Danny, the dog walker; Feds say²: to hell with N.H. RSA Ch. 480:-1-9 (and 511:2) homestead rights; and City&Town [plus County too] in their anti-Article 12 "protection racket" . . .

. . . of: "take the money" under the THREAT of TAKING the property for IF of any un-paid taxes that was NOT the case, since all: "Paid in Full".

Plus even my \$1.00 bill to the N.H. State Police for an Ed Brown Protection Fund, that then Trooper Cargil did send back to me in a certified envelope costing: \$5.00.

Not to forget the \$50.00 bill I sent to Ed that the Feds did hijack at the Post Office. The "paper money" for him to hire a good attorney. Sent by Certified mail, that I did get back years later!

Here is a 2007 EXAMPLE (almost 18 years ago) of HOW I did TRY to get the then Sheriff in Sullivan County to provide Article 12 protection too:

So that \$ ____ part to the County of the property taxes in Plainfield wan over-payment too.

He needs to be reminded that he and his thugs escalated this peaceful act of civil disobedience into a violent situation on that morning of June 7th when they tried to murder Danny.

" Donna VanMeter Or at least shoot to the knee caps to bring him down on the temporary on his way back from walking down the driveway to the mailbox and back. I thought that was Bob Wolfe who volunteered to be the private mailman on the Plainfield property being their RSA Ch. 480::1-9 homestead that the Feds did dis-honor by their sign that read: U.S. Gov't property KEEP OUT (or similar to these words). The photo of it at: _____ but gotten how? There's also that R.S.A. Chapter 511:2 for you to be able to keep the tools of your trade. I NOTICED The City Council in person at City Hall the night before they also raided Elaine's Dental Office building on Glen Road in Lebanon. The Feds said that somebody had smashed in the window, so they took it upon themselves to "secure" the building with their own padlock. But they / The City Councilors , offered no "protection" for which Ed & Elaine paid all the property taxes there . Even the un-lawful LOCAL school / education slice of the property tax pie that will FINALLY be decided later this month (?) at the N.H. Supremes in the Con Val case, That I sued on at the Grafton County Superior Court in North Haverhill with the P.O.A.s that the judge in 2010 said to WAIT. And so the waiting about to end, these 15 years later !!!!! !!!!! !!!!! To re-activate that case for the City Gov't to have to pay those over-paid property taxes back and at the RSA Ch. 76:17-a interest rate of 4% compounded daily. BTW whatever happened to Zoe, the dog? Danny was walling with that day. And not to forget that I met with the three Sullvian County Commissioners that May Day in 2007 after my Invitation for the Sheriff: Mike Prozzo, to be there too, but that he decided that was a good time to start his vacation."

P.S. With what? SOME of this in Chapters #___ and ___ on pages #___ and ___ of his book? I DOUBT it. So here, like what Paul Harvey would have said: is The "Rest of the Story."
