

I Oppose HB524

Honorable Representatives:

I am glad that this bill is not facing the rigors of House Rule 44.

The health of NH is an integral responsibility of the New Hampshire government. This shirks that responsibility.

This bill is a partisan attempt to build on false science and support a group of voters who ignore the dangers of a pandemic.

Vaccines are safe and most famously prevented polio and now prevents measles among other diseases.

It has no place in New Hampshire law.

Please oppose this bill for the respect for the NH Constitution. "all government of right originates from the people, is founded in consent, and instituted for the general good."

Leonard Campbell

Meredith, NH
