New Hampshire

HOUSE RECORD

Second Year of the 166th General Court Calendar and Journal of the 2020 Session

Web Site Address: www.gencourt.state.nh.us

Vol. 42

Concord, N.H.

Wednesday, September 16, 2020

No. 11

HOUSE JOURNAL NO. 10 (Cont'd)

Tuesday, June 30, 2020

Rep. Ley moved that the House adjourn.
Motion adopted.

HOUSE JOURNAL NO. 11

Wednesday, September 16, 2020

The House assembled at 10:00 a.m. and was called to order by the Speaker.

Prayer was offered by the member from Dover, Representative Linn Opderbecke.

God our creator and sustainer, we come before You this morning to ask for Your blessings and guidance as we meet together for the last time this session. We thank You for the privilege of representing the people of New Hampshire. Please bless and guide our Governor and our Speaker. Keep safe our first responders. We pray for our schools, our students, teachers and staff as they return. We pray for those who are the victims of COVID-19 and for their caretakers. Please be with those who are experiencing economic hardships in these times. We pray for our nation as we struggle with so many issues in these unprecedented times. Guide us as legislators. Enable us to work together to accomplish good things for the people of New Hampshire. Amen.

Speaker Shurtleff, member from Penacook, led the Pledge of Allegiance.

The National Anthem was sung by the member from Dover, Representative Peter Schmidt.

MOMENT OF SILENCE

A moment of silence was observed in honor and in memory of the former Governor of the State of New Hampshire, his Excellency, Governor Steve Merrill.

LEAVES OF ABSENCE

Reps. Boehm, Bordy, Diggs, Elliott, Gagne, L'Heureux, Myler, Oxenham, Janice Schmidt, Snow, Van Houten and Warner, the day, illness.

Reps. Bosman, Bucu, Cote, Fargo, Gourgue, Barbara Griffin, Indruk, Kotowski, Le, Mombourquette, Pimentel, Sanborn, Suzanne Smith, Southworth, Thompson and Ward, the day, important business.

Reps. Balch, Comeau, Coursin and St. John, the day, illness in the family.

COMMUNICATION

VIA EMAIL

July 14, 2020

Hi, it's been an honor to serve the people of Sullivan District 2 and serve in this historic legislative body. Unfortunately, I am moving out of the district, and must resign from my seat effective immediately. I wish all of my house colleagues the best. I'm proud of the work we've done in the house to uphold Governor Sununu's vetoes and reject many of the radical policies of the left.

Best,
Gates Lucas

COMMUNICATION**VIA EMAIL**

July 22, 2020

To the Clerk, the Speaker and my colleagues in the historic New Hampshire Statehouse. Per Part 2, Article 14 of the NH Constitution please accept this letter as my resignation as a State Representative for the town of Raymond effective Aug 1st, 2020 at which time I will be officially moving to the town of Freedom. I am grateful to the residents of Raymond for allowing me the opportunity to serve for two terms. Both Raymond and the Statehouse will hold a special place in my heart. - In Liberty
Michael Costable Jr.

COMMUNICATION**VIA EMAIL**

September 8, 2020

Mr. Speaker and Mr. Clerk,

Please accept this email message as notice of my resignation from the NH House of Representatives effective immediately.

It has been an honor to serve in this historic legislative body, and it has been an even greater honor to represent the people of Boscaawen in the legislature.

I wish you and my colleagues the best.

Thank you.

Rep. Robert Forsythe

Merrimack County District 8

MOTION TO REFER TO JUSTICES

Rep. Ebel moved that an opinion of the justices on holding a session of the New Hampshire House of Representatives remotely, either wholly or in part, whereby a quorum could be determined electronically, violates Part II, Article 20 of the New Hampshire Constitution.

Rep. Prout moved to amend the motion.

Speaker ruled the amendment out of order.

The question now being adoption of the motion to Refer to Justices.

Rep. Prout spoke against.

Rep. Ebel spoke in favor.

APPEAL OF THE RULING OF THE CHAIR

Rep. Lang appealed the ruling of the Chair whereby the Chair ruled that amending the motion to Refer to the Justices was out of order.

The Speaker ruled the motion out of order.

The question now being adoption of the motion to Refer to Justices.

Rep. Ebel requested a roll call; sufficiently seconded.

and the motion failed.

Rep. Grote voted Yea and intended to vote Nay.

MOTION TO PRINT DEBATE

Rep. Hinch moved that the debate on the motions to Refer to Justices be printed in the Permanent Journal. Without objection, the Speaker ordered.

DEBATE ON MOTIONS TO REFER TO JUSTICES

Clerk Smith: Mister Speaker, Rep. Ebel moves at this time to submit the following question to the Supreme Court of the State of New Hampshire seeking an opinion of the justices. Would holding a session of the New Hampshire House of Representatives remotely, either wholly or in part, whereby a quorum could be determined electronically, violate Part II, Article 20 of the New Hampshire Constitution?

Speaker Shurtleff: I know the leader wanted to ask a question, but let me take the first voice I heard.

Representative Prout: Mister Speaker, I move to amend the question by adding, "or Part II, Article 8" after the referenced "Part II, Article 20" and wish to speak to my motion.

Speaker Shurtleff: We have seen the motion that you wish to bring forward to the chamber and I must tell the member that the amendment of the reference is not in order. The question being sent to the Supreme Court is specific in its wording with relation to the quorum of this body as provided by one clause of the Constitution specific to the House of Representatives. The amendment being offered by Representative Prout attempts to relate that specific question and its applicability to one chamber of the General Court when unrelated reference to both chambers of the General Court on an unrelated subject matter. The amendment not being in order, the member is able to make an alternative motion to submit a question to the New Hampshire Supreme Court, provided that he submits it to the clerk so that it can be stated for the record. For those reasons, we cannot take up your amendment.

Representative Hinch: Thank you, Mister Speaker. Mister Speaker, we have House legal counsel. Can you provide a response to this question? Have you or anyone in the Speaker's office reached out to House counsel to ask for an opinion from House counsel before this goes to the Supreme Court?

Speaker Shurtleff: I can only speak; I know we have one more amendment by the member from Belmont. I can only speak to the amendment that was generated in the Speaker's office. On that amendment, I believe the House counsel was referred that issue.

Representative Hinch: Can you share with us what his response was?

Speaker Shurtleff: It was a verbal response.

Representative Hinch: Which was?

Speaker Shurtleff: That the request is in order and appropriate for the justices to take up.

Representative Hinch: So, I'm of the understanding that the House legal counsel did not provide any other input into whether he believed it would pass muster or not?

Speaker Shurtleff: That's correct.

Representative Hinch: Thank you.

Speaker Shurtleff: I thank the member for his question. The Chair recognizes the member from Belmont, Rep. Sylvia, for a motion.

Representative Sylvia: Thank you, Mister Speaker. Mister Speaker, I, like the gentleman with the previous motion to amend, had an amendment to this motion and as I understand Mason's Rules Section 64, allows for the amendment of a motion. Can you help me understand how that is not amendable?

Speaker Shurtleff: It is amendable, but it's not appropriate to the underlying motion that is going to come to the floor. Let me read to you what I read to the previous member. What I told to the representative, the amendment to the reference is not in order. The question being sent to the supreme court is specific in its wording with relation to the quorum of this body as provided by one clause of the constitution specific to the house of representatives. The amendment being offered by Representative Prout previously attempts to relate that specific question and its applicability to one chamber of the general court with an unrelated reference to both chambers of the general court on an unrelated subject matter. The amendment not being in order, the member is able to make an alternative motion to submit a question to the New Hampshire Supreme Court provided that he submits it to the clerk so that it can be stated for the record. So, to the member from Belmont, the amendment that you wish to introduce would fall into the same category as the previous member's amendment. And, again I would say to the member from Belmont, the last lines of my colloquy in so far if you wish to submit to the clerk your amendment, which I understand you have done that it will be stated for the record. Further question? Seeing none. There is now another motion coming before the House. It's the same motion that we initially spoke about, but I'll ask the clerk to read it to the House so everybody is clear on what is now before this body. Mister Clerk.

Clerk Smith: Mister Speaker, the motion by Rep. Ebel is to submit the following question to the supreme court seeking an opinion of the justices: Would holding a session of the New Hampshire House of Representatives remotely, either wholly or in part, whereby a quorum could be determined electronically, violate Part II, Article 20 of the New Hampshire Constitution?

Speaker Shurtleff: The Chair recognizes the member from Hudson, Rep. Prout, to speak against that amendment. Rep. Prout you are recognized.

Representative Prout: Thank you, Mister Speaker. First a point of clarification. Was I recognized to speak against an amendment or sending the question to the supreme court?

Speaker Shurtleff: The member from Hudson has been recognized to speak about the motion that is now before us.

Representative Prout: Thank you, Mister Speaker. Mister Speaker, I am against this motion because I don't think it's holistic enough to get a usable answer. It only references Part II, Article 20 and there are other articles of the constitution such as the one I wanted to amend the question to include that may have bearing whether it is constitutional for us to meet remotely, fully or partially. I think that if the question does get certified by the supreme court in its current form and they limit their response and their analysis to the question as it is worded, it simply might not answer the question we hope to get an answer to which is can we do that? For that reason, I don't think that you should send this question at all because we will get an unusable response that may actually mislead us. For that reason, I would ask everyone to vote red, press the E button and not send this question. Thank you, Mister Speaker.

Speaker Shurtleff: I thank the member. The Chair recognizes the member from New London, Rep. Ebel, to speak in support of the motion.

Representative Ebel: Thank you, Mister Speaker. Once again, I move at this time to submit the following question to the Supreme Court of the State of New Hampshire seeking an opinion of the justices. Would holding a session of the New Hampshire House of Representatives remotely, either wholly or in part, whereby a quorum could be determined electronically violate Part II, Article 20 of the New Hampshire Constitution? Article 20, which addresses what constitutes a quorum in the New Hampshire House refers to the number of representatives present to render their acts and proceedings valid. We need to understand whether the term

present includes a remote presence for purposes of determining the required quorum. While our forefathers couldn't possibly have known about Zoom, something we can all be envious of at this point, they had thrown off the bonds of a monarchy and had created a democracy of which this legislature is a critical part. They would have been horrified to see us sidelined. This is a worthy inquiry. During this pandemic for the safety and health of general court members, staff and the public, it was necessary to change the venue for our House sessions and we are all very grateful to UNH for having us here at the Whittemore Center for three of them. Sooner or later they are going to want their ice rink back. The logistics of these sessions away from our historic Representatives Hall have been quite extensive and just may not be sustainable over the long run. No one knows what course this terrible pandemic will take but we can all agree that this legislature as a co-equal branch of government needs to do its job. Our constituents elect us to represent them and we must find a path forward to do our work for them and for the good of this state. There are remote alternatives worthy of consideration to enable us to do our jobs, the work our citizens expect us and want us to do. To help us plan for the future, we should request an advisory opinion of our supreme court. There are times we do need their guidance and this is one of them. Just in case there is any question, the framers of our constitution anticipated just such occasions. Part II, Article 74 specifically authorizes each legislative branch as well as the Governor and Executive Council to request an opinion of the supreme court on important questions of law. Certainly an inquiry relating to the empowerment of this state legislature to do its constitutional duty is an extremely important question of law. There is recent precedent for such a request. In 2015 the gentlelady from Raymond, Rep. Hoelzel, moved and the House voted that Speaker Jasper should seek an opinion of the justices for the House on a question of law. Now we should vote to ask for their assistance again, specifically once again this motion seeks to clarify whether members participating in a House session remotely would be considered present under Part II, Article 20. A simple majority is required for the motion to pass. Please vote yes on a motion to seek this opinion of the supreme court. In the interest of time I'll take no questions and I also request a roll call vote. Thank you, Mister Speaker.

Speaker Shurtleff: The question before the House is on the motion to send the previous question to the New Hampshire Supreme Court. Why does the member rise?

Representative Lang: Thank you, Mister Speaker. I just want to make sure I understand the ruling of the Chair on the previous amendments. Is the ruling of the Chair that rather than ask the supreme court as a whole does this action violate any portion of the constitution? Are we going to keep it very narrow so while we may rule that it doesn't violate this portion, it may violate another portion and we will never know the answer?

Speaker Shurtleff: What we mentioned to the two previous members, the member from Hudson and the member from Belmont, that they had to be specific than what they were asking about. They couldn't attach an amendment to another question because it was dealing with a different part of Part II of the New Hampshire Constitution where one of his dealt with Part I and other sections. This is specific to one area. The court has done this in the past, taking up questions for judicial opinions from the House so this would prevail. I think you will see as we go forward, there may be one more question that comes before the House and it's specific to one area and that would be in order.

Representative Lang: Mister Speaker, I am still not clear on your answer. It seems to run on both sides so I am going to challenge the ruling of the Chair.

Speaker Shurtleff: We have already ruled on that amendment and have moved on to other business. I am sure later on in this day you will find another period of which to challenge the Chair, but it's not this particular moment because we have taken up other intervening business.

Representative Lang: Mister Speaker, aren't we still on the original request to the supreme court? We haven't moved any other decision at this point.

Speaker Shurtleff: There has got to be a nexus between a challenge to the Chair and the action taking by the Chair. The two previous members asked to introduce their amendments to what is before us now. The Chair read to them why that would not be in order and that they had other remedies they could take in order to have their questions taken up. Since my decision and my ruling on those previous amendments, the House has entertained intervening business so that period of the House action is over with. We are now on the underlying motion which we're now about to vote on.

Representative Lang: Thank you, Mister Speaker.

Speaker Shurtleff: I thank the member for his comments. The question before the House is on the motion to send the question to the New Hampshire Supreme Court for a judicial opinion. Rep. Ebel has asked for a roll call vote. Is that sufficiently seconded? It is sufficiently seconded. This will be a roll call vote. Members will kindly take their seats. We are now in the voting mode. I see members in the back of Division 101 that are still out of their seats. Members must be in their seats while we are voting so kindly take your seats. The Chair recognizes Rep. Hinch for a parliamentary inquiry.

Representative Hinch: Thank you, Mister Speaker. Mister Speaker, if I believe that this question is an incomplete question and if I believe therefore that we will receive an incomplete answer. And, if I further believe that it would have been prudent to combine the questions that have been asked this morning, would I now press the red button and get a complete answer from the supreme court? Thank you.

Speaker Shurtleff: The question before the House is the request to send a question to the Supreme Court of New Hampshire for a judicial review. The Chair recognizes Rep. Ebel for a parliamentary inquiry.

Representative Ebel: Mister Speaker, if I know that the framers of our constitution anticipated there would be times when the supreme court would need to be consulted on important questions of law. And, if I know that important legal questions now exist as to whether holding a remote session, either wholly or in part, of the New Hampshire House whereby a quorum could be determined electronically would violate Part II, Article 20 of the New Hampshire Constitution and especially if I know that the legislature has important work to do for the state and its citizens despite this pandemic and this alternative means for meeting are worthy of consideration, would I now press the green button and support the motion to request an advisory opinion of the supreme court justices that could enable the legislature to use available technology to do its necessary work? Thank you, Mister Speaker.

Speaker Shurtleff: This will be a roll call vote. The question before the House is on the motion to send a question to the New Hampshire Supreme Court. If you are in favor, you'll press the green button. If you are opposed, you'll press the red button. Voting stations will be open for 30 seconds. Have all members present had an opportunity to vote? The House will be attentive to the state of the vote. With 199 members voting Yea and 134 voting Nay, the motion passes. The Chair recognizes the clerk for a further motion.

Clerk Smith: Mister Speaker, Rep. Sylvia moves the following motion. Mister Speaker, at this time he moves to submit the following question to the Supreme Court of the State of New Hampshire seeking an opinion of the justices: Would holding a session of the New Hampshire House of Representatives remotely, either wholly or in part, whereby a quorum could be determined electronically, violate any Article of the New Hampshire Constitution?

Speaker Shurtleff: Rep. Sylvia is recognized to speak to his motion.

Representative Sylvia: Thank you, Mister Speaker. Mister Speaker, I believe that we need to get a complete answer if we are going to the supreme court. Frankly, I don't believe this question needs to be put to the supreme court. There are many sections of our constitution that are going to be violated by remote meetings, particularly Part I, Article 8. This is not a transparent process. In fact, today we have no gallery, which is also required by our constitution. The people are not allowed anything but a view through a computer screen at this particular point in time. I find this process highly objectionable. So that being the case, I put forward the following motion, previous motion, and would ask members, frankly, I would say no to all of them, but I guess I am making a motion so we should support it.

Speaker Shurtleff: The question before the House is the motion that the member from Belmont introduced. Rep. Ley has asked for a roll call vote. Is that sufficiently seconded? It is sufficiently seconded. This will be a roll call vote. Members will kindly take their seats. The question before the House is on the motion by the member from Belmont to send a question to the New Hampshire Supreme Court for a judicial opinion. The Chair recognizes Rep. Ley for a parliamentary inquiry.

Representative Ley: Thank you, Mister Speaker. Mister Speaker, if I know that the New Hampshire Supreme Court has a longstanding tradition of only addressing very specific questions regarding the constitution and that the New Hampshire Supreme Court also has a long tradition of rejecting very broad based questions such as the one that is currently being proposed. And, finally Mister Speaker, if I know that the previous vote on the previous question has already provided the court with the specific question that we need answered, would I now vote against this resolution by pressing the red button? Thank you.

Speaker Shurtleff: The question before the House is on the motion to send a question to the New Hampshire Supreme Court. The Chair recognizes Rep. Hinch for a parliamentary inquiry.

Representative Hinch: Thank you, Mister Speaker. Mister Speaker, if I believe that this question adds clarity and completeness to the question going to the supreme court that we desire, would I now press the green button and support this? Thank you.

Speaker Shurtleff: This will be a roll call vote. The question before the House is the motion by the member to send a question to the New Hampshire Supreme Court. If you are in favor of that, you'll press the green button. If you are opposed, you'll press the red button. Voting stations will now be open for 30 seconds. Have all member present had an opportunity to vote? The House will be attentive to the state of the vote. With 156 members voting Yea, 178 voting Nay the motion fails for lack of a majority.

SENATE MESSAGE

The Senate has voted to override the Governor's veto on the following Bill:

SB 159, relative to net energy metering limits for customer-generators.

GOVERNOR'S VETO MESSAGE ON SB 159

By the authority vested in me, pursuant to part II, Article 44 of the New Hampshire Constitution, on February 10th, 2020, I have vetoed Senate Bill 159, relative to net energy metering limits for customer-generators. Senate Bill 159 is nearly identical to two bills that were vetoed and sustained in previous legislative sessions. The proponents of this bill claim to have made a compromise, when in fact it still would result in hundreds

of millions of dollars in higher electric rates for our citizens. These costs would be felt most by low-income families and seniors in New Hampshire, and that is not acceptable. I am committed to finding a true compromise. We have the opportunity to move forward with a smarter clean energy policy, done the New Hampshire way. I have worked with legislators to propose new legislation that expands access to net metering for cities, towns, and businesses and still lower their electricity bills. Let's work together and pass common ground net metering legislation to create smart clean energy opportunities for our state. For the reasons stated above, I have vetoed Senate Bill 159.

Respectfully submitted, Christopher T. Sununu, Governor

The question being, notwithstanding the Governor's veto, shall **SB 159**, relative to net energy metering limits for customer-generators, become law?

Rep. Moffett spoke in favor.

Pursuant to the New Hampshire Constitution, Part II, Article 44, a roll call, requiring a two-thirds vote of the House for approval, was taken.

GOVERNOR'S VETO MESSAGE ON HB 250

By the authority vested in me, pursuant to part II, Article 44 of the New Hampshire Constitution, on July 28th, 2020, I have vetoed House Bill 250. While I support the concept of adding an adult dental benefit to our state's Medicaid health insurance offerings in the future, I cannot support this bill at this time. As the State of New Hampshire is facing historic revenue shortfalls, there is a fiscal necessity to bring our budget into balance and live within the means of our new revenue base. Working with state agencies and the Legislature, we must begin the process of making the hard choices with our limited resources. I cannot support adding this \$11 million a year General Fund expense for a new service that would necessitate cutting \$11 million in existing services. House Bill 4, which I signed into law in September, instructed the Department of Health and Human Services to prepare a plan to implement a benefit. It is my hope that we can build on the Department's work thus far and design an adult dental benefits service delivery model that is affordable and structurally sustainable. If so, we can implement a benefit at such a time as the state has the financial resources to do so in a responsible, cost-effective manner. For the reasons stated above, I have vetoed House Bill 250.

Respectfully submitted, Christopher T. Sununu, Governor

The question being, notwithstanding the Governor's veto, shall **HB 250**, establishing a dental benefit under the state Medicaid program, become law?

Rep. Weber spoke in favor.

Pursuant to the New Hampshire Constitution, Part II, Article 44, a roll call, requiring a two-thirds vote of the House for approval, was taken.

and the veto was sustained.

GOVERNOR'S VETO MESSAGE ON HB 466

By the authority vested in me, pursuant to part II, Article 44 of the New Hampshire Constitution, on July 17, 2020, I have vetoed House Bill 466, relative to the capacity of electricity customer generators for eligibility for net energy metering. As amended, this bill increases subsidies to a select few existing generators. These systems were already built and financed under the current net metering subsidies. Increasing the threshold for these subsidies after construction is complete is both wasteful and unnecessary. Because this new subsidy would be extended to new generators as well, the total costs to ratepayers would continue to escalate over time. In simple terms, it is a handout to those already profiting at the expense of ratepayers across New Hampshire, including those who can least afford to bear the costs of higher energy bills. I am troubled to see that the legislature chose to move forward with this backwards net metering proposal while killing House Bill 1402. House Bill 1402 offered a real solution to cities and towns and the opportunity for expanded renewable energy in New Hampshire. Rather than pursuing compromise to help move clean energy forward, proponents of this bill chose to advocate for policy that is more interested in government subsidies than expanding renewables. For the reasons stated above, I have vetoed House Bill 466.

Respectfully submitted, Christopher T. Sununu, Governor

The question being, notwithstanding the Governor's veto, shall **HB 466**, relative to the capacity of electricity customer generators for eligibility for net energy metering, become law?

Rep. Plett spoke against.

Rep. Wells spoke in favor.

Pursuant to the New Hampshire Constitution, Part II, Article 44, a roll call, requiring a two-thirds vote of the House for approval, was taken.

GOVERNOR'S VETO MESSAGE ON HB 685-FN

By the authority vested in me, pursuant to part II, Article 44 of the New Hampshire Constitution, on August 7, 2020, I have vetoed House Bill 685. This legislation is unnecessary, and would threaten the State's ability to receive federal funding for our many healthcare programs in the middle of a global pandemic. The vast majority of the commercially insured in New Hampshire already have coverage of abortion services. The legislation also raises constitutional concerns by forcing employers who morally object to offering coverage that violates their religious tenets. Federal law clearly states that the United States Department of Health and Human Services may not provide funds to states who discriminate against a health insurance plan on the basis that the plan does not provide coverage for abortions. This provision is known as the "Weldon Amendment," and it has been adopted in every Federal HHS appropriations act since 2005. House Bill 685 clearly violates this provision of Federal law by requiring every insurance plan in New Hampshire that covers maternity benefits to provide coverage for abortion services. Therefore, by enacting this bill, the State of New Hampshire would risk losing federal funding for its many healthcare programs. The bill's attempt to mitigate the risk to the

State's federal funding by giving the Commissioner the discretion to grant exemptions is not sufficient to protect the State's interests. The bill's requirements would clearly make the State ineligible for significant federal funds, and allowing rather than requiring the Commissioner to provide necessary exemptions does not guarantee to the citizens of our State that their critical programs will not be put at risk. This bill would risk the States federal healthcare funding in the middle of a pandemic, take away the freedom of choice for those employees and employers who object to being forced to partake in or provide abortion services, and expose the State to expensive litigation. Therefore, the costs and risks of this bill far outweigh its benefits. For the reasons stated above, I have vetoed House Bill 685.

Respectfully submitted, Christopher T. Sununu, Governor

The question being, notwithstanding the Governor's veto, shall **HB 685-FN**, relative to insurance plans that cover maternity benefits, become law?

Rep. McBeath spoke in favor.

Pursuant to the New Hampshire Constitution, Part II, Article 44, a roll call, requiring a two-thirds vote of the House for approval, was taken.

GOVERNOR'S VETO MESSAGE ON HB 687-FN

By the authority vested in me, pursuant to part II, Article 44 of the New Hampshire Constitution, on August 7th, 2020, I have vetoed House Bill 687. In my most recent Inaugural Address, I highlighted the issue of suicide in New Hampshire and called for legislation to bring awareness and suicide prevention. In August of 2019, I signed Senate Bill 282, a bill that requires schools to develop plans and policies to address suicide and to bring training and education into the school setting. Mental health will continue to be one of New Hampshire's top priorities, and we have taken action to address our state's mental health needs. We have taken steps to rebuild our state's mental health system, making some of the largest investments in decades. Since I took office, the average length of time an individual patient waits for an admission has been nearly cut in half, and the number of days that patients spend waiting in hospital emergency departments has decreased by 60%. However, we must continue to keep improving the performance of our system where possible, as mental health is a critical area that touches all aspects of New Hampshire life. Unfortunately, the process laid out in House Bill 687 goes too far and would weaken the constitutional rights of law-abiding New Hampshire citizens. This bill could lead to situations where law-abiding Granite Staters have their property seized with no notice or opportunity to speak in their own defense. The lack of due process in this legislation is antithetical to the New Hampshire and American tradition. These and other provisions in House Bill 687 run counter to our constitutional rights as laid out in the 2nd, 4th, 5th, 6th, and 14th amendments to the United States Constitution as well several articles in the New Hampshire Constitution. I will continue to prioritize suicide prevention and mental health as there is much work yet to be done in New Hampshire, but that work cannot come at the expense of the constitutional rights of our citizens. For the reasons stated above, I have vetoed House Bill 687.

Respectfully submitted, Christopher T. Sununu, Governor

The question being, notwithstanding the Governor's veto, shall **HB 687-FN**, relative to extreme risk protection orders, become law?

Reps. Burt and Abbas spoke against.

Reps. Meuse and Altschiller spoke in favor.

Pursuant to the New Hampshire Constitution, Part II, Article 44, a roll call, requiring a two-thirds vote of the House for approval, was taken.

GOVERNOR'S VETO MESSAGE ON HB 712-FN

By the authority vested in me, pursuant to part II, Article 44 of the New Hampshire Constitution, on July 10, 2020, I have vetoed House Bill 712. For the second time in as many years, the Democrats have put this legislation, which would establish a state income tax, on my desk. Proponents have dug deep into their thesauruses to engage in linguistic gymnastics to characterize the income tax contained in this program as something other than what everyone clearly recognizes it to be. Whether one chooses to characterize it as a "premium on wages" or a "payroll deduction," the reality remains that if it looks like an income tax, functions like an income tax, and takes more money out of the paychecks of hard working taxpayers like an income tax, then it is an income tax. Paid family medical leave is important to me, which is why I have presented multiple plans to the Legislature. Unlike the Democrats legislation, my bills were:

- Voluntary, affordable, sustainable, and income tax free.
- Supported and endorsed by the NH Insurance Department and the NH Department of Employment Security.
- Amended to address concerns for a constructive resolution.

Sadly, Democratic leadership chose not to collaborate on a solution. When given a choice between paid family medical leave and an income tax, Democrats chose the income tax. Rather than deliver an important opportunity for New Hampshire residents, the legislature has insisted on trying to once again to pass more taxes onto the citizens of our state. Neither I nor the people of New Hampshire will ever support an Income Tax. For the reasons stated above, I have vetoed House Bill 712.

Respectfully submitted, Christopher T. Sununu, Governor

The question being, notwithstanding the Governor's veto, shall **HB 712-FN**, relative to a family and medical leave insurance program, become law?

Rep. Abramson spoke against.

Rep. Lovejoy spoke in favor.

Pursuant to the New Hampshire Constitution, Part II, Article 44, a roll call, requiring a two-thirds vote of the House for approval, was taken.

GOVERNOR'S VETO MESSAGE ON HB 731-FN

By the authority vested in me, pursuant to part II, Article 44 of the New Hampshire Constitution, on July 24th, 2020, I have vetoed House Bill 731. In case after case across the country, we have seen that artificial increases in the minimum wage have negative unintended consequences on the very workers that those policies are designed to support. Workers often have reduced take-home pay as their hours are reduced or their jobs are eliminated. At the same time, prices to consumers become inflated as employers struggle to balance new government mandates. It is important to remember that a law can force an employer to pay a minimum wage but it cannot force an employer to hire or retain a worker at that wage, or to continue offering the same number of hours to that worker. This problem is only exacerbated by the economic situation caused by COVID-19. Now is exactly the wrong time to pursue policies that will reduce the chances of Granite Staters being able to get back to work and that will further hinder our employers who are already struggling in this global pandemic. This bill would have meant fewer jobs and fewer available hours for our workers who are unemployed or underemployed. It would mean our employers who are fighting for survival would have one more burden placed on their backs as they try to recover. In our current economic environment, the greatest burden would fall squarely on entry level workers, who need job skills to advance in their careers. Raising the minimum wage would create a barrier for these new workers, as well as those re-entering the job market from the criminal justice system at a time when unemployment remains high. That is an unfair burden that no one should place on these individuals. New Hampshire's economy will bounce back by following the formula of success we have pursued over the last 3 years: increase opportunities for our employers and workers while removing barriers that stifle our growth. We must support the New Hampshire Advantage that helped us have among the lowest poverty, unemployment rates, and highest wages in the country prior to COVID-19. For the reasons stated above, I have vetoed House Bill 731.

Respectfully submitted, Christopher T. Sununu, Governor

The question being, notwithstanding the Governor's veto, shall **HB 731-FN**, relative to the state minimum hourly rate, become law?

Rep. Abramson spoke against.

Rep. Sullivan spoke in favor.

Pursuant to the New Hampshire Constitution, Part II, Article 44, a roll call, requiring a two-thirds vote of the House for approval, was taken.

GOVERNOR'S VETO MESSAGE ON HB 1166-FN

By the authority vested in me, pursuant to part II, Article 44 of the New Hampshire Constitution, on July 17th, 2020, I have vetoed House Bill 1166. This legislation contains three major problems that would result in drastic consequences for New Hampshire. These problems prompted three different state agencies, the Department of Employment Security, the Department of Labor and the Department of Insurance to raise strong concerns with this bill. Ultimately, this legislation would undermine the state's effort to recover from the pandemic and would significantly harm employers by subjecting them to higher unemployment taxes if this bill were to become law. First, the bill contains several provisions that are blatant violations of federal law. Under this legislation, any individual filing for unemployment in New Hampshire for a COVID-19 related reason would no longer qualify for the current federal \$600 supplemental weekly payment and any additional extensions of enhanced unemployment benefits. This payment is currently scheduled to continue through the end of this month, but may be extended by future federal legislation. Additionally, this legislation would make New Hampshire the only state in the nation to be ineligible for Federal unemployment funding from the Pandemic Unemployment Assistance (PUA) program under the CARES Act. Currently, Granite Staters who are temporarily unemployed as a result of COVID-19 are paid federal benefits through the CARES Act. By making all of these people eligible under state law, New Hampshire citizens would lose federal eligibility. House Bill 1166 would also permanently waive eligibility requirements for people filing for a COVID-19 reason. USDOL warned states against doing this in written program guidance. Taking these types of actions would cause New Hampshire to be out of compliance with federal law. The consequences are that New Hampshire will lose over \$30 million in federal funding. Were this not enough, the bill seeks to waive requirements for individuals to repay benefits they should not have received and were at fault in creating. This too would be a violation of federal requirements. This could result in putting that state at higher risk of fraud and abuse. Combined, the results of these changes in benefits would have to be paid for by New Hampshire employers, all of whom are themselves working to recover from COVID-19 at the cost of over \$200 million per year. That is a huge new tax increase, particularly on small businesses, for all the wrong reasons. According to the Commissioner of Insurance, another major problem with this legislation is that it contains provisions that

could lead to potential insurance abuse. The legislation will expose New Hampshire premium payers to unscrupulous out-of-state health care providers who will take advantage of the requirement for New Hampshire companies to pay their provider fees, regardless of how excessive. This is similar to some of the abuses the state saw in worker compensation before the state modified those provisions in law in 2015. This bill takes us backwards. Finally, the introduction of Family Medical Leave Act (FMLA) coverage to the State's small employers would add costs and constraints to those operations where and when they are least needed and at a time when our state's small businesses are often fighting a battle for survival. It should also be noted that the FMLA provides federal protections that fall outside the bounds of state authority, which would confound enforcement and regulatory efforts. Additionally, the exceptions offered to such employer obligations are unclear, which would make administration of this burdensome to all. To be frank, this a terribly written and poorly thought out bill that puts New Hampshire citizens at risk by violating federal requirements. Our job is to open doors of opportunity in times of need, not cut off federal support when families are struggling. For the reasons stated above, I have vetoed House Bill 1166.

Respectfully submitted, Christopher T. Sununu, Governor

The question being, notwithstanding the Governor's veto, shall **HB 1166-FN**, relative to unemployment compensation, certain sanitary protections for COVID-19, extending the federal Family and Medical Leave Act for certain COVID-19 protections, and waiving cost sharing for testing and treatment for COVID-19, become law? Rep. Williams spoke in favor and yielded to questions.

Pursuant to the New Hampshire Constitution, Part II, Article 44, a roll call, requiring a two-thirds vote of the House for approval, was taken.

The House recessed at 12:00 p.m.

RECESS

The House reconvened at 12:45 p.m.

(Speaker Shurtleff in the Chair)

GOVERNOR'S VETO MESSAGE ON HB 1234-FN-A

By the authority vested in me, pursuant to part II, Article 44 of the New Hampshire Constitution, on July 28, 2020, I have vetoed House Bill 1234. While I understand the unusual and unprecedented circumstances created by the COVID-19 pandemic, it is extremely unfortunate that the legislature decided to manage their workload by merging nearly 40 previously separate pieces of legislation into this one 77 page omnibus bill. I am concerned that significant portions of this legislation have not had a chance to go through the public hearing process in the House of Representatives. Finally, most of the bills in the omnibus amendment do not relate to one another, making it more perplexing that they would send all of these proposals in a single package. Despite the pandemic, it is important to remember that this bill is the byproduct of House leadership's unwillingness to work with the entire body to develop a plan to move forward with its session. Had they worked across the aisle as promised, omnibus bills like this one would have been able to be properly vetted. It is imperative for bills to go through the proper public hearing process and be given fair scrutiny by the individuals and stakeholders they affect. For the reasons stated above, I have vetoed House Bill 1234.

Respectfully submitted, Christopher T. Sununu, Governor

The question being, notwithstanding the Governor's veto, shall **HB 1234-FN-A**, relative to state and local government administration, become law?

Reps. McWilliams, Bixby and Walz spoke in favor.

Rep. Ladd spoke against.

Pursuant to the New Hampshire Constitution, Part II, Article 44, a roll call, requiring a two-thirds vote of the House for approval, was taken.

GOVERNOR'S VETO MESSAGE ON HB 1246

By the authority vested in me, pursuant to part II, Article 44 of the New Hampshire Constitution, on July 17th, 2020, I have vetoed House Bill 1246. Although this bill is well intended, it is redundant. It aims to create new programs and spend CARES Act funds in areas where the state has already identified concerns and designed programs and devoted significantly more resources. While this legislation would be appropriate in non-emergency situations, instances like COVID-19 are precisely why the legislature created RSA 4:45 and 21-P:43, so that the flow of resources in an emergency would not be hampered by moving a bill through the legislature. This bill allocates \$25 million in CARES Act money to create a fund designed to assist long term care facilities. However, my administration has already acted to allocate \$100 million to the Healthcare System Relief Fund and earmarked \$30 million specifically for long term care providers. Additionally, we created the Long Term Care Stabilization Program to stabilize and incentivize our front line health care workforce with weekly stipends. This bill would also appropriate \$10 million in CARES Act funds for child care. However, we have already used CARES Act funds created the NH Child Care Recovery and Stabilization Program and allocated \$25 million to provide emergency financial support to Child Care Programs. Further, this bill has a number of provisions that are replicated in other pieces of pending legislation or that have already become law. For the reasons stated above, I have vetoed House Bill 1246.

Respectfully submitted, Christopher T. Sununu, Governor

The question being, notwithstanding the Governor's veto, shall **HB 1246**, relative to reporting of health care associated infections, establishing a COVID-19 nursing home and long-term care fund, relative to an independent COVID-19 nursing home and long-term care review, needs assessment, and recommendations, authorizing pharmacists to administer a COVID-19 vaccine, and relative to the reimbursement of costs of training nursing assistants, become law?

Rep. Weber spoke in favor.

Pursuant to the New Hampshire Constitution, Part II, Article 44, a roll call, requiring a two-thirds vote of the House for approval, was taken.

MOTION TO PRINT DEBATE

Rep. Horrigan moved that the debate on **HB 1166-FN**, relative to unemployment compensation, certain sanitary protections for COVID-19, extending the federal Family and Medical Leave Act for certain COVID-19 protections, and waiving cost sharing for testing and treatment for COVID-19, be printed in the Permanent Journal. Without objection, the Speaker ordered.

DEBATE ON HB 1166

Representative Williams: Thank you, Mister Speaker. Colleagues, like many of you, I have barely been out of my house for six months and I've learned that Zoom is a television show with many characters and not much plot. As we are together for what is likely the final time as this legislature, we are not in the comfortable confines of the state house, but spread out in this arena like the world's largest folding chair drill team. This pandemic has changed all of our lives. Even if you don't think it is real and you think you don't need to wear a mask, it affects you too because the coronavirus doesn't care what you think. More than anything we take up today HB 1166 addresses the pandemic head on because even though I can hide in my house, not everyone in New Hampshire can. Thank goodness they don't. Medical workers, grocery store workers, delivery drivers and many more essential workers are out there every day working to help all of us. Most work because they need to make a living. They can't afford to stay home and avoid the coronavirus. That is why this bill is so important. First it provides unemployment support if someone has to quarantine because they have been exposed to the virus. You don't want someone to have to work in spite of their exposure or sickness because they can't afford to stay home, subjecting their customers or coworkers to the virus. It also allows workers to take unpaid leave to care for a family member who contracts the virus. One of the things the coronavirus has exposed is the woeful condition of our unemployment software system. I have talked to many constituents who are desperate because they have not been able to collect, not because they are not eligible, but because the system is screwed up. I hope I have helped them. I certainly tried, but the best way to help them is to pass this bill because it allocates funds to fix that software. Employers will be required to provide basic sanitation and personal protective equipment for their employees under this bill. This is essential to assure that those essential workers don't go home with the virus. Finally, HB 1166 waives cost sharing in health insurance for most COVID related services. I know we all want to believe that a vaccine is just around the corner, that we can all get a shot or two and suddenly life will be just like it used to be. Personally, I am not that naïve. Much uncertainty lies ahead. The virus may mutate and beat the vaccine like its cousin the flu. The vaccine may only be partially effective. Some people won't take the vaccine. It's very likely this pandemic lasts longer than we want to think. Some of the things may be partially covered by other actions, but emergency orders can only last so long. If the unthinkable happens and the pandemic goes on, we should have these protections in place. This bill is not a giveaway. It's essential protection, financial and sanitary, so those essential workers can keep working and when they cannot, get a little bit of financial protection. Without protections such as these, some people's lives will go from a pandemic to an apocalypse. Please vote to overturn the veto on 1166 and protect those who work for all of us. Thank you.

Speaker Shurtleff: Will the member yield to a question? Rep. Flanagan, you may inquire.

Representative Flanagan: Thank you, Mister Speaker. I'd like to thank the Representative from Wilton for taking my question. Did you know that the Department of Unemployment Security told the authors of this bill that if this bill passed, we would have lost the extra amount, the \$600, and potentially lose federal funding if this bill passed?

Representative Williams: Well, that may or may not be true, but considering that all of that federal money is now gone, including the extra \$300 that we were getting for a little while, it really doesn't make any difference in the case of this bill. If this bill passes, it will definitely benefit those who are on unemployment.

Representative Flanagan: I would ask for a follow up, but.

Speaker Shurtleff: Will the member yield to a follow up question?

Representative Williams: No, thank you.

Representative Flanagan: That's what I thought the answer would be, Mister Speaker. Thank you.

Speaker Shurtleff: Well, you were right. The question before the House is notwithstanding the Governor's veto, shall HB 1166 become law? This will be a roll call vote. Members will kindly take their seats. While people are coming in, after this there will be a message from the clerk and then we are going to break for lunch. The question before the House is notwithstanding the Governor's veto, shall HB 1166 become law? The Chair recognizes Rep. Jason Osborne for a parliamentary inquiry.

Representative Jason Osborne: Thank you, Mister Speaker. If I know that HB 1166 has numerous problems which have been brought to our attention by the Department of Employment Security and the Department of Labor and Insurance, contains numerous violations of federal law which will bring us out of compliance,

we would be the only state ineligible for the pandemic unemployment assistance, puts us at greater risk of fraud and abuse, would deprive us of \$30 million of federal funding and would end up costing New Hampshire businesses \$200 million a year, businesses that are struggling to survive from the ongoing crisis, would I now press the red button?

Speaker Shurtleff: The question before the House is notwithstanding the Governor's veto, shall HB 1166 become Law? The Chair recognizes Rep. Porter for a parliamentary inquiry.

Representative Porter: Thank you, Mister Speaker. If I know that HB 1166 as amended puts into New Hampshire law the federal COVID-19 eligibility protections for unemployment compensation and unpaid family and medical leave coverage continuing the support for those who cannot work because they need to care for others or to protect themselves from exposure. And, if I know it contains stronger worker safety provisions for those who do return to work to help prevent the spikes in cases seen in other states. And, if I know that HB 1166 contains a severability clause for any section which might possibly affect federal funding coming into the state, then would I vote yes to override this veto, pass this bill and get New Hampshire safely back to work?

Speaker Shurtleff: The question before the House is notwithstanding the Governor's veto, shall HB 1166 become law? The state constitution requires a roll call vote. A 2/3 vote is required to override a veto. If you are in favor of having the bill become law, you will press the green button. If you are opposed and wish to sustain the Governor's veto, you will press the red button. Voting stations will now be open for 30 seconds. Have all members present had an opportunity to vote? The House will be attentive to the state of the vote. With 193 members voting Yea and 145 voting Nay, the motion to override fails and the Governor's veto is sustained.

GOVERNOR'S VETO MESSAGE ON HB 1247

By the authority vested in me, pursuant to part II, Article 44 of the New Hampshire Constitution, on July 10, 2020, I have vetoed House Bill 1247, relative to mortgage defaults and nonpayment of rent during the novel coronavirus disease (Covid-19) outbreak state of emergency. Putting a moratorium on evictions was an important early step that my administration took to ensure that Granite Staters did not lose their housing during the COVID-19 pandemic. This emergency order (EO #4) was issued four days after a State of Emergency was declared on March 13, 2020, and received international recognition for the swift action we took. After approximately four months and after providing the public with ample time and ability to prepare, this order sunset on July 1. In phasing out the moratorium on evictions, the State changed the eviction notice requirement from 7 days to 30 days for new evictions initiated for nonpayment of rent that came due during the moratorium. This will provide renters and mortgagees additional time to develop a repayment plan. Additionally, my administration allocated \$35 million in CARES Act spending to create the New Hampshire Housing Relief Program to further assist individuals and help them avoid losing their housing as the emergency order expired. This program includes:

- Assistance for past due rent that was incurred because of COVID-19.
- Assistance with other housing related expenses like utilities.
- Assistance to maintain or secure more permanent housing.

We must remember that property owners have also struggled throughout the COVID-19 pandemic. Small property owners who rent 10 units or fewer account for 90% of rental units in New Hampshire. They too have financial obligations that must be met, including mortgages, taxes and utilities. Denying property owners the opportunity to pay their bills is a recipe for them removing these rental units from the market, placing them up for sale in our robust real estate market, and further exacerbating the shortage of rental units that already exists across New Hampshire. Not only would this reduce the housing supply, but it would also, in turn, drive up the cost of rent statewide. This would further undermine opportunities for workforce housing, particularly for low income individuals, the very same group that proponents of this legislation suggest they are trying to help. Prior to the current pandemic, my administration was aggressively tackling a significant housing crisis in New Hampshire. Unfortunately, the Legislature chose not to move forward with my bipartisan housing bills. House Bill 1247 adds a major structural problem to an already precarious housing environment. The effect would be to take a bad situation and make it even worse. New Hampshire has been among the most proactive and aggressive states in the nation when it comes to housing issues during the COVID-19 pandemic and we will continue to devote significant resources and attention to the issue. However, this legislation is counterproductive and could have serious long-term consequences. For the reasons stated above, I have vetoed House Bill 1247.

Respectfully submitted, Christopher T. Sununu, Governor

The question being, notwithstanding the Governor's veto, shall **HB 1247**, relative to mortgage defaults and nonpayment of rent during the novel coronavirus disease (Covid-19) outbreak state of emergency, become law? Rep. Adjutant spoke in favor.

Pursuant to the New Hampshire Constitution, Part II, Article 44, a roll call, requiring a two-thirds vote of the House for approval, was taken.

GOVERNOR'S VETO MESSAGE ON HB 1375

By the authority vested in me, pursuant to part II, Article 44 of the New Hampshire Constitution, on August 7th, 2020, I have vetoed House Bill 1375, relative to claims for medical monitoring. The most important public trust we have is when we turn on the faucet and expect clean water. Since taking office, my Adminis-

tration has made clean, safe drinking water a priority. In 2018, I signed legislation allowing the Department of Environmental Services to set drinking water standards for PFAS. Those standards are among the most protective in the country, making New Hampshire a model for the rest of the Nation. We have filed significant lawsuits to hold polluters accountable and have made historic investments in drinking water infrastructure. We will continue to prioritize protecting our citizens from exposure to hazardous substances. While this bill was sent to my desk with good intentions, I have concerns related to the impact it would have on businesses and consumers in the Granite State. As an environmental engineer, I am certainly familiar with exposure to toxic materials and the possibility for associated risks. That experience informs my view that this legislation would subject businesses to increased liability by creating a pathway for almost anyone exposed to hazardous or toxic substances to prove a claim for medical monitoring damages, regardless of the level, risk or consequences of exposure. Many substances that qualify as hazardous are associated with very limited health risks. By not requiring proof of injury or symptoms and excluding plaintiffs' past or present health status from being considered, this bill could open the floodgates to new, less severe claims which would divert resources from those who truly need them. This bill could lead to the unfortunate consequence that those most in need are unable to receive what they otherwise are entitled to. House Bill 1375 is too broad and lacks necessary clarity. I encourage the proponents of this legislation to take the time to explore a more tailored and responsible approach in the next legislative session, and I stand ready to work with any legislators who wish to do so. For the reasons stated above, I have vetoed House Bill 1375.

Respectfully submitted, Christopher T. Sununu, Governor

The question being, notwithstanding the Governor's veto, shall **HB 1375**, relative to claims for medical monitoring, become law?

Rep. Butler spoke in favor.

Pursuant to the New Hampshire Constitution, Part II, Article 44, a roll call, requiring a two-thirds vote of the House for approval, was taken.

and the veto was sustained.

GOVERNOR'S VETO MESSAGE ON HB 1454

By the authority vested in me, pursuant to part II, Article 44 of the New Hampshire Constitution, on July 24th, 2020, I have vetoed House Bill 1454, relative to credit for alternative, extended learning, and work-based programs. For the second time in as many years, the legislature has put legislation on my desk that will stifle innovation in education and strip away alternative learning paths for students. New Hampshire has a long and distinguished history of education innovation that has served our students, families, and communities well. Learn Everywhere is the next step on this path to innovation and this bill effectively kills this opportunity. Programs like Learn Everywhere continue our great legacy by enabling creative and innovative learning experiences for all of our public school students. My firm belief is that all students can find success when we put them in the right environment, inside or outside of a classroom. Every child learns differently and programs that allow some students to thrive do not work for others. Learn Everywhere empowers parents to find the best educational paths for their children, and allows students to access a broader range of courses than their schools could provide on their own. In the midst of the current health crisis and the impending need for flexible solutions for education, we need to keep all options open to our students, families and teachers. House Bill 1454 would restrict the ability of parents to seek out educational alternatives. We should be expanding alternatives for New Hampshire students, not reducing them. For the reasons stated above, I have vetoed House Bill 1454.

Respectfully submitted, Christopher T. Sununu, Governor

The question being, notwithstanding the Governor's veto, shall **HB 1454**, relative to alternative learning credit rules of the state board of education, become law?

Rep. Tanner spoke in favor.

Pursuant to the New Hampshire Constitution, Part II, Article 44, a roll call, requiring a two-thirds vote of the House for approval, was taken.

and the veto was sustained.

GOVERNOR'S VETO MESSAGE ON HB 1494-FN

By the authority vested in me, pursuant to part II, Article 44 of the New Hampshire Constitution, on August 7th, 2020, I have vetoed House Bill 1494. While there are parts of this bill I support, there are provisions that I am unable to support because of negative policy and financial impacts on the state and municipalities. Section six of this bill would allow employee labor organizations to be certified by the New Hampshire Public Employee Labor Relations Board (PLRB) if they receive a written majority authorization from their potential membership, bypassing the current secret ballot election process. The current election process helps safeguard worker privacy and freedom of choice by ensuring the employees' secret ballots are not traced back to them. It is particularly odd that the legislature has now sent several bills that would undercut public employee privacy despite the New Hampshire citizens resounding passage of a constitutional amendment in 2018 that protects privacy rights for our citizens. Additionally, New Hampshire is potentially facing an unprecedented budget situation in the wake of the global pandemic. The State, counties and municipalities are going to have to make difficult decisions with the resources available to them. This bill would add significant costs making it even more difficult for the State, counties and municipalities to prioritize resources. Adding new costs at this time as a result of this legislation would only deepen the hole from which we must dig out. For the reasons stated above, I have vetoed House Bill 1494.

Respectfully submitted, Christopher T. Sununu, Governor

The question being, notwithstanding the Governor's veto, shall **HB 1494-FN**, adopting omnibus legislation concerning workers, become law?

Reps. Schuett and Sullivan spoke in favor.

Pursuant to the New Hampshire Constitution, Part II, Article 44, a roll call, requiring a two-thirds vote of the House for approval, was taken.

GOVERNOR'S VETO MESSAGE ON HB 1660-FN

By the authority vested in me, pursuant to part II, Article 44 of the New Hampshire Constitution, on July 28th, 2020, I have vetoed House Bill 1660. It is incredibly disappointing that after two years of hard work, I have not yet received legislation to establish a protective order for vulnerable adults that the people of our State can support. The Department of Justice and my office have dedicated many hours of time and effort working with a diverse group of stakeholders to design legislation that accomplishes the goal of protecting vulnerable adults while avoiding unintended consequences. Despite multiple meetings convened by my office and assistance from my staff in drafting language, the stakeholders were unable to agree on a compromise amongst themselves or one that the people of our state could support. First, while HB 1660 does address some of the concerns from a similar bill that was vetoed last year, it still leaves open a serious and real possibility that victims of domestic violence could inadvertently obtain the wrong protective order that leaves them with fewer protections from their abusers. Rather than exempting domestic violence victims from eligibility for this order to remove the possibility of confusion, as both I and the Coalition Against Domestic and Sexual Violence requested, the bill creates a "worksheet" for victims to fill out to determine if this order adequately addresses their situation. The last thing a victim of domestic violence needs to be dealing with as they are experiencing a traumatic situation is bureaucratic paperwork. My administration has worked long and hard to enhance protections for victims of domestic violence, including signing two bills into law this year that strengthen these protections. The provisions of this bill would complicate and potentially undermine those positive steps. We cannot let that happen. Second, the legislation would permit a court to enter a temporary order with or without actual notice to the person against whom the order is being sought. This and other provisions could lead to violations of an individual's rights under the 2nd, 4th, 5th, and 14th Amendments to the United States Constitution, as well as similar provisions within the New Hampshire Constitution. These concerns were raised repeatedly in the work my office engaged in with legislators and advocates. Unfortunately, our attempts to find a compromise were rejected. For the reasons stated above, I have vetoed House Bill 1660.

Respectfully submitted, Christopher T. Sununu, Governor

The question being, notwithstanding the Governor's veto, shall **HB 1660-FN**, establishing a protective order for vulnerable adults, become law?

Rep. Burt spoke against.

Rep. Weber spoke in favor.

Rep. Cushing spoke in favor and yielded to questions.

Pursuant to the New Hampshire Constitution, Part II, Article 44, a roll call, requiring a two-thirds vote of the House for approval, was taken.

GOVERNOR'S VETO MESSAGE ON HB 1665-FN-A

By the authority vested in me, pursuant to part II, Article 44 of the New Hampshire Constitution, on July 31st, 2020, I have vetoed House Bill 1665. New Hampshire has a redistricting process that is fair, representative, and accountable to voters. New Hampshire takes the process seriously and we should take pride that issues of gerrymandering in the State are rare. As we have made clear time and time again this legislative session, we must be careful before pursuing wholesale changes to systems that have proven themselves to work for New Hampshire. The New Hampshire Constitution directs the legislature – the most representative body in the country - to determine Congressional, Legislative and Executive Council districts. We know our local representatives and senators personally, and we can hold them accountable for their decisions. It will be the responsibility of the legislature we elect in November to take up the redistricting process in a way that our citizens deserve and expect. That legislature should have the right to determine its own process, and should not be bound to the prescribed process laid out in this bill. For the reasons stated above, I have vetoed House Bill 1665.

Respectfully submitted, Christopher T. Sununu, Governor

The question being, notwithstanding the Governor's veto, shall **HB 1665-FN-A**, establishing an independent advisory commission on redistricting, become law?

Rep. Moynihan spoke in favor.

Pursuant to the New Hampshire Constitution, Part II, Article 44, a roll call, requiring a two-thirds vote of the House for approval, was taken.

and the veto was sustained.

GOVERNOR'S VETO MESSAGE ON HB 1672-FN

By the authority vested in me, pursuant to part II, Article 44 of the New Hampshire Constitution, on July 10, 2020, I have vetoed House Bill 1672, relative to absentee voting. The State of New Hampshire has ensured that our upcoming elections will be secure and our voters safe in these trying times. We have made it clear that any eligible voter who wishes to vote absentee because of the pandemic may do so. My administration has worked with the Secretary of State and legislature to help make it easier for voters, town clerks and moderators and support Senate Bill 1266. Despite the current difficulties we are experiencing, we anticipate our upcoming elections will maintain the high standards that New Hampshire voters expect and deserve. New

Hampshire's voting system works very well and we consistently have some of the highest voter participation in the country. The proponents of House Bill 1672 seek to take advantage of a global pandemic to fundamentally and permanently weaken New Hampshire's electoral system. They have put forward a partisan wish list of unreasonable and unnecessary provisions, some of which have already been vetoed and sustained last year. New Hampshire takes pride in our traditions of strong civic engagement and fair, transparent, and secure elections. Our Democratic Secretary of State, who has served our state faithfully for over 40 years, opposes this radical, partisan piece of legislation and so do I. For the reasons stated above, I have vetoed House Bill 1672.

Respectfully submitted, Christopher T. Sununu, Governor

The question being, notwithstanding the Governor's veto, shall **HB 1672-FN**, relative to absentee voting, become law?

Rep. William Pearson spoke in favor.

Pursuant to the New Hampshire Constitution, Part II, Article 44, a roll call, requiring a two-thirds vote of the House for approval, was taken.

ADJOURN FROM THE EARLY SESSION

Rep. Ley offered the following: **RESOLVED**, that the House now adjourn from the early session, that the business of the late session be in order at the present time.

Motion adopted.

UNANIMOUS CONSENT

Rep. Wendy Thomas requested Unanimous Consent of the House regarding social media posts and addressed the House.

Rep. Baldasaro objected.

The question now being shall the member be allowed to continue Unanimous Consent?

Rep. Adjutant requested a roll call; sufficiently seconded.

CONSENT OF THE HOUSE

Rep. Wendy Thomas continued under consent of the House.

MOTION TO PRINT REMARKS

Rep. Buchanan moved that the remarks made by Rep. Wendy Thomas be printed in the Permanent Journal. Without objection, the Speaker ordered.

REMARKS BY REPRESENTATIVE WENDY THOMAS

Thank you, Mister Speaker. Recently a member of the House put up a post on social media questioning my patriotism and my support of veterans, but here's what that member has attacked. I've written about why I take a knee during the national anthem, I do it to support Black Lives Matter, to highlight the racial injustice in America today. I do it to support our soldiers who are under attack from our own government that is complicit with Russia taking a bounty on our soldiers' heads. I do it because countless people are dying to a botched response to a global pandemic. I kneel because our fallen soldiers are not losers or suckers. America is in crisis right now and I acknowledge that fact. My Grandfather was a military correspondent during World War I and was a purple heart recipient. He received the medal after being in the hospital for months following a mustard gas attack. My French Grandmother was his nurse. My father was a Marine, he came back from the war with severe PTSD which ultimately resulted in one night of him putting my mother, my three sisters and I in a car and then trying to kill us all by driving off the road. When that didn't work, he then threatened to kill us all with his gun. If he couldn't be happy, he didn't want us to be happy. I have no memories of this because at the time I was a newborn. My step-father was a tail-gunner in the Navy and he also came back with PTSD because after all, the tail gunner is who you take out first during an air fight. He was shot at too many times to count. My step-father couldn't get back on a plane after the war, he couldn't even eat rice without flashbacks. He drank and at times he was violent. I grew up with the effects of war and damaged veterans on my family and my life. I know of another veteran. An Army officer who doesn't like to talk about his experiences, but he's told me a few things. Like when he jumped out of a plane, he watched the soldier who went before him get tangled in the ropes. She jumped out but her arm stayed in the plane. The vet I know had to jump next. He's still getting counseling for that one. During his time on base something happened and this officer received permanent lung and heart damage. You can't be a soldier with those conditions, so he was discharged from the Army with a full disability. That vet is my son. He is 25 years old. I am the Army mother of a fully disabled veteran. My son has sacrificed for this country. My family has sacrificed. When the member from this House publicly called me out and said that I had no respect for vets, I sent a copy of the original AP photo taken of me taking a knee to my son and asked if he was upset or he felt in any way disrespected because of it. Mom, he said, I was in the Army in order to protect your rights including freedom of speech and peaceful protest. I'm not upset with you, he told me. In fact I'm proud of you. I want you to know that this little grotesque stunt of publicly accusing me of disrespecting our vets has only resulted in the infusion of my spine with titanium. While some people show their support for veterans by baselessly attacking the mother of a disabled vet, this Army mom will continue to support our veterans by finding the resources and the services they need to become whole again. I will continue to honor the service of my grandfather, my father, my step-father, and my son by exercising the rights they have all fought to protect. Thank you, Mister Speaker.

UNANIMOUS CONSENT

Rep. Schuett requested Unanimous Consent of the House regarding the anniversary of 9/11 and addressed the House.

UNANIMOUS CONSENT

Rep. Horrigan requested Unanimous Consent of the House regarding the former member from Durham, the Honorable Joseph Miller and addressed the House.

MOMENT OF SILENCE

A moment of silence was observed in honor and in memory of the former member from Durham, the Honorable Dr. Joseph Miller.

Without objection, the Speaker ordered the remarks made by Rep. Horrigan printed in the Permanent Journal.

REMARKS BY REPRESENTATIVE HERRIGAN

Thank you, Mister Speaker. The Honorable Dr. Joe Miller died peacefully at his home on September 5, 2020 at the age of 98 which is more years than most of us are blessed with, but it's still a short time. But Joe made the most of those years. Joseph Morton Miller was born in Boston on November 9, 1921, the youngest of Benjamin and Esther Miller's four children. His parents were immigrants from Poland and the Ukraine. Joe was a brilliant man who worked hard at everything he did. Even though he lived a long time, in his early years Joe was anxious to get as many things done as possible as soon as possible. He graduated from Brookline High School in 1938 when he was 16 years old. He participated in so many activities they didn't all fit next to his yearbook picture. The person who laid out page 51 of the 1938 edition of the "Murivian" had to use some of the space next to a classmate's picture to fit all of Joe's achievements. Joe commuted to Harvard for the next four years, majoring in biochemistry. He graduated at the age of 20 in 1942 magna cum laude. Next, Joe went to the Harvard Medical School on an accelerated wartime program which packed the usual four years of study into three years and he graduated cum laude in 1945 when he was 23 years old. World War II ended before Joe could complete his medical studies, but he did serve in the Army during peacetime from 1946 to 1948 rising to the rank of Captain. Dr. Miller's long and varied medical career began at a VA hospital in Framingham, Massachusetts. He started out as an internist but he soon became interested in occupational safety and public health. He earned a third Harvard degree, a Master's in Public Health, and he also taught at the Harvard Medical School for many years. He eventually moved to New Hampshire, first to Plymouth and then to Durham and finally to Exeter. In 2002, when he was 80 years old, Dr. Joe started a new career as a politician. He served three terms in the House as a member of the Health, Human Services and Elderly Affairs Committee representing Durham, Lee and Madbury. He was known for his kindness, his quiet but firm leadership and his hard work as well as his dry sense of humor. The New Hampshire House certainly could have used his medical and public health expertise this year during the pandemic. In 2008, he decided to leave the House to pursue other interests and I ended up being his successor. He was a tough act to follow and he will be missed. Thank you, Mister Speaker and thank you, Honorable Dr. Joseph Morton Miller.

UNANIMOUS CONSENT

Rep. Parkhurst requested Unanimous Consent of the House regarding a farewell to the members and addressed the House.

MOTION TO ADJOURN THE 2020 SESSION

Rep. Ley moved that the House adjourn from the 2020 Session.

Motion adopted.

The House adjourned at 3:30 p.m.

The 2nd year Session of the 166th General Court of the New Hampshire House of Representatives stands adjourned.
