

A Testimony to Oppose HB1382

Sue Nastasi, Registered Undeclared Voter, Rollinsford

HB1382 is not necessary. The bill does not have statistics to support its need for proof of citizenship for UOCAVA whose voters follow very strict rules to vote while overseas.

This bill is an excellent example of causing confusion and unnecessary lead time for overseas voters.

Again, there are no statistics to support this bill. It spreads suspicion of voter fraud where it doesn't exist.

Also, there are many other important bills that will help voters and ease the suppression of voters to exercise their right to vote.

Sponsors for this bill are not supportive of voting right.

HB1382 should be ITL.
