

I Support SB603

Honorable Representatives:

NH currently has the horrific statistics that 1 in 9 families are not food secure.

Does NH want children going to school hungry? How will they learn?

Does NH want adults going to work hungry? How productive can they be when hungry and worrying about their families food insecurity?

Please return SB693 as ought-to-pass so that we can have a healthy community. Remembering that "all government of right originates from the people, is founded in consent, and instituted for the general good."

Respectfully,

Len
