

TESTIMONY IN OPPOSITION TO HR 41

Adam M. Finkel, Sc.D., CIH
February 25, 2026

Dear Members of the Judiciary Committee:

This Resolution is doubly ridiculous because of what the NH GOP is happily allowing right under everyone's nose. Councilor Hill is accused of helping a constituent, and thereby to “facilitate and encourage litigation against the state of New Hampshire.” Whatever she did was done *pro bono*. (Spoiler Alert: that's her job).

Meanwhile, the Senate GOP's legal counsel, Richard Lehmann, is suing the state ALREADY, ****for a large fee****, on behalf of his private client Casella Waste Systems. (!)

Karen should be left alone, and Richard should be forced to choose which client he serves—our state or the out-of-state waste company—and not both at the same time.

THERE'S your corruption. Thank you for your attention to this matter.
