I. For the purposes of this chapter, treatment of pervasive developmental disorder or autism as required under RSA 417-E:1, III(h) shall include the following:

(a) Professional services and treatment programs, including applied behavioral analysis, necessary to produce socially significant improvements in human behavior or to prevent loss of attained skill or function. To be eligible for coverage, applied behavior analysis must be provided by a person professionally certified by the national Behavior Analyst Certification Board or performed under the supervision of a person professionally certified by the national Behavior Analyst Certification Board.

(b) Prescribed pharmaceuticals subject to the same terms and conditions of the policy as other prescribed pharmaceuticals.

(c) Direct or consultative services provided by a licensed professional including a licensed psychiatrist, licensed advanced practice registered nurse, licensed psychologist, or licensed clinical social worker; and

An insurer may require an updated treatment plan no more frequently than on a semi-annual basis. Coverage shall not be denied on the basis that services are habilitative in nature.

III. The policy, contract, or certificate may limit coverage for applied behavior analysis to \$50,000 per year for children 0 to 8 years of age, and \$36,000 thereafter. An insurer may not apply payments for coverage unrelated to autism spectrum disorders to any maximum benefit established under this paragraph.

Amendment to HB 213-FN

Amend the bill by replacing all after the enacting clause with the following:

□ New Subdivision; Emergency Notification System. Amend RSA 106-H by inserting after section 15 the following new subdivision:

Emergency Notification System

106-H:16 Emergency Notification System.

I. For the purposes of alerting members of the public about emergencies in a particular area and delivering rapid emergency notification and information, the bureau shall develop and maintain a statewide emergency notification system (ENS). The bureau shall work with technical members from the wireline, wireless, voice over Internet Protocol, and cable industries to design the ENS for the delivery of emergency messages for emergency state and local government purposes in a manner conducive with existing communications systems and networks.

II. The ENS shall use the E911 database and a database developed for persons who request inclusion in the ENS. All telephone numbers in the E911 database shall automatically be included in the ENS. This data shall remain confidential and shall be used solely by the ENS for the purposes of emergency notification and message delivery.

III. The bureau shall, to the greatest extent possible, ensure that the ENS is fully geographic information system (GIS) capable and able to define an emergency zone by address or geographic area. Telephone numbers shall be linked to a GIS mapping database and able to perform a query based on address or a general geographic area.

IV. The ENS shall include means by which persons can opt-out of the system and also opt-in to the system for

communications devices not otherwise included in the system, such as nomadic voice over Internet Protocol phones, internet protocol enabled services, and commercial mobile radio services.

V. To accommodate the use of the ENS during an emergency, the ENS shall be capable of providing a pre-recorded message and delivering that message to a large number of telephones and communications devices.

VI. The bureau shall ensure that every state, county, and local emergency response agency has access to and training in the use of the ENS.

VII. The bureau shall establish policies, standards, and procedures, with the assistance, review, and approval of the enhanced 911 commission and the commissioner of safety, for the ENS. The bureau shall conduct regular assessments and internal tests of the ENS to ensure that it is functioning properly in compliance with the requirements of this section and that it meets all federal and state requirements for incident management.

VIII. The bureau, with the approval of the enhanced 911 commission and the commissioner of safety, may develop and modify the ENS to be compatible with the Federal Communications Commission (FCC) guidelines or requirements for broadcast messaging once adopted.

2) Funding. Amend RSA 106-H:9, I and II to read as follows:

I. The enhanced 911 system **and the statewide emergency notification system** shall be funded through a surcharge to be levied upon each residence and business telephone exchange line, including PBX trunks and Centrex lines, each individual commercial mobile radio service number, and each semi-public and public coin and public access line. No such surcharge shall be imposed upon more than 25 business telephone exchange lines, including PBX trunks and Centrex lines, or more than 25 commercial mobile radio service exchange lines per customer billing account. In the case of local exchange telephone companies, the surcharge shall be contained within tariffs or rate schedules filed with the public utilities commission and shall be billed on a monthly basis by each local exchange telephone company. In the case of an entity which provides commercial mobile radio service the surcharge shall be billed to each customer on a monthly basis and shall not be subject to any state or local tax; the surcharge shall be collected by the commercial mobile radio service provider, and may be identified on the customer's bill. Each local exchange telephone company or entity which provides commercial mobile radio service shall remit the surcharge amounts on a monthly basis to the enhanced 911 services bureau, which shall be forwarded to the state treasurer for deposit in the enhanced 911 system fund. The state treasurer shall pay expenses incurred in the administration of the enhanced 911 system **and the statewide emergency notification system** from such fund. Such fund shall not lapse. If the expenditure of additional funds over budget estimates is necessary for the proper functioning of the enhanced 911 system **or the statewide emergency notification system**, the department of safety may request, with prior approval of the fiscal committee of the general court, the transfer of funds from the enhanced 911 system fund to the department of safety for such purposes. The moneys in the account shall not be used for any purpose other than the development and operation of enhanced 911 services **and the statewide emergency notification system**, in accordance with the terms of this chapter. Surcharge amounts shall be reviewed after the budget has been approved or modified, and if appropriate, new tariffs or rate schedules shall be filed with the public utilities commission reflecting the surcharge amount.

II. Imposition of the enhanced 911 services surcharge shall ~~[begin not later than 4 months from the approval of the budget, in order to]~~ provide adequate funding for the development of the enhanced 911 database, **the statewide emergency notification system database**, and other operations ~~[necessary to the development]~~ of the enhanced 911 system **and the statewide emergency notification system**.

3) Limitation of Liability. Amend RSA 508:12-a, III to read as follows:

III.(a) No person or corporation shall be liable in any suit for civil damages who, in good faith and without willful or wanton negligence receives, develops, collects, **provides**, or processes information for the enhanced 911 database **or the statewide emergency notification system (ENS) database**, relays or transfers enhanced 911 services, **transmits ENS messages and notifications to the public**, or provides emergency telephone and radio communications for ambulance, police and fire departments.

(b) No person or corporation shall be liable in any suit for civil damages who, in good faith and without willful or wanton negligence receives, develops, collects, provides, or processes information within any entity storing 911 records used in the provision of enhanced 911 services or for emergency notification system purposes.

It is time for another Legislative Orientation Day sponsored by Gun Owners of New Hampshire. This year, it will be held the day after Mother's Day, on May 10, 2010. It will start at 10:00 a.m. and end at 3:00 p.m., at Sunset Mountain Fish and Game Club in Canterbury. You will have the opportunity to shoot and learn about muzzle-loading rifles, modern rifles and pistols, as well as shotguns. A Cowboy Action demonstration, Captain Morrill's Company and their cannons, and Roland Huber with his elephant gun are just a few of the many interesting special events planned. All in all, the day is intended to be a relaxing, informative event, centered around shooting and the shooting sports. Firearm instructors and range officers in a variety of disciplines will be present on site, and safe firearm practices and procedures will be in place. We will provide shooting and safety instruction, ammunition, targets, eye and ear protection, and loaner firearms.

From North or South, take Route 93 to Exit 18. Take a left at the end of the exit. The Club will be on the left, after the gas station and store.
