

I oppose HR7 and HR11:

1. They undermine the rule of law. Judges interpret the law, not politicians.
2. They destroy judicial independence. Impeaching a judge for an unpopular ruling is a dangerous precedent.
3. They attack public education funding. The courts have ruled that the state must do more to fund schools and these bills are an attempt to avoid that responsibility.
4. They protect special interests at the expense of taxpayers. Keeping state funding low forces local taxpayers to bear the cost of schools, while wealthier communities benefit.
