RE: NAMI NH Opposition to SB 552

Chairman Lynn and Committee Members:

On behalf of NAMI NH, the National Alliance on Mental Illness, I write in opposition to SB 552, permitting classification of individuals based on biological sex under certain limited circumstances.

As an organization committed to preventing suicide and promoting the mental wellness of all Granite Staters, NAMI NH is deeply concerned about the harmful impacts that discrimination has upon mental health. Research consistently demonstrates that experiences with stigma and discrimination have a negative effect on mental health and help-seeking and increase the risk of suicide in affected communities. The impacts of stigma and discrimination are pervasive, jeopardizing mental health and wellness not just for the individual, but throughout an entire community. As such, NAMI NH is firm in its opposition to any policies that further stigma and enable discrimination.

SB 552 poses a great risk to mental health and safety by effectively eliminating the protections against discrimination for transgender and nonbinary Granite Staters in existing state law. With these policies in place, transgender and nonbinary Granite Staters will be exposed to discrimination - in their communities, at work, in treatment, in recreation, and beyond. This would have a chilling effect on not only transgender and nonbinary people themselves, but also their families, their loved ones, and the communities they have found and formed in our state.

New Hampshire has a long history of fiercely protecting the rights of its residents and working together to support our communities. In fact, similar bills have been vetoed by both former Governor Sununu and Governor Ayotte. All Granite Staters deserve to live full, healthy, safe lives within their community, an ideal which has been continuously affirmed and protected by advocates, community members, and state leaders alike. As such, NAMI NH urges the committee to vote Inexpedient to Legislate for SB 552.

Sincerely,
