HOUSE JOURNAL NO. 19 (Cont'd)

Wednesday, May 23, 2018

Rep. Hinch moved that the House adjourn.
Motion adopted.

HOUSE JOURNAL NO. 20

Thursday, September 13, 2018

The House assembled at 11:00 a.m., and was called to order by the Speaker.

Prayer was offered by House Chaplain, Reverend Kate Atkinson, Rector of St. Paul's Church in Concord. We gather here today knowing that new colleagues will soon be among us and others no longer with us. Give us the grace to forge new connections, to listen for Your voice in one another's words, and to discern Your will as we seek to achieve the common good. We gather here today bearing the weight of responsibility, the burden that accompanies our elected office. Help us to see that when a burden is shared its weight decreases, that You created us to live and function in community, and that Your hand is at work most powerfully when many hands work together. We gather here today to make important decision that affect the lives of the people of New Hampshire. Speak to our hearts and minds as we consider these matters, give us wisdom and insight, and inspire us to act in the best interests of the people we represent. Eternal and unchanging God, give us ears to hear You speak to us today. Amen.

Representative Jason Janvrin, member from Seabrook, led the Pledge of Allegiance.

The National Anthem was sung by Ava Cestrone, a 10th-grade student at Winnacunnet High School.

COMMUNICATION

Via Email dated August 6, 2018

Due to college graduation and career opportunity, I have left my district and thus resign from my position as State Representative.

Sincerely,
Rep. Joseph Stallcop

COMMUNICATION

Via email dated September 11, 2018

Hello Paul,

Thank you for the voice mail. I will need to resign because I moved out of my district 31, ward 4 Nashua to ward 5. Being a legislator was a great experience but it's time to take a break and I'm sure one day I will serve NH again! I appreciate all the great work you and your staff has done.

Regards,

Jessica Ayala

PRESENTATION TO LIBERTY HOUSE

Reps. Michael Moffett, Hinch and Shurtleff presented a check to Liberty House. Accepting on behalf of Liberty House was Executive Director, Jeff Nelson.

HOUSE RESOLUTION NO. 25**Memorializing State Representative Robert M. Walsh, Jr. of Manchester.**

WHEREAS, we have learned with profound sorrow of the death of our friend and colleague Robert M. Walsh, Jr., who was serving his fourth term as a State Representative representing the citizens of Hillsborough County District 11, Ward 4 of the city of Manchester; and

WHEREAS, Robert Walsh was a Certified Public Accountant who worked as a skilled practitioner of his trade for 47 years, including service as President of the New Hampshire Society of Certified Public Accountants; and

WHEREAS, a member of the Finance Committee his last three terms in the House, he earned a reputation of being a quiet, yet thoughtful member of the committee where his Chairman praised him for asking good and hard questions with a smile-something rare for a CPA-and his pleasant working demeanor and respect for his fellow members; and

WHEREAS, a man of faith and devotion, Bob was an active member of his church, serving as a longtime lector and member of the choir, and for 12 years as a director, and one year as president of the Cathedral Parish Credit Union; and

WHEREAS, above all, Bob Walsh considered himself a family man first; a kind hearted and smiling guy who would stop you in the hall to ask about your children or grandchildren and tell you about his; now, therefore, be it **RESOLVED**, by the House of Representatives in Regular Session convened, Robert M. Walsh, Jr. be granted the highest praise and accolades and our profound thanks for his service to his country, the state, and the city he called home for many years, and, be it further

RESOLVED, that expressions of our most heartfelt sympathy be extended to his family and that a suitable copy of this Resolution be prepared for presentation to them.

Offered and adopted unanimously by the House of Representatives.

MOMENT OF SILENCE

A moment of silence was observed in honor and in memory of the Representative from Manchester, the Honorable Robert M. Walsh, Jr.

GOVERNOR'S VETO MESSAGE ON HB 143

April 2, 2018

By the authority vested in me, pursuant to part II, Article 44 of the New Hampshire Constitution, on March 30th, 2018, I have vetoed House Bill 143, relative to recommitment of a prisoner by the Parole Board. Current law provides that when a prisoner who is out on parole has their parole revoked, that prisoner must be re-committed for at least 90 days. RSA 651-A:19, VII allows the Parole Board to impose a term of recommitment of less than 90 days under certain conditions, including situations where the Parole Board determines that a lesser period of recommitment will aid in the rehabilitation of the parolee. House Bill 143 would expand these conditions by allowing the Parole Board to impose a recommitment period of less than 90 days for a prisoner who enters and successfully completes a residential substance abuse treatment program deemed acceptable by the Board. While based on good intentions, this bill will have concerning consequences. It does not distinguish between individuals who have committed a crime related to substance abuse and those who have committed an unrelated crime. The bill also does not require the Parole Board to determine that a shorter recommitment period is necessary to assist a prisoner with their recovery efforts. I fully support efforts to reduce recidivism among those suffering from substance abuse disorders by ensuring that such individuals have access to treatment. However, current law already gives the Parole Board the option of imposing shorter recommitment periods if they determine it will aid in the parolee's rehabilitation. Importantly, those who are incarcerated have access to many of the same treatment programs as those who are not. It is concerning that there is strong opposition to this bill by law enforcement and at the same time, there are members of the recovery community who still have questions about its impacts. This only reinforces the conclusion that more due diligence is needed before we change current law. For the reasons stated above, I have vetoed House Bill 143.

Respectfully submitted, Christopher T. Sununu, Governor

The question being, notwithstanding the Governor's veto, shall **HB 143**, relative to recommitment of a prisoner by the parole board, become law?

Reps. Cushing and Welch spoke in favor.

Pursuant to the New Hampshire Constitution, Part II, Article 44, a roll call, requiring a two-thirds vote of the House for approval, was taken.

GOVERNOR'S VETO MESSAGE ON HB 314

July 2, 2018

By the authority vested in me, pursuant to part II, Article 44 of the New Hampshire Constitution, on July 2nd, 2018, I have vetoed House Bill HB 314, relative to licensing requirements for autonomous vehicle testing and establishing an automated and connected vehicle testing and deployment commission. While well-intentioned, House Bill 314 fails to address a number of issues related to automated vehicle technology. The bill only addresses "SAE level 5 full automation technology", which represents just a small portion of the testing being conducted on public roadways. The bill fails to address level 3 or level 4 technology, which are equivalent to those being tested in a fatal Arizona accident this past March. This bill would allow for testing of any technology below level 5 without testers having to obtain a license or even notify the state, a lack of oversight which is not acceptable here in New Hampshire. This issue is just too serious to allow a bill to give the appearance of responsible oversight, when in fact little would change on the ground. In addition, there are no clear definitions as to what is and is not an "autonomous vehicle," creating loopholes which may compromise the safety of drivers in this state. House Bill 314 is a flawed bill that does not adequately account for public safety. This legislation may attract less responsible actors to New Hampshire to develop autonomous vehicle technology and could result in a more dangerous testing environment on New Hampshire's roads. I hope that the House and Senate will work together next session to pass a bill that will encourage development of autonomous vehicle technologies while ensuring the safety of our citizens. By only addressing level 5 technology, House Bill 314 failed on both accounts. For the reasons stated above, I have vetoed House Bill 314.

Respectfully submitted, Christopher T. Sununu, Governor

The question being, notwithstanding the Governor's veto, shall **HB 314**, relative to licensing requirements for autonomous vehicle testing and establishing an automated and connected vehicle testing and deployment commission., become law?

Rep. Steven Smith spoke in favor.

Pursuant to the New Hampshire Constitution, Part II, Article 44, a roll call, requiring a two-thirds vote of the House for approval, was taken.

GOVERNOR'S VETO MESSAGE ON HB 1736

By the authority vested in me, pursuant to part II, Article 44 of the New Hampshire Constitution, on May 29th, 2018, I have vetoed House Bill 1736, relative to increasing the threshold required for governor and council approval of expenditures from the dam maintenance fund. Under current law, governor and council approval is required for all expenditures from the dam maintenance fund that are made for repair projects. RSA 482:54, VI currently defines repair as "performance of intermediate amounts of work on a portion of a structure or associated property on an occasional basis with costs not exceeding \$75,000." House Bill 1736 would amend the definition of repair so that it only includes work with a cost in excess of \$150,000, thus increasing the threshold for governor and council approval from \$75,000 to \$150,000. The governor and council, the only popularly elected executive branch officials, play a key role in overseeing the fiscal management of the executive branch and expenditure of taxpayer dollars. Because increasing the threshold for governor and council approval directly affects the governor and council's ability to discharge their fiscal management and oversight duties delegated by Part II, Article 56 of the New Hampshire Constitution, I am concerned that councilors were not consulted as this bill went through the legislative process. In addition, I have seen no compelling evidence that the current thresholds, and the need to seek governor and council approval, has created any administrative difficulties for the department of environmental services. New Hampshire's proud tradition of careful fiscal management counsels against reducing popularly elected officials' oversight of expenditures of taxpayer dollars absent a compelling justification. For the reasons stated above, I have vetoed House Bill 1736.

Respectfully submitted, Christopher T. Sununu, Governor

The question being, notwithstanding the Governor's veto, shall **HB 1736**, relative to increasing the threshold required for governor and council approval of expenditures from the dam maintenance fund., become law? Rep. Lynne Ober spoke in favor.

Pursuant to the New Hampshire Constitution, Part II, Article 44, a roll call, requiring a two-thirds vote of the House for approval, was taken.

WITHOUT OBJECTION

Without objection, the Speaker moved that the House attend to requests for Unanimous Consent out of the order of business.

UNANIMOUS CONSENT

Rep. Gile requested Unanimous Consent of the House regarding retirement and addressed the House.

MOTION TO PRINT REMARKS

Rep. Hinch moved that the remarks made by Rep. Gile during Unanimous Consent be printed in the Permanent Journal.

Without objection, the Speaker moved remarks printed.

REMARKS

Rep. Gile: Thank you, Mister Speaker and thank you, colleagues. Last week when I spoke to Paul Smith to request a few minutes for Unanimous Consent, he asked why and what I might be saying and then before I had a chance to answer, he had a smile on his face and said, "Is this a bon voyage?" I nodded yes, it could also be an au revoir and goodbye. It's going to be difficult to get through my few remarks but I wanted you all to know that it has been my privilege and honor to serve in this House with you and with your predecessors for 22 consecutive years since 1997. For a variety of reasons and certainly with very mixed emotions I decided last spring not to file for reelection for the new term. Actually when I was invited to run in 1996, I agreed to run for one term, contingent on getting elected. The journey over the last 22-years

has been an incredible learning experience and I have to thank you and thank your predecessors and the leadership over the years for appointing me and for the opportunity to serve on three different committees; ED& A, Children and Family Law, Education and to chair two of those committees as well as 2 statutory committees, and in chairing to participate in some of the most incredible leadership development forums and seminars that I could have imagined. In 22 years I have sponsored and co-sponsored a variety of legislation and was part of starting the first legislative caucus for young children. Beginning in the year 2000, I began sponsoring bills to introduce a system of paid family leave which became and continues to be my passion. I want to thank you for my successes, which have been a few over the 22 years. I also want to thank you for my failures, which have been many over the 22 years because it is in failing that we are forced to go back to the drawing board and to consider the alternatives and to consider whether or not it is worth continuing with this particular effort. I also wanted to share with you and for those of you that plan to stay around for a few years, a major highlight of my legislative experience and that is my participation in the National Conference of State Legislatures. As you may or may not know, New Hampshire pays memberships to organizations that are there to provide resources and technical assistance to legislators throughout the country and in the case of NCSL, through the world. I had the opportunity of being appointed to 2 committees and to be appointed an early childhood fellow, to be appointed to a committee to look at international education and to meet people who are experts at the world level that I could never have done in any other position other than this one. I've made many new friends across the aisle and also across the country. I've learned over the years to control my temper and to respect the ideals and opinions of those who do not share my progressive and proactive views. You know what? I look forward to continue advocacy. I would be remiss if I didn't say that I am especially grateful for the unanimous consents that commemorated special people and dates in history. Who can forget the late Alf Jacobson's account of witnessing raising the American flag on Iwo Jima? I used to get goosebumps every time he did that. Or the incredible moments in American history shared by former Representative David Hess and more recently by Representatives Itse and Vose and Shurtleff. I have to tell you that I was born and brought up and educated in Montreal, Quebec so I can tell you about the fathers of confederation who met in Charlottetown in 1867 to form the Dominion of Canada. I can tell you about Samuel de Champlain and Margaret de Borgia. I know very little about American history and I used to leave at the end of the day hearing those unanimous consents thinking how lucky I am and what an enriching experience. Representative Shurtleff, I know I am not supposed to mention names, you introduced me to Governor John Winant, who I had no idea even existed, and as a result of your interest in him, I did read *Citizens of London*, which was a wonderful book and I would recommend it to all of you. On the other hand, I also remember long days and long debates and trying to assess whether or not this was the best use of my limited life hours, which are even more limited now. Sometimes I would sit and imagine what this legislature looked like; these are little techniques that you might think of, what this legislature might look like in 1857. Of course we know it would be all men. I had other little scenarios also. For example, I wondered if in the year 3000, this legislature would still be a body of 400 people and would we still be happy with \$100 year salary. I have tell you, related to that and as part of my wonderful opportunity to meet people from other states and other countries, they always ask about New Hampshire. They always say, "Do you live in that state where they have all those Representatives? Do you only make \$100?" So I learned and asked what do you make, Representative from Massachusetts? Well, we start at about \$60,000 a year and then we have a \$20,000 benefit. What do you make, Representative from Indiana? Well, we start at a little lower but we have a wonderful retirement plan and for every dollar that I submit, the state contributes \$3, you know, three times that. This particular Representative who had been in for a number of years, said that by the time they are ready to retire, I'll have a retirement account of over \$1 million. Then I talked to some Representatives from Alberta, Canada and they cannot understand why I would work for \$100 because they get \$165,000 year. There might be some changes that you might think about between now and the year 3000. Lastly, it's been an honor to serve with you and I thank everyone for all the information and expertise that you have shared with me regarding your areas of expertise and also for your support for my legislative endeavors. I also want to thank the people behind the scenes. The people who work in legislative services, the people who work in the clerk's office, administrative services and especially the angels on the 4th floor in the LOB. Don't they make us all look wonderful in terms of our work as legislators? So I'm going to finish with a quote, if I can get through it without turning on the water works. It's a quote that I think about all the time when I'm dealing with frustrations, when I'm dealing with great moments and I share it with you before I say goodbye. "Above all, I wish we could teach people early that you can only meet life in a series of tentative and impermanent approximations. That the final goal may never be reached. That the last truths are probably unknowable, but that life holds nothing more precious than the sacred process by which you stretch your mind and your heart." Thank you for giving me so many opportunities over the years to stretch my mind and my heart. Thank you and au revoir.

(Rep. Packard in the Chair)**SENATE MESSAGE**

The Senate has voted to override the Governor's veto on the following Bill:

SB 365, relative to the use of renewable generation to provide fuel diversity.

GOVERNOR'S VETO MESSAGE ON SB 365

June 19, 2018

By the authority vested in me, pursuant to part II, Article 44 of the New Hampshire Constitution, on June 19th, 2018, I have vetoed Senate Bill 365, relative to the use of renewable generation to provide fuel diversity and Senate Bill 446, relative to net energy metering limits for customer-generators. Senate Bills 365 and 446 combined would cost New Hampshire electric ratepayers approximately \$100 million over the next three years. New Hampshire has some of the highest electric rates in the country, placing financial strain on the elderly, those on fixed incomes and the business community. These bills send our state in exactly the wrong direction. We need to be taking steps to lower electric rates, not passing legislation that would cause massive increases. Senate Bill 365 creates another immense subsidy for New Hampshire's six independent biomass plants. It would cost New Hampshire ratepayers approximately \$25 million a year over the next 3 years, on top of the subsidy for these plants that already became law last year through Senate Bill 129. Furthermore, Senate Bill 365 doesn't even guarantee solvency of these facilities and in fact, those who supply the wood product have confirmed that the maximum impact to their revenue would be a mere 3.5%. It harms our most vulnerable ratepayers and our job creators for the benefit of a select few. While I agree that expanding net metering could be a benefit to our state, Senate Bill 446 would cost ratepayers at least \$5 to 10 million annually and is a handout to large scale energy developers. These immense projects should use incentives already available and compete on their own merits. The businesses and working families of our state should not have to provide additional unjust taxation through higher electric bills. We should take the time necessary to study the effects of the recent Public Utilities Commission order on net metering before massively increasing the scale of projects that rely on ratepayer subsidies. Consistent with our state's 10 Year Energy Strategy, I am committed to working to encourage and advance renewable energy generation and fuel diversity without unjustly burdening the ratepayers of New Hampshire. For the reasons stated above, I have vetoed Senate Bill 365 and Senate Bill 466.

Respectfully submitted, Christopher T. Sununu, Governor

The question being, notwithstanding the Governor's veto, shall **SB 365**, relative to the use of renewable generation to provide fuel diversity, become law?

Reps. Vose and Harrington spoke against and yielded to questions.

Reps. Hennessey and Umberger spoke in favor.

Rep. Pearl spoke in favor and yielded to questions.

Pursuant to the New Hampshire Constitution, Part II, Article 44, a roll call, requiring a two-thirds vote of the House for approval, was taken.
