VETO MESSAGE

February 7, 2002

To the Honorable Members of the General Court:

By the authority vested in me as Governor of New Hampshire, pursuant to Part II, Article 44 of the Constitution of New Hampshire, I have this day vetoed Senate Bill 141, an Act relative to proof of qualifications for voter registration.

The right to vote is a fundamental right. Restrictions should be placed on that right if, and only if, there is a compelling need. S.B. 141, which is identical to legislation I vetoed last year, does not meet that test.

While the proponents of S.B. 141 say the purpose of this legislation is to protect our elections from fraud, there is no evidence that voter fraud is a problem in New Hampshire. That is, in large part, because our laws already provide protection from voter fraud. Our statutory requirement that the checklists be purged on a regular basis prevents "graveyard" voting. Our laws permit any voter to challenge the identity and eligibility of any other voter, with any so challenged voter required to sign an affidavit under penalty of perjury before being permitted to vote. Moreover, anyone registering to vote on election day is required to sign a form swearing, under penalty of perjury, that he or she is a qualified voter.

In order to be eligible to vote in New Hampshire, one must be a citizen of the United States, be 18 years of age or older, and be domiciled where he or she intends to vote. Under current New Hampshire law, supervisors of the checklist and town or city clerks may ask an applicant to provide proof of citizenship, age and domicile. If Senate Bill 141 became law, voting registration officials would be required to demand this proof.

S.B. 141 would have the effect of discouraging eligible voters from exercising their right to vote. Not all voters carry proof of their age with them, and in our country, few citizens carry proof of their citizenship. No discretion is given to supervisors of the checklist and town and city clerks under S.B. 141. No matter how well the supervisor of the checklist or town or city clerk knows the voter, he or she must still demand proof of age and citizenship. This would potentially cause lengthy delays for all voters.

While New Hampshire's voter turnout percentage compares well with the rest of the country, it is troubling that one-third of our registered voters did not exercise their franchise in the 2000 general election, an election to choose the President of the United States. Rather than erecting new barriers to voting, lawmakers should instead investigate

why so many of our fellow citizens do not vote and develop public policy to encourage every eligible citizen to exercise this precious and fundamental right.

For all of the above reasons, I am today vetoing Senate Bill 141.

Respectfully submitted,

Jeanne Shaheen
Governor

Amendment to SB 437-FN-LOCAL

Amend the bill by replacing all after the enacting clause with the following:

1 Petition to Protect Water Supplies; Emergency Conditions. Amend RSA 485:23 to read as follows:

485:23 Petition to Protect Water Supplies.

I. Whenever any board of water commissioners, local board of health, local health officer or 10 or more citizens of any town or city have reason to believe that a public water or ice supply is being contaminated or is in danger of contamination, and that the local regulations are not sufficient or effective to prevent such pollution, they may petition the department to investigate the case, and to adopt rules under RSA 541-A as the department may deem necessary for the protection of the said supply against any pollution that in its judgment would endanger the public health. Citizens petitioning under this section shall designate a signatory of the petition as the person to whom the department shall send its response.

II. Whenever any board of water commissioners, local board of health, or other owner of a public water supply has reason to believe that a public water supply is in danger of being contaminated or is otherwise threatened and that an emergency condition exists such that a petition pursuant to paragraph I to the department and the adoption of rules would not adequately protect the water supply, the board or owner may petition the governor to declare a state of emergency for the public water supply. At the request of the governor, the department shall consult with the owner of the water supply and make a recommendation as to emergency protections that may be necessary.

If the governor declares a state of emergency for a public water supply, those additional protections that the governor deems necessary shall be effective immediately and for the duration of the emergency. Each declaration of a state of emergency for a public water supply shall not exceed one year. The governor may renew the declaration of a state of emergency upon further request by the original petitioner. At such time as any of the emergency protections are to become permanent, the department shall initiate rulemaking in accordance with RSA 485:24. Any protections in the governor's declaration shall be enforced in the same manner as rules adopted pursuant to RSA 485:24 or RSA 485:25 with violations of the protections subject to RSA 485:4 and RSA 485:58.

2 Investigations; Rules. Amend RSA 485:24, I to read as follows:

I. The department shall respond in writing to a petition filed under RSA ~~[485:23]~~ **485:23**, I, after due investigation, but not later than 30 days after receipt of the petition, informing the petitioners of the department's intended action. In response to a petition, or upon its own motion, the department shall adopt such rules under RSA 541-A as it may deem best to protect the water or ice supply against any dangerous contamination. If requested by the department, the local board of water commissioners, the local board of health, or the local health officer, shall enforce such rules in cooperation with the department.

3 Aid to Public Water Systems; Purpose. Amend RSA 486-A:1 to read as follows:

486-A:1 Purpose. The purpose of this chapter is to provide a state contribution to aid all public water systems in achieving compliance with the requirements of the surface water treatment rules of the federal Safe Drinking Water Act, ***to provide a state contribution to aid public water systems in forming regional water systems to increase water supply capacity for the benefit of public health and safety***, and to protect sources of public drinking water that serve community or non-transient non-community water systems and associated natural resources through the acquisition of land or conservation easements within source water protection areas.

4 Definitions; Regional Water System Added to Definition of "Construction". Amend RSA 486-A:2, I (a) to read as follows:

(a) The installation or building of:

- (1) New wells or well buildings; or
- (2) Filtration systems and associated pump stations, pump equipment, chemical treatment systems, telemetry and metering equipment, and storage tanks;
- (3) Distribution mains and valves needed to interconnect the new wells or filtration system to the existing system as may be required by the department and the EPA ***or to interconnect a water system to form a regional water system; and.***

(4) Improvements in treatment or supply capability which increase the reliability or capacity of water treatment facilities to supply water to regional water systems.

5 New Paragraph; Definition; "Eligible Regional Water Supply Formation Costs." Amend RSA 486-A:2 by inserting after paragraph III-a the following new paragraph:

III-b. "Eligible regional water supply formation costs" means the actual cost of construction and related services necessary for increasing water source supply or treatment capacity or reliability necessary for interconnection of a water system in order to form a regional water system to protect public safety and health, but shall not include the following:

(a) Land acquisition, except for land which shall be an integral part of a well system or filtration system;

(b) Easements and rights-of-way necessary to the project; and

(c) Any administrative, legal, permitting, and fiscal costs related to the project.

6 New Paragraph; Definition; "Regional Water System." Amend RSA 486-A:2 by inserting after paragraph V the following new paragraph:

V-a. "Regional water system" means the public water system which results from the interconnection of two or more discrete public water systems for providing routine or emergency backup supply.

7 New Paragraph; State Contribution; Surface Water Treatment Costs; Water Supply Land Protection Costs; Regional Water System Formation Costs. Amend RSA 486-A:3 by inserting after paragraph II the following new paragraph:

III. Any public water system which incurs costs after the effective date of this paragraph for the purpose of providing water for domestic, commercial, or fire protection purposes to a regional water system shall be eligible for a state contribution. As its contribution, the state shall pay 25 percent of the annual amortization charges, meaning the principal and interest, on the eligible bonded costs, or 25 percent of non-bonded costs, resulting from the construction of infrastructure for these purposes. Plans for construction shall be approved in accordance with the provisions of RSA 485:8.

8 Applicant Agreement; Regional Water Systems Added. Amend RSA 486-A:7, I to read as follows:

I. Applications for state grants for surface water treatment ***and for formation of a regional water system*** shall contain an agreement that the applicant:

- (a) Has installed the water works facilities in accordance with the plans and specifications approved by the department;
- (b) Will provide proper and efficient operation and maintenance of facilities;
- (c) Agrees that failure to install the facilities in accordance with the approved plans and specifications or to provide proper and efficient operation and maintenance of such facilities shall result in loss of payments of the annual grant installment next following such failure. The loss of payment of the annual grant installment shall continue in effect until such time as the applicant has completed the steps necessary to install the facilities in accordance with plans and specifications approved by the department, or made provisions for proper and efficient operation and maintenance of the facilities in accordance with department instructions or both.

(d) For grants to aid in formation of a regional water system, agrees to participate in regional and statewide water supply planning initiatives and to consider the results of such initiatives for purposes of long term water supply planning and infrastructure development.

9 New Paragraph; Priority of Applications; Regional Water System Projects. Amend RSA 486-A:8 by inserting after paragraph II the following new paragraph:

III. For regional water system projects, the department shall adopt rules which include factors for prioritization. Prioritization factors shall include:

- (a) The population of the service area to which regional water supply will be extended under the project.
- (b) The degree to which public health and safety will be protected under the proposed project.
- (c) The fiscal impact of the proposed project on residents in the area to which water service is extended under the proposed project.
- (d) The consistency with land use master plans in the affected municipalities and with the provisions of RSA 9-B and RSA 162-C:2, V to the extent that a proposed regional water system project may impact the municipality's growth and development patterns.

10 Administration; Regional Water Systems Added. Amend the introductory paragraph of RSA 486-A:9, I to read as follows:

I. The department shall perform the following functions related to the administration of the provisions of this chapter applicable to surface water treatment ***and to formation of any regional water system***:

11 Administration; Consistency With Master Plan Added. Amend RSA 486-A:9, I by inserting after subparagraph (p) the following new subparagraph:

(q) Evaluate the defined project for consistency with municipal master planning, RSA 9-B, and RSA 162-C:2, V and require limitations on future water system connections where appropriate.

12 Power to Require Improvements; Citizen Complaint Procedure. Amend RSA 485:4 to read as follows:

485:4 Power to Require Improvements.

I. The department is empowered to investigate the sanitary conditions and methods pertaining to the source, treatment, and distribution of all public water supplies for domestic use, and to require the application of any treatment or improvement in conditions and methods as it may deem necessary to insure fitness and safety and adequate protection of the public health. If the department determines that improvements are necessary, the municipality, corporation, or person shall be so notified in writing and the requirements so ordered shall be effected pursuant to RSA 38:25 within a reasonable time to be fixed by the department. Appeals of actions of the department may be made as provided in RSA 485:59. The department may set intermediate goals and time frames to assist municipalities, corporations, or persons to abide by an order of the department under this ~~[section]~~ **paragraph**.

II. Upon complaint of not less than 10 customers of an existing public water system or not less than 10 residents not currently served by a public water supply, the department shall make an investigation of conditions regarding water quality or quantity problems described in the complaint. If, as a result of any such investigation, the department concludes that a significant public health or safety problem exists due to water supply quality or quantity, it shall perform a preliminary analysis of alternatives which address the problem. The department may request additional information from the complainants and nearby public water supply system owners, such as data on water supply quality and quantity, well characteristics, and water distribution system characteristics, as is necessary to perform its investigation and analysis. If the department determines that an extension of water service from an existing public water supply system to the area of impaired water quality or quantity is the most feasible and cost effective alternative, that the extension is consistent with municipal master planning, RSA 9-B, and RSA 162-C:2, V, and that the existing public water system has adequate water supply and system capacity to serve the problem area, the municipality, corporation, or person who owns the public water system shall be ordered to allow connection to its water distribution system from the identified area, regardless of existing municipal or public water system service area boundaries. The connection so ordered shall be effected pursuant to RSA 38:25 within a reasonable time to be fixed by the department and may contain limitations on water system connections unrelated to the original petition in order to limit unintended land use impacts. Appeals of actions of the department may be made as provided in RSA 485:59. The department may set intermediate goals and time frames to assist municipalities, corporations, or persons to abide by an order of the department under this paragraph.

13 Public Utilities; Municipal Corporations; Sewage Disposal. Amend RSA 362:4, III to read as follows:

III. A municipal corporation furnishing ~~[water or]~~ sewage disposal services shall not be considered a public utility under this title:

(a) If ~~[serving]~~ **it serves** customers outside its municipal boundaries, charging such customers a rate no higher than that charged to its customers within the municipality, and ~~[serving] serves~~ those customers a ~~[quantity and quality of water or a]~~ level of sewage disposal service equal to that served **to** customers within the municipality. Nothing in this section shall exempt a municipal corporation from the franchise application requirements of RSA 374.

(b) If ~~[supplying bulk water or]~~ **it supplies** bulk ~~[sewer]~~ **sewage** disposal services pursuant to a wholesale rate or contract to another municipality, village district, or water precinct. ~~[This subparagraph shall not apply to bulk water contracts which were in effect before July 23, 1989, or renewal of said bulk water contracts.]~~

14 New Paragraph; Public Utilities; Municipal Corporations; Water Supply. Amend RSA 362:4 by inserting after paragraph III the following new paragraph:

III-a.(a) A municipal corporation furnishing water services shall not be considered a public utility under this title:

(1) If it serves new customers outside its municipal boundaries, charging such customers a rate no higher than 15 percent above that charged to its municipal customers, including current per-household debt service costs for water system improvements, within the municipality, and serves those customers a quantity and quality of water or a level of water service equal to that served to customers within the municipality. Nothing in this paragraph shall exempt a municipal corporation from the franchise application requirements of RSA 374.

(2) If it supplies bulk water pursuant to a wholesale rate or contract to another municipality, village district, or water precinct. This subparagraph shall not apply to bulk water contracts which were in effect before July 23, 1989, or to the renewal of said bulk water contracts.

(b) The commission may exempt a municipal corporation from any and all provisions of this title except the franchise application requirements of RSA 374, and may authorize a municipal corporation to charge new and existing customers outside its municipal boundaries a rate higher than 15 percent above that charged to its municipal customers, if after notice and hearing, the commission finds such exemption and authorization to be consistent with the public good.

(c) A municipal corporation's authority to charge higher rates for new customers outside of its municipal boundaries shall be applied prospectively to new customers taking water service provided by means of a main extension or an expansion of the municipal corporation's system after the effective date of this paragraph.

(d) A municipal corporation serving customers outside of its municipal boundaries and charging a rate no higher than 15 percent above that charged to its municipal customers prior to July 1, 2002, may also be exempted from regulation as a public utility, except for the franchise application requirements of RSA 374, if after notice and hearing, the commission finds such exemption and authorization to be consistent with the public good.

15 New Section; Regional Technical Planning and new Source Development; Included in Rates. Amend RSA 378:30 by inserting after section 378:30-c the following new section:

378:30-d Regional Technical Planning and New Source Development; Included in Rates. Notwithstanding the provisions of RSA 378:30-a, the commission may include the cost or value of capital improvements or programs in the rates of a utility when the capital improvement or program is directly related to technical planning of regional water supply development or is directly related to development of new water supply sources.

16 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill:

I. Allows the governor, upon petition of a board of water commissioners or water supply owner, to declare a state of emergency for public water supplies. During the state of emergency, the governor may order emergency protections for the water supply. The emergency protections may become permanent.

II. Adds regional water systems to public water systems eligible for state aid.

III. Adds factors for the department of environmental services to use in prioritizing regional water system applications for state aid.

IV. Creates a mechanism for the department to consider citizen complaints concerning public water systems.

V. Allows municipal water systems to charge rate premiums for customers outside of its municipal boundaries.

VI. Allows the public utilities commission to include certain costs related to the development of regional water supplies and new water supply sources in the rates of a utility.

Amendment to SB 441-FN-A

Amend the bill by replacing section 3 with the following:

3 Appropriation. The sum of \$1 is hereby appropriated for the biennium ending June 30, 2003 and \$1 for the fiscal year ending June 30, 2004 to the department of safety, division of fire safety, for the purposes of hiring a hazardous materials incident response coordinator to coordinate the response of state agencies to hazardous materials and assist regional and local hazardous materials response teams with preparedness and response capabilities. This appropriation is in addition to any other funds appropriated to the department of safety, division of fire safety. The commissioner shall furnish suitable equipment to the hazardous materials response coordinator, as the commissioner deems necessary. The governor is authorized to draw a warrant for said sum out of any money in the treasury not otherwise appropriated.

2002-3007s

AMENDED ANALYSIS

This bill establishes the position of hazardous materials response coordinator within the department of safety, division of fire safety and establishes a committee to study the interoperability of state agency communications.

Amendment to SB 455-FN-A

Amend the bill by replacing all after the enacting clause with the following:

1 Transfer of Funds from Escrow Fund for Court Facility Improvements to District and Probate Security. Notwithstanding the footnotes to 2001, 130:1.02, 01, 06 and the provisions of RSA 490:26-c, the supreme court may transfer up to \$700,000 from the escrow fund for court facility improvements to 2001,130:1.02, 01, 06, class 90 for district and probate court security. To reimburse the escrow fund for court facility improvements for the amount transferred under this section, the courts shall increase each entry fee by \$10 until the total amount transferred for district and probate court security is reimbursed to the escrow fund. The commissioner of administrative services shall notify the supreme court when the escrow fund has been fully reimbursed and, within 30 days of such notice, the court shall decrease each entry fee by \$10.

2 Transfer of Funds from Escrow Fund for Court Facility Improvements to District and Probate Security. Notwithstanding the footnotes to 2001, 130:1.02, 01, 06 and the provisions of RSA 490:26-c, the supreme court may transfer up to \$700,000 from the escrow fund for court facility improvements to 2001,130:1.02, 01, 06, class 90 for district and probate court security. To reimburse the escrow fund for court facility improvements for the amount transferred under this section, the courts shall increase each entry fee collected by the probate courts by \$5 and each entry fee collected by other courts by \$10 until the total amount transferred for district and probate court security is reimbursed to the escrow fund. The commissioner of administrative services shall notify the supreme court when the escrow fund has been fully reimbursed and, within 30 days of such notice, the court shall decrease each probate court entry fee by \$5 and each entry fee collected by other courts by \$10.

3 Contingency. If SB 64-FN-A of the 2002 legislative session becomes law, section 2 of this act shall take effect July 1, 2002 and section 1 of this act shall not take effect. If SB 64-FN-A does not become law, section 1 of this act shall take effect July 1, 2002 and section 2 of this act shall not take effect.

4 Effective Date.

- I. Sections 1 and 2 of this act shall take effect as provided in section 3 of this act.
- II. The remainder of this act shall take effect upon its passage.

2002-3013s

AMENDED ANALYSIS

This bill authorizes the supreme court to use up to \$700,000 in the escrow fund for court facility improvements for district and probate court security, and provides for an increase in court entry fees until the amount used for district and probate court security is reimbursed to the escrow fund.
