**Parental Rights and Education Freedom for All is a victory for NH families**

CONCORD, NH – Speaker Sherman Packard (R-Londonderry) issued the following statement today after Governor Ayotte signed HB 10, establishing the Parental Bill of Rights, and SB 295, relative to education freedom accounts, into law:

“I want to thank my colleagues for their unwavering dedication and hard work in delivering on our promises to voters. As core tenets of our Contract with New Hampshire, the passage of HB 10 and SB 295 is more than a legislative win—it’s a defining moment for families across New Hampshire.

By advancing education freedom and the Parental Bill of Rights, we’ve reaffirmed a simple truth: parents, not bureaucracies, should make decisions about their children’s lives. This legislation gives families real choices and ensures their values are respected.

New Hampshire is now leading the way—trusting citizens, championing freedom, and setting a national example. This is what it means to govern with purpose and principle. The momentum is with us, and Republicans will always put families first.
