

## A Testimony in Opposition to HB1223

Sue Nastasi, Registered Undeclared Voter, Rollinsford

Chairman Rose Berry and the Members of the NH House Election Law Committee:

This bill enables the moderator to conduct a hand count of ballots to verify the device count during an election.

As one of the Supervisors of the Checklist for Rollinsford I must state that HB1223 is a strong example of a solution looking for a problem. During an election day after the voting machine(s) have been tested thoroughly by poll worker volunteers and then to display suspicion by hand counting the ballots is questioning the integrity of poll workers sworn to their offices.

The idea is disruptive during an election day. It isn't needed.

Those that are sponsoring HB1223 should learn to be poll workers and have an understating of the complete process. Again, the thorough testing of the voting machines that is done before election day. Counting and recounting of ballots to be exact before election day is done by those with great pride in their work.

To those that are sponsoring HB1223 I cannot believe you all are familiar enough with voting election laws and the preliminary work taken. You all are sponsoring a bill you do not have the background or experience to sponsor it.

Please do not question the integrity of those poll workers who have taken an oath to follow rules and regulations for clean elections.

There is not proof of election fraud to warrant HB1223.
