, Suzanne Smith and Robert Walsh, the day, illness. Reps. Ayala, Dean-Bailey, DeSimone, Dowling, Barbara Griffin, Hellwig, Horgan, Kotowski, Josh Moore, Morrison, Nasser, O'Neil, William Pearson, Rimol, Schwaegler, Timothy Smith, St. Clair, Rio Tilton, Thomas Walsh and Dan Wolf, the day, important business.

Reps. Ebel and Mangipudi, the day, illness in the family.

INTRODUCTION OF GUESTS

Prescott Herzog, student from Stevens High School, Page for the day.

Linda Galante, Mother of the Singer, guest of Rep. Victoria Sullivan. Christopher and Finn Maidment, guests of Rep. Negron. Dani Lavine, guest of Rep. Rosenwald. Randy Scott McNally, Husband of Rep. McNally. Fourth grade students from Mount Saint Mary Academy in Manchester, guests of Rep. Beaulieu.

SENATE MESSAGE

REQUESTS CONCURRENCE WITH AMENDMENTS

HB 1370, relative to a school's emergency management plan. (Amendment printed SJ 3/8/18)

Rep. Ladd moved that the House concur and spoke in favor.

Motion adopted.

HB 549-FN, relative to beverage vendor fees. (Amendment printed SJ 2/1/18)

Rep. Hunt moved that the House nonconcur and request a Committee of Conference.

Motion adopted.

The Speaker appointed Reps. Hunt, Biggie, Fromuth and Williams.

CONSENT CALENDAR

Rep. Hinch moved that the Consent Calendar with the relevant amendments as printed in the day's House Record be adopted.

HB 656-FN-A-L, relative to the legalization and regulation of marijuana, removed by Rep. Cushing.

HB 1819-FN, relative to administration of the education tax credit, removed by Rep. Kurk.

Consent Calendar adopted.

HB 1471-FN, relative to telemedicine. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Edward Butler for Commerce and Consumer Affairs. This bill passed the House Health, Human Services and Elderly Affairs Committee with a strong recommendation of Ought to Pass with Amendment and passed the House on a voice vote. The job of the Commerce and Consumer Affairs Committee was to look at the issue of payment and insurance coverage and we simply did not have enough time to deliberate all aspects of this complex issue. Currently reimbursement for telemedicine services is made at a singular discount even though, at times, the cost to the provider is the same as if the service is provided in the clinical setting. But at times, significant efficiencies and savings can be achieved through the provision of telemedicine services. So, the Commerce and Consumer Affairs Committee decided to create a study committee to further explore the issue of reimbursement. We made no other changes to the body of the bill. Vote 16-0.

Amendment (1122h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to telemedicine and establishing a committee to study health care reimbursement for telemedicine and telehealth.

Amend the bill by replacing all after section 2 with the following:

3 Coverage for Telemedicine Services. Amend RSA 415-J:3, I to read as follows:

I. It is the intent of the general court to recognize the application of telemedicine for covered services provided within the scope of practice of a physician or other health care provider as a method of delivery of medical care by which an individual *at an originating site* shall receive medical services *which are clinically appropriate for delivery through telemedicine* from a health care provider *at a distant site* without in-person contact with the provider.

4 Committee Established. There is established a committee to study health care reimbursement for telemedicine and telehealth.

5 Membership and Compensation.

I. The members of the committee shall be as follows:

(a) Four members of the house of representatives, at least one of whom shall be a member of the commerce and consumer affairs committee and one of whom shall be from the health, human services and elderly affairs committee, appointed by the speaker of the house of representatives.

(b) One member of the senate, appointed by the president of the senate.

II. Members of the committee shall receive mileage at the legislative rate when attending to the duties of the committee.

6 Duties. The committee shall study health care reimbursement for telemedicine and telehealth. The committee shall solicit information and testimony from any individual or entity the committee deems relevant to its study.

7 Chairperson; Quorum. The members of the study committee shall elect a chairperson from among the members. The first meeting of the committee shall be called by the first-named house member. The first meeting of the committee shall be held within 45 days of the effective date of this section. Three members of the committee shall constitute a quorum.

8 Report. The committee shall report its findings and any recommendations for proposed legislation to the speaker of the house of representatives, the president of the senate, the house clerk, the senate clerk, the governor, and the state library on or before November 1, 2018.

9 Effective Date.

I. Sections 1-3 of this act shall take effect 60 days after its passage.

II. The remainder of this act shall take effect upon its passage.

AMENDED ANALYSIS

This bill clarifies the law relating to telemedicine services. This bill also establishes a committee to study health care reimbursement for telemedicine and telehealth.

HB 407-FN, requiring workers' compensation to cover prophylactic treatment for exposure. **OUGHT TO PASS WITH AMENDMENT.**

Rep. J. Tracy Emerick for Finance. This bill requires workers' compensation to cover prophylactic treatment for an identified occupational exposure for first responders, which is critically needed coverage for those who respond to a variety of scenes from car accidents to responding to a simple 911 call or to a greater tragedy. The bill adds hepatitis C virus to the already previously identified bloodborne diseases eligible for prophylactic

treatment. It adds a new paragraph that establishes such treatment for airborne diseases. The definition for post-exposure prophylaxis treatment was added. This treatment means preventive medical treatment started after an identified critical exposure or unprotected exposure in order to prevent infection and the development of disease. Expenses associated with the medical evaluation and recommended post-exposure prophylaxis treatment for emergency responders, county and state corrections officers and public safety workers should be paid by the employer's insurance carrier or third-party administrator and such treatment will be provided without prejudice as to the issue of the causal relationship of any subsequently diagnosed bloodborne disease of airborne disease to such workers. Vote 26-0.

Amendment (2453h)

Amend the bill by replacing all after the enacting clause with the following:

1 Workers' Compensation; Medical, Hospital, and Remedial Care. Amend RSA 281-A:23, VI to read as follows:

VI. An employer subject to this chapter, or the employer's insurance carrier, may furnish or cause to be furnished, testing for the presence of a bloodborne disease when a critical exposure that arises out of and in the course of employment occurs. Such testing shall be provided without prejudice as to the issue of the causal relationship of any subsequently diagnosed bloodborne disease to the employee's work and without prejudice to the compensability of the bloodborne disease as an occupational disease or an accidental injury for the purposes of RSA 281-A. Notwithstanding the foregoing, any costs for testing associated with a testing order issued pursuant to RSA 141-G:11 shall be paid for by the employer's insurance carrier. Such payment shall be provided without prejudice as to the issue of the causal relationship of any subsequently diagnosed disease or injury. ***In addition, all expenses associated with evaluation and care provided pursuant to RSA 141-G including prophylactic treatment shall be paid for by the employer's insurance carrier.***

2 Effective Date. This act shall take effect January 1, 2019.

AMENDED ANALYSIS

This bill requires workers' compensation to cover prophylactic treatment for an identified occupational exposure pursuant to RSA 141-G.

HB 609-FN-A, establishing a student career and college investment program and making an appropriation therefor. **REFER FOR INTERIM STUDY.**

Rep. Daniel Eaton for Finance. This bill would offer financial literacy training along with the option of educational savings accounts. While the bill as presented has great merit, the recent changes in federal tax law may have some unintended consequences. Because those changes have not yet been sorted out and the bill is at deadline, the committee chose interim study to allow the time to present a fully vetted and finished bill. Vote 26-0.

HB 1411-FN-A, relative to funds transferred to the nongame species account. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Robert Theberge for Finance. The Fish and Game Department exists with multiple designated funds, one of which is the nongame species funds. As the guardian of wildlife in the state, the Fish and Game Department understands that it must deal with all our citizens who enjoy viewing wildlife, not just hunters and fishermen. When citizens who worry about the nongame species make contributions to that species fund, they expect their contribution to be dedicated to, and show results for, some of our smaller animals. They may be rabbits, turtles, butterflies or bats. All species contribute in some way to our state. They might serve as the food source for other larger game animals or reduce the number of troublesome insects. When the Fish and Game Department began the nongame species fund, donations were small and a limit of \$50,000 was used in transferring money into this fund for specific projects. Since that time, efforts by Fish and Game biologists have yielded some noteworthy results. Not only have turkey populations been restored to the point that they are now a game species, but efforts are currently underway to restore the dwindling New England cottontail populations. In recent years the contribution of our citizens has exceeded \$100,000. In recognition of this effort, and encouraging our biologists in their important endeavors, this bill increases the nongame fund limit from \$50,000 to \$100,000. The committee believes that the state should recognize our citizens' effort and do the same. Vote 26-0.

Amendment (0805h)

Amend the bill by replacing section 2 with the following:

2 Effective Date. This act shall take effect July 1, 2019.

HB 1698-FN-L, relative to the cost of special education services for foster children. **OUGHT TO PASS.**

Rep. Kenneth Weyler for Finance. The bill is rather a simple solution to what had become problematic in deciding how a student with an Individual Education Program (IEP) as a result of being coded Special Ed (SPED) would have that SPED program paid for if circumstances developed where the student ends up in a home or foster care placement outside of the school district where the child originated. The sending district is the child's originating district and the one responsible for paying prorated costs of the program or services, or even out-of-district placement in the IEP from the sending district. The bill was passed by the Education Committee and the NH House, and the Finance Committee saw no reason to change it. Vote 26-0.

HB 1745-FN-A, making appropriations for costs involved in controlling invasive aquatic species. **INEXPEDIENT TO LEGISLATE.**

Rep. Lynne Ober for Finance. This bill proposes making appropriations for costs involved in controlling invasive aquatic species. Currently boat owners pay a small fee on their registrations to help control these invasive weeds. However, this bill proposes a 5-year plan with an appropriation of \$10 million needed immediately. When discussing how to pay for this program at this point, the prime sponsor said that he believed this belongs in the budget and was raising visibility of the need for this program this session and plans to bring this bill back next year when the budget is being discussed. The committee agreed with him that this expenditure belongs in the budget and is recommending ITL at this time, with a thorough examination next year when the budget is being crafted. Vote 24-0.

HB 1817-FN, establishing the position of state demographer and a commission on demographic trends; requiring state agencies to prepare a 10-year current services budget; and requiring demographic impact notes on legislation. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Neal Kurk for Finance. The title describes the bill as it came to Finance. The Finance amendment allows a qualified economist to be the state demographer; more accurately describes what the selected state agencies are required to prepare as a 10-year cost projection rather than a 10-year current services budget; allows the Department of Health and Human Services to use more of its existing procedures to reduce costs in preparing its 10-year cost projections; requires the Legislative Budget Assistant to submit a report to House and Senate finance committees in each budget year that summarizes the 10-year cost projections; and provides funding for the part-time contract demographer position for FY 2019 to come from existing appropriations to the Office of Strategic Initiatives. Vote 23-2.

Amendment (1067h)

Amend the title of the bill by replacing it with the following:

AN ACT establishing the position of state demographer and a commission on demographic trends; requiring state agencies to prepare 10-year current services cost projections; and relative to the inclusion of a demographic analysis as part of the legislative fiscal note process.

Amend RSA 4-C:36, I and II as inserted by section 1 of the bill by replacing them with the following:

I. There is established within the office of strategic initiatives, the position of state demographer.

II. The state demographer shall be professionally competent in demography and possess demonstrated ability based on past performance. An appropriately qualified economist may hold the position.

Amend RSA 4-C:37, II(d) as inserted by section 1 of the bill by replacing it with the following:

(d) The state demographer or designee of the director of the office of strategic initiatives.

Amend the bill by replacing section 2 with the following:

2 New Sections; Budget and Appropriations; Ten-Year Current Services Cost Projections; Legislative Reporting Requirement. Amend RSA 9 by inserting after section 9:9-c the following new sections:

9:9-d Ten-Year Current Services Cost Projections.

I. Each of the following state agencies shall provide 10-year cost projections for the identified service or program:

(a) The department of administrative services: state retiree health insurance, and in conjunction with the department of revenue administration, state revenues.

(b) The state treasurer: debt service.

(c) The department of education: adequate education grants.

(d) The New Hampshire retirement system: state employer retirement contributions.

II. The cost projections shall be based on current policy, programs, and tax rates, and shall be adjusted only for demographically-induced changes in demand for public services and projected effects on state government revenues and expenditures.

9:9-e Department of Health and Human Services; Ten-Year Current Services Cost Projections.

I. The department of health and human services shall provide 10-year cost projections for the identified service or program:

(a) Uncompensated care.

(b) Medicaid care management.

(c) Medicaid-funded home and community based waiver services: Choices for Independence, Developmental Services, Acquired Brain Disorder, and Children's In Home Services.

(d) Nursing home services.

II. The cost projections required in paragraph I for years one through 5 shall be based on the best available data and information available to the department to ensure accurate and reliable information is provided to the public and the general court.

III. The cost projections required in paragraph I for years 6 through 10 shall be based on current policy, programs, and federal and state law, and shall assume economic and other external factors remain static.

IV. The department shall issue the cost projections by September 30, 2019 and shall issue new projections every 2 years thereafter, or upon notice to the department by the state demographer of demographically-induced changes in demand for public services and projected effects on state government revenues.

9:9-f Legislative Report of 10-Year Current Services Cost Projections. On or before February 1 of each budget year, prior to the transmission of the budget to the legislature under RSA 9:2, the legislative budget assistant, in consultation with the state demographer, shall provide to the house and senate finance committees, a report with the 10-year current services cost projections described in RSA 9:9-d and RSA 9:9-e and any other relevant factors identified by the legislative budget assistant or state demographer. The report also shall be posted on the general court website.

Amend the bill by replacing all after section 3 with the following:

4 Phase-in, Funding for Position of State Demographer. The position of state demographer shall be a part-time contract position in fiscal year 2019 and a full-time position beginning in fiscal year 2020. For fiscal year 2019, appropriations to the office of strategic initiatives in 2017, 155 shall be used to fund the part-time position.

5 Effective Date.

I. Section 3 of this act shall take effect July 1, 2019.

II. The remainder of this act shall take effect July 1, 2018.

AMENDED ANALYSIS

This bill establishes the position of state demographer in the office of strategic initiatives; establishes a commission on demographic trends; requires certain state agencies to prepare 10-year current services cost projections for identified programs; and requires the legislative budget assistant to include a demographic analysis as part of the fiscal note for certain legislation.

REGULAR CALENDAR - PART III CONT'D

HB 1707-FN, relative to information regarding abortion. **MAJORITY: REFER FOR INTERIM STUDY. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. William Marsh for the Majority of Health, Human Services and Elderly Affairs. The majority recognizes the advantage of women having sufficient knowledge before undergoing an abortion, especially as they might live to regret that decision. The majority recognizes that this bill might create access issues for women seeking abortion, especially those from rural areas. The bill has a significant defect. Page 4 lines 19-21 would prohibit a physician from billing for an unrelated service, for instance, if the patient had a heart attack 12 hours after inquiring about abortion. For these reasons we recommend Interim Study. Vote 11-9.

Rep. Lucy Weber for the Minority of Health, Human Services and Elderly Affairs. As introduced, this bill contains specific requirements for what information must be given to a pregnant woman as "required informed consent." It provides that certain information must be provided to the woman in person by a physician at least 24 hours before an abortion is to be performed. The bill provides that any departure from this schedule, except for limited medical emergencies, will be cause for a civil malpractice action, allowing for not only actual damages but also for punitive damages. Finally, in a new departure, the bill gives the General Court the right to appoint one or more of the cosponsors of the bill as intervenors as of right in any action challenging the constitutionality of the bill. The minority knows that informed consent is required of every patient undergoing medical procedures, and believes that the form of informed consent for every medical procedure is best left to the judgment of medical professionals and the standards of accepted medical practice. These standards evolve as medical knowledge grows, and the legislative process does not adapt itself well to changing knowledge. The minority is also concerned that this bill, by its terms, creates a 24-hour waiting period which is unnecessary for many women seeking a safe and legal medical procedure. As to interim study, this particular issue has been hotly debated for at least the past 50 years. The minority believes it is overly optimistic to think that sending this bill to interim study is going to achieve a resolution.

Majority committee report adopted.

HB 1816-FN, relative to Medicaid managed care. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: OUGHT TO PASS WITH AMENDMENT.**

Rep. Martin Bove for the Majority of Health, Human Services and Elderly Affairs. This bill, as amended, takes three important steps to improve the performance and integrity of the state's Medicaid program. First, it requires the state Department of Health and Human Services (DHHS) to include enhanced eligibility screening in the re-procurement of the Medicaid managed care contracts to ensure that those who are signed up for that program are truly meeting eligibility criteria, are not hiding assets or income that should disqualify them from Medicaid, have not moved out of state, become deceased. This should immediately stop taxpayers from paying monthly payments for ineligible individuals. Second, the program would require that DHHS monitor the managed care contracts to ensure that insurers are meeting standards for medical loss ratios that insurers who operate in the state health care marketplace must now meet. This will ensure that managed care

companies do not substantially profit on the backs of state taxpayers and that the funds that taxpayers are paying managed care companies are actually going to patient care. Finally, the bill exempts from Medicaid managed care five important services: nursing facilities services, Choices for Independence (formerly known as home and community-based care) services, developmental disability services, in-home support services, and acquired brain disorder services. These services will continue under their current fee-for-service payment programs, as the committee was concerned that including them under the managed care model would reduce their reimbursement rates and put the organizations which provide those services, including county nursing homes, in financial jeopardy. Vote 13-9.

Rep. Lucy Weber for the Minority of Health, Human Services and Elderly Affairs. The minority of the committee agree with the majority that the nursing facility services and choices for independence waivers required under current law to be implemented by July 1, 2019, should remain unimplemented. The minority amendment contains the same language as the majority amendment with regard to this issue. The minority amendment eliminates the two other provisions of the majority amendment. The minority believes that the section on enhanced eligibility screening is unnecessary and might drive uncompensated care costs up. The minority believes that the language requiring managed care organizations to meet the federal medical loss ratio is drafted in a confusing manner, and there was testimony from the managed care organizations that they already exceed the ratio. As drafted this provision has the potential to require the managed care organizations to put fewer dollars into actual medical care rather than more.

Majority Amendment (0864h)

Amend the bill by replacing all after the enacting clause with the following:

1 New Subparagraphs; Medicaid Managed Care Program; Waiver; Eligibility; Medical Loss Ratio. Amend RSA 126-A:5, XIX by inserting after subparagraph (g) the following new subparagraphs:

(h) The commissioner shall develop and implement enhanced eligibility screening to stop payments in a timely manner to providers for services for those persons who are no longer eligible.

(i) The commissioner shall require managed care organizations to meet the federal medical loss ratio. The nonfederal share of any surplus funds accumulated under this subparagraph shall be deposited in the general fund.

(j) Notwithstanding any provision of law to the contrary, including 2017, 258:1, the remaining unimplemented phases of the Medicaid managed care program, established in this paragraph, specifically nursing facility services and services provided under the choices for independent waiver, the developmental disabilities waiver, the in-home supports waiver, and the acquired brain disorder waiver, issued by the Centers for Medicare and Medicaid Services under 42 U.S.C. section 1396(c), shall not be implemented.

2 Effective Date.

I. RSA 126-A:5, XIX(j) as inserted by section 1 of this act shall take effect upon its passage.

II. The remainder of this act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill declares that the remaining unimplemented phases of step 2 of the program shall not be implemented. This bill also requires the commissioner of the department of health and human services implement enhanced eligibility screening and require managed care organizations to meet the federal medical loss ratio provision with any nonfederal surplus to be deposited into the general fund.

Majority committee amendment adopted.

Majority committee report adopted and ordered to third reading.

HB 1279, allowing additional charges under a lease to be included in a demand for rent. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Kurt Wuelper for the Majority of Judiciary. This bill seeks to allow landlords to include late fees and utility bills in a demand for rent. The majority thinks this would create a conflict with the current eviction periods for non-payment of rent (7 days) and nonpayment of utilities (30 days). Testimony of landlords' representatives supported that position. The addition of late fees would change the way our law treats them differently from rent. For these reasons, the majority recommends the bill be found Inexpedient to Legislate. Vote 12-6. Rep. Michael Sylvia for the Minority of Judiciary. This bill would allow charges for late fees, utility costs, and other such costs in a demand for rent. Currently the demand for rents in arrears is limited to just the past due rent. A demand for rent cannot include the cost of utilities which may have been cut off by the tenant and restored under the owner's account, in violation of the lease. The demand cannot include late fees or charges for damages caused by the tenant. A landlord who fails to understand the complex landlord tenant statutes and proceeds to court with a demand that includes anything more than rents in arrears will find himself back at square one as the demand will be ruled defective. Excessive regulation of landlords such as this lead to fewer actors entering the market. This constrains the number of rental units available which drives rents higher than is affordable to many. Because the statutes in this area are complex, please note that a notice of demand for rent is not a notice of eviction, though the first may lead to the latter.

The question being adoption of the majority committee report of Inexpedient to Legislate.
 Rep. Sylvia spoke against.
 Rep. Wuelper spoke in favor.
 Rep. Howard requested a roll call; sufficiently seconded.

and the majority committee report was adopted.
Rep. Notter voted Yea and intended to vote Nay.

HB 1295, relative to persons held in civil contempt. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Kurt Wuelper for Judiciary. This bill seeks to require a “finding of fact” that a person has liquid assets to satisfy a civil contempt order before sending that person to jail. It also seeks to protect a “sole motor vehicle”

and “principal residence.” The committee couldn’t accept protecting “financial assets” but agreed the person should be allowed to protect a principal residence or sole auto, within the confines of current law establishing a “homestead exemption” and an auto with value up to \$4,000 so such person can keep a place to live and a means to get to work. Vote 14-3.

Amendment (0627h)

Amend the bill by replacing section 1 with the following:

1 New Section; Penalties; Civil Contempt. Amend RSA 458 by inserting after section 52 the following new section:

458:53 Penalties; Civil Contempt. Notwithstanding any other provision of law, no family division circuit court shall incarcerate a person for civil contempt without findings of fact to support such action. In addition, no person shall be required to sell his or her principal residence, the value of which does not exceed the amount of the homestead exemption in RSA 480:1, or to sell his or her sole motor vehicle, the value of which does not exceed the amount specified in RSA 511:2, XVI, to satisfy a finding of civil contempt.

Committee amendment adopted.

The question now being adoption of the committee report of Ought to Pass with Amendment.

Rep. Horrigan spoke against.

Rep. Itse spoke in favor and requested a roll call; sufficiently seconded.

and the committee report was adopted and ordered to third reading.

HB 1347, relative to information to be included in the minutes under the right-to-know law. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Jason Janvrin for Judiciary. This bill would require all public meetings of public bodies to include in their minutes any pertinent information relating to decisions that are made by the body. It does not require a manuscript of every word spoken but instead a brief summary of comments made in deliberations of the body that led to a vote and vote of the body. A majority of the committee believes that this change further brings the public's right to know and transparency to the action of any public body into alignment with the preamble of RSA 91-A. Vote 8-7.

Amendment (0442h)

Amend RSA 91-A:2, II as inserted by section 1 of the bill by replacing it with the following:

II. Subject to the provisions of RSA 91-A:3, all meetings, whether held in person, by means of telephone or electronic communication, or in any other manner, shall be open to the public. Except for town meetings, school district meetings, and elections, no vote while in open session may be taken by secret ballot. Any person shall be permitted to use recording devices, including, but not limited to, tape recorders, cameras, and video-tape equipment, at such meetings. Minutes of all such meetings, including nonpublic sessions, shall include the names of members, persons appearing before the public bodies, and a brief description of the subject matter discussed and final decisions. ***The names of the members who made or seconded each motion and a brief summary of comments made during deliberations shall be recorded in the minutes. All relevant details necessary to enact or implement a motion shall be recorded in the minutes.*** Subject to the provisions of RSA 91-A:3, minutes shall be promptly recorded and open to public inspection not more than 5 business days after the meeting, except as provided in RSA 91-A:6, and shall be treated as permanent records of any public body, or any subordinate body thereof, without exception. Except in an emergency or when there is a meeting of a legislative committee, a notice of the time and place of each such meeting, including a nonpublic session, shall be posted in 2 appropriate places one of which may be the public body's Internet website, if such exists, or shall be printed in a newspaper of general circulation in the city or town at least 24 hours, excluding Sundays and legal holidays, prior to such meetings. An emergency shall mean a situation where immediate undelayed action is deemed to be imperative by the chairman or presiding officer of the public body, who shall post a notice of the time and place of such meeting as soon as practicable, and shall employ whatever further means are reasonably available to inform the public that a meeting is to be held. The minutes of the meeting shall clearly spell out the need for the emergency meeting. When a meeting of a legislative committee is held, publication made pursuant to the rules of the house of representatives or the senate, whichever rules are appropriate, shall be sufficient notice. If the charter of any city or town or guidelines or rules of order of any public body require a broader public access to official meetings and records than herein described, such charter provisions or guidelines or rules of order shall take precedence over the requirements of this chapter. For the purposes of this paragraph, a business day means the hours of 8 a.m. to 5 p.m. on Monday through Friday, excluding national and state holidays. Committee amendment adopted.

The question now being adoption of the committee report of Ought to Pass with Amendment.

Rep. Kenison spoke against.

Rep. Sylvia spoke in favor and yielded to questions.

Committee report adopted and ordered to third reading.

HB 1373, relative to an individual's property right in his or her DNA. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Dan Hynes for the Majority of Judiciary. This bill, as amended, recognizes that people have a privacy right in their DNA and genetic information. This would prevent people or companies from obtaining it without consent of the individual. This bill allows police to retain and analyze genetic information through consent, abandoned property, probable cause of a crime being committed or through a search warrant. It is not the intent of the committee to create an additional warrant exception under the state and federal constitution. Vote 9-6.

Rep. Suzanne Smith for the Minority of Judiciary. The minority agrees that an individual's genetic information and DNA are the property of the individual. However, this bill as amended may create more problems than the sponsors of this legislation anticipated. As amended, a person retains no right to their abandoned property. Abandoned property could be the trash outside of his or her home or even a glass left on the bar at their local watering hole. The committee spent considerable time discussing and debating the concept of "abandoned property," especially in terms of DNA on otherwise discarded property, without reaching a consensus on what the term means in this bill. The bill as amended also requires that to obtain the DNA of a juvenile under the age of 18, both parents and the juvenile must consent to the taking of any genetic information or DNA. This could be especially problematic if a teenager is not living with his parents or they do not know his whereabouts. As amended, this bill may well interfere with legitimate and necessary law enforcement (LEO) efforts. Often when a LEO observes and seizes potential evidence at a crime scene, such evidence is seized on reasonable suspicion, a standard lower than what this bill would require in terms of a search warrant or probable cause. For an officer to delay in securing evidence at a crime scene because there is no current search warrant nor fully developed probable cause will potentially harm public safety. For these and other unintended consequences, the minority believes this bill should be voted ITL.

Majority Amendment (0740h)

Amend the bill by replacing all after section 2 with the following:

3 New Sections; Individual's Right to Genetic Information. Amend RSA 141-H by inserting after section 2 the following new sections:

141-H:2-a Individual Right to Genetic Information. An individual has a reasonable expectation of privacy in his or her genetic information and has a property interest in his or her physical DNA sample and, except as expressly otherwise provided in statute, neither the information nor sample shall be acquired, retained, or disclosed without the written consent of the individual or his or her legal representative or, after the individual's death, his or her executor or other legal representative. If the individual is a juvenile, the juvenile and his or her parents must consent. Consent shall not be given in return for the resolution of a criminal case. This section shall not apply to abandoned property or to the identification of individuals in criminal investigations if the government has a search warrant or probable cause or has obtained the information or sample pursuant to RSA 651-C.

141-H:2-b Consent to Retain Information and Physical DNA Sample.

I. Any genetic information or physical DNA sample obtained by consent as authorized under RSA 141-H:2-a or with a warrant signed by a judge or based on probable cause, or pursuant to a judicially-recognized exception to the warrant requirement shall be retained for a specific purpose only and shall be destroyed and permanently deleted from all records once the genetic information and/or physical DNA sample has been used for the specific purpose for which consent was given.

II. This section shall not apply to the identification of individuals in criminal investigations if the government has obtained the sample pursuant to RSA 651-C.

4 Effective Date. This act shall take effect January 1, 2019.

Majority committee amendment adopted.

The question now being adoption of the majority committee report of Ought to Pass with Amendment.

Rep. Berch spoke against and yielded to questions.

Rep. Hynes spoke in favor.

Rep. Berch requested a roll call; sufficiently seconded.

and the majority committee report was adopted and ordered to third reading.

HB 1485, relative to security deposits. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Charlotte DiLorenzo for the Majority of Judiciary. This bill is not necessary. A security deposit equal to one-month rent is sufficient to cover the landlord's rent loss and damages in the event of an eviction. Opponents of this bill include renter, homeless prevention agencies, municipal welfare offices and even some landlords. They cite New Hampshire Housing 2017 Rental Market Survey which shows low vacancy rates and rising rents through the state. The lack of available work force and affordable housing units has resulted in a crisis in which many New Hampshire residents are locked out of the rental housing market. If this bill were to pass, it will exacerbate the affordable housing crisis because only renters who have the means to pay more in cost equivalent to three month's rent would secure housing. If this bill is passed, Section 8 rental voucher holders would be locked out of the market because HUD (Department of Housing and Urban Development) prohibit Section 8 landlords from collecting a security deposit more than one month rent. This bill is bad for New Hampshire. Vote 10-8.

Rep. Dan Hynes for the Minority of Judiciary. The minority of the committee supports the passage of this bill. This bill would allow but not require landlords to charge up to two (2) month's rent as a security deposit. Under present law landlords can only charge one (1) month deposit. Additionally, landlords are prohibited from charging last month's rent or even a separate security deposit for pets. Because one month's rent does not always protect the landlord, the landlord is forced to increase the monthly rent in order to protect the property interest. Further, this bill would encourage landlords to rent to people with less than ideal credit as the landlord can use a higher security deposit to offset the risk. Finally, the committee heard testimony that New Hampshire has the most restrictive form of security deposit among our neighboring states.

The question being adoption of the majority committee report of Inexpedient to Legislate.

Rep. Hynes spoke against and yielded to questions.

Rep. DiLorenzo spoke in favor.

Rep. Gould spoke against and requested a roll call; sufficiently seconded.

and the majority committee report was adopted.

MOTION TO RECONSIDER

Having voted with the prevailing side, Rep. Kurk moved that the House reconsider its action whereby, on a voice vote, the House adopted the committee report of Ought to Pass with Amendment on **HB 407-FN**, requiring workers' compensation to cover prophylactic treatment for exposure.

Rep. Kurk spoke in favor.
Motion adopted.

The question now being adoption of the committee report of Ought to Pass with Amendment.
Rep. Kurk offered floor amendment (0817h).

Floor Amendment (0817h)

Amend the bill by replacing all after the enacting clause with the following:

1 New Paragraph; Workers' Compensation; Definitions. Amend RSA 281-A:2 by inserting after paragraph I-a the following new paragraph:

I-aa. "Airborne disease" means pathogenic microorganisms that may be discharged through respiratory secretions and can cause disease in humans through inhalation or contact with a mucous membrane. In this chapter these are defined as pertussis, meningococcal disease, and tuberculosis.

2 Workers' Compensation; Definitions. Amend RSA 281-A:2, I-d and I-e to read as follows:

I-d. "Bloodborne disease" means pathogenic microorganisms that are present in human blood and can cause disease in humans. These pathogens include, but are not limited to, hepatitis B virus (HBV), **hepatitis C virus**, and human immunodeficiency virus (HIV).

I-e. "Critical exposure" means contact of an employee's ruptured or broken skin or mucous membrane with a person's blood or body fluids, other than tears, saliva, or perspiration, **unless these are visibly contaminated with blood**, of a magnitude that can result in transmission of bloodborne disease.

3 New Paragraph; Workers' Compensation; Definitions. Amend RSA 281-A:2 by inserting after paragraph V-b the following new paragraph:

V-c. "Emergency response/public safety worker" means call, volunteer, or regular firefighters; law enforcement officers certified under RSA 106-L; certified county corrections officers; and rescue or ambulance workers including ambulance service, emergency medical personnel, first responder service, and volunteer personnel.

4 Workers' Compensation; Definitions. Amend RSA 281-A:2, XIV-a to read as follows:

XIV-a. "**Post-exposure prophylaxis**" means **preventive medical treatment started after an identified critical exposure or unprotected exposure in order to prevent infection and the development of disease, in accordance with standards promulgated by the Centers for Disease Control and Prevention, United States Department of Health and Human Services.**

XIV-b. "**Unprotected exposure**" includes instances of direct mouth-to-mouth resuscitation or the commingling of blood or other potentially infectious material of a source individual and an emergency response/public safety worker which is capable of transmitting a bloodborne or airborne disease.

XIV-c. "Rehabilitation provider" as used in this chapter includes any person certified as a vocational rehabilitation provider under RSA 281-A:68 or RSA 281-A:69 and who operates for the purpose of assisting in the rehabilitation of disabled persons through an integrated program of medical and other services which are provided under competent professional supervision.

5 Workers' Compensation; Medical Hospital, and Remedial Care. Amend RSA 281-A:23, VI to read as follows:

VI. An employer subject to this chapter, or the employer's insurance carrier, may furnish or cause to be furnished, testing for the presence of a bloodborne disease when a critical exposure that arises out of and in the course of employment occurs. Such testing shall be provided without prejudice as to the issue of the causal relationship of any subsequently diagnosed bloodborne disease to the employee's work and without prejudice to the compensability of the bloodborne disease as an occupational disease or an accidental injury for the purposes of RSA 281-A. Notwithstanding the foregoing, any costs for testing associated with a testing order issued pursuant to RSA 141-G:11 shall be paid for by the employer's insurance carrier **or third-party administrator**. Such payment shall be provided without prejudice as to the issue of the causal relationship of any subsequently diagnosed disease or injury.

VI-a. **All expenses associated with the medical evaluation and recommended post-exposure prophylaxis treatment for emergency response/public safety workers shall be paid by the employer's insurance carrier or third-party administrator. Such medical evaluation and prophylaxis treatment shall be provided without prejudice as to the issue of the causal relationship of any subsequently diagnosed bloodborne disease or airborne disease to the emergency response/public safety worker's work and without prejudice to the compensability of the bloodborne disease or airborne disease as an occupational disease or an accidental injury for the purposes of this chapter.**

6 Effective Date. This act shall take effect January 1, 2019.

Floor amendment (0817h) adopted.

Committee report adopted and ordered to third reading.

REGULAR CALENDAR - PART III CONT'D

HB 1627-FN, prohibiting the transmission of images or sounds of another person who is on private property or to conduct surveillance activity. **MAJORITY: OUGHT TO PASS. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Dan Hynes for the Majority of Judiciary. This bill criminalizes violating someone's privacy by filming them where they have an expectation of privacy. The bill provides exceptions so that someone observable on at the ground level on a space observed by the public can be filmed. This is consistent with present law which allows someone to record someone in a public place where there is no expectation of privacy. The bill would further prohibit certain surveillance for financial gain. Vote 9-8.

Rep. Charlotte DiLorenzo for the Minority of Judiciary. This bill establishes penalties for transmitting images or sounds of an individual on private property without consent, or to engage in surveillance of another without consent. The bill also amends one of the criteria used to establish "course of conduct" under the stalking statute. While the intent of this bill is to protect the privacy of individuals, consideration must be given to legitimate law enforcement concerns of balancing individual privacy rights vs. the legitimate law enforcement crime investigation protocol.

The question being adoption of the majority committee report of Ought to Pass.

Rep. Stone spoke against.

(Rep. Packard in the Chair)

Rep. DiLorenzo spoke against.

Rep. Hynes spoke in favor and requested a roll call; sufficiently seconded.

and the majority committee report was adopted and ordered to third reading.

HB 1680-FN, relative to abortions after viability. **MAJORITY: OUGHT TO PASS. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Kurt Wuelper for the Majority of Judiciary. This bill prohibits abortions on babies who can live outside of the mother's womb, except when the alternative poses significant risk to the life or health of the mother. HB 1680 implements the compelling state interest in protecting viable babies without imposing on the physician or the mother. This is about the values that define us. We see potential in every life—including the pre-born, and we recognize that the pre-born has been endowed by her Creator with the inalienable right to life. We believe that viable babies should be allowed to live even if they have Down's syndrome or are otherwise less than perfect. We know there are long waiting lists to adopt any baby whose mother is incapable of supporting her. We know every ObGyn with a pregnant patient has two patients, mother and child, and uses all their skills to protect both. We believe they law should do the same. The majority believes that NH should never be a haven for those like Kermit Gosnell, the Pennsylvania abortionist who heartlessly snipped the spinal cords of "accidentally" born babies. We are proud to support legislation that reflects our values and protects the sanctity of life. The majority stands in the gap, defending the most defenseless, and giving voice to the voiceless. Twenty other states have post viability bans, and New Hampshire should join them by adopting HB 1680. Vote 10-8.

Rep. Charlotte DiLorenzo for the Minority of Judiciary. This bill, by seeking to prohibit abortion after viability, would open the door to challenge the decisions of doctors who treat women later in pregnancy. Viability differs based on the pregnancy, the gender of the fetus, and even the capacity of the medical facility. A blanket ban would replace the analysis and decisions of doctors with the inflexible opinion of government, and risk a chilling effect. This is made worse by the bill's lack of an exception for the health of the pregnant woman. Decisions about a woman's pregnancy should be made between the woman and her doctor in the privacy of the doctor's office without undue interference from lawmakers. Moreover, this bill is not needed, as abortions after viability are not routinely performed in New Hampshire. Instead, this bill would serve only to create a hostile environment for physicians and compromise their ability to provide individualized care for their patients.

MOTION TO LAY ON THE TABLE

Rep. Eaton moved that **HB 1680-FN**, relative to abortions after viability, be laid on the table.

Rep. Notter requested a roll call; sufficiently seconded.

REGULAR CALENDAR - PART III CONT'D

HB 1701, making the Coakley Landfill Group subject to the provisions of RSA 91-A. **MAJORITY: REFER FOR INTERIM STUDY. MINORITY: OUGHT TO PASS.**

Rep. Linda Kenison for the Majority of Judiciary. RSA 91-A is in place to allow citizens access to governmental records and meetings. RSA 91-A does not apply to private companies, businesses or other private entities. This bill would require Coakley Landfill Group, a private group (which includes the City of Portsmouth, Towns of North Hampton and Newington and 26 private companies) to produce records pursuant to RSA 91-A. Requesting a private entity to produce records under RSA 91-A, is not the intent or purpose of RSA 91-A and would have unintended consequences and additional burdens for N.H. private businesses and entities. As drafted this bill would require the commissioner of DES demand that Coakley Landfill Group, a closed landfill located in Greenland and North Hampton that was operated from 1972 to the early 1980's, produce all records pertaining to site remediation. According to testimony the Coakley Landfill Group records are already public and available for review at document repositories located at the North Hampton and Greenland public libraries. Additionally, individuals who were seeking records never made a request to the City of Portsmouth or to the EPA, both of which are subject to the Right-to-Know law. After this bill was heard in committee, it appears that requests for records to the appropriate public entities have been made. The bill as written is unwise and unnecessary. Vote 9-6.

Rep. Timothy Horrigan for the Minority of Judiciary. The Coakley Landfill Group is a rather mysterious entity which has been carrying out remediation activities for many years. Even though its membership includes three municipalities, the available public record is incomplete. Recently, the affected area has experienced a cluster of cancer cases. This bill would require the group to turn over its relevant records to the Department of Environmental Services, subject to the provisions of RSA 91-A the state Right-to-Know law. This is, in the opinion of the minority, a more effective means of answering the many unanswered questions related to the Coakley Landfill Group than merely convening an Interim Study Committee.

MOTION TO LAY ON THE TABLE

Rep. Hagan moved that **HB 1701**, making the Coakley Landfill Group subject to the provisions of RSA 91-A, be laid on the table.

On a division vote, with 238 members having voted in the affirmative, and 94 in the negative, the motion was adopted.

REGULAR CALENDAR - PART III CONT'D

HB 1721-FN, relative to coercive abortions. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Charlotte DiLorenzo for the Majority of Judiciary. This bill is purportedly intended to protect women from so-called coercive abortions, but it does so by targeting medical providers rather than individuals doing the “coercing.” Moreover, nowhere in the bill’s five pages does it define “coercion.” This bill claims to protect women from coercive abortion by dictating a specific screening process, ignoring the fact that health care providers are already legally and ethically required to obtain a patient’s independent informed consent. It is standard medical practice to provide patient education and informed consent for any medical procedure, yet this bill singles out abortion providers. In practice, this bill would impose an undue burden on a woman’s constitutional right by making it all but impossible for abortion providers to treat her. For instance, under the law, a woman who generally has a “negative view toward abortion” but nevertheless seeks to terminate her pregnancy is branded a “vulnerable person” for whom informed consent is inherently suspect. In such circumstances, this law compels state mandated speech in violation of the First Amendment by forcing health care providers to deliver the state’s message that a woman is a “vulnerable person” even if the provider does not agree with the statement. Due to these serious flaws in this bill, a bipartisan majority of this committee rejected this bill. Vote 15-3.

Rep. Kurt Wuelper for the Minority of Judiciary. The minority believes that far too many women are forced to “choose” abortion against their own desire or will. The extent of forced abortion has been well documented as part of the sex trafficking business. Testimony in writing and in person supported the need for this legislation. While opponents decry the bill’s focus on the abortion provider, the minority see that provider as the final point at which the coercion can be stopped. We see this bill as an important protection for vulnerable women from those who exploit legal abortion to enslave them.

The question being adoption of the majority committee report of Inexpedient to Legislate.

(Speaker Chandler in the Chair)

Rep. Notter requested a roll call; sufficiently seconded.

and the majority committee report was adopted.

HB 1393, relative to compensation for vacation time and personal time earned. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Alfred Baldasaro for the Majority of Labor, Industrial and Rehabilitative Services. The bill is a duplication of what is happening in New Hampshire when an employer terminates an employee and the employer is required to pay employee vacation and any personal time owed. Each case is different, depending on time on job and what has been earned. Vote 12-9.

Rep. Linda DiSilvestro for the Minority of Labor, Industrial and Rehabilitative Services. This legislation was an effort to end wage theft that can occur when earned time is lost due to employer policies or lack thereof. New Hampshire Department of Labor receives many claims each year but is unable to help workers recover wages, due to statutory silence on this matter.

The question being adoption of the majority committee report of Inexpedient to Legislate.

Rep. Cahill spoke against.

Rep. Baldasaro spoke in favor.

Rep. Somssich requested a roll call; sufficiently seconded.

and the majority committee report was adopted.

MOTION TO RECONSIDER

Having voted with the prevailing side, Rep. Hinch moved that the House reconsider its action whereby, on a roll call vote of 169-161, the House adopted the majority committee report of Inexpedient to Legislate on **HB 1393**, relative to compensation for vacation time and personal time earned.

Rep. Hinch spoke against.

On a division vote, with 160 members having voted in the affirmative, and 174 in the negative, the motion failed.

REGULAR CALENDAR - PART III CONT'D

HB 1397, relative to the rights of temporary workers. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: REFER FOR INTERIM STUDY.**

Rep. Troy Merner for the Majority of Labor, Industrial and Rehabilitative Services. The committee heard from five temporary staffing services and also from the Department of Labor and found no problems. The majority found no compelling reasons to recommend passage. Vote 12-9.

Rep. Douglas Ley for the Minority of Labor, Industrial and Rehabilitative Services. While the original bill had its share of flaws, a number of temporary employment agencies, labor organizations and state agencies were eager to have the opportunity to rework the bill. This would have required a motion of "Interim Study," which the majority was unwilling to support.

The question being adoption of the majority committee report of Inexpedient to Legislate.

On a division vote, with 179 members having voted in the affirmative, and 154 in the negative, the majority committee report was adopted.

HB 1417-FN, relative to failure to make workers' compensation payments. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Philip Bean for the Majority of Labor, Industrial and Rehabilitative Services. No empirical data exists to inform that the proposed legislation responds to the marketplace and labor phenomena. Current practices as evidenced by the New Hampshire Department of Labor methodology, indicate current remedies and platforms are sufficient to address workers compensation considerations as they relative to HB 1417. Vote 13-8. Rep. Douglas Ley for the Minority of Labor, Industrial and Rehabilitative Services. A very small number of insurance companies are often late with worker's compensation payments. The minority hoped to provide an incentive to resolve this recurrent problem by increasing the penalty.

Majority committee report adopted.

HB 1711-FN, relative to rehabilitation under the workers' compensation law. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: REFER FOR INTERIM STUDY.**

Rep. Troy Merner for the Majority of Labor, Industrial and Rehabilitative Services. This bill is a well-intended effort to help address part of the opioid problem, but it was found in testimony that its provisions are already covered under existing law. Vote 12-9.

Rep. Douglas Ley for the Minority of Labor, Industrial and Rehabilitative Services. The opioid crisis continues to rage in New Hampshire and this bill attempted to help resolve those problems that arise in worker's compensation. Those who become addicted to opioids due to worker's comp-funded treatment would have their addiction resolved under this bill. The minority would have preferred more time to work on some problems with the bill.

Majority committee report adopted.

HB 1716-FN, establishing apprenticeship programs for unemployed workers. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Brian Seaworth for the Majority of Labor, Industrial and Rehabilitative Services. The skilled trades are an excellent opportunity for many NH workers. NH has long supported apprenticeship programs for training new workers and NH's unions have a very successful set of programs which use public and private resources to advance this training. This bill would direct the Department of Employment Security and the NH Apprenticeship Council to explicitly funnel unemployed workers to union apprenticeship programs and to pay them their first three months wages using money from the Job Training Program for Economic Growth fund. This new language stands out as an earmark to private entities from an otherwise generally-applicable fund. The majority is concerned about the diversion of money from one type of training to another, and testimony did not detail what other programs might need to be cut back to pay for union-affiliated training. The majority would prefer to see this issue looked as part of NH's overall workforce and job training strategy. This committee unanimously recommended HB 1100 to establish a commission which will evaluate all government funded workforce and job training programs. Recommendations for reprioritization of training funds should be considered by this commission. Vote 11-10.

Rep. Douglas Ley for the Minority of Labor, Industrial and Rehabilitative Services. This bill proposes to include union craft-apprenticeship programs among the many programs supported by the state of New Hampshire. The minority believes that supporting craft-training will help to meet the present and future needs of New Hampshire.

The question being adoption of the majority committee report of Inexpedient to Legislate.

Rep. Leonard Turcotte requested a roll call; sufficiently seconded.

and the majority committee report was adopted.

HB 1762-FN, relative to documentation requirements for the department of labor. **REFER FOR INTERIM STUDY.**

Rep. Stephen Schmidt for Labor, Industrial and Rehabilitative Services. This bill is a complex piece of legislation. The majority felt that some component parts were worthy of further study and hopefully the submission of targeted legislation in the next term. Accordingly, Interim Study was recommended. Vote 17-4. Committee report adopted.

HB 1463, relative to requirements for noise ordinances in towns. **MAJORITY: OUGHT TO PASS. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. John Bordenet for the Majority of Municipal and County Government. This bill will limit the authority of towns to enact bylaws that regulate noise by requiring that those bylaws meet four criteria. (1) decibel levels must be specified, (2) decibel levels may vary by time of day, (3) noise must be measured by someone qualified to use a decibel meter, and (4) any law enforcement action shall be taken only as the result of a complaint. Noise, in NH, is regulated by category with the exception of residential noise. This bill seeks to clarify that category and close a gap. The fear that this will affect gun ranges is unfounded as they are exempt under RSA 159-B:1. Vote 11-7.

Rep. Mark McLean for the Minority of Municipal and County Government. This bill seeks to amend RSA 31:39 I(n) by requiring that any noise ordinance adopted by a town require the exceeding of a specified decibel level and the lodging of a complaint before law enforcement action can be taken. While measurable standards are a positive thing, the minority of the committee expressed concern that this proposed legislation would force

the re-drafting many municipal noise ordinances that currently do not have measurable standards. Testimony also asserted that the need for a complaint is unusual and not found elsewhere in statute. Because the statute applies to all areas in a town (not just the residential areas) there was also a fear that excessive noise regulation might limit gun range and hunting activity. While RSA 159-B expressly protects existing ranges, passage of this bill could inhibit the opening and operation of new ranges in those towns that choose to adopt aggressive noise standards.

The question being adoption of the majority committee report of Ought to Pass.

Rep. Belanger offered floor amendment (1007h).

Floor Amendment (1007h)

Amend the bill by inserting after section 1 the following and renumbering the original section 2 to read as 3:
2 Shooting Ranges; Exemption. Amend RSA 159-B:1 to read as follows:

159-B:1 Exemption. Notwithstanding the provisions of ***RSA 31:39***, RSA 644:2, III(a) or any other law to the contrary, no person who owns, operates, or uses a shooting range in this state shall be subject to civil liability or criminal prosecution in any matter relating to noise or noise pollution, provided that the owners of the range are in compliance with any applicable noise control ordinances in existence at the time the range was established, was constructed, or began operations.

Rep. Belanger spoke in favor.

Rep. Sylvia requested a roll call; sufficiently seconded.

and the majority committee report failed.

Rep. McLean moved the minority committee report of Inexpedient to Legislate.
 Minority committee report adopted.

UNANIMOUS CONSENT

Rep. Beaulieu requested Unanimous Consent of the House regarding the passing of the former member from Manchester, the Honorable Irene Messier and addressed the House.

MOMENT OF SILENCE

A moment of silence was observed in honor and in memory of the former member from Manchester, the Honorable Irene Messier.

MOTION TO PRINT REMARKS

Without objection, the Speaker ordered the remarks made by Rep. Beaulieu during Unanimous Consent be printed in the Permanent Journal.

REMARKS

Rep. Beaulieu: Thank you, Mister Speaker. If the Manchester delegation would like to stand here with me? I'm going to say a few words for my good friend Representative Irene Messier that passed at 94-years old on February 28. Thanks. Irene was born and raised in Manchester and after graduation with the class of 1941 B, she went on to the New Hampshire School of Counting and Finance. Irene began her working career at Amoskeag Industries as a secretary of Fred Caswell, who was the driving force behind the adoption of the New Hampshire State Motto, "Live Free or Die." She and her husband Armand married in 1948, continuing to make Manchester their home. Irene and Armand raised their family sharing a love of gardening, sharing produce with their neighbors and friends, supporting their children's endeavors, exploring the backroads of New Hampshire and enjoying their backyard birds. Irene was involved in many civic organizations and political campaigns, but she was especially honored to be elected to the state Constitutional Convention in 1984. She was actively involved in the Greater Manchester Community Concerts, establishing a new Parker Varney elementary school, the Daughters of Fourka, and helped keep the history of Manchester alive for those around her. In 1980 she was elected to the New Hampshire House of Representatives and began her 30 years of service to her beloved State of New Hampshire. She treasured many dear friends she made there. Irene was a loving, vibrant and beautiful mother, grandmother and friend. She will be dearly missed by all who knew her. She was one of my best friends. We had some great conversations and one of her good friends was the late Representative Steve Vaillancourt as well. In the gallery is her son, Christopher, another son, Bruce, her daughter, Jocelyn and two dear friends. Thank you so much.

The House recessed at 12:30 p.m.

RECESS

The House reconvened at 1:30 p.m.

(Speaker Chandler in the Chair)

REGULAR CALENDAR - PART III CONT'D

HB 1652, relative to default budgets. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: REFER FOR INTERIM STUDY.**

Rep. Franklin Sterling for the Majority of Municipal and County Government. As amended this bill gives the governing body, or the budget committee if the political subdivision has adopted RSA 40:14-b, the ability to adopt by-laws or requirements for the determination of default budgets. Try as the committee might over multiple legislative sessions, it has been unable to recommend language to the House that would meet the questions and objections as to what should be in the default budget, or how the default budget should be presented at either the budget hearing or at the deliberative session. The majority of the committee is of the opinion that passage of this bill will allow each political subdivision to determine what those requirements should be. Vote 10-8.

Rep. Julie Gilman for the Minority of Municipal and County Government. The minority found this bill as amended would lead to confusion when combined with other legislation (such as HB 1307 as amended). Each community will be able to define its own default criteria.

Majority Amendment (0743h)

Amend the bill by replacing all after the enacting clause with the following:

1 Official Ballot Meeting; Default Budget; Bylaws. Amend RSA 40:13, IX(b) to read as follows:

(b) "Default budget" as used in this subdivision means the amount of the same appropriations as contained in the operating budget authorized for the previous year, reduced and increased, as the case may be, by debt service, contracts, and other obligations previously incurred or mandated by law, and reduced by one-time expenditures contained in the operating budget.

(1) For the purposes of this paragraph, one-time expenditures shall be appropriations not likely to recur in the succeeding budget, as determined by the governing body, unless the provisions of RSA 40:14-b are adopted, of the local political subdivision.

(2) A local political subdivision as defined in RSA 40:12 which has adopted this subdivision may adopt bylaws to define or establish requirements for the determination by the governing body or the budget committee under RSA 40:14-b of default budgets under this subparagraph.

2 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill allows a local political subdivision under the official ballot form of meeting to adopt bylaws for the determination of the default budget.

Rep. Sterling yielded to questions.

On a division vote, with 92 members having voted in the affirmative, and 209 in the negative, the majority committee amendment failed.

Majority committee report failed.

Rep. Gilman moved the minority committee report of Refer for Interim Study.

On a division vote, with 293 members having voted in the affirmative, and 22 in the negative, the minority committee report was adopted.

HB 1541-FN, relative to registration and road toll fees for hybrid and electric vehicles. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. David Milz for the Majority of Public Works and Highways. This bill is simply an attempt to create a means to capture the road toll for electric and plug-in hybrid vehicles, similar to the vehicles powered by gasoline and propane. The committee took testimony from auto dealers, manufacturers, the Department of Environmental Services, the Department of Transportation, and vehicle owners; and researched fees that are currently in place in other states. It was felt that the bill should not penalize first-time owners of new electric and hybrid vehicles. Accordingly, the fees only apply to registration renewals. Currently, all vehicles using the NH state highways, except those powered by electricity, share in the highway maintenance costs through the gas tax or other methods. This amended bill reduces the original fee for plug-in hybrid vehicles from \$100 to \$75 and for electric vehicles from \$200 to \$125. The bill provides an escalator to increase the plug-in hybrid fee by \$2.50 and the electric vehicle fee by \$5.00 for each \$0.01 increase to the road toll made after the bill takes effect. This bill is simply a way to ensure that all vehicles using our roads and bridges pay their fair share. Vote 19-2.

Rep. Patricia Higgins for the Minority of Public Works and Highways. Need for funding to maintain our roads and bridges continues to grow as proceeds from the road toll, which is based on purchase of gas and diesel, continue to decline due to improving fuel economy of all vehicle types and changing demographics in the state. All users of the roads and bridges should contribute to their maintenance. How we assess these contributions should be equitable and take into account the tradeoff between collecting fees for that purpose and acknowledging the benefits of reducing use of petroleum products, which include reduced emissions of smog-forming pollutants and greenhouse gases and stemming the flow of dollars used to buy petroleum products out of the NH economy. This bill addresses the need for contributions from all users and is foreseeing the almost inevitable move to electric vehicles (EVs). But the mechanism employed will address the first at the cost of delaying the second. This is not the time to create a disincentive to buy EVs and hydrogen-powered cars. Most know about the money derived from the Volkswagen (VW) settlement, of which NH received \$29 million, to mitigate the air quality harm due to the VW "indiscretion." Fewer know that in addition, states have the opportunity to compete for funds from another bucket administered by a wholly-owned subsidiary of VW: Electrify America. The purpose of these pay outs from VW is to accelerate the adoption of EVs. They will look at several factors when deciding which states to give the money to, and one of those is whether the state has policies congruent with their purpose to accelerate adoption of EVs. The minority thinks that this bill may become a disincentive to the purchase and running of EVs and may result in NH being ineligible for those funds. By the way, Electrify America will be giving back to states \$2 billion. Seventy percent of visitors

to NH come from neighboring states. As those states continue to provide support to EVs and thereby speed the adoption of EVs, increasing numbers of our visitors will see NH as a less attractive destination to spend their tourist dollars. This bill takes a step toward our future, one with increased funding for our roads and bridges. Let's see if we can do so without a disincentive for choices that contribute to reduced consumption of gas.

Majority Amendment (0483h)

Amend RSA 261:141, III (ee) and (ff) as inserted by section 1 of the bill by replacing them with the following:

(ee) For a vehicle with a propulsion system that operates using both electricity obtained from the electric grid and petrochemical fuels, at each registration renewal a fee of \$75. For each \$.01 increase in the road toll after the effective date of this subparagraph, the fee shall increase by \$2.50.

(ff) For an electric vehicle, at each registration renewal, a fee of \$125. For each \$.01 increase in the road toll after the effective date of this subparagraph, the fee shall increase by \$5. For purposes of this subparagraph, "electric vehicle" means a motor vehicle with a propulsion system that operates solely on electricity obtained from the electrical grid.

Majority committee amendment adopted.

The question now being adoption of the majority committee report of Ought to Pass with Amendment.

Reps. Higgins and Somssich spoke against.

Rep. Hynes spoke against and yielded to questions.

Rep. John Graham spoke in favor and yielded to questions.

Rep. Phinney requested a roll call; sufficiently seconded.

and the majority committee report failed.

Rep. Higgins moved the minority committee report of Inexpedient to Legislate.
Minority committee amendment adopted.

HB 1313, relative to prohibitions on carrying a loaded firearm on an OHRV or snowmobile. **MAJORITY: OUGHT TO PASS. MINORITY: OUGHT TO PASS WITH AMENDMENT.**

Rep. John Mullen for the Majority of Resources, Recreation and Development. This bill updates statutes based on last year's passage of constitutional carry. Currently, you can carry a firearm in your motor vehicle without a permit or license. However, current statute does not allow you to carry a loaded firearm on an OHRV or snowmobile. This is inconsistent with the new law. Therefore, the bill repeals the OHRV and snowmobile firearm prohibitions to be consistent with recently passed firearms legislation. Vote 11-7.

Rep. Suzanne Smith for the Minority of Resources, Recreation and Development. The sponsors of the bill testified that this bill would bring state statute into compliance with last year's passage of state concealed carry laws. The minority agrees that changes need to be made to the snowmobile and OHRV firearm statutes to bring them into compliance with our concealed carry law and offers an amendment to do so. It would repeal all references in those statutes to permitting or licensure of concealed weapons. Unfortunately, passage of the bill without the amendment will create a direct conflict with RSA 207:7 which prohibits the carrying of loaded rifles, shotguns, and crossbows on or in vehicles, including OHRVs and snowmobiles.

MOTION TO SPECIAL ORDER

Rep. Shurtleff moved that **HB 1313**, relative to prohibitions on carrying a loaded firearm on an OHRV or snowmobile, be made a Special Order as the first order of business for the Session of March 22, 2018.

Rep. Shurtleff spoke in favor.

Rep. Burt spoke against.

Rep. Walz requested a roll call; sufficiently seconded.

REGULAR CALENDAR - PART III CONT'D

HB 1436, relative to lakes with shared borders with 2 or more towns. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: REFER FOR INTERIM STUDY.**

Rep. Rick Christie for the Majority of Resources, Recreation and Development. This bill was really two bills in one. The first part would require notification to regional planning commissions and planning boards of other towns on the same lake whenever a large development was being considered. This was seen as cumbersome for large lakes and it was noted that there is already a notification requirement when development with regional impact is in the works. The second part of the bill dealt with shorefront septic systems. In some areas, shorefront septic systems can hardly be called a system and some predate formal septic design regulations. However, imposing mandatory periodic inspections on all systems on shorefront properties was not seen as a reasonable approach. Vote 11-7.

Rep. Judith Spang for the Minority of Resources, Recreation and Development. This bill addresses an issue that is critical for maintaining good water quality in NH's lakes, ponds, and rivers. Inadequate shoreland septic systems can cause pollution to flow into the groundwater and thence into a nearby water body. Current regulations do not address septic pollution via groundwater, just the less problematic but more visible discharge onto the ground's surface. The state, lakes, and river associations and municipal conservation commissions have tried with mixed success to devise ways to convince shoreland owners to have their septic systems inspected, and if necessary, upgraded. Clearly, private property rights must be balanced with the public right to clean water. This bill suggests one approach, mandatory inspections, but interim study is necessary to consider alternatives for respecting this balance while achieving the goal of clean water bodies so important to the state.

Majority committee report adopted.

HB 1544, establishing a committee to identify the requirements needed to commit New Hampshire to a goal of 100 percent renewable energy for electricity by 2040. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Herbert Vadney for the Majority of Science, Technology and Energy. Having neighboring states that have established unreachable goals does not translate to a need for New Hampshire to do the same. We already have a significant number of renewable energy projects underway and relatively large efforts to develop and deploy more renewable energy assets as fast as the market can do so. Setting some arbitrary goal for twenty-

two years in the future would be, at best, a political statement with little or no technical advantage. Vote 12-9. Rep. Peter Somssich for the Minority of Science, Technology and Energy. The minority, along with much of the testimony by heads of state agencies, emphasized that planning for a renewable energy future for NH would be beneficial for everyone. NH is fortunate not to be burdened by legacy fossil fuel generating units, but instead has the opportunity to chart a new course and take control of its own energy future before actions by other New England states limit our options. Utilities, businesses, municipalities, and many groups involved in new or emerging technologies could provide much new and useful information if given a process they could be part of. While energy efficiency measures are still the most cost-effective way to reduce energy demand, the cost of new generation, especially from solar and wind, has been dropping dramatically. New technologies, such as a battery storage and micro grids, are opening up possibilities both for energy reliability and for stand-alone energy communities. Many of our municipalities still offer great opportunities for both energy efficiency and new power generation projects. In light of the lack of detail in the state's 10 Year Energy Strategy, using this bill as a planning tool, not as a realistic final goal, would help to provide a viable road map to more energy independence and a greener and a more sustainable energy future. Even though the majority expresses the opinion that 23 years is too far away to plan for, the minority believes that not to consider such planning is in fact to walk away from our responsibilities to our residents and this state's future.

The question being adoption of the majority committee report of Inexpedient to Legislate.

Rep. Somssich spoke against and yielded to questions.

Rep. Vadney spoke in favor.

Rep. Somssich requested a roll call; sufficiently seconded.

and the majority committee report was adopted.

HB 1550, requiring electric bills to include the cost of compliance with renewable energy standards. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Bill Kuch for the Majority of Science, Technology and Energy. This bill, as amended, would require electric utilities to provide the cost of compliance with the Renewable Portfolio Standard (RPS) in each ratepayer's December bill. As is normal with other utilities, it was felt that consumers should know what they are paying for and allow them to evaluate whether these are worthwhile fees. In addition, the amended bill directs the electric utilities to provide an Internet link to the details of the programs supported by the RPS. The majority of the committee believes that transparency in rates makes for better consumers. Vote 11-8.

Rep. Robert Backus for the Minority of Science, Technology and Energy. This bill will require the Public Utilities Commission (PUC) to annually put the costs of compliance with the Renewable Portfolio Standard on a customer's bill. Each December, each bill, based on the assumed typical usage, would display the calculated cost of the program for that customer. Although the minority agrees with the goal of providing transparency as to costs of service and programs, we believe that providing only the costs without an equally prominent display of the benefits of RPS is unbalanced and unwise. Benefits are real and substantial and include meaningful cost savings from investment in renewable energy. But these benefits are not susceptible to reduction to a simple single number. Therefore, the bill reflects a bias against NH's long and often restated goal of moving to a clean, renewable energy future. The bill, as amended, provides that the PUC will provide a link to the PUC's website concerning the RPS program and the benefits it provides. However, the minority does not consider this either equal to or as easily accessible as the dollar number of cost that would be displayed on the bill. Further, there are many costs recovered from customers that are not displayed on bills. This includes, for example, the utility assessment that funds the PUC. If we want full transparency, why not require all such costs to be displayed, rather than singling out the costs of RPS? Finally, bills do provide the cost of the Systems Benefit Charge, or SBC, which includes several important and worthy programs, including a portion of funding for energy efficiency and for low income assistance. Given the inability or unwillingness of the majority to include equally available information on RPS benefits, the minority believes existing information should be sufficient. Any customer wanting more information about RPS can obtain it from the PUC's web site.

Majority Amendment (0712h)

Amend the bill by replacing section 1 with the following:

1 Electric Utilities; Annual Disclosure of Electric Service Energy Sources and Environmental Characteristics; Renewable Energy Standards; Billing. RSA 378:49, II(c) is repealed and reenacted to read as follows:

(c) Provide such information to electric customers at least annually in conjunction with billing, whether distributed through the mail or online, or other mailed or online communication to customers, as approved by the commission, as to the estimated cost to that customer for compliance with the electric renewable portfolio standard under RSA 362-F. The estimated total cost for the calendar year shall be calculated once per year and provided to each customer in his or her December bill, whether distributed through the mail or online. Each customer's bill shall also provide a link to information about the electric renewable portfolio standard at the public utilities commission's website. The costs for a utility to provide this information shall be recovered by reducing its purchase of renewable energy certificates and/or reducing its payments to the renewable energy fund to the extent needed to cover its costs.

AMENDED ANALYSIS

This bill requires providers of electricity to include on customers' December bills the annual cost to each customer of compliance with the electric renewable portfolio standard under RSA 362-F and a link to information about the electric renewable portfolio standard. Majority committee amendment adopted.

The question now being adoption of the majority committee report of Ought to Pass with Amendment.
Rep. Backus spoke against and yielded to questions.
Rep. Kuch spoke in favor and yielded to questions.
Rep. Backus requested a roll call; sufficiently seconded.

and the majority committee report was adopted and ordered to third reading.

HB 1647, relative to inclusion of energy storage in distributed energy resources for electricity transmission and distribution. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS WITH AMENDMENT.**

Rep. Glen Aldrich for the Majority of Science, Technology and Energy. This bill intended to define energy storage as an allowed energy source. Energy storage, whether batteries, pumped storage, or other storage

devices, would be considered a distributed energy resource. The bill allowed utilities to own a limited amount of energy storage, and some testimony indicated that storage might be considered generation which would run afoul of state restructuring statutes. The bill also would allow utilities to charge ratepayers for their storage capital investments, an arrangement similar to gas pipelines which the public utilities commission also has judged to be inconsistent with restructuring. An amendment was offered to transform the bill into a study committee, but the amendment failed to garner majority support due to some wording ambiguities. Vote 12-9. Rep. Lee Oxenham for the Minority of Science, Technology and Energy. Advanced energy storage technologies increase grid efficiency, support the transition to distributed, renewable energy sources, and improve the resiliency and reliability of the entire electrical system by transforming the way we generate, deliver, and utilize electricity. Recent breakthroughs in battery technology mean that it is now both possible and cost efficient to save and store electricity during low-cost, off-peak hours and release that electricity during high-cost peak hours. Adopting this technology could potentially save NH utilities and ratepayers tens of millions of dollars by reducing or avoiding the need for costly and controversial long-distance transmission projects and reducing NH's share of regional costs. Unfortunately, in deregulated states like NH, energy storage confronts legal, regulatory, and market barriers that prevent energy storage projects from reaching their full potential. Utilities are barred from accessing wholesale markets, while private businesses are unable to monetize the benefits their projects provide to transmission and distribution systems and to ratepayers at large. This bill provides a mechanism that would break down these artificial barriers and enable the owners of energy storage systems (both regulated utilities and private enterprises) to invest in and receive revenues from their participation in all aspects of the electrical system. Optimizing the adoption of energy storage solutions not only lowers costs to ratepayers but also keeps NH's energy dollars from leaving the state and supports new jobs and businesses in the NH economy. The amendment will replace the bill and establish a commission to study this leading-edge technology which has the potential to both lower costs for ratepayers and increase grid reliability.

The question being adoption of the majority committee report of Inexpedient to Legislate.

Rep. Oxenham spoke against.

Rep. Vose spoke in favor and yielded to questions.

On a division vote, with 174 members having voted in the affirmative, and 150 in the negative, the majority committee report was adopted.

HB 1507-FN, relative to state inspection of new motor vehicles. **INEXPEDIENT TO LEGISLATE.**

Rep. Karel Crawford for Transportation. This bill provides that new motor vehicles need not be inspected during the three years following the manufacturer's model year. The committee agreed that even new cars can have malfunctions and believes that the inspection laws should stay as they are. Further, data that results in a recall would not be collected until much later. Vote 15-4.

Committee report adopted.

HB 1549, relative to the availability of vehicle accident reports. **MAJORITY: OUGHT TO PASS. MINORITY: OUGHT TO PASS.**

Rep. Craig Moore for the Majority of Transportation. This bill helps streamline the process of collecting an accident report from the reporting police departments to the parties involved in the accident. Vote 8-6.

Rep. George Sykes for the Minority of Transportation. This bill requires local police departments to send motor vehicle accident reports to the parties involved in the accident. This bill as written was opposed by the NH Association of Chiefs of Police and the NH Department of Safety. While perhaps a minor financial impact, this is still an unfunded mandate. Finally, it may result in fewer requests for reports from insurance companies, reducing that portion of the fee being collected to support the fire academy.

Majority committee report adopted and ordered to third reading.

HB 1718-FN, regulating the use of license plate scanning devices by private parties. **REFER FOR INTERIM STUDY.**

Rep. Steven Smith for Transportation. This bill would have prevented someone from using electronic devices to track a motor vehicle that they do not own. The committee was confused about how the Driver Privacy Act is enforced and its scope. It was determined that interim study would provide an opportunity for that education to occur. Vote 14-1.

Rep. Steven Smith spoke against.

On a division vote, with 169 members having voted in the affirmative, and 148 in the negative, the committee report was adopted.

HB 1381, relative to determining the taxable value of utility property for local property taxation. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: REFER FOR INTERIM STUDY.**

Rep. Timothy Lang for the Majority of Ways and Means. With wildly varying assessment values across the state on utility property, and the numerous court cases challenging those values, this bill seeks to standardize the valuation method, thus reducing future litigation. Under current law, with the litigation on the mu-

municipal side, the taxpayer bears the burden of local property tax increase to defend the lawsuits; and on the utility side, the ratepayers (citizens) pay increased rates due to bringing the lawsuits seeking equality across towns. The amendment fixing this problem was a compromise solution. The State Assessing Board brought a recommendation and the utility companies brought a recommendation and the negotiated result protecting both the taxpayer and the ratepayer is what came out. This amended bill addresses neither generation plants nor federally regulated and tariffs properties (transmission). This bill does address the following: it sets valuation at 50% original cost and 50% net book value (i.e. original cost less depreciation). Included in that valuation determination is 1) contributing in aid of construction, 2) equalization, 3) distribution assets, and 4) land and land rights. This bill has a five-year phase in to allow towns and utilities time to adjust to the new valuations. The State Consumer Advocate spoke to the committee and implored us to resolve this issue for both the taxpayer and the ratepayer. Vote 13-8.

Rep. Richard Ames for the Minority of Ways and Means. The minority objects to the rush to judgment on the complex issues presented by this bill. The subject matter of this bill has been argued across several committees, boards, and court systems, the most recent two in favor of the current system. The minority agrees a more uniform system is important, and has been assured this can be put in law next year, after the remaining complications have been ironed out. Deadlines caused us to vote out a bill which had been drafted from basic principles the night before, which no one had been able to review in detail. The data we do have shows that the total property tax collectible by the municipalities would decrease under the 50-50% compromise, and there is no data for our largest utilities or cities. Interim study will allow the current process to go forward and provide a fully developed bill by September 2018 for 2019 enactment.

Majority Amendment (0752h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to the valuation and taxation of multi-jurisdictional utility property.

Amend the bill by replacing all after the enacting clause with the following:

1 New Section; Property Taxation; Cap on the Valuation of Multi-jurisdictional Utility Property. Amend RSA 72 by inserting after section 7-d the following new section:

72:7-e Valuation of Multi-jurisdictional Utility Property.

I. All owners of multi-jurisdictional utility property shall report the original cost, inclusive of contributions in aid of construction and net book value of all property of any kind that is subject to property tax, including but not limited to property subject to tax pursuant to RSA 72:8, as those values appear on the utility's records, in accordance with the accounting standards and practices used to prepare the utility's audited financial statements, to each municipality in which that property is located on or before May 15 of each year. Notwithstanding any other provision of law, the assessed value of any multi-jurisdictional utility property of any kind that is subject to property tax, including but not limited to property subject to tax pursuant to RSA 72:8, in the town in which the property or any part of it is situated, shall not exceed the weighted average resulting from the sum of 50 percent of the original cost of that property and 50 percent of the net book value of that property as reported by the utility to the municipality, equalized.

II.(a) Multi-jurisdictional utility properties are defined as those properties that:

(1) Are principally located in more than one municipality, but expressly including land and interests in land, inclusive of land in the public right of way, that are used in the provision of a public utility service regardless of whether the land or interest in land is located in more than one municipality;

(2) Provide distribution or transmission of a public utility service; and

(3) Are regulated by the public utility commission or are rural electric cooperatives with a certificate of deregulation on file with the public utilities commission as provided for RSA 301:57.

(b) Multi-jurisdictional property shall not include property regulated by the Federal Energy Regulatory Commission and tariffed property.

III. The tax on the value of multi-jurisdictional utility property as determined under paragraph I shall be phased-in as follows:

(a) The value for assessment of property taxes for the tax year effective April 1, 2019, shall be the weighted average resulting from the sum of 80 percent of the locally assessed value effective April 1, 2018 without regard to paragraph I, and 20 percent of the value determined under paragraph I effective April 1, 2019.

(b) The value for assessment of property taxes for the tax year effective April 1, 2020, shall be the weighted average resulting from the sum of 60 percent of the locally assessed value effective April 1, 2018 without regard to paragraph I, and 40 percent of the value determined under paragraph I effective April 1, 2020.

(c) The value for assessment of property for the tax year effective April 1, 2021 shall be the weighted average resulting from the sum of 40 percent of the locally assessed value effective April 1, 2018 without regard to paragraph I, and 60 percent of the value determined under paragraph I effective April 1, 2021.

(d) The value for assessment of property for the tax year effective April 1, 2022 shall be the weighted average resulting from the sum of 20 percent of the locally assessed value effective April 1, 2018 without regard to paragraph I, and 80 percent of the value determined under paragraph I effective April 1, 2022.

(e) Beginning with the tax year effective April 1, 2023, and every tax year thereafter, the locally assessed value shall not exceed the value determined under paragraph I as of April 1 of each tax year.

2 Multi-jurisdictional Utility Property; Reference Added. Amend RSA 72:10 to read as follows:

72:10 Limitation. Nothing in RSA **72:7-e**, 72:8, 72:8-a, or 72:9 shall in any way change or affect the laws relating to the taxation of public utilities and other property owned by municipal corporations.

3 Appraisal For Tax Purposes; Reference Added. Amend RSA 75:1 to read as follows:

75:1 How Appraised. The selectmen shall appraise open space land pursuant to RSA 79-A:5, open space land with conservation restrictions pursuant to RSA 79-B:3, land with discretionary easements pursuant to RSA 79-C:7, residences on commercial or industrial zoned land pursuant to RSA 75:11, earth and excavations pursuant to RSA 72-B, land classified as land under qualifying farm structures pursuant to RSA 79-F, buildings and land appraised under RSA 79-G as qualifying historic buildings, qualifying chartered public school property appraised under RSA 79-H, residential rental property subject to a housing covenant under the low-income housing tax credit program pursuant to RSA 75:1-a, renewable generation facility property subject to a voluntary payment in lieu of taxes agreement under RSA 72:74 as determined under said agreement, telecommunications poles and conduits pursuant to RSA 72:8-c, **multi-jurisdictional utility property pursuant to RSA 72:7-e**, and all other taxable property at its market value. Market value means the property's full and true value as the same would be appraised in payment of a just debt due from a solvent debtor. The selectmen shall receive and consider all evidence that may be submitted to them relative to the value of property, the value of which cannot be determined by personal examination.

4 Effective Date. This act shall take effect 30 days after its passage.

AMENDED ANALYSIS

This bill defines multi-jurisdictional utility property and establishes a cap on the valuation of such property for property tax purposes.

MOTION TO LAY ON THE TABLE

Rep. Abrami moved that **HB 1381**, relative to determining the taxable value of utility property for local property taxation, be laid on the table.

On a division vote, with 310 members having voted in the affirmative, and 15 in the negative, the motion was adopted.

REGULAR CALENDAR - PART III CONT'D

HB 1422-FN-A, relative to the applicability of certain business tax rate changes. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Patrick Abrami for the Majority of Ways and Means. This bill adds a requirement that the business tax rate reductions adopted in 2017 shall not take effect if the combined revenue growth in general and education funds for the fiscal year ending June 30, 2018 does not exceed the change in the Consumer Price Index plus 1 percent from the fiscal year ending June 30, 2017. In this bill, the Legislative Budget Assistant (LBA) is charged with doing this calculation, as it currently does for the state to comply with several other statutory requirements. The committee inquired of the LBA concerning the impact of one-time settlement money and one-time increases in revenue. They said no adjustments are made for these circumstances. In the last several weeks two anomalies in revenue have occurred. The first is the \$31 million Volkswagen settlement. The second is the spiking in business revenues due to the federal tax law changes which are causing companies to repatriate their money back to the United States at a very favorable tax rate. New Hampshire, it appears, will be a beneficiary of this activity because state business taxes will be paid on this repatriated money. It was clear to the majority of the committee that these anomalies would render the proposed methodology inaccurate. However, the bigger issue for the majority is the wrong signal this would send to the business community. They are planning long-term for the New Hampshire tax cuts to continue over the next several years. The legislature would be sending mixed messages to the business community by adopting a trigger that stops the next round of business tax reductions already approved by the legislature and signed into law. Understanding that the business community does not like uncertainty, the majority of the committee voted against this bill. Vote 12-9.

Rep. Richard Ames for the Minority of Ways and Means. The minority believes that pending business tax rate cuts, on top of cuts already implemented, imperil the ability of the state to meet its obligations. This bill would condition future business tax rate cuts on revenue performance in FY 2018. If enacted, pending cuts in the rates will go into effect only if the combined revenue growth in general and education funds for FY 2018 exceeds the change in the Consumer Price Index for the period plus 1 percent. This places a prudential "trigger" on the pending rate cuts. If the FY 2018 revenue growth falls short and this trigger is tripped, business tax rates would be frozen at the rates currently in effect: 7.9 percent for the Business Profits Tax (BPT) and 0.675 percent for the Business Enterprise Tax (BET). Killed would be the pending cuts to the BPT and BET that would otherwise have reduced the rates to 7.7 percent and 0.65 percent, respectively, for tax periods starting after December 31, 2018 and then to 7.5 percent and 0.50 percent respectively, for the

tax periods starting after December, 2020. Not affected by this bill are the two steps of rate reductions that have brought the BPT and BET down from 8.5 percent and 0.75 percent, respectively, for tax periods before calendar year 2016, to the current rates of 7.9 percent and 0.675 percent, respectively. Other new business tax cuts not affected by this bill are (1) the allowance, effective July 1, 2017, of an additional \$5 million per year for Research and Development (R&D) tax credits against the BPT, and (2) the increase in the allowance per year for up-front deductions of certain capital equipment expenditures from \$25,000 before January 1, 2017 to \$500,000 for expenditures after January 1, 2018. Some proponents of the business tax rate cuts that would be affected by this bill have asserted or hypothesized that they will stimulate economic growth to such an extent that the state will realize a net revenue gain. Others have argued the opposite case. This bill is a prudential response to this debate. If revenues exceed the trigger, the next round of business tax cuts will go into effect. If not, the trigger will be tripped and NH's capacity to continue to provide needed services, already severely constrained by insufficient revenue, will not be further eroded by more tax rate cuts.

The question being adoption of the majority committee report of Inexpedient to Legislate.

Rep. Abrami spoke in favor.

Rep. Ames spoke against and requested a roll call; sufficiently seconded.

and the majority committee report was adopted.

HB 1609, establishing a local option for an additional surcharge on occupancy under the meals and rooms tax. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS WITH AMENDMENT.** Rep. Bill Ohm for the Majority of Ways and Means. This bill allows cities and towns to create a new local tax, namely a surcharge of up to \$2 per night on rooms. Sponsors of the bill claim that summer tourist traffic places additional expenses on a town and that they should be allowed to seek additional compensation. The majority of the committee feels that such tourists are not full-time residents, place no burden on the local school system and provides tax revenue on property that may remain vacant for much of the year. Other towns can claim similar burdens, such as border towns packed with shoppers during the winter holiday season, but have the additional burden of full time residents with school age children. Rather than providing exemptions to various towns for various reasons, the majority feels that the current room and meals tax provides an appropriate burden and benefit on all the towns. Vote 14-7.

Rep. Susan Almy for the Minority of Ways and Means. The urban hubs of our state, and tourism centers, provide jobs and services to the communities around them. Although they have usually more property valuation, they cater to non-property-tax-paying human services and low-property-tax-paying low-income housing for those who cannot travel long distances due to poverty or disability. Their law enforcement, fire, emergency and safety inspection, planning, wastewater, and water costs are based on their daytime populations, not the taxpayer population. Although all municipalities see problems with their property taxes, the urban hubs bear an extra burden. The objective of this bill as amended is to provide some mitigation for these extra costs, by a fee not to exceed \$2 per room on lodging places, including hotels, within the boundaries of the municipality that votes to apply it. The original version depended on the state to collect and return this fee; the minority amendment leaves this task to the municipality that takes up the option. All towns, no matter how rural, have a stake in ensuring that their nearest hubs do not decay. And this bill as amended requires no sacrifice to our citizens. The minor room fee is no larger, and usually much smaller, than those in local option or from higher-level political subdivisions in other states, including our neighbors.

The question being adoption of the majority committee report of Inexpedient to Legislate.

Rep. Edgar spoke against.

(Rep. Packard in the Chair)

Rep. Ohm spoke in favor.

Rep. Almy spoke against and requested a roll call; sufficiently seconded.

REGULAR CALENDAR - PART III CONT'D

HB 1802-FN-L, relative to the statewide education property tax. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS WITH AMENDMENT.**

Rep. Marc Abear for the Majority of Ways and Means. This bill requires municipalities to remit any excess statewide education property tax (SWEPT) to the state for deposit in the general fund. The excess required to be remitted to the state is the difference between the SWEPT collected by the municipality and the municipality's calculated cost of providing an opportunity for adequate education. Currently, if a municipality's SWEPT is greater than its adequacy cost, it is retained by the community. The precise impact of this bill on state and local revenue is unknown, but an approximation based on FY 2019 preliminary data shows the bill would result in a \$29,698,848 increase to state general fund revenue and a corresponding decrease to locally retained SWEPT revenue. There is no constituency, not education, not the towns, asking for this change. Passage of this measure reopens the whole donor town debate. The current system has been functioning without challenge or disruption for about two decades. Vote 15-6.

Rep. Paul Henle for the Minority of Ways and Means. This bill, with the proposed minority amendment, would require cities and towns to send any excess Statewide Education Property Tax (SWEPT) money they have collected to the state for deposit in the education trust fund. The state uses the SWEPT money collected by cities and towns to help pay for the education adequacy grant that the state owes them. In some cities and towns the amount of SWEPT money collected is more than their adequacy grant. Currently, they keep the excess, which means that these cities and towns are receiving additional school aid above and beyond their adequacy grant. The total amount is \$29.7 million, and it is increasing every year. Since 2012, the total has grown by 25%. This is \$29.7 million of state money that is being spent outside of the budget process. The Finance Committee has no say as to how this money is spent. The House position is clearly against this practice. Earlier this session we rejected a bill because it would have spent \$1.5 million outside of the regular budget process. This bill should be passed in order to end the practice of giving extra education aid to a seemingly random selection of cities and towns to spend the \$29.7 million of tax revenue through the regular budget process. A proposed amendment would phase in this change over four years in order to lessen the impact on the affected cities and towns.

The question being adoption of the majority committee report of Inexpedient to Legislate.

Rep. Henle spoke against and yielded to questions.

Rep. Abear spoke in favor.

Rep. Avellani requested a roll call; sufficiently seconded.

and the majority committee report was adopted.

BILLS REMOVED FROM THE CONSENT CALENDAR OF MARCH 6, 2018**HB 1267**, relative to court-ordered drug and alcohol testing under the Child Protection Act. **INEXPEDIENT TO LEGISLATE.**

Rep. Daniel Itse for Children and Family Law. The testimony regarding this bill was that it could be duplicative in cases where probation and parole are already involved. Furthermore, it would impose an unallocated cost to the Division of Children, Youth and Families which is already financially strained. Finally, though it is a civil and not a criminal matter, it is contrary to Part I, Article 15 of the Constitution of the State of New Hampshire, which states no one shall be required to furnish evidence against themselves. Vote 12-0. Committee report adopted.

HB 1275, relative to the placement of minors at the Sununu Youth Drug Treatment Center. **INEXPEDIENT TO LEGISLATE.**

Rep. Allen Cook for Children and Family Law. Placing first time offenders in a forced secure treatment program or trying to force those with a current drug issue into treatment is counter productive and cost prohibitive to an individual and the state. Additionally, the committee had numerous people testify against this bill and voted unanimously to recommend this bill as Inexpedient to Legislate. Vote 12-0.

MOTION TO LAY ON THE TABLE

Rep. Rice moved that **HB 1275**, relative to the placement of minors at the Sununu Youth Drug Treatment Center, be laid on the table.

Motion adopted.

BILLS REMOVED FROM THE CONSENT CALENDAR OF MARCH 6, 2018 CONT'D**HB 1287**, relative to the age at which persons may marry. **INEXPEDIENT TO LEGISLATE.**

Rep. Daniel Itse for Children and Family Law. The matter of the minimum age to marry is being addressed by House Bill 1587; therefore, this legislation is unnecessary. Vote 12-0.

Committee report adopted.

HB 1586, relative to judicial review for underage marriage. **OUGHT TO PASS.**

Rep. Allen Cook for Children and Family Law. This bill bars marriage between the parties if sexual relation between them would have been a criminal act if they were not married. Basically, the bill says that you cannot use marriage to paper over a sexual assault, rape or statutory rape. Vote 13-0.

Rep. Stone spoke against.

Rep. Cilley spoke in favor and yielded to questions.

Rep. White requested a roll call; sufficiently seconded.

RESOLUTION

Rep. Hinch offered the following: RESOLVED, that the House now adjourn from the early session, that the business of the late session be in order at the present time, that the reading of bills be by title only and resolutions by caption only and that all bills ordered to third reading be read a third time by this resolution, and that all titles of bills be the same as adopted, and that they be passed at the present time, and when the House adjourns today it be to meet, Thursday, March 22, 2018 at 10:00 a.m.
Motion adopted.

LATE SESSION**Third Reading and Final Passage**

HB 1471-FN, relative to telemedicine and establishing a committee to study health care reimbursement for telemedicine and telehealth.

HB 407-FN, requiring workers' compensation to cover prophylactic treatment for exposure.

HB 1411-FN-A, relative to funds transferred to the nongame species account.

HB 1698-FN-L, relative to the cost of special education services for foster children.

HB 1817-FN, establishing the position of state demographer and a commission on demographic trends; requiring state agencies to prepare 10-year current services cost projections; and relative to the inclusion of a demographic analysis as part of the legislative fiscal note process.

HB 1816-FN, relative to Medicaid managed care.

HB 1295, relative to persons held in civil contempt.

HB 1347, relative to information to be included in the minutes under the right-to-know law.

HB 1373, relative to an individual's property right in his or her DNA.

HB 1627-FN, prohibiting the transmission of images or sounds of another person who is on private property or to conduct surveillance activity.

HB 1550, requiring electric bills to include the cost of compliance with renewable energy standards.

HB 1549, relative to the availability of vehicle accident reports.

HB 1586, relative to judicial review for underage marriage.

RECESS MOTION

Rep. Hinch moved that the House stand in recess for the purposes of the introduction of bills, receiving Senate messages, enrolled bill amendments and enrolled bill reports.
Motion adopted.

The House recessed at 4:30 p.m.

RECESS

(Rep. Marjorie Smith in the Chair)

ENROLLED BILLS REPORT

The Committee on Enrolled Bills has examined and found correctly enrolled House Bills numbered 143 and 1334.
Rep. Hinch, Sen. Avarad for the Committee
