

I Oppose HB1704

The General Court of NH continues to try to create a wedge between the rights of NH workers and the unions protecting those rights. It continues to use outside interests, specifically ALEC, as its mouthpiece.

NH has a good relationship with unions and the towns and cities in which they represent the people serving them. It does not need the chaos and increased workload that a disorganized workforce this bill will create. NH does not need the extra taxes incurred by the increased legal liabilities this bill will create.

NH is celebrating its first-in-the-nation Constitution. One that was formed because everyone joined together. A NH Constitution that recognized everyone participates and is not asking one to pay for all; rather, all who can, pay for everyone.

Please return HB1704 as inexpedient to legislate so that “all government of right originates from the people, is founded in consent, and instituted for the general good.”

Respectfully,

Len
