

Dear Representative,

Thank you for your time and your efforts on behalf of our state.

I see a terrible irony in this proposed legislation. We have the second largest democratic legislature in the world, meaning we value the power of many voices. The independent voice of the consumer advocate should be as highly valued.

Prices and property taxes keep rising, forcing more and more citizens to make tough choices. I trust an independent voice will make the best choices for we, the taxpayers. That surety will not exist if the consumer advocate becomes part of the DOE.

Sincerely,

Bruce Berk
